500 C Street, SW
Washington, DC 20472

FEMA

JAN 0 6 2012

MEMORANDUM FOR: All FEMA Employees

FROM: William L. Carwile, III
Associate Administrator for Response and Recovery

SUBJECT: FEMA Incident Action Planning Guide

Forwarded for your immediate use is the *FEMA Incident Action Planning (IAP) Guide* incorporating incident management methodologies, and best practices.

The IAP Guide explains how to plan and execute operations during any incident. This document, based on the Incident Management Handbook (IMH), explains the Incident Command System (ICS) incident action planning process, describes how to use it during FEMA incidents, defines the specific roles and responsibilities of the various participants, and establishes standards for incident action planning during FEMA incidents. Accurate, consistent, and complete application of the guidance outlined in this document is essential to successful incident operations.

All FEMA staff, as emergency managers, should review the IAP Guide and provide full support to its implementation.

If you have any questions regarding this publication, please contact the Training, Exercise and Doctrine Office at FEMA-TED@fema.gov.

CHAPTER 1: INTRODUCTION

The Federal Emergency Management Agency's (FEMA) primary mission is to reduce the loss of life and property and protect the Nation from all hazards. When FEMA becomes involved in an incident, it is because the scope and scale of the incident necessitates Federal assistance. When FEMA is engaged, officials from the State and local government are also involved along with nongovernmental organizations (NGOs), elements of the private sector, and—more than likely—other Federal departments and agencies. Ensuring that the efforts of all players are coordinated and synchronized to achieve the best results is the job of incident management. It is also the reason that the National Incident Management System and the Incident Command System (ICS) exist.

Incident

The National Incident Management System Glossary defines incident as "an occurrence, natural or manmade, that requires a response to protect life or property." For the purposes of this guide, the term, *incident*, is used to refer to incidents in which FEMA is involved, generally in support of and in partnership with State, territorial, tribal, and local governments.

The incident action planning process provides a tool to synchronize operations at the incident level and ensures that incident operations are conducted in support of incident objectives. The iterative incident action planning process provides FEMA and all interagency partners involved in incident management operations the primary tool for managing incidents. A disciplined system of planning phases and collaboration sessions fosters partnerships and clearly focuses incident operations.

Over many years of managing all types and sizes of incidents, ICS practitioners have developed and refined the incident action planning process as a way to plan and execute operations on any incident. This means that incident action planning is more than producing an incident action plan (IAP). It is a set of activities, repeated each operational period, that provides a consistent rhythm and structure to incident management.

The organizations that originated ICS and use the system have, after many years of trial and error, developed a set of forms that *assist* incident personnel in completing this integrated process. Incident leaders must ensure that the plan being developed meets the needs of the incident. Such leaders must also ensure that the forms—while valuable for moving along the path—do not become the primary focus of the planning process. The completion of these forms assists the integrated and rational planning process. FEMA has slightly modified these standard ICS forms to address the implementation of assistance programs and the requirements for assigning resources. Incident action planning is an operational activity and must either direct or support operations.

Because ICS is the basis for managing incident activities, all incidents to which FEMA responds require the use of the ICS incident action planning process. All members of the Unified Coordination Group and the command and general staff play specific and essential parts in the process. This includes not just FEMA staff, but also our State and Federal interagency partners who are engaged in incident management. When each member plays his/her part correctly, the process is a tool that can bring order to the often chaotic world of managing complex incidents and enables incident management personnel to address problems that seem insurmountable.

Because incidents in which FEMA is engaged are complex and intergovernmental and interagency, applying the incident action planning process accurately, consistently, and completely is essential to the success of incident operations. Disciplined application of the incident action planning process produces positive effects on incidents of all size and scope and maintains the otherwise perishable planning skills of FEMA personnel.

While the process described in this guide outlines how FEMA as a part of the whole community executes incident action planning, those involved in a FEMA response and recovery must recognize that it will, in all probability, not be the only incident action planning process being executed (as illustrated in Figure 1 below). For example, local and municipal organizations may develop IAPs to guide the actions of first responders. For a catastrophic incident there may be hundreds of concurrent incident action planning efforts taking place simultaneously. The joint IAP that State and Federal incident management personnel develop must support all local IAPs and synchronize those at the State and Federal level.

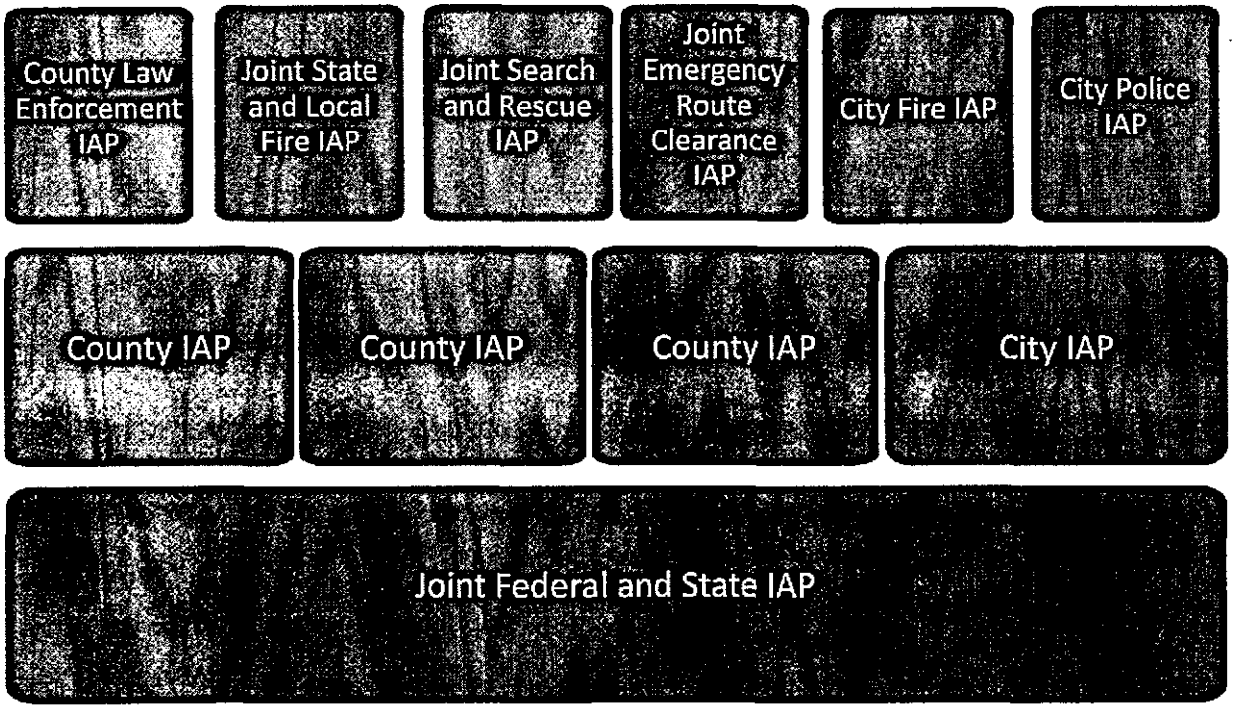

Figure 1: IAPs Developed Across All Echelons of an Incident

PURPOSE

This guide is intended to promote the effectiveness of FEMA incident operations by standardizing the incident action planning process. The guide explains the ICS incident action planning process, describes how FEMA applies it on all FEMA incidents, defines the specific roles and responsibilities of the various players, and establishes standards for incident action planning on FEMA incidents. This guide also communicates to FEMA's partners the details of how the agency conducts the incident action planning process.

This guide is also intended to serve as a reference for incident personnel and to provide the basis for FEMA incident action planning staffing and exercising. Finally, this guide informs the required training, position task books, and development of courses for the positions of the FEMA Qualification System.

APPLICABILITY AND SCOPE

The guidance contained in this *Incident Action Planning Guide* applies to all FEMA incidents, including those involving Presidential declarations under the Stafford Act, as well as incidents requiring a coordinated Federal response where the Stafford Act does not apply. **Compliance with this guidance is mandatory for all FEMA personnel.**

This guide is also intended to promote cooperation and interoperability among all levels of government, NGOs, and the private sector by communicating FEMA's commitment to incident action planning to our partners and sharing the details of how FEMA implements the process.

AUTHORITIES AND FOUNDATIONAL DOCUMENTS

A number of foundational documents provide statutory, regulatory, and executive guidance for FEMA disaster response. Some key foundational documents are as follows:

- Robert T. Stafford Disaster Relief and Emergency Assistance Act (Public Law 93-288, as amended, 42 U.S.C. 5121-5207)
- Title 44 of the Code of Federal Regulations, Emergency Management and Assistance
- *Homeland Security Act* (Public Law 107-296, as amended, 6 U.S.C. §§ 101 et seq.)
- Homeland Security Presidential Directive 5, 2003
- Post-Katrina Emergency Management Reform Act of 2006 (Public Law 109-295), October 4, 2006
- National Response Framework, January 2008
- National Disaster Recovery Framework, September 2011
- National Incident Management System, December 2008
- *The Federal Emergency Management Agency Publication 1,* November 2010
- Incident Management and Support Keystone, January 2011
- *Comprehensive Preparedness Guide 101–Developing and Maintaining State, Territorial, Tribal, and Local Government Emergency Plans*, January 2009

- *Presidential Policy Directive 8: National Preparedness*, March 2011
- *National Preparedness Goal*, September 2011
- *FEMA Incident Management Handbook* (FEMA B-761/Interim Change 1), expires January 1, 2013

CHAPTER 2: THE INCIDENT ACTION PLANNING PROCESS

INCIDENT ACTION PLANNING

Incident management personnel involved in an operation that the Federal Emergency Management Agency (FEMA) is coordinating use the Incident Command System's (ICS) incident action planning process to develop incident action plans (IAPs). All partners involved in the incident (Emergency Support Functions [ESFs], nongovernmental organizations [NGOs], and State) achieve unity of effort through its disciplined process. Additionally, the IAP is the vehicle by which the senior leaders of an incident; the governor of an affected state, through the State Coordinating Officer (SCO); and the President, through the Federal Coordinating Officer (FCO), communicate their expectations and provide clear guidance to those managing an incident. The incident action planning process requires collaboration and participation among all incident management leaders and their staffs from across the whole community.

The incident action planning process is built on the following phases:

1. Understand the situation
2. Establish incident objectives
3. Develop the plan
4. Prepare and disseminate the plan
5. Execute, evaluate, and revise the plan

The product of this process, a well-conceived, complete IAP facilitates successful incident operations and provides a basis for evaluating performance in achieving incident objectives. The IAP identifies incident objectives and provides essential information regarding incident organization, resource allocation, work assignments, safety, and weather.

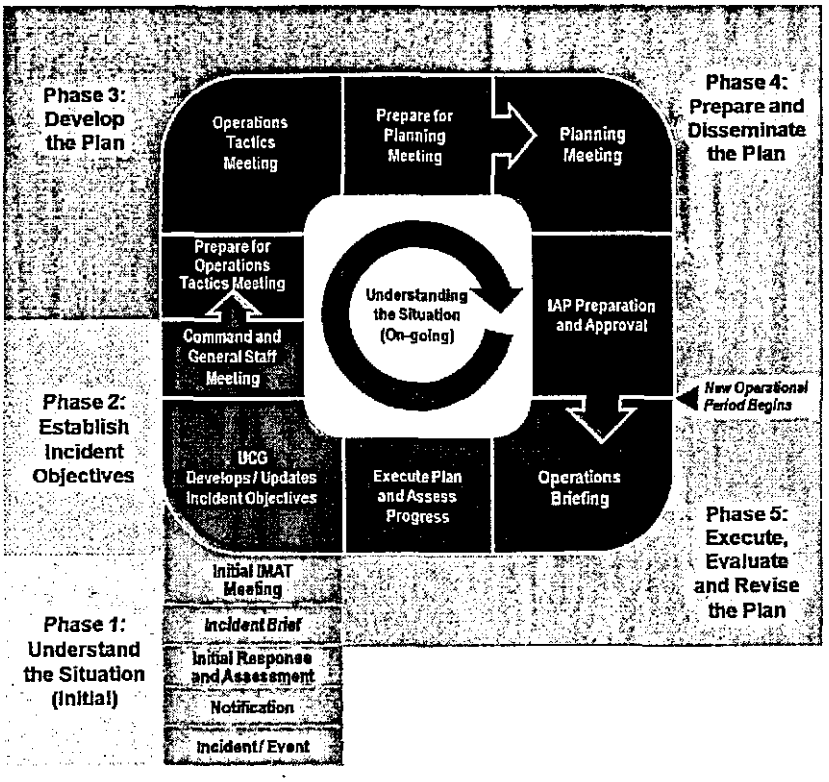

Figure 2: The Planning "P": The Incident Action Planning Process

ICS and the incident action planning process are used on all incidents in which FEMA is engaged—both Stafford Act and non-Stafford Act incidents. For Stafford Act incidents, an FCO is appointed by the President based on the recommendation of the Regional Administrator (RA) to manage Federal resources and support activities. For non-Stafford Act incidents, the Department of Homeland Security designates a Federal Resource Coordinator (FRC) to perform essentially the same functions that the FCO performs, but without the specific Stafford Act authorities. Both the FCO and the FRC lead an Incident Management Assistance Team (IMAT). In this guide, the term, FCO refers to both FCO and FRC, and all IAP guidance applies equally to Stafford Act and non-Stafford Act incidents.

The Planning "P" and the Operations "O"

The Planning "P" (Figure 2) depicts the stages in the incident action planning process. The leg of the "P" includes the initial steps to gain awareness of the situation and establish the organization for incident management. Although maintaining situational awareness is essential throughout the life cycle of the incident, the steps in Phase 1 are done only one time. Once they are accomplished, incident management shifts into a cycle that of planning and operations, informed by ongoing situational awareness, that continues and is repeated each operational period. This cycle, which is depicted in the barrel of the "P", becomes the Operations "O," (Figure 3).

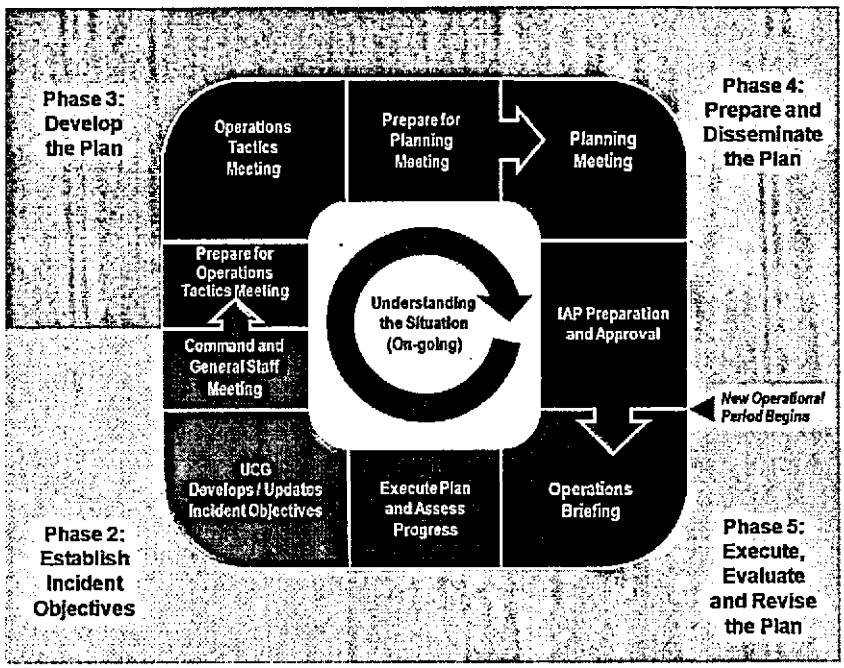

Figure 3: The Operations "O": The Operational Period Cycle of the Incident Action Planning Process

What is the IAP?

The IAP is a written plan that defines the incident objectives and reflects the tactics necessary to manage an incident during an operational period. There is only one FEMA IAP for each incident, and that IAP is developed at the incident level. The IAP is developed through the incident action planning process.

The IAP is a directive, "downward-looking" tool that is operational at its core; it is not primarily an assessment tool, feedback mechanism, or report. However, a well-crafted IAP helps senior leadership understand incident objectives and issues.

The following sections describe the phases in the incident action planning process.

The Operational Period

An operational period is the period of time scheduled for executing a given set of operational actions as specified in the IAP. The length of the operational period, typically 12 to 24 hours at the beginning of incident requiring extensive response efforts, is established during Phase 1 and subsequently reviewed and adjusted throughout the life cycle of the incident as operations require. When operations are focused primarily on recovery programs, operational periods are typically a week or longer.

PHASE 1: UNDERSTAND THE SITUATION

Effective actions during Phase 1 may mean the difference between a successfully managed incident and one in which effective incident management is achieved slowly or not at all. Phase 1 focuses on actions that take place prior to the first operational period.

While many important things are accomplished during this initial period, efforts focus on gaining an understanding of the situation and establishing initial incident priorities. Gaining an understanding of the situation includes gathering, recording, analyzing, and displaying information regarding the scale, scope, complexity, and potential incident impacts. Comprehensive situational awareness is essential to developing and implementing an effective IAP.

Initial incident priorities are generally established by higher level authorities such as the Governor of the affected State and the FEMA Regional Administrator (RA).

SAVER2

FEMA's geospatial viewer is called the Situational Awareness Viewer for Emergency Response & Recovery (SAVER2). This viewer displays data from emergency management partners to provide an integrated operational approach during response to disasters. SAVER2 is a two-way information sharing system that collects, processes, and displays real-time data from governmental and non-governmental partners.

Gaining Initial Situational Awareness

Obtaining accurate, reliable situational awareness during the initial hours of an incident is often challenging. Situational awareness is further complicated by the urgency of collecting, analyzing, and disseminating situational information.

Initial situational awareness involves the gathering of information from as many sources as possible, as quickly as possible, to ensure that decision makers have the knowledge they need to make the best possible decisions.

Collection

Information collection is based on established essential elements of information (EEIs) and critical information requirements (CIRs).

- **EEIs** are important and standard information items that incident managers need in order to make timely and informed decisions. EEIs also provide context and contribute to analysis. EEIs are included in situation reports.
- **CIRs** are particular elements of information specifically requested by incident leaders. These items are of such importance that leaders are notified immediately when the Planning Section receives updates on a CIR item.

Analysis

Analysis breaks down problems and issues into manageable smaller elements. In this way, complex problems that appear to be daunting may have achievable fixes. Analysis also

allows for the identification of sub-issues and problem areas that can be solved through effective decision making and planning.

Information analysis during Phase 1 consists of correlating, comparing, and filtering the available information to determine the critical issues and the potential for changes in the situation. This analysis allows leaders not just to understand what is going on, but what the effects of those impacts are.

Using a Deliberate Plan

Pertinent deliberate plans may serve as a guide to form incident objectives and tactics.

Dissemination

Information should be disseminated in a timely manner and provided in a readable format that the audience can easily understand. Doing this effectively during Phase 1, and throughout the incident, minimizes confusion, reduces duplication of effort, and facilitates effective and efficient management of incident resources. If dissemination is not effective, all efforts to gain situational awareness will fail.

On-going Assessment / Situational Awareness

Accurate situational awareness is essential throughout the life cycle of an incident. After the initial efforts to gain situational awareness, the iterative information collection process continues to inform all aspects of incident action planning. This process includes the collection, analysis, and dissemination of information to assist operations and support functions in planning for providing support and resources to disaster survivors during each operational period.

Appendix E *Maintaining Situational Awareness Throughout the Life Cycle of the Incident* provides details on this continuous assessment process.

Establishing Initial Incident Priorities

When senior officials establish priorities for the incident, a recommended approach is to articulate priorities based on the core capabilities described in the National Preparedness Goal (see Table 1). The core capabilities provide a standard list of the essential activities for preventing, protecting, mitigating, responding, and recovering. Framing incident priorities in terms of the core capabilities improves understanding through consistent titles, ensures that all the mission areas are considered, and helps to keep priorities focused strategically on desired outcomes.

Federal, State, tribal, and local deliberate plans may identify or suggest incident response priorities.

Clear initial priorities are important to establishing unity of effort early in the incident response process. When the members of the team clearly understand the intent behind instructions, they are equipped to act decisively and make better decisions. While many things vie for attention, especially in the immediate aftermath of a disaster, not everything

can be a priority. The axiom that if everything is a priority, then nothing is a priority clearly applies to incident management.

Table 1: Core Capabilities by Mission Area (from *National Preparedness Goal*, October 2011)

Prevention	Protection	Mitigation	Response	Recovery
Planning				
Public Information and Warning				
Operational Coordination				
Forensics and Attribution Intelligence and Information Sharing Interdiction and Disruption Screening, Search, and Detection	Access Control and Identity Verification Cybersecurity Intelligence and Information Sharing Interdiction and Disruption Physical Protective Measures Risk Management for Protection Programs and Activities Screening, Search, and Detection Supply Chain Integrity and Security	Community Resilience Long-term Vulnerability Reduction Risk and Disaster Resilience Assessment Threats and Hazard Identification	Critical Transportation Environmental Response/Health and Safety Fatality Management Services Infrastructure Systems Mass Care Services Mass Search and Rescue Operations On-scene Security and Protection Operational Communications Public and Private Services and Resources Public Health and Medical Services Situational Assessment	Economic Recovery Health and Social Services Housing Infrastructure Systems Natural and Cultural Resources

Developing the Action Planning Team

Incident action planning requires a collaborative effort by all members of the FEMA IMAT and State partners. This collaboration must also include other key Federal, tribal, local, NGOs, and private sector partners. The incident action planning process fosters teamwork by promoting communication, cooperation, and coordination. All team members support and participate in team development, and the UCG provides the leadership to ensure success.

Initiating Incident Action Planning

The following sections describe actions for initiating a successful incident action planning process. A successful incident action planning process involves specific actions based on situational awareness and operational needs. Figure 3 depicts the steps for initial actions during an incident.

Conducting Incident Action Planning Meetings and Briefings

Group process is key to incident action planning, and it is important that the meetings and briefings are conducted effectively and efficiently. Guidance for conducting these meetings and briefings is provided in the FEMA Incident Management Handbook (IMH).

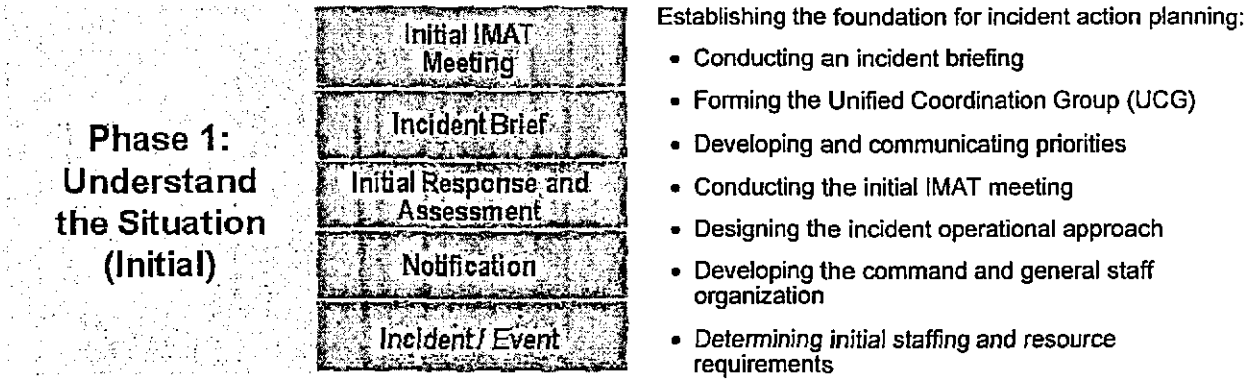

Figure 4: Phase 1 of the Incident Action Planning Process

Initial Incident Briefing

The RA (or designee) is responsible for providing the initial incident briefing to the FCO and the C&GS to prepare them for assuming control of the incident. An Incident Briefing (FEMA-ICS Form 201) can be used to present the information for this brief. The head of the Regional Response Coordination Staff (RRCS) is typically responsible for assisting the RA by collecting and presenting situational information to the FCO and C&GS, including the following:

- The situation
  - Boundaries and scope of the incident
  - Number of displaced survivors
  - Sheltering information
  - Critical infrastructure damage assessment, locations, and types
  - Status of communications and other utilities
  - Incident facilities, types, and location
  - Resources on hand, en route, and on order
  - State emergency management organization and facilities
  - Location of the initial operating facility (IOF)
  - Health-related concerns, including fatalities and injuries
  - Life-saving operations

    - Arrangements for use of military resources (i.e., joint force command, etc.)
- The documentation
    - Stafford Act declaration (indicates counties/jurisdictions declared, categories of assistance authorized, and cost share), or interagency memorandum of understanding for non-Stafford Act incidents
    - Pertinent deliberate plans
    - Maps of the incident area
    - Preliminary damage assessment
    - Geospatial information systems (GIS) products and satellite imagery
    - Telephone numbers and e-mail addresses for RRCS, State officials, and State emergency operations center and other incident facilities

The work product from this briefing is the RA delegating the authority for incident management and the control of assigned Federal resources to the FCO in writing. The delegation of authority document includes detailed instructions (leader's intent) for the conduct of the incident management and the RA's priorities.

The initial incident briefing also results in the FCO and C&GS having the requisite situational information to make informed decisions, including information regarding constraints and limitations.

Forming the UCG

Following the initial incident briefing, the FCO typically begins efforts to establish the UCG, including contacting the SCO and jointly determining other UCG members. Once the UCG is formed, members discuss:

- Issues and concerns
- The integration of Federal, state other stakeholders in a single incident organization
- Joint incident action planning
- Logistical processes and resource ordering
- Joint information center requirements
- Roles and authorities

NOTE: see Chapter 3 of the IMH for guidance on this meeting.

Developing and Communicating Priorities

In forming the UCG, members jointly establish initial incident priorities based on priorities of the Governor, the RA, and other authorities as appropriate. Incident priorities inform the C&GS's actions and serve as focus items in the initial IMAT meeting. When communicating incident priorities to the staff, the UCG must give the necessary guidance to ensure that the staff understands the intent and context of the priorities.

As indicated above, incident priorities are developed based on the National Preparedness Goal core capabilities. These priorities help to establish the order of importance for incident objectives developed during Phase 2 of the incident action planning process.

Initial IMAT meeting

The purpose of the initial IMAT meeting is to ensure that incident management personnel understand UCG expectations. In this meeting, the C&GS leaders represent the rest of the IMAT.

The Planning Section Chief (PSC) facilitates the initial IMAT meeting; however, as the leader of Federal response efforts, the FCO is the primary presenter, explaining the UCG's intent and articulating expectations regarding team interaction, information sharing, and team processes for planning, decision making, coordination, and communication. The FCO describes the composition of the UCG and his/her plans for integrating other UCG members into the IMAT. The FCO outlines assumptions that the team will use if actual information is not available, as well as direction regarding the development of the organizational structure for the incident. The FCO also reiterates FEMA's commitment to use the ICS (per the National Incident Management System and the *Incident Management Handbook*). Furthermore, the FCO reiterates the expectation for communication and collaboration with Federal, State, tribal, and local government partners as well as NGOs and the private sector.

Next, the FCO, Operations Section Chief (OSC), or PSC describes the initial strategies proposed to address the initial priorities and how the initial strategies are to be accomplished. The PSC or FCO then announces the start time, duration of, and incident action planning meeting schedule for the first operational period.

The results from the initial IMAT meeting are as follows: (1) all IMAT members understand UCG expectations, guidance, and direction (leader's intent) for the incident and initial strategies; (2) C&GS has a clear understanding of direction and guidance to begin developing the organization; and (3) agreement is reached regarding the time and duration of the initial operational period and the incident action planning meeting schedule.

The work products from the initial IMAT meeting are as follows:

- A list of UCG priorities and strategies (for distribution to the C&GS and to be displayed in the IMAT meeting room).
- The incident planning cycle schedule (to be displayed in the IOF/Joint Field Office [JFO]).
- The Meeting Schedule (FEMA-ICS Form 230) for the first operational period or initial incident action planning cycle (typically published and displayed in the IOF or the JFO).

Establishing the Organization

Before an organization can be implemented, the incident area must be considered and a decision made as to whether to establish a functional or geographic organization for FEMA/State incident activities. That decision dictates the operational approach to the incident and the FEMA and State OSCs work together to decide on it.

The OSCs' goal is to design an ICS-compliant organization that meets leader's intent, the agency's mission, and the incident's needs. This decision has a significant effect on operational outcomes and the achievability of IAPs. It also impacts the Logistics Section, Planning Section, Finance/Administration Section, External Affairs–Community Relations, and Safety. The OSCs design the incident carefully, because once the organization is established it is difficult to change.

Organization Guidance

Level I and II incidents should be organized geographically, because the scale and complexity of a Level I or II incident would be difficult to encompass functionally. Level III incidents are typically organized functionally; however, they could be organized geographically if it occurs across a large enough geographic area. Level III incidents do not have branch director positions in the Operations Section unless required to maintain an appropriate span of control.

Geographic Organization Overview

On large, complex incidents that include many counties and jurisdictions, a *geographic* organization is most appropriate. This provides Federal, State, tribal, and local officials with a single point of contact for all incident operations in defined and manageable geographic areas (divisions). This permits the assignment of incident resources to these divisions so they can be coordinated with local officials and managed by a single division supervisor. A geographic organization may also provide a greater span of flexibility in control of an incident than a functional organization can provide. Geographic organizations actually include a combination of geographic branches/divisions, functional branches/groups, and operational branches/groups. Geographic branches/divisions include Operations branch directors and division supervisors. Functional branches/groups may include Individual Assistance (IA), Infrastructure/Public Assistance (PA), Long-Term Community Recovery (LTCR), and Hazard Mitigation (HM), and. Operational branches/groups may include emergency services, air operations, staging areas, and disaster emergency communications.

OSCs use a map of the State emergency management organization (showing the State's regions, districts, etc.) to determine branch and division boundaries. Geographic branches and divisions are most effective when they align with existing state and local jurisdictions and boundaries. This allows emergency managers at all levels of the incident to properly align their activities with one another.

Geographic and Functional Organizations

In a **geographic organization**, responsibility for managing the incident is divided into geographic units called divisions and, depending on the number of divisions, geographic branches.

- Geographic organizations are headed by division supervisors and geographic branch directors.
- Geographically organized incidents also include functional groups (XXGS) and/or branches (XXBD) for functions such as IA, PA, LTCR, and HM. These functional groups are essential for planning and managing programs and assigning resources to specific divisions and/or branches and operational branches/groups such as Air Operations and Staging Areas.
- Geographic elements plan and manage operational activities in their area but do not perform all incident management functions, do not replicated the ICS C&GS structure, and do not function as mini- or sub-JFOs.

Because a geographic organizational configuration also includes functional groups, it is actually a hybrid, geographic-functional organization, but is referred to as a geographic organization for simplicity.

In a **functional organization**, responsibility for incident management organized strictly by function without the establishment of geographical units. For FEMA, function generally refers to FEMA programs, e.g., IA, PA, LTCR, and HM.

A geographic organization structure refers to how resources are assigned to accomplish work assignments. Functional branches and/or groups are essential for planning and managing their programs and assigning resources to specific divisions and/or branches. The primary difference is that when resources are assigned to divisions or branches, they report to the division supervisor or branch director to whom they are assigned.

Divisions are determined first. Then branches are established based on the number required to maintain the recommended span of control of five branches per division. In determining the size of divisions, OSCs consider damage, complexity, transportation and communication issues, and the assistance requirements of a particular jurisdiction. This helps to frame whether a dedicated division supervisor is necessary for each jurisdiction or whether one division supervisor can coordinate multiple jurisdictions. The OSC presents his findings and recommendations to the FCO and SCO for approval.

Functional Organization Overview

Functional organizations are generally the most appropriate structure for Level III incidents. Incident functional resources are assigned to appropriate groups that are coordinated with

State and local officials and managed by a single group supervisor. Groups are typically organized by functional area, such as PA, IA, LTCR, and HM.

Develop C&GS Organizations

The C&GS and their State counterparts jointly develop their organizations based on leader's intent, the situation, and the needs of the incident.

To do this, they validate current situational information and analyze it regarding current conditions, damage assessment, scale of the incident, and resource status (i.e., availability of personnel, equipment supplies, and facilities). They also review any pertinent deliberate plans.

The C&GS and their State counterparts then coordinate closely with the OSCs to determine whether the proposed geographic or functional incident design will affect how other organizational elements are structured.

Ultimately, the OSC determines what facilities (disaster recovery centers, staging areas, operations field offices, aviation facilities, camps, fueling stations, etc.) are required to meet incident needs. The OSC then discusses findings and recommendations with the FCO and SCO, or designee, for approval.

Once approved, information regarding C&GS organizations is provided to the Planning Section for the GIS Unit to build the initial incident map and to the Resource Unit to develop the initial Incident Organization Chart (FEMA-ICS Form 207).

Develop Staffing and Resources Requirements

After developing incident design and organizational structures, the C&GS identify the resources needed to staff and support their organization and meet UCG priorities.

To determine resource requirements the C&GS and State counterparts consult with the Planning Section Resources Unit to identify resources currently assigned. The consultation also yields such details as the kind and type of each resource, current location and status, identifier if assigned, and supervisor's contact information. If a required resource is not currently available, the C&GS/State counterpart contacts the Logistics Section Ordering Unit to determine what resources have been ordered. Finally, if a required resource is neither currently available nor on order, the appropriate C&GS/State counterpart orders them through the established ordering processes. More detailed information on the resource ordering process can be found in Phase 3.

Importance of Providing Clear Guidance

Providing clear operational guidance is an essential element of command at all levels within the incident organization. It provides subordinates with information that defines, refines and/or places into context assignments or directives. It addresses constraints and limitations, establishes parameters, and assists in better identifying an expected outcome.

PHASE 2: ESTABLISH INCIDENT OBJECTIVES

During Phase 2 the UCG establishes incident objectives and provides the guidance necessary to achieve these objectives.

Incident objectives drive the incident organization as it conducts response, recovery, and mitigation activities. The UCG establishes these objectives based on incident priorities, informed by situational awareness, leader's intent, and delegations of authority.

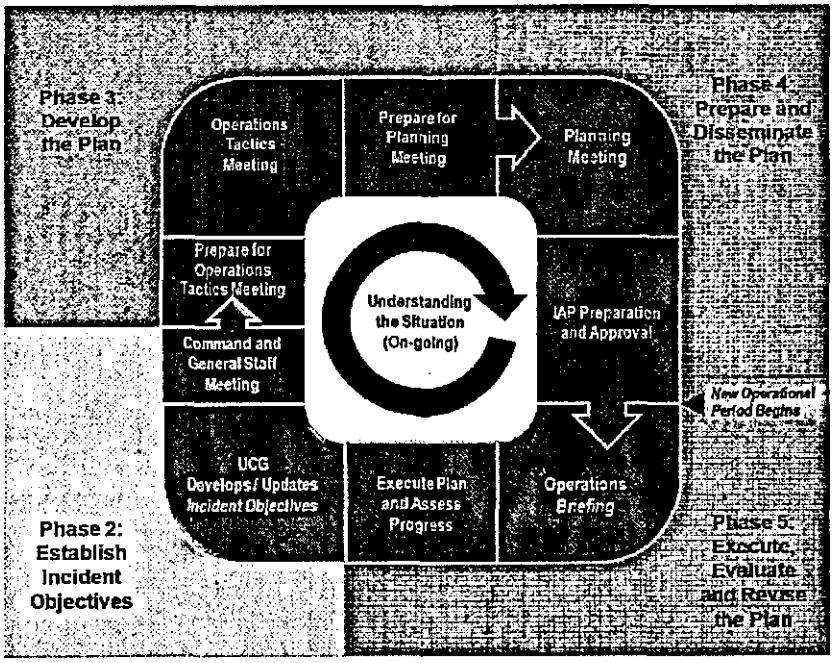

Figure 5: Phase 2 of the Incident Action Planning Process

Responsibilities

The UCG develops incident objectives and provides the guidance necessary for developing, resourcing, implementing, and evaluating the results of incident objectives. As the leader of Federal response efforts, the FCO is personally responsible for the development of incident objectives for FEMA. The C&GS often provide input to the UCG/FCO regarding incident status and operational requirements to support the development of incident objectives and the guidance to achieve them. **Planning Section** staff document the incident objectives on IAP Incident Objectives form (FEMA-ICS Form 202).

Priorities

Incident priorities initially established by leadership during Phase 1 are reviewed and modified as required during each operational period and help to clarify the order of importance of incident objectives. While incident objectives are based on requirements, priorities guide the allocation of resources to objectives. Although priorities help determine incident objectives, they are not listed on the IAP Incident Objectives (FEMA-ICS Form 202).

Senior leaders sometimes include non-operational priorities in their guidance. When this happens, these non-operational priorities are generally not addressed in the incident action planning process.

Incident Objectives

Management by objective is a key characteristic of NIMS and one which FEMA follows. Incident objectives, per NIMS are 'statements of guidance and direction necessary for the selection of appropriate strategies and the tactical direction of resources. Incident objectives are based on realistic expectations of what can be accomplished when all allocated resources have been effectively deployed'.

Good Incident Objectives:

- Are concise and stated in the form of a command
- Begin with an action verb (but not "continue" or "maintain")
- Provide "actionable guidance" for the Operations Section
- Address incident operations not administrative and internal support activities

Incident objectives must be flexible enough to allow for strategic and tactical alternatives. Incident objectives set guidance and strategic direction, but do not specify tactics. Incident objectives drive response and recovery activities. Simply stated, incident objectives answer the question of what must be accomplished. For example,

Install 200 temporary housing units in Wallace Borough by April 22, 2009.

In the initial stages of an incident response, objectives will often be quite general. For example,

Restore electrical service in Baldwin County.

is an acceptable incident objective in the immediate aftermath of a storm. As response work progresses, situational awareness improves, and resources status becomes clearer, objectives can become more specific, e.g.,

Clear emergency ingress and egress routes to Wright Beach[1] by October 1, 2011.

Incident objectives can be distinguished from tasks or work assignments by the fact that objectives do not answer the question who. Tasks/work assignments identify specific resources, specific locations, and must be accomplished within the operational period. Incident objectives, on the other hand, do not specify who will accomplish the action and are not necessarily to be achieved in the current operational period.

---

[1] Incident objectives often also answer the question of where the desired activity must be accomplished.

The UCG formulates incident objectives based on several factors: incident priorities and other direction from a higher authority, the situation, and members' professional judgment and experience. Incident objectives should be clear, measurable, achievable, and flexible. They include sufficient detail to ensure understanding, but are not be so prescriptive as to preclude innovation.

TABLE 2. PRIORITIES—OBJECTIVES—STRATEGIES—TACTICS, TASKS, WORK ASSIGNMENTS

Guidance Element	Description	Developer	Examples
Priorities	Define the intent of leaders, in general terms, with regard to the most important things that must be accomplished. They are generally expressed in terms of the core capabilities defined in the National Preparedness Goal.	Initially established by the competent authorities, e.g., Governor, FEMA Administrator, FEMA Regional Administrator; subsequently reviewed and adjusted throughout the life cycle of an incident by the Unified Coordination Group	Mass Search and Rescue
Objectives	Define what must be accomplished to achieve the priorities and based on best knowledge of the current situation and the resources available	Unified Coordination Group	Locate any remaining trapped survivors in affected areas in Memphis by October 1.
Strategies	Carefully devised plans of action to achieve one or more objectives. Strategies describe what actions and resources are required in working to achieve the specific objective.	*Operations Section Chief*	Deploy FEMA USAR teams, EMAC search and rescue assets from Kentucky and Indiana, and Canadian search and rescue teams to work in a unified operation under the tactical control of Memphis Fire Services.
Tactics/ Tasks	Define how specific actions will be performed to achieve a planned outcome. Tactics specify who, what, where, and when in describing the deployment and direction of resources for implementing strategies to achieve incident objectives. Tactics/tasks/ work assignments are initially recorded on Operational Planning Worksheet (FEMA-ICSForm 215) and subsequently reflected on the Assignment Lists (FEMA-ICS Form 204) and included in the IAP for the given operational period.	Operations Section Chief	California Task Force-3 will report to Memphis Fire Station 19 at the corner of Chelsea and Boxwood Street at 0600 [*of the operational period*] with all equipment and support personnel to deploy and operate under the direction of Memphis Fire Services until 1800. Specific direction for the team will be provided by Memphis Fire Service officials.

The following guidelines have been established ensure that incident objectives are handled consistently:

- Incident objectives are displayed on the Incident Objectives (FEMA-ICS Form 202). They are numbered sequentially from the beginning of the incident to its conclusion *and are not renumbered for each operational period.*

- Once achieved, incident objectives are not included on the Incident Objectives (FEMA-ICS Form 202) for subsequent IAPs.
- Incident objectives can be modified and maintain the same tracking number as long as the intent of the objective does not change.
- If an objective is modified, it is assigned a new sub-letter under the same objective number, and the old objective is retired. For example, if objective 2 is modified, it becomes 2a, and objective 2 is retired. If this objective is modified again, it becomes 2b, and 2a is retired.

- Incident objectives are prioritized by the UCG as operational period requirements dictate. Incident objectives are listed on the Incident Objectives (FEMA-ICS 202) in order of priority, regardless of their tracking number. The first listed objective is therefore the highest priority. The last listed objective is the lowest priority.

UCG Develops and Update Objectives

The UCG may meet before the C&GS meeting to review and, if necessary, revise incident priorities and determine the incident objectives for the next operational period. This meeting is often conducted informally and frequently includes the OSC and PSC.

The expected results of this meeting are:

- A common understanding among the UCG of the incident's issues and the key requirements of the response and recovery,
- Agreement regarding incident priorities and objectives for the next operational period,
- Recognition of constraints and limitations affecting accomplishment of incident objectives, and
- Operational guidance (for accomplishing incident objectives) that accounts for and mitigates identified limitations.

The work product from this meeting is a documented list of incident objectives.

The C&GS Meeting

The C&GS meeting is the opportunity for the UCG to meet with the staff to gather input or to provide immediate direction. It is also the opportunity for the UCG to articulate and approve incident objectives for the next operational period and to share important information regarding incident management.

The PSC facilitates this meeting. See Table 3 below for the meeting agenda. The UCG presents the priorities and incident objectives and articulates guidance on how incident operations should proceed. The participants review the incident objectives and discuss strategies for accomplishing the objectives.

Table 3: Agenda for the C&GS meeting

Agenda Topic	Briefed By
Roll call and introduction of new participants and guests	PSC
Opening remarks	UCG
Present incident objectives for the upcoming operational period	PSC
Describe/update current situation	Situation Unit Leader (SITL)
Open discussion, including the following: • Current status and issues • Constraints, limitations, and shortfalls • Input needed to finalize the incident objectives and strategies	OSC Others – as needed
Establish precedence of incident objectives based on incident priorities	PSC
Outline of guidance to achieve objectives	UCG
Open discussion (optional)	PSC
Closing remarks	UCG

PHASE 3: DEVELOP THE PLAN

Operational planning is a continuous process, but time-specific operational planning begins immediately following the C&GS meeting. The Operations Section develops strategies to meet incident objectives and tactics to accomplish the strategies. Operations Section staff match the work required to execute the tactics to resources to create work assignments which are documented on the Operational Planning Worksheets (FEMA-ICS 215). As work assignments are developed, the Safety Officer, Logistics Section Chief, Security Manager and others review the work assignments and provide input.

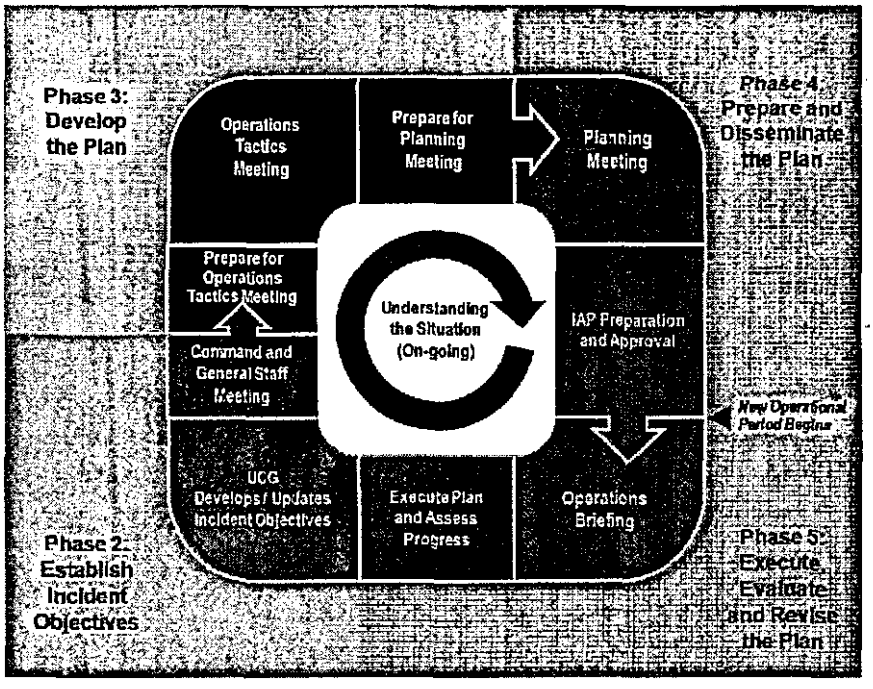

Figure 6: Phase 3 of the Incident Action Planning Process

Responsibilities for Operations Planning

The OSC has overall responsibility for operations planning. The OSC frequently delegates planning responsibilities to his/her primary staff based on the size, scope, complexity of the incident, and the particular FEMA programmatic expertise required. Responsibility for operations planning, however, should not be delegated to junior staff members who lack the standing or experience to make the required decisions or answer the questions that frequently arise. Primary responsibility for operations planning in FEMA incidents is not delegated to staff below the level of the following:

Table 4: Responsibilities for Operations Planning

Responsibilities for Operations Planning	Incident Level		
	I	II	III
Deputy OSC with planning responsibilities	X	X	X
Assistant OSC with planning responsibilities	X	X	X
Deputy Branch Directors or Assistant Branch Director-Planning	X	X	
Functional Group Supervisors			X
Deputy External Affairs Officer-Community Relations Deputy with planning responsibilities	X	X	X
Assistant External Affairs Officer-Community Relations, Planning	X	X	X

Strategies

Strategies are ways to achieve incident objectives. Strategies may be developed during all phases of an operation and by all elements involved in the operation and are not restricted to specific, short or long-term operational periods. Strategies describe what actions and resources are required to achieve specific objectives and are distinct from tactics, which address the conduct of specific operations. A strategy describes how things work; tactics describe what must be done. For example:

- **Strategy:** *Establish a mix of fixed and mobile disaster recovery centers (DRC) to provide easy access to FEMA programs for survivors at the following locations:* [list of locations follow]

- **Tactics:** *Identify when, where, and the type of DRC to be established.*

Determining Strategies

The process of developing strategies does not occur during a formal meeting. It is accomplished in the period between the C&GS meeting and the operations tactics meeting.

The Operations Section staff begins the process of developing strategies immediately when they receive the incident objectives for an operational period. The OSC develops strategies collaboratively with section staff and in consultation with others such as Logistics, Safety and Security personnel to ensure that the strategies are fully supportable. All strategies must be weighed against available resources, time and the probability of achieving the desired outcomes.

Strategy Development Tips

OSCs often hold an informal meeting with Operations Section staff members, who have operations planning responsibilities, to develop the operations strategies and to:

- Solicit broad input
- Ensure that staff understand and agree on the strategies developed
- Adjust strategies in consultation with *branch directors and group supervisors*

Good strategies:

- Are feasible, practical, suitable, and likely to achieve the desired outcome
- Meet acceptable safety norms
- Are cost effective
- Reflect sound environmental practices
- Consider political implications
- Address core capabilities

Strategies Inform the Development of Sound Tactics

Strategies are developed to accomplish the UCG's incident objectives and frame the development of tactics. Strategies must be complementary and able to be integrated into a single coordinated course of action. Effective strategies restrict the pool of possible tactics and help to ensure that tactical decisions do not conflict. Sound strategic planning takes into account dynamic situations, as well as constraints and limitations, in incidents.

Determining Tactics

Tactics define specific actions to be performed to achieve a planned outcome. Tactics specify who, what, where, and when for implementing strategies to achieve incident objectives. Tactics describe the deployment and direction of resources, based on the strategy to accomplish the incident objectives. Once the strategies have been developed, the operational planners identified in Table 4 are generally responsible for developing the tactics to implement the strategies taking into account constraints, limitations, and other considerations. Examples of considerations for determining resource requirements include what resources are available for the next operational period and whether any road closures or hazardous conditions may affect tactical implementation. Once the kind, type, and qualification of available resources are known and any constraints or limitations are identified, the tactical plan can be developed.

The following activities are used to develop the tactical plan:

1. Determine what has to be done to implement a strategy and what method(s) are likely to achieve success.
2. Develop a list of resources (personnel, teams, equipment, supplies, facilities) that are required.
3. Provide a list of resources available (this is done by the Resource Unit).
4. Compare the resources *required* with resources *available* and discuss the findings with the OSC prior to the operations tactics meeting.
5. Draft the tactical plan based on this analysis.

Additional personnel, supplies, services, and equipment required to implement the tactical plan are requested. This is done with the understanding that resources will usually not arrive in time to be applied in the next operational period.

Once that tactical plan has been developed and the requisite resources identified, Operations Section personnel select specific resources to perform specific work assignments. They then write work assignments for each resource and identify reporting locations.

Assigning Resources and Describing Work Assignments

Work assignments for resources that are not engaged in actual field operations are not included in the tactical plan unless the OSC determines that there is a compelling reason to do so. Operations Section personnel assigned to the incident, whose primary responsibility is

support rather than operations, are not included. Planning, administration, data entry, and report writing are examples of such resources and activities not included in the IAP.

Work assignments for the following operations leaders are not typically included: OSCs, geographic and functional branch directors, division and group supervisors.

Assign Resources to Operations Organizations According to Geographic Area or Functional Group

On FEMA incidents, functional operations resources and ESFs are initially assigned to a specific functional branch/group (IA, PA, LTCR, HM, ESF). Operations Section personnel consider requirements for each task and select the best resource. Representatives from the functional branches/groups and the primary agencies of the ESFs control their assigned resources when the incident is organized functionally.

On Level I and II incidents that are organized geographically, functional branches/groups assign their resources to geographical branches/divisions where the resources will be employed during the operational period. While assigned to a geographical branch/division these resources are under the supervision of the geographic branch director/division supervisor. Resources that are not so assigned remain under the supervision of the appropriate functional branch/group.

Those resources assigned to a geographic branch/division are under the supervision of the assigned branch director/division supervisor. That supervisor ensures that the work assignments prepared by the functional branches, groups, and ESFs are carried out as prescribed in the work assignment. Functional branches, groups, and ESFs may modify work assignments in coordination with the appropriate geographic branch director/division supervisor. Conversely, if changes are needed to meet State and local officials' concerns that affect functional resources assigned and their work assignments, the division supervisor consults with the geographic branch director, the appropriate functional branch director, the group supervisor, and the ESF lead.

If a resource will be assigned to more than one branch or division during a single operational period, a work assignment is prepared for each. If a particular resource will be doing multiple tasks in a single division, Operations Section personnel combine the work assignments on a single line on the Operational Planning Worksheet (FEMA ICS Form 215) and the appropriate Assignment List (FEMA ICS Form 204).

Also, when determining a reporting location, Operations Section personnel in a geographical organization refer to the incident map to determine to which branch and division the resource will be assigned. The incident map depicts the geographical boundaries of branches and divisions—boundaries that remain in effect throughout the life cycle of the incident. Branches and divisions can be combined when appropriate as work load diminishes. Combining branches and divisions means that multiple branches may be

assigned under a single branch director or multiple divisions are assigned under a single division supervisor. The branch/division boundaries and designators remain the same. For example, combining divisions A, B, and C under a single division supervisor would look the same on the map, but would identify the division as Division A, B, and C on the assignment list (FEMA ICS Form 204).

Write a Specific Work Assignment for Each Assigned Resource

The supervisor or person responsible for the implementation and completion of the work assignment should receive a sufficient amount of information for the implementation and completion of the assignment. This information should be clear and concise and include the following:

- Task to be accomplished
- Reporting time and location
- Level of effort required to accomplish the task
- Any special equipment required
- Logistical support needs
- Any contact information
- Any constraints or limitations

Identify the Reporting Location

The reporting location is where the assigned resource reports at the beginning of the operational period. This is not the branch, division, group, or ESF but the physical location to which the resource must report. Examples of reporting locations are:

- Address of the disaster recovery center
- Address or number of points of distribution for the delivery of commodities
- Location within a geographic and/or jurisdictional area for community relations (CR) activities
- Address and time for the PA applicants briefing
- Street address by the National Grid Reference System
- Rallying point

Sometimes a specific time for arrival may also be necessary as part of the work location. This could be a direction to *not* arrive before or after a certain time or a time frame in which the work assignment needs to be initiated. This information should be included with the reporting location when relevant.

Determine Logistical Support Needs to Complete the Assignment

Work assignments often require specific logistical support—requirements that the functional branches and groups are responsible for identifying. The Logistics Section receives these requirements and acts to meet them. Examples of such requirements are as follows:

- Needs for Individual Assistance mobile disaster recovery center #3:
  - Shade tent approximately 10x10 feet
  - Water for 200 people
  - 25 folding chairs
- Needs for Hazard Mitigation Community, Education, and Outreach Crew #1:
  - 1 folding table, 6 feet long
  - 5 folding chairs
- Needs for points of distribution #15:
  - 5 truckloads of water
  - 1 truckload of tarps
  - 2 truckloads of meals-ready-to-eat

Using the Operational Planning Worksheet (FEMA-ICS Form 215)

Developing the Operational Planning Worksheets (FEMA-ICS Form 215) is an essential part of the incident action planning process. The worksheets are particularly important to the success of response and recovery operations on larger incidents. The Operational Planning Worksheet (FEMA-ICS Form 215) aids Operations personnel in capturing their tactics and in identifying resource assignments prior to the operations tactics meeting. Reviewing these worksheets during the operations tactics meeting facilitates discussion and focuses on the review of tactics and resource assignments.

Functional operations branches/groups, ESFs, External Affairs (EA)–CR and geographic branches/divisions use the Operational Planning Worksheets (FEMA-ICS Form 215) to document the assignment of resources and supporting information as determined above. The worksheet is designed to capture work assignment information and to aid in both the operations review process and preparation of the IAP's Assignment Lists (FEMA-ICS Form 204). The figure below shows an Operational Planning Worksheet (FEMA-ICS Form 215). Instructions for completing the form follow.

FEMA-ICS Form 215 OPERATIONAL PLANNING WORKSHEET				1. Incident Name		2. Date Prepared Time Prepared	3. Operational Period (Date/Time)
4. Branch	5. Division/ Group	6. Functional Area	7. Resource Identifier	8. Contact Name & Phone Number	9. Qty	10. Work Assignment	11. Reporting Location/ Date/Time

Figure 7: Example of Operational Planning Worksheet (FEMA-ICS Form 215)

For each assigned resource, the following information is entered on the Operational Planning Worksheet (FEMA-ICS Form 215):

1. Include only resources that are either on-hand or that the Ordering Unit verifies have been ordered and will be on-hand for the assignment.
2. Enter the incident name in block 1.
3. Enter the date and time the form was prepared in block 2.
4. Enter the date and time for the operational period in block 3.
5. Enter the branch number in block 4.
    - If the resource is being assigned to a functional group, leave blank.
6. Enter division or group in block 5.
    - For a division, this will be a letter.
    - For a group, this will be an abbreviation or term such as IA, PA, HM, CR, Staging, or specific ESF.
7. Indicate a geographic or functional operations organization assignment in block 6, citing the following according to the level of the incident:
    - For Level I and II incidents involving a geographic branch, show the branch number (I, II, III, etc.) and division letter (A, B, C, etc.).
    - For Level I and II incidents involving a functional branch, cite the branch (IA, PA, HM, LTCR, etc.) and any operational branches/groups such as air operations, staging, and disaster emergency communications.
    - For Level III incidents, cite the functional group (IA, PA, LTCR, HM, etc.) and any operational groups such as air operations, staging, and disaster emergency communications.
8. Enter the resource identifier for the assigned resource in block 7.
    - Consult with the Planning Section's Resource Unit for resource identification information.

- When there are multiple resources of the same kind and type, ensure each resource has an individual resource identifier assigned (i.e. MDRC #3, CR Crew #3, etc.)

9. Enter the contact name and phone number for the resource in block 8.
    - Consult with the Planning Section's Resource Unit to identify the resource contact name and number.
10. Enter the number of people or the quantity of the resource in block 9.
    - The number of people assigned to the resource (i.e. Crews, Task Force, etc.) or
    - The quantity of the resource (liters of water, number of meals ready to eat, number of tarps, etc.).
11. Enter the work assignment in block 10.
12. Enter the reporting location, time (as needed), and logistical needs in block 11.
    - For operational periods longer than one day, the date should be added if needed.

Once the draft worksheet is completed, it is transmitted electronically to the Resources Unit prior to the operations tactics meeting. The PSC and OSC negotiate the actual deadline, and the OSC is responsible for ensuring that the deadline is met.

The Resource Unit captures all Operational Planning Worksheets (FEMA-ICS Form 215) and prepares them for display, review, and editing at the operations tactics meeting.

The Operations Tactics Meeting

The purpose of this meeting is to review and finalize the draft Operational Planning Worksheets (FEMA-ICS Form 215). To accomplish this, the OSC leads participants in reviewing the work assignment drafts to determine whether they are complete and whether they support the incident objectives and strategies. Participants also identify gaps and duplication in work assignments and resolve any conflicts or coordination issues. Participants should also ensure that resources are identified correctly (resource identifier) and when there are multiple resources of the same kind and type, there is an individual identifier assigned. Participants also consider resource and logistical issues; and identify shortfalls, excesses, safety issues, and the accuracy of the incident map.

Participants in the operations tactics meeting include functional branch directors (or designee for branch planning); functional group supervisors (when no branch director is assigned); ESF leads; the CR lead or designee for CR Operations Planning; the geographic branch director (operations branch directors) and division supervisors (if requested by the OSC); the Resource Unit Leader (RESL); the Logistics Section Chief (LSC); and the Safety Officer (SOFR) and Liaison Officer (LOFR). The following may also attend: the Security Manager, the Finance/Administration Section Chief; the EA Officer; the PSC; and the Situation Unit Leader.

Informational items available at the operations tactics meeting, supplied by the Planning Section, include the list of current incident objectives, a large incident map, a list of

operational resources (including the unassigned resources available for assignment), and displays of any other information pertinent to the meeting.

Table 5: Agenda for the Operations Tactics Meeting

Agenda Topic	Briefed By
Review established incident objectives	OSC
Review, discuss, and concur on draft work assignments (Operational Planning Worksheets (FEMA-ICS 215))	OSC
Ensure Resources Identifiers are correctly assigned	OSC
Identify resource shortfalls and excesses	Resources Unit Leader
Identify the logistical needs of the work assignments	Logistics Section Chief
Discuss and address the safety issues of the work assignments	Safety Officer
Consider the limitations and needs of ESF support	Liaison Officer
Approve the Operational Planning Worksheets (FEMA ICS-215)	OSC
Update the incident map	OSC & Logistics Section Chief
Discuss other topics as needed	OSC

At the conclusion of the meeting, the Resources Unit collects copies of the approved Operational Planning Worksheets (FEMA-ICS 215). Copies of the approved FEMA-ICS Form 215s are submitted to the Planning Section Documentation Unit.

PHASE 4: PREPARE AND DISSEMINATE THE PLAN

Phase 4 begins when the Planning Section receives the approved Operational Planning Worksheets (FEMA-ICS Form 215) from the Operations Section at the conclusion of the operations tactics meeting. It ends with the IAP being approved at the planning meeting and signed by the UCG. The Planning Section (Planning Support Unit Leader) is responsible for completing the appropriate IAP forms and assembling the IAP. Other sections contribute key information and supporting documents.

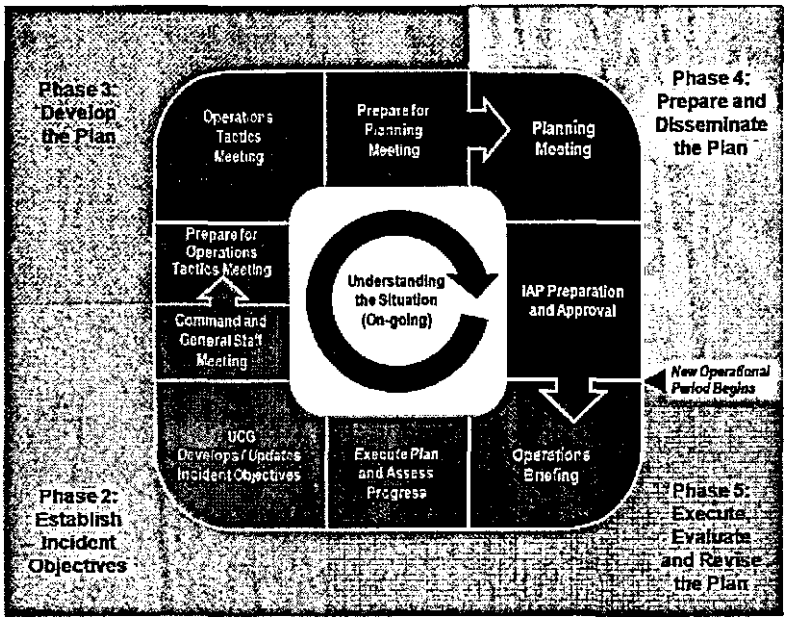

Figure 8: Phase 4 of the Incident Action Planning Process

At the end of this phase, a draft IAP has been approved by the UCG. The items that comprise the IAP are listed in Table 6, below, along with pertinent information on each item.

Table 6: IAP Components and Sequence of Assembly

Order	Form (FEMA-ICS Form)	Title	Required	Prepared by
1	200	Cover Sheet	Always	Planning Support Unit Leader
2	202	Incident Objectives	Always	SITL
3	205	Incident Radio Communications Plan	As the incident requires – Radio Use	Communications Unit Leader
4	205A	Incident Telephone Communications Plan	Always	Resource Unit Leader
5	207	Incident Organization Chart	Always	Resource Unit Leader
6		Incident Map	Always	SITL/GIS Unit Leader
7	204	Assignment List	Always	Resource Unit Leader
8	220	Air Operations Summary	As the incident requires - Air Ops	OSC/Air Operations Branch
9	206	Medical Plan	Always	Safety Officer
10	230	Meeting Schedule	Always	SITL
11	213	General Message	Optional	Any Message Originator
12	Other components as needed		Optional	Planning Support

Planning Section Responsibilities

This section is responsible for collecting the various components of the IAP and compiling them during the time between the operations tactics meeting and the planning meeting.

Planning Section Chief

The PSC is responsible for producing the draft IAP. He/she will also track any changes made to the draft IAP during the final review and approval process.

- ***Overseeing the IAP's Preparation*** - The PSC oversees the preparation and assembling of the draft IAP to ensure that it is completed in time to be presented at the planning meeting. The PSC ensures the quality and completeness of the IAP which includes coordinating with other sections and functions. The PSC adjudicates requests to add items to the IAP.

- ***Reviewing the Assembled Draft*** - The PSC schedules time with the OSC to review the IAP prior to the planning meeting.

- ***Facilitating the Planning Meeting*** - The PSC is responsible for scheduling, managing, and facilitating the planning meeting. (See the planning meeting section below.)

- ***Ensuring the IAP is Approved*** - While all players in the incident action planning process contribute to the success of the plan, the PSC is responsible for obtaining the UCG's approval for the IAP.

Resources Unit

The Resources Unit is responsible for preparing a number of forms that are key to the IAP. Those forms include the following:

Assignment List (FEMA-ICS Form 204)

The Planning Section prepares the Assignment Lists (FEMA-ICS 204) using data the Operations Section provided on the Operational Planning Worksheets (FEMA-ICS Form 215). It is the heart of the IAP and must be organized in a way that enables staff to clearly understand their work assignments. The Assignment List is prepared in accordance with the following guidance:

TABLE 7 ASSIGNMENT LISTS DOS AND DON'TS

DO's	Don'ts
• Sequence the Assignment Lists (FEMA-ICS Form 204) according to the organization chart for the Operations Section (e.g., Branch I and Divisions A through G, followed by Branch II and Divisions H through N, followed by IA Branch and Groups, PA Branch and Groups, HM Branch and Groups, etc.) • If the incident is organized geographically, organize the Assignment Lists (FEMA-ICS 204) geographically; if the incident is organized functionally, organize the Assignment Lists (FEMA-ICS 204) functionally. • List all resources working in a particular division on that division's Assignment List (FEMA-ICS Form 204). • Specify exactly which resource (individual, task force, team, crew, or squad with a designation number or other specific nomenclature) is responsible for each work assignment. • Ensure that names, contact numbers, and resource identifiers are correct.	• Do not modify the form or use a modified form. • Do not include work assignments for positions that are not engaged in field operations. • Do not include work assignments for OSCs, geographic and functional program branch directors, division supervisors, and managers assigned in the JFO on the Assignment List (FEMA-ICS Form 204). • Do not include objective numbers on the work assignment. • Do not include more than one work assignment line for an individual, task force, team or crew on the Assignment List (FEMA-ICS Form 204) for any particular division. A particular individual, task force, team, or crew may, however, be assigned to more than one division Assignment List (FEMA-ICS Form 204) when assigned to work locations in other divisions. Combine multiple work assignments and display them on one assignment line. • Do not leave blocks blank. Where information for a block is not available, use placeholders ("TBD," "N/A," or "UNK") to indicate that the topic of the block has been addressed.

Incident Telephone Communications Plan (FEMA-ICS Form 205A)

The Incident Telephone Communications Plan (FEMA-ICS 205a) is a telephone contact list of key staff and staff agencies (FEMA, State, other Federal agencies, etc.). The Resource Unit prepares and maintains this plan.

Important considerations when preparing the Incident Telephone Communications Plan (FEMA-ICS Form 205A) are as follows:

- For Level I and II incidents, include only positions at (i.e., personnel assigned to) the division/group supervisor and unit leaders levels and above.
- Ensure that the information on the plan is consistent with the information on the Incident Organization Chart (FEMA-ICS Form 207).
- Ensure that contact numbers listed for FCO, SCO, and other key staff are desk phone numbers for their administrative assistants. Do not list personal cell phone numbers for any staff members.

Incident Organization Chart (FEMA-ICS Form 207)

Organization charts are important to inform staff not only how the staff is organized, but also what positions are filled, and who is assigned to key positions. On Level I and II incidents, the Incident Organization Charts (FEMA-ICS Form 207) include positions/personnel assigned as unit leaders, group/division supervisors, managers (where appropriate), and above. The *Incident Management Handbook* (IMH) provides guidance for displaying appropriate incident organizations. The Incident Organization Chart (FEMA-ICS Form 207) should accurately reflect the organization.

The Planning Section prepares and maintains the Incident Organization Chart (FEMA-ICS Form 207), using the following important considerations:

- Include geographic branch director(s) and divisions on incidents that are organized geographically. Use program branches (IA, PA, LTCR, and HM), Air Operations Branch, Long Term Community Recovery Branch, etc. when applicable. (See IMH, Chapter 5, Operations Section).
- Include the major components of the C&GS organization on the organization chart. Also include FEMA program areas when they are assigned, which are typically organized and displayed as branches but may be displayed as groups on smaller incidents.
- Display the organization on the organization chart according to the general incident organization structure in the IMH.
- Show deputy positions box in the same box as the primary position. Deputies do not have separate organizations under them. If there is a need for additional positions to accommodate span of control, assign assistants.
- Ensure that position titles and names on the organization chart are consistent with the position titles and names on the Incident Telephone Communications Plan (FEMA-ICS Form 205a) and throughout the IAP.
- On Level I and II incidents, include only division/group supervisor and unit leader positions and above on general staff organization charts. Include only managers/advisors and above on command staff organization charts.
- For Level I and II incidents, include no more than two organization charts in the IAP (typically one for C&GS organization and one for the Operations Section).
- For Level III incidents, include all the positions/names of the whole organization on the organization chart.

Situation Unit

The Situation Unit is responsible for the preparing the Incident Objectives (FEMA-ICS Form 202), Meeting Schedule (FEMA-ICS Form 230), and coordinating the development of the Incident Map with the GIS Unit. The Situation Unit Leader (SITL) also delivers the situation briefings at the C&GS meeting, the planning meeting and may brief at the operations briefing. The SITL also develops and maintains other key information items, including maps and situational displays that are typically posted in the planning meeting room.

Incident Objectives (FEMA-ICS Form 202)

The first page of the IAP (after the cover sheet) is the Incident Objectives (FEMA-ICS Form 202). In addition to the objectives, this page also provides weather and safety information.

Important considerations when preparing the Incident Objectives (FEMA-ICS Form 202) form include the following:

- Include only incident objectives in Block 5.
- Number objectives sequentially from the beginning of the incident; do not renumber objectives for each operational period.
- List the incident objectives in order of priority regardless of their tracking number.
- Cross out or remove incident objectives that have been achieved.
- Do not include items of guidance labeled "goals," "priorities" or "incident priorities."
- Focus the weather message on weather predicted for the operational period that may affect operations.
- Focus the safety message on information that is relevant and actionable for field personnel.

Meeting Schedule (FEMA-ICS Form 230)

The Meeting Schedule (FEMA-ICS Form 230) describes the important incident meetings that will take place during the operational period and indicates where and when they will be held. The schedule also describes the purpose of the meetings. There is some discretion with regard to what meeting are listed on the schedule, incident action planning meetings and briefings are always included. The meeting schedule helps to ensure that other meetings do not conflict with incident action planning meetings.

Important considerations when preparing the Meeting Schedule (FEMA-ICS Form 230) include the following:

- List and conduct the following for each operational period: C&GS meeting, operations tactics meeting, planning meeting, and operations briefing.
- Use common terminology, as identified in the *Incident Management Handbook,* to describe all meetings and briefings. (Refer to IMH Chapter 9 for further guidance.)
- Do not include items on the schedule that are not meetings or briefings.

Incident Map

The incident map is an essential IAP component that identifies key incident facilities and operational boundaries. The Situation Unit provides information and coordinates with the GIS Unit to produce the map. The OSC is responsible for ensuring that map content is current and appropriate.

Important considerations when preparing the incident map include the following:

- Include the following on the incident map:
  - Scale
  - True north
  - Date and time
  - Legend
  - Incident organization boundaries (branches and/or divisions, etc.)
  - Key facilities
  - Camps
- Use naming conventions and map symbols as shown in Appendix B.
- Produce the map in black and white to facilitate reproduction.
- Additional, special purpose maps may also be attached to the IAP (e.g., DRC map)

IAP Cover Sheet

The IAP cover sheet provides specific information about the IAP and the incident IAP cover sheets must be consistent with and reflect FEMA standards. Logos may be used on cover sheets for FEMA, the State, and other UCG member organizations, and must be produced in black and white. IAP cover sheets must contain the following information:

- Title (e.g., Joint Incident Action Plan)
- Plan number (the first IAP completed is 01; subsequent IAPs are numbered sequentially.)
- Incident name that identifies the nature of the disaster (e.g., severe storms)
- Declaration numbers for Stafford Act incidents and for any State or other UCG organization declarations
- JFO/IOF address with U.S. National Grid coordinates
- Operational period (date and time)
- Signature blocks for the SCO, FCO, and any other UCG members

Safety Officer Responsibilities

The Safety Officer is responsible for developing the general safety message on FEMA-ICS 202, Safety Analysis (FEMA-ICS Form 215A), and the Medical Plan (FEMA-ICS Form 206).

General Safety Message on FEMA-ICS Form 202

The Safety Officer prepares the general safety message to be included on the Incident Objectives page (FEMA-ICS Form 202) for each IAP. The message focuses on information that is relevant and actionable to field personnel for operations during the operational period. The message may be changed for each operational period based on conditions.

Medical Plan (FEMA-ICS Form 206)

The Medical Plan (FEMA-ICS Form 206) is key to the welfare of incident personnel and is included in all IAPs. The Medical Plan (FEMA-ICS Form 206) provides important information

on medical emergency procedures and the locations and phone numbers of medical aid facilities, emergency medical transportation, and hospitals in the incident area.

Important considerations when preparing the Medical Plan (FEMA-ICS Form 206) are as follows:

- List urgent care and hospital emergency rooms as well as incident aid stations established at the JFO and incident camps in block 5, "Incident Medical Aid Stations."
- Indicate the emergency phone number in block 6, "Transportation."
- If an ambulance is assigned to the incident, include the location and phone number in block 6.
- List in block 7, "Hospitals," not only the facility that normally services the main JFO but also the hospitals located throughout the incident area. (Typically those selected have emergency room capability.)
- Include sufficient information in block 8, "Emergency Medical Procedures," to enable incident employees to know what to do and whom to notify in the case of a medical emergency.

Safety Analysis (FEMA-ICS Form 215a)

The Safety Officer reviews the Operational Planning Worksheets (FEMA-ICS 215) and develops the Safety Analysis (FEMA-ICS 215a) in coordination with Operations Section staff as they develop the worksheets. The Safety Analysis (FEMA-ICS 215a) contains the results of a systematic analysis of risks associated with each work assignment. This analysis assists Operations Section personnel in altering tactics, if necessary, to promote the safety of the field personnel. If this alters the work assignments or the resources required, the Safety Officer confers with the OSC and the PSC so that the Assignment List (FEMA-ICS 204) can be adjusted.

Planning Support Unit

The Planning Support Unit compiles the completed ICS forms for the IAP, prepares the IAP cover sheet, and performs a quality control check on the IAP.

General Staff

The Logistics Section and the Operations Section's Air Operation Branch are responsible for preparing and maintaining certain components of the IAP.

Logistics Section

On incidents where radio communications are used, this section is responsible for preparing the Incident Radio Communications Plan (FEMA-ICS 205) and the traffic plan.

Incident Radio Communications Plan (FEMA-ICS Form 205)

The Communications Unit in the Logistics Section prepares the Incident Radio Communications Plan (FEMA-ICS Form 205) when radios are a significant part of operational

communications to provide specific incident radio frequency assignments for the operational period. The Plan should identify all assigned radio frequencies, trunked radio systems, and talk group assignments for the operation elements identified on the Incident Organization Chart (FEMA-ICS Form 207) and the Incident Organization Assignment List (FEMA-ICS 203).

Traffic Plan

The traffic plan is included in the IAP, when required, but does not have an ICS Form number. The Ground Support Unit prepares the traffic plan when incident personnel must be informed of special traffic requirements, including required routes of travel, missing directional signage on incident transportation routes, and special driving conditions.

Air Operations Branch (Operations Section)

Air Operations Summary (FEMA-ICS Form 220)

When the Air Operations Branch is activated, it prepares the Air Operations Summary (FEMA-ICS Form 220) to be included in the IAP.

Additional Items to the IAP

Additional items may be attached to the IAP on a case-by-case basis with the concurrence of the OSC and PSC.

The Planning Meeting

The Planning Meeting is facilitated by the PSC. The purpose of the meeting is to approve the IAP for the next operational period. The meeting provides the opportunity for the C&GS, as well as other incident management personnel, agency officials, and cooperating/assisting agencies and organizations to discuss and resolve any outstanding issues before assembling the IAP. After the review has been completed and updates have been made, C&GS affirm their commitment to support the plan.

Table 8: Agenda Items for the Planning Meeting

Agenda Topic	Briefed By
Review agenda	PSC
Provide opening remarks	UCG
Provide briefing on current situation and national implications	SITL
Review incident objectives	PSC
Present and review the draft Assignment Lists (FEMA-ICS Form 204)	OSC
Ensure that the draft operational plan meets incident objectives	PSC
Review any open actions/tasks	PSC
Solicit feedback from the C&GS	PSC
Obtain commitment from the C&GS to support the plan	PSC
Obtain the UCG's approval of the IAP	PSC
Final comments and direction	UCG

In the planning meeting, the OSC elaborates, as necessary, on the strategy and tactics to be employed during the operational period.

Situational Briefing at the Planning Meeting

The Situation Unit Leader (SITL) is responsible for preparing and presenting the situational briefing at the planning meeting. The situational briefing is a concise presentation that updates the UCG and C&GS on the current situation. The PSC and the SITL consult with the OSC in preparing this briefing.

After the Planning Meeting

The PSC is responsible for making changes to the IAP that were agreed upon during the planning meeting. The PSC does this by directing the Planning Support Unit to make all necessary changes. The PSC also ensures that the final IAP is signed by the appropriate members of the UCG.

Printing and Distributing the IAP

Once the IAP has been approved by the UCG, it is ready to be printed and distributed. This is the responsibility of the PSC. The Planning Support Unit reproduces the IAP and distributes it in several ways. The unit typically provides the IAP in hard copy to the UCG and members of the C&GS. The Documentation Unit also distributes the IAP electronically by attaching it to e-mails and posting it to portals such as the Homeland Security Information Network, the JFO common drive, and the FEMA (Electronic) Bulletin Board.

The target audience for the IAP is branch directors, division and group supervisors, task force leaders, team leaders, crew bosses, squad leaders, and incident support staff. Field supervisors are responsible for distributing the IAP to their staff.

PHASE 5: EXECUTE, EVALUATE, AND REVISE THE PLAN

Phase 5 begins with the operations briefing and continues as the the IAP is executed, evaluated in preparation for it to be revised during the next operational period.

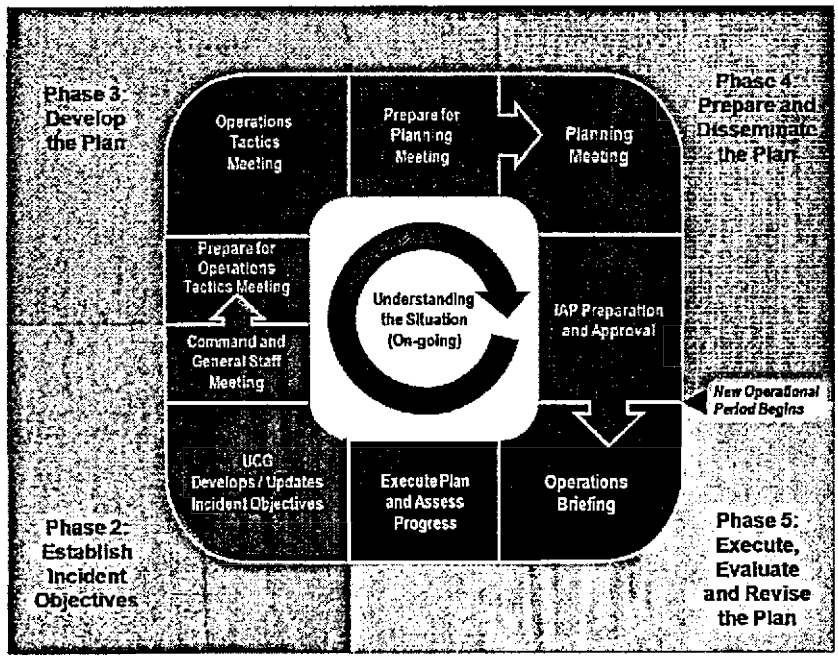

Figure 9: Phase 5 in the Incident Action Planning Process

Operations Briefing

The OSC conducts the operations briefing before each operational period begins, ensuring that those who need the information have access. The purpose is to roll out the IAP for the upcoming operational period. The OSC may adjust work assignments or resource allocations during the briefing.

Table 8: Template Agenda for Operations Briefing

Agenda Topic	Briefed By
Review incident objectives	OSC
Review weather conditions and forecast	SITL
Present the current situation	OSC/SITL
Brief operations field personnel	OSC
Communications	Communications Unit Leader
Logistics	Logistics Section Chief
Safety	Safety Officer
Finance	Finance Section Chief
Other items	Technical Specialists

C&GS members receive the briefing if they are supporting field personnel identified in the IAP. Attendees also include branch directors, division/group supervisors, and others as needed.

Once the IAP has been distributed and the operations briefing has been held, the IAP is executed. As field personnel perform their work assignments, supervisors assess the progress and the effectiveness of the work. This assessment often requires field visits to observe progress. Individuals, crews, and task forces inform their supervisors of the status of assignments. The Operations Section personnel, in turn, keep the Planning Situation Unit apprised.

Changes are often required to reassign resources or modify work assignments during the operational period. These changes must be communicated to the OSC through the branch directors, division supervisors, and group supervisors, The OSC, in turn, communicates the changes to the Planning Section.

Why is an IAP useful to incident personnel?

- It gives staff the clear objectives of State and Federal leaders. Staff validate that their actions are in support of those objectives and tailor their efforts to support them.
- It shows how individual fit in the organization.
- It provides an roadmap of all operations during an operational period to help individuals understand how their efforts affect the success of the operation.
- It clearly identifies work assignments to be accomplished.
- It provides a tool to communicate what *your* organization is doing to ensure that it is properly supported
- It provides a tool for staff so they can best synchronize and deconflict their efforts by showing what the entire operation is doing
- It provides a schedule of the key events during operational periods.
- It provides key information about safety, provides phone numbers of key staff, and graphically represents the incident area.

Assess Progress and Effectiveness

During supervisory visits, field personnel also provide their own assessments of their effectiveness during the operational period. Such personnel provide these assessments through their supervisors to Operations, who pass updated information to the Planning Section Situation Unit. If field personnel do not do this during each operational period—and the Situation Unit does not provide a method to gather field input—then the effectiveness of the next IAP may be compromised. Accurate assessment of what was accomplished during the operational period is required to inform situation reporting and planning for the next operational period.

Ending Incident Action Planning

As an incident progresses and a steady operational tempo is achieved, the UCG should consider ending incident action planning. No set rules exist on when to stop developing IAPs. This decision lies with the FCO and the UCG. The following criteria may be helpful.

Consider halting incident action planning when:

- Response activities have ended
- There is no remaining threat to life or property
- The work occurring in the JFO is primarily programmatic.
- The preponderance of effort in the Planning Section is focused on *reporting* rather than *planning*.
- All ESF resources except staff have been demobilized.
- Operations are being conducted under a Recovery Support Function (RSF) organization.
- The operational period is longer than six days.
- Most Planning Section efforts are focused on reporting rather than planning
- A Recovery Support Strategy is in place and being executed.
- The transition from a JFO and a standard ICS structure to a National Disaster Recovery Framework structure is underway or complete.

APPENDIX A: HOW TO DEVELOP INCIDENT OBJECTIVES

Incident objectives are the focal point for conducting all response and recovery activities. They represent the Unified Coordination Group's (UCG) intent for the conduct of the incident. Writing good incident objectives can be as challenging as it is important. The following basic rules may be helpful.

Good incident objectives are formulated based on the following:

I. Incident priorities
   a. What are the most important things that need to be done?
   b. What core capabilities are involved?

II. Direction from a higher authority (leaders' intent):
   a. Memo, letter, or verbal direction from a competent State or Federal authority
      i. Governor's guidance for Stafford Act incidents
      ii. Delegation of authority (from the Regional Administrator to the FCO, for example)
         1. Limitations and restrictions
         2. Political considerations
         3. Specific instructions or requirements
      iii. Agency administrator briefing

III. An understanding of the situation, including the following:
   a. Incident level, location, complexity and scope
   b. Incident requirements
   c. Kind, type, number of available resources
   d. Constraints and limitations
   e. Environmental conditions
   f. Complexity analysis
   g. Disaster declaration
   h. Preparedness (deliberate) plans
   i. Existing agency agreements

IV. Professional judgment and experience of the participants

Incident Objectives should be developed and written with the following characteristics:

I. They should reflect the consensus of the UCG.

II. They should provide actionable guidance for operations and operational support activities.

III. They should give enough detail—clear, measureable, achievable, and flexible—to ensure understanding, but do not micromanage.

a. Clear – The wording is precise and unambiguous and ensures that the objective is distinct from the other objectives and complete in its description.
b. Measurable – The design and statement make it possible to conduct a final accounting as to whether the objective has been achieved.
c. Achievable – An objective must be able to be completed. If an objective cannot be completed within a reasonable time frame with resources available, then it is not a viable objective. Also, objectives must be achievable with available resources.
d. Flexible – The objective must be broad enough to allow for field improvisation as required by actual conditions.

IV. Incident objectives will often be quite general in the initial stages of an incident response, and will increase in specificity as situational awareness and resource status knowledge increases.

V. Objectives are consistent in how they are identified, displayed and numbered.
a. Display only incident objectives—no priorities or strategies—on the Incident Objectives (FEMA-ICS Form 202).
b. Number objectives sequentially from the beginning of the incident to its conclusion.
c. Do not renumber objectives. The objective will retain that specific number until the objective is accomplished, when that number and objective is retired and archived.
d. Either cross out or remove from the Incident Objectives (FEMA-ICS Form 202) numbered incident objectives that have been achieved for the current IAP.
e. Modify incident objectives slightly, if need be, if they can maintain the same intent. A slightly modified objective will retain its original tracking number. If an objective is heavily modified, it is assigned a new sub-letter under the same objective number, and the old objective is retired. For example, if objective 2 is modified, it becomes 2a, and objective 2 is retired. If it is modified again, the objective becomes 2b, and 2a is retired.

VI. They should be prioritized by urgency, operational period requirements and specific direction from the UCG.
a. List the incident objectives in order of priority, regardless of their tracking number on the Incident Objectives (FEMA-ICS Form 202). The first listed objective is the highest priority. The last listed objective is the lowest priority.
b. Let priorities guide the address of objectives. "While objectives must be based on requirements," the Incident Management and Support Keystone states, "the status in which they must be addressed is guided by priorities."

VII. They are not so tightly written that they become tasks/work assignments.
a. Objectives should clearly identify what needs to be done and generally where it needs to be done.
b. Objectives should not describe methods or resources for achieving the required result (strategies), nor the specifics of how each strategy should be accomplished (tactics).

The first step in developing good incident objectives is to understand incident priorities

I. Priorities define overarching requirements; what to accomplish in order of importance.
II. Objectives must be based on incident priorities.
III. The priorities guide the precedence by which objectives are addressed.
IV. Initial priorities may be driven in part by the delegations of authority.
V. Every incident always has its priorities. Priorities should be built based on the whole community core capabilities.

The next step is to develop the incident objectives

I. Frame the problem; what are the essential elements of the issue to be addressed.
II. Use the objective to describe what is to be accomplished.
    a. What and where, if possible; but not how or by whom
III. Provide enough detail to make the objective meaningful.
IV. Allow the necessary flexibility
    a. Do not "go tactical..."
    b. Ensure that the objective and its results can be used as a metric.
V. Ask, "Is the objective attainable?"
    a. Determine whether the objective can be met with available resources
VI. Ask, *finally*, "What is the objective's priority when compared to other identified issues?"
    a. Order the objectives based on the order of priority/urgency

What are some good verbs to use when writing incident objectives?

- Augment
- Determine
- Finalize
- Carry out
- Develop
- Implement
- Complete
- Devise
- Pre-stage
- Conduct
- Dispose of
- Provide
- Deliver
- Execute

What verbs should be avoided?

- Assess
- Monitor
- Continue
- Work with
- Coordinate with

What functional areas should incident objectives focus on?

- Communications
- Fuel resupply
- Mortuary affairs
- Public messaging
- Search and rescue
- Decontamination
- Law enforcement
- Planning support
- Public safety and health
- Emergency medical services
- Mass Care

- Power
- Registration assistance
- Temporary housing
- Evacuation and re-entry
- Mitigation support
- Public assistance support
- Route clearance
- Transportation
- Infrastructure
- Debris removal

Incident priorities should reflect a core capability as defined in the National Preparedness Goal. Incident objectives should contribute to accomplishment of the incident priorities. Well-crafted incident objectives provide the basis for operational guidance, strategies, tactics, and work assignments. Below are sample priorities and incident objectives.

Example Priorities:

- Mass search and rescue operations
- Public health and medical services
- On-scene security and protection
- Mass care services
- Access control and identity verification
- Economic recovery

Example Objectives:

- Establish two fixed site disaster recovery centers in McKean County by 31 October.
- Evacuate the two area hospitals, three convalescent homes and four nursing facilities located within the potential flood zone in Lee and Charlotte counties to alternate care facilities NLT 9 September.
- Determine sites for installation of 500 temporary housing units in or near Springfield by 15 May.
- Re-open the Port of Tampa and the Tampa International Airport by 4 March.
- Remove 10,000 cubic yards of debris from Warsaw County by 25 September.
- Distribute rations to provide 10,000 people with 2,000 calories of food and 3 liters of water each.
- Provide shelter, food, and hydration for approximately 30,00 survivors in the impacted area.
- Clear all emergency routes to ensure access to medical treatment facilities and open all critical transportation corridors throughout the impacted area.
- Conduct agriculture, food, and water testing in the impacted area.

	Based On	Answers				Listed in IAP
		Who	What	Where	When	
Incident Priorities	Governor, RA guidance, UCG		●			
Incident Objectives	Incident priorities, situation, resources		●	○	○	●
Tasks/Work Assignments	Incident objectives	●	●	●	●	●
Note: A black dot means *always;* open circle means *sometimes;* blank means *never.*						

APPENDIX B: INCIDENT COMMAND SYSTEM MAP SYMBOLS

Area being Identified	Symbol
Joint Field Office	
Area Field Office (identify by name)	
Camp (identify by name)	
Helispot (identifier)	
Helibase (include name if more than one)	
Fixed Wing Base (include name if more than one)	
Branches (use Roman numerals)	[I] [II]
Divisions (use upper case alphabetical characters)	(A) (B)
Incident Support Base (identify by name)	
Staging Areas (identify by name)	
Disaster Recovery Center (use identifier)	

APPENDIX C: JOB AIDS FOR STAFF PREPARING FEMA ICS FORMS FOR THE IAP

Using these job aid checklists will enhance the consistency of and provide standardization among all Incident Action Plans (IAPs), with the goal of improving the execution of incident-level operations. Standardized IAPs are necessary for FEMA employees and all interagency, State, tribal, local, and private sector partners—to have a common expectation about how IAPs will be developed, formatted, and compiled. IAPs are critical to incident field personnel in facilitating their situational awareness and understanding of work assignments. The individual checklists below can be provided to the staff members responsible for assembling each piece of the IAP.

Cover Sheet	
Information displayed on IAP cover sheets should be consistent. IAPs are not strictly FEMA documents, and their cover sheets will typically reflect Unified Coordination Group (UCG) members' participation. *IAPs are also national-level documents that must have a professional appearance* fitting for audiences at the FEMA Headquarters, Department of Homeland Security, and the White House levels.	
The cover sheet will include the following:	**Planning Support Unit Leader**
Title: Joint Incident Action Plan	☐
Plan number (the first IAP developed is #1: subsequent IAPs are numbered sequentially)	☐
Incident name that describes the nature of the disaster (severe storms, tornadoes, flooding, etc.)	☐
FEMA Declaration Number (e.g. FEMA-XXXX-XX (EM/DR)-XX(State))	☐
State and other participating UCG members' declaration numbers	☐
Joint Field Office (or initial operating facility) address and USNGS	☐
Operational period date and time	☐
IAP approval signature blocks for the SCO, FCO, and any other UCG member(s).	☐
Logos (black and white only) may be used for FEMA, the State, and any other UCG member organizations	☐
IAP approval signature blocks for the SCO, FCO and any other UCG member	☐

Incident Objectives (FEMA-ICS Form 202)	
The Incident Objectives (FEMA-ICS Form 202) is the first page of the IAP. This form not only describes the UCG's incident objectives but also provides weather and safety considerations for use during the next operational period.	
Incident Objectives (FEMA-ICS 202) will include the following:	**Situation Unit Leader**
In Block 5 only incident objectives will be displayed.	☐
Number the incident objectives:	☐
• Sequentially from the beginning of the incident to its conclusion.	☐
• Do not renumber them for each operational period.	☐
List the incident objectives in order of priority, regardless of their tracking number.	☐
• The objective listed first is the highest priority.	☐
• The objective listed last is the lowest priority.	☐
Remove numbered incident objectives that have been achieved. ***Note: Archive completed Incident Objectives (FEMA-ICS Form 202) for future reference.***	☐
Modify an incident objective if necessary and maintain the same tracking number as long as the original intent of the objective does not change.	☐
Write out the incident objectives so that they provide actionable guidance for Operations.	☐
Do not focus incident objectives so tightly that they become essentially similar to work assignments.	☐
Do not list priorities" or "incident priorities" on the Incident Objectives (FEMA-ICS Form 202).	☐
In Block 6, focus the weather message on weather that incident personnel can expect for the operational period.	☐
In Block 7, focus the safety message on information that is relevant and actionable to field personnel.	☐

Incident Telephone Communication Plans (FEMA-ICS 205a)
The purpose of this form is to inform incident personnel regarding which radio communications channels are in use and which specific purpose each has been assigned. It is acceptable for Planning Sections to replace the Incident Radio Communications Plan (FEMA-ICS Form 205) in the IAP, where appropriate, with a modified version, entitled the Incident Telephone Communications Plan (FEMA-ICS Form 205A). The plan is a combined Organization Assignment List (FEMA-ICS Form 203) and Incident Radio Communications Plan (FEMA-ICS Form 205) that includes contact telephone or cell phone numbers for each person listed. It also identifies if they are FEMA, State, or from other federal agencies. The inclusion of both the Organization Assignment List (FEMA-ICS Form 203) and Incident Telephone Communications Plan (FEMA-ICS Form 205A) in the IAP is unnecessarily duplicative and therefore confusing–adding to the length of the IAP without providing additional needed information.

The Incident Telephone Communication Plan (FEMA-ICS Form 205A) will include the following:	**Resource Unit Leader**
Only those positions and personnel assigned to division/group supervisors, unit leaders and above. ***Note: The exception to this is a Level III, event and the Incident Telephone Communications Plan (FEMA-ICS Form 205A) is no longer than one page in the IAP.***	☐
Ensure that this plan does not become the incident phone directory.	☐
Ensure that this plan corresponds with the incident organization chart with correct names assigned to specific positions.	☐
Contact numbers listed for FCO/SCO and other key staff are the desk numbers for their administrative assistants.	☐
Do not show personal cell phones numbers for any incident staff.	☐
Do not include e-mail addresses.	☐

Incident Organization Chart (FEMA-ICS Form 207)	
Incident Organization Charts (FEMA-ICS 207) are important for incident personnel to understand how the incident is organized, what positions are filled, what the reporting structures are, and who is filling these positions. On Level I and II incidents, the organization charts include unit leaders, group/division supervisors positions, and above. Organizations will be configured according to incident needs and current accepted program structure. These charts should accurately reflect the organization.	
Incident Organization Chart (FEMA-ICS Form 207) will include the following:	**Resource Unit Leader**
Chart displayed in way that is consistent with examples provided in the *Incident Management Handbook.*	☐
Position naming conventions which conform to the position names in the IMH.	☐
Deputy positions shown in the same box as the primary position.	
• Deputies will not be shown with separate organization structures.	☐
• If there is a need for another position to manage the span of control then the use of assistants is appropriate.	☐
The names on the chart are consistent with the names on the Incident Telephone Communications Plan (FEMA-ICS Form 205a).	☐
Ensure that on Level I and II incidents, the following occurs:	
• Command staff includes only managers/advisors and above.	☐
• The organization charts include unit leaders/group and division supervisors positions and above only	☐
• The organizations are configured according to incident needs.	☐
• The Operations Section organization is organized geographically, unless there is a compelling reason to organize functionally.	☐
For a Level III incident, the following occurs:	
• The organization is arranged functionally. (In rare situations it can also be organized geographically.)	☐
• Include, as necessary, all the positions/names of the whole organization on the chart.	☐
On incidents that are organized geographically, the organization chart will include the following:	
• Geographic branch director(s) and division supervisors	☐
• Program branch directors, group supervisors, task force leaders, managers, and crew leaders (Individual Assistance, Public Assistance, and Hazard Mitigation)	☐
• Air Operations Branch	☐
• Long-Term Community Recovery Branch	☐

Incident Map
The incident map is an important IAP component for incident field personnel, which enables them to locate critical incident facilities and operational geographic boundaries, and other critical information such as declared counties. On Level I and II incidents, the incident map is extremely important for those doing incident action planning. FEMA program branches in Operations and others (e.g., ESFs) need to know where the geographic branches and divisions boundaries are located within the incident area so they can assign their resources to the correct branch and division on the Operational Planning Worksheet (FEMA-ICS Form 215). The incident map is the responsibility of the Planning Section's Situation Unit, however, the updating and viability is the responsibility of the Operations Section Chief. Incident maps should be produced in black and white using standardized fill patterns (i.e., vertical horizontal, and diagonal) to indicate IA, PA, and IA/PA.

The incident map will include the following:	**Situation Unit Leader**
Incident geographic branches and division boundaries	☐
Critical operational facilities such as the following:	
• Staging Areas, both Federal and State	☐
• Operations field offices	☐
• *Helibases, fixed wing bases*	☐
• Disaster Recovery Centers	☐
• Incident camps or other support facilities	☐
• Designated counties	☐
Ensure that the naming and identification map symbols, are all in accordance with IMH Chapters 9 through 30 and appendix C of this document.	☐
Ensure that incident map legends use black and white patterns, not color.	☐

Assignment List (FEMA-ICS 204)	
Assignment Lists (FEMA-ICS Form 204) are critical for informing field staff about their assignments, duties, responsibilities, and key personnel contact information for an operational period. As a result, Assignment Lists (FEMA-ICS Form 204) should be complete, accurate, and organized in a manner that facilitates staff's understanding of operational work assignment details. Using the Operational Planning Worksheets (FEMA-ICS Form 215), the Operations Section develops the Assignment Lists (FEMA-ICS Form 204). Once Operations approves them, the Operational Planning Worksheets (FEMA-ICS Form 215) are given to the Planning Section to prepare the Assignment Lists (FEMA-ICS Form 204). Once the UCG's members affirm that the general staff can support the plan at the Planning Meeting, and the UCG then approves the operational plan, the Assignment Lists (FEMA-ICS Form 204) are included in the IAP for duplication and distribution.	
The Assignment List (FEMA-ICS Form 204) will include the following:	***Resource Unit Leader***
Do not use a modified Assignment List (FEMA-ICS Form 204).	☐
Do not include work assignments for positions that are not engaged in field operations.	☐
Do not include for work assignments OSCs, geographic and program branch directors, division supervisors, and managers assigned in the JFO.	☐
Sequence the list according to the Incident Organization Chart (FEMA-ICS Form 207) for Operations. ***Example: Branch I and Divisions A through G, Branch II and Divisions H through N, IA Branch and Groups, PA Branch and Groups, HM Branch and Groups etc.***	☐
Complete the list in a way that is clear, provides information for field staff to understand their task, reporting location, reporting time, and key personnel contact information.	☐
Do not include objective numbers on the work assignment. ***Note: It is the responsibility of the Operations Section Chief to ensure work assignments are consistent with the Incident Objectives (FEMA-ICS Form 202) during the Objectives Strategies Meeting.***	☐
Ensure that all resources are listed on the appropriate FEMA-ICS Form 204.	☐
Ensure that division or functional forms include no more than one work assignment line for an individual, crew, or task force.	☐
• A particular individual, crew, or task force may be assigned to more than one division form when assigned to work locations in other divisions.	☐
• Multiple work assignments are combined and displayed on one assignment line.	☐
No blank blocks on the list. ***Note: Where information for a block is not available, use placeholders whenever possible to indicate that the topic of the block has been addressed (TBD, N/A, UNK, etc.).***	☐
The following are detailed appropriately:	
• Logistical needs	☐
• Safety considerations	☐
• Coordination requirements	☐
• Critical support information	☐
In Block 11, any special communication requirements—if different than those identified in the Incident Telephone Communications Plan (FEMA-ICS Form 205A), are fully described	☐

Medical Plan (FEMA-ICS 206)	
The Medical Plan (FEMA-ICS Form 206) is critical for the safety of incident personnel when a medical emergency occurs. Medical Plans (FEMA-ICS Form 206) provide important information to incident personnel such as the following: medical emergency procedures, the locations of medical aid facilities within the incident area, emergency medical transportation locations with contact numbers—including those of hospitals located in or near the incident area. The responsibility for the development of the Medical Plan (FEMA-ICS Form 206) is the Safety Officer.	
Medical Plan (FEMA-ICS 206) will include the following:	**Safety Officer**
The form being used is the official Medical Plan (FEMA-ICS Form 206) and has not been modified.	☐
Include in Block 3 (incident medical aid stations), both urgent care and hospital emergency rooms located within the incident area, and incident aid stations that may be established at the JFO and incident camps.	☐
Include in Block 4, whether 911 is the contact number for all emergency transportation needs in all affected areas of the incident.	☐
• If 911 is *not* the contact for all emergency transportation needs, then the IAP must reflect the information for each municipality.	☐
• If an ambulance is assigned to the incident then the correct location and contact numbers must be included.	☐
Include in Block 7, (hospitals) not only the hospital that would service the JFO, but also selected hospitals with emergency room capability located throughout the incident area.	☐
Fill Block 6, correctly and with enough information so an incident employee will know what to do and who to notify in the case of an accident or other medical emergency.	☐

Daily Meeting Schedule (FEMA-ICS Form 230)	
The Daily Meeting Schedule (FEMA-ICS Form 230) provides incident staff with the information regarding what, where and when critical incident meetings will take place during the operational cycle. The schedule also lays out the purpose of the meetings. Incident action planning meetings and briefings will always be included in this schedule. The meeting schedule also ensures that other meetings do not conflict with incident action planning meetings (i.e., Command and General Staff Meeting, Objectives Strategies Meeting, Planning Meeting, and the Operations Briefing). The meeting schedule should reflect the incident action planning cycle for the operational period, and include other critical incident meetings as needed.	
The Daily Meeting Schedule (FEMA-ICS Form 230) will include the following:	**SITL**
A C&GS meeting consisting of the UCG (FCO/SCO and any other UCG Coordinator) and staff will be conducted and listed on the meeting schedule for each operational period.	☐
The Objective Strategies Meeting will be conducted and listed on the meeting schedule for each operational period.	☐
The Operations Briefing will be held every operational period and listed on the meetings schedule for each operational period.	☐
Planning Meeting will be conducted and listed on the meeting schedule for each operational period.	☐
All incident action planning meetings and briefings will have IMH compliant names	☐
Items that are not *meetings* are not included.	☐

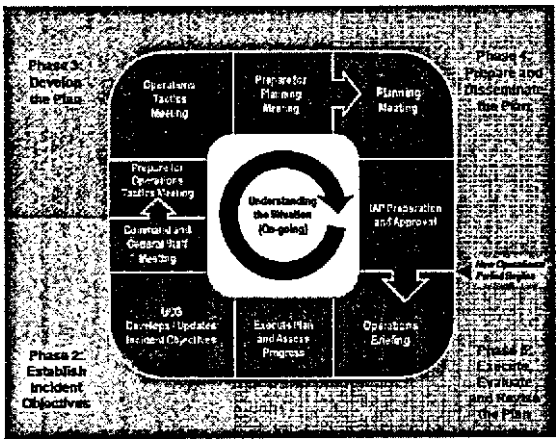
APPENDIX D: FINAL QUALITY ASSURANCE CHECKLIST

The checklist below is intended to serve as a tool that the Planning Section Chief uses before granting final approval to the IAP.

- € Do the tasks listed on the Assignment List(s) (FEMA-ICS Form 204) support the Incident Objectives (FEMA-ICS Form 202)?
- € Does the incident map reflect the operation elements identified on the Incident Organization Chart (FEMA-ICS Form 207) or the Assignment List (FEMA-ICS Form 204)?
- € Does the Incident Telephone Communications Plan (FEMA-ICS Form 205A) provide information on the operation elements identified on the Incident Organization Chart (FEMA-ICS Form 207) or the Assignment List (FEMA-ICS Form 204)?
- € Are all assigned radio frequencies, trunked radio systems and talk group assignments identified on the Incident Radio Communications Plan (FEMA-ICS Form 205) and does the information reflect the operation elements identified on the Incident Organization Chart (FEMA-ICS Form 207) or the Assignment List (FEMA-ICS Form 204)?
- € Does information on the Medical Plan (FEMA-ICS Form 206) identify the closest medical facility to each operation element identified on the incident map, the Incident Organization Chart (FEMA-ICS Form 207) or the Assignment List (FEMA-ICS Form 204)? Does it identify what should be done if someone is inured or is seriously ill?
- € Does the IAP use common Incident Command System terminology throughout the document?
- € Does the Meeting Schedule (FEMA-ICS Form 230) contain at a minimum, the following?
    - o Appropriate incident action planning meetings
    - o Strategy meetings
    - o Team meetings
    - o Public meetings

APPENDIX E: MAINTAINING SITUATIONAL AWARENESS THROUGHOUT THE LIFE CYCLE OF THE INCIDENT

After the initial efforts to gain situational awareness (Phase 1), the iterative information collection process begins during Phase 2 and continues to inform all aspects of incident action planning throughout the life cycle of the incident. This process includes the collection, analysis, and dissemination of information to assist operations and support functions in planning for providing support and resources to disaster survivors during each operational period.



Good situational awareness must be available to incident management personnel throughout the life cycle of an incident to support timely and effective decision making. The quality of decisions is directly related to the accuracy and completeness of the information on which decisions are based, Situational awareness is gained from many sources. Site inspections, official reports, media broadcasts, maps, and formal and informal assessments all contribute to the base of knowledge about the incident. Developing situational awareness requires continual monitoring, verifying, integrating, and analyzing relevant elements of information and developing hazards. At its best, situational awareness provides up-to-date information on the status of people, critical facilities, infrastructure, resources, and the environment.

Information Collection Plan

A well-designed information collection plan (ICP) is an important tool for incident management. The ICP is a matrix of information requirements that is keyed to the incident. This plan also lists sources, units of measure, and schedules for collecting various items. Information gathered based on an ICP can aid in the development of incident objectives.

Situational Awareness Products

There are many products and reports that provide situational awareness to incident personnel. Several are key to assessing the progress of incident operations and the effectiveness of the incident action planning process. Below are some examples of products that, while not part of the IAP, inform staff on environment and effectiveness of operations.

Situation Reports

The Planning Section produces situation reports which are the primary summary of information during an incident at a given time. Situation reports address EEIs as well as other pertinent information for the last reporting period. Situation reports are not tied directly to IAPs, but the reports generally reflect the results of IAP work assignments.

Spot Reports

Information for spot reports may be generated by any element at the incident level. These reports provide information on occurrences and/or conditions that may have an immediate and significant effect on current operations. Spot reports can provide information that is important to incident objectives and tactics (e.g., severe weather or hazmat spills). Spot reports often add value to incident action planning efforts by providing timely information on significant aspects of the incident.

Situation Update Briefing

This briefing—based on the content of the situation report—updates leadership on the current situation. The Situation Unit provides situation updates during the C&GS, tactics, and planning meetings.

Gathering Information

Gathering and reporting situational awareness is accomplished using a wide variety of methods, including:

- Providing information specialist(s) to the State Planning Section to monitor state reporting systems (WebEOC, etc.) and to create/disseminate spot reports from that information
- Reading State and local situation reports
- Developing or using a good information collection plan
- Maintaining direct communications with the Planning Sections of the RRCS and the National Response Coordination Staff
- Deploying or using technical specialists such as National Weather Service representatives
- Deploying and receiving reports from field observers
- Embedding information specialist (liaisons) in the Operations, Logistics, and Finance/Administration Sections
- Deploying information specialists to other facilities and operation field offices
- Analyzing and disseminating relevant geospatial products

Responsibilities

The **Command Staff and the Operations, Logistics, and Finance and Administration Sections** are responsible for regularly providing the Planning Section with clear, timely, and accurate information.

The **Planning Section** is responsible for providing the Operations Section with information products needed for effective decision making. Two units within the Planning Section are

principally responsible for providing these information products: the *Situation* and *Resource* units.

The **Situation Unit** processes requests for information; develops reports, briefings, and presentations; collects and analyzes information; and integrates geospatial and technical information for situational awareness. This unit is the primary organization responsible for maintaining situational awareness within the incident organization. The unit works with the GIS Unit to prepare and maintain incident maps.

The **Resources Unit** develops and maintains the Incident Organization Chart (FEMA-ICS Form 207) depicting the C&GS, as well as an organizational chart depicting only the Operations Section. The unit also develops the Incident Telephone Communications Plan (FEMA-ICS Form 205A) for each operational period detailing key staff and their contact information.

Summary

Applying accurate and timely situational awareness in each operational period includes:

- Reviewing and analyzing information that may affect incident-level operations;
- Reexamining the actual or potential effects of the incident;
- Providing important real-time information to the Operations Section that could modify one or more incident objectives;
- Assessing the effectiveness of efforts undertaken during the previous operational period; and
- Assessing measures of effectiveness (i.e., performance metrics).

Managing More Than One Incident

An IMAT will sometimes begin managing one incident and be required to take on another disaster in the same geographic area—which will likely increase the size and complexity of the incident management organization. The PSC will include all incidents assigned to the IMAT in a single IAP. The Planning Cycle and operational periods for all of the disasters will be the same, allowing for efficient and effective use of the IMAT's time. The UCG will be developing priorities for each disaster as they develop the incident objectives in coordination with the OSC.

Effective situational awareness is supported by situation reports, spot reports, and briefings, which in turn, support the development of incident objectives, tactics, and work assignments.

ANNEX 1: ACRONYMS

C&GS	Command and General Staff
CIR	Critical Information Requirement
CR	Community Relations
DRC	Disaster Recovery Center
EA	External Affairs
EEI	Essential Element of Information
ESF	Emergency Support Function
FCO	Federal Coordinating Officer
FEMA	Federal Emergency Management Agency
FRC	Federal Resource Coordinator
GIS	Geospatial Information Systems
HM	Hazard Mitigation
IA	Individual Assistance
IAP	Incident Action Plan
ICP	Information Collection Plan
ICS	Incident Command System
IMAT	Incident Management Assistance Team
IMH	Incident Management Handbook
IOF	Initial Operating Facility
JFO	Joint Field Office
NGO	Nongovernmental Organization
OSC	Operations Section Chief
PA	Public Assistance
PSC	Planning Section Chief

RA	Regional Administrator
RRCS	Regional Response Coordination Staff
SCO	State Coordinating Officer
SITL	Situation Unit Leader
UCG	Unified Coordination Group

ANNEX 2: GLOSSARY

Assistant – The title indicates a level of technical capability, qualifications, and responsibility subordinate to the primary positions. Assistants except for subordinates of principal Command Staff positions (External Affairs, Safety, Chief of Staff, and Liaison Officers) are not FEMA Qualification System positions and will not have position task books. Assistants must be qualified at the next lower level to the principal position. Assistants may be used to alleviate span of control issues or assigned technical responsibilities.

Branch – The organizational level having functional or geographical responsibility for major aspects of incident operations. A branch is organizationally situated between the section chief and the division or group in the Operations Section, and between the section and units in the Logistics Section. Branches are identified either by the use of Roman numerals or by functional area.

Chain of Command – The orderly line of authority within the ranks of the incident management organization.

Critical Information Requirement (CIR) – Particular elements of information specifically requested by incident leaders. These items are of such importance that leaders are notified immediately when the Planning Section receives updates on a CIR item.

Constraint – Requirement that dictates or prohibits an action, thus restricting freedom of action.

Deliberate Planning – Planning accomplished under nonemergency conditions and that involves developing general procedures for responding to future threats or scenarios.

Deputy – A fully-qualified individual who, in the absence of a superior, can be delegated the authority to manage a functional operation or to perform a specific task. In some cases a deputy can act as relief for a superior, and therefore must be fully qualified in the position. Deputies must be fully qualified in the position for which they are assigned. Deputies are used to share position responsibilities and serve as acting during the absence of the primary superior. Deputies are not used to alleviate span of control issues. An FCO can assign a deputy to perform specific tasks.

Division – The organizational level responsible for operations within a defined geographic area. Divisions are established when the number of resources exceeds the manageable span of control of the Section Chief. See *Group*.

Essential Element of Information (EEI) – Important and standard information items that incident managers need in order to make timely and informed decisions. EEIs also provide context and contribute to analysis. EEIs are also included in situation reports.

Functional Planning – Planning conducted, as required, to address particular operational issues, such as interim housing, power restoration, demobilization, and continuity of operations.

Group – An organizational subdivision established to divide the incident management structure into functional areas of operation. Groups are composed of resources assembled to perform a special function not necessarily within a single geographic division. See *Division*.

Incident Objective –Statement of guidance and direction needed to select the appropriate strategy (or strategies) and the tactical direction of resources. Incident objectives are based on realistic expectations of what can be accomplished when all allocated resources have been effectively deployed. Incident objectives must be clear, achievable and measurable, yet flexible enough to allow strategic and tactical alternatives.

Incident Planning – Planning associated with an actual or potential incident, likely under emergency conditions, that involves developing procedures for responding to actual or projected effects.

Joint Field Office (JFO) – A temporary Federal facility established to provide a central point for Federal, State, tribal, and local governments and private sector and nongovernmental organizations with responsibility for incident oversight, direction, and/or assistance to effectively coordinate and direct prevention, preparedness, response, and recovery actions. Typically, the JFO is located at or near the incident area of operations. The JFO may be co-located with the State emergency operations center.

Limitation – A factor or condition that, either temporarily or permanently, impedes mission accomplishment.

Operational Period – An operational period is the time scheduled for executing a given set of operation actions as specified in the IAP. Operational periods can be of various lengths although usually they last 12 to 24 hours.

Priority – Priorities facilitate the development of incident objectives and establish their order of importance. Developed by the UCG, priorities also guide the employment and allocation of resources.

Span of Control – The number of resources for which a supervisor is responsible, usually expressed as the ratio of supervisors to individuals. (Under the National Incident Management System, an appropriate span of control is between 1:3 and 1:7, with optimal being 1:5, or between 1:8 and 1:10 for many large-scale law enforcement operations.)

Strategy – As they relate to the incident action planning process, strategies are concepts—ideas on how to accomplish incident objectives. They are the bridge between incident

objectives and work assignments, providing direction and guidance on what should be done and how it should be done.

Tactic – The deployment and directing of resources on an incident to accomplish the objectives designated by a strategy.

Task Force – Any combination (number and mixture) of resources assembled to support a specific mission or operational need. All resource elements within a task force must have common communications and a designated leader. A task force may be pre-established and sent to an incident, or formed at an incident.

Unified Coordination Group (UCG) - The structure that executes unified command and leads incident activities at the field level in order to achieve unity of effort. Its purpose is to establish and achieve shared objectives. The UCG is comprised of senior leaders representing State and Federal interests and in certain circumstances tribal governments, local jurisdictions, or the private sector. The FCO is responsible for establishing the UCG.

Work Assignments – An assignment to be accomplished which leads to meeting an incident objective(s). A tactical action supporting an incident objective(s) assigned to a specific resource (individual, team, task force, crew etc.) and identified on Assignment List (FEMA-ICS Form 204) in the IAP.

[redacted]	Not Covered

** Important Information Regarding Your Water Service Line **

Dear Paul T. Igram,

This letter is to inform you that as a homeowner you are responsible for the full cost of repairing your exterior water line. We have found that your property at 1725 Lincoln Dr. is not covered with Exterior Water Service Line Coverage from HomeServe.

The water service line buried underground on your property could fail without warning, leaving you responsible for the cost of repair or replacement. Replacement of this line can be expensive—costing you thousands of dollars in unforeseen expenses—which could burden finances.

This protection is available for eligible Flint homeowners.

Benefit Amount:	$6,000 annually with multiple service calls for covered repairs 30-day wait period with a money-back guarantee
Available For:	City water and Private well lines
Monthly Rate:	~~$5.49~~ $2.74
Property Address:	1725 Lincoln Dr.
City:	Flint

* * * Important * * *

You can now receive 50% off the regular monthly price shown above for the *first year*. Take action to help protect the buried water line on your property. Complete and return the enclosed form—remember to affix your address label—or call 1-877-444-7750 to accept this *optional* coverage. For fastest processing, please visit CoveragePlans50.com.

Please respond within 30 days.

HomeServe USA Repair Management Corp. ("HomeServe"), with corporate offices located at 601 Merritt 7, 6th Floor, Norwalk, CT 06851, is an *independent company separate from your local utility or community* and offers this optional service plan as an authorized representative of the contract issuer, AMT Warranty Corp., 59 Maiden Lane, 43rd Floor, New York, NY 10038.

1848-2001-BP07-7-326-41011

Important Questions & Answers

What am I responsible for?
As a homeowner, you are responsible for the exterior water service line on your property. In some towns, the service line beyond the property boundary to the main connection may remain the homeowner's responsibility, but it is not included in this coverage.

Does this coverage include well lines?
Yes, coverage provides for repair or replacement of the water service line on your property regardless of whether you are connected to a city water main or private well.

Does my homeowners insurance or local utility company cover this?
Most basic homeowners insurance policies and local utility companies do not cover repair or replacement of the water service line. If you find you have similar coverage, you can contact HomeServe to cancel and you will receive a refund of your service agreement fee, less any claims paid (where applicable).

Who is eligible for coverage?
A residential homeowner with sole responsibility for the exterior water service line may be eligible. Residences not affixed to a permanent foundation, recreational vehicles and properties used for commercial purposes are not eligible for coverage. If you live in a development community with a condominium, co-op or homeowners association, your exterior water service line may not be an individual homeowner's responsibility, so please check with your association before accepting this coverage.

What should I know about this coverage?
What's covered: Coverage provides, up to the benefit amount, for the covered cost to repair or replace a leaking or permanently blocked exterior water service line from your property boundary or well casing to the external wall of your home that is damaged due to normal wear and tear, not accident or negligence.
Not covered: Repair to any exterior water service line that branches off the main line, accidents and damage or negligence caused by you or others. Additional exclusions apply. To see full Terms and Conditions with complete coverage and exclusion details prior to enrolling call 1-877-444-7750 or go to CoveragePlans50.com.

When can I make a service call?
Your plan starts the day your form is processed, and there is an initial 30-day waiting period before you can make a service call, giving you 11 months of coverage during the first year. This prevents service calls on pre-existing conditions and helps keep the coverage affordable.

What is the cancellation policy?
You may cancel within 30 days of your start date for a full refund; cancellations after the first 30 days will result in a pro-rata refund less any claims paid (where applicable).

What is the term of my service agreement?
Your coverage is based on an annual contract. For E-Z Pay, credit card or debit card customers: regardless of the payment frequency you select, your service agreement will be automatically renewed annually on the same payment terms selected, at the then-current renewal price. Your coverage will remain in effect unless you call to discontinue.

What is E-Z Pay?
E-Z Pay is a paperless and stress-free way to pay for your coverage. Payments are automatically debited from the bank/checking account of your choice as your payment becomes due, at no additional cost.

What quality of repair can I expect?
Local, licensed and insured plumbers perform all covered repairs, which are guaranteed against defects in materials and workmanship for one year.

Who is HomeServe?
HomeServe is an independent company providing emergency home repair services and protection solutions to homeowners across the U.S. If you have questions about this mailing or to be removed from our mailing list, call 1-855-321-9871.

STATE OF MICHIGAN

RICK SNYDER
GOVERNOR

DEPARTMENT OF TECHNOLOGY, MANAGEMENT & BUDGET
LANSING

DAVID B. BEHEN
DIRECTOR

February 2, 2016

TO: State of Michigan Procurement Leadership

FROM: DTMB Procurement

SUBJECT: Genesee County Water Emergency Response - Purchasing Guidance

Thank you to all who are working to support the State of Michigan's Genesee County, City of Flint water emergency response.

Given the complexity and variety of the needs of this emergency effort, the purchasing support required is complex as well. Purchasing protocols have some differences under this declared state of emergency, and meticulous tracking of expenditures is imperative.

The Michigan State Police (MSP) is the lead agency overseeing the situation and managing the State Emergency Operations Center (SEOC). Flint related purchases must first be routed through the appropriate SEOC contact (see attached for an agency roster) to include the SEOC State Director. This is required for all Flint- related purchases without exception. The SEOC financial team is responsible for tracking all expenditures in connection with the emergency efforts.

Each agency is responsible for its own purchasing transactions. This includes p-card transactions and purchase orders, the tracking of all such transactions, and reporting of those transactions to the appropriate SEOC representative. Failure to properly inform the SEOC financial team of any transaction may result in a forfeiture of any potential reimbursement anticipated by the agency.

Agency purchasing managers are responsible to supply their agency's SEOC representative with a 24/7 phone number for agency purchasing staff support and request that the SEOC representative involves them in every purchase. (Note: SEOC hours are 8 am to 8 pm, seven days a week at this time.)

Emergency Purchasing Procedure:
Public Act 431 of 1984 provides an exception to competitive bidding during a state of emergency. However, responsible purchasing procedures are still the expectation for all procurement professionals (agency purchasing staff).

In addition to the notification and reporting expectations set forth above, transactions should be conducted and/or overseen by procurement professionals, with rare exception, in accordance with the following:

- Each agency makes their own determination when an emergency purchase order is required, and is then responsible for the supporting documentation
- Utilize existing State contracts where possible. Contact DTMB Procurement for help negotiating bulk rates or expedited shipments if needed, and for any concerns related to availability of funds on a contract

- Obtain three quotes whenever reasonably practicable
- Post bids online to the extent practicable
- Please escalate any questions to DTMB Procurement before executing a buy
- DTMB Procurement will assist any agency upon request to address supply chain issues (e.g. working with a national supplier to ensure a high volume supply of water filters are available)
- DTMB-Financial Services is not responsible for issuing emergency purchase orders on behalf of agencies with the exception of information technology related goods and services
- Maintain documentation supporting all transactions. Establish internal protocols to support this such as a single spreadsheet to track agency-wide transactions. Report your agency's expenses to the SEOC Finance team via your SEOC representative.

Questions, concerns, or comments should be directed to:

Primary Contact:
Rebecca Cook, Commodities Division Director
Cookr6@michigan.gov

Secondary Contact:
Jeff Brownlee, Chief Procurement Officer
brownleei@michigan.gov

Sincerely,

Jeff Brownlee

Execution:

Key Locations

Team	**Assembly Area**	**Hours of Operation**
OGCS/MSP	LEOC Genesee County Administration Building 1101 Beach St, Flint	0830-1600
ARC	ARC 1401 S Grand Traverse St, Flint	0730-1600
Warehouse	4315 North Clio Road, Flint	0700-1900

Critical Task: Assemble, coordinate, and monitor WRTs

OGCS/MSP Process:

1. Assign team leaders, team members, and routes to teams
2. Team Member check in

3. Conduct pre-deployment briefing to include team mission assignments, concept of operations, deployment locations, replenishment process, reporting process, and safety briefings (refer to OGCS_MSP WRT Volunteer Assembly Information V2.0_011816 for detailed information on volunteer processing at LEOC)
    5. Provide training to new team members
    6. Issue vest and badge to team members
    7. Execute morning distribution assignment
    8. Lunch served between 1230-1330
    9. WRT OIC and Team Leaders midday brief
    10. Execute afternoon distribution assignment
    11. Conduct post-deployment debrief with team leaders and members
    12. Collect vest and badge from team members

Sample Script for Team Members:

We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
GCSO/MSP	100 Distribution Kits Remaining	Distribution Route: exact location determined by Team Leader	1. Contact warehouse to request replenishment truck 2. Coordinate replenishment location with warehouse 3. Exchange replenishment truck with empty truck
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix

Lunch

OGCS/MSP WRTs lunches will be provided by the ARC and coordinated by LEOC Logistics.

Reporting:

Tactics:

1. All WRTs will utilize ipads as the primary reporting method and the WRT Distribution Tracking Tool as a secondary method if ipads fail.

Hand Warmers	60	382		1/22/16	1525
Distribution Kit	7000	7000		1/22/16	1525

Execution:

Key Locations

Team	**Assembly Area**	**Hours of Operation**
OGCS/MSP	LEOC Genesee County Administration Building	0830-1600

	1101 Beach St, Flint	
ARC	ARC 1401 S Grand Traverse St, Flint	0730-1600
Warehouse	4315 North Clio Road, Flint	0700-1900

Critical Task: Assemble, coordinate, and monitor WRTs

OGCS/MSP Process:

1. Assign team leaders, team members, and routes to teams
2. Team Member check in
3. Conduct pre-deployment briefing to include team mission assignments, concept of operations, deployment locations, replenishment process, reporting process, and safety briefings (refer to OGCS_MSP WRT Volunteer Assembly Information V2.0_011816 for detailed information on volunteer processing at LEOC)
5. Provide training to new team members
6. Issue vest and badge to team members
7. Execute morning distribution assignment
8. Lunch served between 1230-1330
9. WRT OIC and Team Leaders midday brief
10. Execute afternoon distribution assignment
11. Conduct post-deployment debrief with team leaders and members
12. Collect vest and badge from team members

Sample Script for Team Members:

We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
GCSO/MSP	0 Distribution Kits Remaining	Distribution Route: exact location determined by Team Leader	1. Contact warehouse to request replenishment truck 2. Coordinate replenishment location with warehouse 3. Exchange replenishment truck with empty truck
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix

Lunch

OGCS/MSP WRTs lunches will be provided by the ARC and coordinated by LEOC Logistics.

Reporting:

Tactics:

1. All WRTs will utilize iPads as the primary reporting method and the WRT Distribution Tracking Tool as a secondary method if iPads fail.

Michigan Department of Civil Rights Announces New Law Ensuring Access for Persons with Disabilities and their Service Animals to Businesses, Public Facilities in Michigan

Flint – On Friday, Jan. 15, the Michigan Department of Civil Rights will hold a press conference in Flint to outline a new law designed to protect access to public accommodations for individuals who use trained service animals. The law goes into effect on Monday, Jan. 18.

The news conference will be held at 1 pm on Friday, January 15, at the Flint & Genesee Chamber of Commerce, 519 S. Saginaw, Ste 200 in Flint.

Speakers include:

- Agustin Arbulu, Director of the Michigan Department of Civil Rights
- Tim Herman, CEO, Flint & Genesee Chamber of Commerce
- Luke Zelley, CEO, Flint Disability Network

Visuals:

- Service animals wearing the State of Michigan Registered Service Animal Patch.
- Posters for Michigan business owners to educate the public and employees about the rights of individuals and their service animals to enter public accommodations.
- Large blow-up of the official State of Michigan Registered Service Animal Patch.

For a high-resolution image file of the Registered Service Animal patch, send an email with your name and media outlet to Jacki Miller at MillerJ31@michigan.gov.

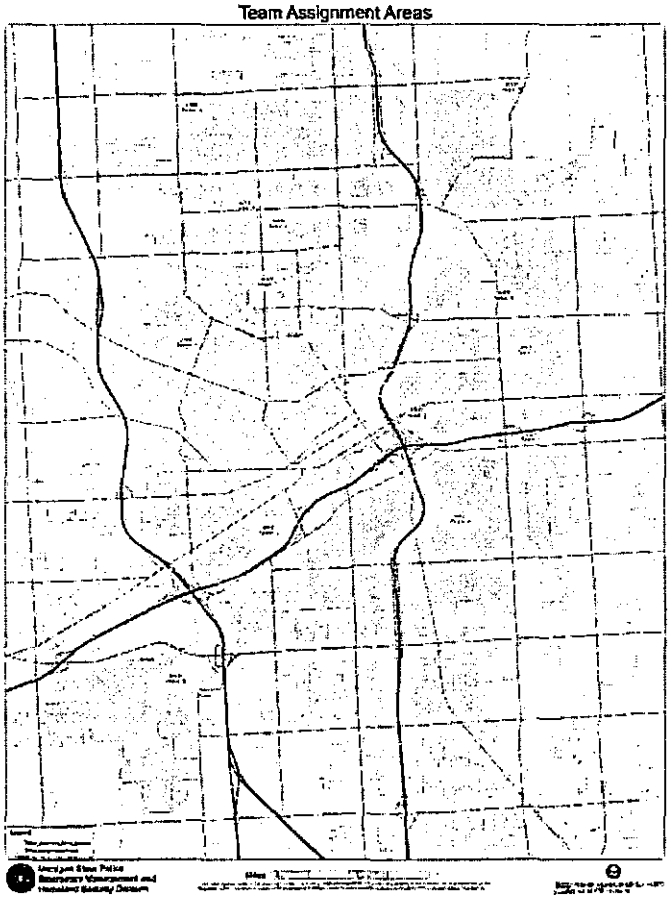
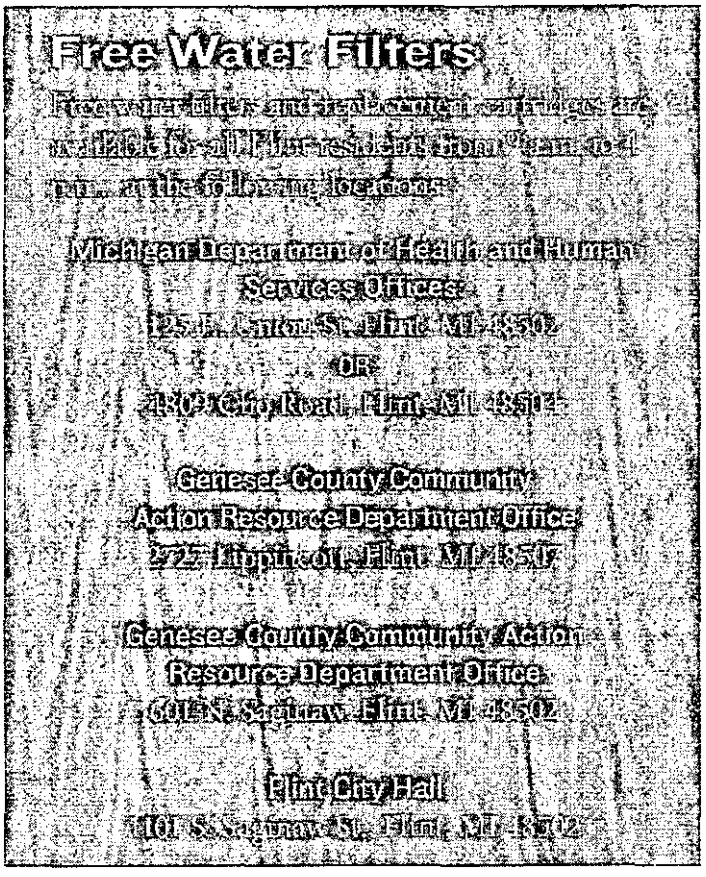
Priority Distribution Areas



Keeping Your Apartment Lead-Safe

If you live in an apartment, it's likely that you can't replace pipes and faucets. In this case, use an NSF-approved filter for all water that you drink or cook with. You can get a filter that attaches to your sink faucet or you can use a pitcher with a filter inside it.

TAKING ACTION ON FLINT WATER
www.mi.gov/FlintWater



Use FILTERED tap water for:

- Drinking (including making coffee, drink mixes, juice and baby formula)
- Cooking (lead will stay in water and food even after boiling)
- Washing fruits and vegetables
- Brushing kids' teeth
- In pets' water bowls

Use UNFILTERED tap water for:

- Washing your hands
- Showers
- Brushing adult teeth
- Washing dishes
- Wiping down countertops
- Baths (don't let kids drink the water as they play in the tub)

Visit: www.michigan.gov/FlintWater

for public information and updates, including resources for Flint residents such as how to obtain free water filters and lead testing

Follow #FlintWater on Facebook and Twitter for updates and information.

Did You Know?

- Lead will not cause rashes or other skin problems. However, if chlorine levels or other cleaners are high in the water, it may cause itchy or dry skin (similar to what can happen when you swim in a pool).
- Buildings built before 1978 could have lead paint. Use wet paper towels to clean up paint chips and dust.

Incident Description:

igan Severe Storms and Flooding

Operational Period:

14 07:00 EDT to 10/18/2014 07:00 EDT

Address:

Joint Field Office (JFO)

28207 Van Dyke Avenue

Warren , Michigan 48093

17T LH 33359 07276

FEMA ICS FORM 202 INCIDENT OBJECTIVES	1. FEMA Disaster Number: FEMA-4195-DR-MI	2. Date Prepared 10/15/2014	3. Time Prepared 1100 EDT

4. Operational Period: **Date/Time From:** 10/16/2014 07:00 EDT
Date/Time To: 10/18/2014 07:00 EDT

5. General objectives for the Incident.

Objective Number	Description
1	Ensure the health, safety, and security of assigned staff.
2a	Employ Disaster Survivor Assistance (DSA) Teams to support applicant registration and services in designated counties and associated municipalities.
13	Identify mobile Recovery Support Site (Pop-Up) location and initiate procurement procedures for the equipment.
10	Schedule and conduct PA kick-off meetings.
5 b	Provide pertinent public information through External Affairs, DRCs, DSAs, Business Recovery Centers, and Recovery Support Sites to disaster survivors, congressional offices, and other external stakeholders.
6	Assist the State in determining mitigation priorities and activities for inclusion in finalized mitigation strategy.
7	Communicate public assistance strategy and sequence of delivery to impacted communities.
8	Enhance Situational Awareness via GIS analysis and products.
11	Review all projects for PA 406 Hazard Mitigation opportunities.
12 a	Provide individual and household long term recovery (unmet needs) support to the whole community partners to include the South East Michigan Long Term Recovery Group.

6. Weather Forecast for Period (Only if significant to Operations)

Tri-County Forecast:

Thursday (10/16): 40% chance of precipitation.

Friday (10/17): Wind gusts up to 23 mph.

Saturday (10/18): 30% chance of precipitation.

7. General/Safety Message

As a reminder this is the beginning of flu season. Notify Safety by COB Wednesday of number of staff requiring Flu shots.Use of all precautions possible is encouraged on 4195-DR. Safety suggests washing your hands thoroughly:

1. After coughing or sneezing
2. After using the bathroom
3. Before and after eating or cooking
4. Before and after treating wounds
5. Before and after handling shared equipment or utensils.

Staff accountability is due to the Chief of Staff by 8:30 AM EDT and 8:00 PM EDT, with the exception of Sunday, which is a non-working day.

6. Medical Emergency Procedures

First aid kits are located at the guard desk located at the entrance to the JFO and in the Safety office on the second floor. Medical responders located throughout the JFO. In case of serious injury or illness do not attempt to move the victim. Send someone to call 911. Provide first aid treatment to the victim until the EMT's arrive and assume responsibility. Should there be blood or other body fluids implement the "universal prescaution" for blood borne pathogens.

Michigan Department of Health and Human Services
Public Act 3 of 2016
FY16 Flint Supplemental #2 (January 2016)

	Appropriation	Contractual FTEs	GF	State Restricted	Federal	Gross	Detailed Description
FLNT16-01	Food Inspections		$ 200,000			$ 200,000	
							- These funds would be used to support Genesee County's Food Safety Division which has delegated authority from MDARD for inspection and response activities at licensed food service establishments (i.e. restaurants, schools, hospitals, etc.).
							- These funds will go to support an additional field inspector and the backfill of the Environmental Health Manager.
							- The additional inspector is needed to assist with the implementation of the new restaurant and food service facilities water sampling requirement which will require initial and complaince review inspections. Inspection rate intervals will also likely increase because County Health Officials will need to perform additional compliance reviews given the latest emergency declaration.
							- The Environmental Health Manager is necessary to coordinate inspection and compliance review schedules, coordinate with other county resources for data collection and reporting at the state and county levels, and coordinate other IT issues related to system monitoring.
							- These staff will be limited term staff. Currently the approp for local health department food safety is part of the public health budget and DHHS has always funded the state portion of this function.
							- These funds have not been increased in years.
FLNT16-02	Other Medical and Behavioral Health Concerns		$ 275,000			$ 275,000	
	- Med Team						-These funds will finance a team of experts to assess any potential linkages from the increase in Legionaire's disease with the changeover from the Detroit to Flint water systems.
FLNT16-03	Water Resources		$ 4,612,800			$ 4,612,800	
							-To reflect the ramping up of distribution efforts to local health entities and other community partners, an increase in supply is required for purchases related to water filters, faucet mounts, replacement cartridges and bottles.
FLNT16-04	Cost for epidemiologists to conduct detailed analysis of EBL reports	2	$ -	$ -	$ 145,000	$ 145,000	
							- Supports two contract epidemiologists (MPHI) to analyze blood levels in City of Flint to conduct more specific detailed analysis not currently conducted.
							- Positions support the review and analysis of the EBL reports for all 13 high risk communities to analyze specifically by zip code, at a more granular level as opposed to county level.
							- Positions support the analysis of patterns and trends to determine the appropriate next steps and will coordinate with health department.
							- Previous supplemental did not include epidemiologists with a more detailed focus on blood lead analysis.
							- Epidemiologists will take data that shows where investigations have occurred, where purchases have been made, to determine whether the high risk areas have been addressed.
							- Overlay zip code data with those addresses that have received filters to determine how many homes are in the highest need have received filters and where we need to focus our energy in getting out filters.
							- Use available Maternal and Child Health Block Grant funding.

	Appropriation	Contractual FTEs	GF	State Restricted	Federal	Gross	Detailed Description
FLNT16-05	Lead abatement - Field Contractual	3.5		$ 1,510,000		$ 1,510,000	
							- Costs reflect contractual and service costs to abate lead from 100 additional homes in the City of Flint. October supplemental funded the abatement of 250 homes.
							- Contractual funds will support 3.5 FTEs, 2.5 field consultants to conduct abatement and one to assist with client application and form processing
							- Abatement activities include the replacement of plumbing components, faucets, aerators and fixtures.
							-We have contractual and state staff that currently do this to identify the plan and cost. They will use ETC reports to identify which homes need abatement.
							-These funds do not pay for ETC. These funds pay for contractors to pay for the physical changes to the home, including window, wall or floor replacements.
							-Use Healthy Michigan Fund available lapse funding
FLNT16-06	Additional lead investigations	0		$ 90,000		$ 90,000	
	- ETC						- Will support ongoing ETC Inc. contract activities that are determining the sources of lead exposure and develops a plan via a report to the family's nurse case manager to reduce and or mitigate lead exposure.
							-ETC determines all the environmental samples in the home including paint, soil and dust.
							-Samples are all sent to their labs to determine what the highest readings of lead are and a plan to remediate.
							-Reports are generated after lead analysis and shared with nurse case manager to determine a follow up health plan for the family.
FLNT16-07	Nurse Case Mgt and NFP	1	500000	$ 25,000	$ 45,000	$ 570,000	
	-Nurse Family Partnership $500,000						-Funds support the increased testing and follow up necessary with the new homes being investigated.
	-One FTE / contract nurse case manager $70,000						-Nurse case managers provide follow up with families, provide nutrition counseling, and coordination with Environmental Blood Level (EBL) investigations through ETC.
							-We expect with the increased testing that the additional nurse / case management will focus on those kids that have already been found to have elevated levels, will manage the health care of those children, will work with the parents to ensure they have everything they need.
							- The additional nurse case manager will be necessary as part of the recent ramp up to address intensified EBL investigations and was not accounted for in the previous supplemental.
							- This individual will provide referrals to relevant benefits/services such as WIC, SNAP benefits, etc.
							- GCHD have noted that nutrition counseling is a big problem and they're looking at this position being the coordinated link between nutrition education and other medical needs.
							- Will inform families that if children eat iron rich diets, then their bodies won't absorb lead as opposed to those who are malnourished.
FLNT16-08	GCHD and Food Bank	2	$ 1,037,200		$ 120,000	$ 1,157,200	
	- GCHD Contract $120,000						-Contractual FTEs will work with the Genesee County Health Department (GCHD) to build educational efforts in that community to develop a more detailed education plan.
	-Food bank - $1,037,200						-The FTEs will direct people on where to get healthy food, faucets, and where they can get follow up care.
							- $1 million to expand food bank partnerships in the City of Flint
							- Their work will be part of the promotion of all the healthy behaviors that helps to treat these problems.
							- Flint is already one of the high risk communities for lead exposure in paint, soil and other environmental areas. GCHD has noted that there is big demand on educating the community.
							- This educational component was not part of the previous supplemental.
							- Funds will help with media promotions and will send community groups and community educations out to various individuals working on the lead issue.

	Appropriation	Contractual FTEs	GF	State Restricted	Federal	Gross	Detailed Description
FLNT16-09	Ed & Access- CAHC, PtoP, CHAP		$ 1,570,000			$ 1,570,000	
	- CAHCs $650,000						- This proposal will provide funds to support the programs operated by the two existing Child and Adolescent health centers.
	- P to P expansion $720,000 & 6.0 FTEs						- Programs will provide medical and other related support services in every school in Flint.
	- CHAP $200,000						- Funding will also go to support the Children's Healthcare Access Program to assist clients to establish a primary care medical home or to obtain the timely and essential services as recommended by their primary care provider.
							- These funds are intended to reduce emergency room usage and promote the best evidence based care for the children and provide support for Medicaid children related to transportation, case management, mental health services, and nutrition education access.
							- Proposal also includes funding to expand the Pathways to Potential model to provide support to City of Flint residents connecting them to the proper benefits and getting them the services they need.
							- CAHC are onsite medical clinics in the schools to provide health education and if parents sign consent forms they treat the children for minor issues.
							- They have a general practicitioner.
							- Flint currently has Adolescent Health Centers in high schools (some upper middle schools) - (not child health centers) currently
FLNT16-10	Nutrition -- WIC		$ 30,000	$ 927,000		$ 957,000	
	- Co-locate WIC staff $872,000						- This proposal will finance the cost of WIC staff that will be co-located within schools and other health centers to increase WIC enrollment and increase the access and availability of WIC benefits.
	- Lactation consultant $ 85,000						- Currently, children up to the age of 5 receive services through WIC; this funding would enable children ages 5-10 to receive nutrition education and counseling as well as screening and referral to other social services. ($55,000 Federal & $30,000 GF)
							- DHHS would need to negotiate this proposal with the federal government to receive federal funding.
							- This funding request also dedicates one lactation consultant to the Genesee County Health Department to promote and support breastfeeding education, provide services to protect children from lead exposure, and promote cognitive development.
							- Research shows that children who are breastfed are healthier and have better immunity against diseases.
							- Assume Medicaid funding for the lactation consultant.
							- Have two existing clinics (not necessarily at capacity).
FLNT16-11	Behavioral Health and MC3		$ 1,335,000	$ 2,535,000		$ 3,870,000	
	- Money to CMHs $3,670,000						- Directly appropriated to CMH to fund crisis services and additional behavioral health and developmental services. ($2,535,000 Federal & $1,135,000 GF)
	- MC3 expansion $200,000 GF						- Funds care coordination between key involved entities such as schools, county and local agencies, mental health providers, health providers as well as case management for children and families.
							- Funds an expansion of the Michigan Child Care Collaborative (MC3) program into Genesee County to provide support to PCP and pediatric offices and clinical services to children and families.
							- MC3 is a new program that is only parts of the state and expansion is strongly supported.
							- Funding supports treatment of children with blood lead levels equal to or higher than 10 and also treatment of lead-associated Attention-deficit/hyperactivity Disorder (AD/HD).
							- Treatment includes diagnostic testing, nurse visits, environmental health assessment of home.
							- Assume Medicaid funding.
FLNT16-12	CMH Crisis Counseling		$ 500,000			$ 500,000	
							- Crisis support and counseling through Community Mental Health organizations.
	Total FY16 Supplemental Funding Request	**8.5**	**$ 10,060,000**	**$ 2,552,000**	**$ 2,845,000**	**$ 15,457,000**

Lansing, MI 48913

The Flint Water Crisis has created a public health emergency resulting in a significant increase in both immediate and long term behavioral health needs in Flint, Michigan. State and local efforts to address these needs are being heavily taxed to meet the immediate public behavioral health needs of the affected community. In anticipation of ongoing and significantly increasing behavioral health resource demands, the State and the local community are requesting the following Federal technical assistance:

1. One (1) Behavioral Health subject matter expert to assist with a rapid needs assessment to determine the behavioral health impact of the emergency and existing behavioral health capacity to address these needs.

    - Data is necessary for decision making and program planning for the immediate behavioral health response demands, and anticipated mid and long term behavioral health recovery plans.
    - Data should identify the populations most affected by the public health emergency, in what manner the populations are currently affected, as well as the existing capacity of the behavioral health system to meet these immediate needs.

2. One (1) Behavioral Health subject matter expert to assist in the development of a immediate, mid, and long range behavioral health response and recovery plan for Genesee County and Flint City.

    - A behavioral health response and recovery plan that develops a collaborative relationship and works in concert with community partners is an essential framework to effectively mobilize the limited behavioral health resources to maximize collective impact in addressing the present emergency.
    - The plan will be informed by elements of the data needs and capacity assessment to maximize the resilience of the community and the public behavioral health system.

3. One (1) Behavioral health subject matter expert to assist in the immediate development and implementation a public behavioral health message to address population level fear, anxiety and anger.

    - Public behavioral health messaging surrounding fear is necessary to mitigate the fear, anxiety and anger of community members.
    - The reduction of fear is essential to the community developing trust and decreasing burden on the behavioral health system.
    - Public health messaging around fear will be informed by the data needs and implemented by trusted community partners (such as the faith based community and others).

Genesee Health System and the State of Michigan (MDHHS) are in full agreement that the above resource request would result in a tremendous contribution to an effective behavioral health response to the devastating effects of the emergency, immediately and in the foreseeable future.

Sincerely,

Danis Russell, CEO
Genesee Health System

Flint Water Emergency Response
General Talking Points

NOT INTENDED TO BE DISSEMINATED TO THE MEDIA OR PUBLIC IN THIS FORMAT

Background

- On January 16, President Obama approved Governor Snyder's request for a federal emergency in Flint. This action will provide emergency relief in the form of bottled water, water filters, filter replacements, and water test kits. The period of assistance is up to 90 days.
    - Governor Snyder had also requested a major disaster declaration, which the President denied based on the legal requirement that under the Stafford Act disaster relief is available only for natural events, fires, floods, or explosions. The state is reviewing the process for appealing the disaster declaration denial.
- The State Emergency Operations Center in Lansing has been activated since January 5 and continues to be staffed seven days a week by members of state agencies and other partners to coordinate the state's response.

Current Status/Update

- The state continues to bring all state resources to bear to protect public health and safety. One of our most important messages and priorities continues to be making sure residents are aware of the information and free resources available to them, which include bottled water, water filters, replacement cartridges, water test kits.
- The one-stop shop for finding all these resources is by visiting www.michigan.gov/FlintWater or calling 2-1-1.
- Including today's anticipated activity, water response teams, who are going door-to-door, have distributed resources to nearly 7,000 Flint homes providing residents with free bottled water, filters, replacement cartridges, and water testing kits.

- More than 12,000 homes have been visited by the water response teams, which are a collaborative effort comprised of local and state personnel, American Red Cross personnel, and volunteers.

- The Michigan National Guard has been activated to assist with distribution efforts at the five water resource sites at fire stations in the city. Starting tomorrow, the number of National Guard members will be further increased to approximately 70 National Guard members handing out resources at the fire stations in the city.

- From January 9 - 16, the following resources have been distributed to residents, both at the water resource sites and by the water response teams:

    - Nearly 20,900 cases of water
    - Nearly 48,000 water filters
    - More than 3,300 water testing kits

- To help enhance the water testing process, Flint residents can now drop-off water samples to the five water resource sites at fire stations. Samples will only be accepted by using the official water testing kits provided at the water resource sites and by the water response teams.

- Water resource sites are open daily from 9 a.m. to 9 p.m. and are located at:

    Fire Station #1
    310 East 5th St.
    Flint, MI 48502

    Fire Station #3
    1525 Martin Luther King Ave.
    Flint, MI 48503

    Fire Station #5
    3402 Western Road
    Flint, MI 48506

    Fire Station #6
    716 West Pierson Road
    Flint, MI 48505

    Fire Station #8
    202 East Atherton Road
    Flint, MI 48507

Filters

- When used properly water filters remove 99% of lead in water. Residents are urged to use filtered water for drinking, food preparation, brushing teeth, and watering pets. Unfiltered water may be used for bathing and cleaning.

- One filter and one replacement cartridge are being provided per household initially. Each filter is good for approximately 100 gallons of water. The filter has an indicator on it that will turn from green to red when it needs to be replaced.

- The filters do have a five-year, non-replaceable battery that operates the indicator light.

- There is a detailed video posted on www.michigan.gov/flintwater that explains how to properly install a water filter cartridge.

Resources for homebound individuals

- 2-1-1 is collecting a list of individuals needing home delivery of water resources and is providing that information to the Genesee County Sheriff's Department, who is making these deliveries.

- The Plumbers and Pipefitters Union has agreed to provide free water filter installation to homebound residents needing assistance. This is being coordinated through 2-1-1.

Outside Support Efforts – Volunteers and Donations

- There has been great cooperation on the ground in Flint by many local agencies, from the city and county to churches and public, private, and non-profit groups to help with this effort.

- The American Red Cross, United Way, 2-1-1, and many other organizations have assisted with water resource distribution efforts and the donations management process.

- Volunteers and donations are being coordinated through 2-1-1, in cooperation with the American Red Cross. Persons/organizations wishing to donate 100 cases of water or less can be taken to the American Red Cross located at 1401 S. Grand Traverse in Flint.

- Volunteers can also report to the American Red Cross for processing.

SEOC Report for: February 16, 2016
Full Days Since Emergency Declaration: 42

Items to Note

• There will be a Congressional/Legislative conference call on Tuesday, February 16 at 2:30 PM.
• Commenced development of a plan to re-deploy the Sentinel water sampling collection crews to achieve 402 sampled sites and 60 lead service lines.
• Southern Baptist Disaster Relief taking over rapid response deliveries from NCCC on 02/16/2016 with five teams in the field.
• IC coordinating with MSU College of Veterinary Medicine and MDARD for development of blood lead level testing program for companion animals.

GCSO/MSP WRT Volunteer Assembly Information

1. Volunteer check in at 0830 at 1101 Beach Street, Flint, MI 48502 (Genesee County Administration Building).
2. Volunteers are able to park at First Trinity Missionary Baptist Church located at 1226 Beach Street Flint, MI 48502. This lot is located at the corner of Beach and Seventh Streets directly across from the southwest doors, which is the point of entry into the building. Upon entering the building proceed to the basement for sign in.
3. Assignments and briefing are conducted between 0830 and 0915. Efforts will be made to keep groups together if requested. Volunteers should inform their team leaders of any medical, security or other needs.
4. Teams will deploy to assigned areas. Volunteers should be able to walk long distances. Transportation will be provided to and from the assignment location.
5. Teams will return to 1101 Beach Street for lunch from 1230-1330. Lunch will be provided.
6. Teams will redeploy to the field with afternoon assignments.
7. Shifts will end between 1630 and 1700 with a return to 1101 Beach Street. All items assigned to volunteers must be returned to their team leader at the end of the day. This includes high visibility vest, tablets, stylists and paperwork.

Michigan Department of Health and Human Services
Public Act 3 of 2016
FY16 Flint Supplemental #2 (January 2016)

	Appropriation	Contractual FTEs	GF	State Restricted	Federal	Gross	Detailed Description
FLNT16-01	Food inspections		$ 200,000			$ 200,000	
							- These funds would be used to support Genesee County's Food Safety Division which has delegated authority from MDARD for inspection and response activities at licensed food service establishments (i.e. restaurants, schools, hospitals, etc.).
							- These funds will go to support an additional field inspector and the backfill of the Environmental Health Manager.
							- The additional inspector is needed to assist with the implementation of the new restaurant and food service facilities water sampling requirement which will require initial and complaince review inspections. Inspection rate intervals will also likely increase because County Health Officials will need to perform additional compliance reviews given the latest emergency declaration.
							- The Environmental Health Manager is necessary to coordinate inspection and compliance review schedules, coordinate with other county resources for data collection and reporting at the state and county levels, and coordinate other IT issues related to system monitoring.
							- These staff will be limited term staff. Currently the approp for local health department food safety is part of the public health budget and DHHS has always funded the state portion of this function.
							- These funds have not been increased in years.
FLNT16-02	Other Medical and Behavioral Health Concerns		$ 275,000			$ 275,000	
	- Med Team						-These funds will finance a team of experts to assess any potential linkages from the increase in Legionaire's disease with the changeover from the Detroit to Flint water systems.
FLNT16-03	Water Resources		$ 4,612,800			$ 4,612,800	
							-To reflect the ramping up of distribution efforts to local health entities and other community partners, an increase in supply is required for purchases related to water filters, faucet mounts, replacement cartridges and bottles.
FLNT16-04	Cost for epidemiologists to conduct detailed analysis of EBL reports	2	$ -	$ -	$ 145,000	$ 145,000	
							- Supports two contract epidemiologists (MPHi) to analyze blood levels in City of Flint to conduct more specific detailed analysis not currently conducted.
							- Positions support the review and analysis of the EBL reports for all 13 high risk communities to analyze specifically by zip code, at a more granular level as opposed to county level.
							- Positions support the analysis of patterns and trends to determine the appropriate next steps and will coordinate with health department.
							- Previous supplemental did not include epidemiologists with a more detailed focus on blood lead analysis.
							- Epidemiologists will take data that shows where investigations have occurred, where purchases have been made, to determine whether the high risk areas have been addressed.
							- Overlay zip code data with those addresses that have received filters to determine how many homes are in the highest need have received filters and where we need to focus our energy in getting out filters.
							- Use available Maternal and Child Health Block Grant funding.

	Appropriation	Contractual FTEs	GF	State Restricted	Federal	Gross	Detailed Description
FLNT16-05	Lead abatement - Field Contractual	3.5		$ 1,510,000		$ 1,510,000	
							- Costs reflect contractual and service costs to abate lead from 100 additional homes in the City of Flint. October supplemental funded the abatement of 250 homes.
							- Contractual funds will support 3.5 FTEs, 2.5 field consultants to conduct abatement and one to assist with client application and form processing
							- Abatement activities include the replacement of plumbing components, faucets, aerators and fixtures.
							-We have contractual and state staff that currently do this to identify the plan and cost. They will use ETC reports to identify which homes need abatement.
							-These funds do not pay for ETC. These funds pay for contractors to pay for the physical changes to the home, including window, wall or floor replacements.
							-Use Healthy Michigan Fund available lapse funding
FLNT16-06	Additional lead investigations	0		$ 90,000		$ 90,000	
	- ETC						- Will support ongoing ETC Inc. contract activities that are determining the sources of lead exposure and develops a plan via a report to the family's nurse case manager to reduce and or mitigate lead exposure.
							-ETC determines all the environmental samples in the home including paint, soil and dust.
							-Samples are all sent to their labs to determine what the highest readings of lead are and a plan to remediate.
							-Reports are generated after lead analysis and shared with nurse case manager to determine a follow up health plan for the family.
FLNT16-07	Nurse Case Mgt and NFP	1	500000	$ 25,000	$ 45,000	$ 570,000	
	-Nurse Family Partnership $500,000						-Funds support the increased testing and follow up necessary with the new homes being investigated.
	-One FTE / contract nurse case manager $70,000						-Nurse case managers provide follow up with families, provide nutrition counseling, and coordination with Environmental Blood Level (EBL) investigations through ETC.
							-We expect with the increased testing that the additional nurse / case management will focus on those kids that have already been found to have elevated levels, will manage the health care of those children, will work with the parents to ensure they have everything they need.
							- The additional nurse case manager will be necessary as part of the recent ramp up to address intensified EBL investigations and was not accounted for in the previous supplemental.
							- This individual will provide referrals to relevant benefits/services such as WIC, SNAP benefits, etc.
							- GCHD have noted that nutrition counseling is a big problem and they're looking at this position being the coordinated link between nutrition education and other medical needs.
							- Will inform families that if children eat iron rich diets, then their bodies won't absorb lead as opposed to those who are malnourished.
FLNT16-08	GCHD and Food Bank	2	$ 1,037,200		$ 120,000	$ 1,157,200	
	- GCHD Contract $120,000						-Contractual FTEs will work with the Genesee County Health Department (GCHD) to build educational efforts in that community to develop a more detailed education plan.
	-Food bank - $1,037,200						-The FTEs will direct people on where to get healthy food, faucets, and where they can get follow up care.
							- $1 million to expand food bank partnerships in the City of Flint
							- Their work will be part of the promotion of all the healthy behaviors that helps to treat these problems.
							- Flint is already one of the high risk communities for lead exposure in paint, soil and other environmental areas. GCHD has noted that there is big demand on educating the community.
							- This educational component was not part of the previous supplemental.
							- Funds will help with media promotions and will send community groups and community educations out to various individuals working on the lead issue.

	Appropriation	Contractual FTEs	GF	State Restricted	Federal	Gross	Detailed Description
FLNT16-09	Ed & Access- CAHC, PtoP, CHAP		$ 1,570,000			$ 1,570,000	
	- CAHCs $550,000						- This proposal will provide funds to support the programs operated by the two existing Child and Adolescent health centers.
	- P to P expansion $720,000 & 6.0 FTEs						- Programs will provide medical and other related support services in every school in Flint.
	- CHAP $200,000						- Funding will also go to support the Children's Healthcare Access Program to assist clients to establish a primary care medical home or to obtain the timely and essential services as recommended by their primary care provider.
							- These funds are intended to reduce emergency room usage and promote the best evidence based care for the children and provide support for Medicaid children related to transportation, case management, mental health services, and nutrition education access.
							- Proposal also includes funding to expand the Pathways to Potential model to provide support to City of Flint residents connecting them to the proper benefits and getting them the services they need.
							- CAHC are onsite medical clinics in the schools to provide health education and if parents sign consent forms they treat the children for minor issues.
							- They have a general practicitioner.
							- Flint currently has Adolescent Health Centers in high schools (some upper middle schools) - (not child health centers) currently
FLNT16-10	Nutrition – WIC		$ 30,000	$ 927,000		$ 957,000	
	- Co-locate WIC staff $872,000						- This proposal will finance the cost of WIC staff that will be co-located within schools and other health centers to increase WIC enrollment and increase the access and availability of WIC benefits.
	- Lactation consultant $ 85,000						- Currently, children up to the age of 5 receive services through WIC; this funding would enable children ages 5-10 to receive nutrition education and counseling as well as screening and referral to other social services. ($55,000 Federal & $30,000 GF)
							- DHHS would need to negotiate this proposal with the federal government to receive federal funding.
							- This funding request also dedicates one lactation consultant to the Genesee County Health Department to promote and support breastfeeding education, provide services to protect children from lead exposure, and promote cognitive development.
							- Research shows that children who are breastfed are healthier and have better immunity against diseases.
							- Assume Medicaid funding for the lactation consultant.
							- Have two existing clinics (not necessarily at capacity).
FLNT16-11	Behavioral Health and MC3		$ 1,335,000		$ 2,535,000	$ 3,870,000	
	- Money to CMHs $3,670,000						- Directly appropriated to CMH to fund crisis services and additional behavioral health and developmental services. ($2,535,000 Federal & $1,135,000 GF)
	- MC3 expansion $200,000 GF						- Funds care coordination between key involved entities such as schools, county and local agencies, mental health providers, health providers as well as case management for children and families.
							- Funds an expansion of the Michigan Child Care Collaborative (MC3) program into Genesee County to provide support to PCP and pediatric offices and clinical services to children and families.
							- MC3 is a new program that is only parts of the state and expansion is strongly supported.
							- Funding supports treatment of children with blood lead levels equal to or higher than 10 and also treatment of lead-associated Attention-deficit/hyperactivity Disorder (AD/HD).
							- Treatment includes diagnostic testing, nurse visits, environmental health assessment of home.
							- Assume Medicaid funding.
FLNT16-12	CMH Crisis Counseling		$ 500,000			$ 500,000	
							- Crisis support and counseling through Community Mental Health organizations.
	Total FY16 Supplemental Funding Request	8.5	$ 10,060,000	$ 2,552,000	$ 2,845,000	$ 15,457,000

DONATION GUIDELINES

Guidelines for Water Donation Drives

Thank you for your willingness to organize a water donation drive for the residents of Flint, Mich. To adhere to safety codes, all donations need to observe the following guidelines, which allow volunteers to transport the water safely and efficiently.

The following items are acceptable:

- Full cases of commercially packaged water (no loose bottles)
- Commercially sealed gallon (or larger) containers of water
- All containers must have an expiration date at least 6 months in the future

The following items will NOT be accepted:

- Canned water
- Containers with open/broken seals
- Carbonated water
- Flavored water
- Water past its expiration date or within 6 months of expiration

Donations should be delivered to:

- Donations of 100 cases or less:
  - Catholic Charities Center for Hope, call 810-232-9950, ext.325 to make arrangements for deliveries.

- Donations of 100 cases or more (must be in pallet form and wrapped):
  - Food Bank of Eastern Michigan, call (810) 239-4441 to schedule a dock time for delivery.

- Donations of multiple semi-truck loads can be made by emailing FlintDonations@michigan.gov or by calling 517-420-4162.

DONATION GUIDELINES

Guidelines for Water Filter Donations

Thank you for your willingness to donate water filters for the residents of Flint, Mich. To ensure the products meet health and safety codes, filters must be NSF Standard 53 compliant and all donated filters and replacement cartridges must be in the original sealed box/packaging.

Only filters matching the following brand and model numbers can be accepted:

Manufacturer	Model #	Replacement Cartridge #
Zero Technologies (ZeroWater)		ZF-201
Brita Products Co.		FR-200
Kaz USA (PUR)	FM-2000B	RF-3375/RF-9999
	FM-3000	RF-3050
	FM-8100L	RF-4050L
	FM-9100B	RF-9999

	FM-3333B	RF-3375/RF-9999
	FM-4100B	RF-9999
	FM-9600B	RF-9999
	FM-9400B	RF-9999
	FM-9000B	RF-9999
	FM-3700B	RF-9999
	PFM-400C	PFF991C
	PFM333C	PFF331C
	PFM370C	PFF991C

DEPARTMENT OF HEALTH & HUMAN SERVICES

Office of the Secretary

Assistant Secretary for
Preparedness & Response
Washington, D.C. 20201

The Honorable Richard D. Snyder
Governor of Michigan
111 South Capitol Avenue
Lansing, Michigan 48909

Dear Governor Snyder:

The Federal Government is committed to supporting the State of Michigan in ensuring the people of Flint regain access to safe water and in developing its plan to focus on the community's needs moving forward. As promised, I am writing to provide you with an update on current efforts and to respond specifically to the request made by the State through the emergency operations center in Flint on January 24, 2016. The Federal Government has current and ongoing efforts in support of the vast majority of your request, and I am pleased to report that we are making substantial progress, particularly on the State's top priorities in the areas of the environment, health, human services, nutrition, and communications. The remaining items require further discussion and/or action by the State, and we are happy to pursue them in coordination with your team as detailed below.

In addition to support provided by the Federal Emergency Management Agency (FEMA) under a Presidential Emergency Declaration and by the Department of Health and Human Services (HHS), I have enlisted the assistance of other Federal partners, including the Environmental Protection Agency (EPA), Small Business Administration (SBA), Department of Housing and Urban Development (HUD), Department of Education (ED), and Department of Agriculture (USDA). The Federal Government has established a Unified Coordination Group in Flint consisting of approximately 70 people, including HHS' Centers for Disease Control and Prevention (CDC) subject matter experts and U.S. Public Health Service Commissioned Corps officers.

The overarching Federal goal is to develop, with State and local partners, a plan that the State can implement to end the crisis and help mitigate its adverse health effects. Our priorities are to help the State of Michigan to: 1) provide immediate access to safe water; 2) support long-term safety of and confidence in the water supply; 3) understand and address immediate health needs, particularly for children and pregnant women who have had lead exposure, including effective risk communication to residents of Flint and actions to address behavioral health needs of the

community; and 4) monitor and mitigate long-term effects of lead on the health of affected people.

In response to your request for support in behavioral health planning, U.S. Public Health Service Commissioned Corps officers are in Flint providing assistance and are working with State and local health personnel. In addition, a CDC external affairs specialist provided risk communication training for State, county, and local representatives, consistent with your request for support in developing community communications and outreach strategies. We are also making residents of Flint aware that they have access to the Disaster Distress Helpline, sponsored by the HHS Substance Abuse and Mental Health Services Administration (SAMHSA), which provides crisis counseling and support to people – including children and families in Flint – who are experiencing emotional distress related to the crisis.

To assist with the restoration of Flint's water system, EPA field sampling teams are conducting water sampling at homes with higher levels of lead for analysis and follow-up. The EPA and CDC are supporting your request for investigations into rashes reported by the Flint community through the deployment of personnel and technical assistance to State agencies. Beyond these efforts, the EPA has begun posting preliminary water quality data about chlorine levels in Flint's drinking water, as well as an interactive map of sampling results in Flint. The map includes data from initial chlorine testing and, as additional and final data become available, EPA will post the sampling locations and data to the map. The map is available at www.epa.gov/flint. Finally, staff from CDC are also working with Michigan Department of Health and Human Services (MDHHS) on a plan to better prevent, detect, and report Legionellosis.

While there are statutory limitations affecting USDA's ability to expand access to Women, Infants, and Children (WIC) as requested, the Special Supplemental Nutrition Program for WIC is allowing participants to use vouchers for ready-to-feed infant formula and USDA will provide more awareness of the WIC program and its benefits to those who may be eligible. In addition, HHS' Administration for Children and Families (ACF) and Health Resources and Services Administration (HRSA) are working with their grantees in the area to disseminate public health education through Head Start, Early Head Start, Community Health Centers, and other programs to help families understand the risks of lead in the water, encourage residents to have their children screened, and assist families in obtaining screening for their children.

The CDC has presented recommendations for lead testing in children to MDHHS. CDC recommends that *all* children 6 years of age and under be tested by April 1, 2016, and that subsequent services be identified for those children with blood lead levels of 5 micrograms per deciliter or more. Further discussions on these recommendations, as well as the development of recommendations to estimate the level of lead exposure prior to testing, are ongoing with State and local partners. Similarly, CDC will make recommendations regarding appropriate long-term monitoring for children. We look forward to working with the State of Michigan to quickly implement CDC's lead testing recommendations.

HHS's Centers for Medicare and Medicaid Services (CMS) have been in communication with State of Michigan representatives to better understand your requests concerning Medicaid-related matters. Several of the requests represent benefits expansions, which would normally be

processed under State Plan Amendments or waivers. CMS will continue to make its staff available to refine your requests, consider them expeditiously, and, as appropriate, implement State Plan Amendments or waivers. Regarding your request related to the SBA, as I have discussed with you and your staff, SBA stands ready to help, but needs a written request from your office.

We continue to work with relevant State agencies to further clarify the remaining requests and assess their feasibility. Beyond these immediate- and short-term Federal efforts, HHS stands ready to work with you to develop a long-term plan that leverages the range of programs offered by the United States Government to complement State and local efforts. Together we are making progress. I am grateful for your ongoing willingness to thoughtfully engage on these issues as a partner in our efforts to assist the residents of Flint. Please do not hesitate to contact me with any further thoughts or concerns.

Sincerely,

Nicole Lurie

Nicole Lurie, MD, MSPH

Rumor Control | Health & Water Quality/Safety Concerns | Taxonomy Terms |Q&A | Printed Materials

Background Information:

Early January, Flint Water situation has been declared a State of Emergency and the Governor's Office got involved to set up resources. The concern is the lead and general quality of the water, piping, lead poisoning risk and health impacts. January 17, President Obama Signed a Declaration of Emergency releasing FEMA assistance for 90 days. Here's the press release. 2-1-1 is being advertised as the place to give and get help.

Many residents are upset at the situation and lack of steps being taken to fix the situation and the government is hopeful the partnership with us to get information to people and help assess the situation from people (unmet needs, trends, etc) will help them take steps – certainly along with other things they're doing! ***It's really important we express empathy and compassion to these callers, take time to listen, offer the help we can, record unique situations and report them to the partners – please email Jennie Pollak (jennifer.pollak@lifewayscmh.org) and I'll pass them up!***

The relief efforts include bottled water giveaway sites, water testing giveaways sites, water filter sites, homebound delivery of supplies, recycling centers, lead poison testing, as well as organized bottled water & monetary donation sites and volunteer organization.

Rebuild efforts have begun being announced. A lead pipe removal plan was announced on 2/9/16 by Flint Mayor Karen Weaver and will be led by retired Brigadier General Michael McDaniels. The plan will replace **residential** lead pipes with copper and is expected to begin by the end of March. There's no cost to homeowners. State Funding requests have been proposed.
www.detroitnews.com/story/news/michigan/flint-water-crisis/2016/02/09/flint-mayor-announces-lead-pipe-removal-plan/80052634/

Canvas efforts are in place to visit all residents, door to door in the City of Flint, providing filters, testing kits & drinking water. Teams are starting in neighborhoods with the highest lead concentration first. If the resident is not home, a flyer will be left instructing them to call 2-1-1. Treat these caller as a new caller, assessing their ability to pick up supplies or need for delivery. Canvas teams will make a second pass to reach residents.

Rumor Control – Record Referrals as OOD Disaster Related Rumor Control

Niagara Bottle E.Coli Rumor – Refer callers to Niagra Bottle Company website or the Consumer Affairs Dept to see if the bottles they've received were recalled. The recall was issued Summer 2015 from 2 Pennsylvania plants. www.niagarawater.com/consumer-notice/ Save OOD Referral for **Disaster Related Rumor Control** and Agency: **Niagara Bottling Company**

Revised 2.15.16_JP

Lead found in Bottled Water Received by Fire Stations – See official press release of <Dept of Environmental Quality Total Dissolved Solids> testing performed of bottled water. There's over 21 bottles of water that were tested – Sparklettes and Star Wars are some of the brands. Save OOD Referral for **Disaster Related Rumor Control** and Agency: **Joint Information Center.**

FEMA Relocation Assistance – There is no relocation assistance currently being provided as this is a Declared Emergency, not Declared Disaster. Please let residents know relief efforts are focused on water resources, testing and health support. Save OOD Referral for **Disaster Related Rumor Control** and Agency: **FEMA.**

~~~~~~

Health and Water Quality/Safety Concerns; several questions and concerns have been reported – safe to bathe, cook, etc. Refer to <WATER SAFETY FLYER> for basic information or refer for additional questions/concerns. Save referral for **Water Quality Assurance** for **Central Michigan 2-1-1** when basic information is provided and to another agency when referral is provided.

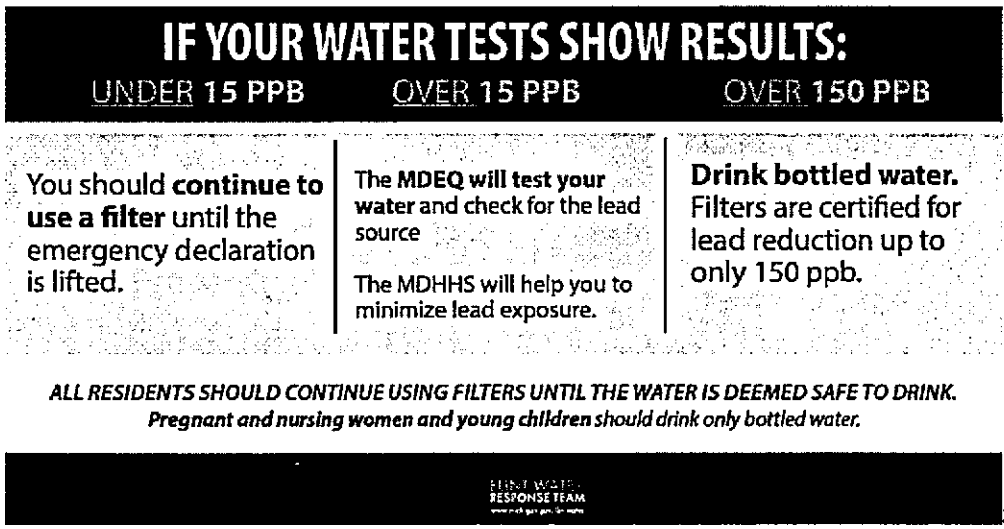
Q&A:

Lead Test Results Received: Several residents have called asking what to do after receiving their test results. Please advise as directed below. Residents will receive their results in the mail (we're hearing 3-4 weeks) after returning the sample, and results will be posted online to www.michigan.gov/flintwater as soon as they're processed. Click "Testing Results" to see residential results. Please do not share individual household results, but instead direct them to find the file online. We are not lead testing experts! Please record this call as Water Testing Information (saved in OOD box). If you're able to answer their question, save the agency as Central Michigan 2-1-1 (saved in dropdown list). If you refer to the website, save agency as www.michigan.gov/flintwater (saved in dropdown list).



Se

Class Action Lawsuits – An informational meeting about the Class Action Suits will be held at UofM Flint Tuesday, February 16th. Information is noted in the ACLU record. A few lawsuits have been filed against the City of Flint and Governor Snyder, etc. regarding the Water Situation. If callers want more information or to join, refer them to the ACLU by Taxonomy term: **Class Action Litigation.**

Lead Poisoning Results – Lead poisoning results will be received by the clinic or doctor that performed the bloodwork and follow up will be arranged; however if a family is concerned about positive lead poisoning test results for their child, please refer to **Case/Care Management** programs. If the child has Medicaid, refer to CHAP through the Greater Flint Health Coalition **(Case/Care Management).** If another form of insurance, please refer the Genesee County Health Department **(Case/Care Management*Lead Poisoning).**

Governor Constituent Services – Constituent Services is available for residents to share concerns, complaints, etc. Many Flint callers are upset, remember to be empathetic and understanding for what they are experiencing, but if we are not able to resolve their concern, or provide referrals, or if they are

calling only to share their opinion, please direct them to Constituent Services. Taxonomy term: **Government Complaints/Government Ombudsman Offices.**

Skin Rashes – Health information is available for those with questions about skin rashes that may be attributed to the water conditions. A physician is on duty that can help answer questions. Taxonomy term is **Medical Information Lines.**

Questions about Lead: EPA has developed a hotline to answer specific questions about the effects of lead and lead poisoning. Taxonomy term: **Lead Information.**

Questions about Water Safety: EPA has developed a hotline to Answer questions about drinking water safety and also can refer residents to the free testing kits. Taxonomy term: **Water Quality Assurance.**

Loans for Small Businesses – Economic Injury Disaster Loans have been approved for businesses in Genesee County and City of Flint. Business owners must apply by Nov 7, 2016. Taxonomy term: Disaster Business Loans.

Information for Visually Impaired Residents –Bureau of Services for Blind Persons is helping provide resources for blind or visually impaired residents. Taxonomy term: Disaster Preparedness Information

Water Main Break/Water Shut Off – The boil water advisory was lifted and no bacteria was found 2.12. During a water main break, residents may experience a drop in pressure or no water in their tap. This was confused with residents thinking the City shut off their water. Be advised, there have been no water bill shut off notices issued since around December 2015. When service is restored, it may have an odor or be discolored-let the water run for a few minutes to clear the line. As water main breaks do occur, this may happen again.

Water for Pets - Official statements state filtered water is safe for pets to drink, although the Humane Society is providing water for pet owners. Taxonomy term: **Disaster Related Drinking Water.**

Water Resources for Business, Nonprofits, Nursing Homes, Churches –Commercial food/beverage business may receive up to 10 cases/day and non-food business may receive up to 5/day. Taxonomy term: **Disaster Related Drinking Water.** Schools should contact Food Bank of Eastern Michigan if they are not already a distribution site. Licensed daycare/foster care providers should contact DHHS if they do not have resources.

Agencies offering to be a distribution site - Water resource distribution is a coordinated effort and please refer organizations that are a 501c3 to the Food Bank of Eastern Michigan to set up directly.

Ages 0-6 and Pregnant Women Advised not to Drink Water – Some homes are testing very high for lead (higher than the current water filters are certified to remove lead) and officials are warning people, especially those with kids 0-6 or pregnant to not drink tap water, even with a filter until they get their tap water tested and know their levels. There are no specific water distribution centers set up for this population. Refer callers to **Tap Water Testing** and **Disaster Related Drinking Water** as appropriate. Here's an article about the situation:
http://www.mlive.com/news/flint/index.ssf/2016/01/flint_water_crisis_filter.html

Revised 2.15.16_JP

CHAP – Families have trouble accessing health care, with their health care provider or transportation. Until the CHAP Screening process is in place, please refer directly to the Genesee County CHAP. Taxonomy term: **Case/Care Management.**

Emotional/Mental Health Support – Genesee Health System (CMH) is offering a weekly workshop for those seeking support, prayer, relaxation, crisis management, mental health resources, blood pressure checks, etc. Taxonomy term: **Workshops/Symposiums*Disaster or Emergency Issues.**

Hair Care – Creative Hair School of Cosmetology will provide monthly shampoo, condition and style for those affected by the Flint Water Crisis. Taxonomy term: **Hairdressing/Nail Care**

Pitcher Water Filters – Pitcher filters are no longer stocked at the Fire Stations; instead they're provided to residents who have tried the faucet filters. Please offer a plumber/pipefitter to try to install the faucet filter first; Taxonomy term: **Disaster Specific Home Repair.** The plumber/pipefitter will alert the team for the need of a pitcher filter. If the person is sure a faucet filter won't fit (sprayer faucet), please email Jennie Pollak the caller's name and need for pitcher filter (Jennifer.pollak@lifewayscmh.org) to make note on the referral list.

New Faucet – Donated faucets have been secured for residents that have been identified to need a new faucet to fit the faucet filter. Taxonomy term: **Disaster Specific Home Repair.** The plumber/pipefitter will alert the team for the need of a new faucet.

Recycling – Water bottles and water filter cartridges can be recycled at various locations in Flint. Taxonomy term is **Residential Recycling Programs.** Please see <Flint Recycling Information Handout>

Fraud Reporting – There have been reports of frauds or scams. If a resident is concerned, please direct them to report to FEMA or LARA. Taxonomy term is **Disaster Related Fraud Reporting.**

Volunteer Uniform: If callers have questions/concerns about those distributing resources, it's helpful to know which team. Red Cross volunteers have red vests, plumbers have neon yellow sweat shirts, and police and National Guard are in uniform.

Concerns about Treatment by National Guard: We've received concerns and complaints about how residents are treated at Fire Stations by National Guardsman. Please email Jennie Pollak at Jennifer.pollak@lifewayscmh.org an overview of situation including the caller's name and phone number (if interested) and she will send forward to a contact at the Michigan State Police.

Assisting agency call volume - Do not provide the phone number to Fire Stations, Genesee County Sheriff (*except to Apartment/Group Home Managers*) and Red Cross to help manage their call volume so they focus on relief efforts.

Filter doesn't fit faucet – All faucet filter kits come with several adaptions. Offer to have someone help install the faucet filter or suggest they get a pitcher filter if they're sure a faucet filter won't fit (sprayer faucets, etc).

Fire Station Resource Supply – The supply at the Fire Stations are being checked on an hourly basis. We've heard reports that they may temporarily run out of supplies; they will be replenished. We are not receiving updates when they are out or have supplies back in.

Revised 2.15.16_JP

Picking up filters for family members - People are no longer able to pick up water resources for another person. As of 1.22 People no longer need to bring ID to pick up supplies. Those unable to pick up supplies (homebound residents) may have them delivered by the Genesee County Sheriff's Office.

How Often? – People can pick up cases of water daily, replacement filter cartridges as needed and homebound residents can call as they need supplies delivered. There's one filter per household.

Township/nearby other city residents that receive City Water: if someone isn't a City of Flint resident but receives City of Flint water, they're called a "franchise customer" and it should be noted on their water bill (through Flint Township, etc). Direct callers to check their water bill or with their Township/Apartment manager to learn if their household is affected (if they are a franchise customer). They should be eligible for water filters, bottled water, etc. The canvas teams know about these residents and will be sure to deliver even though they are outside the City limits. Water filters will be mailed to franchise customers beginning 1/25. *Still waiting to hear about Delivery for homebound Franchise customers.*

Blood Lead Tests – Concerns for lead poisoning have shown need for Blood Lead testing sites. Children are at highest risk of developing lead poisoning, and the target of free community based lead testing clinics, though adult testing is available for a fee at the Health Department Saginaw St Clinic or their Primary Care Physician.

Water Bill Payment – Currently residents are obligated to pay their water bill since the courts have settled the disputes. If they have questions or concerns about their water bill, direct them to call the City of Flint Water Department for billing questions. The Governor did mention to provide aid to the City for utilities in his State of the State address but we are not aware that programs have been set to pay for resident's bills. Direct callers facing shut off to current resources, Taxonomy term: **Water Bill Payment Assistance.**

Apartment/Group home Managers picking up for residents - Public/Private housing unit apartment managers should be directed to call the Sheriff's Department water line, 810-257-3600 to coordinate pick up of water supplies for the units in their care. Residents may pick up resources for themselves, but Apartment/Nonprofit Group Home complexes may pick up water filters for their residents too.

Residents hired for Water Testing – Governor Snyder announced 2/8 partners were hiring 50 residents to assist with water testing. That opportunity was filled 2/9 so not entered into the database. Here's the article, FYI: www.mlive.com/news/flint/index.ssf/2016/02/flint_residents_being_hired_to.html

Water Resources for Business, Nonprofits, Nursing Homes, Churches –Commercial food/beverage business may receive up to 10 cases/day and non-food business may receive up to 5/day. Taxonomy term: **Disaster Related Drinking Water.** *Schools should contact Food Bank of Eastern Michigan* if they are not already a distribution site. Licensed daycare/foster care providers should contact DHHS if they do not have resources.

Eroded Hot Water heater - Refer to current resources (DHHS SER Program), but also record their name, address and phone number with a client note saying the cause is believed to be from the City Water in case specific assistance does become available

Free Bus Transportation to Fire Stations - MTA (public transportation) is waiving the fare for people getting off at the Fire Station Water Resource Centers

Water filter scams - There have been reports of people selling water filters. If you hear of someone selling water filters, avoid that situation and call non-emergency Genesee County Sheriff's Office at 810-257-3407. All water filters are being provided free.

Water Testing Sample Questions – Instructions and an application form were provided with the water sample kit. There's also an instructional video online at www.michigan.gov/flintwater. Test Samples should be dropped off at Fire Stations, City Hall or Water Department (Taxonomy term **Tap Water Testing**). If homebound resident needs sample picked up, please save as Unmet Need **Tap Water Testing Drop Off** and Service Inaccessible/transportation. They'll work to get a volunteer pick it up. Also reference <DW Flint Sampling> document.

How to read water filters: If the indicator says the filter needs to be replaced, another filtration or drinking source should be identified. Images of filters are available at www.michigan.gov/flintwater

- The PUR Faucet Filter has a Red/Yellow/Green reading. Yellow is a warning the filter should be replaced soon. Red Means the filter needs replacement
- The Pitcher Filters have a thermometer style reading. There are instructions that tell when the filter needs to be changed. Waiting for more information. Replacement cartridges should be in later this week (week of 1/18).

Many residents are upset at the situation and lack of steps being taken to fix the situation and the government is hopeful the partnership with us to get information to people and help assess the situation from people (unmet needs, trends, etc) will help them take steps – certainly along with other things they're doing! ***It's really important we express empathy and compassion to these callers, take time to listen, offer the help we can, record unique situations and report them to the partners – please email Jennie Pollak (jennifer.pollak@lifewayscmh.org) and I'll pass them up!***

The relief efforts include bottled water giveaway sites, water testing giveaways sites, water filter sites, homebound delivery of supplies, recycling centers, lead poison testing, as well as organized bottled water & monetary donation sites and volunteer organization.

Rebuild efforts have begun being announced. A lead pipe removal plan was announced on 2/9/16 by Flint Mayor Karen Weaver and will be led by retired Brigadier General Michael McDaniels. The plan will replace **residential** lead pipes with copper and is expected to begin by the end of March. There's no cost to homeowners. State Funding requests have been proposed.
www.detroitnews.com/story/news/michigan/flint-water-crisis/2016/02/09/flint-mayor-announces-lead-pipe-removal-plan/80052634/

Canvas efforts are in place to visit all residents, door to door in the City of Flint, providing filters, testing kits & drinking water. Teams are starting in neighborhoods with the highest lead concentration first. If the resident is not home, a flyer will be left instructing them to call 2-1-1. Treat these caller as a new caller, assessing their ability to pick up supplies or need for delivery. Canvas teams will make a second pass to reach residents.

Rumor Control – Record Referrals as OOD Disaster Related Rumor Control

Niagara Bottle E.Coli Rumor – Refer callers to Niagra Bottle Company website or the Consumer Affairs Dept to see if the bottles they've received were recalled. The recall was issued Summer 2015 from 2 Pennsylvania plants. www.niagarawater.com/consumer-notice/ Save OOD Referral for **Disaster Related Rumor Control** and Agency: **Niagara Bottling Company**

Revised 2.15.16_JP

Lead found in Bottled Water Received by Fire Stations – See official press release of <Dept of Environmental Quality Total Dissolved Solids> testing performed of bottled water. There's over 21 bottles of water that were tested – Sparklettes and Star Wars are some of the brands. Save OOD Referral for **Disaster Related Rumor Control** and Agency: **Joint Information Center.**

FEMA Relocation Assistance – There is no relocation assistance currently being provided as this is a Declared Emergency, not Declared Disaster. Please let residents know relief efforts are focused on water resources, testing and health support. Save OOD Referral for **Disaster Related Rumor Control** and Agency: **FEMA.**

~~~~~~

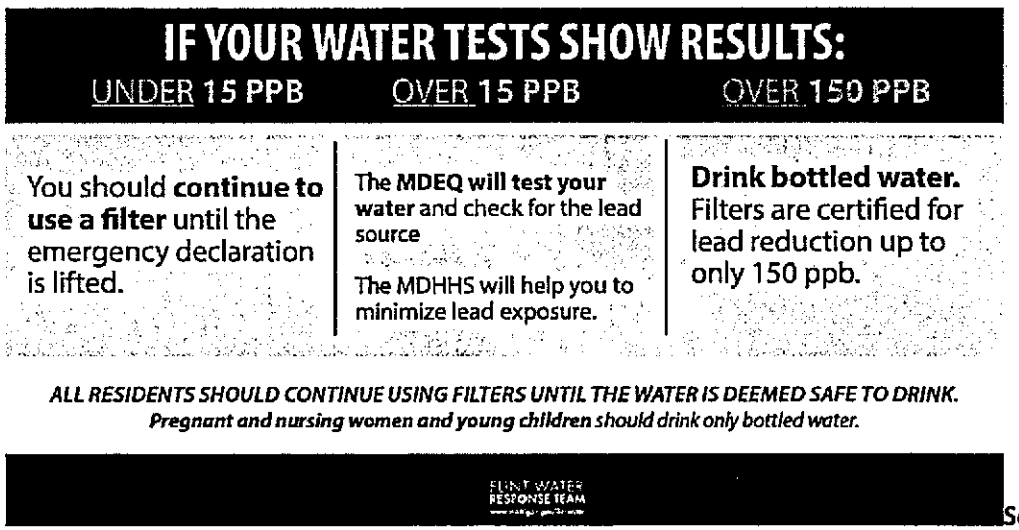
Q&A:

Lead Test Results Received: Several residents have called asking what to do after receiving their test results. Please advise as directed below. Residents will receive their results in the mail (we're hearing 3-4 weeks) after returning the sample, and results will be posted online to www.michigan.gov/flintwater as soon as they're processed. Click "Testing Results" to see residential results. Please do not share individual household results, but instead direct them to find the file online. We are not lead testing experts! Please record this call as Water Testing Information (saved in OOD box). If you're able to answer their question, save the agency as Central Michigan 2-1-1 (saved in dropdown list). If you refer to the website, save agency as www.michigan.gov/flintwater (saved in dropdown list).



Se

Class Action Lawsuits – An informational meeting about the Class Action Suits will be held at UofM Flint Tuesday, February 16th. Information is noted in the ACLU record. A few lawsuits have been filed against the City of Flint and Governor Snyder, etc. regarding the Water Situation. If callers want more information or to join, refer them to the ACLU by Taxonomy term: **Class Action Litigation.**

Lead Poisoning Results – Lead poisoning results will be received by the clinic or doctor that performed the bloodwork and follow up will be arranged; however if a family is concerned about positive lead poisoning test results for their child, please refer to **Case/Care Management** programs. If the child has Medicaid, refer to CHAP through the Greater Flint Health Coalition **(Case/Care Management)**. If another form of insurance, please refer the Genesee County Health Department **(Case/Care Management*Lead Poisoning)**.

Governor Constituent Services – Constituent Services is available for residents to share concerns, complaints, etc. Many Flint callers are upset, remember to be empathetic and understanding for what they are experiencing, but if we are not able to resolve their concern, or provide referrals, or if they are

calling only to share their opinion, please direct them to Constituent Services. Taxonomy term: **Government Complaints/Government Ombudsman Offices.**

Skin Rashes – Health information is available for those with questions about skin rashes that may be attributed to the water conditions. A physician is on duty that can help answer questions. Taxonomy term is **Medical Information Lines.**

Questions about Lead: EPA has developed a hotline to answer specific questions about the effects of lead and lead poisoning. Taxonomy term: **Lead Information.**

Questions about Water Safety: EPA has developed a hotline to Answer questions about drinking water safety and also can refer residents to the free testing kits. Taxonomy term: **Water Quality Assurance.**

Loans for Small Businesses – Economic Injury Disaster Loans have been approved for businesses in Genesee County and City of Flint. Business owners must apply by Nov 7, 2016. Taxonomy term: Disaster Business Loans.

Information for Visually Impaired Residents –Bureau of Services for Blind Persons is helping provide resources for blind or visually impaired residents. Taxonomy term: Disaster Preparedness Information

Water Main Break/Water Shut Off – The boil water advisory was lifted and no bacteria was found 2.12. During a water main break, residents may experience a drop in pressure or no water in their tap. This was confused with residents thinking the City shut off their water. Be advised, there have been no water bill shut off notices issued since around December 2015. When service is restored, it may have an odor or be discolored-let the water run for a few minutes to clear the line. As water main breaks do occur, this may happen again.

Water for Pets - Official statements state filtered water is safe for pets to drink, although the Humane Society is providing water for pet owners. Taxonomy term: **Disaster Related Drinking Water.**

Water Resources for Business, Nonprofits, Nursing Homes, Churches –Commercial food/beverage business may receive up to 10 cases/day and non-food business may receive up to 5/day. Taxonomy term: **Disaster Related Drinking Water.** Schools should contact Food Bank of Eastern Michigan if they are not already a distribution site. Licensed daycare/foster care providers should contact DHHS if they do not have resources.

Agencies offering to be a distribution site - Water resource distribution is a coordinated effort and please refer organizations that are a 501c3 to the Food Bank of Eastern Michigan to set up directly.

Ages 0-6 and Pregnant Women Advised not to Drink Water – Some homes are testing very high for lead (higher than the current water filters are certified to remove lead) and officials are warning people, especially those with kids 0-6 or pregnant to not drink tap water, even with a filter until they get their tap water tested and know their levels. There are no specific water distribution centers set up for this population. Refer callers to **Tap Water Testing** and **Disaster Related Drinking Water** as appropriate. Here's an article about the situation:
http://www.mlive.com/news/flint/index.ssf/2016/01/flint_water_crisis_filter.html

Revised 2.15.16_JP

CHAP – Families have trouble accessing health care, with their health care provider or transportation. Until the CHAP Screening process is in place, please refer directly to the Genesee County CHAP. Taxonomy term: **Case/Care Management.**

Emotional/Mental Health Support – Genesee Health System (CMH) is offering a weekly workshop for those seeking support, prayer, relaxation, crisis management, mental health resources, blood pressure checks, etc. Taxonomy term: **Workshops/Symposiums*Disaster or Emergency Issues.**

Hair Care – Creative Hair School of Cosmetology will provide monthly shampoo, condition and style for those affected by the Flint Water Crisis. Taxonomy term: **Hairdressing/Nail Care**

Pitcher Water Filters – Pitcher filters are no longer stocked at the Fire Stations; instead they're provided to residents who have tried the faucet filters. Please offer a plumber/pipefitter to try to install the faucet filter first; Taxonomy term: **Disaster Specific Home Repair.** The plumber/pipefitter will alert the team for the need of a pitcher filter. If the person is sure a faucet filter won't fit (sprayer faucet), please email Jennie Pollak the caller's name and need for pitcher filter (Jennifer.pollak@lifewayscmh.org) to make note on the referral list.

New Faucet – Donated faucets have been secured for residents that have been identified to need a new faucet to fit the faucet filter. Taxonomy term: **Disaster Specific Home Repair**. The plumber/pipefitter will alert the team for the need of a new faucet.

Recycling – Water bottles and water filter cartridges can be recycled at various locations in Flint. Taxonomy term is **Residential Recycling Programs.** Please see <Flint Recycling Information Handout>

Fraud Reporting – There have been reports of frauds or scams. If a resident is concerned, please direct them to report to FEMA or LARA. Taxonomy term is **Disaster Related Fraud Reporting.**

Volunteer Uniform: If callers have questions/concerns about those distributing resources, it's helpful to know which team. Red Cross volunteers have red vests, plumbers have neon yellow sweat shirts, and police and National Guard are in uniform.

Concerns about Treatment by National Guard: We've received concerns and complaints about how residents are treated at Fire Stations by National Guardsman. Please email Jennie Pollak at Jennifer.pollak@lifewayscmh.org an overview of situation including the caller's name and phone number (if interested) and she will send forward to a contact at the Michigan State Police.

Assisting agency call volume - Do not provide the phone number to Fire Stations, Genesee County Sheriff (*except to Apartment/Group Home Managers*) and Red Cross to help manage their call volume so they focus on relief efforts.

Filter doesn't fit faucet – All faucet filter kits come with several adaptions. Offer to have someone help install the faucet filter or suggest they get a pitcher filter if they're sure a faucet filter won't fit (sprayer faucets, etc).

Fire Station Resource Supply – The supply at the Fire Stations are being checked on an hourly basis. We've heard reports that they may temporarily run out of supplies; they will be replenished. We are not receiving updates when they are out or have supplies back in.

Revised 2.15.16_JP

Picking up filters for family members - People are no longer able to pick up water resources for another person. As of 1.22 People no longer need to bring ID to pick up supplies. Those unable to pick up supplies (homebound residents) may have them delivered by the Genesee County Sheriff's Office.

How Often? – People can pick up cases of water daily, replacement filter cartridges as needed and homebound residents can call as they need supplies delivered. There's one filter per household.

Township/nearby other city residents that receive City Water: if someone isn't a City of Flint resident but receives City of Flint water, they're called a "franchise customer" and it should be noted on their water bill (through Flint Township, etc). Direct callers to check their water bill or with their Township/Apartment manager to learn if their household is affected (if they are a franchise customer). They should be eligible for water filters, bottled water, etc. The canvas teams know about these residents and will be sure to deliver even though they are outside the City limits. Water filters will be mailed to franchise customers beginning 1/25. *Still waiting to hear about Delivery for homebound Franchise customers.*

Blood Lead Tests – Concerns for lead poisoning have shown need for Blood Lead testing sites. Children are at highest risk of developing lead poisoning, and the target of free community based lead testing clinics, though adult testing is available for a fee at the Health Department Saginaw St Clinic or their Primary Care Physician.

Water Bill Payment – Currently residents are obligated to pay their water bill since the courts have settled the disputes. If they have questions or concerns about their water bill, direct them to call the City of Flint Water Department for billing questions. The Governor did mention to provide aid to the City for utilities in his State of the State address but we are not aware that programs have been set to pay for resident's bills. Direct callers facing shut off to current resources, Taxonomy term: **Water Bill Payment Assistance.**

Apartment/Group home Managers picking up for residents - Public/Private housing unit apartment managers should be directed to call the Sheriff's Department water line, 810-257-3600 to coordinate pick up of water supplies for the units in their care. Residents may pick up resources for themselves, but Apartment/Nonprofit Group Home complexes may pick up water filters for their residents too.

Residents hired for Water Testing – Governor Snyder announced 2/8 partners were hiring 50 residents to assist with water testing. That opportunity was filled 2/9 so not entered into the database. Here's the article, FYI: www.mlive.com/news/flint/index.ssf/2016/02/flint_residents_being_hired_to.html

Water Resources for Business, Nonprofits, Nursing Homes, Churches –Commercial food/beverage business may receive up to 10 cases/day and non-food business may receive up to 5/day. Taxonomy term: **Disaster Related Drinking Water.** Schools should contact Food Bank of Eastern Michigan if they are not already a distribution site. Licensed daycare/foster care providers should contact DHHS if they do not have resources.

Eroded Hot Water heater - Refer to current resources (DHHS SER Program), but also record their name, address and phone number with a client note saying the cause is believed to be from the City Water in case specific assistance does become available

Revised 2.15.16_JP

Free Bus Transportation to Fire Stations - MTA (public transportation) is waiving the fare for people getting off at the Fire Station Water Resource Centers

Water filter scams - There have been reports of people selling water filters. If you hear of someone selling water filters, avoid that situation and call non-emergency Genesee County Sheriff's Office at 810-257-3407. All water filters are being provided free.

Water Testing Sample Questions – Instructions and an application form were provided with the water sample kit. There's also an instructional video online at www.michigan.gov/flintwater. Test Samples should be dropped off at Fire Stations, City Hall or Water Department (Taxonomy term **Tap Water Testing**). If homebound resident needs sample picked up, please save as Unmet Need **Tap Water Testing Drop Off** and Service Inaccessible/transportation. They'll work to get a volunteer pick it up. Also reference <DW Flint Sampling> document.

How to read water filters: If the indicator says the filter needs to be replaced, another filtration or drinking source should be identified. Images of filters are available at www.michigan.gov/flintwater

- The PUR Faucet Filter has a Red/Yellow/Green reading. Yellow is a warning the filter should be replaced soon. Red Means the filter needs replacement
- The Pitcher Filters have a thermometer style reading. There are instructions that tell when the filter needs to be changed. Waiting for more information. Replacement cartridges should be in later this week (week of 1/18).

Background Information:

Early January, Flint Water situation has been declared a State of Emergency and the Governor's Office got involved to set up resources. The concern is the lead and general quality of the water, piping, lead poisoning risk and health impacts. January 17, President Obama Signed a Declaration of Emergency releasing FEMA assistance for 90 days. Here's the press release. 2-1-1 is being advertised as the place to give and get help.

Many residents are upset at the situation and lack of steps being taken to fix the situation and the government is hopeful the partnership with us to get information to people and help assess the situation from people (unmet needs, trends, etc) will help them take steps – certainly along with other things they're doing! ***It's really important we express empathy and compassion to these callers, take time to listen, offer the help we can, record unique situations and report them to the partners – please email Jennie Pollak (jennifer.pollak@lifewayscmh.org) and I'll pass them up!***

The relief efforts include bottled water giveaway sites, water testing giveaways sites, water filter sites, homebound delivery of supplies, recycling centers, lead poison testing, as well as organized bottled water & monetary donation sites and volunteer organization.

Rebuild efforts have begun being announced. A lead pipe removal plan was announced on 2/9/16 by Flint Mayor Karen Weaver and will be led by retired Brigadier General Michael McDaniels. The plan will replace **residential** lead pipes with copper and is expected to begin by the end of March. There's no cost to homeowners. State Funding requests have been proposed.
www.detroitnews.com/story/news/michigan/flint-water-crisis/2016/02/09/flint-mayor-announces-lead-pipe-removal-plan/80052634/

Canvas efforts are in place to visit all residents, door to door in the City of Flint, providing filters, testing kits & drinking water. Teams are starting in neighborhoods with the highest lead concentration first. If the resident is not home, a flyer will be left instructing them to call 2-1-1. Treat these caller as a new caller, assessing their ability to pick up supplies or need for delivery. Canvas teams will make a second pass to reach residents.

How to read water filters: If the indicator says the filter needs to be replaced, another filtration or drinking source should be identified. Images of filters are available at www.michigan.gov/flintwater

- The PUR Faucet Filter has a Red/Yellow/Green reading. Yellow is a warning the filter should be replaced soon. Red Means the filter needs replacement
- The Pitcher Filters have a thermometer style reading. There are instructions that tell when the filter needs to be changed. Waiting for more information. Replacement cartridges should be in later this week (week of 1/18).

Hand Warmers	60	382		1/19/16	2004
Distribution Kit	100	1200		1/19/16	2004

Execution:

Key Locations

Team	**Assembly Area**	**Hours of Operation**
OGCS/MSP	LEOC Genesee County Administration Building	0830-1600

	1101 Beach St, Flint	
ARC	ARC 1401 S Grand Traverse St, Flint	0730-1600
Warehouse	4315 North Clio Road, Flint	0700-1900

Critical Task: Assemble, coordinate, and monitor WRTs

OGCS/MSP Process:

1. Assign team leaders, team members, and routes to teams
2. Team Member check in
3. Conduct pre-deployment briefing to include team mission assignments, concept of operations, deployment locations, replenishment process, reporting process, and safety briefings (refer to OGCS_MSP WRT Volunteer Assembly Information V2.0_011816 for detailed information on volunteer processing at LEOC)
5. Provide training to new team members
6. Issue vest and badge to team members
7. Execute morning distribution assignment
8. Lunch served between 1230-1330
9. WRT OIC and Team Leaders midday brief
10. Execute afternoon distribution assignment
11. Conduct post-deployment debrief with team leaders and members
12. Collect vest and badge from team members

Sample Script for Team Members:

We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
GCSO/MSP	0 Distribution Kits Remaining	Distribution Route: exact location determined by Team Leader	1. Contact warehouse to request replenishment truck 2. Coordinate replenishment location with warehouse 3. Exchange replenishment truck with empty truck
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix

Lunch

OGCS/MSP WRTs lunches will be provided by the ARC and coordinated by LEOC Logistics.

Reporting:

Tactics:

1. All WRTs will utilize ipads as the primary reporting method and the WRT Distribution Tracking Tool as a secondary method if ipads fail.

STATE OF MICHIGAN

RICK SNYDER
GOVERNOR

DEPARTMENT OF TECHNOLOGY, MANAGEMENT & BUDGET
LANSING

DAVID B. BEHEN
DIRECTOR

February 2, 2016

TO: State of Michigan Procurement Leadership

FROM: DTMB Procurement

SUBJECT: Genesee County Water Emergency Response - Purchasing Guidance

Thank you to all who are working to support the State of Michigan's Genesee County, City of Flint water emergency response.

Given the complexity and variety of the needs of this emergency effort, the purchasing support required is complex as well. Purchasing protocols have some differences under this declared state of emergency, and meticulous tracking of expenditures is imperative.

The Michigan State Police (MSP) is the lead agency overseeing the situation and managing the State Emergency Operations Center (SEOC). Flint related purchases must **first** be routed through the appropriate SEOC contact (see attached for an agency roster) to include the SEOC State Director. This is required for all Flint- related purchases without exception. The SEOC financial team is responsible for tracking all expenditures in connection with the emergency efforts.

Each agency is responsible for its own purchasing transactions. This includes p-card transactions and purchase orders, the tracking of all such transactions, and reporting of those transactions to the appropriate SEOC representative. Failure to properly inform the SEOC financial team of any transaction may result in a forfeiture of any potential reimbursement anticipated by the agency.

Agency purchasing managers are responsible to supply their agency's SEOC representative with a 24/7 phone number for agency purchasing staff support and request that the SEOC representative involves them in every purchase. (Note: SEOC hours are 8 am to 8 pm, seven days a week at this time.)

Emergency Purchasing Procedure:
Public Act 431 of 1984 provides an exception to competitive bidding during a state of emergency. However, responsible purchasing procedures are still the expectation for all procurement professionals (agency purchasing staff).

In addition to the notification and reporting expectations set forth above, transactions should be conducted and/or overseen by procurement professionals, with rare exception, in accordance with the following:

- Each agency makes their own determination when an emergency purchase order is required, and is then responsible for the supporting documentation
- Utilize existing State contracts where possible. Contact DTMB Procurement for help negotiating bulk rates or expedited shipments if needed, and for any concerns related to availability of funds on a contract

- Obtain three quotes whenever reasonably practicable
- Post bids online to the extent practicable
- Please escalate any questions to DTMB Procurement before executing a buy
- DTMB Procurement will assist any agency upon request to address supply chain issues (e.g. working with a national supplier to ensure a high volume supply of water filters are available)
- DTMB-Financial Services is not responsible for issuing emergency purchase orders on behalf of agencies with the exception of information technology related goods and services
- Maintain documentation supporting all transactions. Establish internal protocols to support this such as a single spreadsheet to track agency-wide transactions. Report your agency's expenses to the SEOC Finance team via your SEOC representative.

Questions, concerns, or comments should be directed to:

NEWS RELEASE

FOR IMMEDIATE RELEASE
February 12, 2016
Release #: 37

Boil Water Advisory Lifted by City of Flint

No Bacteria Identified

FLINT, Mich. – With the Feb. 9 water main break repaired and successful back-to-back bacteria tests completed, the city of Flint lifted its boil water advisory today.

Affected residents no longer need to boil their filtered water because testing did not reveal any bacteria during or after the repair of the water main break. The boil water advisory was issued as a precautionary measure because the loss of pressure in the water distribution system can make the system vulnerable to bacterial contamination.

Previously installed water filters are still safe to use given the absence of bacteria, but residents are reminded to check their water filter indicator and replace the filter cartridge, if needed. Individuals should follow the water filter manufacturer replacement instructions.

Residents are reminded to continue use of filtered water for drinking, food preparation, brushing teeth and pets. Unfiltered water may be used for bathing and cleaning. Pregnant woman and children under 6 years of age should continue to drink only bottled water.

The U.S. Environmental Protection Agency and Michigan Department of Environmental Quality both encourage residents and businesses to flush their water for between two to five minutes through all taps every day. This will assist with flushing their individual pipes as well as rescaling the water system as a whole. This should be done first thing in the morning after the water system has been stagnant for several hours.

To prolong the life of their filter, this daily flushing should be done with the filter turned in the off position. Once the system has been flushed for two to five minutes, the filter should be turned back on for all cooking and drinking.

Residents are also reminded to clean the aerator on every household faucet every week.

Free water filter cartridges, water filters, bottled water and water testing kits are available at water resource sites that remain open daily from 9 a.m. to 9 p.m. and are located at:

Fire Station #1 (also a water bottle recycling site)
310 East 5th St.

MORE

Fire Station #3
1525 Martin Luther King Ave.

Fire Station #5 (also a water bottle recycling site)
3402 Western Road.

Fire Station #6
716 West Pierson Road.

Fire Station #8 (also a water bottle recycling site)
202 East Atherton Road.

All water filters distributed by the State of Michigan are certified by NSF International for lead reduction. Individuals wishing to verify that a specific filter is NSF-certified can do so via the NSF website.

The State of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County and local community organizations.

Additional information is available at www.michigan.gov/flintwater, by calling 211 or visiting www.helpforflint.com.

###

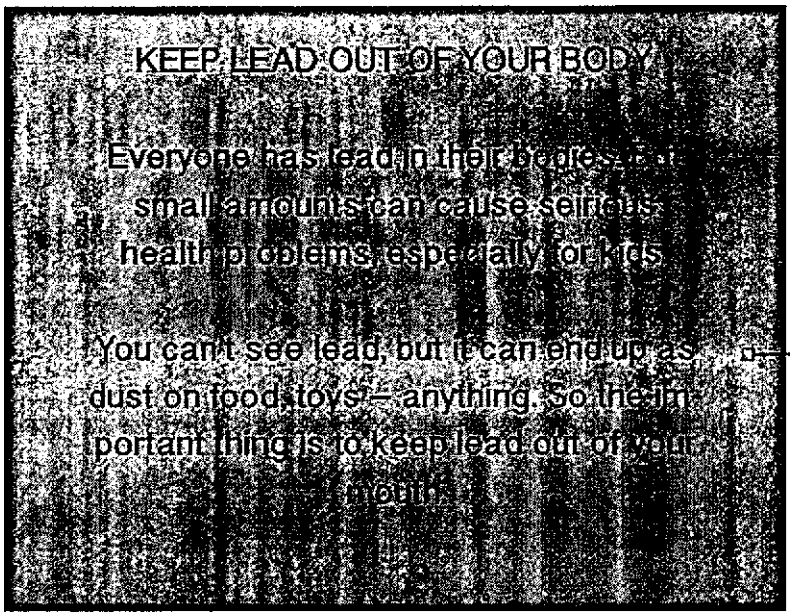
3

TO PROVIDE GENERAL GUIDANCE

A document for general guidance for best practices, no matter what the lead level.

Just to give an idea, adapting some of the content from the letter sample.

The following page just illustrates a rough layout – would encourage use of icons or images to help emphasize the content and make it more approachable.



TITLE + General description helping people understand what lead is. What it does to your body, etc.

WASH YOUR HANDS.
A LOT.

Frequesnt handwashing is the simplest way to reduce lead exposure.

EAT NUTRITIOUS FOOD.

A full stomach helps prevent the absorption of lead. Wash fruits and veggies before eating them. (TIP: opt for fruits that don't require swashing.)

KEEP HANDS, TOYS, AND ANYTHING ELSE OUT OF MOUTHS

You can't see lead, but it can enter your child's body thorugh lead dust on toys, hands, food.

IF YOU NEED MORE INFORMATION, CALL US.

[contact infor for health dept]

Calling out the different steps to take.

Could make more visual, with icons. A good resource for some free icons is thenounproject.com.

U.S. Small Business Administration

U. S. SMALL BUSINESS ADMINISTRATION
FACT SHEET – ECONOMIC INJURY DISASTER LOANS

MICHIGAN Declaration 14620
(Disaster: MI-00054)
Incident: CONTAMINATED PUBLIC WATER SUPPLY

occurring: ***October 1, 2015 & continuing***

in ***Genesee County, Michigan;*** *and the contiguous* ***Michigan*** *counties of:* ***Lapeer, Livingston, Oakland, Saginaw, Shiawassee and Tuscola***

Application Filing Deadline: November 7, 2016

Disaster Loan Assistance Available:

Economic Injury Disaster Loans (EIDLs) – Working capital loans to help small businesses, small agricultural cooperatives, small businesses engaged in aquaculture, and most private, non-profit organizations of all sizes meet their ordinary and necessary financial obligations that cannot be met as a direct result of the disaster. These loans are intended to assist through the disaster recovery period.

Credit Requirements:

- Credit History – Applicants must have a credit history acceptable to SBA.
- Repayment – Applicants must show the ability to repay the loan.
- Collateral – Collateral is required for all EIDL loans over $25,000. SBA takes real estate as collateral when it is available. SBA will not decline a loan for lack of collateral, but SBA will require the borrower to pledge collateral that is available.

Interest Rates:

The interest rate is determined by formulas set by law and is fixed for the life of the loan. The maximum interest rate for this program is 4 percent.

Loan Terms:

The law authorizes loan terms up to a maximum of 30 years. SBA will determine an appropriate installment payment based on the financial condition of each borrower, which in turn will determine the loan term.

Loan Amount Limit:

The law limits EIDLs to $2,000,000 for alleviating economic injury caused by the disaster. The actual amount of each loan is limited to the economic injury determined by SBA, less business interruption insurance and other recoveries up to the administrative lending limit. SBA also considers potential contributions that are available from the business and/or its owner(s) or affiliates. If a business is a major source of employment, SBA has the authority to waive the $2,000,000 statutory limit.

Loan Eligibility Restrictions:

Noncompliance – Applicants who have not complied with the terms of previous SBA loans may not be eligible. This includes borrowers who did not maintain required flood insurance and/or hazard insurance on previous SBA loans.

Note: Loan applicants should check with agencies / organizations administering any grant or other assistance program under this declaration to determine how an approval of SBA disaster loan might affect their eligibility.

Refinancing:

Economic injury disaster loans cannot be used to refinance long term debts.

Insurance Requirements:

To protect each borrower and the Agency, SBA may require you to obtain and maintain appropriate insurance. By law, borrowers whose damaged or collateral property is located in a special flood hazard area must purchase and maintain flood insurance. SBA requires that flood insurance coverage be the lesser of 1) the total of the disaster loan, 2) the insurable value of the property, or 3) the maximum insurance available.

For more information, contact SBA's Disaster Assistance Customer Service Center by calling (800) 659-2955, emailing *disastercustomerservice@sba.gov*, or visiting SBA's Web site at *http://www.sba.gov/disaster*. Hearing impaired individuals may call (800) 877-8339. Applicants may also apply online using the Electronic Loan Application (ELA) via SBA's secure Web site at *https://disasterloan.sba.gov/ela*.

PIERCE ELEMENTARY SCHOOL

Outlet Sampling and Plumbing Assessment Recommendations

1101 West Vernon Drive, Flint, Michigan 48503

DEQ

BACKGROUND INFORMATION

On Friday, November 6, 2015, the Department of Licensing and Regulatory Affairs (DLARA) and the Department of Environmental Quality (DEQ) conducted an assessment of Pierce Elementary School's plumbing system to gain a comprehensive understanding of how water moves through the building and what types of plumbing materials are used. The southernmost out-building, in addition to the main school building, were included in the assessment. The assessment identified the following potential sources of lead leaching into drinking water:

- Lead solder joints on copper piping
- Brass valves and brass fittings
- Brass components in fixtures
- Galvanized piping

The assessment identified 34 faucets or fountains that provide water for drinking, cooking, and/or food preparation: 32 faucets/fountains in the main school building and two faucets/fountains in the southernmost out-building. The other two out-buildings had no working water fixtures. A total of five additional faucets or fountains were identified as inoperable and were not assessed or labeled for sampling, as follows:

- Main building, Room 112, classroom faucet (no cold water connection)
- Main building, Gym, drinking water fountain
- Main building, Gym, drinking water fountain
- Main building, Hallway to out-buildings, near Room 306, drinking water fountain
- Middle out-building, drinking water fountain

The DEQ and DLARA Team (Team) developed a sequence for sampling the faucets/fountains in each building based on how the water is expected to travel through each building.

On Saturday, November 7, 2015, the DEQ and the DLARA completed sampling of the 32 faucets/fountains in the main school building, and the two faucets/fountains in the southernmost out-building, each in the order determined by the plumbing assessment from the previous day, following a stagnation period of over 12 hours. At each of the 34 faucets/fountains identified, the Team collected four samples. Two initial, 125-milliliter samples (P1 and P2), were collected immediately after turning on the tap. The water was then flushed for 30 seconds and a third, 125-milliliter sample (F01) was collected. Finally, the water was flushed for another two minutes, and the fourth 125-milliliter sample (F02) was collected. These samples were used to determine the impact of any lead sources in and around each specific faucet/fountain and its connecting plumbing.

The Team then completed consecutive sampling at three of the 32 faucets/fountains in the main school building, and one of the two faucets/fountains in the southernmost out-building. This consecutive sampling was used to determine the impact of any lead sources located deep in the supply plumbing at each of these buildings. The four sites comprised of one site at the far end of the northern supply line, two sites along the south supply line near the mid-point and at the far end, and one site at the out-building. At each of these four sites, the Team collected 10, 1-liter samples. The 10 samples were collected immediately after turning on the tap, and consecutively, without any flushing time in between.

WATER SERVICE INFORMATION

A four-inch diameter cast iron or ductile iron water service line enters the boiler room. The boiler room is located near the middle of the west side of the main building. The water line enters on the south side of the room. The cold water piping transitions into copper piping inside the boiler room. In one area beneath pipe insulation, staff observed what appeared to be a lead bushing. The cold water supply line exits the boiler room. Exiting the boiler room, one cold water supply line appears to serve the north corridor, and one cold water supply line appears to serve the south corridor.

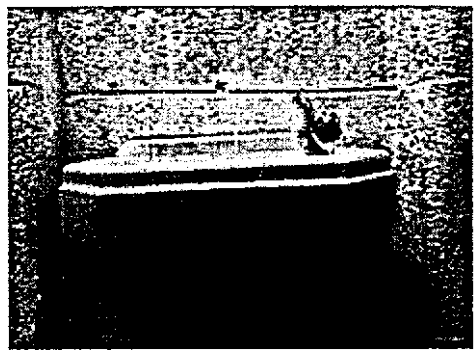
The middle and southernmost out-building appears to be served from the main building off of the supply line serving the south corridor of the school. Skirting around the bottom of the out-building unit prevented an assessment of the service line to this building. The northernmost out-building is not occupied and was not assessed.

Outlets with Lead Levels Greater than 15 Parts per Billion

The DEQ recommends school facilities take action if samples from any drinking water outlets show lead levels greater than 15 parts per billion. Based on the sampling conducted at 34 faucets/fountains on November 7, 2015, the following 25 drinking water outlets had lead water level results greater than 15 parts per billion. Each of these 25 outlets is listed below with its sample results, including a description of the potential source(s) of lead, and recommended actions to be taken by the school.

Outlet: **Bubbler Drinking Fountain (01DW001)**

Location: Hallway next to Boiler Room, behind Stage
Results: P1=20 parts per billion, P2=2 parts per billion
F01=2 parts per billion, F02=non-detect

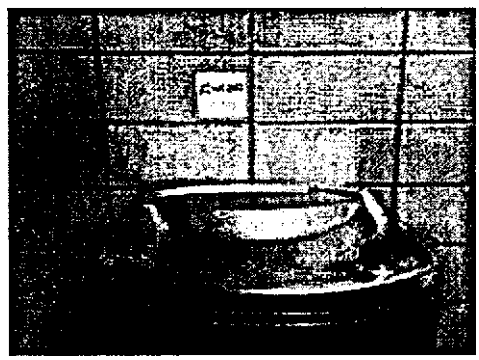


These results suggest the highest contribution of lead may be from the bubbler itself. This bubbler fixture is made of chrome-plated brass. Connecting plumbing should be checked for brass components, including brass valves.

Replacement of this bubbler tap and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

Outlet: **Water Cooler Fountain (01WC002)**

Location: Hallway next to Mechanical Room, north corridor
Results: P1=8 parts per billion, P2=13 parts per billion
F01=35 parts per billion, F02=19 parts per billion



These results suggest the lead may be from the water cooler unit and the connecting plumbing. The water cooler is an Elkay model. This model may contain brass components. Connecting plumbing to the cooler unit may also contain brass components.

Replacement of this water cooler and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location and needs to be completed for use. If replacement is not currently feasible, SHUT OFF THIS WATER COOLER FOUNTAIN AND **DO NOT USE THIS WATER COOLER FOR DRINKING OR COOKING.**

Outlet: Sink Faucet (01CF003)

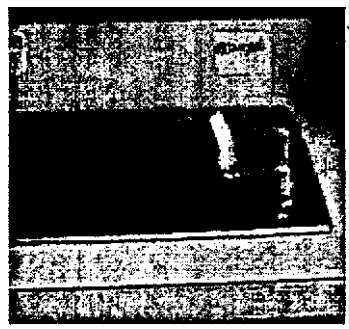
Location: Classroom 109, northeast wall
Results: P1=26 parts per billion, P2=17 parts per billion
F01=9 part per billion, F02=2 parts per billion

These results suggest the highest contribution of lead may be from the faucet and its connecting plumbing. This model faucet typically has a brass tube in its deck body, and may contain some additional brass components. Connecting plumbing in the cabinet under the sink should be checked for brass components, including brass valves.

Replacement of this faucet and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

This faucet also has an aerator/screen at the outlet. If the faucet is not replaced, the aerator/screen should be removed, inspected for particulate accumulations, scrubbed clean, and reinstalled. If particulates are found, the aerator/screen should be periodically checked and cleaned.

Outlet: Bubbler Fountain (01DW004)



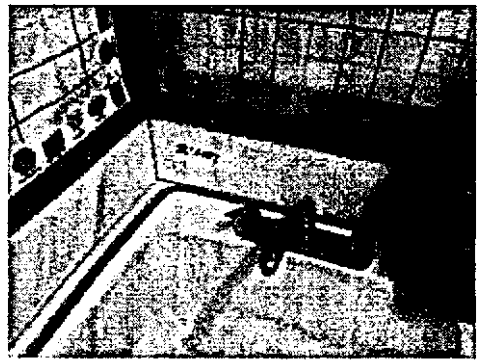
Location: Classroom 109, northwest wall
Results: P1=42 parts per billion, P2=17 parts per billion
F01=3 parts per billion, F02=1 part per billion

These results suggest the highest contribution of lead may be from the bubbler and its connecting plumbing. This bubbler fixture is made of chrome-plated brass and has a brass connector on the underside of the sink. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and a brass shut-off valve.

Replacement of this bubbler tap and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

Outlet: Sink Faucet (01CF007)

Location: Classroom 108, northwest wall
Results: P1=97 parts per billion, P2=132 parts per billion
F01=9 parts per billion, F02=2 parts per billion



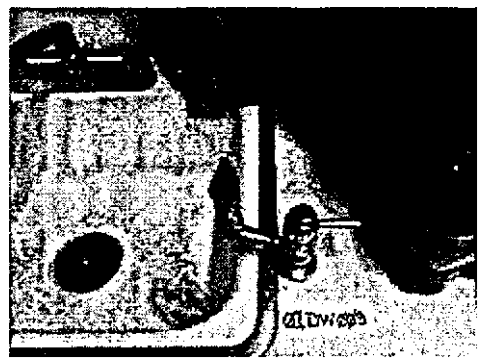
These results suggest the highest contribution of lead may be from the faucet and its connecting plumbing. This faucet appears to be manufactured by Central Brass. This model faucet typically has a brass tube in its deck body, may contain some additional brass components, and has a brass spout. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and brass shut-off valves.

Replacement of this faucet and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

This faucet also has an aerator/screen at the outlet. If the faucet is not replaced, the aerator/screen should be removed, inspected for particulate accumulations, scrubbed clean, and reinstalled. If particulates are found, the aerator/screen should be periodically checked and cleaned.

Outlet: Bubbler Fountain (01DW008)

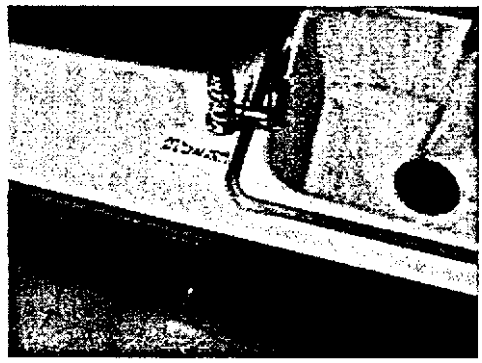
Location: Classroom 108, northwest wall
Results: P1=468 parts per billion, P2=75 parts per billion
F01=6 parts per billion, F02=4 parts per billion



These results suggest the highest contribution of lead may be from the bubbler and its connecting plumbing. This bubbler fixture is made of chrome-plated brass, with a brass operating valve, and a brass connector on the underside of the sink. Connecting plumbing under the sink should be checked for brass components and copper piping with lead solder.

Replacement of this bubbler tap and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

Outlet: Bubbler Fountain (01DW009)

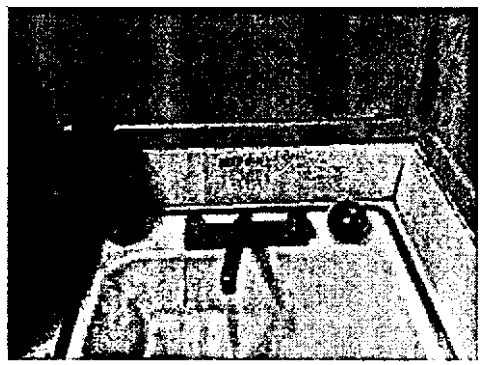


Location: Classroom 111, northeast wall
Results: P1=26 parts per billion, P2=38 parts per billion
F01=7 parts per billion, F02=3 parts per billion

These results suggest the highest contribution of lead may be from the bubbler and its connecting plumbing. This bubbler fixture is made of chrome-plated brass, with a brass operating valve, and a brass connector on the underside of the sink. Connecting plumbing in the cabinet under the sink should be checked for brass components and copper piping with lead solder.

Replacement of this bubbler tap and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

Outlet: Sink Faucet (01CF010)



Location: Classroom 111, northeast wall
Results: P1=43 parts per billion, P2=22 parts per billion
F01=3 parts per billion, F02=3 parts per billion

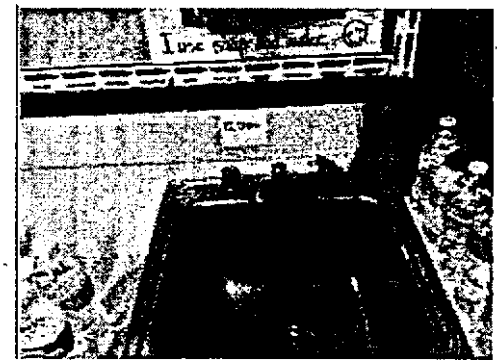
These results suggest the highest contribution of lead may be from the faucet and its connecting plumbing. This faucet appears to be manufactured by Central Brass. This model faucet typically has a brass tube in its deck body, may contain some additional brass components, and has a brass spout. The spout's chrome finish is worn down to the brass. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and brass shut-off valves.

Replacement of this faucet and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

This faucet also has an aerator/screen at the outlet. If the faucet is not replaced, the aerator/screen should be removed, inspected for particulate accumulations, scrubbed clean, and reinstalled. If particulates are found, the aerator/screen should be periodically checked and cleaned.

Outlet: Sink Faucet (01CF011)

Location: Classroom 107, southwest wall
Results: P1=25 parts per billion, P2=11 parts per billion
F01=3 parts per billion, F02=2 parts per billion



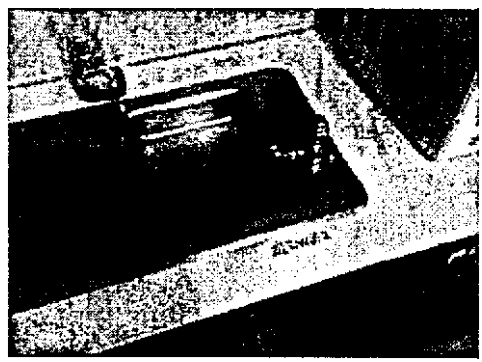
These results suggest the highest contribution of lead may be from the faucet and its connecting plumbing. This faucet appears to be manufactured by Central Brass. This model faucet typically has a brass tube in its deck body, may contain some additional brass components, and has a brass spout. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and brass shut-off valves.

Replacement of this sink faucet and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

At the time of assessment, the faucet aerator/screen was found removed. If the faucet is not replaced and the aerator/screen is going to be reinstalled, it should be inspected for particulate accumulations, and scrubbed clean. If particulates are found, the aerator/screen should be periodically checked and cleaned.

Outlet: Bubbler Fountain (01DW012)

Location: Classroom 112, southwest wall
Results: P1=78 parts per billion, P2=11 parts per billion
F01=4 parts per billion, F02=3 parts per billion

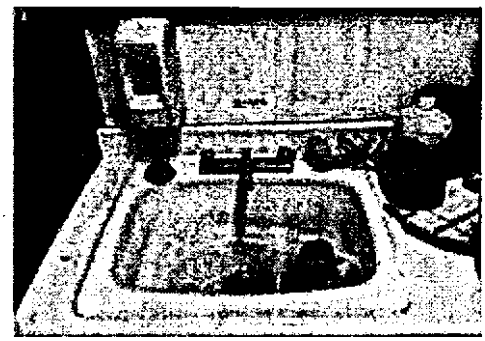


These results suggest the highest contribution of lead may be from the bubbler and its connecting plumbing. This bubbler fixture is made of chrome-plated brass, with a brass operating valve and a brass connector on the underside of the sink. Connecting plumbing under the sink should be checked for brass components and copper piping with lead solder.

Replacement of this bubbler tap and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

Outlet: Sink Faucet (01CF018)

Location: Classroom 301, northwest wall
Results: P1=13 parts per billion, P2=16 parts per billion
F01=4 parts per billion, F02=1 part per billion



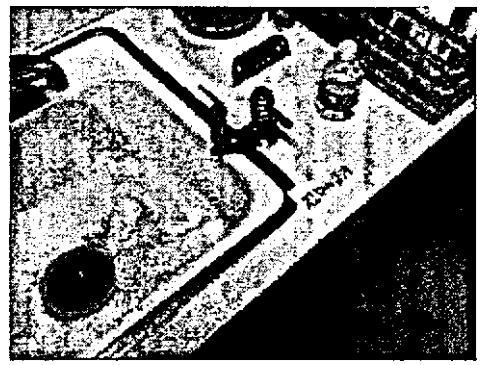
These results suggest the highest contribution of lead may be from the faucet and its connecting plumbing. This faucet appears to be manufactured by Central Brass. This model faucet typically has a brass tube in its deck body, may contain some additional brass components, and has a brass spout. The spout's chrome finish is worn down to the brass. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and brass shut-off valves.

Replacement of this faucet and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

This faucet also appears to have an aerator/screen at the outlet. If the faucet is not replaced, the aerator/screen should be removed, inspected for particulate accumulations, scrubbed clean, and reinstalled. If particulates are found, the aerator/screen should be periodically checked and cleaned.

Outlet: Bubbler Fountain (01DW019)

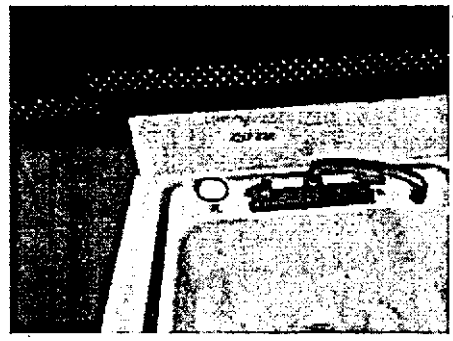
Location: Classroom 302, southwest wall
Results: P1=220 parts per billion, P2=23 parts per billion
F01=3 parts per billion, F02=2 parts per billion



These results suggest the highest contribution of lead may be from the bubbler and its connecting plumbing. This bubbler fixture is made of chrome-plated brass, with a brass operating valve, and a brass connector on the underside of the sink. Connecting plumbing in the cabinet under the sink should be checked for brass components and copper piping with lead solder.

Replacement of this bubbler tap and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

Outlet: Sink Faucet (01CF020)



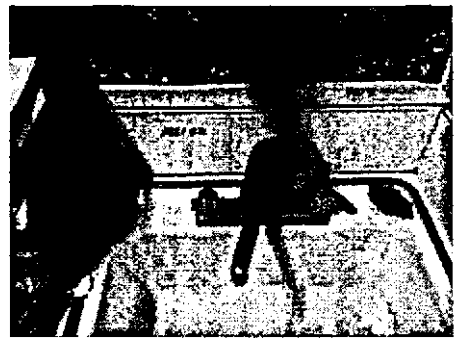
Location: Classroom 302, southwest wall
Results: P1=53 parts per billion, P2=30 parts per billion
F01=1 part per billion, F02=non-detect

These results suggest the highest contribution of lead may be from the faucet and its connecting plumbing. This faucet appears to be manufactured by Central Brass. The base of this faucet is chrome-plated brass, has brass components within the base, and a brass spout. The spout's chrome finish is worn down to the brass. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and brass shut-off valves.

Replacement of this faucet and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

This faucet also appears to have an aerator/screen at the outlet. If the faucet is not replaced, the aerator/screen should be removed, inspected for particulate accumulations, scrubbed clean, and reinstalled. If particulates are found, the aerator/screen should be periodically checked and cleaned.

Outlet: Sink Faucet (01CF021)



Location: Classroom 306, southwest wall
Results: P1=15 parts per billion, P2=50 parts per billion
F01=8 parts per billion, F02=3 parts per billion

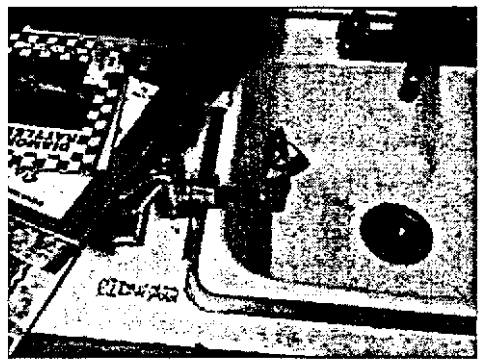
These results suggest the highest contribution of lead may be from the faucet and its connecting plumbing. This faucet appears to be manufactured by Central Brass. This model faucet typically has a brass tube in its deck body, may contain some additional brass components, and has a brass spout. The spout's chrome finish is worn down to the brass. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and brass shut-off valves.

Replacement of this faucet and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

This faucet also appears to have an aerator/screen at the outlet. If the faucet is not replaced, the aerator/screen should be removed, inspected for particulate accumulations, scrubbed clean, and reinstalled. If particulates are found, the aerator/screen should be periodically checked and cleaned.

Outlet: Bubbler Fountain (01DW022)

Location: Classroom 306, southwest wall
Results: P1=17 parts per billion, P2=6 parts per billion
F01=4 parts per billion, F02=13 parts per billion

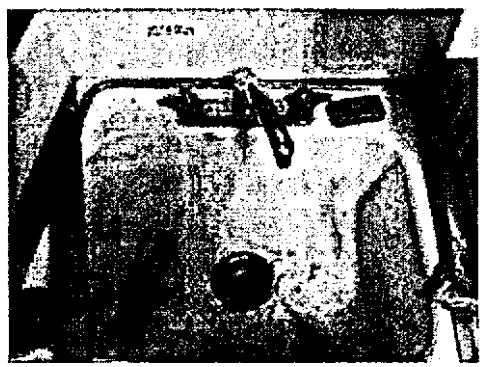


These results suggest lead may be from the bubbler and its connecting plumbing. This bubbler fixture is made of chrome-plated brass, with a brass operating valve, and a brass connector on the underside of the sink. Connecting plumbing in the cabinet under the sink should be checked for brass components and copper piping with lead solder. The increase in the fourth sample (F02) results may be a result of excessive water stagnation in this area of the building.

Replacement of this bubbler and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location, along with an overall flushing program. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

Outlet: Sink Faucet (01CF023)

Location: Classroom 312, southeast wall
Results: P1=22 parts per billion, P2=14 parts per billion
F01=9 parts per billion, F02=6 parts per billion



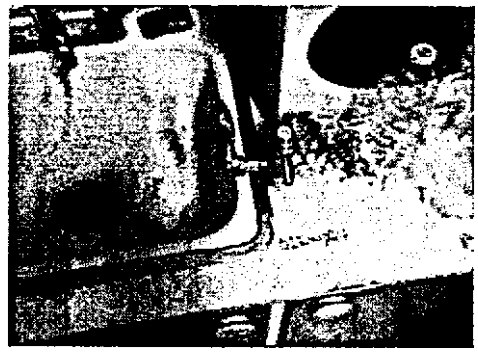
These results suggest the highest contribution of lead may be from the faucet and its connecting plumbing. This faucet appears to be manufactured by Chicago Specialty. This model faucet typically has a brass tube in its deck body, may contain some additional brass components, and has a brass spout. The spout's chrome finish is worn down to the brass. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and brass shut-off valves.

Replacement of this faucet and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

This faucet also appears to have an aerator/screen at the outlet. If the faucet is not replaced, the aerator/screen should be removed, inspected for particulate accumulations, scrubbed clean, and reinstalled. If particulates are found, the aerator/screen should be periodically checked and cleaned.

Outlet: Bubbler Fountain (01DW024)

Location: Classroom 312, southeast wall
Results: P1=36 parts per billion, P2=8 parts per billion
F01=6 parts per billion, F02=4 parts per billion

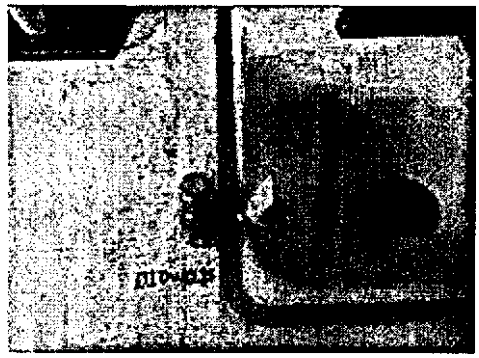


These results suggest the highest contribution of lead may be from the bubbler and its connecting plumbing. This bubbler fixture is made of chrome-plated brass, with a brass operating valve, and a brass connector on the underside of the sink. Connecting plumbing in the cabinet under the sink should be checked for brass components and copper piping with lead solder.

Replacement of this bubbler tap and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

Outlet: Bubbler Fountain (01DW025)

Location: Classroom 307, southwest wall
Results: P1=191 parts per billion, P2=69 parts per billion
F01=28 parts per billion, F02=6 parts per billion



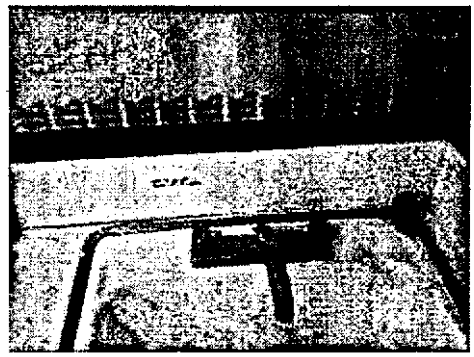
These results suggest the highest contribution of lead may be from the bubbler and its connecting plumbing. This bubbler fixture is made of chrome-plated brass and has a brass connector on the underside of the sink. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and a brass shut-off valve.

Copper results for sample P1 at this location were also at levels above which the DEQ recommends school facilities take action. Copper results suggest these same brass components are contributing to this condition.

Replacement of this bubbler tap and its connecting plumbing with lead-free materials will significantly reduce lead and copper exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead and copper concentrations and lead and copper exposure.

Outlet: Sink Faucet (01CF026)

Location: Classroom 307, southwest wall
Results: P1=61 parts per billion, P2=36 parts per billion
F01=7 parts per billion, F02=4 parts per billion



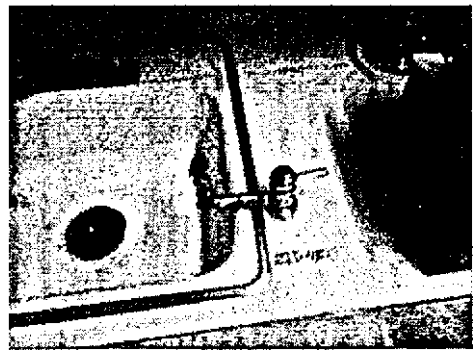
These results suggest the highest contribution of lead may be from the faucet and its connecting plumbing. This faucet appears to be manufactured by Central Brass. This model faucet typically has a brass tube in its deck body and, may contain some additional brass components, and has a brass spout. The spout's chrome finish is worn down to the brass. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and brass shut-off valves.

Replacement of this faucet and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

This faucet also appears to have an aerator/screen at the outlet. If the faucet is not replaced, the aerator/screen should be removed, inspected for particulate accumulations, scrubbed clean, and reinstalled. If particulates are found, the aerator/screen should be periodically checked and cleaned.

Outlet: Bubbler Fountain (01DW027)

Location: Classroom 311, southeast wall
Results: P1=23 parts per billion, P2=19 parts per billion
F01=61 parts per billion, F02=20 parts per billion

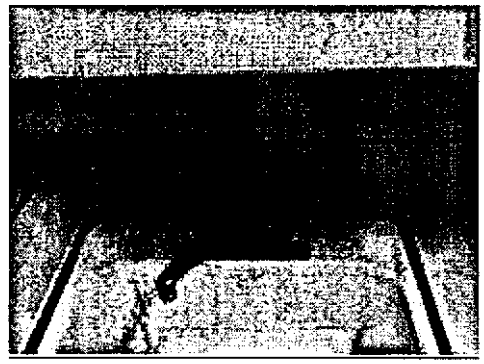


These results suggest lead may be from the bubbler and its connecting plumbing. This bubbler fixture is made of chrome-plated brass, with a brass operating valve, and a brass connector on the underside of the sink. Connecting plumbing in the cabinet under the sink should be checked for brass components and copper piping with lead solder. The increase in the third (F01) and fourth sample (F02) results may be a result of excessive water stagnation in this area of the building.

Replacement of this bubbler tap and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location and needs to be completed. In addition, an overall flushing program is required – even after this bubbler is replaced. If replacement is not currently feasible, SHUT OFF THIS BUBBLER AND **DO NOT USE THIS BUBBLER FOR DRINKING OR COOKING.**

Outlet: Sink Faucet (01CF028)

Location: Classroom 311, southeast wall
Results: P1=17 parts per billion, P2=19 parts per billion
F01=38 parts per billion, F02=15 parts per billion



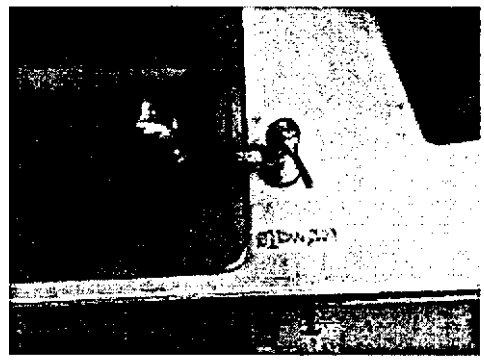
These results suggest the highest contribution of lead may be from the faucet and its connecting plumbing. This faucet appears to be manufactured by Central Brass. This model faucet typically has a brass tube in its deck body, may contain some additional brass components, and has a brass spout. The spout's chrome finish is worn down to the brass. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and brass shut-off valves.

Replacement of this faucet and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location and needs to be completed. In addition, an overall flushing program is required – even after this faucet is replaced. If a replacement is not currently feasible, **DO NOT USE THIS FAUCET FOR DRINKING OR COOKING.**

This faucet also appears to have an aerator/screen at the outlet. If the faucet is not replaced, the aerator/screen should be removed, inspected for particulate accumulations, scrubbed clean, and reinstalled. If particulates are found, the aerator/screen should be periodically checked and cleaned.

Outlet: Bubbler Fountain (01DW029)

Location: Classroom 308, northwest wall
Results: P1=78 parts per billion, P2=23 parts per billion
F01=5 parts per billion, F02=2 parts per billion

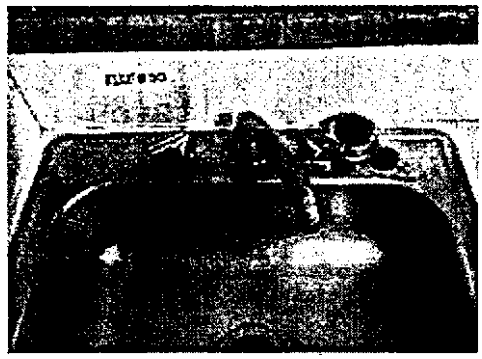


These results suggest the highest contribution of lead may be from the bubbler and its connecting plumbing. This bubbler fixture is made of chrome-plated brass, with a brass operating valve, and a brass connector on the underside of the sink. The bubbler also has been modified with added copper couplings below the spout. Connecting plumbing in the cabinet under the sink should be checked for brass components and copper piping with lead solder.

Replacement of this bubbler tap and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes.

Outlet: Sink Faucet (01CF030)

Location: Classroom 308, northwest wall
Results: P1=60 parts per billion, P2=9 parts per billion
F01=11 parts per billion, F02=3 parts per billion



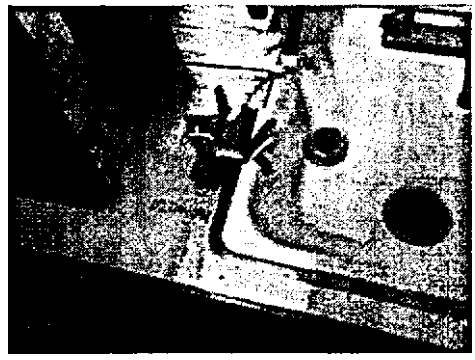
These results suggest the highest contribution of lead may be from the faucet and its connecting plumbing. This faucet appears to be manufactured by Central Brass. This model faucet typically has a brass tube in it deck body, may contain some additional brass components, and has a brass spout. The spout's chrome finish is worn down to the brass. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and brass shut-off valves.

Replacement of this faucet and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

This faucet also appears to have an aerator/screen at the outlet. If the faucet is not replaced, the aerator/screen should be removed, inspected for particulate accumulations, scrubbed clean, and reinstalled. If particulates are found, the aerator/screen should be periodically checked and cleaned.

Outlet: Bubbler Fountain (01DW031)

Location: Classroom 310, northeast wall
Results: P1=29 parts per billion, P2=35 parts per billion
F01=73 parts per billion, F02=3 parts per billion

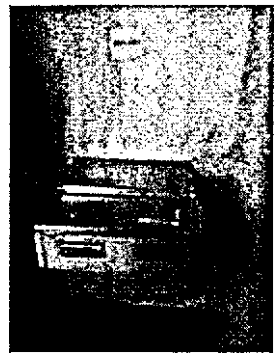


These results suggest the highest contribution of lead may be from the bubbler and its connecting plumbing. This bubbler fixture is made of chrome-plated brass and has a brass connector on the underside of the sink. Connecting plumbing in the cabinet under the sink should be checked for brass components and copper piping with lead solder.

Replacement of this bubbler tap and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

Outlet: Water Cooler (02DW034)

Location: South out-building, Temporary Classroom, northeast wall
Results: P1= non-detect, P2=54 parts per billion
F01=36 parts per billion, F02=2 parts per billion



These results suggest the lead may be from the water cooler unit. This model may contain brass components. Connecting plumbing to the cooler unit may also contain brass components.

Copper results for sample P1 at this location were also at levels above which the DEQ recommends school facilities take action. Copper results suggest these same brass components are contributing to this condition.

Replacement of the entire unit is recommended and will significantly reduce lead and copper exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead and copper concentrations and lead and copper exposure.

Outlets with Lead Levels 15 Parts per Billion or Less

While the remaining nine outlets showed sample results to be at levels requiring no further action, several recommendations have been identified.

The fourth sample (F02) at all nine outlets following approximately three minutes of use and flushing at a reduced flow resulted in reduced lead concentrations. This indicates that flushing these nine taps used for drinking, cooking, and/or food preparation for four minutes following periods of stagnation will further reduce lead exposure.

Five of these nine outlets are comprised of similar materials as the outlets listed above and could potentially experience higher lead levels under extended periods of stagnation. These faucets/fountains include:

- Bubbler Fountains in main corridor next to Men's Restroom, east of Library (01DW017), and Classroom 100 (01DW015)
- Sink Side Bubbler Unit in Classroom 110 (01DW006)
- Chrome-Plated Brass Base Faucets in Classroom 100 (01CF013), and Classroom 310 (01CF032)

Replacement of these fixtures with lead-free materials is also recommended.

The classroom faucet and four drinking water fountains identified as out of service in the Background Information, should be sampled prior to being placed back into service, or replaced with lead-free materials.

The remaining four outlets showed sample results of 15 parts per billion or less, requiring no further action or additional recommendations. These faucets/fountains include:

- Sink Faucets in Classroom 110 (01CF005), Classroom 100 (01CF014), and south out-building, Temporary Classroom (02KC033)
- Kitchen Faucet in the Teacher's Lounge (01KC016)

Consecutive Sampling Results and Building Plumbing Recommendations

The consecutive samples taken on November 7, 2015, at three sites in the main school building, and one in the southernmost out-building, provide additional confirmation that overall, the highest contribution of lead appears to be from the individual faucet/fountains and not from the larger diameter supply plumbing within the main school building or the out-building units. However, results from Classroom 310 also suggest that the southern supply line extending beyond the restrooms may be impacted by minimal water use and stagnation – specifically, the cold water line serving Classrooms 306-312.

A operational flushing procedure may further reduce lead contributions from this supply line caused by stagnant conditions related to its use. Routine flushing of the larger diameter supply plumbing at the end points of the distribution system, (for example at Classroom 100, Classroom 310 and Classroom 311) should be performed on a regular basis. Even if the identified outlets are replaced, the south end of the corridor serving Classrooms 306-312 may still benefit from a flushing procedure to further reduce lead contributions and other effects of stagnant water in this supply line.

Results of the consecutive sample monitoring are listed in the table below.

Consecutive Sample No.	1	2	3	4	5	6	7	8	9	10
LOCATION	LEAD RESULT (PARTS PER BILLION; ND = NOT-DETECTED)									
Classroom 100 Sink Faucet (01CF013)	2	2	2	2	2	2	2	2	3	3

DANIELS CHRISTMAN

Project:	State Emergency Operations Center
Job No.:	214849
Client:	State of Michigan
A/E:	Partners in Architecture
Meeting Date:	02/02/2016

Pre-instruction Conference Meeting

1. **Purpose / Goals**
    a. Training.
        i. Individual Component Training as defined *(General Contractor facilitated)*
            I. Review published training schedule
            II. Operation, adjustment, and maintenance of equipment and components.
                a. Lead by equipment technician
            III. Video-taped for turnover future reference
        ii. Emergency Manuals *(Design Team facilitated; General Contractor support)*
            I. Power Failure
            II. Water Outage
            III. System, subsystem or equipment failure
                a. (need to be defined by Design Team)

2. **Reference Specifications and Materials**
    a. Division 1 of project specifications
        i. Demonstration and Training.
        ii. Operation and Maintenance Data.
        iii. Project Record Documents.
        iv. Closeout Procedures.
    b. Individual product/equipment specification sections
    c. Project plans

3. **General Discussion / Questions**

1 ppb = 0.001 mg/L

DRINKING WATER WARNING

The City of Flint water system lost pressure and contamination may have occurred
BOIL YOUR FILTERED WATER BEFORE USING

Due to a drop in pressure in the City of Flint water supply, bacterial contamination may have occurred in the water system. Bacteria are generally not harmful and are common throughout our environment. Corrective measures are currently being undertaken to correct the situation.

What should I do?

AS A PRECAUTIONARY MEASURE, DO NOT DRINK THE WATER WITHOUT BOILING IT FIRST. Bring all FILTERED water to a boil, let it boil for one minute, and let it cool before using, or use bottled water. If you are currently NOT using a filter to remove lead from drinking water, FLUSH your water for AT LEAST 7 minutes before collecting any to boil. Boiled FILTERED, boiled FLUSHED, or bottled water should be used for drinking, making ice, brushing teeth, washing dishes, and preparing food. Boiling kills bacteria and other organisms in the water. Continue using boiled or bottled water until further notice.

Due to the pressure loss, there may be trapped air and loose sediment in your water lines. The air and sediment may be removed by flushing you water system. DO NOT FLUSH YOUR SYSTEM THROUGH THE FILTER. The resulting air and sediment may affect the performance of your filter and the filter cartridge should be replaced.

What happened? What is being done?

These precautionary actions are being taken due to the loss of water pressure in the water distribution system caused by a water transmission main break on February 9, 2016. Whenever a water system loses pressure for any significant length of time, precautionary measures are recommended.

The City of Flint Water Department is working to get pressure restored, and water staff will be taking other remedial actions such as flushing and collecting bacteriological samples from around the system. The samples will be collected to determine that the water quality meets the state drinking water standards. We will inform you when tests show no bacteria and you no longer need to boil your water. We anticipate resolving the problem later today. This precautionary boil water notice shall remain in effect until results from the sampling verify the water is safe to drink. **Customers will be advised when the boil water advisory has been lifted.**

For more information, please contact The City of Flint Water Department at (810) 766-7202. General guidelines on ways to lessen the risk of infection by microbes are available from the EPA Safe Drinking Water Hotline at 1(800) 426-4791.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

CERTIFICATION: WSSN: 2310

I certify that this water supply has fully complied with the public notification requirements in the Michigan Safe Drinking Water Act, 1976 PA 399, as amended, and the administrative rules.

are evidence-based interventions for inclusion in the emergency response to the Flint lead exposure. These recommendations, which s
ɑains of education, nutrition, medical/health, are proven interventions to optimize children's health, especially for children with toxic
ɪres. Secondary Prevention interventions are targeted for all exposed children to prevent manifestation of the consequences of lead. N
dren who lived in Flint water city limits from April 2014 until end date unknown (since water not safe yet) are considered exposed an
stimated 8,000-9,000 children under the age of 6 years, as per census data. Tertiary prevention interventions are targeted for children
/ experiences the consequences of lead exposure. Several interventions are considered HIGH PRIORITY as noted.

)N

refer to "Educational Interventions for Children Affected by Lead" for additional information and references: www.cdc.gov/nceh/lead/publications/Educational_Interventions_Children_Affected_by_Lead.pdf.

?RIORITY	INTERVENTION	RATIONALE	COST	NOTES
ɪIGH ?RIORITY	Universal Early Education; Flint Pre-Promise	To mitigate toxic stress, buffer potential cognitive impact of lead exposure, promote school readiness, proven return on investment	Estimated cost of head start per child per year approx. $6000/child/yr	• Limited preschool capacity in Flint (only about 1200 children enrolled) with wait lists • Early Head Start – Ages 0-3, federally funded • Head Start – Ages 3-5, federally funded • Great Start Readiness Program – Age 4, state funded • Relax income eligibility for above programs so ALL Flint children are eligible • Campaign to promote enrollment
	Early literacy promotion	To buffer potential cognitive impact of lead and to address word/literacy gap, promote school readiness		• Support expansion of Reach Out and Read is evidence based early literacy program – free books given to ever kid at each medical visit starting at 6mos of age: http://www.reachoutandread.org/ • Consider support of additional early literacy programs such as: LENA is an evidence based 8-week literacy/parenting program to address word gaps (30 million word campaign):

				http://www.lenafoundation.org/
HIGH PRIORITY	School Nursing	To monitor, case manage, treat, promote wellness (socioemotional), school nutrition, etc		• Recommended student to school nurse ratio is 1 nurse to 750 well students. Flint schools has one general nurs (1:6500). Michigan ranks last in nation in nurse:studen ratio. • Estimated need approx 10 registered nurses (RN)
	School libraries in elementary schools	To promote early literacy		• Limited school libraries in Flint elementary schools, ca also be used to promote adult literacy
	Pre-Post school programming	To provide structured, safe supervised programming	Estimated cost of $1K per child	• Before/after school programming, Boys and Girls Club YMCA, Big Brother/Big Sister, CRIM, etc • Support funds to increase capacity
	Educate school personnel regarding lead consequences	To increase the awareness and knowledge of teachers regarding the early detection and management of lead exposure symptoms		• MDE to create curriculum for school staff regarding th varied impact of lead exposure on education and the necessary management services
HIGH PRIORITY	Increase funding for Early Intervention Enroll all children in Early Intervention	To provide early developmental services for children with delays		• Early On in Michigan • Early On has limited capacity, long waitlists, and is underfunded • Consider referral of all children to early on for routine assessments
	Increase special education capacity	To accommodate potential increase in children with needed special ed services		
	Increase social-emotional and behavioral health school counselors	To accommodate potential increased in children with needed school-based behavioral health services		

ON

RIORITY	INTERVENTION	RATIONALE	COST	NOTES
	Expand WIC eligibility requirements and the number of WIC sites	To increase availability of healthy nutrition for impacted children		• Continue USDA WIC waiver for ready-to-feed formu infants • Extend WIC benefits to 7-10yrs of age (currently enc • Co-locate WIC offices with WIC nutrition educators clinics (4-5 pediatric clinics see majority of Flint pati • Campaigns to increase WIC enrollment (1/3 of Flint enrolled) • Relax income eligibility requirements for WIC so tha limited by poverty level
	Promote breastfeeding education and support services	To protect children from lead exposure, promote cognitive development		• Preexisting low breastfeeding rates in Flint contribut lead issue; breastfeeding is largely protective from le • Increase support for GCHD peer-to-peer breastfeedir capacity • Encourage/incentivize breastfeeding friendly hospita • Support lactation consultants (LC) – at least 3-4 mor
	Expand eligibility for SNAP Increase DUFB enrollment Increase number of participating DUFB sites	To increase availability of healthy nutrition options		• Waiver to expand eligibility for SNAP benefits for re live in Flint • Campaign to increase enrollment in DUFB program, automatic enrollment in DUFB for all SNAP recipier • Actively increase number of DUFB sites (only one g included – Landmark)
IIGH RIORITY	Address food insecurity, availability, and access	To increase availability of healthy nutrition options		• Flint is a food desert • Increase capacity of food bank resources to address f insecurity via voucher system; model program to allc physicians to provide vouchers to pediatric families v insecurity is assessed / recognized • Consider subsidies for innovative neighborhood store • Implement mobile food market to reach all city ward recurring basis
	Educate and promote lead-	To limit absorption and		• Capacity / funding to place additional nutritionist / he

	exposure diet	promote excretion of lead in exposed children		educators in pediatric clinics and Genesee CHAP for care referral / integration (recommend 5 Registered D RD) • Booklet created, online for mass distribution, need ac print and dissemination resources; imbed with door-t relief efforts • http://www.hurleymc.com/files/wellness/lead-resources/nutrition-and-lead-recipe-and-resource-

ICAL/HEALTH

PRIORITY	INTERVENTION	RATIONALE	COST	NOTES
HIGH PRIORITY	Promote caregiver capacity Increase capacity of maternal infant support services	To support parents and programs to improve parenting skills and early identification of developmental delays		• Genesee County runs several evidence based state, fe foundation funded home visiting programs. All have increase in capacity to serve more families; also consi relaxing eligibility criteria so more mothers/infants ca participate • Nurse Family Partnership (NFP), Maternal Infant He Program (MIHP), Healthy Start • Expansion/adoption of additional parenting support p Strengthening Families, Incredible Years, etc.
	Provide education for primary care providers regarding toxic stress and aggressive long-term neurodevelopmental screening	To identify developmental delays early for best outcomes		• Multi-method – CME, office-based, web education • Coordination and outreach to assemble/engage provid provided by Hurley Children's Hospital, Genesee Co Medical Society and/or MDHSS
	Support routine (yearly) neuropsych assessment of executive function	To identify delays early for earlier referral and management		• Exceeds general pediatrician developmental screenin • Would require more peds neuropsych/DBP workforce (as below)
HIGH PRIORITY	Increase pediatric healthcare access to a patient centered medical home Encourage initiatives between Medicaid HMOs and Flint/Genesee County medical homes	To continuously drive patients to their primary care provider (not emergency departments) for long-term continuity of care and developmental screening;		• There is a significant disparity in proper medical hom utilization in Flint/Genesee County children covered Medicaid; the exposure increases the urgency for all children to have an established, active medical home • Medicaid children in Flint/Genesee County use the E emergent and non-emergent needs four times more fr than commercially insured children • Flint children and caregivers require support for enha transportation, case management, HEDIS monitoring incentives, mental health services, and nutrition educ access • Request increased capacity for Genesee Children's H Access Program (CHAP) to support medical home ut Medicaid children in Flint; capacity needs include ad social workers, community health workers, RN case

				• Medicaid HMO could be encouraged to reimburse fo social work, nutrition, mental health services
HIGH PRIORITY	Creation of the Flint Children's Health and Development Fund	To support short and long-term health, medical care, and developmental needs of Flint children exposed to lead	$100M	• Create a federal / state supported fund to support loca optimize children's health and development. • Request fund to support timeframe of 20 years from e mitigate and support impact of exposure to the Flint p • To be housed at the Community Foundation of Greate and convened/advised by Greater Flint Health Coaliti community members.
	Increase Early Intervention capacity/providers *(note Early On is also in education domain)*	To support young children with identified developmental delays		• Known as Early On in Michigan. Home-based progra children with suspected developmental delays. • Capacity is limited with long waits.
	Increase workforce capacity of mental health specialists: Developmental and Behavioral Pediatricians (DBP), pediatric psychologists, pediatric psychiatrists	To provide necessary mental/behavioral health services to exposed population	$700K/yr	• Access to pediatric mental health services is very limi county • Consider incentives, loan repayments, subsidies, etc t pediatric behavioral health specialists • Support/subsidize Graduate Medical Education progr train pediatric psychologists and pediatric psychiatrist MSU/Hurley currently sponsors a pediatric psycholog fellowship program and efforts are underway to expa pediatric psychiatry program to Flint. To train one fel year is approx. $100K. At a minimum would need to psycholgy fellows (2 year program) and 1 psychiatry year program) per year, thus 7 total trainees at a time, approx $700K per year.
	Expand state-funded county mental health (Genesee Health System) services	To provide necessary mental/behavioral health services to exposed population		• GHS provides infant mental health, case management based and trauma informed care, yet capacity is limite be expanded with additional resources • Prioritize resources/pilot interventions in Genesee Co • Expand behavioral health telemedicine and collaborat services – Michigan Child Care Collaborative (MC3) a MDHHS funded program for pediatric behavioral h not in Genesee County – prioritize expansion to Gene

	HIGH PRIORITY	Identification and tracking of exposed children/cohort	To determine extent of injury and long-term neurodevelopmental, medical, socioeconomic impact To allow for identification of exposed children and ongoing surveillance		• Currently beginning to identify exposed children in E • ICD10 code for "Contact With and (Suspected) Expo: Lead" – Z77.011 • Capacity needed to promote health information excha integration between primary care physicians, FQHCs, MCIR/MDHHS, and hospitals to increase effectivene population health interventions • Capacity required to support epidemiology, IT, resear (Hurley/MSU Pediatric Public Health Collaborative) : term epidemiologic follow-up • Request support/prioritized grant funding/consultive e from CDC, ADSTR, NIH (NIEHS)

ASSIGNMENT LIST (ICS 204)

1. Incident Name:	2. Operational Period:		3.
Public Safety Branch (Obj. 1)-2015-10-01-City of Flint-Water Contamination/Shortage Objective: 1:Ensure all households within impacted community have required resources.	Date From: 01/15/2016 Time From:08:00:00	Date To: 01/17/2016 Time To: 08:00:00	**Branch: Public Safety** **Division: National Guard** **Group:** **Staging Area:**

4. Operations Personnel:	Name	Contact Number(s)
Operations Section Chief:	Lt. Gabe Covey	517-927-5362
Branch Director:	LTC Chad Randall	
Division/Group Supervisor		

5. Resources Assigned:		# of Persons	Contact (e.g., phone, pager, radio, frequency, etc.)	Reporting Location, Special Equipment and Supplies, Remarks, Notes, Information
Resource Identifier	Leader			
Water POD #1 (Station #1)	SSG Cunningham	3 per shift		125 E Union Street, Flint, 48501 Monday - Friday 0900 - 1600
Water POD #2 (Station #3)	SSG Griswold	3 per shift		4809 Clio Rd, Flint, 48504Monday - Friday 0900 - 1600
Water POD #3 (Station #5)	SSG Thorp	3 per shift		601 N. Saginaw St, Suite A, Flint, 48502Monday - Friday 0900 - 1600
Water POD #4 (Station #6)	SSG Schirmer	3 per shift		2727 Lippincott Blvd, Flint, 48507 Monday - Friday 0900 - 1600
Water POD #5 (Station #8)	SSG Rhoades	3 per shift		1101 South Saginaw Street, Flint, 48502 Monday - Friday 0900 - 1600
Local EOC Logistic	Jay Eickholt	1		
Resource Unit Lead	Sam Yonker-Burke	1		

6. Work Assignments:

Critical Task: Disburse water to the impacted community through points of distribution. Hours of operation: 0900-2100

Tactics:
1. Identify and report resource shortfalls and limitations.
2. Coordinate redistribution of supplies per Logistic Support Plan.
3. Identify local EOC POC, PAO and provide contact information to EMHSD personnel at the local EOC daily.
4. Report inventory numbers to per Logistic Support Plan.
5. Report information to SEOC resource unit.

7. Special Instructions:

Three individuals per shifts, 2 shifts per day. Additional LT and SGT will be rotating between stations. Additional POC will be in local EOC.

LT Zachary Benke POC over all team 269-876-4340.

Contact numbers for each POD listed above is a government phone and will be staying at each POD even though teams will switch.

Local EOC LNO is LT Roland.

8. Communications (radio and/or phone contact numbers needed for this assignment):

Name/Function	Primary Contact: indicate cell, pager, or radio (frequency/system/channel)

9. Prepared by: Name: Jackie Hampton | Position/Title: OSC | Date/Time: 01/10/2016 12:27:28

DRINKING WATER WARNING

The City of Flint water system lost pressure and contamination may have occurred
BOIL YOUR FILTERED WATER BEFORE USING

Due to a drop in pressure in the City of Flint water supply, bacterial contamination may have occurred in the water system. Bacteria are generally not harmful and are common throughout our environment. Corrective measures are currently being undertaken to correct the situation.

What should I do?

AS A PRECAUTIONARY MEASURE, DO NOT DRINK THE WATER WITHOUT BOILING IT FIRST. Bring all FILTERED water to a boil, let it boil for one minute, and let it cool before using, or use bottled water. If you are currently NOT using a filter to remove lead from drinking water, FLUSH your water for AT LEAST 7 minutes before collecting any to boil. Boiled FILTERED, boiled FLUSHED, or bottled water should be used for drinking, making ice, brushing teeth, washing dishes, and preparing food. Boiling kills bacteria and other organisms in the water. Continue using boiled or bottled water until further notice.

Due to the pressure loss, there may be trapped air and loose sediment in your water lines. The air and sediment may be removed by flushing you water system. DO NOT FLUSH YOUR SYSTEM THROUGH THE FILTER. The resulting air and sediment may affect the performance of your filter and the filter cartridge should be replaced.

What happened? What is being done?

These precautionary actions are being taken due to the loss of water pressure in the water distribution system caused by a water transmission main break on February 9, 2016. Whenever a water system loses pressure for any significant length of time, precautionary measures are recommended.

The City of Flint Water Department is working to get pressure restored, and water staff will be taking other remedial actions such as flushing and collecting bacteriological samples from around the system. The samples will be collected to determine that the water quality meets the state drinking water standards. We will inform you when tests show no bacteria and you no longer need to boil your water. We anticipate resolving the problem later today. This precautionary boil water notice shall remain in effect until results from the sampling verify the water is safe to drink. **Customers will be advised when the boil water advisory has been lifted.**

For more information, please contact The City of Flint Water Department at (810) 766-7202. General guidelines on ways to lessen the risk of infection by microbes are available from the EPA Safe Drinking Water Hotline at 1(800) 426-4791.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

CERTIFICATION: WSSN: 2310

I certify that this water supply has fully complied with the public notification requirements in the Michigan Safe Drinking Water Act, 1976 PA 399, as amended, and the administrative rules.

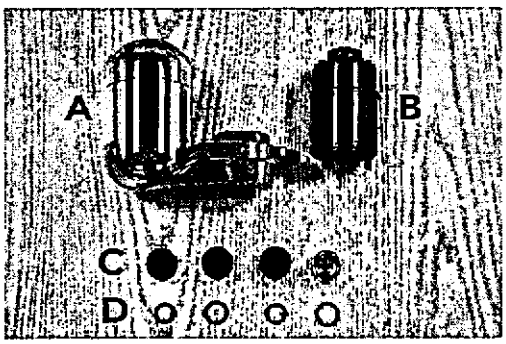
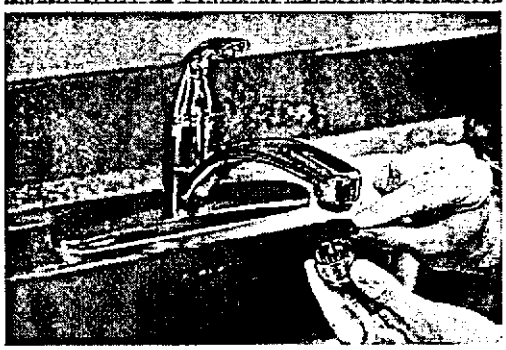
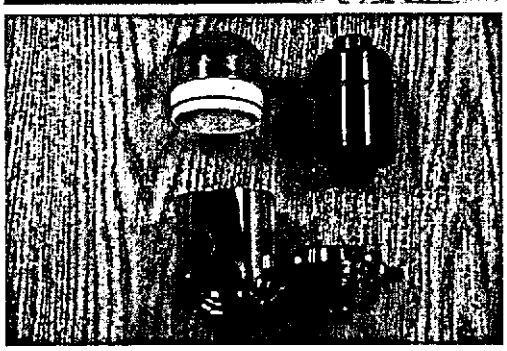
FLINT WATER RESPONSE TEAM

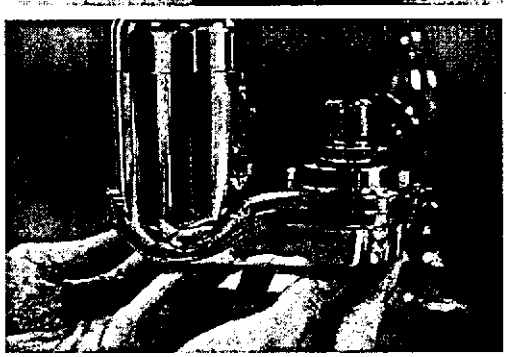
www.michigan.gov/flintwater

Installing a PUR Filter









WHAT'S IN YOUR BOX

A. Filter Unit
B. Filter Cartridge
C. Adapters (you'll only need one of these)
D. Rubber Gaskets (they match up with the adapters)

ADAPTER INSTALLATION

Every sink faucet has a round tip at the end that can be removed. Unscrew and remove the aerator on your faucet. Try out the different adapters (C) to find the one that best fits your faucet. Once you find the best fit, put the rubber gasket (D) on the adapter and screw the adapter onto your faucet.

FILTER INSTALLATION

Step 1

Unscrew the top of the filter unit (A).

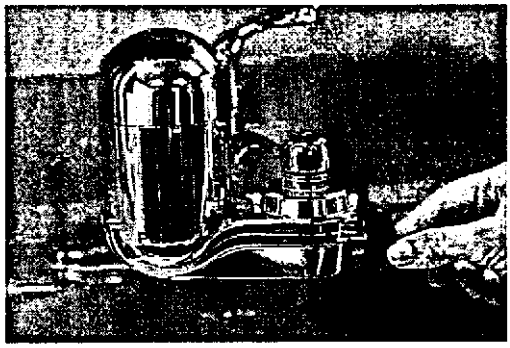
Step 2

Remove your filter cartridge (B) from its plastic wrapping and place the cartridge into the top of the filter unit (A). The 'front' arrow on the filter cartridge should line up with the PUR logo on the front of your filter unit. Screw the top of the filter unit back on.

Step 3

Install the filter unit onto the adapter attached to your faucet by simply pushing it on until you hear a click.

See the next page for information about how to use your new filter.



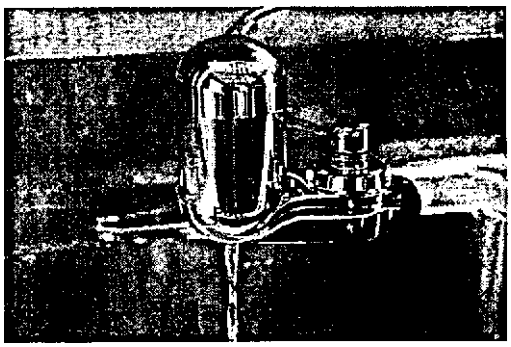
USING YOUR FILTER

There is a black lever on the side of your filter unit. When it is flat, you are NOT using your filter. To use your filter, turn the black lever down and only run COLD water through the filter at all times.

When you use your filter for the first time ONLY, run cold water for five minutes. After that, your filter is ready for use whenever you turn on your faucet.

WHEN SHOULD YOU USE FILTERED OR UNFILTERED WATER?

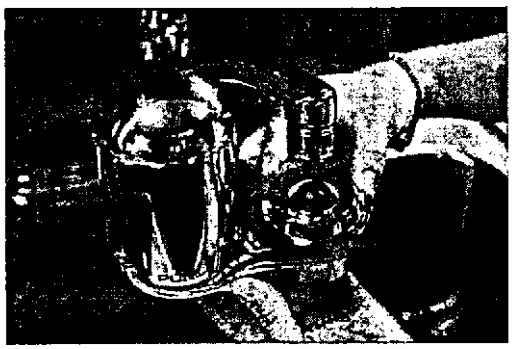
FILTERED WATER - COLD WATER ONLY	UNFILTERED WATER
Drinking (making coffee, juice, baby formula)	Washing your hands
Cooking	Washing dishes, clothes
Washing fruits and vegetables	Mopping floors, cleaning countertops
Brushing kids' teeth	Showers, baths (people and pets)
Pets water bowls	Brushing adults' teeth



CHANGING YOUR FILTER

Each time you use your filter, a light will flash on the front six times.

GREEN – Your filter is working
YELLOW – Your filter is working, but you will need to change it soon.
RED – It is time to change your filter. Revisit step 2 once you have your new filter cartridge.



REMOVING YOUR FILTER

Should you need to remove your filter, there is a quick release option. There are small white buttons on each side of the adapter. Squeeze them in at the same time and the filter unit will come off.

FOR MORE INFORMATION

If you live in the City of Flint and need a free water filter or replacement filter cartridge, they are available at one of the water resource sites. If you are unable to visit a water resource site, call 810-257-3600 or United Way 211.

To get a free water test, visit a water resource site, Flint City Hall, or call the Flint Water Plant at 810-787-6537.

If you live outside of the City of Flint and would like to purchase a filter to protect you and your family from lead or other chemicals, make sure you get a filter that is NSF-approved. Look for this symbol on the box:

INDEPENDENTLY NSF CERTIFIED

Introduction

Purpose of the Guide

This guide provides a framework or strategy for government and non-government disaster recovery stakeholders at all levels to assess, plan for, and support the recovery of communities following events that do not rise to the level of or receive a Stafford Act declaration (herein referred to as "non-Stafford Act events"). To support this overall objective, this guide focuses on achieving three major goals:

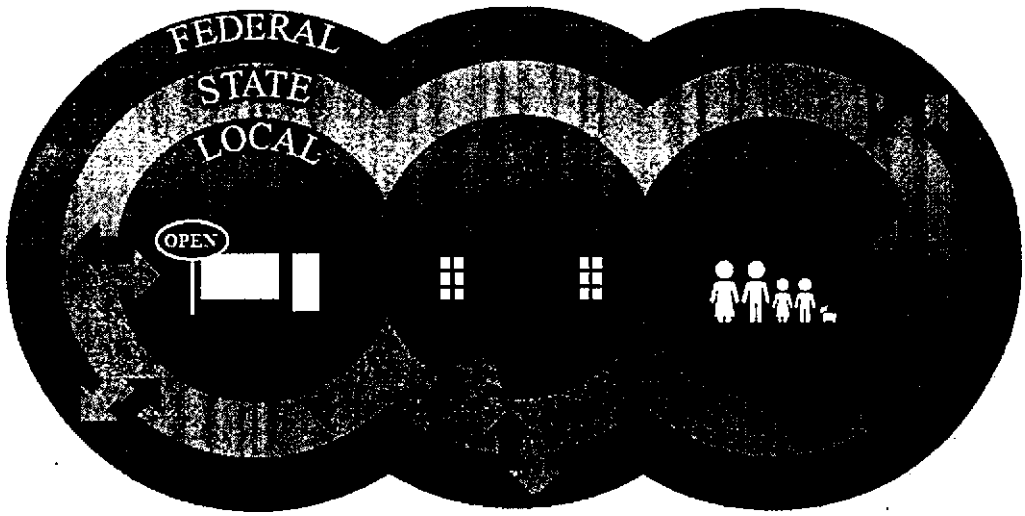
1. Emphasize the importance of local, State, and Tribal governments in assessing and addressing the needs of affected communities following non-Stafford Act disasters
2. Encourage the development of engaged partnerships between emergency management and non-emergency management stakeholders
3. Provide a framework that supports unified recovery-focused coordination between local, Tribal, State, and Federal agencies, non-governmental organizations, and the private sector

These objectives are intended to provide recovery stakeholders the means to identify and coordinate the resources necessary to support sustainable recovery solutions at the State, Tribal, and local level utilizing the principles of the National Disaster Recovery Framework (NDRF).

For the purposes of this document, non-Stafford Act events are defined as events that have recovery requirements exceeding the capability of individuals and the local community, but do not exceed the capabilities of the State.

Background

Subsequent to a Stafford Act declaration, the State and Federal government coordinate available resources to assist individuals and communities recover from the disaster. Although resources made available through specific Stafford Act authorities would not be provided in a non-Stafford Act event, many resources are available to States, Tribes, and local governments that can be used to support the recovery of the whole community.



The impact of concentrated damage can be overwhelming, even to well-resourced or resilient communities. Often times systems are disrupted, need exceeds individual resources, regular service providers are overwhelmed, and networks necessary to address disaster related needs do not exist. With capabilities exceeded, outside resources and expertise may be required to support the local community.

State agencies may have programs or grants that can generally be *re-prioritized* to meet identified recovery needs and goals. Federal presence, if warranted, is typically limited to technical assistance following non-Stafford Act events; however, a limited number of Federal agencies like the Small Business Administration (SBA) and the United States Department of Agriculture (USDA) do maintain programs or authorities that can directly support the needs of impacted communities outside Stafford Act declaration.

Principles and Concepts of the National Disaster Recovery Framework

The resources and needs of impacted States, Tribes, and communities may differ following a non-Stafford Act event; however, the nine core principles and the key concepts set forth in the NDRF can be equally applied to any event and any jurisdiction to holistically support recovery. For more information visit the National Disaster Recovery Framework website at www.fema.gov/national-disaster-recovery-framework .

Core Principles:

- Individual and family empowerment
- Leadership and local primacy
- Pre-disaster recovery planning
- Partnerships and inclusiveness
- Public information
- Unity of effort
- Timeliness and flexibility
- Resilience and sustainability
- Psychological and emotional recovery

Key Concepts:

Structure
The NDRF provides a scalable structure for organizing recovery operations around the needs of the community through the six identified Recovery Support Functions (RSFs);

- Community Planning and Capacity Building
- Economic
- Health and Social Services
- Housing
- Infrastructure
- Natural and Cultural Resources

These sector-specific functions can be developed at any level of government to facilitate problem solving and foster coordination among recovery stakeholders.

Planning
Recovery planning is set forth in the NDRF as a critical activity that should begin prior to an event and extend through all phases of the emergency management cycle. Successful recovery planning requires active engagement with and between all levels government, nongovernmental organizations, the private sector, and the community itself in order to increase post-disaster collaboration and unified decision-making.

Leadership
The NDRF outlines leadership positions at the local, State, and Tribal levels through Local Disaster Recovery Managers, State Disaster Recovery Coordinators, and Tribal Disaster Recovery Coordinators. Individuals in these positions are intended to serve as the primary point of contact for recovery for their jurisdiction, and are responsible for organizing, coordinating, and advancing recovery in all phases of the emergency management cycle.

Following a non-Stafford Act event, the State may also request the support of a Federal Disaster Recovery Coordinator or recovery advisor/liaison to provide technical assistance. When deployed or engaged, these representatives support the State by providing relevant subject matter expertise, and facilitating enhanced coordination between Federal agencies and State recovery leadership.

When combined with the full involvement of all stakeholders and realistic and well-communicated expectations, the concepts and principles outlined in the NDRF can be used as building blocks to develop resiliency and support a successful recovery following a non-Stafford Act event.

General Recovery Needs

Understanding the needs of a community is critical to the development of appropriate structures, plans, and partnerships to support recovery. Specific needs will vary by event and community, and need to be assessed holistically following an event. Categorizing needs prior to an event may be helpful in identifying recovery partners and programs. Examples may include:

Individual needs

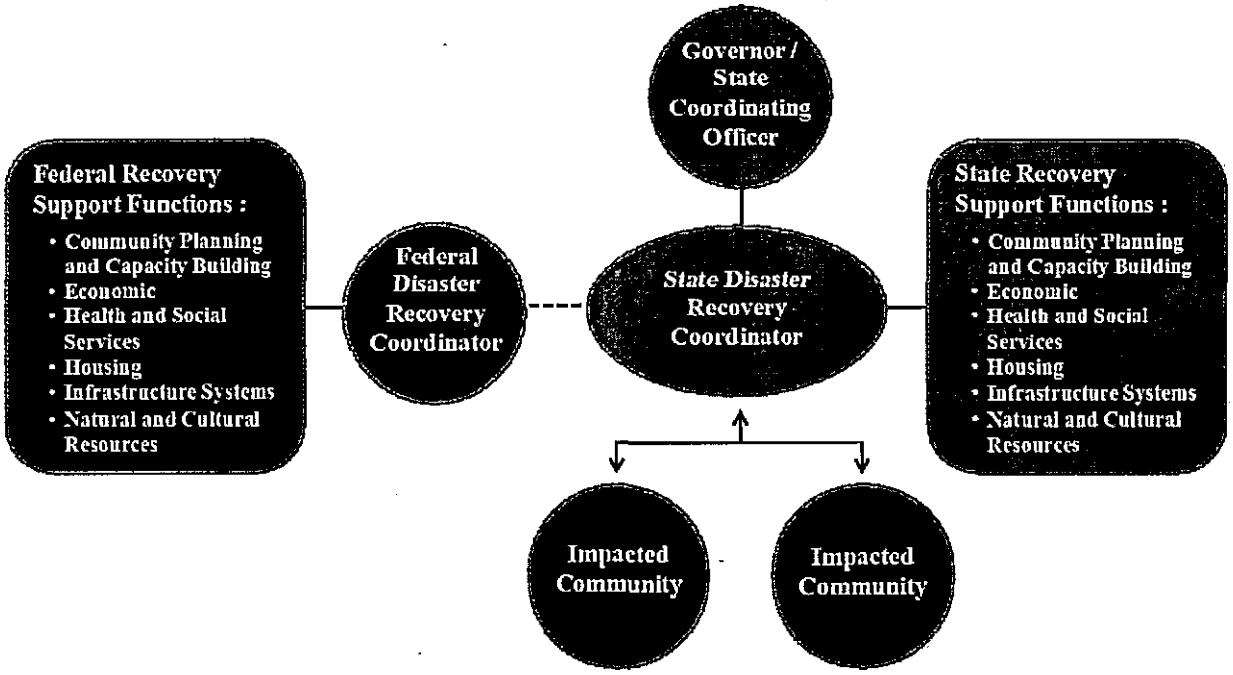
- Temporary housing (rental assistance or other temporary housing)
- Home repair/rebuild assistance (real property and mechanicals)
- Medical, dental, funeral assistance (including the replacement of damaged durable medical equipment)
- Personal property (clothing, household items, furniture, appliances) replacement assistance
- Transportation or vehicle replacement assistance
- Replacement of job related tools and specialized/protective clothing
- Moving and storage assistance
- Legal assistance
- Insurance claims assistance
- Mental health needs
- Employment related assistance
- Food replacement
- Agricultural support for farmers and ranchers
- Assistance to mitigate against the effects of future events

Government needs

- Recovery planning support
- Debris removal cost recoupment
- Legal and contract support
- Economic/Business stabilization support
- Reimbursement for emergency protective measures taken in the response phase
- Assistance to support repairs to roads, bridges, and other infrastructure
- Assistance to support necessary repairs to water and utility networks
- Assistance for damaged public buildings
- Support for public healthcare facilities
- Assistance for damaged equipment
- Insurance claims assistance
- Support to ensure environmental and historic considerations are taken throughout recovery
- Assistance to mitigate against the effects of future events

Non-Stafford Act Recovery Support Structure

The NDRF can provide a structure to support unified coordination between all governmental and non-governmental recovery stakeholders following non-Stafford Act events. While it is expected that the State and affected community will work together to scale this structure according to specific recovery needs, the structure defined in the NDRF may be helpful in defining and aligning the roles of local and State governmental and non-governmental recovery stakeholders.



The recovery structure defined in the NDRF centers around multi-agency coordination facilitated by the Disaster Recovery Coordinators/Manager and the RSF Coordinating Agencies. Multi-agency coordination is a process that allows all levels of government and all disciplines to work together more efficiently and effectively. Multi-agency coordination is a National Incident Management System (NIMS) compliant method of providing coordination to multidisciplinary, policy-level decision makers brought together to support incident level operations. This organizational concept is particularly relevant at the State and Federal levels where organizational leadership is brought together to identify resources to support needs in the impacted jurisdiction.

Local Non-Stafford Act Recovery Support Structure

Successful recovery coordination efforts stem from well-planned, well-coordinated and inclusive local recovery efforts. The local recovery support structure is made up of operational elements brought together to establish and prioritize recovery goals, develop community focused recovery plans, ensure clear and consistent public messaging, and support resource coordination.

Overall leadership for the local recovery coordination group is provided by the Local Disaster Recovery Manager (LDRM), identified by local emergency management or by the office of the senior elected official. This facilitative role centers on coordinating operational elements to meet recovery goals.

Local recovery Coordinating agencies/organizations are designated based on relevant authorities, roles, resources or capabilities. These agencies can support the LDRM and the overall recovery effort by ensuring coordination and providing resources and subject matter expertise in their given functional area.

Potential local leadership and Coordinating agencies may include:

Leadership

City/County office of Emergency Management or the office of senior elected leadership

Coordinating Agencies/Organizations

City/County Department of Commerce or Planning and Development Commission
City/County Department of Public Works and Engineering
City/ County Department of Health or Department of Human Services
City/County Department of Emergency Management
Local Housing Authority
City/County Parks Department

The local recovery structure must also coordinate with keystone partners from local faith and community based organizations, the private sector, educational institutions, and regular service providers that support children, elders, people with disabilities, and people with other functional and access needs. These community leaders provide essential support on an every-day-basis. Understanding the roles of these individuals and organizations allows local recovery leadership to identify needs and leverage resources more effectively.

Appreciating the actual capabilities and needs of a community is essential to supporting and enabling local actions.

Many non-governmental organizations have disaster programs which play a pivotal role in supporting the recovery of impacted individuals and communities. These organizations coordinate through local, State, and national coalitions known as Voluntary Organizations Active in Disaster (VOAD). VOAD member agencies can support a variety of needs including:

- Individual and community needs assessments
- Case management training and support
- Construction (repair/rebuild) support and coordination
- Long Term Recovery Group (LTRG) formation support
- Debris removal from private property
- Grant assistance
- Resource identification and fundraising support
- Disaster mental health or emotional and spiritual care
- Youth focused resiliency programs
- Support for faith leaders in impacted areas
- Coordination of spontaneous volunteers
- Donations management support
- Information and referral support

More information on Voluntary Organizations Active in Disaster can be found at http://www.NVOAD.org

State/Tribal Non-Stafford Act Recovery Support Structure

The State/Tribal recovery support structure is designed to augment recovery resources. This often requires the re-prioritization of resources so the intent and priorities of senior elected leadership must be made clear at the outset. Individual State/Tribal agencies may contribute operational elements to support local recovery operations; however, State/Tribal-level recovery coordination is conducted by policy-level decision makers with the authority to commit resources on behalf of their agency.

Leadership for the State/Tribal recovery coordination group is provided by the State/Tribal Disaster Recovery Coordinator (SDRC or TDRC), identified by State/Tribal emergency management, the office of the Governor, or Tribal leadership. The person in this role is responsible for facilitating coordination with and between State/Tribal agencies and the impacted jurisdictions(s).

State RSF Coordinating agencies are designated based on relevant authorities, roles, resources or capabilities and can support the SDRC/TDRC and the overall recovery effort by ensuring coordination with and between the impacted communities and State agencies working within their functional area(s) (RSF).

Potential State leadership and Coordinating agencies may include:

Leadership

State Emergency Management or the Governor's Office

Coordinating Agencies

State Department of Commerce or Economic Opportunity
State Department of Transportation
State Department of Health and Human Services
State Emergency Management Agency
State Department of Housing
State Department of Natural Resources

Additional State agencies and organizations may be identified as supporting agencies when their specific capabilities, resources, or programs can be used to support impacted communities. When scaling the State/Tribal recovery structure, recovery leadership must consider the actual needs of impacted communities and the mechanisms necessary to coordinate the broad range of support available through regular State programs and non-governmental organization partners.

Federal Non-Stafford Act Recovery Support Structure

The Federal recovery support structure following non-Stafford Act events does not change from that outlined in the NDRF. This structure is scalable and it may not be necessary for staff to be physically present in the state to provide support. Additional information on the Federal recovery support structure can be found in the NDRF.

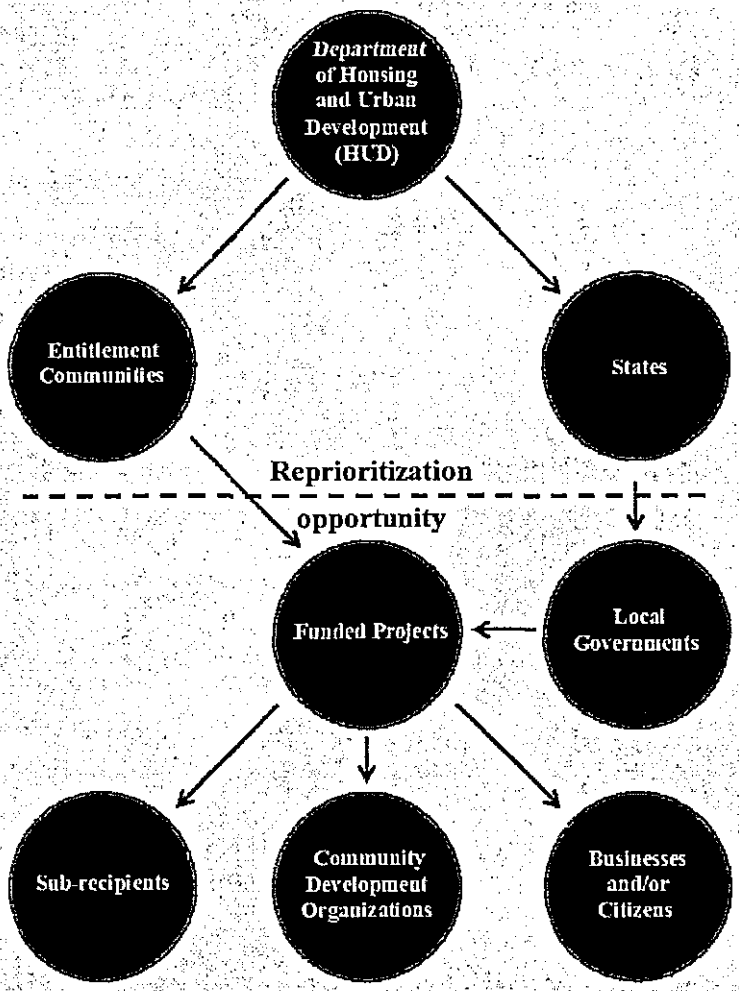
The following list of Federal agencies represents some of the resources and technical assistance that may be available to support impacted jurisdictions, States/Territories, and Tribes following non-Stafford events:

Department of Commerce
Department of Defense, U.S. Army Corps of Engineers
Department of Health and Human Services
Department of Homeland Security, Federal Emergency Management Agency
Department of Housing and Urban Development
Department of the Interior
United States Department of Agriculture

State recovery leadership and State Recovery Support Function leads are encouraged to coordinate with Federal agencies through regional or field offices as appropriate, to discuss authorities relevant to disaster recovery and better understand how non-disaster programs already being administered may have relevance following an event. More information on Federal recovery programs can be found on the National Disaster Recovery Program Database and at DisasterAssistance.gov

Non-Stafford Act Programs in Action:

Department of Housing and Urban Development Community Development Block Grants (CDBG)



This flow chart outlines how CDBG funding is allocated to benefit programs and communities. Funds flow from the U.S. Department of Housing and Urban Development to major urban areas (Entitlement Communities) and States. These funds are then allocated to approved projects or communities according to priorities or State formulas.

Following a disaster, States and Entitlement Communities can shift funding priorities (at dotted line), for unused funds, and approve projects that support individual and community recovery needs. All approved projects must meet certain criteria and address specific program goals; however, CDBG funds are flexible and can be used to meet a variety of needs.

Governmental, Non-Profit, and Private-Sector Coordination

Integrating and coordinating with governmental, non-governmental and private-sector associations and their member agencies/organizations can be key to successfully addressing the needs of impacted communities. These partners may include sector-specific associations with missions directly or indirectly related to emergency management. Associations can support planning, coordination, and the development of agreements/understandings that support and leverage the capacity of member agencies. Additionally, associations can develop or improve overarching recovery coordination processes that independent organizations may not have the capacity to develop on their own.

GOVERNMENTAL ASSOCIATIONS

Governmental Associations provide coordination between agencies of all types and are engaged at the national, regional, State, and local levels. These organizations can provide additional coordination, lessons learned, and programmatic/subject matter support via peer-to-peer networks of government entities (mutual aid). Engagement with government associations can encourage resiliency through the development, promotion, and coordination of tools and best practices. Examples of government associations include:

- Council of State Community Development Agencies
- Emergency management associations (such as the National Emergency Management Association, the International Association of Emergency Managers, and local, county, and State associations of emergency managers)
- City/County Manager Associations
- National Association of Regional Councils
- National League of Cities
- State and national associations of county or municipal governments
- State and national associations of health departments (such as National Association of County and City Health Officials)
- State and national public works associations (such as the American Public Works Association)
- Tribal Associations

EXAMPLE:

International Association of Emergency Managers

The International Association of Emergency Managers (IAEM) serves to advance the profession by promoting the principles of emergency management; to serve members by providing information, networking and professional development opportunities; and to advance the emergency management profession.

Learn more at www.IAEM.com

NON-PROFIT AGENCIES, ORGANIZATIONS

Non-profit agencies, organizations, and associations can play a critical role following non-Stafford Act events. These key partners provide outside resources, and training that can help local non-profit, faith-based, and community-based organizations to maximize the support they provide in an affected community. This support is generally coordinated through member organizations and provided via peer-to-peer networks similar to mutual aid. Non-profit associations can be helpful to State and local governments working to expand their capacity by supporting the identification of member

organizations and helping to explain the resources and missions of their members and provide introductions. Examples of nonprofit associations include:

- Academic Associations
- American Planning Association (APA)
- State and national offices of civic organizations (such as Lions Club International, Kiwanis International, and Rotary Clubs)
- Disability service and advocacy organizations (such as the State Protection and Advocacy Agency, and the local Centers for Independent Living)
- Faith-based associations
- Foundation Associations (such as the Council on Foundations and the Association of Small Foundations
- Disaster Long Term Recovery Groups (LTRG)
- State and National Non-profit Associations
- Non-profit legal associations (such as the American Bar Association, the Legal Services Corporation, and the National Legal Defender Association)
- Trade unions
- Voluntary Organizations Active in Disaster (such as National VOAD and State VOAD)
- Community Organizations Active in Disaster (COAD)
- State and National offices of youth councils and organizations (such as the Boys and Girls clubs, Future Farmers of America, 4H clubs, and the Boy Scouts and Girl Scouts of America)

EXAMPLE:

The Extension Disaster Education Network (EDEN)

EDEN links Extension educators from across the U.S. and various disciplines, enabling them to use and share resources to reduce the impact of disasters.

Learn more at eden.lsu.edu

THE PRIVATE SECTOR

By actively engaging private sector partners *prior* to an event, and working to establish mutually-supportive relationships, recovery leadership can better take into account the needs and resources of the whole community and support successful recovery.

By working to establish public-private partnerships, recovery leadership can develop relationships with key stakeholders who have insight into economic and community needs as well as access to potential resources. While well-developed mutually supportive relationships with individual business partners is a goal, private sector associations and trade groups can help to provide recovery leadership with more information on the resources and needs of their membership and facilitate introductions to key stakeholders. Examples of private-sector associations include:

- Business Associations
- Professional Associations
- Local, State, and National Chambers of Commerce

EXAMPLE:

The Business Civic Leadership Center (BCLC)

BCLC helps businesses communicate and collaborate with each other and with the nonprofit and government sectors to make disaster relief, recovery, and reconstruction activities more effective.

Learn more at bclc.uschamber.com/program/dis

Pre-Event Recovery Coordination and Non-Stafford Act Capacity Development

Pre-disaster recovery planning, coordination and capacity development is set forth in the NDRF as key to the successful recovery of communities affected by disaster. This is particularly true of non-Stafford Act events, where a premium is placed on coordination in order to maximize the impact of available resources. By identifying recovery leadership, defining roles, engaging with partners, expanding partnerships, planning, training, and exercising prior to an event, States can develop the resources and structure necessary to support impacted communities following any event.

Resource and Guidance Development

- Identify recovery leadership at all levels of government and define positions, authorities, roles, and responsibilities.
    - Determine how the State/Tribal/local Disaster Recovery Coordinator or equivalent will be identified, and what the specific authorities, roles, and responsibilities of the position will be.
    - Identify State/Tribal/local Recovery Support Function Coordinating agencies and define the authorities, roles, and responsibilities of these positions.
    - Develop guidance to support local jurisdictions in identifying and developing recovery leadership.
- Identify traditional and non-traditional State, Tribal, and Federal non-Stafford Act programs that can be used to support the needs of impacted communities.
    - Promote agency-specific policy development by all identified recovery stakeholders.
    - Promote the development and maintenance of State/Tribal and local recovery resource lists that outline the potential assistance available from state and or local agencies and recovery partners.
- Support the development of non-Stafford Act recovery coordination plans as part of each jurisdictions broader recovery plan.
    - Promote the inclusion of all governmental, non-governmental, and private sector stakeholders in the development and maintenance of recovery plans and partnerships.
    - Plan for the needs of individuals with disabilities and others with access and functional needs, children and seniors as a fundamental aspect of the recovery plan rather than as a supplement, annex, or separate plan.
- Promote the development of engaged recovery-focused partnerships at all levels and between all sectors of government, non-governmental organizations and the private sector.
    - Develop recovery-focused memorandums of understanding (MOU) or memorandums of agreement (MOA) between state agencies and agencies with identified recovery roles.
    - Develop recovery-focused mutual aid and Emergency Management Assistance Compact (EMAC) agreements with other States, Tribes, or local jurisdictions as appropriate.

- Promote the development of local, State, and National non-governmental organization consortiums (such as State/National VOADs, COADs, Inter-faith Councils, Disability related advocacy groups, and Private Sector networks).
- Work with government agencies to encourage collaboration between local, State and Tribal governments.

Pre-Disaster Coordination

- Promote non-Stafford Act support forums for idea and information sharing between recovery stakeholders at all levels.
  - Gather and disseminate lessons learned and best practices from other non-Stafford Act recovery operations to Federal, Tribal, State, local, non-governmental, and private sector partners.
- Organize State agencies with identified recovery roles according to RSFs or state recovery structure.
  - Promote the development of recovery taskforces according to identified RSFs
  - Support the identification and coordination of agency functions, roles, and capacity to support non-Stafford Act disasters.
- Insure that non-governmental organization partners are fully integrated into State, Tribal, and local coordination and capacity building initiatives.

Post-Event Recovery Coordination

Defining, coordinating and addressing the needs of an impacted community following a non-Stafford Act event requires active coordination and planning between all levels of government and with all sectors of society. This section outline steps that States, Tribes, and local communities can take to conduct a more accurate needs assessments, develop appropriate goals, and enhance multi-agency coordination.

Community Impact Assessment

- Ensure coordination with departments/organizations active in the response phase to discuss the current situation, activity to date, major areas of concern, and the transition to recovery. (i.e. share damage assessment numbers and identified community impacts, share known locations of displaced/evacuated residents)
- Conduct comprehensive damage and impact assessment to identify potential community needs and strategic recovery challenges across the 6 Recovery Support Function areas. Examples may include:
    - Convene a multidisciplinary impact assessment team to ensure that assessments are as efficient and comprehensive as possible. The team should be composed of governmental, non-governmental, and private sector stakeholders representing all identified RSFs.
    - Coordinate with existing community information and referral networks (2-1-1, 3-1-1, etc.) to support the identification of community needs.
    - Insure that assessments provide a base line need in each of the identified functional areas (i.e. Total number of damaged homes, number of homes with failed structural elements, and the number of destroyed homes).
    - Provide State/Tribal and Federal technical/subject-matter/policy support as appropriate to support local needs assessments.
- Coordinate local and State/Tribal governmental and non-governmental agencies/organizations to identify existing individual and community resources that can be used to support recovery – including insurance, continuity of business plans/support, locally administered programs, and donated/volunteer resources.
- Seek out the input of elected leadership, governmental agency/office leadership, faith leaders, faith and community based organization leadership, key private sector stakeholders, and individuals from the impacted community in order to identify community structures and priorities.
- Provide State and Federal technical/subject-matter support as appropriate to support local assessments.

Non-Stafford Act Planning and Recovery Strategy Development

- Develop State and local recovery strategies that support the needs, plans, and goals of impacted communities.
    - Engage local leadership and RSF taskforce stakeholders to support the development of local recovery strategies.
    - Involve the impacted community (public) during the development of the recovery strategy – considerations should be taken to include non-English speaking populations, people with limited resources, and people with access and functional needs.
    - Insure that recovery strategies take into account the specific needs of seniors, people with disabilities, and people with limited resources.
    - Insure that case management and other coordinative elements are incorporated into each community's recovery strategy in order to maximize impact and avoid overlap or gaps in service.
    - Request or provide State/Tribal/ Federal technical, subject-matter, and policy support as appropriate to support the development of local recovery strategies.
    - Develop a State recovery strategy to ensure the unified coordination of State/Tribal and Federal agencies supporting impacted jurisdictions.
- Support the development of local Business Recovery Plans for individual impacted businesses
- Support the development of Individual Recovery Plans for impacted survivors
    - Ensure that case management is available to assist impacted survivors to identify and coordinate resources necessary to support the holistic sustainable recovery solutions.
- Support ongoing recovery planning at the State and local level to align available resources with identified goals, priorities, and progress.
    - Promote local leadership in recovery planning.
    - Involve all recovery stakeholders in recovery planning initiatives. Include local and State/Tribal governmental agencies, non-governmental organizations, and local service providers.
    - Ensure that all recovery plans are in line with the goals and strategies of the impacted community.
    - Provide a mechanism for continued State and Federal technical assistance support as appropriate.
    - Ensure that State recovery planning is scaled to meet the coordination needs of supporting state agencies and takes into account the evolving needs of affected jurisdictions.
    - Promote public feedback opportunities to insure that recovery strategies and priorities continue to be in line with the needs of the community –considerations should be taken to include non-English speaking populations, people with limited resources, and people with access and functional needs.

Non-Stafford Act Coordination and Support

- Ensure that recovery leadership at the local, State and Tribal levels is adequate to support the recovery needs, strategies, and plans of impacted communities.
    - Assess the need to identify or assign a Local Disaster Recovery Manager (LDRM).
    - Assess the need to identify/assign, and deploy a State/Tribal Disaster Recovery Coordinator (SDRC/TDRC).
    - Assess the need for Federal technical assistance.
- Promote the development of Recovery Support Functions and recovery focused multi-agency coordination groups at the local, State, and Tribal levels as appropriate.
    - *Implement RSF task forces as appropriate*
    - Promote the broad inclusion of current and potential recovery partners – to include non-governmental organizations and the private-sector to ensure that technical support and programmatic resources are known, available, and coordinated.
    - Promote coordination between counterpart local, state, and national non-governmental and private-sector partners to maximize an understanding of available support and ensure coordination.
    - Promote the development of Long Term Recovery Groups (LTRG) and the use of case management to coordinate long-term unmet needs assistance to disaster survivors.
    - Identify the need for Federal RSF support to local and State/Tribal recovery functions.
- Ensure that the appropriate technical assistance is available from the State and through mutual aid networks to support local recovery assessment, planning, and program administration.
    - Coordinate and/or deploy technical assistance teams, made up of identified State/Tribal recovery partners, to support local communities in the assessment of disaster impacts and the development of local recovery strategies.
    - Identify the potential for peer-to-peer/mutual aid assistance to support local recovery coordination and planning efforts.
    - Ensure the development of an interface between local, State/Tribal, and Federal agencies to streamline policy discussions and promote an understanding of the processes and requirements associated with requesting and administering supplemental assistance.
    - Assess the need for Federal technical or programmatic advisors to support State/Tribal and local recovery efforts.
- Ensure that all non-Stafford Act programmatic assistance (financial and in-kind) is available to and coordinated with local recovery leadership.
    - Ensure that supplemental support is in alignment with identified local goals, strategies, and plans to maximize impact, identify gaps, and avoid duplication.
    - Identify additional State/Tribal and local programs that can be used, reprioritized, or altered to support the needs of affected communities identified in the assessment process.
    - Assess the need for and, if needed, request additional non-Stafford Act assistance from the State/Tribe or other Federal agencies.

Appendix 1: Case Study – State of Illinois, 2012 Spring Tornadoes

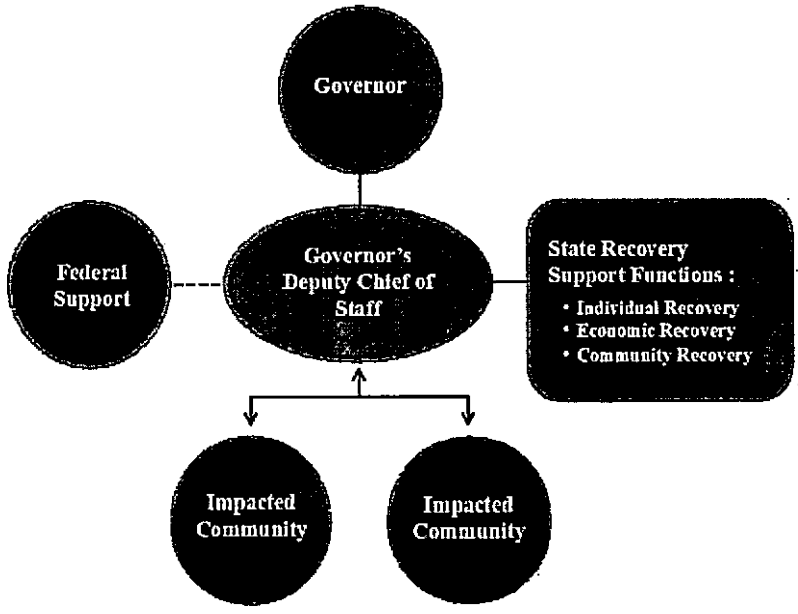
Overview:

In the early hours of February 29, severe storms and tornadoes tore through Gallatin, Massac, Saline, Union, and Williamson counties of Illinois. Around 5a.m. an EF4 tornado touched down in the City of Harrisburg in Saline County, and an EF3 tornado touched down in the Village of Ridgway in Gallatin County. The State estimated that 440 homes were impacted by the event, of which 176 were destroyed or suffered major damage. Eight people in Harrisburg lost their lives as a result of the tornado, making this the deadliest Illinois disaster in nearly a decade.

Subsequent to the determination that the event did not exceed the capabilities of the State of Illinois, FEMA Region V deployed two specialists to provide technical assistance in support of State efforts to identify and coordinate recovery assistance around the needs and goals of the impacted communities.

Strategy:

On March 25, 2012 the Governor's office held a meeting with twenty-three State agencies to outline the intent of leadership and begin coordinating state recovery support. Three Recovery Support Functions (RSFs) were outlined according to the goals of the state and the impacted communities, and leadership was assigned.



State RSFs and assigned State agency leads:

- Individual Recovery – Illinois Emergency Management Agency
- Economic Recovery – Illinois Department of Commerce and Economic Opportunity
- Community Recovery – Illinois Department of Commerce and Economic Opportunity

Over the ensuing week, RSF leads coordinated with local, State, Federal, and non-governmental partners to conduct comprehensive needs assessments in the impacted area and identify sources of non-Stafford Act assistance.

On April 2, 2012 the Governor's office issued a press release announcing $13 million in State assistance available to support recovery needs in the impacted communities. This package, made up of reprioritized existing State and Federal programs and block-grants, addressed needs in all three identified State RSFs.

Following the announcement, State agency representatives met in the affected communities to outline programmatic requirements, coordinate assistance, and support the development of a unified local recovery plan.

Key Elements and Lessons Learned:

Local needs assessments and recovery goals are critical to the identification and coordination of potential recovery support. Recovery efforts share many similarities; however, the impact of a disaster on a community is ultimately complex and unique. By conducting holistic community recovery assessments and engaging with the public, recovery leadership will be better equipped to set appropriate recovery goals, establish structures, and inform outside partners of needs. The State can support this effort by offering/providing technical expertise from state agencies, or helping to coordinate mutual aid support from experienced jurisdictions outside of the impacted area.

Senior leadership must clearly state recovery goals and priorities. Since support available to impacted communities following non-Stafford Act events is primarily accomplished through re-prioritizing existing funds, programs, and personnel, senior elected leadership must make clear the intent to redirect these funds to support impacted communities to agency level decision makers at the outset.

An understanding of how currently available programs can support the recovery of impacted communities is essential following non-Stafford Act events. Many of the resources available to support the recovery of impacted jurisdictions following non-Stafford Act events are available through existing programs. Understanding how block-grants and other programs/resources may apply to the recovery of affected citizens and the community is essential when considering potential resources.

A scalable, flexible, and adaptable support structure is crucial. Location-based, or in person, support from State and Federal recovery partners is not always warranted. Coordination requirements for current and potential support should be considered to ensure that the structures established are appropriately scaled.

Supporting recovery requires more than programmatic resources. Technical assistance is often key to successfully supporting recovery operations. The establishment of State subject-matter expert strike teams to support local assessments, planning, and resource identification should be considered as a best-practice.

Coordinating Partners:

Federal

Leadership

United States Department of Homeland Security - Federal Emergency Management Agency (FEMA)

Coordinating Agencies

United States Department of Agriculture – Rural Development
United States Department of Agriculture – Food and Nutrition Services
United States Department of Health and Human Services

Governor Quinn Announces Up to $13 Million in New Relief for Southern Illinois Communities

Governor Secures State, Federal Resources to Help Southern Illinois Families, Businesses, and Local Governments Recover from Tornado

HARRISBURG – April 2, 2012. At the direction of Governor Pat Quinn, the heads of a number of state agencies today announced in Harrisburg up to $13 million of financial aid and construction projects to help families, businesses and local governments recover from the deadly tornado that ravaged several Southern Illinois communities on Feb. 29. The package put together at the Governor's instruction includes reimbursements to local governments for some of their disaster-related expenses, road improvements, grants to help homeowners repair or rebuild damaged homes, and low-interest business loans to create jobs and help businesses recover.

"This assistance package offers real solutions for the long-term recovery effort in Harrisburg and other communities," Governor Quinn said. "Recovery from this tornado won't happen overnight, but these resources will help residents and businesses of hard hit areas in Southern Illinois begin to rebuild their lives."

Following FEMA's denial of assistance for people affected by the tornado on March 10 and denial of an appeal on March 21, Governor Quinn moved quickly to secure support for people and businesses through the U.S. Small Business Administration (SBA). That request was approved the following day, and the SBA began meeting with people interested in the low-interest, long-term loans on March 23.

"In the weeks since the severe storms and tornadoes hit Southern Illinois in February and early March, I have met with representatives from federal, state, and local emergency management agencies to discuss the ongoing recovery efforts in Harrisburg, Ridgway and surrounding areas," said U.S. Senator Dick Durbin (D-IL). "I will continue to work with Governor Quinn and the Illinois Congressional Delegation to seek further opportunities for federal assistance to help these communities rebuild."

In addition to the SBA loans, the state's multi-agency relief package includes:

- **Assistance from Illinois Department of Commerce and Economic Opportunity (DCEO)** – Up to $5 million from the Community Development Assistance Program (CDAP) will pay for public infrastructure improvements, housing rehabilitation and reconstruction efforts. In partnership with Ameren Illinois, another $1 million from the Energy Efficiency Trust will fund energy efficiency incentives through Ameren's Act on Energy program to benefit customers affected by the disaster. Additionally, DCEO will make as much as $750,000 in Workforce Investment Act grants available to cover wages for dislocated workers to participate in disaster

OFFICE OF GOVERNOR PAT QUINN **NEWS**

cleanup and structured work-based learning.

- **Assistance from Illinois Finance Authority (IFA)** - Up to $2 million in U.S. Department of Agriculture-Rural Development (USDA-RD) business loans will be available through IFA under a relending in Gallatin, Saline and Williamson counties. Loans from a minimum of $50,000 up to a maximum of $250,000 may be used for the purchase of land, construction or renovation of an industrial or commercial building or purchase of machinery and equipment. The IFA will partner with local banks to market the program to local businesses hurt by the recent storms and tornadoes.

- **Assistance from Illinois Department of Transportation (IDOT)** – Twenty-one municipal road improvements in Harrisburg will be completed at an estimated cost of $1.58 million.

- **Assistance from Illinois Emergency Management Agency (IEMA)** – Reimbursements up to $1.5 million to affected local governments for some of their disaster-related expenses will be made through the state's Disaster Response and Recovery Fund, which supports emergency response and recovery efforts.

- **Assistance from Illinois Housing Development Authority (IHDA)** – IHDA will commit up to $1 million in federal HOME Funds using the Single Family Owner Occupied Rehabilitation (SFOOR) Program. Up to $40,000 per household in forgivable non-payment loans will be made available to homeowners in affected areas. The funds can be used to build or renovate destroyed or damaged homes.

- **Delta Regional Authority** – Governor Quinn secured $400,000 in federal funding to reimburse local governments for expenses related to debris removal.

"Ameren Illinois is delighted to partner with the Illinois Department of Commerce and Economic Opportunity to help make recovery a little easier for residents of the Harrisburg and Ridgway areas," said Michael Moehn, Ameren Illinois senior vice president of customer operations. "Through our ActOnEnergy® program and the Warm Neighbors Cool Friends Home Repair Program, residents will be able to receive the financial assistance they need to meet the highest energy efficiency standards as they repair and rebuild. This will allow them to save money today and in the years to come."

Governor Quinn has directed his staff to continue to work with local, federal and non-governmental agencies to secure additional support for families in the affected areas.

This assistance package is in addition to nearly $1.4 million of in-kind state assistance already provided to the affected region. Shortly after the tornado stuck, Governor Quinn surveyed the damaged area and activated the State Emergency Operations Center to coordinate the deployment of state resources and personnel in support of local response and recovery efforts. The state's response included large deployments from IDOT, the Illinois Department of Corrections and the Illinois State Police, as well as assistance from several other state agencies and mutual aid organizations.

"The state of Illinois has been a trusted partner with us since the day the tornado struck," said Harrisburg Mayor Eric Gregg. "Recovery after a disaster of this magnitude isn't easy. This state assistance package will give our recovery efforts a significant boost. I appreciate Governor Quinn's continued commitment to helping our communities recover."

OFFICE OF GOVERNOR PAT QUINN **NEWS**

Governor Quinn directed state officials to start developing the state assistance package immediately after the state's request for FEMA assistance for individuals and subsequent appeal were denied. The administration has been exploring all possible opportunities to deliver relief and assistance to Southern Illinois' impacted communities.

Additional information about the state's response efforts is available at www.Ready.Illinois.gov.

NEWS RELEASE

Response Efforts Increased to Distribute Water Resources to Flint Residents
Thousands of water resources have been distributed due to collaborative effort

FOR IMMEDIATE RELEASE
January 15, 2016
Release # 5

For more information contact:
Joint Information Center
888-EMD-TODAY (888-363-8632)

LANSING, Mich. – Beginning on Saturday, January 16, water distribution efforts will expand with more than 20 water response teams going door to door to distribute safe water resources to the homes of Flint residents. These teams will consist of state personnel and American Red Cross volunteers, including approximately 250 State of Michigan employees and their family members who will volunteer Saturday through Monday.

Since January 12, the water resource teams have provided nearly 7,500 Flint homes with bottled water, filters, replacement cartridges and water testing kits.

All members of the water response teams will be wearing official credentialed badges with a State of Michigan seal hologram so they can be easily identified.

"With more teams going door to door, we are confident we will double our efforts to ensure residents receive these much needed resources as soon as possible," said Capt. Chris Kelenske, Deputy State Director of Emergency Management and Homeland Security and commander of the Michigan State Police Emergency Management and Homeland Security Division.

Since January 9, the following resources have been distributed to residents, both at the water resource sites and by the water response teams:

- More than 18,500 cases of water
- Nearly 46,000 filters
- More than 3,200 water testing kits

In addition to donated supplies, the State of Michigan has purchased the following resources, since January 5, which will continue to be delivered to Flint over the coming days:

- Nearly 45,000 cases of water
- Nearly 79,000 filters
- Nearly 19,000 water testing kits

MORE

Flint residents can continue to visit the water resource sites to receive free bottled water, filters, replacement cartridges and water testing kits. The sites are open daily from 9 a.m. to 9 p.m. and are located at:

Fire Station #1
310 East 5th St.
Flint, MI 48502

Fire Station #3
1525 Martin Luther King Ave.
Flint, MI 48503

Fire Station #5
3402 Western Road
Flint, MI 48506

Fire Station #6
716 West Pierson Road
Flint, MI 48505

Fire Station #8
202 East Atherton Road
Flint, MI 48507

The state of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County and local community organizations.

Additional information is available at www.michigan.gov/flintwater or by calling 211.

State Using Technology to Identify Lead Pipes and Track Water Resource Distribution in Flint

Flint, Mich. – In an effort to help identify the location of lead pipes and other components of Flint's water infrastructure, GIS experts from the City of Flint, State of Michigan, the University of Michigan – Flint, and FEMA have translated hundreds of hand-drawn plat maps from the 1980s and hand-written notes on thousands of cards about updates to home plumbing systems into digitized maps. These maps are helping with the response and determine where safe water is needed.

"Mapping infrastructure to this depth of detail is highly unusual," said Capt. Chris A. Kelenske, deputy state director of emergency management and homeland security and commander of the Michigan State Police, Emergency Management and Homeland Security Division. "Since most of the water system infrastructure is underground, we can't just walk out and survey it, so GIS mapping is a critical component of the state's coordinated response."

Once the maps are in digital format, they are synched with 2015 parcel data. The maps can then be overlaid with Census information and infrastructure information, allowing analysts to pinpoint which homes have lead service lines.

"The state is making progress in organizing, cataloging, and converting water service line information from paper to searchable databases and digitized maps," said Scott Bailey, a GIS data analyst with FEMA helping with the mapping project. "This is going to be a success story because prior to this event, this type of information was not available in a GIS environment."

The GIS systems have already assisted response teams as they go door to door to deliver water supplies to residents. Each team is armed with an iPad that feeds information into the GIS system. The online application uploads home data in real time, noting whether there are children in the household and which ones have been provided with bottled water, a water test kit, a water filter and replacement cartridges. The information has also helped identify the number of inhabited homes in a city affected by blight. Old data may show a street full of residents, when some houses are actually vacant.

For more information the GIS project, contact James Tchorzynski, at 517-230-5568. Additional information is available at www.michigan.gov/flintwater, by calling 211 or 844-875-9211, or visiting www.helpforflint.com

FLUORIDE, BOTTLED WATER, AND ORAL HEALTH
FREQUENTLY ASKED QUESTIONS

What is fluoride?

The mineral fluoride occurs naturally on earth and is released from rocks into the soil, water, and air. All water contains some fluoride.

Fluoride has been proven to protect teeth from decay. Fluoride helps to rebuild and strengthen the tooth's surface, or enamel.

Water fluoridation prevents tooth decay by providing frequent and consistent contact with low levels of fluoride. By keeping the tooth strong and solid, fluoride stops cavities from forming and can even rebuild the tooth's surface.

Does bottled water contain fluoride?

Bottled water products may contain fluoride, depending on the source of the water. Fluoride can be naturally present in the original source of the water, and many public water systems add fluoride to their water.

The U.S. Food and Drug Administration (FDA) regulates fluoride in bottled water and sets limits, based on several factors, including the source of the water.

Bottled water products labeled as de-ionized, purified, demineralized, or distilled have been treated in such a way that they contain no, or only trace amounts, of fluoride, unless they specifically list fluoride as an added ingredient.

Is the amount of fluoride in bottled water always listed on the label?

The FDA does not require bottled water manufacturers to list the amount of fluoride on the label, unless the manufacturer has added fluoride within set limits. Labels have to specifically list fluoride as an added ingredient, if it is added.

If the amount of fluoride is not on the bottle's label, contact the bottled water's manufacturer to ask about the fluoride content of a particular brand.

Can I use bottled water for mixing infant formula?

Yes, you can use bottled water to mix powdered or liquid concentrate infant formulas, but the fluoride content in bottled water varies.

Some water companies make bottled waters for infants and for the purpose of mixing with formula. When water is labeled as intended for infants, the water must meet tap water standards established by the U.S. Environmental Protection Agency and indicate that the water is not sterile.

What other fluoride products are available?

For all of the products below, talk to your pediatrician or dentist about what options are best for your child.

Fluoride Varnish

Fluoride varnish is painted by a dental or medical professional directly onto the teeth. Varnishes must be reapplied at regular intervals with at least 2 applications per year. Fluoride varnish applications are recommended on all children 0-5 years old beginning when the first tooth grows in. Fluoride varnish is recommended every 3-6 months depending on the cavity risk of the child.

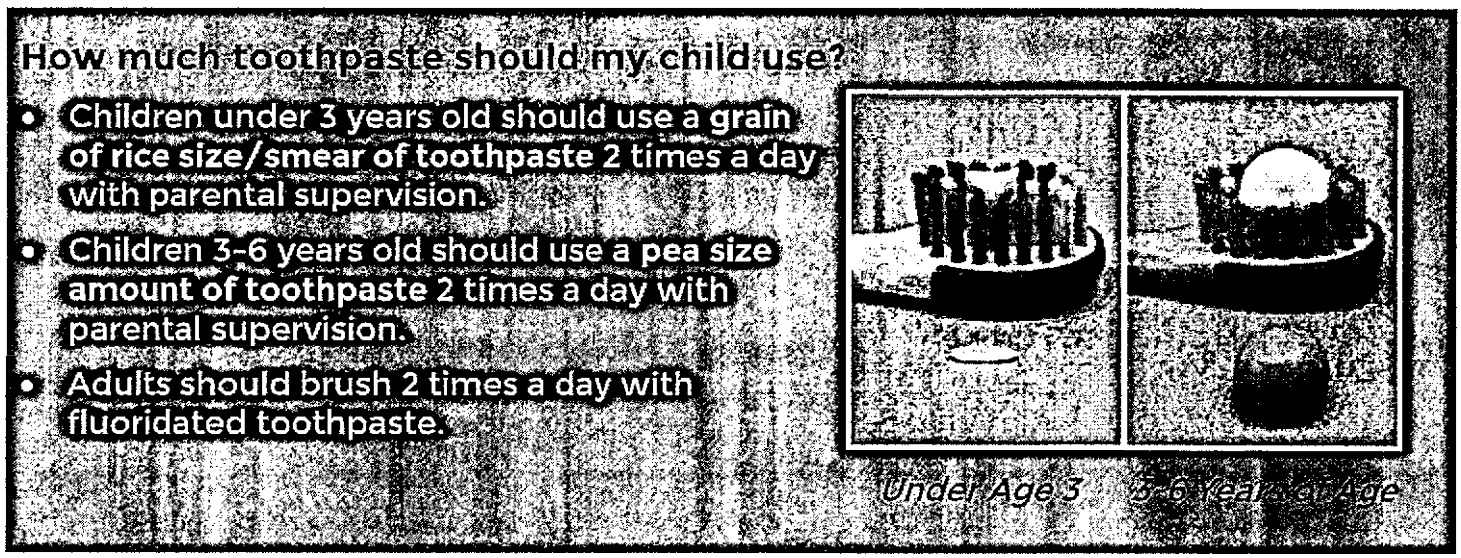
Fluoride Mouth Rinse

Children younger than 6 years of age should not use fluoride mouth rinse without consultation with a dentist or other health care provider because dental fluorosis could occur if such mouth rinses are repeatedly swallowed.

Fluoride mouth rinse is a concentrated solution intended for daily or weekly use. Over the counter fluoride mouth rinses or prescription fluoride supplements may be recommended for high risk children.

Fluoride Toothpaste

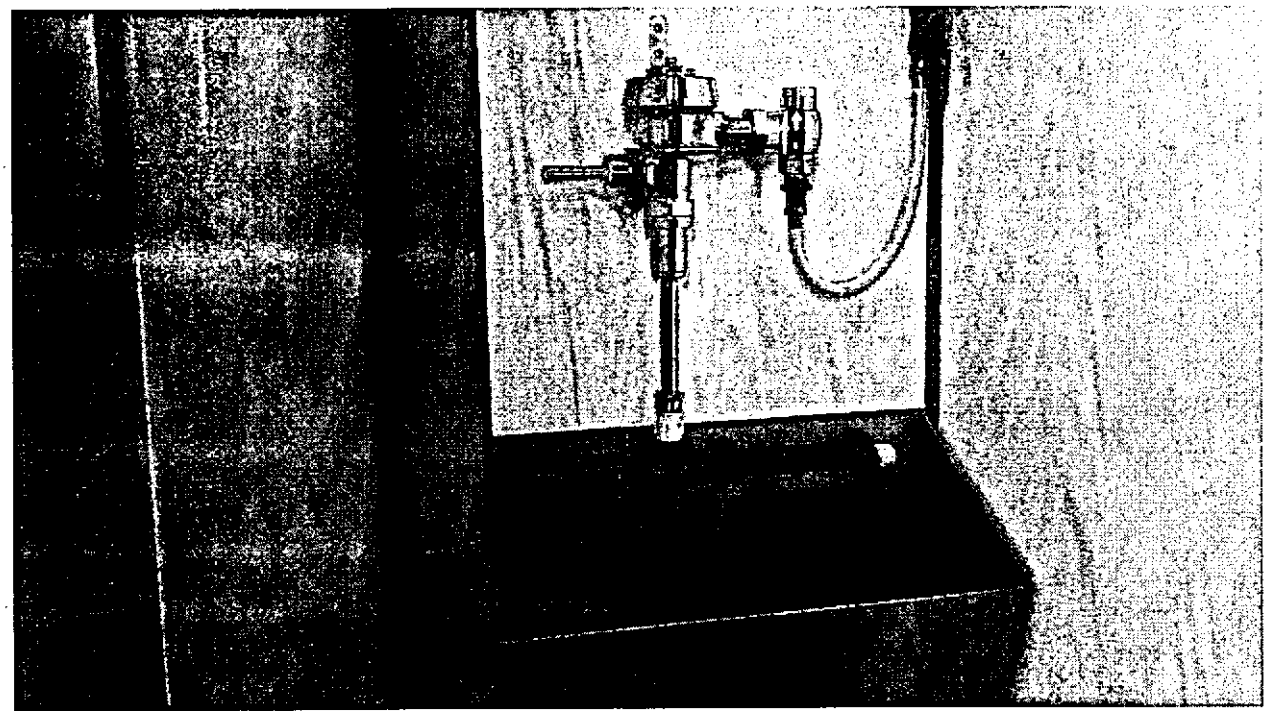
Fluoride toothpaste is available over-the-counter and makes up more than 95 percent of toothpaste sales in the United States.

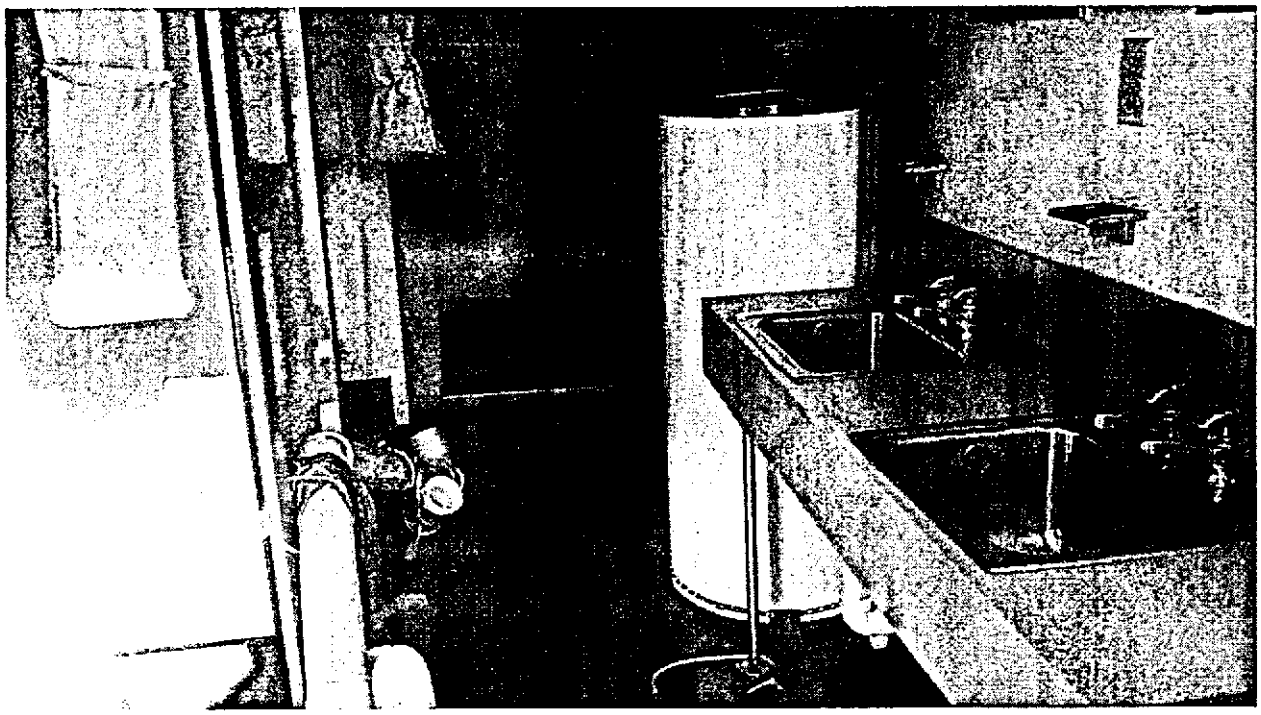


Where can I go for more information?

Visit the Centers for Disease Control and Prevention Fluoride website at www.cdc.gov/fluoridation.

For information about free water filters or bottled water, visit www.michigan.gov/flintwater or call United Way 211.





OGCS/MSP WRT Volunteer Assembly Information V2.0_011816

1. Volunteer check in at 8:30am at 1101 Beach Street, Flint, MI 48502 (Genesee County Administration Building).
2. Volunteers are able to park at the overflow lot of First Trinity Missionary Baptist Church located at 1226 Beach Street Flint, MI 48502. This lot is located directly to the east of the church. The parking structure to the east of 1101 Beach Street can also be used for parking. Parking tickets will be validated. Access to the parking structure can be gained on Eighth Street just east of Beach Street. Access to the building can be gained from the southeast and southwest doors on each side of the building. Upon entering the building proceed to the basement for sign in.
3. Assignments and briefing will follow between 8:30am and 9:15am. Efforts will be made to keep groups together if requested. Volunteers should inform their team leaders of any medical, security or other needs.
4. Teams will deploy to assigned areas. Volunteers should be able to walk long distances with difficult terrain. Transportation will be provided to and from the assignment location.
5. Teams will return to 1101 Beach Street for lunch from 12:30pm-1:00pm. Lunch will be provided.
6. Teams will redeploy to the field with afternoon assignments.
7. Shifts will end between 4:30pm and 5:00pm with a return to 1101 Beach Street. All items assigned to volunteers must be returned to their team leader at the end of the day. This includes high visibility vest, tablets/IPADS, stylus, lanyards, carrying bags and paperwork.
8. Appropriate clothing should be worn for the projected weather of the day. Boots, hats and gloves are strongly encouraged.

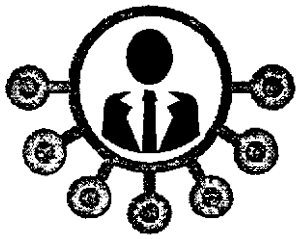
knowledge services

Organizations must continuously evolve to meet their dynamic challenges and complex needs. As a single source, a Managed Service Provider (MSP) can effectively and efficiently manage an organization's temporary workforce. MSP programs minimize risk, provide increased governance and controls, reduce turnover, offer quality candidates, increase process efficiencies, provide reporting and deliver cost savings. A successful MSP delivers:

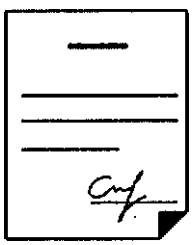


VENDOR MANAGEMENT

- Conduct conference calls and vendor forums with training sessions to facilitate recruitment process
- Recruit, identify and assess prospective vendors
- Ensure vendors are in compliance with parameters of contracts

PROCESS MANAGEMENT

- Provide a single point of contact for clients
- Facilitate interview scheduling, on-boarding and off-boarding activities and urgent issues to automate the management of the temporary labor supply chain
- Recommend solutions to any issues raised by clients, as well as review processes on an ongoing basis to identify proactive ways to improve efficiencies

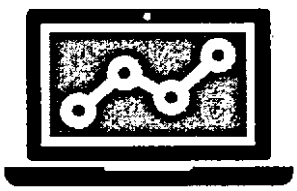


ACCOUNT/CONTRACT MANAGEMENT

- Delivers the tools for temporary labor cost management
- Consolidates billing for all temporary labor and outsourced contractors
- Ensure contractual scope of work is delivered (according to performance metrics/SLAs)

COMPLIANCE/GOVERNANCE

- Validate full range of Federal and State regulation drive compliance requirements
- Confirm vendors are paying all required State and Federal taxes (unemployment, etc.), as well as meeting minimum State insurance requirements (e.g. Worker's Comp)



ADMINISTRATION/REPORTING

- Ensure contractual scope of work is delivered (according to performance metrics/SLAs
- Deliver training to clients, vendors and resources
- Provide standard ad hoc and quarterly reporting to clients/vendors
- Enhance workforce decision support through data analytics and reporting

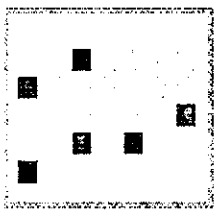
Partnering with an MSP allows organizations to make strategic decisions that significantly impact their bottom line.

SOLUTION:

To meet this challenge, solutions must operate across enterprises, lines of responsibilities and technologies and must serve both a broad range of needs and business interests. Knowledge Services' proven government solution includes:

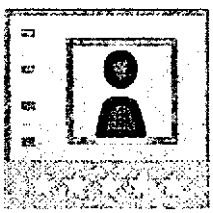
ELECTRONIC FORMS AND RECORDS

- Reduces inefficiencies, paper consumption, and storage and mailing costs
- Capable of both "connected" and "disconnected" creation and completion
- Includes secure cloud storage



INTERACTIVE CALENDARING & SCHEDULING

- Web-enabled and mobile accessible calendaring and scheduling portal
- Security-driven appointment/assignment calendar visibility and request portal
- Automated notifications for event confirmation, delays and/or rescheduling
- "Panic"/emergency notification systems
- Customizable group communications

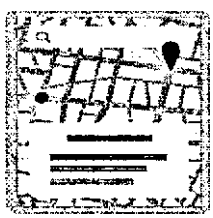


EXPERIENCE RATING SYSTEMS

- Empowers parents/guardians with provider/facility/healthcare worker ratings
- Identifies performance-driven training needs
- Leads to improved outcomes

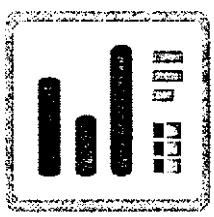
COLLABORATION PORTAL

- A secure, web-enabled communications platform providing peer-to-peer, vendor-to-professional and Agency-to-vendor communications
- Electronic records storage and retrieval, topically-driven instructions and reading recommendations, industry-relevant news and helpful community information



LOCATION VALIDATION/ASSIGNMENT DIRECTIONS

- Provides efficient destination routing
- Up-to-date traffic and congestion information
- Assignment location, date, time and duration reporting
- Provides fully validated billing activity



BUSINESS INTELLIGENCE REPORTING & PREDICTIVE ANALYTICS

- User configured management dashboard
- Results-driven trending and pattern metrics
- Actionable reporting

Joint Incident Action Plan

FEMA Disaster Number:

FEMA-4155-DR-MI

IAP Number:

6

Incident Description:

Michigan Severe Storms and Flooding

Operational Period:

10/11/2014 07:00 EDT to 10/14/2014 07:00 EDT

Address:

Joint Field Office (JFO)

28207 Van Dyke Avenue

Warren , Michigan 48093

17T LH 33359 07276

Approvals:

Jacqueline A Hampton
for Capt. Chris Kelenske
State Coordinating Officer

State Coordinating Officer

Federal Coordinating Officer

FEMA ICS FORM 202 INCIDENT OBJECTIVES	1. FEMA Disaster Number: FEMA-4195-DR-MI	2. Date Prepared 10/10/2014	3. Time Prepared 1115 EDT

4. Operational Period: **Date/Time From:** 10/11/2014 07:00 EDT
Date/Time To: 10/14/2014 07:00 EDT

5. General objectives for the Incident.

Objective Number	Description
1	Ensure the health, safety, and security of assigned staff.
2a	Employ Disaster Survivor Assistance (DSA) Teams to support applicant registration and services in designated counties and associated municipalities.
10	Schedule PA kick-off meetings and begin to conduct meetings.
5 a	Provide pertinent public information through External Affairs, DRCs, DSAs, and Recovery Support Sites to disaster survivors, congressional offices, and external stakeholders at sites.
6	Assist the State in determining mitigation priorities and activities for inclusion in finalized mitigation strategy.
7	Communicate public assistance strategy and sequence of delivery to impacted communities.
8	Enhance Situational Awareness via GIS analysis and products.
11	Review all projects for PA 406 Hazard Mitigation opportunities.
12 a	Provide individual and household long term recovery (unmet needs) support to the whole community partners and to include the South East Michigan Long Term Recovery Group.

6. Weather Forecast for Period (Only if significant to Operations)

Tri-County Forecast:

Saturday: Cooler temperatures on Saturday evening (10/11). Possible frost Saturday night in Oakland and Macomb Counties.

Sunday-Monday: 30-40% chance of rain Sunday evening (10/12) through Monday (10/13).

7. General/Safety Message

As a reminder this is the beginning of flu season. Use of all precautions possible is encouraged on 4195-DR. Safety suggests washing your hands thoroughly:

1. After coughing or sneezing
2. After using the bathroom
3. Before and after eating or cooking
4. Before and after treating wounds
5. Before and after handling shared equipment or utensils.

Staff accountability is due to the Chief of Staff by 8:30 AM EDT and 8:00 PM EDT, with the exception of Sunday, which is a non-working day.

Media Advisory

January 28, 2016

PHOTO/VIDEO OPPORTUNITY TODAY

NEW TIME

Lt. Gov. Brian Calley to participate
Community Coalition kicks off water bottle recycling program

Who: Lt. Gov. Brian Calley will join a coalition of public-private partners including the State of Michigan, City of Flint, Genesee County, Schupan Recycling, Republic Services, Young's Environmental Cleanup, Keep Genesee County Beautiful and UM-Flint

Speakers include:

- Lt. Governor Brian Calley
- Matt Flechter, Recycling Market Development Specialist, State of Michigan
- Heather Griffin, Waste Services Coordinator, City of Flint
- Shane Kelley, Planner, Genesee County Metropolitan Planning Commission

What: Will host a media event to announce Flint's coordinated recycling program in place for empty water bottles and used water filter cartridges

When: Thursday, January 28, 2016
NOON

Where: Fire Station #1
310 E. 5th St., Flint

- The press conference will take place behind the fire station near the water distribution station

Details: Public and private partners will detail the collaborative short- and long-term recycling efforts for water bottles and filter cartridges.

###

NOTE: ALL MEDIA INQUIRIES ARE BEING HANDLED BY THE JOINT INFORMATION CENTER AT 888-EMD-TODAY (888-363-8632).

Schupan recycling
Problem solved.

Recycle.

Do The Right Thing!®

In just three easy steps, you can help keep Flint green by recycling your used water bottles!

Fire Station 1:
310 E 5th St
Flint, MI 48502

Fire Station 5:
3402 Western Rd
Flint, MI 48506

Fire Station 8:
202 E Atherton Rd
Flint, MI 48507

Comcast Service Center
3008 Airpark Dr S
Flint, MI 48507
Monday to Friday, 10AM - 5PM
Saturday, 10AM - 1 PM

HOW TO RECYCLE

1. When you receive your case of water, you will receive a recyclable bag.
2. Fill the bag with your empty water bottles (cap on).
3. Return the bag at one of the listed locations.

CITY OF FLINT

Dr. Karen W. Weaver
Mayor

Natasha L. Henderson
City Administrator

Thursday, February 04, 2016

To whom it may concern:

On December 14, 2015, I declared a State of Emergency in the City of Flint regarding the lead contamination of the City's water as a result of antiquated and failing infrastructure. Following that, on January 4, 2016, the City submitted an ***Incident Action Plan*** to Genesee County for the consideration of the Board of Commissioners. The State of Michigan elevated the emergency the following day. This plan detailed immediate response and long term solution efforts that will be needed to resolve the water crisis. This plan names several distribution sites that are not listed in this document. Most notably the Brennan Center, Hasselbring Community Center, and the Berston Field House. Each of these sites are currently running an efficient operation distributing water and they have been resupplied weekly by various contributors. It would be an easy process to transition them into full time Distribution Centers as the City has already helped to allocate Red Cross volunteers at some of them. I am hoping you will consider adding them to the plans being drafted by the State of Michigan and its partners in the community. As Mayor and Chief Executive of the City of Flint, I urge governments and other organizations participating in emergency relief and recovery planning to strongly consider the use of these sites in place of Fire Station #1, Fire Station #5, and Fire Station #6 as long term recovery sites.

Additionally, City Hall has been distributing filters and testing kits since October and is currently staffed with volunteers trained to use the ESRI software in order to track distribution efforts. City Hall should also be considered as a Water Resource Center during its hours of operation. Lastly, it is important that the City be included in conversations regarding distribution, relief, and recovery efforts so that all partners can cooperate in concert to achieve a sustainable and successful outcome to this emergency. I assure you that you can count on my cooperation in the effort to bring relief and solutions to the people of Flint. I commend the work that everyone has contributed so far and hope that our cooperative spirit continues to bring a brighter future to Flint.

Regards,

Karen Weaver

FLINT WATER
RESPONSE TEAM
www.michigan.gov/flintwater

LEAD IN FLINT WATER

GENERAL INFORMATION

- The amount of lead found in some Flint homes' drinking water could affect kids' health.
  - Even small amounts of lead can harm kids' health because they are still growing.
  - Adults are less likely to be harmed by the levels found in the water.
- Filter your drinking water using a National Sanitation Foundation (NSF)-approved filter.
  - You can receive a free a NSF-approved filter if you use City of Flint water.
  - Call 2-1-1 to find out where you can pick up a free water filter.
- Some filters can remove up to 99 percent of the lead in water when used properly. To be sure your filter is removing as much lead as it can, carefully follow the instructions that came with it.
  - Run only cold water through the filter.
  - Change the filter cartridge as often as the instructions say.
- Even after changes to the water system, it may take a while before lead levels in your home's water drop.
- Lead is hard to avoid completely. It can be found in water pipes and brass water faucets, old paint, in dirt, at some job sites, and in metal used for some hobbies.

There are a number of steps you can take to keep yourself and your family healthy. Use the tips below to learn more about how to stay healthy:

LEAD IN WATER

Although your water may be a different color sometimes, it is not caused by lead. It's important to remember:

- You can't see, smell, or taste lead in water.
- Lead won't change the color of your water.
- The only way to know what your home's lead levels are is by having your water tested.

LEAD IN BLOOD

- If your children live in Flint or go to school or childcare in the City of Flint, their blood-lead level should be tested.
- You should contact your doctor about testing.
- Testing is available for free at the Genesee County Health Department. Call 2-1-1 if you need help getting there.
- If you are pregnant or nursing, and you have tested negative for high blood-lead levels, it is safe to breastfeed.
- If you are pregnant or nursing and have tested positive for high blood-lead levels, talk to your doctor about the safety of breastfeeding.

TIPS TO KEEP YOUR HOME SAFE FROM LEAD

WATER FILTERS

- Get your water tested. It's free. Call 2-1-1.
- Use a water filter. Call 2-1-1 for a free filter.
- If you do not have a water filter, use bottled water for drinking and mixing formula.
- Use cold, filtered water for cooking.
- Wash fruits and vegetables with filtered water.
- If you must use unfiltered water, run the water for at least five minutes before you use it. To save time and water in the future, it's a good idea to fill up as many containers as you can once you've run your water for five minutes.

CLEANING

- Wash dishes, bottles and toys with unfiltered soapy water and dry before use.
- It is safe to use unfiltered tap water to mop floors and wipe down countertops.
- It is safe to wash clothes in your washer and dryer.
- Use door mats. Take your shoes off when indoors.
- Vacuuming carpets may pull more lead dust to the surface. Use a non-motorized sweeper to clean carpets.
- Clean windowsills and play areas often with paper towels and soapy water.

TIPS TO KEEP YOUR HOME SAFE FROM LEAD

IN THE BATHROOM

- Use filtered tap water to brush your kids' teeth.
- Adults can use unfiltered tap water to brush their teeth.
- You can use unfiltered tap water to shower or bathe, but don't let kids drink the water when they play in the tub.
- Studies done by the Centers for Disease Control and Prevention show that parents can continue bathing their children in the tub but bath time should be used for bathing only, rather than allowing children to play in the water for a long time.
- Lead will not cause rashes or other skin problems. However, if levels of chlorine or other cleaners are high in the water, it may cause itchy or dry skin (similar to what can happen when you swim in a pool).

CARING FOR PETS

- Use filtered tap water for your family pets' water bowls.
- You can use unfiltered tap water to bathe your pets.
- If you notice your pet acting differently than normal, contact your vet.

HEALTHY DIET

- Eat foods high in iron, calcium and vitamin C.
- Wash hands with soap and warm water before eating.
- If you need fresh and healthy food, call the WIC office at 810-237-4537, or for SNAP food assistance apply at www.michigan.gov/mibridges or visit your local Michigan Department of Health and Human Services office.

GOOD SOURCES OF IRON INCLUDE:

- Lean red meats, fish, and chicken
- Cereals with added iron
- Dried fruits (raisins, prunes)

GOOD SOURCES OF CALCIUM INCLUDE:

- Milk
- Yogurt
- Cheese
- Green leafy vegetables (spinach, kale, collard greens)

GOOD SOURCES OF VITAMIN C INCLUDE:

- Oranges, orange juice
- Grapefruit, grapefruit juice
- Tomatoes, tomato juice
- Green peppers

LEAD INFO

The Flint water response team is focused on the lead in water crisis. In additon to water, scientists have long been concerned about all sources of lead including lead paint, dust, soil, etc.

LEAD PAINT

- Homes built before 1978 likely have lead paint, both inside and outside.
- Old paint is the most common way that kids are exposed to lead.

DIRT

- If you live in the city, there may be lead in the dirt outside your home.
- Before 1996, gas and the exhaust from cars contained lead. More lead will be found in dirt in busy traffic areas.

DUST

- The dust in your home can have tiny amounts of lead from paint and dirt.

HOBBIES AND JOBS

- Solder, fishing sinkers, bullets, and stained glass framing materials are some items that may contain lead. You could also track home lead dust from your job site.

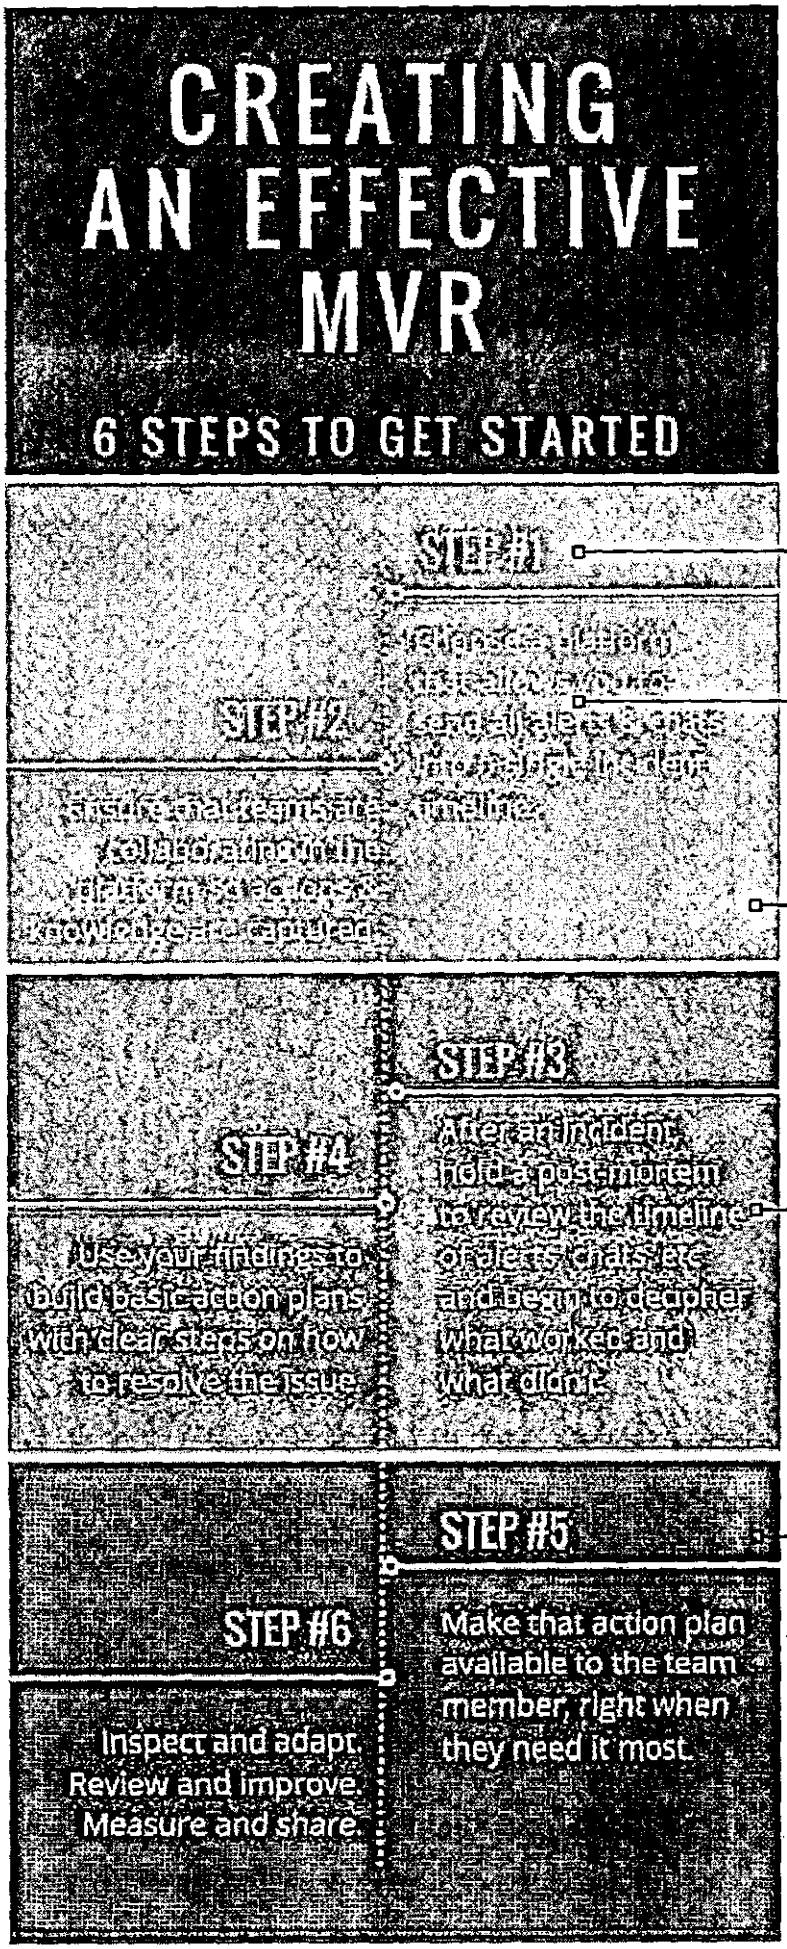
HAVE QUESTIONS?

- For more information about protecting yourself and your family from lead, visit www.michigan.gov/flintwater.
- To find out where you can get a free water filter, call 2-1-1.
- For a free water test, call 2-1-1.
- For more information about lead in your home and what you can do, call the Michigan Department of Health and Human Services at 1-800-648-6942.

1

RESPONDING TO INDIVIDUAL TEST LEVEL RESULTS

A guide that shows you what to do for a specific level / band of lead levels based on a person's test result.



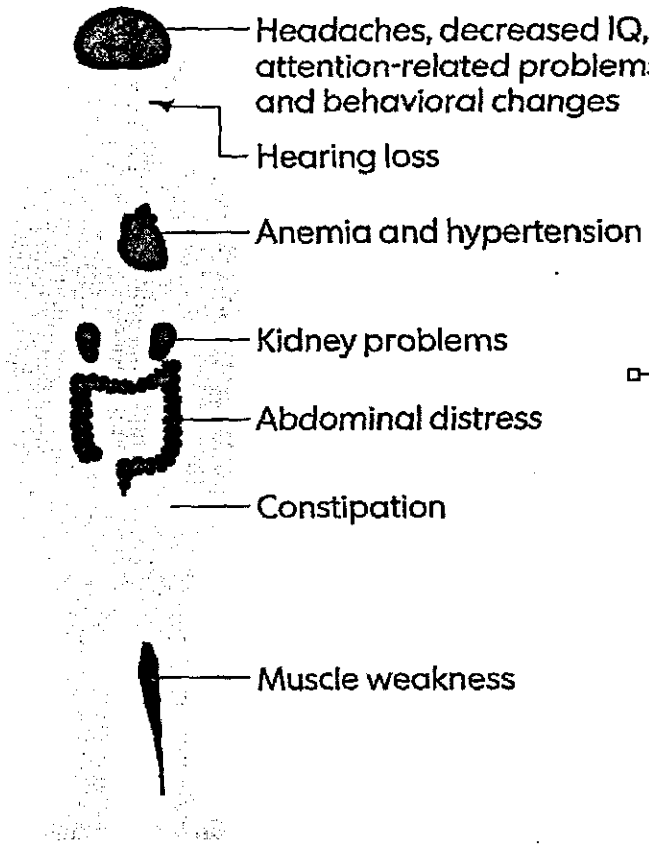
Correspond to a level of lead

Describe action to take based on lead level.

Color coding to correspond to different bands - perhaps low, medium, High levels of lead?

EFFECTS OF LEAD ON CHILDREN

People ingest low levels of lead daily. Adults absorb relatively small amounts compared to that of children. Some of the health effects associated with lead exposure in children:



SOURCES: National Institutes of Health, Mayo Clinic
Front Rumps, USA TODAY

USA TODAY

Could the dept send out information that helps residents better understand the effects of lead & symptoms to look for?

2

RESPONDING TO HOUSE TEST LEVELS.

A guide that shows you what to do for a specific level / band of lead levels based on testing water in a house.

This a mock-up based on the letter contacting a resident about lead levels in the house.

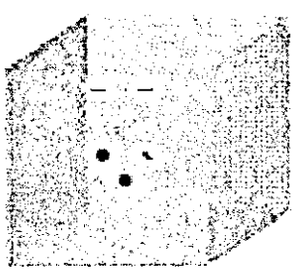
WATER QUALITY AT YOUR HOUSE

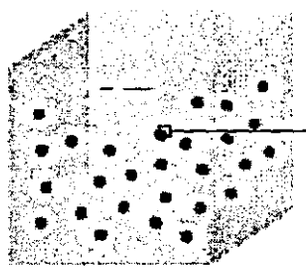
TEST RESULTS

TITLE + General description helping people understand what lead is. What it does to your body, etc.

LOW	MEDIUM	HIGH

(in parts per billion):





0-X	X - Y	150 +
		YOUR HOUSE

Some type of illustration to show scale.

Thi is an example taken from a USA today graphic. Does a nice job of simply illustarting the idea of lead in the water.

WHAT DO I DO?

Description of what action to take. Description of what action to take. Description of what action to take. Description of what action to take. Description of what action to take. Description of what action to take. Description of what action to take. Description of what action to take.

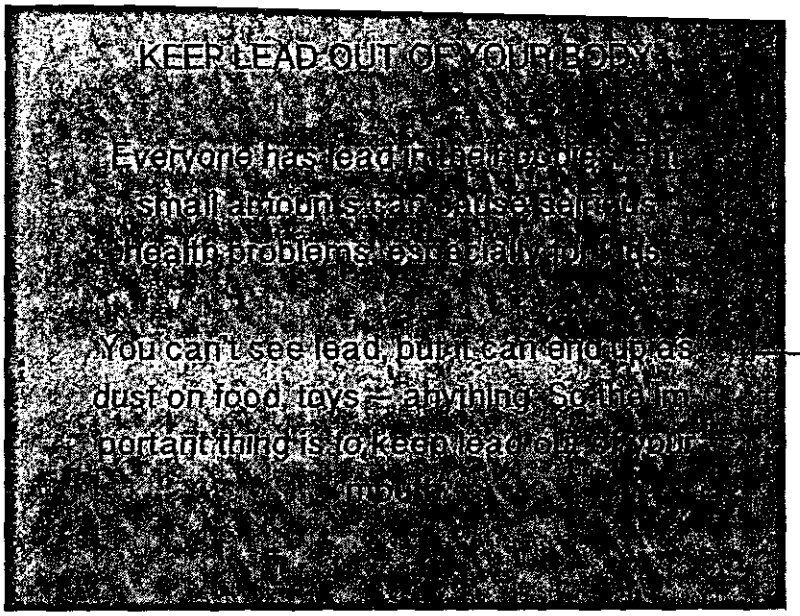
3

TO PROVIDE GENERAL GUIDANCE

A document for general guidance for best practices, no matter what the lead level.

Just to give an idea, adapting some of the content from the letter sample.

The following page just illustrates a rough layout – would encourage use of icons or images to help emphasize the content and make it more approachable.



TITLE + General description helping people understand what lead is. What it does to your body, etc.

WASH YOUR HANDS.
A LOT.

Frequesnt handwashing is the simplest way to reduce lead exposure.

EAT NUTRITIOUS FOOD.

A full stomach helps prevent the absorption of lead. Wash fruits and veggies before eating them. (TIP: opt for fruits that don't require swashing.)

KEEP HANDS, TOYS, AND ANYTHING ELSE OUT OF MOUTHS

You can't see lead, but it can enter your child's body thorugh lead dust on toys, hands, food.

IF YOU NEED MORE INFORMATION, CALL US.

[contact infor for health dept]

Calling out the different steps to take.

Could make more visual, with icons. A good resource for some free icons is thenounproject.com.

Kathleen Fultz, Regulatory and Government Affairs Coordinator

Lead in Drinking Water - Frequently Asked Questions

WQA proudly serves as an educator of water treatment professionals, certifier of water treatment product, public information resources and voice of the water quality improvement industry. This document addresses frequently asked questions about lead in drinking water, developed by staff at WQA.

1. **Where can I find the latest updates on the drinking water crisis in Flint, Michigan?**
   The EPA has established the Flint Safe Drinking Water Task Force to provide the latest news to Flint residents. Below is the link to the taskforce website and to the Flint, Michigan website:
   http://www.epa.gov/flint
   http://mi.gov/flintwater

2. **How can lead get into the water supply?**
   Studies indicate nearly all the lead in users' tap water does not come from the primary water source or from the municipal treatment plant, but is a result of corrosion resulting from materials containing lead coming into contact with water after it leaves the treatment plant.[1] Lead can enter a home's drinking water by leaching from lead service connections, from lead solder used in copper piping, and from brass fixtures.

3. **What are potential health effects from lead?**
   Lead poisoning often shows no symptoms; however, signs such as irritability, weight loss, vomiting, constipation, or stomach pain could occur.[2] Young children and pregnant women are at the greatest risk, even from short-term exposure. Reduced cognitive development and neurobehavioral deficits are associated with blood levels less than 10 micrograms of lead per deciliter of blood (µg/dL) in children.[2] Thus, it is determined there is no safe blood lead level in children.[3] Individuals will adsorb more lead if they have poor nutrition than those with better diets. To learn more, read the information on the Centers for Disease Control's (CDC) website:
   http://www.cdc.gov/nceh/lead/acclpp/blood_lead_levels.htm

4. **Where can I go to get my water tested?**
   WQA strongly recommends water testing be conducted at each point of use following appropriate sampling procedures capturing lead levels after a period of disuse before a specific water treatment product is selected. Water conditions can change, test water before treatment has been installed and continue testing after installation.

   The EPA website is a resource to find EPA and state-accredited laboratories that can perform a water analysis:
   http://water.epa.gov/scitech/drinkingwater/labcert/statecertification.cfm

   All the certified laboratories in Michigan are listed on the web page below:
   http://michigan.gov/documents/deq/deq-rrd-Lab-ChemistryLabsListCertifications_429759_7.pdf

5. **How do I find a certified professional?**
   To find a water treatment professional (WQA member) in your area, please visit the link below and search by your location: http://www.wqa.org/Find-Providers

   To find certified water professionals who have completed WQA's professional certification program, please visit this link and search by your state: http://www.wqa.org/Programs-Services/Resources/Find-Providers/Find-Certified-Professionals

4151 Naperville Road
Lisle, Illinois 60532-3696 USA
Phone 630-505-0160
www.wqa.org

6. **Where do I find a product certified for lead reduction?**
American National Standards Institute (ANSI) accredited entities offering product certification include: Water Quality Association's Product Certification Program, NSF International, International Association of Plumbing and Mechanical Officials, and Underwriters Laboratory. All of these certifiers have product listings. To find WQA certified products for lead reduction and links to the manufacturer's website, consumers can visit wqa.org. Products certified through WQA's Product Certification Program have been tested and certified to the material safety requirement and contaminant reduction claim(s) as specified by the standard. Products displaying the WQA Gold Seal provide assurance that they have been rigorously tested and meet the requirements of the standard, ensuring they are actually effective for the contaminants which are covered by the marketing claims. Factory audits are performed by WQA on a regular basis to ensure there are no changes to the product which would negatively impact safety or performance. WQA is also audited yearly by ANSI to keep its accreditation. Confirmation of WQA's accreditation can be found on ANSI's website.

7. **Does a "lead-free" claim mean the product can remove lead from the water?**
No, a product is considered compliant with the "lead-free" standard, NSF/ANSI 372, if its weighted average lead content is no greater than 0.25%. This certification is to standard NSF/ANSI 372 and is not a claim that the product completely removes any trace of lead from the water.

8. **How do I maintain a filter once it is installed?**
Studies have shown the reported levels of lead found in some Flint, MI water results are higher than conditions under which the manufacturer set the replacement recommendations in published manuals.[4] Consumers should contact a water treatment professional as described above, or follow the equipment manufacturer's installation instructions and contact the manufacturer to confirm usage and capacity. To ensure the manufacturer can provide the most accurate recommendations, have test results for lead and iron on hand for review.

9. **What treatment methods can be used at the tap or whole-house?**
Lead can exist in water in a broad array of forms, therefore, more than one type of technology may be needed for adequate removal. **Soluble** (or dissolved) lead may be removed by ion exchange, reverse osmosis, adsorption, or distillation. Insoluble (or **particulate**) lead may be removed by fine filtration and adsorption as well as by reverse osmosis and distillation.

Solid block and precoat adsorption filters, using a mixture of activated carbon and a lead adsorbent, can remove particulate lead by filtration and adsorption, and soluble lead by adsorption. Contact time, type and size of activated carbon and the lead adsorbent material, flow rate per unit area, and the design of submicron filter void sizes to ensure effective filtration of the lead species are critical to the success of this treatment technology. Removal of lead by **reverse osmosis** is effective because the membrane removes the soluble lead and also acts as a barrier to particulate lead. **Strong-acid cation exchange softeners** only remove soluble lead, and will not remove particulate lead. Properly designed and operated **distillation** units are capable of reducing both forms of lead.

System performance characteristics should be verified by tests conducted under established test procedures and water analysis. Thereafter, the resulting water should be monitored periodically to verify continued performance. The application of the water treatment equipment must be controlled diligently to ensure acceptable feed water conditions and equipment capacity are not exceeded. Use certified products recommended by water treatment professionals. Visit WQA.org to locate water professionals in your area. Read more about water treatment in WQA's technical fact sheet on lead:
https://www.wqa.org/Portals/0/Technical/Technical%20Fact%20Sheets/2014_Lead.pdf

10. How do you determine if the lead in drinking water is particulate, dissolved, or a percentage of both?

It is important to establish the exact water quality parameters in each home when installing water treatment products in Flint. Some homes were found to contain high levels of lead, including particulate lead, far exceeding the conditions under which water treatment devices are tested and certified. For example, the water in LeeAnne Walter's home was found to contain up to 13,200 ppb of lead.[4] Due to the unusually high levels of lead found in Flint, including particulate lead, WQA recommends water treatment professionals in Flint test before and after installation of treatment even when installing a certified device. Field sampling kits for dissolved and total lead can be obtained through a local certified drinking water laboratory, or through the WQA laboratory.

11. What types of exposure to drinking water with lead should I be concerned about?

Lead in drinking water is mostly inorganic leached from lead contained in plumbing. Ingestion is the route of most concern for lead than dermal exposure, although organic lead is of concern for dermal exposure. Examples of organic lead would be tetraethyl lead and tetramethyl lead, not generally found in drinking water, however.

For more information please visit the links below:
http://www.atsdr.cdc.gov/csem/csem.asp?csem=7&po=6
https://www.osha.gov/pls/oshaweb/owadisp.show_document?p_table=STANDARDS&p_id=10031

12. What can cause water to have a brown color?

A brown color is not attributed to lead in the water. This can be from iron being oxidized when it is exposed to the chlorine added to the water at the treatment plant for disinfection. Taste and odor contaminants, including iron, are mostly considered to contribute undesirable aesthetic effects, such as bad taste, odor, color or cloudiness. These contaminants and those covered under the USEPA National Secondary Drinking Water Regulations (NSDWRs) at the Secondary Maximum Contaminant Level (SMCL) may alter the appearance of the water but do not impose a health risk. The SMCL for iron is 0.3 mg/L.

As a result of corrosive conditions, iron will mostly exist in as oxidized, or ferric, iron (Fe^{3+}), and to some extent can be dissolved iron (Fe^{2+}). The visibly red or brown water when first drawn from the tap is oxidized iron. Consult with a water treatment professional for appropriate filtration methods for oxidized iron.

If water is coming out brown, it should be tested for iron levels in addition to testing for any lead concerns. Test before and after treatment has been installed, especially if filtered water turns red after a while. To learn more read WQA's technical factsheet on taste & odor contaminants:
https://www.wqa.org/LinkClick.aspx?fileticket=UzyTWNS66UY%3d&portalid=0

LEAD IN FLINT WATER

GENERAL INFORMATION

- Lead is hard to avoid completely. It can be found in water pipes and brass water faucets, old paint, in dirt, at some job sites, and in metal used for some hobbies.
- The amount of lead found in some Flint homes' drinking water could affect kids' health.
  - Even small amounts of lead can harm kids' health because they are still growing.
  - Adults are less likely to be harmed by the levels found in the water.
- Filter your drinking water using a National Sanitation Foundation (NSF)-approved filter.
  - You can receive a free a NSF-approved filter if you use City of Flint water.
  - Call 2-1-1 to find out where you can pick up a free water filter.
- Some filters can remove up to 99 percent of the lead in water when used properly. To be sure your filter is removing as much lead as it can, carefully follow the instructions that came with it.
  - Run only cold water through the filter.
  - Change the filter cartridge as often as the instructions say.
- Even after changes to the water system, it may take a while before lead levels in your home's water drop.

There are a number of steps you can take to keep yourself and your family healthy. Use the tips below to learn more about how to stay healthy:

LEAD IN WATER

Although your water may be a different color sometimes, it is not caused by lead. It's important to remember:

- You can't see, smell, or taste lead in water.
- Lead won't change the color of your water.
- The only way to know what your home's lead levels are is by having your water tested.

LEAD IN BLOOD

- If your children live in Flint or go to school or childcare in the City of Flint, they should be tested for high blood-lead levels.
- You should contact your doctor about testing.
- Testing is available for free at the Genesee County Health Department. Call 2-1-1 if you need help getting there.
- If you are pregnant or nursing, and you have tested negative for high blood-lead levels, it is safe to breastfeed.
- If you are pregnant or nursing and have tested positive for high blood-lead levels, talk to your doctor about the safety of breastfeeding.

TIPS TO KEEP YOUR HOME SAFE FROM LEAD

WATER FILTERS

- Get your water tested. It's free. Call 2-1-1.
- Use a water filter. Call 2-1-1 for a free filter.
- If you do not have a water filter, use bottled water for drinking and mixing formula.
- Use cold, filtered water for cooking.
- Wash fruits and vegetables with filtered water.
- If you must use unfiltered water, run the water for at least five minutes before you use it. To save time and water in the future, it's a good idea to fill up as many containers as you can once you've run your water for five minutes.

CLEANING

- Wash dishes, bottles and toys with unfiltered soapy water and dry before use.
- Use door mats. Take your shoes off when indoors.
- It is safe to use unfiltered tap water to mop floors and wipe down countertops.
- Vacuuming carpets may pull more lead dust to the surface. Use a non-motorized sweeper to clean carpets.
- Clean windowsills and play areas often with paper towels and soapy water.
- It is safe to wash clothes in your washer and dryer.

TIPS TO KEEP YOUR HOME SAFE FROM LEAD

IN THE BATHROOM

- Use filtered tap water to brush your kids' teeth.
- Adults can use unfiltered tap water to brush their teeth.
- You can use unfiltered tap water to shower or bathe, but don't let kids drink the water when they play in the tub.
- Studies done by the Centers for Disease Control and Prevention show that parents can continue bathing their children in the tub but bath time should be used for bathing only, rather than allowing children to play in the water for a long time.
- Lead will not cause rashes or other skin problems. However, if levels of chlorine or other cleaners are high in the water, it may cause itchy or dry skin (similar to what can happen when you swim in a pool).

CARING FOR PETS

- Use filtered tap water for your family pets' water bowls.
- You can use unfiltered tap water to bathe your pets.
- If you notice your pet acting differently than normal, contact your vet.

OTHER SOURCES OF LEAD IN YOUR HOME

LEAD PAINT

- Homes built before 1978 likely have lead paint, both inside and outside.
- Old paint is the most common way that kids are exposed to lead.

DIRT

- If you live in the city, there may be lead in the dirt outside your home.
- Before 1996, gas and the exhaust from cars contained lead. More lead will be found in dirt in busy traffic areas.

DUST

- The dust in your home can have tiny amounts of lead from paint and dirt.

HOBBIES AND JOBS

- Solder, fishing sinkers, bullets, and stained glass framing materials are some items that may contain lead. You could also track home lead dust from your job site.

HEALTHY DIET

- Eat foods high in iron, calcium and vitamin C.
- Wash hands with soap and warm water before eating.
- If you need fresh and healthy food, call the WIC office at 810-237-4537, or for SNAP food assistance apply at www.michigan.gov/mibridges or visit your local Michigan Department of Health and Human Services office.

GOOD SOURCES OF IRON INCLUDE:

- Lean red meats, fish, and chicken
- Cereals with added iron
- Dried fruits (raisins, prunes)

GOOD SOURCES OF CALCIUM INCLUDE:

- Milk
- Yogurt
- Cheese
- Green leafy vegetables (spinach, kale, collard greens)

GOOD SOURCES OF VITAMIN C INCLUDE:

- Oranges, orange juice
- Grapefruit, grapefruit juice
- Tomatoes, tomato juice
- Green peppers

- For more information about protecting yourself and your family from lead, visit www.michigan.gov/flintwater.
- To find out where you can get a free water filter, call 2-1-1.
- For a free water test, call 2-1-1.
- For more information about lead in your home and what you can do, call the Michigan Department of Health and Human Services at 1-800-648-6942.

STATE OF MICHIGAN
JOINT INFORMATION CENTER

NEWS RELEASE

Nearly 4,000 Flint Homes Visited Today by Water Response Teams
Residents Can Drop-off Water Samples to Water Resource Sites

FOR IMMEDIATE RELEASE
January 16, 2016
Release # 6

For more information contact:
Joint Information Center
888-EMD-TODAY (888-363-8632)

FLINT, Mich. – Today, the water response teams distributed resources to nearly 4,000 Flint homes providing residents with free bottled water, filters, replacement cartridges and water testing kits.

To date, more than 11,300 homes have been visited by the water response teams, comprised of local and state personnel, American Red Cross and volunteers. Over the course of the holiday weekend, Flint residents and approximately 300 state employees and their family members are volunteering to help increase door to door efforts.

In addition, the Michigan National Guard is dedicating more personnel to assist with distribution efforts at the five water resource sites. Beginning on Monday, January 18, approximately 70 National Guard members will be handing out resources at the fire stations, which is more than double the current commitment.

Since January 9, the following resources have been distributed to residents, both at the water resource sites and by the water response teams, in addition to donations:

- Nearly 20,900 cases of water
- Nearly 48,000 filters
- More than 3,300 water testing kits

The State of Michigan has purchased the following resources, since January 5, which will continue to be delivered to Flint over the coming days:

- Nearly 57,500 cases of water
- More than 108,500 filters
- Nearly 29,000 water testing kits

To help enhance the water testing process, Flint residents can drop-off water samples to the five water resource sites. Samples will only be accepted by using the official water testing kits provided at the water resource sites and by the water response teams.

MORE

The water resource sites will remain open daily from 9 a.m. to 9 p.m. and are located at:

Fire Station #1
310 East 5th St.
Flint, MI 48502

Fire Station #3
1525 Martin Luther King Ave.
Flint, MI 48503

Fire Station #5
3402 Western Road
Flint, MI 48506

Fire Station #6
716 West Pierson Road
Flint, MI 48505

Fire Station #8
202 East Atherton Road
Flint, MI 48507

Today, President Barack Obama declared a federal emergency in Flint, based on Gov. Rick Snyder's request made on Thursday, January 14, providing resources to help provide residents access to safe, clean water

The state of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County and local community organizations.

Additional information is available at www.michigan.gov/flintwater or by calling 211.

###

NOTE: ALL MEDIA INQUIRIES ARE BEING HANDLED BY THE JOINT INFORMATION CENTER AT 888-EMD-TODAY (888-363-8632) or JICNews@michigan.gov.

CITY OF FLINT

Dr. Karen W. Weaver
Mayor

Natasha L. Henderson
City Administrator

Thursday, February 04, 2016

To whom it may concern:

On December 14, 2015, I declared a State of Emergency in the City of Flint regarding the lead contamination of the City's water as a result of antiquated and failing infrastructure. Following that, on January 4, 2016, the City submitted an ***Incident Action Plan*** to Genesee County for the consideration of the Board of Commissioners. The State of Michigan elevated the emergency the following day. This plan detailed immediate response and long term solution efforts that will be needed to resolve the water crisis. This plan names several distribution sites that are not listed in this document. Most notably the Brennan Center, Hasselbring Community Center, and the Berston Field House. Each of these sites are currently running an efficient operation distributing water and they have been resupplied weekly by various contributors. It would be an easy process to transition them into full time Distribution Centers as the City has already helped to allocate Red Cross volunteers at some of them. I am hoping you will consider adding them to the plans being drafted by the State of Michigan and its partners in the community. As Mayor and Chief Executive of the City of Flint, I urge governments and other organizations participating in emergency relief and recovery planning to strongly consider the use of these sites in place of Fire Station #1, Fire Station #5, and Fire Station #6 as long term recovery sites.

Additionally, City Hall has been distributing filters and testing kits since October and is currently staffed with volunteers trained to use the ESRI software in order to track distribution efforts. City Hall should also be considered as a Water Resource Center during its hours of operation. Lastly, it is important that the City be included in conversations regarding distribution, relief, and recovery efforts so that all partners can cooperate in concert to achieve a sustainable and successful outcome to this emergency. I assure you that you can count on my cooperation in the effort to bring relief and solutions to the people of Flint. I commend the work that everyone has contributed so far and hope that our cooperative spirit continues to bring a brighter future to Flint.

Regards,

Dr. Karen Weaver, Mayor

Natasha L. Henderson, City Administrator

Filters provide best access to safe drinking water in Flint

Focus remains on ground stabilization, distribution of water resources

LANSING, Mich. – Flint residents are encouraged to use water filters as their primary source for water consumption and cooking needs.

"The best way to ensure safe drinking water in your home is to have a water filter properly installed on your tap," said Dr. Eden Wells, chief medical executive with the Michigan Department of Health and Human Services. "Filters make your water safe to consume, and provide the most sustainable solution for having access to safe water in your home."

Donated water continues to be distributed to the five water resource sites at Flint fire stations. Residents should install filters to their taps to ensure they have immediate, ongoing access to safe water. Free filters and replacement cartridges are available at the water resource sites.

"We recognize the urgency of getting water resources to the residents of Flint," Capt. Chris Kelenske, Deputy State Director of Emergency Management and Homeland Security and commander of the Michigan State Police Emergency Management and Homeland Security Division. "To help ensure the necessary resources continue to be available at the water resource sites, the state is expanding their partnership with the American Red Cross to utilize their warehousing and inventory management capabilities for stored water resources."

In addition, water resource teams will begin going door-to-door in Flint neighborhoods on Tuesday to distribute clean water resources. The water resource teams, consisting of state personnel and Michigan State Police (MSP) troopers, will be distributing bottled water, water filters, replacement cartridges and water testing kits.

If a resident is not home when a team stops by, a flyer with information on how to receive these free water resources will be left at their residence.

Additional resources, including a video on how to install filters, are available at www.michigan.gov/flintwater and by calling 2-1-1.

STATE OF MICHIGAN
JOINT INFORMATION CENTER

NEWS RELEASE

FOR IMMEDIATE RELEASE
February 12, 2016
Release #: 37

Boil Water Advisory Lifted by City of Flint

No Bacteria Identified

FLINT, Mich. – With the Feb. 9 water main break repaired and successful back-to-back bacteria tests completed, the city of Flint lifted its boil water advisory today.

Affected residents no longer need to boil their filtered water because testing did not reveal any bacteria during or after the repair of the water main break. The boil water advisory was issued as a precautionary measure because the loss of pressure in the water distribution system can make the system vulnerable to bacterial contamination.

Previously installed water filters are still safe to use given the absence of bacteria, but residents are reminded to check their water filter indicator and replace the filter cartridge, if needed. Individuals should follow the water filter manufacturer replacement instructions.

Residents are reminded to continue use of filtered water for drinking, food preparation, brushing teeth and pets. Unfiltered water may be used for bathing and cleaning. Pregnant woman and children under 6 years of age should continue to drink only bottled water.

The U.S. Environmental Protection Agency and Michigan Department of Environmental Quality both encourage residents and businesses to flush their water for between two to five minutes through all taps every day. This will assist with flushing their individual pipes as well as rescaling the water system as a whole. This should be done first thing in the morning after the water system has been stagnant for several hours.

To prolong the life of their filter, this daily flushing should be done with the filter turned in the off position. Once the system has been flushed for two to five minutes, the filter should be turned back on for all cooking and drinking.

Residents are also reminded to clean the aerator on every household faucet every week.

Free water filter cartridges, water filters, bottled water and water testing kits are available at water resource sites that remain open daily from 9 a.m. to 9 p.m. and are located at:

Fire Station #1 (also a water bottle recycling site)
310 East 5th St.

MORE

Fire Station #3
1525 Martin Luther King Ave.

Fire Station #5 (also a water bottle recycling site)
3402 Western Road.

Fire Station #6
716 West Pierson Road.

Fire Station #8 (also a water bottle recycling site)
202 East Atherton Road.

All water filters distributed by the State of Michigan are certified by NSF International for lead reduction. Individuals wishing to verify that a specific filter is NSF-certified can do so via the NSF website.

The State of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County and local community organizations.

Additional information is available at www.michigan.gov/flintwater, by calling 211 or visiting www.helpforflint.com.

###

NOTE: ALL MEDIA INQUIRIES ARE BEING HANDLED BY THE JOINT INFORMATION CENTER AT 888-EMD-TODAY (888-363-8632). FOR FLINT WATER EMERGENCY DONATION INFORMATION, GO TO www.helpforflint.com.

RESOURCE REQUEST FORM (RRF)

TRACKING INFORMATION (FEMA Use Only)			
ECAPS/NEMIS Task ID:	Resource Request #	Program Code/Event #	
Received by (Name and Organization)	State	Date/Time Received	☐ Originated as verbal

INSTRUCTIONS

Items on the Resource Request form that are not specifically listed are self-explanatory. Indicate "see attached" in any field for which additional space or more information is required.

I. Who is requesting assistance? Completed by requestor.

II. What needs to be done? Completed by requestor.

Description of Requested Assistance: Detail of resource shortfalls, statement of deliverable, or simply state problem/need.

Priority: The requestor's priority, which may differ from the priority in BOX III.

Site POC: The person at the delivery site coordinating reception and utilization of the requested resources. 24-hour contact information required.

If for Direct Federal Assistance (DFA), State Approving Official: Signature certifies that:

(1) State and local governments cannot perform, nor contract for the performance of the requested work;
(2) Work is required as a result of the event, not a pre-existing condition; and
(3) The State is providing the required assurances found in 44 CFR, Section 206.208.

III. Action Review/Coordination (OPS Section Use Only): Completed by the Operations Section Chief or Resource Capability Branch Director.

Accept/Reject: Operations Section Chief or Resource Capability Branch Director accepts or rejects the request; provide reason if rejection. If request accepted, coordinates with others, i.e., Branch Directors or Group Supervisors, begins to determine best means of fulfilling request. All involved in coordination should check appropriate box and initial or print their name.

Assigned to: Operations Section Chief or Resource Capability Branch Director assigns tasks origination, may indicate the OFA Action Officer. Operations Section Chief may also indicate the Action Officer if known, or tasked organization may make this assignment. This may be Emergency Support Function, internal FEMA Organization (i.e.; Logistics), or other organization.

Date/Time Assigned: Operations Section Chief or Resource Capability Branch Director provides date and time of when sourcing should begin.

IV. Statement of Work (OPS Section Use Only): Completed by the Operations Section Chief or Resource Capability Branch Director.

OFA Action Officer: Ops Section Chief obtains from OFA if request fulfilled by a MA; 24-hr phone/fax required. Information used in eCAPS.

FEMA Project Manager: Provided by Operations Section Chief; a Region PFT; 24-hr phone/fax required. Information used in eCAPS.

Statement of Work: Description of tasks to be performed. Could be to assess a problem and report back, or could be to proceed with a specific action. If 40-1 or MA, this goes in "justification" tab in eCAPS.

V. Action Taken (OPS Section Use Only): Completed by Operations Section Chief, Resource Capability Branch Director, MA Unit or Logistics.

Resource Request Results: Ops Section Chief, Resource Support Section Chief, MA Unit, or LOG should note what type of document the action resulted in by "checking" the appropriate box i.e., Mutual Aid, Donations, Requisition, Procurement, IA, MA, Other. If "Other" is selected write in appropriate response or state "see below" and give detail description in "Disposition" field. "Disposition" field should note steps taken to complete the Action, and personnel, sub-tasked agencies, contracts and other resources utilized.

TRACKING INFORMATION. Completed by Action Tracker. Required for all requests.

RESOURCE REQUEST FORM (RRF)

TRACKING INFORMATION (FEMA Use Only)			
ECAPS/NEMIS Task ID:	Resource Request #	Program Code/Event #	
Received by (Name and Organization)	State	Date/Time Received	☐ Originated as verbal

INSTRUCTIONS

Items on the Resource Request form that are not specifically listed are self-explanatory. Indicate "see attached" in any field for which additional space or more information is required.

I. Who is requesting assistance? Completed by requestor.

II. What needs to be done? Completed by requestor.

Description of Requested Assistance: Detail of resource shortfalls, statement of deliverable, or simply state problem/need.

Priority: The requestor's priority, which may differ from the priority in BOX III.

Site POC: The person at the delivery site coordinating reception and utilization of the requested resources. 24-hour contact information required.

If for Direct Federal Assistance (DFA), State Approving Official: Signature certifies that:

(1) State and local governments cannot perform, nor contract for the performance of the requested work;
(2) Work is required as a result of the event, not a pre-existing condition; and
(3) The State is providing the required assurances found in 44 CFR, Section 206.208.

III. Action Review/Coordination (OPS Section Use Only): Completed by the Operations Section Chief or Resource Capability Branch Director.

Accept/Reject: Operations Section Chief or Resource Capability Branch Director accepts or rejects the request; provide reason if rejection. If request accepted, coordinates with others, i.e., Branch Directors or Group Supervisors, begins to determine best means of fulfilling request. All involved in coordination should check appropriate box and initial or print their name.

Assigned to: Operations Section Chief or Resource Capability Branch Director assigns tasks origination, may indicate the OFA Action Officer. Operations Section Chief may also indicate the Action Officer if known, or tasked organization may make this assignment. This may be Emergency Support Function, internal FEMA Organization (i.e.; Logistics), or other organization.

Date/Time Assigned: Operations Section Chief or Resource Capability Branch Director provides date and time of when sourcing should begin.

IV. Statement of Work (OPS Section Use Only): Completed by the Operations Section Chief or Resource Capability Branch Director.

OFA Action Officer: Ops Section Chief obtains from OFA if request fulfilled by a MA; 24-hr phone/fax required. Information used in eCAPS.

FEMA Project Manager: Provided by Operations Section Chief; a Region PFT; 24-hr phone/fax required. Information used in eCAPS.

Statement of Work: Description of tasks to be performed. Could be to assess a problem and report back, or could be to proceed with a specific action. If 40-1 or MA, this goes in "justification" tab in eCAPS.

V. Action Taken (OPS Section Use Only): Completed by Operations Section Chief, Resource Capability Branch Director, MA Unit or Logistics.

Resource Request Results: Ops Section Chief, Resource Support Section Chief, MA Unit, or LOG should note what type of document the action resulted in by "checking" the appropriate box i.e., Mutual Aid, Donations, Requisition, Procurement, IA, MA, Other. If "Other" is selected write in appropriate response or state "see below" and give detail description in "Disposition" field. "Disposition" field should note steps taken to complete the Action, and personnel, sub-tasked agencies, contracts and other resources utilized.

TRACKING INFORMATION. Completed by Action Tracker. Required for all requests.

Subject: soldiers at Fire Station 8

Judith Ketchum

Today I spoke with Staff Sgt. Gazzeny about a situation I had with his soldiers at Fire Station 8 in Flint (a water distribution center). I gave him the name of them (Dukes, Frick, and Hassey). He told me I would have to speak to someone over him because he had instituted the protocol that I am about to complain to you about.
Yesterday when I went to pick up some water, the soldiers would not let me have a case of 1 liter bottles because they could only open 1 pallet at a time and they were currently only passing out the 1/2 liter bottles. I had to wait until that pallet was gone before they decided that they would open a pallet of larger bottles. It's already a pain to have to go and stand in line for water. That they would not let me get the larger bottles was ridiculous, when they were sitting right there. If there are 3 different sizes (1/2 liter, 1 liter, and gallons) what is the big deal about making our lives easier and allowing us to pick from the 3? Is that really a huge deal to have 3 pallets open at once as opposed to only having 1 open at a time? Come on. It seems to me that they should be HELPING to make this time easier for Flint residents, not create more hassle for us. I would like to see this rule Gazzeny instituted rescinded and I would also request a response to this email. Thank you.

Please Advise.

Subject: USPS Request

Jackie,

As you requested below is a summary of my contact with the Postmaster's Office in Flint.

On Wednesday, February 3rd, I contacted the Postmaster's Office in Flint at 810-257-1506 and spoke to Cheryl. I explained to her that we needed data on all addresses within the City of Flint where mail had been forwarded or service had been stopped for some reason (vacancy, destruction of property, etc.). I explained that I was with the State EOC and MSP and that I was requesting that information under the Michigan Emergency Management Act (PA 390). She said that she would pass along the request to the Postmaster.

I called back later that day and Cheryl informed me that I was making a rather large request and that the Postmaster had forwarded the request to the District Office and that the Postmaster's office would contact me when they had an answer. I was then out of the SEOC until this morning. There were no messages or emails from USPS during that time.

After Capt. Kelenske asked about USPS at this morning's briefing, I followed up with the Postmaster's Office where I was told that the District Office denied our request for information and that they were therefore unable to provide it. They did not provide any explanation.

I hope this is useful. Please let me know if I can be of any further assistance.

Thank you,

Alex

Just a follow up. I have met with UCG staff FHCO Bowman and Don Boyce Director of Emergency Management with US DHHS. FHCO attempted to make contact with the local Post Master, however did not have any success. They have sent an email/message addressed to US DHHS Operations Center in DC for follow up.

Subject: USPS Request

Jackie,

As you requested below is a summary of my contact with the Postmaster's Office in Flint.

On Wednesday, February 3rd, I contacted the Postmaster's Office in Flint at 810-257-1506 and spoke to Cheryl. I explained to her that we needed data on all addresses within the City of Flint where mail had been forwarded or service had been stopped for some reason (vacancy, destruction of property, etc.). I explained that I was with the State EOC and MSP and that I was requesting that information under the Michigan Emergency Management Act (PA 390). She said that she would pass along the request to the Postmaster.

I called back later that day and Cheryl informed me that I was making a rather large request and that the Postmaster had forwarded the request to the District Office and that the Postmaster's office would contact me when they had an answer. I was then out of the SEOC until this morning. There were no messages or emails from USPS during that time.

After Capt. Kelenske asked about USPS at this morning's briefing, I followed up with the Postmaster's Office where I was told that the District Office denied our request for information and that they were therefore unable to provide it. They did not provide any explanation.

Captain Kelenske,

Don Boyce, Deputy Assistant Secretary US DHHS, would like to know if he could meet with EM DeVriendt, Lt. Roach, and you tomorrow morning at the SEOC. Originally he asked me to coordinate this for tomorrow at the local Genesee County EOC, with EM DeVriendt, and county health, however I was informed by Lt. Roach, that EM DeVriendt and her will be at the SEOC at 9:00 am.

He advised I could relay your response to him, or you may contact him directly

I participated in a UCG and American Red Cross meeting. Dave Gutierrez and Robert Gaskill-Clemons was present from ARC. The meeting was initiated by UCG. ARC will have a seat at the UCG starting this afternoon. They discussed the Community Partnership meetings the ARC has facilitated, along with asking for UCG representatives to attend the Recovery Leadership meeting next Tuesday. They discussed having a representative from Genesee County at the UCG IE: Emergency Manager. The UCG may be making a formal request, or at the very least inviting him/them on the 8:30 am conference/call UCG meeting. They also discussed sharing the plan ARC has been working on, for UCG inclusion.

Captain and Mr. Katarsky,, would you like the call in number to UCG con/call meeting? It is at 8:30 am with UCG and state partners?

Subject: Flint Water Town Hall Meeting Invitation

Col. Kelenske:

Many Flint residents can no longer use their water service for basic tasks like drinking, cooking, and taking baths. Lead contamination has resulted in an emergency declaration. National Guard, law enforcement, community groups are all pitching in to deliver bottled water, lead testing kits, and water filters.

How did we get here? What's being done to address the immediate and long-term health and economic impact the Flint water crisis has had on our community?

That will be the focus of a WEYI-TV NBC25 & University of Michigan-Flint Town Hall meeting. "Your Voice, Your Future: The Flint Water Crisis" will be broadcast live from the historic Northbank Center's Grand Ballroom (432 N. Saginaw Street) in downtown Flint on **Monday, February 29th** at **7:00 p.m.** The forum will give government, health care, environmentalists, community groups, emergency/disaster response officials, and others the opportunity to speak directly with residents directly affected by the water crisis. We hope the forum will provide people the latest on efforts to restore safe water service to Flint's homeowners, business leaders, schools, and churches.

We believe that you can offer a unique perspective and background on this issue. We would like to invite you to be part of our audience for this important discussion.

Please let us know by Friday (February 12) if you are available to attend this Town Hall meeting. You can RSVP by e-mailing townhall@nbc25news.com.

If you have any questions, feel free to contact the NBC25-FOX66 newsroom at (810) 687-9600.

All the best,

Subject: Quick Question

Chris,

Just wanted to check in with you on this issue. DTMB Procurement was drafting a message to agency directors to ensure that they were going through the SEOC for approval on any purchasing requests related to Flint. For the directors' convenience, they wanted to include a list of EMs so the agencies knew who to work with. (You would think they would all know, but we are running into people who don't.)

Is it is security issue having the list compiled? I am just trying to figure out how we can increase the likelihood that they are working through SEOC and their EM.

Thanks.

Brom

Subject: RE: SEOC requests weekly report for DTMB Procurement's Flint vendor inquiry portal

Please see my comments below.

I think this is something that will need to be sent to all DTMB and when we send it out we can clarify who from the SEOC will be contacting them to help with the process. I would like to list my SEOC team as people who will be calling for help. Jeanette Doll, Ryan Mckee, and Rock Rakowski all are in the position as the emergency manager for our agency and need to have the authority to call directors to receive help.

Thanks,

Chris Christensen
Director of Infrastructure Protection
Office: (517) 241-2188

Christensenc4@michigan.gov
<image001.png>

Per our discussion tonight and Captain's request, here's a draft process for any inquiries regarding possible products for Flint coming through DTMB Procurement's new dedicated online portal http://michigan.gov/micontractconnect/0,4541,7-225-75359---,00.html.

- The submissions will come into a general DTMB Procurement email box
- The DTMB Vendor Outreach Coordinator, Jenni Riehle, or her back up will perform an initial review.
  - Any general "how to do business" questions will be answered by Jenni
  - Any suggestions regarding possible products that could be used in Flint will be referred to (either Jeanette, or Rebecca and then Jeanette – ***need input here***. Current process is Rebecca and then Jeanette) I think the procurement website will be just fine and then including them into the weekly report.
- Jeanette will log into SEOC for a technical evaluation to be performed, and a contact person to respond back to the vendor. The once a week report will be given to the Captain, we will ONLY contact vendors that we need. I would not want to say we will contact all of the vendors.

From our discussion, I understand that the Captain would like a weekly report to facilitate him obtaining status updates within SEOC for the assigned referrals.

- It is difficult to predict volume of inquiries at this point.
- You indicate that a spreadsheet format is acceptable.

- The Captain can provide feedback regarding content based on this week's report.
- Report headings should include: (***need input here***) This is great for now, we will provide the first one and see what changes are recommended
    - Date inquiry received
    - Company
    - Contact Name
    - Direct phone
    - Email
    - Description field
    - URL for product/service
    - Comment field in response to "Are you offering any free or in-kind products or services (if applicable)
    - Comments/questions field (filled out in vendor submission)
- The DTMB Vendor Outreach Coordinator will prepare a weekly report of vendor referrals. (This week's report should include the attached inquiry.)
    - Jenni – is there any report functionality from the portal, so that this does not need to be created manually? (***need Jenni's input here***)
    - Vendor Outreach Coordinator submits weekly report to (either Jeanette, or Rebecca and then Jeanette, to mirror process above? ***Need input here***)
- **FIRST REPORT IS DUE THIS FRIDAY BY 3 PM.**

Who will make the final decisions on process - Chris and Jeff? – Because this will be a procurement process I feel **Jeff** should have the final. I am happy to help with the logistics.

Should all inquiries received by DTMB Procurement staff be referred into SEOC, whether or not they come through the portal? (Jeff may need to communicate this to the entire office.) Not to the SEOC, let's keep them in the portal and if questions arise they will be contacted by someone from the SEOC.
If so, how would those be included in a weekly report, if needed?

Rebecca

Subject: Vendor Link

Rebecca –

Captain Kelenske has asked that DTMB provide a list of vendors who have entered information in the vendor list weekly. Logistics will then provide the information to the proper state agency as to viability of use.

Could you provide a list every Friday by 3 pm?

Jeanette

Subject: RE: volunteer injury

Penny,

My apologies as well.

As we discussed, the State is likely not liable for any injuries suffered by a volunteer responding to an emergency. Section 11(2) of the Emergency Management Act provides that , "This state [along with political subdivisions and employees] are not liable for personal injury or property damage sustained by any person appointed or acting as a member of disaster relief forces." MCL 30.411. "Disaster relief forces" under the EMA is defined to include, "private and volunteer personnel . . . having duties or responsibilities under this act or pursuant to a lawful order or directive authorized by this act." MCL 30.402. I read that as covering any volunteer acting under the authority/direction of MSP in response to a declared emergency.

That doesn't answer the policy question of whether the state should compensate volunteers who are injured assisting with a response, and I don't know whether the state carries insurance on this or other state buildings. It appears you have the right person to discuss that with in DTMB.

If you are going to communicate with the Red Cross regarding my advice, please do not forward this email or directly quote it because that may constitute a waiver of attorney-client privilege. You can just say you communicated with the AG's office and paraphrase what I told you.

Let me know if you have any questions.

Subject: Fwd: volunteer injury

Hello Ms. Kirby

I am the State Finance Office for the Michigan State Police, Emergency Management and Homeland Security Division currently working in the State Emergency Operations Center supporting the City of Flint Water emergency. I received this email from the American Red Cross asking for our insurance information for a volunteer who was injured working in the warehouse that DTMB has rented for storing water resources.

I know that the state is self insured but am unclear in our liability with volunteers. At the request of our Assistant Division Commander, Mr. Tony Katarsky, I have copied Mr. Peter Manning from the Attorney Generals office.

If you could offer some insight I would appreciate it.

Thank you

Penny Burger

Subject: when you get back

Paul,

When you get back will you inquire from the right person there about the insurance at the state warehouse hear in Flint? One of our workers slipped and was hurt when she was working there. She needs the name and contact person for the insurance company now.

Thanks

Subject: RE: SBA Letter

Thank you. That is helpful.

I think the Governor would like to say in the letter exactly what we are requesting—especially since we may make a subsequent SBA request for a different type of relief. Can you please send me one line saying exactly what we are asking for this time around. I will add it to the letter.

Was there a presidential declaration of emergency in the Ohio case? In any case, do you mind if we add the presidential declaration to the second paragraph?

Maria Contreras-Sweet is the head of SBA. Since the letter is coming from the Governor, it might be appropriate to send to the head of the agency. But if you think we should send it to the regional POC, then we will defer to you.

Paul

Subject: RE: SBA Letter

1. Should the letter include a request for an SBA declaration? Right now it just has facts and a certification. We are following the sample letter SBA sent to us that Ohio used.
2. Why is the letter not addressed to Maria Contreras-Sweet? Who is this? We send to our Regional SBA POC.
3. Do we need to mention the presidential declaration of emergency? We are using the sample sent to us from SBA.
4. Do we need to mention any details about Flint (i.e., population, number of households/businesses)? I do not think so ... this is for economic injury.
5. Do we need to mention anything about the types of economic losses that may have been suffered? We are using the sample sent to us from SBA.
6. Will the request cover individual residents (i.e. non-businesses)? No. We are hoping to get the IHP program to cover those. This is for the businesses. If we get the denial for the IHP under the emergency declaration then yes we would go after SBA again.

Attached is the sample SBA sent us. We would also have the worksheets attached.

> My recommendation would be that you always start with your needs, and not backwards from what is available. If there is something that you need for Flint, it should go through the normal SEOC process and then we can have purchasing staff in DTMB or the relevant agency work to fill the need. It is very possible that we already have an enterprise contract in place for something that might show up from vendors on this list…

Jeff,

We are now live with the Flint Emergency Purchasing form on the website. It can be accessed here: http://michigan.gov/micontractconnect/0,4541,7-225-75359---,00.html

I apologize about the delay. Let me know if you have any questions.

Thanks,

Jenni Riehle

Oops. Just sent you a separate email without seeing this. A submission from that online form generates an email. We could share those emails with anyone you like.

All proposed purchases should still go through the SEOC procedures for approval.

Give me a call if you want to discuss.

Thanks,

Brom Stibitz

Subject: Talking Points for tomorrow

Hi Capt.,

Attached are talking points for tomorrow's Congressional Legislative Conference call at 2:30 p.m From the state, it will be you and Dr. Wells giving updates. Due to Director Craegh being in DC, DEQ will not report out. I'm not sure who from the feds is confirmed to give an update

We may get an updated agenda from FEMA tomorrow. Insp Matt Bolger will be the JIC Manager for the next two days.

Please let him know if you need anything.

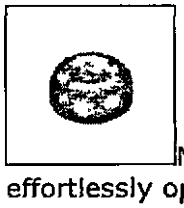
Subject: Bottle Openers - adaptive aids

Each circumstance is unique so there likely won't be a way to know until tested by the individual which style or device is most appropriate. Multiple vendors are often available for each design/item. Descriptions are from the sites listed.

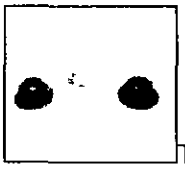
From http://www.elderstore.com/multigrip-safety-cap-bottle-opener.aspx

The "MultiGrip" is an excellent and safer opener solution for bottles with safety caps, twist caps, bottles containing cleaning liquids, and pill or medication bottles. MultiGrip provides leverage making it easy to open stubborn caps. Medication bottles with child protection devices built in can be opened with the MultiGrip with its comfortable grip allowing you to push down and turn with far more power than with your hand alone.

From: http://www.maddak.com/kitchenhousehold-aids-jar-bottle-and-box-openers-c-1710_1739.html?osCsid=4oiu4le714v0qrjs4qjl3i92j2

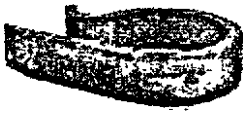


Maddagrip Opener Soft shape conforms to almost any size cap allowing the user to effortlessly open anything from small vials and bottles to large jars. Longer shape and textured outside provide a better grip for weak hands. Larger diameter fits entire hand and offers extra turning power.



Tenura Silicone Bottle Opener - Helps people with reduced grip strength due to arthritis or other hand limitations open bottles without much effort. Dome shaped opener is flexible and provides the leverage needed to open even the most stubborn lid.

From:
http://www.shapeways.com/product/AV2CGLSRV/capeze-survivor?li=user-profile&optionId=13087962



Capeze removes caps from water bottles easily. No more twisting, struggling or asking for help. It also works on soft drink tabs. Proceeds from the purchase of the Survivor model are donated to cancer research.

From https://www.aquaclip.com/

Aquaclip® water bottle holder. Built-in bottle cap wrench

From
http://ozseenontv.weebly.com/one-touch-bottle-opener.html

The one touch automatic bottle opener is the world's first power assisted by the opening tool. This battery-powered device makes light work a bottle tops and is easy to use just press and hold it open almost any size bottles. The switch and reseal the caps automatically. The automatic one touch bottle opener comes with 3 adapters from a tiny sauce bottle to a large sports drink.

Sent: Sunday, January 31, 2016 6:37 PM
To: Fitzgerald, Timothy (MSP); Kelenske, Chris (MSP)
Subject: Senator Peters in Flint tomorrow

Hi Capt. Kelenske and Mr. Fitzgerald,

I apologize for the late notice, but I just wanted to give you the heads up that Senator Peters will be in Flint tomorrow. He has meetings set up with a number of stakeholders, mainly on the federal side to learn about the federal interagency effort, but also with folks like MDEQ to discuss the long term infrastructure challenges.He will also be visiting Hurley Medical Center with Dr. Mona. Finally, I believe our scheduling team has worked out a time in the afternoon for him to meet with folks from the Red Cross and/or National Guard and do some hands on volunteering. You may already be aware of all this, but it occurred to me that I didn't sent you a note to give you the heads up.

I know that much of the response effort is based in Lansing, but if any MSP personnel would like to briefly meet with the Senator, I'm sure we could weave that into the on-the-ground time that we have set up through the Red Cross. Let me know and I can connect you with staff that will be on the ground. I am out on paternity leave so I will not be there.

Thanks and keep up the hard work.

-Bentley

Subject: FW: Non- Filter Locations

Sir,

In talking to recovery they advised:

Based on the number of homes they hit yesterday – they will be done in 2.5 days.

There are 5,066 homes that are shown as no filter/not contacted yet and they hit over 1700 yesterday. They are now using address lists rather than just going to a "red" area.

Let me know if you need anything further.
Gabe

Subject: Flint Drinking Water Issue

Chris,

A few of the most recent web links to your question about Flint's drinking water, most of the articles mention those with "severely compromised immune systems" infants and the elderly may face an "increased risk" and should seek advice regarding drinking water from their healthcare providers. Also says there currently is no "Boil Order"

Subject: Family Assistance Center

Chris -
Per our conversation, below please find the concept paper outlining the proposed FAC construct. As discussed, I think a center of this nature would greatly benefit the residents of Flint if implemented. This concept is akin to the MARCs that State EMs activate after natural catastrophes to assist survivors in need. The State of MI and the City of Flint could co-lead the effort with resource and programmatic support from VOADS, faith-based and community organizations and the federal government, just to name a few. If the Governor is interested in pursuing this effort, he should make contact with Dr. Nikki Lurie (HHS) to begin discussing the implementation strategy. The Gov and the Mayor could announce the effort once the details are finalized. Let me know how you'd like to proceed after you've had an opportunity to discuss with the Governor.

Family Assistance Center (FAC) Concept

The construct of this Family Assistance Center (FAC) is based on the proven organizational structure used to provide support to victims' families following air crash disasters and individuals affected by natural catastrophes. The basic concept is to provide a "one stop shop" to make it easier for the residents of Flint impacted by the water system purity situation to receive much need information and assistance. The FAC brings together representatives from local and state agencies in one centralized location.
This concept can be modified to meet the actual needs and the desire and will of State and local government; it can be expanded or contacted as necessary.

1) Recommend that it be co-lead by the State of Michigan and the City of Flint with VOAD support (ex., Red Cross/appropriate RRS)
2) Full service structure – address all (reasonable) needs of affected citizens
   a) Health
      i) Medical monitoring/screening
      ii) Mental Health
   b) Water
      i) Distribution, including filters
      ii) Distribute and collect water test kits
      iii) Explain results of water tests
   c) All government agencies that have programmatic support for affected citizens
      i) Local Government
      ii) State government
      iii) federal government
   d) All voluntary agencies that have programmatic support for affected citizens
      i) VOAID
      ii) Faith Based and Community Organizations
      iii) Unaffiliated
   e) Private Sector

i) Tradesmen

f) Pro Bono Legal services

g) Meals for survivors seeking assistance (Red Cross/Salvation Army, etc.)

h) Short term child care

i) For parents while they visit the center

i) Faith support and counseling services

j) Language interpreters (as required)

3) Transportation routes

i) Provided by state local authorities

ii) Center would have to be located near major transportation hubs

4) Time limited/Closure

a) Based on need and utilization and concurrence with state and local officials

5) *Messaging*

a) As we would for the opening and closing of a Disaster Recovery Center

6) Proposed (strawman) structure

a) **Under State Structure, suggest adding: Dept. on Aging, Dept. of Human Services and Dept. of Veterans Affairs.**

Subject: Notification of Upcoming Protest

Ladies,

I spoke with Chief Tolbert this afternoon who advised that after his conversation with the NAACP, we should expect some sort of upcoming event where protestors put themselves in position to be arrested. He was told by the NAACP contact person that law enforcement would be given a heads up about when and where this might occur but it would likely be next week. I'd ask that we conduct some analysis of social media to see if there are any indicators of such a protest. Should something like a large scale planned "sit-in "occur we may need to mobilize personnel from other Third District work locations.

Subject: Transition of FEMA Congressional Affairs from Flint

All,

I wanted to send you a short note to let you know that tomorrow I will be transitioning from the Joint Information Center in Flint back to the FEMA Regional Office in Chicago. I will continue to remain closely tied into the ongoing operations for EM-3375 and will be available to coordinate support for any information or meeting needs. FEMA will continue to have a presence in Michigan, including External Affairs Officer Sandy Jasmund (a Michigan native and previously the EAO during DR-4195), and you will continue to receive updates about our activities through email notifications and periodic conference calls.

Please let me know how I can help. Best,

Hi Capt Kelenski,

Will you please add my chief of staff, Nat Forstner, to the daily email updates and to allow him access to the emails that have been distributed so far. It would also be helpful to have a dedicated contact at SEOC that he or I could request other electronic data, as needed, such as the various maps that the SEOC is updating.

Thank you,

Brian

On Jan 25, 2016, at 9:20 PM, Kelenske, Chris (MSP) <KelenskeC@michigan.gov> wrote:

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/25/16 – 21th Day (20th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store, and increase quantities of supplies.
- Increase efficiency of warehouse operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
- Validate all data from the WRTs/PODs and identify focus areas

Attached Documents:

- Sit Rep # 20
- Michigan Department of Health and Human Services Situation Report for January 20, 2016
- Maps:
    - Parcel Contact Status, includes data as of 5 pm today.
        - The first map indicates based upon the outreach that has been conducted, which parcels have had contact with a resident and which parcels have not had any contact with a resident.
    - Parcel Filter Status (Multi-Tenant Excluded), includes GIS data as of 5 pm today.
        - The second map indicates the status of residents that have or have not received a filter.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.

- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).

Items to Note

- 11 ARC Flint Water Response Teams to the field today
- 8 EPA PIOs will be in the JIC tomorrow. The JIC is unaware of the role or expectations at this time.
- Reference the rash I discussed on the call tonight:
  - There was one specific complaint about rashes that Community Health personnel plan on working with ATSTD/CDC. DEQ is requesting that EPA collect all appropriate water samples to enable a full analysis of the water at the address (an apartment) for bacterial contamination, and a full metals and organics panel. Lead is not associated with skin rashes, but other contaminants are and DEQ wants to find out what, if any, other contaminants are in the water.
  - It was also discussed that it would be ideal if Community Health can forward to the EPA the other addresses and contact information for which they've received complaints of rashes, so that EPA could also test there for appropriate parameters to see if we can identify a cause.
  - SEOC DEQ desk will continue to monitor and work this issue.
- SEOC OPS, Health, MDEQ SEOC, Logistics participated in conference calls with the Governor's office and private partners on potential alternative filtration systems for schools, daycares, etc.
- Created a form for drivers to track rapid response deliveries
- Media avail at fire station 8 this morning received positive news coverage.
- The NAACP is holding a public meeting at U of M Flint on Tuesday.
- Rachel Maddow will hold a town hall meeting on Wednesday. MSP Third District Commander advised.
- Developed new Incident Action Plan (#7 published in MICIMS) and ICS 204s for the new operational period (1/26/2015-2/2/2016).
- MDOC assumed all warehousing responsibilities today.
- Reviewed state agency financial information received for update to current spend plan.
- Information reported to the JIC:
  - As of 1/25/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	Targeted Canvassing Mission 1/25/2016
30,770	37,844	2,596 – ARC*

*American Red Cross data has not been entered in the app, but is currently being caught up. Starting January 26, 2016, the American Red Cross has been instructed that iPads must be used in the field for data entry in order to clearly capture the homes that have filters.

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	176,118
b. Filters	93,048
c. Filter cartridges	198,552
d. Test kits	29,320

3. Total number of customers on the Flint water system

a. 29,994 current water system subscribers
b. ~45,000 hookups (This is our high end target #)
c. ~39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased*:
    a. Cases of water 141,982 (additional 24,634 donated)
    b. Filters 124,052
    c. Filter Cartridges 285,586
    d. Test kits 62,701

    * Numbers have not been updated due to the following circumstances:
        - Outstanding donations and inventory at the warehouse which has not been reported to the SEOC. Staff in the SEOC is working with donations management and warehouse to reconcile numbers.
        - Outstanding data from GCCARD on deliveries from 1/8-1/12. Staff in the SEOC and local EOC is working with GCCARD to obtain data.
        - At the beginning of tracking the planning factor used was 72 cases of water per pallet and 22 pallets per semi-truck. Per bill of lading received from the warehouse today, it has been identified that this assumption is not correct. Staff is working to reconcile numbers.
5. Teams going out tomorrow:
    a. 10 ARC (2-4 people) type 5 teams -- Goal tomorrow 100 homes per team

Standing Information Requirements

1. ***Number of homes visited each day:***
    a. 1/25/16, as of 5 pm, 2,596 homes were visited today.
2. **Total number of homes visited:**
    a. Phase II: 37,844
    b. Targeted Canvassing Mission: 2,596
3. **Total number of National Guard on the ground:**
    a.
        i. Number in PODs:
        ii. Command and Control Staff for NG Personnel:
4. **Total Number of Volunteers each day:**
    a. 135 volunteers for 1/25/2016.
5. ***Number of homes with filters:***
    a. 17,595 homes had filters, per entered GIS data as of 1/22/2016.
6. **Number of Water filters distributed (each day and to date):**
    a. 1,151 were distributed on 1/25/2016, and total distributed to date is 93,048.
7. **Cases of Bottle water distributed (each day and to date):**
    a. 9,514 were distributed on 1/25/2016, and total distributed to date is 176,118.
8. **Number of testing kits distributed (each day and to date):**
    a. 478 were distributed on 1/25/2016, and total distributed to date is 29,320.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Per CHECC: People tested for lead 10/1/2015 to 1/8/2016: **2,642**;
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Per CHECC:
        i. Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: **28**
        ii. Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: **7**
        iii. Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: **15**
11. **Number of homes with safe drinking water:**

a. 1099 homes, per data from September 3, 2015 to January 22, 2016. Note, per MDEQ, this data is from uncontrolled samples provided by residents.

GIS Information

I have had numerous discussions with GIS staff as to getting our data validated and as close to final as possible. We are tracking 38,144 residential properties within the city (noting large apartment complexes are classified as commercial so they are not a part of this). Of these:

- 34,318 have been engaged by Flint Water Response Teams and PODs (90%) - The remaining 10% is going to be a focus for the teams in the near future
- 23,281 have led to a direct citizen engagement (61%)
- 5,173 were not home during any attempt to visit and have not been recorded as having visited a POD (14%)
- 5,864 of the properties the teams visited were vacant or destroyed (15%)

Additionally, we have been tracking the status of "Active Water Subscribers" from the Flint Department of Public Works. These are residential properties which have meters put on the homes by the city. Of the total 29,994 subscribers citywide, 26,673 have been confirmed as being on residential parcels. Of the 26,673:

- 18,487 Have been confirmed as having received a filter by the Flint Water Response Teams or PODs (69%)
- 3,928 Were not home when visited (15%)
- The remaining 16% we have no data to confirm or deny whether they have a filter

Of special significance from the water subscriber data is that the old lead maps that we are digitizing from the Flint Water Department contain 993 suspected homes with lead lines in them. Of these only 659 have received a filter.

It is significant to note that we are continuing to receive paper forms from the field and processing them. The ARC and volunteers were specifically told to use the App and we provided Ipads but tonight I was told this was not being done by everyone which has caused us some lags in data. This is likely improve the overall numbers as we process historic records (ARC had ~7,000 of these records).

It cannot be reiterated enough that data is still coming in and we are still actively cleansing it.

Local EOC

Operations:

- Coordinated with Foodbank of Eastern Michigan for issuing of Resource Request.
- Coordinating and following up on vehicle demobilization.
- Facilitated rapid response deliveries to special locations.
- Finalizing components of recycling program.
- Received authorization to operate bottle collections for recycling at Fire Station 1 and 5 PODs.
- Initiated activities to plan for inclusion of institution sampling (schools, daycares, nursing homes, etc.) in Genesee County EOC IAP.
- Coordinating volunteer management with Michigan Community Service Commission.

Chris

Update 1/24/16 – 20th Day (19th Full Day) After Governor's Declaration of an Emergency

I have asked state agency SEMCs to archive their SitRep items so you only have current operational period information in the SitRep Agency Summaries. Director Creagh added to daily report.

Mission focus for the day:

- Receive, store, and increase quantities of supplies.
- Increase efficiency of warehouse operations.
- Continue door to door/Flint Water Response Teams (FWRTs).
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.

Attached Documents:

- Situation Report # 19
- Maps:
    - Parcel Contact Status, includes data as of 5 pm today.
        - The first one indicates based upon the outreach that has been conducted, which parcels have we had contact with a resident and which parcels have not had any contact with a resident.
    - Parcel Filter Status (Multi-Tenant Excluded), includes GIS data as of 5 pm today.
        - The second map indicates the status of residents that have or have not received a filter.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).
- WRTs with NG personnel are transitioning out. No field teams. NG will continue to staff the PODs.
- Tony Katarsky will be acting SEOC State Director. Capt. Kelenske not in the SEOC - available by phone (in the Holland, MI area).

Items to Note

- Deployed National Guard/state/local teams and 19 ARC Flint Water Response Teams to the field today.
- JIC was operational with limited staff out of the SEOC today. Co-located JIC in Flint will be back and operational tomorrow.
- SEOC Logistics worked with MDOC on warehouse management transition.
- Recovery Branch began demobilization of trucks and vans.
- Demobilization of National Guard Water Response Teams will be effective as of Monday, January 25.
- School for the Deaf
    - As of 1/23/16: LARA and DEQ teams on site; water testing complete in school building and LRC dorm. Stevens Hall will be tested when landlord finishes upgrades.
    - As of 1/23/16: all water faucets replaced in Stevens Hall. 3 new drinking fountains on order; expected mid-week. Once fountains are installed, Stevens Hall will be scheduled for water testing.

- SEOC Finance Donations Management team to obtain list of donors and donations for FEMA request.
- SEOC Planning Section worked on burn rate data from FWRT and PODS for FEMA request.
- GIS continued to clean up V2 Dataset (patched approximately 1000 records).
- GIS coordinated with the DEQ to transfer lead service line mapping to their GIS department tomorrow. Wall maps showing known lead service lines based off of geographical locations and zip codes provided for Chief Hagler, SEOC DEQ staff and Director Creagh.
- Out of 37,003 homes visited, 5,660 were not home/did not answer. The number of homes visited is lower than the Phase II number as some duplicate contacts at addresses were eliminated.
- Information reported to the JIC:
    - As of 1/24/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	1/24/2016
30,770	37,844	7,012 National Guard/State/Local 4,132 ARC

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	164,991
b. Filters	91,763
c. Filter cartridges	197,775
d. Test kits	28,763

3. Total number of customers on the Flint water system
    a. 29,944 current water system subscribers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 141,982 (additional 24,634 donated)
    b. Filters 124,052
    c. Filter Cartridges 285,586
    d. Test kits 62,701

5. Teams going out tomorrow:
    a. 10 ARC (2-4 people) type 5 teams -- Goal tomorrow 100 homes per team

Additional Standing Information Requirements

1. **Number of homes visited each day:**
    a. 1/24/16, as of 5 pm, 11,144 homes were visited today
2. **Total number of homes visited:**
    a. Phase II: 37,844
3. **Total number of National Guard on the ground:**
    a.
        i. Number in PODs:
        ii. Number on Cyber Mission:
        iii. Number with FWRTs:
        iv. Command and Control Staff for NG Personnel:
4. **Total Number of Volunteers each day:**
    a. 315 volunteers for 1/24/2016.

5. ***Number of homes with filters:**
    a. 17,595 homes had filters, per entered GIS data as of 1/22/2016.
6. **Number of Water filters distributed (each day and to date):**
    a. 4,920 were distributed on 1/24/2016, and total distributed to date is 91,763.
7. **Cases of Bottle water distributed (each day and to date):**
    a. 16,125 were distributed on 1/24/2016, and total distributed to date is 164,991.
8. **Number of testing kits distributed (each day and to date):**
    a. 3,177 were distributed on 1/24/2016, and total distributed to date is 28,763.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Unknown at this time, CHECC will begin providing numbers on 1/25/2016.
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Unknown at this time, CHECC will begin providing numbers on 1/25/2016.
11. **Number of homes with safe drinking water:**
    a. 577 homes, per data from September 3, 2015 to January 20, 2016. Note, per MDEQ, this data is from **uncontrolled samples** provided by residents.

*This is an estimate from Phase I data. We are cleaning up the data to get a more accurate number – Phase II questions were developed to help clean this up.

Local EOC

Operations:

- Distribution of supplies at five water resource sites in the City of Flint.
- Door-to-door distribution of supplies with 34 water response teams (19 ARC volunteer teams, 15 MSP/GCSO/NG teams).
- Facilitating rapid response deliveries to homebound residents and special locations by three teams staffed by Team Rubicon, and Lt. de Castro (MSP/EMHSD).
- Improved logistics for rapid response teams by providing transportation and iPads starting on 01/25/2016.
- Coordinated with ARC for distribution of additional iPads for data entry.
- Identified alternative warehouse locations for lose donations.
- Directed volunteer requests to appropriate state agencies.
- Started coordination for resource demobilization.
- Coordinated with 22 churches so they had water, filters, etc. Delivered Saturday. Some advised they were set with supplies. Lt. Roach (MSP District Coordinator will maintain contact with Pastors).

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/23/16 – 19^{h} Day (18th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs

Attached Documents:

- SitRep 18

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have National Guard/state/local agency, type 3 teams .
- We will have 40 ARC, type 5 teams (2-4 personnel).

Items to Note

- Deployed 15 state/local teams and 40 ARC Flint Water Response Teams to the field today.
- Created a media monitoring report and looked for misinformation. A call was made to WILX to amend their article that implied that the State was not distributing water to undocumented immigrants. The news release was also sent to WILX about how the State is not requiring identification to receive water resources.
- SEOC Logistics worked on future resource planning and a local business commodity supply plan.
- Drafted talking points for Monday's press conference with Governor Snyder, Colonel Etue, and the Mayor.
- Put in place a place to control POD distribution as much as possible. SKU numbers are being lined out on commodities to prevent or minimize returns for cash.
- Information reported to the JIC:

    - As of 1/23/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

To Date	1/23/2016
37,943	6,323 National Guard 7,361 ARC

2. Distributed: Includes outstanding data from yesterday- PODs after 5 pm, ARC worksheets and local EOC hotshots.

Commodity	Total to Date
a. Number of cases of water	148,866
b. Filters	86,843
c. Filter cartridges	194,622
d. Test kits	25,586

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 133,662 (additional 24,634 donated)
    b. Filters 115,700
    c. Filter Cartridges 266,200

d. Test kits 61,161

5. Teams going out tomorrow:
    a. National Guard State ., type 3 teams---Goal tomorrow 300 homes per team
    b. 40 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Worked to identify all vulnerable populations to help streamline Hot Shot/Rapid Response Team process.
- Working on plan for church water distribution and POD locations.
- Looking at possible alternative locations for PODs in difficult traffic areas. The city identified some but they are just as bad as the current ones.
- Working on finalizing a recycling plan for the incident.
- Lt. Roach sent up the church information to Tom Webber. She also received one church site that will act as a potential church mega site.
- SEOC GIS to provide a layer for the vulnerable populations so that Team Rubicon can get to them and track in the iPad.

New Standing Information Requirements

1. **Number of homes visited each day:**
    a. 1/23/16, As of 5 pm, 13,684 homes were visited today
2. **Total number of homes visited:**
    a. 37,943, does include duplicate counts from the second canvasing
3. **Total number of National Guard on the ground:**
    a.
4. **Total Number of Volunteers each day:**
    a. 310 volunteers for 1/23/2016
5. **Number of homes with filters:**
    a. 17,595 homes had filters, per entered GIS data as of 1/22/2016,
6. **Number of Water filters distributed (each day and to date):**
    a. 4,156 were distributed on 1/23/2016, and total distributed to date is 86,843
7. ***Cases of Bottle water distributed (each day and to date):***
    a. 27,462 were distributed on 1/23/2016, and total distributed to date is 148,866
8. **Number of testing kits distributed (each day and to date):**
    a. 2,171 were distributed on 1/23/2016, and total distributed to date is 25,586
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Unknown at this time until we get the data
10. **Number of people with elevated blood level (kids, adults, total):**
    a. *Unknown at this time until we get the data*
11. **Number of homes with safe drinking water (Not sure whether it's possible right now to provide this number):**
    a. Unknown at this time

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/22/16 – 18h Day (17th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue door to door/Flint Water Response Teams (FWRTs)
- Plan for next phase with MSP and NG personnel
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration
- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

- SitRep # 17
- Briefing provided to the HHS Undersecretary by FEMA (due to time only finished 75%)

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- National Guard/State/Local , , type 3 teams
- 40 ARC (2-4 folks) type 5 teams
- Deliveries going out to all churches on our list we have been working with (21) for Sunday services.
- I will not be in the SEOC Saturday. Tony Katarsky will be the acting SEOC state director. I will be available by phone (wrestling meet).
- Sunday, Lt. Mike Johnson will be acting SEOC state director but I may be in for some of the day.
- Monday I am out on a college visit with my son...I will be available by phone and Tony will again be acting.

Items to Note

- Deployed state/local teams and 15 ARC Flint Water Response Teams to the field today.
- SEOC Operations worked on getting local contact into the JIC along with developing messaging for resources and donations.
- SEOC Planning worked on the further development of long term strategy.
- Recovery branch continued coordination with Red Cross on volunteers and the Michigan National Guard for Friday and Saturday.
- SEOC logistics worked with FEMA/DHHS on warehouse tracking status/strategy, coordinated resources, and donations management.
- Have had a number of media request concerning resources for immigrants and population less proficient in English. Clarified with a news release that we are not requiring ID but we are asking for addresses to assist with long term recovery. Nobody will be denied resources if they fail to provide us an address.
- Have received numerous inquiries from celebrities on how they can assist and donate.
- We are validating a lot of data but what we have currently is 38,144 parcels in Flint that are not considered "vacant". This does not mean all parcels have a tenant, there are a lot of houses that are empty.
    - 26,673 water subscribers in Flint (not including franchise).
        - Water Subscribers with a Filter = 15,399 (57.7%)
        - Water Subscribers without a Filter = 11,274 (42.2%)

- With our second pass we are getting more information as to why people do not have a filter. Looking into whether these include homes connected but nobody currently living there. We are refining the data.

- 11,471 Non-Water Subscribers in Flint.
  - Non Water Subscribers with a Filter = 2,196 (19%)
  - Non Water Subscribers without a Filter = 9,275 (81%)
- *The SEOC Ops Chief has been directed to firm up all numbers with GIS.* We have a GIS specialist from FEMA Region V also deployed to the SEOC to assist. ArcGIS has advised us that the amount of data we have collected is more than some major disasters in other states. We are looking into getting their personnel more engaged to ensure we are using all the tools available for analysis.

- SEOC Finance Chief is working on costs to date and all SEMCs were advised to tighten up their records and ensure we have accountability of all costs.
- Information reported to the JIC:

- <u>As of 1/22/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)</u>

1. *Homes visited by the FWRTs to date.*

To Date	1/22/2016
37,697	5,920

2. Distributed: Includes outstanding data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots.)

Commodity	Total to Date
a. Number of cases of water	121,404
b. Filters	82,687
c. Filter cartridges	191,704
d. Test kits	23,415

3. Resources purchased:
   a. Cases of water 130,782 (additional 21,682 donated)
   b. Filters 115,700
   c. Filter Cartridges 266,200
   d. Test kits 61,161

4. Teams going out tomorrow:
   a. National Guard State ( ) type 3 teams -- Goal tomorrow 300 homes per team
   b. 40 ARC (2-4 folks) type 5 teams -- Goal tomorrow 100 homes per team

<u>Local EOC</u>

Operations:

- Worked to identify all vulnerable populations to help streamline Hot Shot process.
- Working on plan for church water distribution and POD locations.
- Looking at possible alternative locations for PODs in difficult traffic areas.
  - Working on finding a new POD for 3 and 6. We are aware that the mayor would need to approve this.
- Coordinated water donations and delivery areas.
- Last minute large donations of water and volunteers expected during the weekend.
- Working on finalizing a recycling plan for the incident.

- The Jail water has been tested and is fine. The prisoners are not being poisoned and the local health department is working on clearing this issue up.
- Working on a plan with the churches to have 4 mega sites for churches (N,E,S,W) and have smaller churches work through these sites to get supplies. Churches are interested in the recycling program, putting information in their bulletins and also used a collection sites.
- Team Rubicon is coming tomorrow to assist with home deliveries.
- Continuing with recycling plan. Need to identify sites with city. Local EOC has visited areas with the local contractor.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/21/16 – 17th Day (16th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) - "Phase II"
- Plan for next phase with MSP and NG personnel for Governor approval – "Phase III"
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration
- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

- SitRep 16
- Draft Water Operations Plan for moving to next phases (Discussion document)
- Resident Water Sample Results Map (Not for public distribution)
- January 13-19 comparison map

Status on Governor's request letter to the President

- Emergency declaration received. Pending decision of Major Disaster appeal and any denials under the Emergency Declaration (e.g. Category B). We have not been denied category B yet ... POTUS/FEMA has not given it to us though. I believe we may get a denial of category B in conjunction with the Major Disaster appeal decision. We will have 30 days to appeal.
    - Category B is critical in that it is for Emergency Protective Measures which includes (but is not limited to) EOC related costs, supplies and commodities, safety inspections, and in limited circumstances "water testing and treatment supplies in the immediate aftermath of the incident to counter a specific threat." We purposely put our start date of this incident to be April 25, 2014 in hopes we get category B and could get 75% federal funds for many other costs all the way back to 2014 – long shot but would be huge if we land this.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have National Guard/state/local agency, type 3 teams), with a goal of 300 homes per team.
    - We will have 15 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- We are using the terms Phase II, Phase III, etc. These are for internal discussion for planning and not meant for public dissemination at this time unless it is determined to be beneficial.
- The draft operations plan (attached) was completed in conjunction with MSP and NG personnel to initiate discussion on our next steps as to WRTs and PODs.
- The WH issued a statement that $80 million dollars in aid to MI mostly to repair Flint water infrastructure. We do not have additional information on this. This may be existing federal funds provided to MI that is just being opened up for other use. FEMA does not have any information on this.
- We have been advised we exceeded the $5 million under the emergency declaration. We are at $7 6 million.
- FEMA has advised that any donated items can be used to offset the state cost share. We are working on the mechanism with FEMA to do this.
- Deployed state/local teams and 10 ARC Flint Water Response Teams to the field today.
- SEOC logistics worked to project future orders of water resources and commodities.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- DEQ test kits are only being provided to those who ask for them.
- I made contact with Senator Ananich aid, Julie Townsend, who was a POC for his volunteers. They are set to work next week on the 30th.
- MDOT met with city personnel to look at Station 6 POD and other PODs to see how traffic flow can be facilitated and safety increased. Additional report out due 1/22.
- A request from MSP MC3 for NG Cyber personnel at $32,000 for 30 days or less) was initiated.

  PENDING APPROVAL. NG advised this would have to be funded with existing funds at this time and to make adjustments.
- MDARD Food Program staff have completed assessments of all 21 food businesses (including restaurants) that were located in the highest risk area. In addition, they have completed assessments at 34 food businesses in the medium risk area, and have scheduled 28 appointments to collect water samples.
- Dr. Nicole Lurie, the Assistant Secretary for Preparedness and Response from the US Department of Health and Human Services (HHS), in addition to the HHS Regional Coordinator and other CDC staff, visited the CHECC and SEOC this morning and provided commentary to CHECC and SEOC staff/EMCs. She also attended a briefing from FEMA before departing to visit Flint.
- Parents of boarding students at the Michigan School for the Deaf were notified of the elevated lead results in Stevens Hall. All fixtures in the dormitory are scheduled to be replaced by January 24, 2016. Lt Gov. has scheduled visit on January 25.
- Valley Area Agency on Aging (VAAA) continues to take calls from seniors and caregivers needing access to water and filters. VAAA is providing this information to the local EOC each afternoon for follow-up.
- Information reported to the JIC:

  - <u>As of 1/21/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)</u>

1. Homes visited by the FWRTs to date.

Phase 1	Phase 2
30,770	5,409

2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.

Commodity	Phase 1	Phase 2	Total to Date

a. Number of cases of water	94,688	10,403	105,091
b. Filters	77,215	2,356	79,571
c. Filter cartridges	188,389	1,039	189,428
d. Test kits	20,037	1,588	21,625

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes/multi family (The is the low end target #)

4. Resources purchased:
    a. Cases of water 124,398 (additional 20,098 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. National Guard/State/Local) type 3 teams -- Goal tomorrow 300 homes per team
    b. 15 ARC (2-4 folks) type 5 teams -- Goal tomorrow 100 homes per team

Local EOC

• Attended ARC meeting with VOADs to discuss volunteer management and strategies.
• Attended meeting with Plumbers and Pipefitters Union to assess the need for long term cooperation for filter installation and fixture
replacement.
• Requested and received confirmation of deployment of Team Rubicon (starting on 01/23/2016).
• Facilitated Flint & Genesee Chamber of Commerce representation at the EOC.
• Addressed security issues at Fire Station 3, 6 and 8 PODs (residents concerned about criminal activity).
• Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
• Met with Genesee County Planning Commission, United Way of Genesee County and Michigan Community Service Commission to clarify
recycling plans and potential volunteer utilization.
• Coordinated and verified deliveries of supplies to apartment complexes.
• Identified potential locations for recycling stations.

Chris

Update 1/20/16 – 16th Day (15th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for second phase of door to door operations

- Submitted appeal to FEMA Region V
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration

Attached Documents:

- SitRep 16

Status on Governor's request letter to the President:

- Emergency declaration received.

Key items for tomorrow to note are:

- Five copies of the State/FEMA agreement will need to be signed by the Governor. Capt. Kelenske has them and will coordinate delivery.
- The logistics plan will be fully executed tomorrow with all teams.
    - We will have National Guard (MSP supported), type 3 teams), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- Dr. Luri from HHS will be at the SEOC ~10:00 p.m.
- A second phase is starting tomorrow which will include more refined questions as to type of filter systems each person has. This will assist with sustainment operations.
- DOC prison work crew personnel (6-7) will be at the warehouse to keep the area clean. A lot of trash is generated in the warehouse and was becoming an issue.

Items to Note

- Deployed state/local (NG, MSP, Local) teams and 10 ARC Flint Water Response Teams to the field today.
- MSP and local Sheriff's Department continue to provide over watch for WRTs.
- Aqua Hydrate contacted me to donate 5000 cases a month (4 semis) for a year. I was advised by Lindon Nelson this was a Governor/Mayor/Senator Ananich and Meekhof initiative and a press release was going to go out soon (TBD). Logistics is following up with them.
- News release sent from Governor's office about the appeal to the President of the disaster declaration.
- SEOC Logistics worked with JIC and Governor's office to establish a business resource submission tab on www.helpforflint.com
- SEOC Operations continued to develop and finalize Phase 2 canvassing roll out.
- Meeting held with Dr. Luri from HHS.
- Capt. Kelenske and other state agency financial personnel attended the appropriations hearing.
- End of day – concerns with the mass amounts of volunteers showing up and wanting to help. This can cause logistical issues but staff was working to get additional tasks for volunteers outside of the WRTs. We will continue to work on ways to involve more volunteers.
- Additional person NG team for warehouse support approved.
- Information reported to the JIC:

    - As of 1/20/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 29,317 homes visited by the FWRTs to date.

2. Distributed: Includes outstanding hard copy data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots).
    a. Number of cases of water 90,337
    b. Filters 73,229
    c. Filter cartridges 185,852

d. Test kits 19,866

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 111,630 (additional 18,502 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. National Guard › type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Addressed reports of water contamination in distributed bottled and canned water. Confirmed that water is safe to drink through testing by MDEQ. Coordinating with JIC and MDEQ for improved public information on the issue.
- Identifying options to reroute unsolicited offers for supplies and services outside of the EOC. Coordinating to set up 800 number.
- Attended meeting with Flint & Genesee Chamber of Commerce to discuss coordination of efforts, representation at EOC, and improved messaging.
- Attended meeting with Community Foundation of Greater Flint to discuss coordination of neighborhood groups and improved messaging.
- Coordinated with MDARD to provide additional lead testing at restaurants, and signage for safe locations.
- Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
- Coordinated and verified deliveries of supplies to apartment complexes.
- Discussed logistics requirements of delivery requests for homebound residents with SEOC Logistics.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/19/16 – 15th Day (14th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel

- Prepare plans for next phase of operation – Second sweep of city

Attached Documents:

- SitRep 14

Status on Governor's request letter to the President:

- Emergency declaration received.
- Appeal letter pending.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have National Guard, type 3 teams I), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed state/local teams and 11 ARC Flint Water Response Teams to the field today.
- Messaging being developed for concerns regarding the Total Dissolved Solids (TDS) meters and citizens' concerns with those meters indicating "lead" in bottled water. Testing of water to be done by DEQ to ensure we have solid messaging.
- DTMB is working to secure space in Flint for FEMA staff
- Press release went out this afternoon to announce that the US Department of Health and Human Services will lead the federal response in Flint. Capt. Kelenske to meet with Dr. Nicole Lurie, HHS Assistant Secretary for Preparedness and Response (ASPR), on Thursday. The goal of the federal response will be to help state and local leaders identify the size and scope of the problem, and work with them to make and execute a plan for mitigation of the short- and long-term health effects of lead exposure.
- Additional NG personnel being requested to assist with Warehouse inventories.
- NG personnel on the ground with the WRTs tomorrow with more transitioning in.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- LG is going to be in Flint working at one of the PODs on Wednesday.
- Information reported to the JIC:

  - As of 1/19/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 22,129 homes visited by the FWRTs to date.

2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.
   a. Number of cases of water 77,794
   b. Filters 69,730
   c. Filter cartridges 184,457
   d. Test kits 16,671

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)
   c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 95,760 (additional 16,056 donated)

b. Filters 115,700
c. Filter cartridges 243,200
d. Test kits 61,161

5. Teams going out tomorrow:
   a. National Guard type 3 teams---Goal tomorrow 300 homes per team
   b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Attended public health group meeting with GCHD, City of Flint Water Department and MDEQ to discuss water test information being returned to residents, to allow residents a greater understanding of results.
- Attended recycling/trash management group meeting with DEQ, Republic Services, Keep Genesee County Beautiful and Genesee County Planning Commission. Provided projections on current and anticipated bottle distributions.
- Coordinated deliveries of supplies to faith-based organizations, apartment complexes and homebound residents.
- Coordinated with Comcast to set up locations for distribution of filters (distributed 60 filters on 01/19/2016).

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/18/16 – 14th Day (13th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) and PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.
- Complete appeal for Presidential Major Disaster Declaration denial.

Attached Documents:

- SitRep 13
- Side by side comparison of homes with filters January 13th compared to January 18th. This should be hitting the media tonight. This took longer to create than I wanted but is the image I have wanted to show progress of getting filters in to the field.

Status on Governor's request letter to the President:

- Appeal in process.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have › state/local agency, type 3 teams ( ), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

- *NG will be bringing in personnel to prep for surge.*

Items to Note

- Beginning tomorrow the operational periods will be 7 days long.
- The CDC/ATSDR (Agency for Toxic Substances Disease Registry) has deployed a team to Michigan.
- An Arabic version of the palm card was reviewed and approved. This was developed via Arab American and Chaldean Council.
- Deployed 12 state/local teams and 10 ARC Flint Water Response Teams to the field today.
- DTMB is working to secure space in Flint for FEMA staff.
- Cost analysis to investigate if it would be more cost effective for FEMA to purchase water vs the SOM.
- ARC news release concerning the Volunteer Reception Center (VRC) sent out today.
- Media availability conducted today at 3pm at the VRC.
- Since 1/14/16 Michigan 2-1-1 has received three direct reports of bottled water testing positive for lead. DHHS SEOC Desk and DEQ SEOC Desk was able to contact two of the callers. The Zero Water filter (pitcher) has a handheld test device so people know when to change the filter. This TDS Meter measures dissolved solids (it is not a lead test). This was explained and we are going to work on messaging to ensure this does not cause issues. Dissolved solids are in all water. The water from the callers is going to be tested and a case of water from one of the companies will also be sent to DEQ for testing. Brands are Spartan Spring Water and Canned Water for Kids. The filter company is also going to work on messaging and work with us on this matter.
- Information reported to the JIC:

  - <u>As of 1/17/16 as of 5 pm (start date was Tuesday, 1/12/16)</u>

1. 21,393 homes visited by the FWRTs to date.

2. Distributed:
   a. Number of cases of water 37,313
   b. Filters 53,713
   c. Filter cartridges 169,520
   d. Test kits 7,379

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)
   c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 82,992 (additional 16,056 donated)
   b. Filters 115,700
   c. Filter cartridges 243,200
   d. Test kits 61,161

5. Teams going out tomorrow:
   a. State type 3 teams---Goal tomorrow 300 homes per team
   b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

<u>Local EOC</u>

Operations:

- Continuing to work with faith based organization to distribute resources.
- Working with colleges to obtain volunteers for canvassing.

Chris

Update 1/17/16 – 13th Day (12th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs), PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.

Attached Documents:

- SitRep 12

Status on Governor's request letter to the President:

- Emergency declaration received.
  - Limited to direct assistance so we will need to ask for the Individual Housing Program but that is something I will work on with FEMA.
- Major disaster declaration denied. The appeal is being developed with a draft to Paul Smith by later afternoon 1/18/16.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have state agency, type 3 teams ( ), with a goal of 300 homes per team.
  - We will have 12 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed 1 state/local teams and 10 ARC Flint Water Response Teams to the field today.
  - 4,963 homes visited today.

01/16/16

- *Information reported to the JIC:*

    - <u>As of 1/17/16 as of 7pm (start date was Tuesday, 1/12/16)</u>

1. 16,353 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received from prior to the SEOC activation (trying to validate the data) plus the PODs and door to door operations since activation.

    2. Distributed:
        a. Number of cases of water 27,195
        b. Filters 50,432
        c. Filter cartridges 168,605
        d. Test kits 4,861

    3. Total number of customers on the Flint water system
        a. 29,944 paying customers
        b. 45,000 hookups (This is our high end target #)
        c. 39,000 includes apartment complexes (The is the low end target #)

    4. Resources purchased:
        a. Cases of water 57,456 (additional 12,884 donated)
        b. Filters 108,520
        c. Filter cartridges 239,081
        d. Test kits 28,901

    5. Teams going out tomorrow:
        a. State type 3 teams---Goal tomorrow 300 homes per team
        b. 12 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

<u>Local EOC</u>

Operations:

- Facilitated activation of the Genesee County/Genesee Health System MOU for mental health services.
- Coordinated supplies for distribution to students at the U of M Flint campus.
- Still concerned about people going to every fire station and collecting water/filters.
- Coordinated trash pickup at Fire Station PODs with the City Liaison officer.
- Coordinated hotshot deliveries of supplies to home bound population.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/16/16 – 12th Day (11th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to prepare for engagement following the Presidential Emergency declaration

Attached Documents:

- SitRep 11

Status on Governor's request letter to the President:

- Emergency declaration received. Federal Coordinating Officer (FCO) is David Samaneigo (Sam) who has been my LNO from FEMA. We began discussions on a transition to FEMA support last night His team is headed to MI at this time and we will have our first coordination meeting on Sunday.
- The request for a Declaration of a Major Disaster was denied. FEMA advised this event does not fit the legal definition of a major disaster (natural incident or fire, flood, or explosion). This information has been provided since prior to the event to elected officials in Flint and the legislature. We are reviewing the chances for an appeal and I have already discussed this with the FCO.

Key items for tomorrow to note:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have state agency, type 3 teams ( ), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- I will be back on duty Sunday.
- We have been working with some of the churches. Contact was made with 14 churches for Sunday distributions. Interaction with the pastors has been very positive.
- A logistics briefing will be provided to see how many more teams we can put in the field.

Items to Note

- LT Gov visited the local EOC today; discussed local EOC operations.
- Deployed 11 state teams and 10 ARC Flint Water Response Teams to the field today.
- DEQ sampling kits are now being received at the PODs.
- DEQ sampled two Head Start facilities and worked with GIS to obtain future sample sites.
- The Freeman School pilot was delayed due to some parts not arriving as scheduled. Testing was to be done Sunday but may not occur until Monday.
- NG will have a total of personnel in the PODs for distribution. Mission has not changed.
  - NG soldiers have been in the PODS. more processing in tomorrow with start date of 1/18 in the PODS. The TAG and I will be discussing future use of NG personnel door to door next week.
- Information reported to the JIC:

- As of 1/16/16 7pm (start date was Tuesday, 1/12/16)

1. 11,324 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received prior to the SEOC activation plus the PODs and door to door operations since activation. 3,850 homes were visited today (4,000 was the goal).

2. Distributed:
    a. Number of cases of water 20,876
    b. Filters 47,935
    c. Filter cartridges 167,401
    d. Test kits 3,322

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 57,456 (additional 12,884 donated)
    b. Filters 108,520
    c. Filter cartridges 239,081
    d. Test kits 28,901

5. Teams going out tomorrow:
    a. State) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Provided direction to Operations and Logistics Section to initiate water sample collection at PODs.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional churches were supplied with water, filters and test kits.
- Still concerned about people going to every fire station and collecting water/filters.
- Station #6 (POD) has associated safety concerns due to proximity of street and lack of suitable parking. We are working to resolve.

Subject: SEOC Update 1/15/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/15/16 – 11th Day (10th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Pilot the logistics plan and adjust as needed
- Continue with door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to ensure we get a Presidential Declaration of a Major Disaster and Emergency

Attached Documents:

- SitRep 10

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. Numerous calls and meetings took place between me and FEMA today.
- When we get the declaration(s) ... I will set up a legislative/congressional call to explain and provide bullet points as to what programs we will received. The Federal Coordinating Officer assigned will also be with me to answer questions. This has helped in the past.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have state agency, type 3 teams , with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
    - A pilot team was used to test our logistics plan today and with 60% strength they had 160% output (830 homes).
- I will be off tomorrow but available by cell. Tony Katarsky will be SEOC State Director. I will be back in on Sunday.

Items to Note

- LT Gov visited the local EOC and SEOC today. He was able to hear our final briefing for the day.
- Held a short session managing stress with SEOC staff. Two handouts were put in MICIMS for all state and local personnel to view.
- Deployed state teams and 5 ARC Flint Water Response Teams to the field today.
- Standing requirements were created for the JIC so we can get information to the media every day. Below are the current ones we have in place and we should have something out tonight according to the JIC.

    - As of 1/15/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 7474 homes visited by the FWRTs. We believe we have ~24,000 homes with filters but are trying to validate that information. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.

2. Distributed:
    a. Number of cases of water 18,576
    b. Filters 45,916
    c. Filter cartridges 165,382
    d. Test kits 3,217

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)

c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 44,688 (additional 12,884 donated)
    b. Filters 78,520
    c. Filter cartridges 163,081
    d. Test kits 18,761

5. Teams going out tomorrow:
    a. State) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Home Deliveries:

- Still receiving lists from the Valley Area Agency on Aging (VAAA) on home deliveries and forwarding these to the Sheriff's office. They are going through a lot of homes. 120 out of 125 homes were completed yesterday.

Operations:

- We sent staff to visit Fire Station 6 and the warehouse today. Fire station 6 traffic was congested and that was during a "slow" time. The National Guard is identifying what is needed to alleviate this. MSP is working on providing uniform presence as needed. An additional iPad at each location will hopefully help relieve the amount of time that people are spending at the distribution sites.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional requests from churches were made and I approved the locations so they could be ready for Sunday. Lt. Roach was told by one of the pastors that he met with the Gov today and expressed how much he appreciated the efforts put forth. We should have 14 for this Sunday. We are working on how we can increase this output.
- Still concerned about people going to every fire station and collecting water/filters. NG personnel observed vehicles with several cases of water an overheard saying they were heading to the next station. Some people were helping themselves and taking more than one case at a time. Per the NG they cannot physically stop people from doing so. The NG is going to try to change staging in the fire stations to try to prevent this.
- Flint PD is going to check in every day with the EOC and provide a specific contact person. They are also going to help with traffic issues at the PODS. Will ask Flint PD to provide a presence when water is off loaded at a POD to help prevent people from "helping themselves."

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/14/16 – 10th Day (9th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and finalize lease on warehouse space/begin to move supplies from GCCARD to new warehouse
- Continue with door to door teams and finalize planning for future team use

- Submit request for a Presidential Declaration of a Major Disaster and Emergency
- Continue to work on long term recovery items (DHHS, DEQ, MDARD)

Attached Documents:

- SitRep 9

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. I had a lengthy conversation with the FEMA Region V Administrator reference the request prior to sending.

Key items for tomorrow to note are:

- The door to door teams will continue in the morning.
- *We will continue to ramp up door to door operations with additional teams. Teams continue to* focus on the high lead level areas and additional data is being analyzed to focus mission areas.
- ARC will increase the number of their Water Response Teams.
- Supply burn rates as well as projections on how many teams will be needed to put filters in all homes within 3 and 5 days will be completed. Analysis will be done to see in NG personnel may be needed to finish in quicker manner.

Items to Note

- DEQ was notified of the number of homes who are willing to have them take additional samples in the future (current number (114). This question was added to the App being used by the Water Response Teams. Data will be provided when needed.
- LT Gov is scheduled to be at the local EOC and SEOC (~4:30) tomorrow to see the operations.
- Secured 80,000 sq. ft. of a warehouse today. Working to consolidate all resources in one location. Tomorrow will be the first day of full implementation of our logistics plan.
- Email sent to state employees to request volunteers for weekend.
- Media monitoring showed no incorrect information today.
- Michigan Association of Broadcasters is sending PSA to radio stations.
- Coordinating with Red Cross on volunteers for weekend.
- Deployed 8 Water Response Teams to the field today (approx. 120 volunteers). 78 Red Cross volunteers active across the operation today.
- National Guard is ramping up to have soldiers per shift at each POD tomorrow. Will also have a Public Affairs Officer at the JIC and liaison at the local EOC.
- Senator Ananich visited the SEOC today to see how things operate. The visit went well and he seemed happy with the number of staff working the Flint event He tweeted out a message *indicating there is still a lot of work to be done but all are working hard.*
- DHHS
    - The Community Health Emergency Coordination Center (CHECC) is working on the following:
        - A nutrition plan
        - Education materials, messaging, and working with local agencies
        - Developing a community assessment for disaster behavioral health services.
- Lined up the delivery of filters to two large apartment complexes and a student housing complex.
- We have the list of individuals needing home service (additional contacts will be sent to the Ops Chief at the Local EOC each day at 4:00). Info will be provided to the sheriff's office for action.
- Water Response Team Numbers (this is not the total of homes with filters – I will provide that number tomorrow but it appears we have filters in over half the residences):

	TOTAL	1/12/2016	1/13/2016	1/14/2016
Occupied Homes	1450	242	492	716
Vacant Homes	1967	152	161	1654

Total Homes	**3417**	394	653	2370
Resources				
Door Hangars	1487	217	453	817
Water	588	117	254	217
Filters	945	112	220	613
Pitchers	22	3	13	6
Water test kits	217	48	109	60
Replacement Filter	482		137	345
Total Resources Dispersed	**3741**			
Future sample test site	114	28	34	52

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/13/16 – 9th Day (8th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and close lease on warehouse space
- Continue with door to door teams and finalize planning for second wave increase (+15 teams – total for 1/14/16 will be 20)
- Continue to work on Governor's Declaration of an Emergency

Attached Documents:

- SitRep 8

Status on Governor's request letter to the President:

- All support data from state Agencies and local jurisdictions collected as of 6:00 pm on 01-13-16
- Current timeline:
    - First draft completed and ready for review by State Department Directors (including the Attorney General) by 11:00 am on 01-14-16
    - State agency reviews due back by 1:00 pm on 01-14-16 for revision of the draft
    - Revised draft to Captain Kelenske by 2:00 pm on 01-14-16 for review and forwarding to the Governor for final review
    - Final draft (based on Governor's review) submitted to FEMA Region V Administrator by no later than cob 01-14-16 but hopefully sooner. FEMA is aware and ready to receive.

Requests and potential response from FEMA/President

- The letter will request all programs eligible under the Stafford Act including Public Assistance, Individual Assistance, Hazard Mitigation, FEMA's coordination of assistance from other Federal agencies and direct assistance from FEMA
- The letter will also request potential direct reimbursement from other Federal agencies such as EPA, CDC, HUD, DHHS and SBA
- This request is in coordination with the request for Non-Stafford Act federal assistance already requested and received by the State (technical assistance and administration, but no direct reimbursement of disaster costs)

- Direct Federal assistance from FEMA in the form of Individual Assistance to homeowners for household repairs (repair and/or replacement of water service lines and Other Needs Assistance to reimburse for water filters, bottled water, etc.) is a possibility
- Direct Federal assistance from FEMA in the form of Public Assistance is not as likely as it is mostly replacement of publicly owned water distribution lines (and not the direct result of damage from a natural cause)
- If Stafford Act assistance is denied (Public Assistance, Individual Assistance and Hazard Mitigation) FEMA could still provide coordination of assistance from other Federal agencies if the President declares a disaster (or emergency) for the State of Michigan

Key items for tomorrow to note are:

- The door to door teams will continue at 9 a.m. – 5 p.m. Thursday morning and continue through the weekend.
- We will continue to ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas and additional data is being analyzed to focus mission areas.
- MNG will have a press event at the armory with incoming soldiers and MG Vadnais.

Items to Note

- Received information that Rev. Jesse Jackson will be in town 1/17/16 at 1:30 at the Heavenly Host Church of the Harvest of Dartmouth St, Flint.
- Managed and corrected misinformation on NG role.
- Senator Ananich is stopping by the SEOC tomorrow morning 0845. I am meeting with him and his Chief of Staff. Short visit as he has a 0930 at the Capitol.
- Working with Comcast so they can put teams in the field for distribution.
- Penske is going to give us 15-20 trucks over the weekend.
- Contact made with Two Men and a Truck for resources.
- Meeting set with Google where they will brief me and key staff potential tasks.
- Coordinated with Flint Mass Transportation Authority (MTA) to include Fire Station PODs on bus routes.
- Tomorrow I will have a projection as to the number of teams needed to get all citizens filters in their homes in 5 days / 3 days.
- We are standardizing team structure and supply deployment to increase efficiencies. Mission Ready Package (MRP) specifications will be sent out for other entities to assist with door to door. They will then be able to arrive as a MRP, get supplies, receive a mission location and deploy.
- 5 Water Response Teams were in the field again today. Below are the numbers from the 2 days of just the Water Response Teams (there are paper copies with data still to be entered from the PODs). I was just briefed by the ARC logistics planner and there are efficiencies we can put in place to increase homes touched per day. The next version of the app will provide more granular details. Additional 30 tablets were configured by DTMB today for field implementation to include use in the PODs.

	Total	1/12/2016	1/13/2016
Occupied Homes	533	242	291
Vacant Homes	238	152	86
Total Homes	**771**	**394**	377
Resources			
Door Hangars	473	217	256
Water	265	117	148
Filters	235	112	123
Pitchers	9	3	6

Water test kits	92	48	44
Replacement Filter	93		93
Total Resources Dispersed	**1167**		
Future sample test site	62	28	34

- We show 17,276 residences with filters (this does not include data entry to be completed from POD or other locations).
    - We have 35,378 service hookups but with apartments, multi residence dwellings, etc we would be around 45,000.
- Logistics Support
    - The American Red Cross Logistics Planner provided me a brief and I approved the plan forward. *The current plan includes:*
        - Mission – A filter in every home ASAP.
        - 4 Distribution Methods
            - PODs (5)
            - Water Response Teams (20 effective tomorrow and this will increase)
            - Local EOC "Hot Shots" (these are calls for functional needs, unable to get to a POD location due to ??, etc). Personnel dispatched with supplies.
            - Local EOC support for other local requests (Faith based for distribution, etc.)
        - Three warehouse locations at this time
        - How to better leverage ARC resources

- Supplies – Daily Numbers
    - Replacement Cartridges - 30,700 delivered.
    - Water (cases) - 19,152 cases delivered

- Budget projection completed and will be submitted to SBO for review.

- Notes from Water Response Team Command (MSP)
    - Very good synergy between Flint Post troopers and Genesee County Sheriff command and deputies in effective and efficient deployments for distribution efforts.
    - Great attitude and efforts by uniforms and volunteers to make important contributions to the City of Flint on water response team deployments.
    - Clear direction and coordination in the field of supply teams by lieutenants and troopers. No confusion. Clearly defined roles.

All personnel continue to be fully committed to fixing this as quickly as possible.

Chris

<u>Update 1/12/16 – 8th Day (7th Full Day) After Governor's Declaration of an Emergency</u>

I apologize in advance for the length of this report. With the supply issues we had the last couple of days I wanted to share our inventory plus what we anticipate to ensure we do not have supply issues.

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Fine-tune logistics

- Increase and deploy door to door teams (4 state teams added to teams from the Sheriff's Department)
- Increase collaboration and messaging of collaboration with local agencies (specifically the Sheriff's Department)

Attached Documents:

- SitRep 7
- Executive Order Activating the National Guard

Key items for tomorrow to note are:

- The Governor signed an Executive Order activating the National Guard. Mission will be to relieve ARC volunteers at the PODs (Fire Stations) which will free up the ARC volunteers for door to door activities.
    - I have briefed the ARC Disaster Officer on this plan.
- The Governor requested, through FEMA Region V, support from the Federal Emergency Management Agency (FEMA) to bring together and identify other federal agencies that may have programs and funding that could be dedicated to assisting Flint as part of an interagency recovery plan. One of the existing LNOs has been identified as the POC for this. He will be a great liaison for the FWIACC.
- The door to door teams will continue at 0830 Wednesday morning and continue through the weekend and ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas.
- We will look at all commodities and see where we are and where we need to be while working with the ARC logistics specialist.

Items to Note

- PSA video sent out to Flint citizens on resources available.

- Water
    - Today's numbers - 7,824 cases of water arrived today, 1/12/16 (109 pallets)
    - Ordered:
        - 19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)
            - 1/3 is going to GCCARD and the rest is going to the new warehouse
        - 12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)

- Filters
    - Today's numbers
        - Ordered on 1/11/16 and delivered 1/12/16 direct to GCCARD
            - 2,000 – Brita filter faucet mounts
        - Filter Replacements
            - 2,400 – Brita filter replacements (single pack)
            - 8,000 – Brita filter replacements (two pack)
    - Ordered on 1/12/16 to arrive Wednesday
        - Faucet Mounts – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
            - 10,000 – PUR Vertical faucet mount
            - 2,500 – PUR Horizontal mount
        - Replacement Filters – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
            - 10,000 – PUR replacement filters (3 pack)
            - 10,000 – PUR replacement filters (single pack)
        - PUR Combination Pack – to be delivered to GCCARD on 1/13/16 (Wednesday)
            - 10,700 – PUR combo packs

- To arrive Thursday
  - Zero Water Pitcher (8 Cup) – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 1,300 – Zero Water pitchers
  - Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 11,000 – PUR vertical faucet mount
    - 1,500 – PUR Horizontal faucet mount
    - 5,000 – Brita faucet mount
    - 10,000 – Brita adv faucet mount white
    - 12,000 – Brita adv faucet mount chrome
  - Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 117,600 – PUR replacement filter

- Test Kits
  - 6601 unassembled kits arrived at GCCARD today, 1/12/16.
  - 500 have been assembled and are ready for distribution
  - 1000 additional unassembled kits have been ordered to be delivered at GCCARD (no ETA yet)
  - 10,142 unassembled kits to arrive at GCCARD early next week

- Second warehouse – Located in Flint
  - 100, 000 square feet of secure warehouse obtained.
  - Accepting commodities beginning Wednesday, January 13

- Logistics Support
  - The American Red Cross Logistics Planner arrived from DC today as requested. I outlined what her mission was and how I saw the progression forward. This logistics planner will assist in streamlining the inventory and distribution process now and into the future.

- *Door to Door Numbers*
  - Today the app implementation for the field went extremely well. There were a few issues that were quickly addressed. One related to how form fields should be filled out. Another was getting styluses for teams so that they don't have to remove their gloves in the cold. All very simple to fixes.
  - We are working on version 2.0 so this can be used at the PODs
  - We should be able to greatly optimize distribution in the near future as we mapped the active water subscribers from Flint's DPW and are adding them to the field team members apps. Of the ~56,000 possible addresses, this reduces the number of possible homes to visit down to ~29,000.
  - Notes from the field commander:
    - "Today we started out the day using two groups that consisted of approximately 10 people in each group. We eventually combine groups with Genesee County Sheriff's group and they brought two more groups with approx. 10 people (Local UAW) in each group. This made us a lot more efficient and we were able to set up a game plan. Tomorrow I feel we will be more efficient and we will have a better plan in place to get the maximum output out of our resources."
  - In the end, there were 394 total home visits with the following breakdowns:
    - 217 Door Hangers
    - 152 Vacant Homes
    - 117 Water Distributions
    - 112 Filters
    - 3 Pitchers
    - 48 Water Test Kits

- 211
    - CALL VOLUME:
        - 185 calls for water-related issues had been received as of 4:45 pm.

- Logistics made contact with Comcast and will be supplying them with filters and replacement cartridges for their deliveries in their work trucks as they make services calls. They will follow our procedures for reporting (our checklist).

Chris

Update 1/11/16

The focus today was the media event and getting the supplies and logistics on track. Most of the activity today was working on logistics for the water and other supplies.

Attached Documents:

- SitRep 6

Key items for tomorrow to note are:

- *The door to door teams will start at 0830 Tuesday morning.* It is reported that troopers are going to the door but DHHS employees are the lead with a troop car nearby.
    - State and local GIS created an App today for the teams to use tomorrow but I see potential use at distribution sites.
    - The App data will be used for our maps as we survey the public/distribute supplies and we will be getting real time metrics through the site from the field send back to the SEOC. We are using Android tablets tomorrow but in the future can use any mobile device for this.

Items to Note

- It was reported that only one POD (Station 5) was out of water longer than 30-45 minutes. This site was ~2 hours without water and part of that was the truck went to the wrong station. Trucks were sent as soon as the local EOC was notified.
- We also did not receive a DHHS shipment that was to come in which caused some filter delivery issues.
- Supplies are limited at this time; however, we are getting our shipments starting at 0630 tomorrow.
- We have Home Depot giving us 12,768 cases (this was a late development so the SitRep indicates half the amount) of water every day starting tomorrow. We are still working with other distributors too.
- ARC is flying in a logistics planner tomorrow. Three additional staff with be with her to shadow and help. We are turning warehouse logistics over to ARC logistics. We are moving tomorrow to a process that has a distribution center (GCCARD) and a warehouse that is 100,000 square that will maintain mass quantities. Staff has continually been placing orders for supplies to ensure we get a head of this. The intent is to keep the warehouse full so we do not have these continual issues of supplies.
- Began mapping lead service lines (anticipate having draft of lead service lines Friday).
- Coordinated with local IT managers overseeing filter tracking system to streamline data collection.

Local Emergency Operations Center

- Working to coordinate resources at the local level to maintain adequate supplies at all PODs.
- Demand has exceeded supplies and supplies are moving rapidly from PODs today. Working to make sure POD managers notify us when they start running low.
- Working to establish a warehouse for local resource storage.

• Established trigger points for resources at PODs and hourly inventory reporting from the PODs.
• Discussed potential long term water sources between local EOC and SEOC.
• Established planning cycle/meeting scheduled for 1/12/16.
• Local EOC EMHSD staff with Natasha Henderson to request deployment of City representative at local EOC.

Chris

Update 1/10/16

Attached Documents:

- SitRep 5
- Door card (English version but Spanish version will be ready for Tuesday)

I have a local EOC section listed below but state personnel are heavily engage in management of both locations. We occasionally hit some road bumps with this event but all personnel are working well together to accomplish our goals (especially state agency personnel).

I have had good discussion with FEMA LNOs. Two statements have been developed from our discussions that hopefully helps put this in more context but if it is more confusing I apologize:

1. In the immediate response, the State, in collaboration and coordination with city of Flint and county of Genesee are working to get water, water filters, and testing kits to the affected population. In conjunction, the state will coordinate with federal agencies to ascertain what resources can come to bear to help mitigate the issue.

2. If asked about a federal declaration from FEMA, we need to articulate the definition of major and emergency declaration and state or note to ourselves that it appears to not qualify; **however**, there may exist opportunities to leverage federal assistance from some agencies (i.e....EPA) under their own authority to help address this issue.

    - We need to really manage expectations on the potential for a federal declaration...not that we will not go after one but it will be difficult to get.
    - A major disaster is defined in the Stafford Act as any ***"nature catastrophe (including hurricane, tornado, storm, high water, windriven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause any fire, flood, or explosion.....causes damage of sufficient severity and magnitude, to warrant major disaster assistance.....to supplement the efforts and available resources of States, and local government....."***
    - An emergency declaration is ***"is any occasion or instance for which, in determination .....assistance is needed to supplement State and local efforts and capabilities to save lives and protect property and public health and safety or to lessen or avert the threat of a catastrophe....."***
        - This is limited to immediate and short-term assistance (I hate to put times on this but short-term is like 3 weeks), essential to save lives, protect public health and safety and property.
    - Severity of the situation is ***"A finding that the situation is of such severity and magnitude that effective response is beyond the capability the state and affected local governments,***

and that the state requires supplementary federal emergency assistance to save and to protect property....

- Nature of assistance for Emergency Declaration is for ***"Debris removal, emergency protective measures, direct federal assistance...."***
    - Debris Removal = ***self-explanatory and we do not have this***
    - Emergency Protective measures = ***water, commodities, transportation (remember ... to supplement what the locals and state are already doing if we need more)***
    - Direct federal assistance= ***what specific type of work is requested, and what are the reasons why the state/local government cannot perform or contract for performance. Essentially what is the need that state/local govt cannot provide. I can see this being something we need but we may be able to get this outside a federal declaration under the federal agencies own authority to help address this issue.***

Back to the update...

Key items for tomorrow to note are:

- Training is occurring for the door to door teams scheduled for Tuesday morning.
- Deploying an additional MSP District Coordinator to the local EOC for command and control support.
- Deploying two DTMB trucks and two drivers for sustained logistical support for the week.
- Media event with the Governor in Flint.
- New Incident Action Plan starts (1/11 0800 -1/13 0800 operational period). Our objectives are as follows:
    1. Ensure all households within impacted community have required resources.
    2. Ensure accurate tracking and accounting of all commodities.
    3. Improve and maintain public information strategy.
    4. Develop a long term public health and services plan.
    5. Ensure adequate staffing to support operational requirements.
    6. Identify possible assistance programs.
    7. Develop an approved GIS strategy.
    8. Maintain coordination between partner agencies and organizations.
    9. Enhance situational awareness and common operating picture of all activities.
    10. Develop a comprehensive Recovery Plan.

Items to Note

- All 9 churches had filter systems/replacement filters, information sheets, and water test kits delivered as requested by each pastor/reverend on Sunday. We did not think we could get them water due to the limited time but we did end up getting water to all 9 churches with the other items.
- Fire station resource locations stayed open from 9a to 9p and will continue with those hours until further notice (Staffing is in place until Saturday). ARC is staffing these locations.
- The media event was held at Fire Station No. 1 and report back is that it went well and the spirit of collaboration between local, state, non-governmental partners is strong was relayed.
- The four door to door teams will have the hours of 8:30 a.m. to 5 p.m.
    - Each will have logistics support from DTMB, security from MSP, and contact personnel from DHHS.
    - The door card is attached that will be left if no one is home.
- Worked to identify a storage location within the City of Flint for water and supplies. G-CARD is identified as temporary location but we are moving toward a state run warehouse operation (looking at private sector partners to assist, especially with the warehouse management side).

    - GCCard is large enough, centrally located and comes staffed. GCCard has 75,000 sq ft with warehouse managers to assist with tracking resources coming in and out.
- GIS will provide us daily updates of how much was distributed each day but note we have a delay in data entry from delivery to entry in the GIS system. Over the weekend there was a problem locally with staffing to get this completed. A solution is in place and will be implemented so we get timely data. Distributed to date (as of 1/8/16).
    - 12,386 filters
    - 1,985 replacement filters
    - 354 Pitchers
    - 2500 Lead Testing Kits
- Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to ensure distribution sites maintain an appropriate level of inventory. I have requested trigger points get put in place so we do not get below certain levels in the main warehouse location.
    - Contacts with some large water distributors have been made and their and our logistics chiefs will connect first thing this week.
    - We have ordered an additional (expedited delivery with ETAs tomorrow)
        - 40,000 Brita Filters
        - 40,000 Brita Replacement Filters
        - 1000 Zero 8-Cup Pitchers
        - 1000 Zero 8-Cup Pitchers
        - 2000 PUR Replacement Filters
        - 93 Pallets of water (about 6700 cases)
- GIS continues to produce multiple maps for use.
- JIC Items
    - Requested PSA on the radio. Media has been approved and working with MAB.
    - Requested JIC to contact Comcast and Dish Network for availability for continuous running of filter install/replacement and test kit video.
    - A news release will likely going out tomorrow regarding canvassing in neighborhoods. Continued social media messaging.
        - Tuesday – embed state PIO with one of the canvassing teams to liaison with media.
        - JIC moving tomorrow to Flint.

Local Emergency Operations Center

I am providing you some information on some issues we ran into at the PODs. This has been addressed with additional state resources and processes put in place so we do not run out of resources. Public concerns/complaints have not been brought to my attention at this time. Staff is working very hard to ensure we do not run out of supplies at the PODs and they understand the consequences. No one in the Local EOC or State EOC is happy the follwoing occurred and I felt you should know in case it is brought up. Again, I believe we have fixed this and I take full responsibility for any supplies not being on site.

Fire Station Inventory Levels:

Station 1:

- Only time without supplies - 15 minutes without water while the truck was unloaded.

Station 3:

- Ran out of replacement filters around 7:00, replacement filters delivered around 7:30. Had to pick up replacement filters from Home Depot and deliver.

Station 5:

- Ran out of water around 5:00, water was delivered around 6:30. We needed to find additional trucks because DTMB drivers were over hours. The ARC stepped up and found a truck to go and pick up a pallet of water and deliver.

- Somewhere between 4:00-6:00 they ran out of lead test kits. No way to restock these because City facilities were closed and could not reach anyone.

Station 6:

- Around 5:00 ran out of water, filters, and replacement kits. Replacement kits were delivered around 7:30. Additional water and filters were delivered after 9:00 due to the DTMB drivers heading back to Lansing. Food Bank was called and had to get drivers in to operate trucks, pick up water from the School District, load and deliver to all sites. Delays occurred with weather conditions and needing to use last minute sheriff EOC staff to load due to issues with City workers. City workers were scheduled to help and left around 7:00 without helping.
- 2 pallets of water were dropped off in the afternoon and within 1 hour were gone. This was much faster than we expected. *On 1/9 they didn't go through 2 pallets of water at any station* for the hours 9:00-4:00.
- We received news that a reverse 9-1-1 call notified residents of water which caused an unanticipated amount of people obtaining water. There was also a report of 1 person walking out with 2 cases of water and trying to sell in the parking lot.

Station 8:

- Around 7:00 ran out of filters and lead tests. Filters were delivered around 8:00 from the food bank trucks.
- Hourly reports were requested in the morning from volunteers but this information was not received as to the status throughout the day. Early inventory of supplies took between 1 hour-1.5 hours to receive in the EOC. We were not advised of low counts, just zero numbers.
- Reports received that the last couple of hours were slow.
- Residents were advised of the other sites and the opportunity to obtain supplies.

Restocking Plan

- United Way set up meeting with Food Bank to discuss.
- Had EOC meeting on this topic to discuss options

Churches:

- All 9 churches received waters, filters, and informational bulletins.
- Lt Roach received positive feedback from 3 of the pastors.
- No complaints were received.

Signage:

- Provided information to SEOC on signage requirements at the fire stations.

Storage:

- Researched storage spaces; established temporary site at GCCARD.

Personnel:

- Lack of local EOC leadership (seems somewhat checked out) with IC and Deputy IC (doing an okay job).
- Captain TaFoya (Genesee County) *helped tremendously today with all the plans outlined above* and attended the press conference.
- Tina Martinez at the Food Bank and Matt Purcell at GCCARD were extremely helpful in getting last minute operations set up.

Chris

Update 1/9/16

SitRep 4 attached for more in depth information. The below only contains some items worked on today and while the format in the attached SitRep is not perfect (it is created automatically by MICIMS) it does contain a lot more information you may want to read. I also attached one of our maps. It is our filter

distribution map. All filters handed out by anyone working with us feeds into this now. We are continuing to refine these and at this time there is a delay in the upload of address data but we are working on it. We have a ways to go to get filters in every home but this will help direct us to those who need still them. We also are working on identifying abandoned homes.

Key items for tomorrow to note are:

- 9 churches will have ARC volunteers and filters for distribution. Some may also get water.
- 5 fire stations are a distribution point for water, filter systems/replacement filters, and water test kits. While only open today until 4 p.m , tomorrow and until further notice they are open from 9a to 9p.
- Media event will take place on the above tomorrow.

Items to Note

- 211 has some issues with call load but it is being worked on. 2-1-1 Director contacted MDHHS PIO to discuss/resolve caller wait times and messaging. We anticipate an increase in activity tomorrow in 211 calls so we requested and received an increase to staff 211.
- We are shifting tasks the SEOC took on that are handled more effectively and efficiently at the local EOC. We have established command and control in their EOC. We are running things there but that is not being made public. We are doing this in partnership but we are clearly handling the operation with state personnel oversight.
- A 3rd FEMA LNO arrived today upon my request. This has nothing to do with a Presidential request for a declaration but support for some other items I want worked on for long term recovery.
- We continue morning calls with the local EOC leadership and local emergency manager on what our goals for the day are as well as any issues/concerns.
- Five 5 fire stations have received water, water filters, replacement cartridges, and water testing kits with American Red Cross personnel at each location to assist with delivery of resources and collection of addresses receiving them. These locations will be open from 9a – 9p daily until determined they are no longer needed. Those picking up water testing kits will be advised that they can return the test kits to the fire departments (where they will be picked up and taken to the Flint City Hall), the Flint Water Treatment Plant, or they can take them directly to the Flint City Hall. For those unable to return the kits, 211 can make arrangements for pick up the kits. We understand response to these sites has been positive thus far. The Genesee County EOC will be monitoring these supplies and request replacement of products as needed.
    - A call is going out tomorrow morning to advise this information … I do not believe it was every resident but Tori Sachs has that info if needed.
- I approved a press release today to advise the public that all levels are working together to ensure delivery of filters, test kits and water; noting that all of these items were delivered to the 5 Flint fire department stations. It was stressed that the public should be aware that the local and state agencies have been working cooperatively to assist the residents - and will continue to do so. This was done to hopefully end or at least minimize the "who can get water and filters out first" when all of this has been connected with the state and coordinated since the state declaration was put in place.
- The arrangement of 2,000 filters, to be taken to 9 local churches on Sunday, January 10, is ongoing. The filters have been secured; they are now in the possession of the DTMB. DTMB will return to Flint on Sunday morning to deliver these to necessary locations. The American Red Cross will be on site at each church to assist with distribution and recording addresses (for GIS). The local EOC is working to ensure these arrangements are complete and run smoothly. Future engagement with the faith based community will occur to assist with additional distribution.

- A Flint City liaison has not been in the EOC but starting Monday this will be in place to keep the Flint Mayor appraised of activities being conducted in the city. She also has been advised she can call me at any time if she needs anything.
- Training has been confirmed for the door-to-door operation scheduled to start Tuesday. Four teams are initially scheduled with more to potentially be put in place. These are the teams that will be handing out water, filter systems/replacement filters, test kits and information. If nobody is home, a door hanger with information is being left. DHHS personnel and one MSP trooper will be on these teams.
    - Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.
        - Training is so those going door to door can explain what the filters do, how to install them, if they need install help to call 211 who has a list of people who can install the filters, and answer any other questions versus just handing them the filter.
    - Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m. AT THIS TIME. I am reevaluating these times to increase contact with someone versus just leaving information.
    - Logistics are being finalized for the teams and trucks to handle stocking and re-stocking of materials during daily operations.
    - GIS maps will provide guidance on deployment locations for these teams and other teams in the field.
- A pilot project at Freeman Elementary with LARA and DEQ has been initiated to see if replacing certain plumbing components in faucets at the school will drop the lead level.

MSP/EMHSD GIS Section Updates

Accomplished Today (January 9):

- Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.
- Produced Filter Distribution Map.
- Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
- Worked on map of franchise customers outside of Flint City.
- Produced maps for MDARD on food establishments and Local Health Departments.
- Produced map of Church Filter Distribution map for DTMB.

Local Emergency Operations Center

- The state has deployed 10 personnel to the Genesee County EOC to ensure we have command and control at the local level. On 1/8/15 The state personnel took over the incident management functions of the Genesee County EOC (not public). The arrival of additional staff allowed the local Emergency Management Coordinator to delegate tasks which relieved a tremendous amount of stress.
- Additional Sherriff staff will be shadowing the state incident management team to allow for transition to the county personnel later in the incident when we are comfortable with them handling things. Not sure when that will be but we have secured a direct bill hotel for staff to stay in Flint as long as needed.
- With the additional staff, the Local EOC will be able to take over functions previously handled by the SEOC including:
    - Logistical activities to support church operations.
    - Logistical activities to support fire stations operations.
    - Coordinate Donations Management activities and draft donations management plan
    - Coordinate Volunteer Management activities

- Identify local storage/staging facilities
- Overall inventory tracking
- Tracking of Points of Distribution (PODs)

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/8/16

SitRep 3 attached.

There is a significant difference in what is being presented by the media and what the local EOC is relaying to us at the SEOC. It is also being driven by the media that this is a state versus local response (who is providing more and quicker versus a coordinated effort between all). That said, I advised SEOC personnel that perception is reality in some eyes and we are to move forward to address items that typically are addressed at the local level. I have ordered the SEOC open all weekend due to make the quick wins that we need and continue to get the coordination and collaboration in place that is needed (but make gains on our own as needed).

Items to Note

- Two FEMA LNO's arrived today and are in the SEOC. A third LNO was requested from FEMA due to some unique issues with this event to include having to deploy more or my staff to the local EOC to get more structure and/or find out why there is an issue with the message the media is showing versus what we are hearing from the local EOC.

- We finally received from the local EOC 8 locations (we were told originally early in the week they had 80-90) that are their Points of Distribution (PODs) for water in conjunction with the local food bank. The PODs are not getting water from the food bank even though the food bank has water. We are going to resolve this issue as we can help deliver the water to the PODs but we were not aware of this. 8 PODs is not enough locations if water needs to be distributed to citizens. Speaking with the ARC Regional Administrator later today, I believe ARC got water to those locations but I need to confirm that in the morning. The food bank reported they had 376 cases of water.

- We have learned that a low number of residents are testing their water when DEQ can test 400 kits per day. This is an added focus that we believe can be increased through dissemination of test kits with the filters and any water.

- I found out the Mayor was okay with using fire stations as distribution points for water, filters, and water test kits. While this did not come to me through the local EOC, I advised we needed to get water, filters, and test kits to these locations for tomorrow. The distribution at 5 Flint Fire Department stations has been coordinated to be in place by 10:00 am tomorrow morning.

    - DTMB has provided a truck and driver to pick up water test kits from DEQ lab in Lansing, water from the Food Bank and water filters and replacement cartridges from GCARD in Genesee County.
    - 10 American Red Cross (ARC) volunteers will meet the DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.

- Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.

- STILL FINALIZING - We have made available 2,000 Filters for distribution on Sunday as parishioners leave mass/services. This will be 200 filters for 10 churches in Flint. While this is a small number of churches, we do not want to waste an opportunity to hand out filters and this seems like a quick way to so. The filters will be put on the DTMB truck on Saturday for delivery to TBD locations for distribution. Logistics remain undetermined as I am still waiting on a list of the churches, pastors/reverends/hours or services/etc. The DTMB truck will be returning to Lansing approximately 11:00 a.m. so we need to finalize this quickly on Saturday. We may utilize ARC to assist with this.

- The Recovery branch is working with the JIC to develop a door hanger card. DTMB is working on the printing portion of the hanger card. Recovery will also be finalizing logistics over the weekend for neighborhood canvasing to occur early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.

- It appears that 211 has become overloaded. DHHS is researching ways to increase capacity for calls.

- A Volunteer Management Coordinator is in the Genesee County EOC as of today.

- A Donations Management Coordinator has been requested and she will be in the Genesee County EOC Saturday.

- DHHS had a conference call with GM today; they indicated they can provide cash, and supplies, but primarily manpower. No commitments were made at this point. We inquired as to availability of warehouse space and trucks. It was left as GM being a major resource pool that we can tap into as we determine missions. Further conversations will occur, but primarily GM just wanted us to know they are there if needed.

- An additional EMHSD staff member was sent to the Genesee County EOC to act as Operations Section Chief and obtain awareness of the situation there.

- GIS staff met with various parts of Genesee County/Flint personnel to try to get a handle on data available.

- GIS continues to work with local GIS personnel with three GIS staff going to Flint today to work with them. GIS staff is working with U of M on how best to proceed with digitizing water lines for long term recovery.

Chris

UPDATE 1/7/16

A summary of some of today's SEOC activities is provided below. Attached is the following:

- Today's SitRep which contains more information than below.

- The resource request/task assignment sheet for your situational awareness. This is how locals request resources as well as how we track resources and any assignments and/or tasks that are to be completed.
- JIC Task Tracking – for your situational awareness on how we are tracking requests and assignments. Once someone is assigned a task or resource request it allows them to document what work has been or will be done as shown at the bottom of the document.

Items to note:

- I received a document this evening from Genesee County which appears to be damage assessment information. Analysis of this will occur tomorrow. It appears to be infrastructure and costs to fix it and no other impacts.
- I spoke with Jamie Curtis, Genesee County Commissioner, this evening. A very good relationship is in place with him, especially with our District Coordinator (DC). I also have our DC working on developing stronger relationships with the Mayor/Mayor's office.
- GIS staff continue to obtain data and work with County and City personnel to get a picture of where resources have been provided, need to be provided, as well as infrastructure locations (pipes) that could be affected.
- Personnel and agencies have been tasked with developing a plan to get people in the community to deliver information, hand out filters, etc. This would target those areas we are showing minimal or no filter distribution based on the data we are collecting. The plan is to get them in the field by Tuesday and the plan will be provided to me tomorrow.
- Filters can be obtained at the following locations:
  - Michigan Department of Health and Human Services office, 125 E. Union St., Flint, MI 48502
  - Michigan Department of Health and Human Services office, 4809 Clio Road, Flint, MI 48504
  - Genesee County Community Action Resource Department office, 2727 Lippincott, Flint, MI 48507
  - Genesee County Community Action Resource Department office, 601 N. Saginaw, Flint, MI 48502
- Conducted briefing with local EOC and county executive.
- Conducted briefing with state agencies (daily updates).
- Began work to schedule legislative/congressional conference calls. Tentatively scheduled for 2 p.m. Friday.
- JIC continued to develop messaging.
- Provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
- Deployed two EMHSD/SEOC liaisons to assist the local EOC.
- Published the Incident Action Plan and continued assignment of objectives/tasks.
- FEMA Liaison Officers just arrived in Lansing to assist command and general staff.
- I spoke with Harvey a few times and he should have talking points later tonight or tomorrow a.m. for his use and also for others who may speak to media outside of state government who may benefit from our messaging.
- We held a media round table at 1 P.M. at the SEOC. Dr. Wells and I spoke and answered questions to numerous media outlets.
- Local agencies and NGOs continue to provide water and filters to citizens.
- The website, www.michigan.gov/flintwater, was update with information and links to assistance to include 211. Additional recommendations were provided to include information on the testing water in homes.

EMHSD GIS:
Accomplished Today:

- Reproduced Socio-Economic Status Map
- Reproduced Predicted Affected Populations Map
- Cleansed old data and reports for water filter distributions
- Created draft map of water filter distributions (Refinement needed before releasing final product)
- Scheduled on-site visit with Flint GIS Department and Genesee County GIS Department
- Formatted databases to host content
- Researched service line database creation and scheduled meeting with U of M Flint to discuss timelines and resource needs
- Generated water infrastructure map (does not include building service lines)

Tasks for Tomorrow:

- Meet with Flint City GIS
- Meet with Genesee County GIS
- Meet with U of M Flint GIS
- Finalize water filter distributions map
- *Finalize plan for data distribution methods*

Chris

UPDATE 1/6/16

A summary of today's SEOC activities is provided below. I tried to distill this as best I could but there has been a lot of activity and discussion to get an accurate assessment of the situation. Attached is the final draft of objectives and tactics for the operational period and agency situation report (SitRep) which has more SEOC agency information. I have implemented weekly operational periods.

Advise if you want anyone else copied or off this distribution.

Daily Update

- Set goals for SEOC and identified response/recovery emphasis
- Requested FEMA liaison officers (LNO) from FEMA Region V. Two LNOs will be on site by ~3 p.m. 1/7/16. Both are known contacts to me and some staff and one has worked extensively with me during the SE MI flooding in a command and control position. These personnel have been specifically tasked with this mission. **THEY ARE NOT HERE TO ASSIST WITH A PRESIDENTIAL DECLARATION REQUEST BUT TO ASSIST ME.**
- PIOs from multiple agencies were here and established the Joint Information Center (JIC) News released pushed out on this. I am very happy with the PIO work and movement toward coordinated messaging.
- Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts to ensure situational awareness and to develop a common operating picture.
    - I opened the briefing by identifying our initial goals, items to think about while subject matter experts were briefing us, and how we are to move forward, find quick wins, and regain trust.
    - **MDHHS – Elevated Blood Lead Levels**
        - Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what has occurred in terms of health monitoring throughout the Flint crisis.
    - **MDEQ – Water Testing Protocols**

        - Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.
- Developed Incident objectives, strategy and tactics (see attached)
- Identified SEOC and state agency staff positions
- Assigned work tasks for SEOC operation period from 0800 January 6, 2016 to 1700 January 8, 2016
- Reviewed planned actions, prepared final draft Incident Action Plan
- **Made contact with the Genesee County Emergency Manager first thing in the morning and held a conference call mid-day to discuss roles. Daily 0830 command conference calls with local EOC command staff starts tomorrow. Tomorrows call will include the County Commissioner and the City Administrator (both invited). Topics include the incident action plan objectives and establishing better local coordination, command and control to facilitate integration with the SEOC. The local EOC is not functioning as it needs to with personnel and local coordination and we are working on that issue.**
- I will be in Flint tomorrow for a 2 p.m media round table with local officials that was set up by the JIC.
- The attached initial objectives will be updated at least every operational period and as needed. I listed the objectives below but the tactics to accomplish them is in the attached if you want further information.
    1. Activate the State Recovery Task Force (SRTF).
    2. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.
    3. Obtain and maintain situational awareness and common operating picture of all activities.
    4. Establish SEOC operational period and hours of operations.
    5. Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.
    6. Develop a comprehensive GIS strategy.
    7. *Coordinate response and recovery activities with MIVOAD and identify potential mission* areas.
    8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.
    9. Provide technical assistance to the local Damage Assessment process.
    10. Establish a Joint Information Center (JIC) and develop a public information strategy.
    11. Monitor MI CIMS for resource requests and address as appropriate.
    12. Establish and disseminate cost center information for the incident.
- Additional tasks include:
    - Determine what federal agencies are already involved and their status
    - Identify potential water supplies
    - Determine where affected homes are located, where filters/pitchers (and replacements) were installed/provided, and determine who needs filters, etc.
    - Determine how filter distribution is handled, and if it can be handled more efficiently and effectively
    - Determine what mechanisms are in place for nutrition supplementation

EMHSD GIS Accomplishments:

- Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC
- Established a daily call with county and city GIS personnel to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
- Began consolidating local data from local GIS practitioners into a consolidated database, to include:

    - Water Pipeline Locations
    - Filter Distribution Locations
    - November 25, 2015 Water Monitoring Results (Partial, some data remains to be digitized)
    - Affected School Locations
    - Predictive analysis of blood lead levels for affected area
    - Updated Parcels
    - Demographics
    - Block Groups
- Produced a map for the filter distribution locations
- Began contacting specialists who developed historic maps depicting the Flint Water Crisis to obtain the data

Subject: Update - Genesee County Declaration

Below are some key points for your situational awareness (FYSA) that have taken place or will take place within the next 15 hours.

- I was on the phone with Sean Kammer, Assistant to the Flint City Administrator, when the declaration hit the news so I advised him immediately. He was going to let the City Administrator know.
- I contacted MSP Lt. Roach, 3rd District Coordinator, who was at the Genesee County EOC and advised her to let the County EM know the declaration status.
- State Emergency Management Coordinators (SEMCs) were notified via our notification system with additional information in an email.
    - This included information on the SEOC activation and a 0900 briefing for SEMCs.
    - Some subject matter experts will provide us an update to establish a common operating picture.
- We have been in contact with FEMA Region V watch desk ... they will be on the call tomorrow and continue to monitor the situation.
- I have been in contact with the FEMA Region V Administrator to keep him updated.
- Operational period for the SEOC will be M-F, 0800 to 1700 at this time.
- Situation Reports (SitReps) will be provided in the evenings.
- An Incident Action Plan will be developed tomorrow.

Call me with any concerns or questions.

Kevin,

The below information is for Captain Kelenske:

I just heard from an EPA staff member that EPA is doing Rachel Maddow tomorrow when she is in town. Sounds like it will be Miguel Del Toral who is speaking with him. Apparently, he is on the ground here in Flint doing some water testing. This staffer had a photo of him being hugged by a Flint resident.

Also, EPA just asked if they can have their PIO in the JIC He actually asked for multiple PIOs, which I denied based solely on the fact that we have no space for additional PIOs. It was noted that Dan Shulman from FEMA is leaving today, so he then asked if EPA could take Dan's seat at our table. I asked for clarification on what their role was and what the expectation would be, and he (the EPA PIO) didn't know. He mentioned EPA is having a meeting to figure out their role. I suggested he determine their role and what their interaction will be with the state and then we can consider the request I noted I would want to consult with the Governor's Office and that Meegan would be back in the JIC at some point tomorrow afternoon.

If federal DHHS is the lead federal agency for this emergency, it seems more appropriate that they have a PIO in here rather than EPA I will need advice on our direction, as this will come up again.

Thank you,

Water bills in poisoned Flint an 'outrage,' attorney general says

01/25/16 12:27 PM

facebook twitter save share group 3

By Tracy Connor and Lisa Riordan Seville

Michigan's top prosecutor said Monday that it's an "outrage" that residents of Flint are being forced to pay for water that's unsafe to drink — and his office may take action to stop the billing.

"Words can barely describe this tragedy. Things went terribly wrong," AG Bill Schuette said. "I would certainly not bathe a newborn child or a young infant in this bad water and if you can't drink the bad water you shouldn't pay for it."

Attached is the second draft of the Recycling Education Card. Empty water cans were added to recycling per Roger's email below. Please review/respond/revise as needed. Still waiting for bottle and can recycling sites.

Subject: RE: First Draft of Educational Card for REcycling

We will send the second draft of the educational card out about 12:30pm – making some more changes that were suggested. Too many partners to include logos. So am listing all in alphabetical order. Please review the list and make corrections/additions.
More Questions

1. Where do people recycle the empty 12 oz. water cans? When we picked up water yesterday we received 2 cases of cans so I'm assuming others have received them too. They have a 10 cent deposit on them but when I tried to put them through the can return at Meijer, they were rejected. You can only take the cans back to stores where you purchased them. So cans will also become an issue. I 'm assuming that the cans came from FEMA.....and won't be accepted anywhere.
2. Does anyone have the list of churches who will accept the empty water bottles ?(and cans too?) Shane has confirmed that all sites currently listed on the back of the card will accept used water filters.

Subject: RE: First Draft of Educational Card for REcycling

Hello Everyone,

I wanted to offer some suggestions/comments.

First, the City of Flint has given permission to provide recycling of the water filters at each of the Fire stations. Additionally I have confirmed with the Health and Human services office on Clio Road that we can collect the filters there as well. I am still working on confirming the rest.

In regards to the flyer, I think it may be necessary to list the partners rather than use logos. It may save both space and time. I am in contact with Genesee Packaging of which may be donating boxes to assist in shipping the water filters for recycling; therefore they should be added to the list as well. Others that should be included are:

Michigan State Police
Petoskey Plastics
Genesee County Metropolitan Planning Commission
TerraCycle
Any other organizations assisting/donating

I also think the flyer should direct people to websites that contain the accurate and up to date information that we all discussed.

Lastly, the flyer should clearly identify which locations recycle the filters and bottles – it is my understanding that water bottles will not be recycled at each fire station but water filters will be. That should be clear for residents.

All the best,

Karen,

Will this flyer be on a half sheet or 1/3 sheet? My first concern is will the wording be legible on partial sheets?

Thank you,
Heather

On Wed, Jan 20, 2016 at 1:46 PM, Hollaender, Henrik (MSP) <HollaenderH@michigan.gov> wrote:

I will discuss with Mark if we might be able to get these printed through the State or the JIC.
We probably would be able to have a faster turnaround for the printer. The JIC would also be able to use the same "branding"/layout as other information materials (while still including all of our partners on the cards) - if that is something that our group can agree with.

City of Flint and Republic Services might be best suited to provide input on the content?

Thanks,

Henrik

As we discussed in the meeting, space is very limited at the water distribution centers. So they will have to recycle at another location. We are currently working on those locations. Also, would the printer be able to turn these around quicker if we don't do the glossy print?

Subject: First Draft of Educational Card for REcycling

Water Crisis Recycling Team
Attached is the first draft of the educational card for dissemination at all distribution sites in the City of Flint.
Action Requested:

- Review content first. Easy to read, 4th-6th grade level, instructions understandable

- Review format. Thought this was a catchy format that reflects the issue. We would print on a glossy card. This is not a final draft of the format – just a concept for review and approval.

- Forward information about places of worship who are assisting us and any other spelling, grammar, information errors or changes.

- At this time, printers are telling us 5 business days from submission of file, so time is of the essence

Thanks for you input.

Subject: Finance help

Chris,

I am getting a lot of questions about how the finance system works in the SEOC and after reading through everything I can't seem to find documentation that explains it well. I know that DTMB keeps a running spreadsheet and submits it to Penny Berger. I am now being asked to provide that information to DHHS finance team and my own DTMB team. I also understand that many of the other agencies are doing things in different ways and we want to help and make things easier for you.

I wanted to ask if this is an area that DTMB can help with, we have someone in procurement that could help us ensure there is a system in place and that things are being done correctly. That each agency is working with the correct people within procurement to make sure we are using the contracts we have in place and that we are tracking the items being purchased. I think having an understanding of how to report the purchases that are happening weather on a P-card or on a contract and a place for tracking the time individuals are spending is necessary.

I understand this could be an "after action" item however because of the magnitude of this emergency I feel it's something that we need to do now.

Please let me know if this is something we can help with, we are here to support you!

Subject: Re. SEOC Update 1/23/16 - Flint Water - Limited Distribution

Did you see the EPA Order from Thursday? I sent it to the EOC and asked how they might help. There are unrealistic expectations. I will send the Order and my response to you tomorrow. I have asked for sites to sample and the city said 60 days which is problematic at best. I am unaware of a broader conversation with the principal departments at the Director level on outcomes and pathway forwards. I had a brief conversation with Rich on how we can integrate efforts. I would appreciate the opportunity to visit when you get a chance to breath. Know that you and your team brought structure to a difficult issue and have made a hugh difference (in fact you guys are responsible for the progress to date). Thanks for all you are doing.
Keith

> I am not sure if you get these or not but they may provide you some situational awareness from our end. We also have a lot of data mapped already to include about 40% of the water lines in Flint. Our GIS staff has been engaged with the City and County on mapping the lines. U of M is also helping (not sure what piece they have but it may be the residential lines). I spoke with Gary Hagler tonight and he mentioned some things he was going to work on. I advised him we may have a lot of what you may want. If you need anything you can route through the DEQ desk at the SEOC (or to me) and we can support you...especially with any mapping. We have been working with your DEQ staff already on a lot of your data. Let us know what you need or how we can help.

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/23/16 – 19h Day (18th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs

Attached Documents:

- SitRep 18

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have · National Guard/state/local agency, type 3 teams
- We will have 40 ARC, type 5 teams (2-4 personnel).

Items to Note

- Deployed state/local teams and 40 ARC Flint Water Response Teams to the field today.
- Created a media monitoring report and looked for misinformation. A call was made to WILX to amend their article that implied that the State was not distributing water to undocumented immigrants. The news release was also sent to WILX about how the State is not requiring identification to receive water resources.
- SEOC Logistics worked on future resource planning and a local business commodity supply plan.
- Drafted talking points for Monday's press conference with Governor Snyder, Colonel Etue, and the Mayor.
- Put in place a place to control POD distribution as much as possible. SKU numbers are being lined out on commodities to prevent or minimize returns for cash.
- Information reported to the JIC:

    - As of 1/23/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

To Date	1/23/2016
37,943	6,323 National Guard 7,361 ARC

2. Distributed: Includes outstanding data from yesterday- PODs after 5 pm, ARC worksheets and local EOC hotshots.

Commodity	Total to Date
a. Number of cases of water	148,866
b. Filters	86,843
c. Filter cartridges	194,622
d. Test kits	25,586

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 133,662 (additional 24,634 donated)
    b. Filters 115,700
    c. Filter Cartridges 266,200
    d. Test kits 61,161

5. Teams going out tomorrow:

a. National Guard State type 3 teams---Goal tomorrow 300 homes per team
b. 40 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Worked to identify all vulnerable populations to help streamline Hot Shot/Rapid Response Team process.
- Working on plan for church water distribution and POD locations.
- Looking at possible alternative locations for PODs in difficult traffic areas. The city identified some but they are just as bad as the current ones.
- Working on finalizing a recycling plan for the incident.
- Lt. Roach sent up the church information to Tom Webber. She also received one church site that will act as a potential church mega site.
- SEOC GIS to provide a layer for the vulnerable populations so that Team Rubicon can get to them and track in the iPad.

New Standing Information Requirements

1. ***Number of homes visited each day:***
    a. 1/23/16, As of 5 pm, 13,684 homes were visited today
2. ***Total number of homes visited:***
    a. 37,943, does include duplicate counts from the second canvasing
3. ***Total number of National Guard on the ground:***
    a.
4. ***Total Number of Volunteers each day:***
    a. 310 volunteers for 1/23/2016
5. ***Number of homes with filters:***
    a. 17,595 homes had filters, per entered GIS data as of 1/22/2016,
6. ***Number of Water filters distributed (each day and to date):***
    a. 4,156 were distributed on 1/23/2016, and total distributed to date is 86,843
7. ***Cases of Bottle water distributed (each day and to date):***
    a. 27,462 were distributed on 1/23/2016, and total distributed to date is 148,866
8. ***Number of testing kits distributed (each day and to date):***
    a. 2,171 were distributed on 1/23/2016, and total distributed to date is 25,586
9. ***Number of people tested for elevated blood levels (kids, adults, total):***
    a. Unknown at this time until we get the data
10. ***Number of people with elevated blood level (kids, adults, total):***
    a. Unknown at this time until we get the data
11. ***Number of homes with safe drinking water (Not sure whether it's possible right now to provide this number):***
    a. Unknown at this time

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/22/16 – 18^{h} Day (17th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies

- Increase efficiency of warehouse operations
- Continue door to door/Flint Water Response Teams (FWRTs)
- Plan for next phase with MSP and NG personnel
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration
- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

- SitRep # 17
- Briefing provided to the HHS Undersecretary by FEMA (due to time only finished 75%)

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- National Guard/State/Local · type 3 teams
- 40 ARC (2-4 folks) type 5 teams
- Deliveries going out to all churches on our list we have been working with (21) for Sunday services.
- I will not be in the SEOC Saturday. Tony Katarsky will be the acting SEOC state director. I will be available by phone (wrestling meet).
- Sunday, Lt. Mike Johnson will be acting SEOC state director but I may be in for some of the day.
- Monday I am out on a college visit with my son...I will be available by phone and Tony will again be acting.

Items to Note

- Deployed state/local teams and 15 ARC Flint Water Response Teams to the field today.
- *SEOC Operations worked on getting local contact into the JIC along with developing messaging for* resources and donations.
- SEOC Planning worked on the further development of long term strategy.
- Recovery branch continued coordination with Red Cross on volunteers and the Michigan National Guard for Friday and Saturday.
- SEOC logistics worked with FEMA/DHHS on warehouse tracking status/strategy, coordinated resources, and donations management.
- Have had a number of media request concerning resources for immigrants and population less proficient in English. Clarified with a news release that we are not requiring ID but we are asking for addresses to assist with long term recovery. Nobody will be denied resources if they fail to provide us an address.
- Have received numerous inquiries from celebrities on how they can assist and donate.
- We are validating a lot of data but what we have currently is 38,144 parcels in Flint that are not considered "vacant". This does not mean all parcels have a tenant, there are a lot of houses that are empty.
    - 26,673 water subscribers in Flint (not including franchise).
        - Water Subscribers with a Filter = 15,399 (57.7%)
        - Water Subscribers without a Filter = 11,274 (42.2%)
            - With our second pass we are getting more information as to why people do not have a filter. Looking into whether these include homes connected but nobody currently living there. We are refining the data.
    - 11,471 Non-Water Subscribers in Flint.
        - Non Water Subscribers with a Filter = 2,196 (19%)

        - Non Water Subscribers without a Filter = 9,275 (81%)
    - The SEOC Ops Chief has been directed to firm up all numbers with GIS. We have a GIS specialist from FEMA Region V also deployed to the SEOC to assist. ArcGIS has advised us that the amount of data we have collected is more than some major disasters in other states. We are looking into getting their personnel more engaged to ensure we are using all the tools available for analysis.
- SEOC Finance Chief is working on costs to date and all SEMCs were advised to tighten up their records and ensure we have accountability of all costs.
- Information reported to the JIC:

    - <u>As of 1/22/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)</u>

1. Homes visited by the FWRTs to date.

To Date	1/22/2016
37,697	5,920

2. Distributed: Includes outstanding data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots.)

Commodity	Total to Date
a. Number of cases of water	121,404
b. Filters	82,687
c. Filter cartridges	191,704
d. Test kits	23,415

3. Resources purchased:
    a. Cases of water 130,782 (additional 21,682 donated)
    b. Filters 115,700
    c. Filter Cartridges 266,200
    d. Test kits 61,161

4. Teams going out tomorrow:
    a. National Guard State (type 3 teams -- Goal tomorrow 300 homes per team
    b. 40 ARC (2-4 folks) type 5 teams -- Goal tomorrow 100 homes per team

<u>Local EOC</u>

Operations:

- Worked to identify all vulnerable populations to help streamline Hot Shot process.
- *Working on plan for church water distribution and POD locations.*
- Looking at possible alternative locations for PODs in difficult traffic areas.
    - *Working on finding a new POD for 3 and 6. We are aware that the mayor would need to approve this.*
- *Coordinated water donations and delivery areas.*
- Last minute large donations of water and volunteers expected during the weekend.
- *Working on finalizing a recycling plan for the incident.*
- The Jail water has been tested and is fine. The prisoners are not being poisoned and the local health department is working on clearing this issue up.
- Working on a plan with the churches to have 4 mega sites for churches (N,E,S,W) and have smaller churches work through these sites to get supplies. Churches are interested in the recycling program, putting information in their bulletins and also used a collection sites.

- Team Rubicon is coming tomorrow to assist with home deliveries.
- Continuing with recycling plan. Need to identify sites with city. Local EOC has visited areas with the local contractor.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/21/16 – 17h Day (16th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) - "Phase II"
- Plan for next phase with MSP and NG personnel for Governor approval – "Phase III"
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration
- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

- SitRep 16
- Draft Water Operations Plan for moving to next phases (Discussion document)
- Resident Water Sample Results Map (Not for public distribution)
- January 13-19 comparison map

Status on Governor's request letter to the President

- Emergency declaration received. Pending decision of Major Disaster appeal and any denials under the Emergency Declaration (e.g. Category B). We have not been denied category B yet ... POTUS/FEMA has not given it to us though. I believe we may get a denial of category B in conjunction with the Major Disaster appeal decision. We will have 30 days to appeal.
    - Category B is critical in that it is for Emergency Protective Measures which includes (but is not limited to) EOC related costs, supplies and commodities, safety inspections, and in limited circumstances "water testing and treatment supplies in the immediate aftermath of the incident to counter a specific threat." We purposely put our start date of this incident to be April 25, 2014 in hopes we get category B and could get 75% federal funds for many other costs all the way back to 2014 – long shot but would be huge if we land this.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have National Guard/state/local agency, type 3 teams), with a goal of 300 homes per team.
    - We will have 15 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- We are using the terms Phase II, Phase III, etc. These are for internal discussion for planning and not meant for public dissemination at this time unless it is determined to be beneficial.
- The draft operations plan (attached) was completed in conjunction with MSP and NG personnel to initiate discussion on our next steps as to WRTs and PODs.

- The WH issued a statement that $80 million dollars in aid to MI mostly to repair Flint water infrastructure. We do not have additional information on this. This may be existing federal funds provided to MI that is just being opened up for other use. FEMA does not have any information on this.
- We have been advised we exceeded the $5 million under the emergency declaration. We are at $7.6 million.
- FEMA has advised that any donated items can be used to offset the state cost share. We are working on the mechanism with FEMA to do this.
- Deployed state/local teams and 10 ARC Flint Water Response Teams to the field today.
- SEOC logistics worked to project future orders of water resources and commodities.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- DEQ test kits are only being provided to those who ask for them.
- I made contact with Senator Ananich aid, Julie Townsend, who was a POC for his volunteers. They are set to work next week on the 30th.
- MDOT met with city personnel to look at Station 6 POD and other PODs to see how traffic flow can be facilitated and safety increased. Additional report out due 1/22.
- A request from MSP MC3 for NG Cyber personnel at $32,000 for 30 days or less) was initiated. This is to assist with the cyber attacks that have occurred/future attacks related to Flint Water. PENDING APPROVAL. NG advised this would have to be funded with existing funds at this time and to make adjustments.
- MDARD Food Program staff have completed assessments of all 21 food businesses (including restaurants) that were located in the highest risk area. In addition, they have completed assessments at 34 food businesses in the medium risk area, and have scheduled 28 appointments to collect water samples.
- Dr. Nicole Lurie, the Assistant Secretary for Preparedness and Response from the US Department of Health and Human Services (HHS), in addition to the HHS Regional Coordinator and other CDC staff, visited the CHECC and SEOC this morning and provided commentary to CHECC and SEOC staff/EMCs. She also attended a briefing from FEMA before departing to visit Flint.
- Parents of boarding students at the Michigan School for the Deaf were notified of the elevated lead results in Stevens Hall. All fixtures in the dormitory are scheduled to be replaced by January 24, 2016. Lt Gov. has scheduled visit on January 25.
- Valley Area Agency on Aging (VAAA) continues to take calls from seniors and caregivers needing access to water and filters. VAAA is providing this information to the local EOC each afternoon for follow-up.
- Information reported to the JIC:

    - <u>As of 1/21/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)</u>

1. Homes visited by the FWRTs to date.

Phase 1	Phase 2
30,770	5,409

2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.

Commodity	Phase 1	Phase 2	Total to Date
a. Number of cases of water	94,688	10,403	105,091
b. Filters	77,215	2,356	79,571
c. Filter cartridges	188,389	1,039	189,428

d. Test kits	20,037	1,588	21,625

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes/multi family (The is the low end target #)

4. Resources purchased:
    a. Cases of water 124,398 (additional 20,098 donated)
    b Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. National Guard/State/Local) type 3 teams -- Goal tomorrow 300 homes per team
    b. 15 ARC (2-4 folks) type 5 teams -- Goal tomorrow 100 homes per team

Local EOC

• Attended ARC meeting with VOADs to discuss volunteer management and strategies.
• Attended meeting with Plumbers and Pipefitters Union to assess the need for long term cooperation for filter installation and fixture
replacement.
• Requested and received confirmation of deployment of Team Rubicon (starting on 01/23/2016).
• Facilitated Flint & Genesee Chamber of Commerce representation at the EOC.
• Addressed security issues at Fire Station 3, 6 and 8 PODs (residents concerned about criminal activity).
• Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
• Met with Genesee County Planning Commission, United Way of Genesee County and Michigan Community Service Commission to clarify
recycling plans and potential volunteer utilization.
• Coordinated and verified deliveries of supplies to apartment complexes.
• Identified potential locations for recycling stations.

Chris

Update 1/20/16 – 16th Day (15th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for second phase of door to door operations
- Submitted appeal to FEMA Region V
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration

Attached Documents:

- SitRep 16

Status on Governor's request letter to the President:

- Emergency declaration received.

Key items for tomorrow to note are:

- Five copies of the State/FEMA agreement will need to be signed by the Governor. Capt. Kelenske has them and will coordinate delivery.
- The logistics plan will be fully executed tomorrow with all teams.
    - We will have National Guard (MSP supported), type 3 teams (~~l), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- Dr. Luri from HHS will be at the SEOC ~10:00 p.m.
- A second phase is starting tomorrow which will include more refined questions as to type of filter systems each person has. This will assist with sustainment operations.
- DOC prison work crew personnel (6-7) will be at the warehouse to keep the area clean. A lot of trash is generated in the warehouse and was becoming an issue.

Items to Note

- Deployed state/local (NG, MSP, Local) teams and 10 ARC Flint Water Response Teams to the field today.
- MSP and local Sheriff's Department continue to provide over watch for WRTs.
- Aqua Hydrate contacted me to donate 5000 cases a month (4 semis) for a year. I was advised by Lindon Nelson this was a Governor/Mayor/Senator Ananich and Meekhof initiative and a press release was going to go out soon (TBD). Logistics is following up with them.
- News release sent from Governor's office about the appeal to the President of the disaster declaration.
- SEOC Logistics worked with JIC and Governor's office to establish a business resource submission tab on www.helpforflint.com
- SEOC Operations continued to develop and finalize Phase 2 canvassing roll out.
- Meeting held with Dr. Luri from HHS.
- Capt. Kelenske and other state agency financial personnel attended the appropriations hearing.
- End of day – concerns with the mass amounts of volunteers showing up and wanting to help. This can cause logistical issues but staff was working to get additional tasks for volunteers outside of the WRTs. We will continue to work on ways to involve more volunteers.
- Additional 5 person NG team for warehouse support approved.
- Information reported to the JIC:

    - As of 1/20/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 29,317 homes visited by the FWRTs to date.

2. Distributed: Includes outstanding hard copy data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots).
    a. Number of cases of water 90,337
    b. Filters 73,229
    c. Filter cartridges 185,852
    d. Test kits 19,866

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)

c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 111,630 (additional 18,502 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. National Guard) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Addressed reports of water contamination in distributed bottled and canned water. Confirmed that water is safe to drink through testing by MDEQ. Coordinating with JIC and MDEQ for improved public information on the issue.
- Identifying options to reroute unsolicited offers for supplies and services outside of the EOC. Coordinating to set up 800 number.
- Attended meeting with Flint & Genesee Chamber of Commerce to discuss coordination of efforts, representation at EOC, and improved messaging.
- Attended meeting with Community Foundation of Greater Flint to discuss coordination of neighborhood groups and improved messaging.
- Coordinated with MDARD to provide additional lead testing at restaurants, and signage for safe locations.
- Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
- Coordinated and verified deliveries of supplies to apartment complexes.
- Discussed logistics requirements of delivery requests for homebound residents with SEOC Logistics.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/19/16 – 15th Day (14th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Prepare plans for next phase of operation – Second sweep of city

Attached Documents:

- SitRep 14

Status on Governor's request letter to the President:

- Emergency declaration received.
- Appeal letter pending.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have National Guard, type 3 teams ( ), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed state/local teams and 11 ARC Flint Water Response Teams to the field today.
- Messaging being developed for concerns regarding the Total Dissolved Solids (TDS) meters and citizens' concerns with those meters indicating "lead" in bottled water. Testing of water to be done by DEQ to ensure we have solid messaging.
- DTMB is working to secure space in Flint for FEMA staff.
- Press release went out this afternoon to announce that the US Department of Health and Human Services will lead the federal response in Flint. Capt. Kelenske to meet with Dr. Nicole Lurie, HHS Assistant Secretary for Preparedness and Response (ASPR), on Thursday. The goal of the federal response will be to help state and local leaders identify the size and scope of the problem, and work with them to make and execute a plan for mitigation of the short- and long-term health effects of lead exposure.
- Additional NG personnel being requested to assist with Warehouse inventories.
- NG personnel on the ground with the WRTs tomorrow with more transitioning in.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- LG is going to be in Flint working at one of the PODs on Wednesday.
- Information reported to the JIC:

  - As of 1/19/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 22,129 homes visited by the FWRTs to date.

2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.
   a. Number of cases of water 77,794
   b. Filters 69,730
   c. Filter cartridges 184,457
   d. Test kits 16,671

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)
   c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 95,760 (additional 16,056 donated)
   b. Filters 115,700
   c. Filter cartridges 243,200
   d. Test kits 61,161

5. Teams going out tomorrow:

a. National Guard s) type 3 teams---Goal tomorrow 300 homes per team
b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Attended public health group meeting with GCHD, City of Flint Water Department and MDEQ to discuss water test information being returned to residents, to allow residents a greater understanding of results.
- Attended recycling/trash management group meeting with DEQ, Republic Services, Keep Genesee County Beautiful and Genesee County Planning Commission. Provided projections on current and anticipated bottle distributions.
- Coordinated deliveries of supplies to faith-based organizations, apartment complexes and homebound residents.
- Coordinated with Comcast to set up locations for distribution of filters (distributed 60 filters on 01/19/2016).

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/18/16 – 14th Day (13th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) and PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.
- Complete appeal for Presidential Major Disaster Declaration denial.

Attached Documents:

- SitRep 13
- Side by side comparison of homes with filters January 13th compared to January 18th. This should be hitting the media tonight. This took longer to create than I wanted but is the image I have wanted to show progress of getting filters in to the field.

Status on Governor's request letter to the President:

- Appeal in process.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have state/local agency, type 3 teams , with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
  - NG will be bringing in personnel to prep for surge.

Items to Note

- Beginning tomorrow the operational periods will be 7 days long.

- The CDC/ATSDR (Agency for Toxic Substances Disease Registry) has deployed a team to Michigan.
- An Arabic version of the palm card was reviewed and approved. This was developed via Arab American and Chaldean Council.
- Deployed 12 state/local teams and 10 ARC Flint Water Response Teams to the field today.
- DTMB is working to secure space in Flint for FEMA staff.
- Cost analysis to investigate if it would be more cost effective for FEMA to purchase water vs the SOM.
- ARC news release concerning the Volunteer Reception Center (VRC) sent out today.
- Media availability conducted today at 3pm at the VRC.
- Since 1/14/16 Michigan 2-1-1 has received three direct reports of bottled water testing positive for lead. DHHS SEOC Desk and DEQ SEOC Desk was able to contact two of the callers. The Zero Water filter (pitcher) has a handheld test device so people know when to change the filter. This TDS Meter measures dissolved solids (it is not a lead test). This was explained and we are going to work on messaging to ensure this does not cause issues. Dissolved solids are in all water. The water from the callers is going to be tested and a case of water from one of the companies will also be sent to DEQ for testing. Brands are Spartan Spring Water and Canned Water for Kids. The filter company is also going to work on messaging and work with us on this matter.
- Information reported to the JIC:

    - <u>As of 1/17/16 as of 5 pm (start date was Tuesday, 1/12/16)</u>

1. 21,393 homes visited by the FWRTs to date.

    2. Distributed:
        a. Number of cases of water 37,313
        b. Filters 53,713
        c. Filter cartridges 169,520
        d. Test kits 7,379

    3. Total number of customers on the Flint water system
        a. 29,944 paying customers
        b. 45,000 hookups (This is our high end target #)
        c. 39,000 includes apartment complexes (The is the low end target #)

    4. Resources purchased:
        a. Cases of water 82,992 (additional 16,056 donated)
        b. Filters 115,700
        c. Filter cartridges 243,200
        d. Test kits 61,161

    5. Teams going out tomorrow:
        a. › State ` '' s) type 3 teams---Goal tomorrow 300 homes per team
        b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

<u>Local EOC</u>
Operations:

- Continuing to work with faith based organization to distribute resources.
- Working with colleges to obtain volunteers for canvassing.

Chris

Update 1/17/16 – 13th Day (12th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs), PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration

Attached Documents:

- SitRep 12

Status on Governor's request letter to the President:

- Emergency declaration received.
  - Limited to direct assistance so we will need to ask for the Individual Housing Program but that is something I will work on with FEMA.
- Major disaster declaration denied. The appeal is being developed with a draft to Paul Smith by later afternoon 1/18/16.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have ! state agency, type 3 teams el), with a goal of 300 homes per team.
  - We will have 12 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed 11 state/local teams and 10 ARC Flint Water Response Teams to the field today.
  - 4,963 homes visited today.

01/16/16

01/17/16

- Information reported to the JIC:

    - o As of 1/17/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 16,353 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received from prior to the SEOC activation (trying to validate the data) plus the PODs and door to door operations since activation.

    2. Distributed:
        a. Number of cases of water 27,195
        b. Filters 50,432
        c. Filter cartridges 168,605
        d. Test kits 4,861

    3. Total number of customers on the Flint water system
        a. 29,944 paying customers
        b. *45,000 hookups (This is our high end target #)*
        c. 39,000 includes apartment complexes (The is the low end target #)

    4. Resources purchased:
        a. Cases of water 57,456 (additional 12,884 donated)
        b. Filters 108,520
        c. Filter cartridges 239,081
        d. *Test kits 28,901*

    5. Teams going out tomorrow:
        a. State ,) type 3 teams---Goal tomorrow 300 homes per team
        b. 12 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Facilitated activation of the Genesee County/Genesee Health System MOU for mental health services.
- Coordinated supplies for distribution to students at the U of M Flint campus.
- Still concerned about people going to every fire station and collecting water/filters.
- Coordinated trash pickup at Fire Station PODs with the City Liaison officer.
- Coordinated hotshot deliveries of supplies to home bound population.

Chris

Update 1/16/16 – 12th Day (11th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to prepare for engagement following the Presidential Emergency declaration

Attached Documents:

- SitRep 11

Status on Governor's request letter to the President:

- Emergency declaration received. Federal Coordinating Officer (FCO) is David Samaneigo (Sam) who has been my LNO from FEMA. We began discussions on a transition to FEMA support last night. His team is headed to MI at this time and we will have our first coordination meeting on Sunday.
- The request for a Declaration of a Major Disaster was denied. FEMA advised this event does not fit the legal definition of a major disaster (natural incident or fire, flood, or explosion). This information has been provided since prior to the event to elected officials in Flint and the legislature. We are reviewing the chances for an appeal and I have already discussed this with the FCO.

Key items for tomorrow to note:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have state agency, type 3 teams with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- I will be back on duty Sunday.
- We have been working with some of the churches. Contact was made with 14 churches for Sunday distributions. Interaction with the pastors has been very positive.
- A logistics briefing will be provided to see how many more teams we can put in the field.

Items to Note

- LT Gov visited the local EOC today; discussed local EOC operations.
- Deployed 11 state teams and 10 ARC Flint Water Response Teams to the field today.
- DEQ sampling kits are now being received at the PODs.
- DEQ sampled two Head Start facilities and worked with GIS to obtain future sample sites.
- The Freeman School pilot was delayed due to some parts not arriving as scheduled. Testing was to be done Sunday but may not occur until Monday.
- NG will have a total of 78 personnel in the PODs for distribution. Mission has not changed.
  - NG soldiers have been in the PODS. more processing in tomorrow with start date of 1/18 in the PODS. The TAG and I will be discussing future use of NG personnel door to door next week.
- Information reported to the JIC:

  - As of 1/16/16 7pm (start date was Tuesday, 1/12/16)

1. 11,324 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received prior to the SEOC activation plus the

PODs and door to door operations since activation. 3,850 homes were visited today (4,000 was the goal).

2. Distributed:
    a. Number of cases of water 20,876
    b. Filters 47,935
    c. Filter cartridges 167,401
    d. Test kits 3,322

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 57,456 (additional 12,884 donated)
    b. Filters 108,520
    c. Filter cartridges 239,081
    d. Test kits 28,901

5. Teams going out tomorrow:
    a. State type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Provided direction to Operations and Logistics Section to initiate water sample collection at PODs.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional churches were supplied with water, filters and test kits.
- Still concerned about people going to every fire station and collecting water/filters.
- Station #6 (POD) has associated safety concerns due to proximity of street and lack of suitable parking. We are working to resolve.

Subject: SEOC Update 1/15/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/15/16 – 11th Day (10th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Pilot the logistics plan and adjust as needed

- Continue with door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to ensure we get a Presidential Declaration of a Major Disaster and Emergency

Attached Documents:

- SitRep 10

Status on Governor's request letter to the President:

- *All documents for the presidential request have been submitted to FEMA. Numerous calls and* meetings took place between me and FEMA today.
- When we get the declaration(s) ... I will set up a legislative/congressional call to explain and provide bullet points as to what programs we will received. The Federal Coordinating Officer assigned will also be with me to answer questions. This has helped in the past.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have ;tate agency, type 3 teams el), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
  - A pilot team was used to test our logistics plan today and with 60% strength they had 160% output (830 homes).
- I will be off tomorrow but available by cell. Tony Katarsky will be SEOC State Director. I will be back in on Sunday.

Items to Note

- LT Gov visited the local EOC and SEOC today. He was able to hear our final briefing for the day.
- Held a short session managing stress with SEOC staff. Two handouts were put in MICIMS for all state and local personnel to view.
- Deployed 10 state teams and 5 ARC Flint Water Response Teams to the field today.
- Standing requirements were created for the JIC so we can get information to the media every day. Below are the current ones we have in place and we should have something out tonight according to the JIC.

  - As of 1/15/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 7474 homes visited by the FWRTs. We believe we have ~24,000 homes with filters but are trying to validate that information. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.

2. Distributed:
   a. Number of cases of water 18,576
   b. Filters 45,916
   c. Filter cartridges 165,382
   d. Test kits 3,217

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)
   c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:

a. Cases of water 44,688 (additional 12,884 donated)
b. Filters 78,520
c. Filter cartridges 163,081
d. Test kits 18,761

5. Teams going out tomorrow:
   a. I State type 3 teams---Goal tomorrow 300 homes per team
   b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Home Deliveries:

- Still receiving lists from the Valley Area Agency on Aging (VAAA) on home deliveries and forwarding these to the Sheriff's office. They are going through a lot of homes. 120 out of 125 homes were completed yesterday.

Operations:

- We sent staff to visit Fire Station 6 and the warehouse today. Fire station 6 traffic was congested and that was during a "slow" time. The National Guard is identifying what is needed to alleviate this. MSP is working on providing uniform presence as needed. An additional iPad at each location will hopefully help relieve the amount of time that people are spending at the distribution sites.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional requests from churches were made and I approved the locations so they could be ready for Sunday. Lt. Roach was told by one of the pastors that he met with the Gov today and expressed how much he appreciated the efforts put forth. We should have 14 for this Sunday. We are working on how we can increase this output.
- Still concerned about people going to every fire station and collecting water/filters. NG personnel observed vehicles with several cases of water an overheard saying they were heading to the next station. Some people were helping themselves and taking more than one case at a time. Per the NG they cannot physically stop people from doing so. The NG is going to try to change staging in the fire stations to try to prevent this.
- Flint PD is going to check in every day with the EOC and provide a specific contact person. They are also going to help with traffic issues at the PODS. Will ask Flint PD to provide a presence when water is off loaded at a POD to help prevent people from "helping themselves."

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/14/16 – 10th Day (9th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and finalize lease on warehouse space/begin to move supplies from GCCARD to new warehouse
- Continue with door to door teams and finalize planning for future team use
- Submit request for a Presidential Declaration of a Major Disaster and Emergency
- Continue to work on long term recovery items (DHHS, DEQ, MDARD)

Attached Documents:

- *SitRep 9*

Status on Governor's request letter to the President:

- *All documents for the presidential request have been submitted to FEMA* I had a lengthy conversation with the FEMA Region V Administrator reference the request prior to sending.

Key items for tomorrow to note are:

- The door to door teams will continue in the morning.
- We will continue to ramp up door to door operations with additional teams. Teams continue to focus on the high lead level areas and additional data is being analyzed to focus mission areas.
- ARC will increase the number of their Water Response Teams.
- Supply burn rates as well as projections on how many teams will be needed to put filters in all homes within 3 and 5 days will be completed. Analysis will be done to see in NG personnel may be needed to finish in quicker manner.

Items to Note

- DEQ was notified of the number of homes who are willing to have them take additional samples in the future (current number (114). This question was added to the App being used by the Water Response Teams. Data will be provided when needed.
- LT Gov is scheduled to be at the local EOC and SEOC (~4:30) tomorrow to see the operations.
- Secured 80,000 sq. ft. of a warehouse today Working to consolidate all resources in one location. Tomorrow will be the first day of full implementation of our logistics plan.
- Email sent to state employees to request volunteers for weekend.
- Media monitoring showed no incorrect information today.
- Michigan Association of Broadcasters is sending PSA to radio stations.
- Coordinating with Red Cross on volunteers for weekend.
- Deployed 8 Water Response Teams to the field today (approx. 120 volunteers). 78 Red Cross volunteers active across the operation today.
- National Guard is ramping up to have soldiers per shift at each POD tomorrow. Will also have a Public Affairs Officer at the JIC and liaison at the local EOC.
- Senator Ananich visited the SEOC today to see how things operate. The visit went well and he seemed happy with the number of staff working the Flint event. He tweeted out a message indicating there is still a lot of work to be done but all are working hard.
- DHHS
    - The Community Health Emergency Coordination Center (CHECC) is working on the following:
        - A nutrition plan
        - Education materials, messaging, and working with local agencies
        - Developing a community assessment for disaster behavioral health services.
- Lined up the delivery of filters to two large apartment complexes and a student housing complex.
- We have the list of individuals needing home service (additional contacts will be sent to the Ops Chief at the Local EOC each day at 4:00). Info will be provided to the sheriff's office for action.
- Water Response Team Numbers (this is not the total of homes with filters – I will provide that number tomorrow but it appears we have filters in over half the residences):

	TOTAL	1/12/2016	1/13/2016	1/14/2016
Occupied Homes	1450	242	492	716
Vacant Homes	1967	152	161	1654
Total Homes	**3417**	**394**	653	2370
Resources				

Door Hangars	1487	217	453	817
Water	588	117	254	217
Filters	945	112	220	613
Pitchers	22	3	13	6
Water test kits	217	48	109	60
Replacement Filter	482		137	345
Total Resources Dispersed	**3741**			
Future sample test site	114	28	34	52

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/13/16 – 9th Day (8th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and close lease on warehouse space
- Continue with door to door teams and finalize planning for second wave increase (+15 teams – *total for 1/14/16 will be 20*)
- Continue to work on Governor's Declaration of an Emergency

Attached Documents:

- SitRep 8

Status on Governor's request letter to the President:

- All support data from state Agencies and local jurisdictions collected as of 6:00 pm on 01-13-16
- Current timeline:
    - First draft completed and ready for review by State Department Directors (including the Attorney General) by 11:00 am on 01-14-16
    - State agency reviews due back by 1:00 pm on 01-14-16 for revision of the draft
    - Revised draft to Captain Kelenske by 2:00 pm on 01-14-16 for review and forwarding to the Governor for final review
    - Final draft (based on Governor's review) submitted to FEMA Region V Administrator by no later than cob 01-14-16 but hopefully sooner. FEMA is aware and ready to receive.

Requests and potential response from FEMA/President

- The letter will request all programs eligible under the Stafford Act including Public Assistance, Individual Assistance, Hazard Mitigation, FEMA's coordination of assistance from other Federal agencies and direct assistance from FEMA
- The letter will also request potential direct reimbursement from other Federal agencies such as EPA, CDC, HUD, DHHS and SBA
- This request is in coordination with the request for Non-Stafford Act federal assistance already requested and received by the State (technical assistance and administration, but no direct reimbursement of disaster costs)
- Direct Federal assistance from FEMA in the form of Individual Assistance to homeowners for household repairs (repair and/or replacement of water service lines and Other Needs Assistance to reimburse for water filters, bottled water, etc.) is a possibility

- Direct Federal assistance from FEMA in the form of Public Assistance is not as likely as it is mostly replacement of publicly owned water distribution lines (and not the direct result of damage from a natural cause)
- If Stafford Act assistance is denied (Public Assistance, Individual Assistance and Hazard Mitigation) FEMA could still provide coordination of assistance from other Federal agencies if the President declares a disaster (or emergency) for the State of Michigan

Key items for tomorrow to note are:

- The door to door teams will continue at 9 a.m. – 5 p.m. Thursday morning and continue through the weekend.
- We will continue to ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas and additional data is being analyzed to focus mission areas.
- MNG will have a press event at the armory with incoming soldiers and MG Vadnais.

Items to Note

- Received information that Rev. Jesse Jackson will be in town 1/17/16 at 1:30 at the Heavenly Host Church of the Harvest of Dartmouth St, Flint.
- Managed and corrected misinformation on NG role.
- Senator Ananich is stopping by the SEOC tomorrow morning 0845. I am meeting with him and his Chief of Staff. Short visit as he has a 0930 at the Capitol.
- Working with Comcast so they can put teams in the field for distribution.
- Penske is going to give us 15-20 trucks over the weekend.
- Contact made with Two Men and a Truck for resources.
- Meeting set with Google where they will brief me and key staff potential tasks.
- Coordinated with Flint Mass Transportation Authority (MTA) to include Fire Station PODs on bus routes.
- Tomorrow I will have a projection as to the number of teams needed to get all citizens filters in their homes in 5 days / 3 days.
- We are standardizing team structure and supply deployment to increase efficiencies. Mission Ready Package (MRP) specifications will be sent out for other entities to assist with door to door. They will then be able to arrive as a MRP, get supplies, receive a mission location and deploy.
- 5 Water Response Teams were in the field again today. Below are the numbers from the 2 days of just the Water Response Teams (there are paper copies with data still to be entered from the PODs). I was just briefed by the ARC logistics planner and there are efficiencies we can put in place to increase homes touched per day. The next version of the app will provide more granular details. Additional 30 tablets were configured by DTMB today for field implementation to include use in the PODs.

	Total	1/12/2016	1/13/2016
Occupied Homes	533	242	291
Vacant Homes	238	152	86
Total Homes	**771**	**394**	377
Resources			
Door Hangars	473	217	256
Water	265	117	148
Filters	235	112	123
Pitchers	9	3	6
Water test kits	92	48	44
Replacement Filter	93		93

Total Resources Dispersed	**1167**		
Future sample test site	62	28	34

- We show 17,276 residences with filters (this does not include data entry to be completed from POD or other locations).
    - We have 35,378 service hookups but with apartments, multi residence dwellings, etc we would be around 45,000.
- Logistics Support
    - The American Red Cross Logistics Planner provided me a brief and I approved the plan forward. The current plan includes:
        - Mission – A filter in every home ASAP.
        - 4 Distribution Methods
            - PODs (5)
            - Water Response Teams (20 effective tomorrow and this will increase)
            - Local EOC "Hot Shots" (these are calls for functional needs, unable to get to a POD location due to ??, etc). Personnel dispatched with supplies.
            - Local EOC support for other local requests (Faith based for distribution, etc.)
        - Three warehouse locations at this time
        - How to better leverage ARC resources

- Supplies – Daily Numbers
    - Replacement Cartridges - 30,700 delivered.
    - Water (cases) - 19,152 cases delivered

- Budget projection completed and will be submitted to SBO for review.

- Notes from Water Response Team Command (MSP)
    - Very good synergy between Flint Post troopers and Genesee County Sheriff command and deputies in effective and efficient deployments for distribution efforts.
    - Great attitude and efforts by uniforms and volunteers to make important contributions to the City of Flint on water response team deployments.
    - Clear direction and coordination in the field of supply teams by lieutenants and troopers. No confusion. Clearly defined roles.

All personnel continue to be fully committed to fixing this as quickly as possible.

Chris

Update 1/12/16 – 8th Day (7th Full Day) After Governor's Declaration of an Emergency

I apologize in advance for the length of this report. With the supply issues we had the last couple of days I wanted to share our inventory plus what we anticipate to ensure we do not have supply issues.

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Fine-tune logistics
- Increase and deploy door to door teams (4 state teams added to teams from the Sheriff's Department)
- Increase collaboration and messaging of collaboration with local agencies (specifically the Sheriff's Department)

Attached Documents:

- SitRep 7
- Executive Order Activating the National Guard

Key items for tomorrow to note are:

- The Governor signed an Executive Order activating the National Guard. Mission will be to relieve ARC volunteers at the PODs (Fire Stations) which will free up the ARC volunteers for door to door activities.
    - I have briefed the ARC Disaster Officer on this plan.
- The Governor requested, through FEMA Region V, support from the Federal Emergency Management Agency (FEMA) to bring together and identify other federal agencies that may have programs and funding that could be dedicated to assisting Flint as part of an interagency recovery plan. One of the existing LNOs has been identified as the POC for this. He will be a great liaison for the FWIACC.
- The door to door teams will continue at 0830 Wednesday morning and continue through the weekend and ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas.
- We will look at all commodities and see where we are and where we need to be while working with the ARC logistics specialist.

Items to Note

- PSA video sent out to Flint citizens on resources available.

- Water
    - Today's numbers - 7,824 cases of water arrived today, 1/12/16 (109 pallets)
    - Ordered:
        - 19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)
            - 1/3 is going to GCCARD and the rest is going to the new warehouse
        - 12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)

- Filters
    - Today's numbers
        - Ordered on 1/11/16 and delivered 1/12/16 direct to GCCARD
            - 2,000 – Brita filter faucet mounts
        - Filter Replacements
            - 2,400 – Brita filter replacements (single pack)
            - 8,000 – Brita filter replacements (two pack)
    - Ordered on 1/12/16 to arrive Wednesday
        - Faucet Mounts – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
            - 10,000 – PUR Vertical faucet mount
            - 2,500 – PUR Horizontal mount
        - Replacement Filters – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
            - 10,000 – PUR replacement filters (3 pack)
            - 10,000 – PUR replacement filters (single pack)
        - PUR Combination Pack – to be delivered to GCCARD on 1/13/16 (Wednesday)
            - 10,700 – PUR combo packs

- To arrive Thursday
    - Zero Water Pitcher (8 Cup) – Delivering direct to GCCARD on 1/14/16 (Thursday)
        - 1,300 – Zero Water pitchers

- Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Thursday)
  - 11,000 – PUR vertical faucet mount
  - 1,500 – PUR Horizontal faucet mount
  - 5,000 – Brita faucet mount
  - 10,000 – Brita adv faucet mount white
  - 12,000 – Brita adv faucet mount chrome
- Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Thursday)
  - 117,600 – PUR replacement filter

- Test Kits
  - 6601 unassembled kits arrived at GCCARD today, 1/12/16.
  - 500 have been assembled and are ready for distribution
  - 1000 additional unassembled kits have been ordered to be delivered at GCCARD (no ETA yet)
  - 10,142 unassembled kits to arrive at GCCARD early next week

- Second warehouse – Located in Flint
  - 100, 000 square feet of secure warehouse obtained.
  - Accepting commodities beginning Wednesday, January 13

- Logistics Support
  - The American Red Cross Logistics Planner arrived from DC today as requested. I outlined what her mission was and how I saw the progression forward. This logistics planner will assist in streamlining the inventory and distribution process now and into the future.

- Door to Door Numbers
  - Today the app implementation for the field went extremely well. There were a few issues that were quickly addressed. One related to how form fields should be filled out. Another was getting styluses for teams so that they don't have to remove their gloves in the cold. All very simple to fixes.
  - We are working on version 2.0 so this can be used at the PODs
  - We should be able to greatly optimize distribution in the near future as we mapped the active water subscribers from Flint's DPW and are adding them to the field team members apps. Of the ~56,000 possible addresses, this reduces the number of possible homes to visit down to ~29,000.
  - Notes from the field commander:
    - "Today we started out the day using two groups that consisted of approximately 10 people in each group. We eventually combine groups with Genesee County Sheriff's group and they brought two more groups with approx. 10 people (Local UAW) in each group. This made us a lot more efficient and we were able to set up a game plan. Tomorrow I feel we will be more efficient and we will have a better plan in place to get the maximum output out of our resources."
  - In the end, there were 394 total home visits with the following breakdowns:
    - 217 Door Hangers
    - 152 Vacant Homes
    - 117 Water Distributions
    - 112 Filters
    - 3 Pitchers
    - 48 Water Test Kits
- 211
  - CALL VOLUME:
    - 185 calls for water-related issues had been received as of 4:45 pm.

- Logistics made contact with Comcast and will be supplying them with filters and replacement cartridges for their deliveries in their work trucks as they make services calls. They will follow our procedures for reporting (our checklist).

Chris

Update 1/11/16

The focus today was the media event and getting the supplies and logistics on track. Most of the activity today was working on logistics for the water and other supplies.

Attached Documents:

- SitRep 6

Key items for tomorrow to note are:

- The door to door teams will start at 0830 Tuesday morning. It is reported that troopers are going to the door but DHHS employees are the lead with a troop car nearby.
    - State and local GIS created an App today for the teams to use tomorrow but I see potential use at distribution sites.
    - The App data will be used for our maps as we survey the public/distribute supplies and we will be getting real time metrics through the site from the field send back to the SEOC. We are using Android tablets tomorrow but in the future can use any mobile device for this.

Items to Note

- It was reported that only one POD (Station 5) was out of water longer than 30-45 minutes. This site was ~2 hours without water and part of that was the truck went to the wrong station. Trucks were sent as soon as the local EOC was notified.
- We also did not receive a DHHS shipment that was to come in which caused some filter delivery issues.
- Supplies are limited at this time; however, we are getting our shipments starting at 0630 tomorrow.
- We have Home Depot giving us 12,768 cases (this was a late development so the SitRep indicates half the amount) of water every day starting tomorrow. We are still working with other distributors too.
- ARC is flying in a logistics planner tomorrow. Three additional staff with be with her to shadow and help. We are turning warehouse logistics over to ARC logistics. We are moving tomorrow to a process that has a distribution center (GCCARD) and a warehouse that is 100,000 square that will maintain mass quantities. Staff has continually been placing orders for supplies to ensure we get a head of this. The intent is to keep the warehouse full so we do not have these continual issues of supplies.
- Began mapping lead service lines (anticipate having draft of lead service lines Friday).
- Coordinated with local IT managers overseeing filter tracking system to streamline data collection.

Local Emergency Operations Center

- Working to coordinate resources at the local level to maintain adequate supplies at all PODs.
- Demand has exceeded supplies and supplies are moving rapidly from PODs today. Working to make sure POD managers notify us when they start running low.
- Working to establish a warehouse for local resource storage.
- Established trigger points for resources at PODs and hourly inventory reporting from the PODs.
- Discussed potential long term water sources between local EOC and SEOC.
- Established planning cycle/meeting scheduled for 1/12/16.

• Local EOC EMHSD staff with Natasha Henderson to request deployment of City representative at local EOC.

Chris

Update 1/10/16

Attached Documents:

- SitRep 5
- Door card (English version but Spanish version will be ready for Tuesday)

I have a local EOC section listed below but state personnel are heavily engage in management of both locations. We occasionally hit some road bumps with this event but all personnel are working well together to accomplish our goals (especially state agency personnel).

I have had good discussion with FEMA LNOs. Two statements have been developed from our discussions that hopefully helps put this in more context but if it is more confusing I apologize:

1. In the immediate response, the State, in collaboration and coordination with city of Flint and county of Genesee are working to get water, water filters, and testing kits to the affected population. In conjunction, the state will coordinate with federal agencies to ascertain what resources can come to bear to help mitigate the issue.

2. If asked about a federal declaration from FEMA, we need to articulate the definition of major and emergency declaration and state or note to ourselves that it appears to not qualify; **however**, there may exist opportunities to leverage federal assistance from some agencies (i.e....EPA) under their own authority to help address this issue.

    - We need to really manage expectations on the potential for a federal declaration...not that we will not go after one but it will be difficult to get.
    - A major disaster is defined in the Stafford Act as any ***"nature catastrophe (including hurricane, tornado, storm, high water, windriven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause any fire, flood, or explosion.....causes damage of sufficient severity and magnitude, to warrant major disaster assistance.....to supplement the efforts and available resources of States, and local government....."***
    - An emergency declaration is ***"is any occasion or instance for which, in determination .....assistance is needed to supplement State and local efforts and capabilities to save lives and protect property and public health and safety or to lessen or avert the threat of a catastrophe....."***
        - This is limited to immediate and short-term assistance (I hate to put times on this but short-term is like 3 weeks), essential to save lives, protect public health and safety and property.
    - Severity of the situation is ***"A finding that the situation is of such severity and magnitude that effective response is beyond the capability the state and affected local governments, and that the state requires supplementary federal emergency assistance to save and to protect property....***
    - Nature of assistance for Emergency Declaration is for ***"Debris removal, emergency protective measures, direct federal assistance...."***

- Debris Removal = ***self-explanatory and we do not have this***
- Emergency Protective measures = ***water, commodities, transportation (remember ... to supplement what the locals and state are already doing if we need more)***
- Direct federal assistance= ***what specific type of work is requested, and what are the reasons why the state/local government cannot perform or contract for performance. Essentially what is the need that state/local govt cannot provide. I can see this being something we need but we may be able to get this outside a federal declaration under the federal agencies own authority to help address this issue.***

Back to the update...

Key items for tomorrow to note are:

- Training is occurring for the door to door teams scheduled for Tuesday morning.
- Deploying an additional MSP District Coordinator to the local EOC for command and control support.
- Deploying two DTMB trucks and two drivers for sustained logistical support for the week.
- Media event with the Governor in Flint.
- New Incident Action Plan starts (1/11 0800 -1/13 0800 operational period). Our objectives are as follows:
    1. Ensure all households within impacted community have required resources.
    2. Ensure accurate tracking and accounting of all commodities.
    3. Improve and maintain public information strategy.
    4. Develop a long term public health and services plan.
    5. Ensure adequate staffing to support operational requirements.
    6. Identify possible assistance programs.
    7. Develop an approved GIS strategy.
    8. Maintain coordination between partner agencies and organizations.
    9. Enhance situational awareness and common operating picture of all activities.
    10. *Develop a comprehensive Recovery Plan.*

Items to Note

- All 9 churches had filter systems/replacement filters, information sheets, and water test kits delivered as requested by each pastor/reverend on Sunday. We did not think we could get them water due to the limited time but we did end up getting water to all 9 churches with the other items.
- Fire station resource locations stayed open from 9a to 9p and will continue with those hours until further notice (Staffing is in place until Saturday). ARC is staffing these locations.
- The media event was held at Fire Station No. 1 and report back is that it went well and the spirit of *collaboration between local, state, non-governmental partners is strong was relayed.*
- The four door to door teams will have the hours of 8:30 a.m. to 5 p.m.
    - Each will have logistics support from DTMB, security from MSP, and contact personnel from DHHS.
    - The door card is attached that will be left if no one is home.
- Worked to identify a storage location within the City of Flint for water and supplies. G-CARD is identified as temporary location but we are moving toward a state run warehouse operation (looking at private sector partners to assist, especially with the warehouse management side).
    - GCCard is large enough, centrally located and comes staffed. GCCard has 75,000 sq ft with warehouse managers to assist with tracking resources coming in and out.
- *GIS will provide us daily updates of how much was distributed each day but note we have a delay in* data entry from delivery to entry in the GIS system. Over the weekend there was a problem locally

with staffing to get this completed. A solution is in place and will be implemented so we get timely data. Distributed to date (as of 1/8/16).
    - 12,386 filters
    - 1,985 replacement filters
    - 354 Pitchers
    - 2500 Lead Testing Kits
- Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to ensure distribution sites maintain an appropriate level of inventory. I have requested trigger points get put in place so we do not get below certain levels in the main warehouse location.
    - Contacts with some large water distributors have been made and their and our logistics chiefs will connect first thing this week.
    - We have ordered an additional (expedited delivery with ETAs tomorrow)
        - 40,000 Brita Filters
        - 40,000 Brita Replacement Filters
        - 1000 Zero 8-Cup Pitchers
        - 1000 Zero 8-Cup Pitchers
        - 2000 PUR Replacement Filters
        - 93 Pallets of water (about 6700 cases)
- GIS continues to produce multiple maps for use.
- JIC Items
    - Requested PSA on the radio. Media has been approved and working with MAB.
    - Requested JIC to contact Comcast and Dish Network for availability for continuous running of filter install/replacement and test kit video.
    - A news release will likely going out tomorrow regarding canvassing in neighborhoods. Continued social media messaging.
        - Tuesday – embed state PIO with one of the canvassing teams to liaison with media.
        - JIC moving tomorrow to Flint.

<u>Local Emergency Operations Center</u>

I am providing you some information on some issues we ran into at the PODs. This has been addressed with additional state resources and processes put in place so we do not run out of resources. Public concerns/complaints have not been brought to my attention at this time. Staff is working very hard to ensure we do not run out of supplies at the PODs and they understand the consequences. No one in the Local EOC or State EOC is happy the follwoing occurred and I felt you should know in case it is brought up. Again, I believe we have fixed this and I take full responsibility for any supplies not being on site.

<u>Fire Station Inventory Levels:</u>

Station 1:

- Only time without supplies - 15 minutes without water while the truck was unloaded.

Station 3:

- Ran out of replacement filters around 7:00, replacement filters delivered around 7:30. Had to pick up replacement filters from Home Depot and deliver.

Station 5:

- Ran out of water around 5:00, water was delivered around 6:30. We needed to find additional trucks because DTMB drivers were over hours. The ARC stepped up and found a truck to go and pick up a pallet of water and deliver.
- Somewhere between 4:00-6:00 they ran out of lead test kits. No way to restock these because City facilities were closed and could not reach anyone.

Station 6:

- Around 5:00 ran out of water, filters, and replacement kits. Replacement kits were delivered around 7:30. Additional water and filters were delivered after 9:00 due to the DTMB drivers

heading back to Lansing. Food Bank was called and had to get drivers in to operate trucks, pick up water from the School District, load and deliver to all sites. Delays occurred with weather conditions and needing to use last minute sheriff EOC staff to load due to issues with City workers. City workers were scheduled to help and left around 7:00 without helping.

- 2 pallets of water were dropped off in the afternoon and within 1 hour were gone. This was much faster than we expected. On 1/9 they didn't go through 2 pallets of water at any station for the hours 9:00-4:00.
- We received news that a reverse 9-1-1 call notified residents of water which caused an unanticipated amount of people obtaining water. There was also a report of 1 person walking out with 2 cases of water and trying to sell in the parking lot.

Station 8:

- Around 7:00 ran out of filters and lead tests. Filters were delivered around 8:00 from the food bank trucks.
- Hourly reports were requested in the morning from volunteers but this information was not received as to the status throughout the day. Early inventory of supplies took between 1 hour-1.5 hours to receive in the EOC. We were not advised of low counts, just zero numbers.
- Reports received that the last couple of hours were slow.
- Residents were advised of the other sites and the opportunity to obtain supplies.

Restocking Plan

- United Way set up meeting with Food Bank to discuss.
- Had EOC meeting on this topic to discuss options.

Churches:

- All 9 churches received waters, filters, and informational bulletins.
- Lt Roach received positive feedback from 3 of the pastors.
- No complaints were received

Signage:

- Provided information to SEOC on signage requirements at the fire stations.

Storage:

- Researched storage spaces; established temporary site at GCCARD.

Personnel:

- Lack of local EOC leadership (seems somewhat checked out) with IC and Deputy IC (doing an okay job).
- Captain TaFoya (Genesee County) helped tremendously today with all the plans outlined above and attended the press conference.
- Tina Martinez at the Food Bank and Matt Purcell at GCCARD were extremely helpful in getting last minute operations set up.

Chris

Update 1/9/16

SitRep 4 attached for more in depth information. The below only contains some items worked on today and while the format in the attached SitRep is not perfect (it is created automatically by MICIMS) it does contain a lot more information you may want to read. I also attached one of our maps. It is our filter distribution map. All filters handed out by anyone working with us feeds into this now. We are continuing to refine these and at this time there is a delay in the upload of address data but we are working on it. We have a ways to go to get filters in every home but this will help direct us to those who need still them. We also are working on identifying abandoned homes.

Key items for tomorrow to note are:

- 9 churches will have ARC volunteers and filters for distribution. Some may also get water.
- 5 fire stations are a distribution point for water, filter systems/replacement filters, and water test kits. While only open today until 4 p.m., tomorrow and until further notice they are open from 9a to 9p.
- Media event will take place on the above tomorrow.

Items to Note

- 211 has some issues with call load but it is being worked on. 2-1-1 Director contacted MDHHS PIO to discuss/resolve caller wait times and messaging. We anticipate an increase in activity tomorrow in 211 calls so we requested and received an increase to staff 211.
- We are shifting tasks the SEOC took on that are handled more effectively and efficiently at the local EOC. We have established command and control in their EOC. We are running things there but that is not being made public. We are doing this in partnership but we are clearly handling the operation with state personnel oversight.
- A 3rd FEMA LNO arrived today upon my request. This has nothing to do with a Presidential request for a declaration but support for some other items I want worked on for long term recovery.
- We continue morning calls with the local EOC leadership and local emergency manager on what our goals for the day are as well as any issues/concerns.
- Five 5 fire stations have received water, water filters, replacement cartridges, and water testing kits with American Red Cross personnel at each location to assist with delivery of resources and collection of addresses receiving them. These locations will be open from 9a – 9p daily until determined they are no longer needed. Those picking up water testing kits will be advised that they can return the test kits to the fire departments (where they will be picked up and taken to the Flint City Hall), the Flint Water Treatment Plant, or they can take them directly to the Flint City Hall. For those unable to return the kits, 211 can make arrangements for pick up the kits. We understand response to these sites has been positive thus far. The Genesee County EOC will be monitoring these supplies and request replacement of products as needed.
    - A call is going out tomorrow morning to advise this information ... I do not believe it was every resident but Tori Sachs has that info if needed.
- I approved a press release today to advise the public that all levels are working together to ensure delivery of filters, test kits and water; noting that all of these items were delivered to the 5 Flint fire department stations. It was stressed that the public should be aware that the local and state agencies have been working cooperatively to assist the residents - and will continue to do so. This was done to hopefully end or at least minimize the "who can get water and filters out first" when all of this has been connected with the state and coordinated since the state declaration was put in place.
- The arrangement of 2,000 filters, to be taken to 9 local churches on Sunday, January 10, is ongoing. The filters have been secured; they are now in the possession of the DTMB. DTMB will return to Flint on Sunday morning to deliver these to necessary locations. The American Red Cross will be on site at each church to assist with distribution and recording addresses (for GIS). The local EOC is working to ensure these arrangements are complete and run smoothly. Future engagement with the faith based community will occur to assist with additional distribution.
- A Flint City liaison has not been in the EOC but starting Monday this will be in place to keep the Flint Mayor appraised of activities being conducted in the city. She also has been advised she can call me at any time if she needs anything.
- Training has been confirmed for the door-to-door operation scheduled to start Tuesday. Four teams are initially scheduled with more to potentially be put in place. These are the teams that will be handing out water, filter systems/replacement filters, test kits and information. If nobody is home,

a door hanger with information is being left. DHHS personnel and one MSP trooper will be on these teams.
    - Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.
        - Training is so those going door to door can explain what the filters do, how to install them, if they need install help to call 211 who has a list of people who can install the filters, and answer any other questions versus just handing them the filter.
    - Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m. AT THIS TIME. I am reevaluating these times to increase contact with someone versus just leaving information.
    - Logistics are being finalized for the teams and trucks to handle stocking and re-stocking of materials during daily operations.
    - GIS maps will provide guidance on deployment locations for these teams and other teams in the field.
- A pilot project at Freeman Elementary with LARA and DEQ has been initiated to see if replacing certain plumbing components in faucets at the school will drop the lead level.

MSP/EMHSD GIS Section Updates

Accomplished Today (January 9):

- Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.
- Produced Filter Distribution Map.
- Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
- Worked on map of franchise customers outside of Flint City.
- Produced maps for MDARD on food establishments and Local Health Departments.
- Produced map of Church Filter Distribution map for DTMB.

Local Emergency Operations Center

- The state has deployed 10 personnel to the Genesee County EOC to ensure we have command and control at the local level. On 1/8/15 The state personnel took over the incident management functions of the Genesee County EOC (not public). The arrival of additional staff allowed the local Emergency Management Coordinator to delegate tasks which relieved a tremendous amount of stress.
- Additional Sherriff staff) will be shadowing the state incident management team to allow for transition to the county personnel later in the incident when we are comfortable with them handling things. Not sure when that will be but we have secured a direct bill hotel for staff to stay in Flint as long as needed.
- With the additional staff, the Local EOC will be able to take over functions previously handled by the SEOC including:
    - Logistical activities to support church operations.
    - Logistical activities to support fire stations operations.
    - Coordinate Donations Management activities and draft donations management plan
    - Coordinate Volunteer Management activities
    - Identify local storage/staging facilities
    - Overall inventory tracking
    - Tracking of Points of Distribution (PODs)

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/8/16

SitRep 3 attached.

There is a significant difference in what is being presented by the media and what the local EOC is relaying to us at the SEOC. It is also being driven by the media that this is a state versus local response (who is providing more and quicker versus a coordinated effort between all). That said, I advised SEOC personnel that perception is reality in some eyes and we are to move forward to address items that typically are addressed at the local level. I have ordered the SEOC open all weekend due to make the quick wins that we need and continue to get the coordination and collaboration in place that is needed (but make gains on our own as needed).

Items to Note

- Two FEMA LNO's arrived today and are in the SEOC. A third LNO was requested from FEMA due to some unique issues with this event to include having to deploy more or my staff to the local EOC to get more structure and/or find out why there is an issue with the message the media is showing versus what we are hearing from the local EOC.

- We finally received from the local EOC 8 locations (we were told originally early in the week they had 80-90) that are their Points of Distribution (PODs) for water in conjunction with the local food bank. The PODs are not getting water from the food bank even though the food bank has water. We are going to resolve this issue as we can help deliver the water to the PODs but we were not aware of this. 8 PODs is not enough locations if water needs to be distributed to citizens. Speaking with the ARC Regional Administrator later today, I believe ARC got water to those locations but I need to confirm that in the morning. The food bank reported they had 376 cases of water.

- We have learned that a low number of residents are testing their water when DEQ can test 400 kits per day. This is an added focus that we believe can be increased through dissemination of test kits with the filters and any water.

- I found out the Mayor was okay with using fire stations as distribution points for water, filters, and water test kits. While this did not come to me through the local EOC, I advised we needed to get water, filters, and test kits to these locations for tomorrow. The distribution at 5 Flint Fire Department stations has been coordinated to be in place by 10:00 am tomorrow morning.

    - DTMB has provided a truck and driver to pick up water test kits from DEQ lab in Lansing, water from the Food Bank and water filters and replacement cartridges from GCARD in Genesee County.
    - 10 American Red Cross (ARC) volunteers will meet the DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.
    - Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.

- STILL FINALIZING - We have made available 2,000 Filters for distribution on Sunday as parishioners leave mass/services. This will be 200 filters for 10 churches in Flint. While this is a small number of

churches, we do not want to waste an opportunity to hand out filters and this seems like a quick way to so. The filters will be put on the DTMB truck on Saturday for delivery to TBD locations for distribution. Logistics remain undetermined as I am still waiting on a list of the churches, pastors/reverends/hours or services/etc. The DTMB truck will be returning to Lansing approximately 11:00 a.m. so we need to finalize this quickly on Saturday. We may utilize ARC to assist with this.

- The Recovery branch is working with the JIC to develop a door hanger card. DTMB is working on the printing portion of the hanger card. Recovery will also be finalizing logistics over the weekend for neighborhood canvasing to occur early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.

- It appears that 211 has become overloaded. DHHS is researching ways to increase capacity for calls.

- A Volunteer Management Coordinator is in the Genesee County EOC as of today.

- A Donations Management Coordinator has been requested and she will be in the Genesee County EOC Saturday.

- DHHS had a conference call with GM today; they indicated they can provide cash, and supplies, but primarily manpower. No commitments were made at this point We inquired as to availability of warehouse space and trucks. It was left as GM being a major resource pool that we can tap into as we determine missions. Further conversations will occur, but primarily GM just wanted us to know they are there if needed.

- An additional EMHSD staff member was sent to the Genesee County EOC to act as Operations Section Chief and obtain awareness of the situation there.

- GIS staff met with various parts of Genesee County/Flint personnel to try to get a handle on data available.

- GIS continues to work with local GIS personnel with three GIS staff going to Flint today to work with them. GIS staff is working with U of M on how best to proceed with digitizing water lines for long term recovery.

Chris

UPDATE 1/7/16

A summary of some of today's SEOC activities is provided below. Attached is the following:

- Today's SitRep which contains more information than below.
- The resource request/task assignment sheet for your situational awareness. This is how locals request resources as well as how we track resources and any assignments and/or tasks that are to be completed.
- JIC Task Tracking – for your situational awareness on how we are tracking requests and assignments. Once someone is assigned a task or resource request it allows them to document what work has been or will be done as shown at the bottom of the document.

Items to note:

- I received a document this evening from Genesee County which appears to be damage assessment information. Analysis of this will occur tomorrow. It appears to be infrastructure and costs to fix it and no other impacts.
- I spoke with Jamie Curtis, Genesee County Commissioner, this evening. A very good relationship is in place with him, especially with our District Coordinator (DC). I also have our DC working on developing stronger relationships with the Mayor/Mayor's office.
- GIS staff continue to obtain data and work with County and City personnel to get a picture of where resources have been provided, need to be provided, as well as infrastructure locations (pipes) that could be affected.
- Personnel and agencies have been tasked with developing a plan to get people in the community to deliver information, hand out filters, etc. This would target those areas we are showing minimal or no filter distribution based on the data we are collecting. The plan is to get them in the field by Tuesday and the plan will be provided to me tomorrow.
- Filters can be obtained at the following locations:
  - Michigan Department of Health and Human Services office, 125 E. Union St., Flint, MI 48502
  - Michigan Department of Health and Human Services office, 4809 Clio Road, Flint, MI 48504
  - Genesee County Community Action Resource Department office, 2727 Lippincott, Flint, MI 48507
  - Genesee County Community Action Resource Department office, 601 N. Saginaw, Flint, MI 48502
- Conducted briefing with local EOC and county executive.
- Conducted briefing with state agencies (daily updates).
- Began work to schedule legislative/congressional conference calls. Tentatively scheduled for 2 p.m. Friday.
- JIC continued to develop messaging.
- Provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
- Deployed two EMHSD/SEOC liaisons to assist the local EOC.
- Published the Incident Action Plan and continued assignment of objectives/tasks.
- FEMA Liaison Officers just arrived in Lansing to assist command and general staff.
- I spoke with Harvey a few times and he should have talking points later tonight or tomorrow a.m. for his use and also for others who may speak to media outside of state government who may benefit from our messaging.
- We held a media round table at 1 P.M. at the SEOC. Dr. Wells and I spoke and answered questions to numerous media outlets.
- Local agencies and NGOs continue to provide water and filters to citizens.
- The website, www.michigan.gov/flintwater, was update with information and links to assistance to include 211. Additional recommendations were provided to include information on the testing water in homes.

EMHSD GIS:

Accomplished Today:

- Reproduced Socio-Economic Status Map
- Reproduced Predicted Affected Populations Map
- Cleansed old data and reports for water filter distributions
- Created draft map of water filter distributions (Refinement needed before releasing final product)
- Scheduled on-site visit with Flint GIS Department and Genesee County GIS Department

- *Formatted databases to host content*
- Researched service line database creation and scheduled meeting with U of M Flint to discuss timelines and resource needs
- Generated water infrastructure map (does not include building service lines)

Tasks for Tomorrow:

- Meet with Flint City GIS
- Meet with Genesee County GIS
- *Meet with U of M Flint GIS*
- Finalize water filter distributions map
- Finalize plan for data distribution methods

Chris

UPDATE 1/6/16

A summary of today's SEOC activities is provided below. I tried to distill this as best I could but there has been a lot of activity and discussion to get an accurate assessment of the situation. Attached is the final draft of objectives and tactics for the operational period and agency situation report (SitRep) which has more SEOC agency information. I have implemented weekly operational periods.

Advise if you want anyone else copied or off this distribution.

Daily Update

- Set goals for SEOC and identified response/recovery emphasis
- Requested FEMA liaison officers (LNO) from FEMA Region V. Two LNOs will be on site by ~3 p.m. 1/7/16. Both are known contacts to me and some staff and one has worked extensively with me during the SE MI flooding in a command and control position. These personnel have been specifically tasked with this mission. **THEY ARE NOT HERE TO ASSIST WITH A PRESIDENTIAL DECLARATION REQUEST BUT TO ASSIST ME.**
- PIOs from multiple agencies were here and established the Joint Information Center (JIC). News released pushed out on this. I am very happy with the PIO work and movement toward coordinated messaging.
- Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts to ensure situational awareness and to develop a common operating picture.
    - I opened the briefing by identifying our initial goals, items to think about while subject matter experts were briefing us, and how we are to move forward, find quick wins, and regain trust.
    - **MDHHS – Elevated Blood Lead Levels**
        - Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what has occurred in terms of health monitoring throughout the Flint crisis.
    - **MDEQ – Water Testing Protocols**
        - Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.
- Developed Incident objectives, strategy and tactics (see attached)
- Identified SEOC and state agency staff positions
- Assigned work tasks for SEOC operation period from 0800 January 6, 2016 to 1700 January 8, 2016

- Reviewed planned actions, prepared final draft Incident Action Plan
- **Made contact with the Genesee County Emergency Manager first thing in the morning and held a conference call mid-day to discuss roles. Daily 0830 command conference calls with local EOC command staff starts tomorrow. Tomorrows call will include the County Commissioner and the City Administrator (both invited). Topics include the incident action plan objectives and establishing better local coordination, command and control to facilitate integration with the SEOC. The local EOC is not functioning as it needs to with personnel and local coordination and we are working on that issue.**
- I will be in Flint tomorrow for a 2 p.m. media round table with local officials that was set up by the JIC.
- The attached initial objectives will be updated at least every operational period and as needed. I listed the objectives below but the tactics to accomplish them is in the attached if you want further information.
  1. Activate the State Recovery Task Force (SRTF).
  2. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.
  3. Obtain and maintain situational awareness and common operating picture of all activities.
  4. Establish SEOC operational period and hours of operations.
  5. Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.
  6. Develop a comprehensive GIS strategy.
  7. Coordinate response and recovery activities with MIVOAD and identify potential mission areas.
  8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.
  9. Provide technical assistance to the local Damage Assessment process.
  10. Establish a Joint Information Center (JIC) and develop a public information strategy.
  11. Monitor MI CIMS for resource requests and address as appropriate.
  12. Establish and disseminate cost center information for the incident.
- Additional tasks include:
  - Determine what federal agencies are already involved and their status
  - Identify potential water supplies
  - Determine where affected homes are located, where filters/pitchers (and replacements) were installed/provided, and determine who needs filters, etc.
  - Determine how filter distribution is handled, and if it can be handled more efficiently and effectively
  - Determine what mechanisms are in place for nutrition supplementation

EMHSD GIS Accomplishments:

- Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC
- Established a daily call with county and city GIS personnel to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
- Began consolidating local data from local GIS practitioners into a consolidated database, to include:
  - Water Pipeline Locations
  - Filter Distribution Locations
  - November 25, 2015 Water Monitoring Results (Partial, some data remains to be digitized)
  - Affected School Locations
  - Predictive analysis of blood lead levels for affected area
  - Updated Parcels

    - Demographics
    - Block Groups
- Produced a map for the filter distribution locations
- Began contacting specialists who developed historic maps depicting the Flint Water Crisis to obtain the data

To: Etue, Kriste (MSP); Gorski, Gary (MSP); Smith, Paul (GOV)
Cc: Baird, Richard (GOV); Hollins, Harvey (GOV)
Subject: Update - Genesee County Declaration

Below are some key points for your situational awareness (FYSA) that have taken place or will take place within the next 15 hours.

- I was on the phone with Sean Kammer, Assistant to the Flint City Administrator, when the declaration hit the news so I advised him immediately. He was going to let the City Administrator know.
- I contacted MSP Lt. Roach, 3rd District Coordinator, who was at the Genesee County EOC and advised her to let the County EM know the declaration status.
- State Emergency Management Coordinators (SEMCs) were notified via our notification system with additional information in an email.
    - This included information on the SEOC activation and a 0900 briefing for SEMCs.
    - Some subject matter experts will provide us an update to establish a common operating picture.
- We have been in contact with FEMA Region V watch desk ... they will be on the call tomorrow and continue to monitor the situation.
- I have been in contact with the FEMA Region V Administrator to keep him updated.
- Operational period for the SEOC will be M-F, 0800 to 1700 at this time.
- Situation Reports (SitReps) will be provided in the evenings.
- An Incident Action Plan will be developed tomorrow.

Call me with any concerns or questions.

Subject: Re: SEOC Update 1/22/16 - Flint Water - Limited Distribution

Is there a way we can mark the packages so that people cannot return the water for cash?

On Jan 22, 2016, at 9:06 PM, Kelenske, Chris (MSP) <KelenskeC@michigan.gov> wrote:

INTERNAL USE ONLY -- LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/22/16 – 18h Day (17th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue door to door/Flint Water Response Teams (FWRTs)
- Plan for next phase with MSP and NG personnel
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration
- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

- SitRep # 17
- Briefing provided to the HHS Undersecretary by FEMA (due to time only finished 75%)

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- National Guard/State/Local type 3 teams
- 40 ARC (2-4 folks) type 5 teams
- Deliveries going out to all churches on our list we have been working with (21) for Sunday services.
- I will not be in the SEOC Saturday. Tony Katarsky will be the acting SEOC state director. I will be available by phone (wrestling meet).
- Sunday, Lt. Mike Johnson will be acting SEOC state director but I may be in for some of the day.
- Monday I am out on a college visit with my son...I will be available by phone and Tony will again be acting.

Items to Note

- Deployed 15 state/local teams and 15 ARC Flint Water Response Teams to the field today.
- SEOC Operations worked on getting local contact into the JIC along with developing messaging for resources and donations.
- SEOC Planning worked on the further development of long term strategy.

- Recovery branch continued coordination with Red Cross on volunteers and the Michigan National Guard for Friday and Saturday.
- SEOC logistics worked with FEMA/DHHS on warehouse tracking status/strategy, coordinated resources, and donations management.
- Have had a number of media request concerning resources for immigrants and population less proficient in English. Clarified with a news release that we are not requiring ID but we are asking for addresses to assist with long term recovery. Nobody will be denied resources if they fail to provide us an address.
- Have received numerous inquiries from celebrities on how they can assist and donate.
- We are validating a lot of data but what we have currently is 38,144 parcels in Flint that are not considered "vacant". This does not mean all parcels have a tenant, there are a lot of houses that are empty.
    - 26,673 water subscribers in Flint (not including franchise).
        - Water Subscribers with a Filter = 15,399 (57.7%)
        - Water Subscribers without a Filter = 11,274 (42.2%)
            - With our second pass we are getting more information as to why people do not have a filter. Looking into whether these include homes connected but nobody currently living there. We are refining the data.
    - 11,471 Non-Water Subscribers in Flint.
        - Non Water Subscribers with a Filter = 2,196 (19%)
        - Non Water Subscribers without a Filter = 9,275 (81%)
    - The SEOC Ops Chief has been directed to firm up all numbers with GIS. We have a GIS specialist from FEMA Region V also deployed to the SEOC to assist. ArcGIS has advised us that the amount of data we have collected is more than some major disasters in other states. We are looking into getting their personnel more engaged to ensure we are using all the tools available for analysis.
- SEOC Finance Chief is working on costs to date and all SEMCs were advised to tighten up their records and ensure we have accountability of all costs.
- Information reported to the JIC:

    - <u>As of 1/22/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)</u>

        1. Homes visited by the FWRTs to date

To Date	1/22/2016
37,697	5,920

        2. Distributed: Includes outstanding data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots.)

Commodity	Total to Date
a. Number of cases of water	121,404
b. Filters	82,687
c. Filter cartridges	191,704
d. Test kits	23,415

        3. Resources purchased:
            a. Cases of water 130,782 (additional 21,682 donated)
            b. Filters 115,700
            c. Filter Cartridges 266,200
            d. Test kits 61,161

4. Teams going out tomorrow:
    a. National Guard State) type 3 teams -- Goal tomorrow 300 homes per team
    b. 40 ARC (2-4 folks) type 5 teams -- Goal tomorrow 100 homes per team

Local EOC

Operations:

- Worked to identify all vulnerable populations to help streamline Hot Shot process.
- Working on plan for church water distribution and POD locations.
- Looking at possible alternative locations for PODs in difficult traffic areas.
    - Working on finding a new POD for 3 and 6. We are aware that the mayor would need to approve this.
- Coordinated water donations and delivery areas.
- Last minute large donations of water and volunteers expected during the weekend.
- Working on finalizing a recycling plan for the incident.
- The Jail water has been tested and is fine. The prisoners are not being poisoned and the local health department is working on clearing this issue up.
- Working on a plan with the churches to have 4 mega sites for churches (N,E,S,W) and have smaller churches work through these sites to get supplies. Churches are interested in the recycling program, putting information in their bulletins and also used a collection sites.
- Team Rubicon is coming tomorrow to assist with home deliveries.
- Continuing with recycling plan. Need to identify sites with city. Local EOC has visited areas with the local contractor.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/21/16 – 17^{h} Day (16th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) - "Phase II"
- Plan for next phase with MSP and NG personnel for Governor approval – "Phase III"
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration
- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

- SitRep 16
- Draft Water Operations Plan for moving to next phases (Discussion document)
- Resident Water Sample Results Map (Not for public distribution)
- January 13-19 comparison map

Status on Governor's request letter to the President

- Emergency declaration received. Pending decision of Major Disaster appeal and any denials under the Emergency Declaration (e.g. Category B). We have not been denied category B yet ... POTUS/FEMA has not given it to us though. I believe we may get a denial of category B in conjunction with the Major Disaster appeal decision. We will have 30 days to appeal.

- Category B is critical in that it is for Emergency Protective Measures which includes (but is not limited to) EOC related costs, supplies and commodities, safety inspections, and in limited circumstances "water testing and treatment supplies in the immediate aftermath of the incident to counter a specific threat." We purposely put our start date of this incident to be April 25, 2014 in hopes we get category B and could get 75% federal funds for many other costs all the way back to 2014 – long shot but would be huge if we land this.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have National Guard/state/local agency, type 3 teams), with a goal of 300 homes per team.
  - We will have 15 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- We are using the terms Phase II, Phase III, etc. These are for internal discussion for planning and not meant for public dissemination at this time unless it is determined to be beneficial.
- The draft operations plan (attached) was completed in conjunction with MSP and NG personnel to initiate discussion on our next steps as to WRTs and PODs.
- The WH issued a statement that $80 million dollars in aid to MI mostly to repair Flint water infrastructure. We do not have additional information on this. This may be existing federal funds provided to MI that is just being opened up for other use. FEMA does not have any information on this.
- We have been advised we exceeded the $5 million under the emergency declaration. We are at $7.6 million.
- FEMA has advised that any donated items can be used to offset the state cost share. We are working on the mechanism with FEMA to do this.
- Deployed 18 state/local teams and 10 ARC Flint Water Response Teams to the field today.
- SEOC logistics worked to project future orders of water resources and commodities.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- DEQ test kits are only being provided to those who ask for them.
- I made contact with Senator Ananich aid, Julie Townsend, who was a POC for his volunteers. They are set to work next week on the 30th.
- MDOT met with city personnel to look at Station 6 POD and other PODs to see how traffic flow can be facilitated and safety increased. Additional report out due 1/22.
- A request from MSP MC3 for NG Cyber personnel at $32,000 for 30 days or less) was initiated. This is to assist with the cyber attacks that have occurred/future attacks related to Flint Water. PENDING APPROVAL. NG advised this would have to be funded with existing funds at this time and to make adjustments.
- MDARD Food Program staff have completed assessments of all 21 food businesses (including restaurants) that were located in the highest risk area. In addition, they have completed assessments at 34 food businesses in the medium risk area, and have scheduled 28 appointments to collect water samples.
- Dr. Nicole Lurie, the Assistant Secretary for Preparedness and Response from the US Department of Health and Human Services (HHS), in addition to the HHS Regional Coordinator and other CDC staff, visited the CHECC and SEOC this morning and provided commentary to CHECC and SEOC staff/EMCs. She also attended a briefing from FEMA before departing to visit Flint.
- Parents of boarding students at the Michigan School for the Deaf were notified of the elevated lead results in Stevens Hall. All fixtures in the dormitory are scheduled to be replaced by January 24, 2016. Lt Gov. has scheduled visit on January 25.

- Valley Area Agency on Aging (VAAA) continues to take calls from seniors and caregivers needing access to water and filters. VAAA is providing this information to the local EOC each afternoon for follow-up.
- Information reported to the JIC:

    - As of 1/21/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase 1	Phase 2
30,770	5,409

2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.

Commodity	Phase 1	Phase 2	Total to Date
a. Number of cases of water	94,688	10,403	105,091
b. Filters	77,215	2,356	79,571
c. Filter cartridges	188,389	1,039	189,428
d. Test kits	20,037	1,588	21,625

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes/multi family (The is the low end target #)

4. Resources purchased:
    a. Cases of water 124,398 (additional 20,098 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. National Guard/State/Local ;) type 3 teams -- Goal tomorrow 300 homes per team
    b. 15 ARC (2-4 folks) type 5 teams -- Goal tomorrow 100 homes per team

Local EOC

• Attended ARC meeting with VOADs to discuss volunteer management and strategies.
• Attended meeting with Plumbers and Pipefitters Union to assess the need for long term cooperation for filter installation and fixture
replacement.
• Requested and received confirmation of deployment of Team Rubicon (starting on 01/23/2016).
• Facilitated Flint & Genesee Chamber of Commerce representation at the EOC.
• Addressed security issues at Fire Station 3, 6 and 8 PODs (residents concerned about criminal activity).
• Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
• Met with Genesee County Planning Commission, United Way of Genesee County and Michigan Community Service Commission to clarify
recycling plans and potential volunteer utilization.

• Coordinated and verified deliveries of supplies to apartment complexes.
• Identified potential locations for recycling stations.

Chris

Update 1/20/16 – 16th Day (15th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for second phase of door to door operations
- Submitted appeal to FEMA Region V
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration

Attached Documents:

- *SitRep 16*

Status on Governor's request letter to the President:

- Emergency declaration received.

Key items for tomorrow to note are:

- Five copies of the State/FEMA agreement will need to be signed by the Governor. Capt. Kelenske has them and will coordinate delivery.
- The logistics plan will be fully executed tomorrow with all teams.
    - We will have National Guard (MSP supported), type 3 teams I), with a goal *of 300 homes per team.*
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- Dr. Luri from HHS will be at the SEOC ~10:00 p.m.
- A second phase is starting tomorrow which will include more refined questions as to type of filter systems each person has. This will assist with sustainment operations.
- DOC prison work crew personnel (6-7) will be at the warehouse to keep the area clean. A lot of trash is generated in the warehouse and was becoming an issue.

Items to Note

- Deployed state/local (NG, MSP, Local) teams and 10 ARC Flint Water Response Teams to the field today.
- MSP and local Sheriff's Department continue to provide over watch for WRTs.
- Aqua Hydrate contacted me to donate 5000 cases a month (4 semis) for a year. I was advised by Lindon Nelson this was a Governor/Mayor/Senator Ananich and Meekhof initiative and a press release was going to go out soon (TBD). Logistics is following up with them.
- News release sent from Governor's office about the appeal to the President of the disaster declaration.
- SEOC Logistics worked with JIC and Governor's office to establish a business resource submission tab on www.helpforflint.com
- SEOC Operations continued to develop and finalize Phase 2 canvassing roll out.
- Meeting held with Dr. Luri from HHS.
- Capt. Kelenske and other state agency financial personnel attended the appropriations hearing.

- End of day – concerns with the mass amounts of volunteers showing up and wanting to help. This can cause logistical issues but staff was working to get additional tasks for volunteers outside of the WRTs. We will continue to work on ways to involve more volunteers.
- Additional 5 person NG team for warehouse support approved.
- Information reported to the JIC:

    - <u>As of 1/20/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)</u>

1. 29,317 homes visited by the FWRTs to date.

    2. Distributed: Includes outstanding hard copy data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots).
        a. Number of cases of water 90,337
        b. Filters 73,229
        c. Filter cartridges 185,852
        d. Test kits 19,866

    3. Total number of customers on the Flint water system
        a. 29,944 paying customers
        b. 45,000 hookups (This is our high end target #)
        c. 39,000 includes apartment complexes (The is the low end target #)

    4. Resources purchased:
        a. Cases of water 111,630 (additional 18,502 donated)
        b. Filters 115,700
        c. Filter cartridges 243,200
        d. Test kits 61,161

    5. Teams going out tomorrow:
        a. National Guard I type 3 teams---Goal tomorrow 300 homes per team
        b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

<u>Local EOC</u>

Operations:

- Addressed reports of water contamination in distributed bottled and canned water. Confirmed that water is safe to drink through testing by MDEQ. Coordinating with JIC and MDEQ for improved public information on the issue.
- Identifying options to reroute unsolicited offers for supplies and services outside of the EOC. Coordinating to set up 800 number.
- Attended meeting with Flint & Genesee Chamber of Commerce to discuss coordination of efforts, representation at EOC, and improved messaging.
- Attended meeting with Community Foundation of Greater Flint to discuss coordination of neighborhood groups and improved messaging.
- Coordinated with MDARD to provide additional lead testing at restaurants, and signage for safe locations.
- Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
- Coordinated and verified deliveries of supplies to apartment complexes.
- Discussed logistics requirements of delivery requests for homebound residents with SEOC Logistics.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/19/16 – 15th Day (14th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Prepare plans for next phase of operation – Second sweep of city

Attached Documents:

- SitRep 14

Status on Governor's request letter to the President:

- Emergency declaration received.
- Appeal letter pending.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have National Guard, type 3 teams , with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed state/local teams and 11 ARC Flint Water Response Teams to the field today.
- Messaging being developed for concerns regarding the Total Dissolved Solids (TDS) meters and citizens' concerns with those meters indicating "lead" in bottled water. Testing of water to be done by DEQ to ensure we have solid messaging.
- DTMB is working to secure space in Flint for FEMA staff.
- Press release went out this afternoon to announce that the US Department of Health and Human Services will lead the federal response in Flint. Capt. Kelenske to meet with Dr. Nicole Lurie, HHS Assistant Secretary for Preparedness and Response (ASPR), on Thursday. The goal of the federal response will be to help state and local leaders identify the size and scope of the problem, and work with them to make and execute a plan for mitigation of the short- and long-term health effects of lead exposure.
- Additional NG personnel being requested to assist with Warehouse inventories.
-) NG personnel on the ground with the WRTs tomorrow with more transitioning in.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- LG is going to be in Flint working at one of the PODs on Wednesday.
- Information reported to the JIC:
  - As of 1/19/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 22,129 homes visited by the FWRTs to date.

    2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.
        a. Number of cases of water 77,794
        b. Filters 69,730
        c. Filter cartridges 184,457
        d. Test kits 16,671

    3. Total number of customers on the Flint water system
        a. 29,944 paying customers
        b. 45,000 hookups (This is our high end target #)
        c. 39,000 includes apartment complexes (The is the low end target #)

    4. Resources purchased:
        a. Cases of water 95,760 (additional 16,056 donated)
        b. Filters 115,700
        c. Filter cartridges 243,200
        d. Test kits 61,161

    5. *Teams going out tomorrow:*
        a. National Guard (ype 3 teams---Goal tomorrow 300 homes per team
        b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC
Operations:

- Attended public health group meeting with GCHD, City of Flint Water Department and MDEQ to discuss water test information being returned to residents, to allow residents a greater understanding of results.
- Attended recycling/trash management group meeting with DEQ, Republic Services, Keep Genesee County Beautiful and Genesee County Planning Commission. Provided projections on current and anticipated bottle distributions.
- Coordinated deliveries of supplies to faith-based organizations, apartment complexes and homebound residents.
- Coordinated with Comcast to set up locations for distribution of filters (distributed 60 filters on 01/19/2016).

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/18/16 – 14th Day (13th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) and PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.

- Complete appeal for Presidential Major Disaster Declaration denial.

Attached Documents:

- SitRep 13
- Side by side comparison of homes with filters January 13th compared to January 18th. This should be hitting the media tonight. This took longer to create than I wanted but is the image I have wanted to show progress of getting filters in to the field.

Status on Governor's request letter to the President:

- Appeal in process.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have state/local agency, type 3 teams with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
  - NG will be bringing in personnel to prep for surge.

Items to Note

- Beginning tomorrow the operational periods will be 7 days long.
- The CDC/ATSDR (Agency for Toxic Substances Disease Registry) has deployed a team to Michigan.
- An Arabic version of the palm card was reviewed and approved. This was developed via Arab American and Chaldean Council.
- Deployed . state/local teams and 10 ARC Flint Water Response Teams to the field today.
- DTMB is working to secure space in Flint for FEMA staff.
- Cost analysis to investigate if it would be more cost effective for FEMA to purchase water vs the SOM.
- ARC news release concerning the Volunteer Reception Center (VRC) sent out today.
- Media availability conducted today at 3pm at the VRC.
- Since 1/14/16 Michigan 2-1-1 has received three direct reports of bottled water testing positive for lead. DHHS SEOC Desk and DEQ SEOC Desk was able to contact two of the callers. The Zero Water filter (pitcher) has a handheld test device so people know when to change the filter. This TDS Meter measures dissolved solids (it is not a lead test). This was explained and we are going to work on messaging to ensure this does not cause issues. Dissolved solids are in all water. The water from the callers is going to be tested and a case of water from one of the companies will also be sent to DEQ for testing. Brands are Spartan Spring Water and Canned Water for Kids. The filter company is also going to work on messaging and work with us on this matter.
- Information reported to the JIC:

  - As of 1/17/16 as of 5 pm (start date was Tuesday, 1/12/16)

1. 21,393 homes visited by the FWRTs to date.

2. Distributed:
   a. Number of cases of water 37,313
   b. Filters 53,713
   c. Filter cartridges 169,520
   d. Test kits 7,379

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)

c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 82,992 (additional 16,056 donated)
   b. Filters 115,700
   c. Filter cartridges 243,200
   d. Test kits 61,161

5. Teams going out tomorrow:
   a. › State ‹s) type 3 teams---Goal tomorrow 300 homes per team
   b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Continuing to work with faith based organization to distribute resources.
- Working with colleges to obtain volunteers for canvassing.

Chris

Update 1/17/16 – 13th Day (12th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs), PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.

Attached Documents:

- SitRep 12

Status on Governor's request letter to the President:

- Emergency declaration received.
  - Limited to direct assistance so we will need to ask for the Individual Housing Program but that is something I will work on with FEMA.
- Major disaster declaration denied. The appeal is being developed with a draft to Paul Smith by later afternoon 1/18/16.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have state agency, type 3 teams ( ), with a goal of 300 homes per team.
  - We will have 12 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed 11 state/local teams and 10 ARC Flint Water Response Teams to the field today.
  - 4,963 homes visited today.

yesterday.

01/16/16

01/17/16

- Information reported to the JIC:
    - <u>As of 1/17/16 as of 7pm (start date was Tuesday, 1/12/16)</u>

1. 16,353 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received from prior to the SEOC activation (trying to validate the data) plus the PODs and door to door operations since activation.

2. Distributed:
    a. Number of cases of water 27,195
    b. Filters 50,432
    c. Filter cartridges 168,605
    d. Test kits 4,861

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 57,456 (additional 12,884 donated)
    b. Filters 108,520
    c. Filter cartridges 239,081
    d. Test kits 28,901

5. Teams going out tomorrow:
    a. State ( ) type 3 teams---Goal tomorrow 300 homes per team
    b. 12 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Facilitated activation of the Genesee County/Genesee Health System MOU for mental health services.
- Coordinated supplies for distribution to students at the U of M Flint campus.
- Still concerned about people going to every fire station and collecting water/filters.
- Coordinated trash pickup at Fire Station PODs with the City Liaison officer.
- Coordinated hotshot deliveries of supplies to home bound population.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/16/16 – 12th Day (11th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to prepare for engagement following the Presidential Emergency declaration

Attached Documents:

- SitRep 11

Status on Governor's request letter to the President:

- Emergency declaration received. Federal Coordinating Officer (FCO) is David Samaneigo (Sam) who has been my LNO from FEMA. We began discussions on a transition to FEMA support last night. His team is headed to MI at this time and we will have our first coordination meeting on Sunday.
- The request for a Declaration of a Major Disaster was denied. FEMA advised this event does not fit the legal definition of a major disaster (natural incident or fire, flood, or explosion). This information has been provided since prior to the event to elected officials in Flint and the legislature. We are reviewing the chances for an appeal and I have already discussed this with the FCO.

Key items for tomorrow to note:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have state agency, type 3 teams (, with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- I will be back on duty Sunday.

- We have been working with some of the churches. Contact was made with 14 churches for Sunday distributions. Interaction with the pastors has been very positive.
- A logistics briefing will be provided to see how many more teams we can put in the field.

Items to Note

- LT Gov visited the local EOC today; discussed local EOC operations.
- Deployed state teams and 10 ARC Flint Water Response Teams to the field today.
- DEQ sampling kits are now being received at the PODs.
- DEQ sampled two Head Start facilities and worked with GIS to obtain future sample sites.
- The Freeman School pilot was delayed due to some parts not arriving as scheduled. Testing was to be done Sunday but may not occur until Monday.
- NG will have a total of personnel in the PODs for distribution. Mission has not changed.
    - NG soldiers have been in the PODS. more processing in tomorrow with start date of 1/18 in the PODS. The TAG and I will be discussing future use of NG personnel door to door next week.
- Information reported to the JIC:

    - As of 1/16/16 7pm (start date was Tuesday, 1/12/16)

1. 11,324 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received prior to the SEOC activation plus the PODs and door to door operations since activation. 3,850 homes were visited today (4,000 was the goal).

2. Distributed:
    a. Number of cases of water 20,876
    b. Filters 47,935
    c. Filter cartridges 167,401
    d. Test kits 3,322

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 57,456 (additional 12,884 donated)
    b. Filters 108,520
    c. Filter cartridges 239,081
    d. Test kits 28,901

5. Teams going out tomorrow:
    a. State type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- *Provided direction to Operations and Logistics Section to initiate water sample collection at* PODs.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional churches were supplied with water, filters and test kits.

- Still concerned about people going to every fire station and collecting water/filters.
- Station #6 (POD) has associated safety concerns due to proximity of street and lack of suitable parking. We are working to resolve.

Subject: SEOC Update 1/15/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/15/16 – 11th Day (10th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Pilot the logistics plan and adjust as needed
- Continue with door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to ensure we get a Presidential Declaration of a Major Disaster and Emergency

Attached Documents:

- SitRep 10

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA Numerous calls and meetings took place between me and FEMA today.
- When we get the declaration(s) ... I will set up a legislative/congressional call to explain and provide bullet points as to what programs we will received. The Federal Coordinating Officer assigned will also be with me to answer questions. This has helped in the past.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have state agency, type 3 teams (, with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
  - A pilot team was used to test our logistics plan today and with 60% strength they had 160% output (830 homes).
- I will be off tomorrow but available by cell. Tony Katarsky will be SEOC State Director. I will be back in on Sunday.

Items to Note

- LT Gov visited the local EOC and SEOC today. He was able to hear our final briefing for the day.
- Held a short session managing stress with SEOC staff. Two handouts were put in MICIMS for all state and local personnel to view.
- Deployed 10 state teams and 5 ARC Flint Water Response Teams to the field today.

- Standing requirements were created for the JIC so we can get information to the media every day. Below are the current ones we have in place and we should have something out tonight according to the JIC.

    - o <u>As of 1/15/16 as of 7pm (start date was Tuesday, 1/12/16)</u>

1. 7474 homes visited by the FWRTs. We believe we have ~24,000 homes with filters but are trying to validate that information. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.

2. Distributed:
    a. Number of cases of water 18,576
    b. Filters 45,916
    c. Filter cartridges 165,382
    d. Test kits 3,217

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 44,688 (additional 12,884 donated)
    b. Filters 78,520
    c. Filter cartridges 163,081
    d. Test kits 18,761

5. Teams going out tomorrow:
    a. State) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

<u>Local EOC</u>

Home Deliveries:

- Still receiving lists from the Valley Area Agency on Aging (VAAA) on home deliveries and forwarding these to the Sheriff's office. They are going through a lot of homes. 120 out of 125 homes were completed yesterday.

Operations:

- We sent staff to visit Fire Station 6 and the warehouse today Fire station 6 traffic was congested and that was during a "slow" time. The National Guard is identifying what is needed to alleviate this. MSP is working on providing uniform presence as needed. An additional iPad at each location will hopefully help relieve the amount of time that people are spending at the distribution sites.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional requests from churches were made and I approved the locations so they could be ready for Sunday. Lt. Roach was told by one of the pastors that he met with the Gov today and expressed how much he appreciated the efforts put forth. We should have 14 for this Sunday. We are working on how we can increase this output.
- Still concerned about people going to every fire station and collecting water/filters. NG personnel observed vehicles with several cases of water an overheard saying they were heading to the next station. Some people were helping themselves and taking more than one case at a

time. Per the NG they cannot physically stop people from doing so. The NG is going to try to change staging in the fire stations to try to prevent this.

- Flint PD is going to check in every day with the EOC and provide a specific contact person. They are also going to help with traffic issues at the PODS. Will ask Flint PD to provide a presence when water is off loaded at a POD to help prevent people from "helping themselves."

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/14/16 – 10th Day (9th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and finalize lease on warehouse space/begin to move supplies from GCCARD to new warehouse
- Continue with door to door teams and finalize planning for future team use
- Submit request for a Presidential Declaration of a Major Disaster and Emergency
- Continue to work on long term recovery items (DHHS, DEQ, MDARD)

Attached Documents:

- SitRep 9

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. I had a lengthy conversation with the FEMA Region V Administrator reference the request prior to sending.

Key items for tomorrow to note are:

- The door to door teams will continue in the morning.
- We will continue to ramp up door to door operations with additional teams. Teams continue to focus on the high lead level areas and additional data is being analyzed to focus mission areas.
- ARC will increase the number of their Water Response Teams.
- Supply burn rates as well as projections on how many teams will be needed to put filters in all homes within 3 and 5 days will be completed. Analysis will be done to see in NG personnel may be needed to finish in quicker manner.

Items to Note

- DEQ was notified of the number of homes who are willing to have them take additional samples in the future (current number (114). This question was added to the App being used by the Water Response Teams. Data will be provided when needed.
- LT Gov is scheduled to be at the local EOC and SEOC (~4:30) tomorrow to see the operations.
- Secured 80,000 sq. ft. of a warehouse today. Working to consolidate all resources in one location. Tomorrow will be the first day of full implementation of our logistics plan.
- Email sent to state employees to request volunteers for weekend.
- Media monitoring showed no incorrect information today.
- Michigan Association of Broadcasters is sending PSA to radio stations.
- Coordinating with Red Cross on volunteers for weekend.
- Deployed 8 Water Response Teams to the field today (approx. 120 volunteers). 78 Red Cross volunteers active across the operation today.

- National Guard is ramping up to have soldiers per shift at each POD tomorrow. Will also have a Public Affairs Officer at the JIC and liaison at the local EOC.
- Senator Ananich visited the SEOC today to see how things operate. The visit went well and he seemed happy with the number of staff working the Flint event. He tweeted out a message indicating there is still a lot of work to be done but all are working hard.
- DHHS
    - The Community Health Emergency Coordination Center (CHECC) is working on the following:
        - A nutrition plan
        - Education materials, messaging, and working with local agencies
        - Developing a community assessment for disaster behavioral health services.
- Lined up the delivery of filters to two large apartment complexes and a student housing complex.
- We have the list of individuals needing home service (additional contacts will be sent to the Ops Chief at the Local EOC each day at 4:00). Info will be provided to the sheriff's office for action.
- Water Response Team Numbers (this is not the total of homes with filters – I will provide that number tomorrow but it appears we have filters in over half the residences):

	TOTAL	1/12/2016	1/13/2016	1/14/2016
Occupied Homes	1450	242	492	716
Vacant Homes	1967	152	161	1654
Total Homes	**3417**	**394**	653	2370
Resources				
Door Hangars	1487	217	453	817
Water	588	117	254	217
Filters	945	112	220	613
Pitchers	22	3	13	6
Water test kits	217	48	109	60
Replacement Filter	482		137	345
Total Resources Dispersed	**3741**			
Future sample test site	114	28	34	52

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/13/16 – 9th Day (8th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and close lease on warehouse space
- Continue with door to door teams and finalize planning for second wave increase (+15 teams – total for 1/14/16 will be 20)
- Continue to work on Governor's Declaration of an Emergency

Attached Documents:

- *SitRep 8*

Status on Governor's request letter to the President:

- All support data from state Agencies and local jurisdictions collected as of *6:00 pm on 01-13-16*

- Current timeline:
    - First draft completed and ready for review by State Department Directors (including the Attorney General) by 11:00 am on 01-14-16
    - State agency reviews due back by 1:00 pm on 01-14-16 for revision of the draft
    - Revised draft to Captain Kelenske by 2:00 pm on 01-14-16 for review and forwarding to the Governor for final review
    - Final draft (based on Governor's review) submitted to FEMA Region V Administrator by no later than cob 01-14-16 but hopefully sooner. FEMA is aware and ready to receive.

Requests and potential response from FEMA/President

- The letter will request all programs eligible under the Stafford Act including Public Assistance, Individual Assistance, Hazard Mitigation, FEMA's coordination of assistance from other Federal agencies and direct assistance from FEMA
- The letter will also request potential direct reimbursement from other Federal agencies such as EPA, CDC, HUD, DHHS and SBA
- This request is in coordination with the request for Non-Stafford Act federal assistance already requested and received by the State (technical assistance and administration, but no direct reimbursement of disaster costs)
- Direct Federal assistance from FEMA in the form of Individual Assistance to homeowners for household repairs (repair and/or replacement of water service lines and Other Needs Assistance to reimburse for water filters, bottled water, etc.) is a possibility
- Direct Federal assistance from FEMA in the form of Public Assistance is not as likely as it is mostly replacement of publicly owned water distribution lines (and not the direct result of damage from a natural cause)
- If Stafford Act assistance is denied (Public Assistance, Individual Assistance and Hazard Mitigation) FEMA could still provide coordination of assistance from other Federal agencies if the President declares a disaster (or emergency) for the State of Michigan

<u>Key items for tomorrow to note are:</u>

- The door to door teams will continue at 9 a.m. – 5 p.m. Thursday morning and continue through the weekend.
- We will continue to ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas and additional data is being analyzed to focus mission areas.
- MNG will have a press event at the armory with incoming soldiers and MG Vadnais.

<u>Items to Note</u>

- Received information that Rev. Jesse Jackson will be in town 1/17/16 at 1:30 at the Heavenly Host Church of the Harvest of Dartmouth St, Flint.
- Managed and corrected misinformation on NG role.
- Senator Ananich is stopping by the SEOC tomorrow morning 0845. I am meeting with him and his Chief of Staff. Short visit as he has a 0930 at the Capitol.
- Working with Comcast so they can put teams in the field for distribution.
- Penske is going to give us 15-20 trucks over the weekend.
- Contact made with Two Men and a Truck for resources.
- Meeting set with Google where they will brief me and key staff potential tasks.
- Coordinated with Flint Mass Transportation Authority (MTA) to include Fire Station PODs on bus routes.
- Tomorrow I will have a projection as to the number of teams needed to get all citizens filters in their homes in 5 days / 3 days.

- We are standardizing team structure and supply deployment to increase efficiencies. Mission Ready Package (MRP) specifications will be sent out for other entities to assist with door to door. They will then be able to arrive as a MRP, get supplies, receive a mission location and deploy.
- 5 Water Response Teams were in the field again today. Below are the numbers from the 2 days of just the Water Response Teams (there are paper copies with data still to be entered from the PODs). I was just briefed by the ARC logistics planner and there are efficiencies we can put in place to increase homes touched per day. The next version of the app will provide more granular details. Additional 30 tablets were configured by DTMB today for field implementation to include use in the PODs.

	Total	1/12/2016	1/13/2016
Occupied Homes	533	242	291
Vacant Homes	238	152	86
Total Homes	**771**	**394**	377
Resources			
Door Hangars	473	217	256
Water	265	117	148
Filters	235	112	123
Pitchers	9	3	6
Water test kits	92	48	44
Replacement Filter	93		93
Total Resources Dispersed	**1167**		
Future sample test site	62	28	34

- We show 17,276 residences with filters (this does not include data entry to be completed from POD or other locations).
    - We have 35,378 service hookups but with apartments, multi residence dwellings, etc we would be around 45,000.
- Logistics Support
    - The American Red Cross Logistics Planner provided me a brief and I approved the plan forward. The current plan includes:
        - Mission – A filter in every home ASAP.
        - 4 Distribution Methods
            - PODs (5)
            - Water Response Teams (20 effective tomorrow and this will increase)
            - Local EOC "Hot Shots" (these are calls for functional needs, unable to get to a POD location due to ??, etc). Personnel dispatched with supplies.
            - Local EOC support for other local requests (Faith based for distribution, etc.)
        - Three warehouse locations at this time
        - How to better leverage ARC resources

- Supplies – Daily Numbers
    - Replacement Cartridges - 30,700 delivered.
    - Water (cases) - 19,152 cases delivered

- Budget projection completed and will be submitted to SBO for review.

- Notes from Water Response Team Command (MSP)
    - Very good synergy between Flint Post troopers and Genesee County Sheriff command and deputies in effective and efficient deployments for distribution efforts.

- Great attitude and efforts by uniforms and volunteers to make important contributions to the City of Flint on water response team deployments.
- Clear direction and coordination in the field of supply teams by lieutenants and troopers. No confusion. Clearly defined roles.

All personnel continue to be fully committed to fixing this as quickly as possible.

Chris

Update 1/12/16 – 8th Day (7th Full Day) After Governor's Declaration of an Emergency

I apologize in advance for the length of this report. With the supply issues we had the last couple of days I wanted to share our inventory plus what we anticipate to ensure we do not have supply issues.

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Fine-tune logistics
- Increase and deploy door to door teams (4 state teams added to teams from the Sheriff's Department)
- Increase collaboration and messaging of collaboration with local agencies (specifically the Sheriff's Department)

Attached Documents:

- SitRep 7
- Executive Order Activating the National Guard

Key items for tomorrow to note are:

- The Governor signed an Executive Order activating the National Guard. Mission will be to relieve ARC volunteers at the PODs (Fire Stations) which will free up the ARC volunteers for door to door activities.
  - I have briefed the ARC Disaster Officer on this plan.
- The Governor requested, through FEMA Region V, support from the Federal Emergency Management Agency (FEMA) to bring together and identify other federal agencies that may have programs and funding that could be dedicated to assisting Flint as part of an interagency recovery plan. One of the existing LNOs has been identified as the POC for this. He will be a great liaison for the FWIACC.
- The door to door teams will continue at 0830 Wednesday morning and continue through the weekend and ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas.
- We will look at all commodities and see where we are and where we need to be while working with the ARC logistics specialist.

Items to Note

- PSA video sent out to Flint citizens on resources available.

- Water
  - Today's numbers - 7,824 cases of water arrived today, 1/12/16 (109 pallets)
  - Ordered:
    - 19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)
      - 1/3 is going to GCCARD and the rest is going to the new warehouse

        - 12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)

- Filters
    - Today's numbers
        - Ordered on 1/11/16 and delivered 1/12/16 direct to GCCARD
            - 2,000 – Brita filter faucet mounts
        - Filter Replacements
            - 2,400 – Brita filter replacements (single pack)
            - 8,000 – Brita filter replacements (two pack)
    - Ordered on 1/12/16 to arrive Wednesday
        - Faucet Mounts – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
            - 10,000 – PUR Vertical faucet mount
            - 2,500 – PUR Horizontal mount
        - Replacement Filters – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
            - 10,000 – PUR replacement filters (3 pack)
            - 10,000 – PUR replacement filters (single pack)
        - PUR Combination Pack – to be delivered to GCCARD on 1/13/16 (Wednesday)
            - 10,700 – PUR combo packs

- To arrive Thursday
    - Zero Water Pitcher (8 Cup) – Delivering direct to GCCARD on 1/14/16 (Thursday)
        - 1,300 – Zero Water pitchers
    - Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Thursday)
        - 11,000 – PUR vertical faucet mount
        - 1,500 – PUR Horizontal faucet mount
        - 5,000 – Brita faucet mount
        - 10,000 – Brita adv faucet mount white
        - 12,000 – Brita adv faucet mount chrome
    - Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Thursday)
        - 117,600 – PUR replacement filter

- Test Kits
    - 6601 unassembled kits arrived at GCCARD today, 1/12/16.
    - 500 have been assembled and are ready for distribution
    - 1000 additional unassembled kits have been ordered to be delivered at GCCARD (no ETA yet)
    - 10,142 unassembled kits to arrive at GCCARD early next week

- Second warehouse – Located in Flint
    - 100, 000 square feet of secure warehouse obtained.
    - Accepting commodities beginning Wednesday, January 13

- Logistics Support
    - The American Red Cross Logistics Planner arrived from DC today as requested. I outlined what her mission was and how I saw the progression forward. This logistics planner will assist in streamlining the inventory and distribution process now and into the future.

- Door to Door Numbers
    - Today the app implementation for the field went extremely well. There were a few issues that were quickly addressed. One related to how form fields should be filled out. Another was getting styluses for teams so that they don't have to remove their gloves in the cold. All very simple to fixes.

- We are working on version 2.0 so this can be used at the PODs
- We should be able to greatly optimize distribution in the near future as we mapped the active water subscribers from Flint's DPW and are adding them to the field team members apps. Of the ~56,000 possible addresses, this reduces the number of possible homes to visit down to ~29,000.
- Notes from the field commander:
  - "Today we started out the day using two groups that consisted of approximately 10 people in each group. We eventually combine groups with Genesee County Sheriff's group and they brought two more groups with approx. 10 people (Local UAW) in each group. This made us a lot more efficient and we were able to set up a game plan. Tomorrow I feel we will be more efficient and we will have a better plan in place to get the maximum output out of our resources."
- In the end, there were 394 total home visits with the following breakdowns:
  - 217 Door Hangers
  - 152 Vacant Homes
  - 117 Water Distributions
  - 112 Filters
  - 3 Pitchers
  - 48 Water Test Kits

- 211
  - CALL VOLUME:
    - 185 calls for water-related issues had been received as of 4:45 pm.

- Logistics made contact with Comcast and will be supplying them with filters and replacement cartridges for their deliveries in their work trucks as they make services calls. They will follow our procedures for reporting (our checklist).

Chris

Update 1/11/16

The focus today was the media event and getting the supplies and logistics on track. Most of the activity today was working on logistics for the water and other supplies.

Attached Documents:

- SitRep 6

Key items for tomorrow to note are:

- The door to door teams will start at 0830 Tuesday morning. It is reported that troopers are going to the door but DHHS employees are the lead with a troop car nearby.
  - State and local GIS created an App today for the teams to use tomorrow but I see potential use at distribution sites.
  - The App data will be used for our maps as we survey the public/distribute supplies and we will be getting real time metrics through the site from the field send back to the SEOC. We are using Android tablets tomorrow but in the future can use any mobile device for this.

Items to Note

- It was reported that only one POD (Station 5) was out of water longer than 30-45 minutes. This site was ~2 hours without water and part of that was the truck went to the wrong station. Trucks were sent as soon as the local EOC was notified.

- We also did not receive a DHHS shipment that was to come in which caused some filter delivery issues.
- Supplies are limited at this time; however, we are getting our shipments starting at 0630 tomorrow.
- We have Home Depot giving us 12,768 cases (this was a late development so the SitRep indicates half the amount) of water every day starting tomorrow. We are still working with other distributors too.
- ARC is flying in a logistics planner tomorrow. Three additional staff with be with her to shadow and help. We are turning warehouse logistics over to ARC logistics. We are moving tomorrow to a process that has a distribution center (GCCARD) and a warehouse that is 100,000 square that will maintain mass quantities. Staff has continually been placing orders for supplies to ensure we get a head of this. The intent is to keep the warehouse full so we do not have these continual issues of supplies.
- Began mapping lead service lines (anticipate having draft of lead service lines Friday).
- Coordinated with local IT managers overseeing filter tracking system to streamline data collection.

Local Emergency Operations Center

• Working to coordinate resources at the local level to maintain adequate supplies at all PODs.
• Demand has exceeded supplies and supplies are moving rapidly from PODs today. Working to make sure POD managers notify us when they start running low.
• Working to establish a warehouse for local resource storage.
• Established trigger points for resources at PODs and hourly inventory reporting from the PODs.
• Discussed potential long term water sources between local EOC and SEOC.
• Established planning cycle/meeting scheduled for 1/12/16.
• Local EOC EMHSD staff with Natasha Henderson to request deployment of City representative at local EOC.

Chris

Update 1/10/16

Attached Documents:

- SitRep 5
- Door card (English version but Spanish version will be ready for Tuesday)

I have a local EOC section listed below but state personnel are heavily engage in management of both locations. We occasionally hit some road bumps with this event but all personnel are working well together to accomplish our goals (especially state agency personnel).

I have had good discussion with FEMA LNOs. Two statements have been developed from our discussions that hopefully helps put this in more context but if it is more confusing I apologize:

1. In the immediate response, the State, in collaboration and coordination with city of Flint and county of Genesee are working to get water, water filters, and testing kits to the affected population. In conjunction, the state will coordinate with federal agencies to ascertain what resources can come to bear to help mitigate the issue.

2. If asked about a federal declaration from FEMA, we need to articulate the definition of major and emergency declaration and state or note to ourselves that it appears to not qualify;

however, there may exist opportunities to leverage federal assistance from some agencies (i.e....EPA) under their own authority to help address this issue.

- We need to really manage expectations on the potential for a federal declaration...not that we will not go after one but it will be difficult to get.
- A major disaster is defined in the Stafford Act as any ***"nature catastrophe (including hurricane, tornado, storm, high water, windriven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause any fire, flood, or explosion.....causes damage of sufficient severity and magnitude, to warrant major disaster assistance.....to supplement the efforts and available resources of States, and local government....."***
- An emergency declaration is ***"is any occasion or instance for which, in determination .....assistance is needed to supplement State and local efforts and capabilities to save lives and protect property and public health and safety or to lessen or avert the threat of a catastrophe....."***
    - This is limited to immediate and short-term assistance (I hate to put times on this but short-term is like 3 weeks), essential to save lives, protect public health and safety and property.
- Severity of the situation is ***"A finding that the situation is of such severity and magnitude that effective response is beyond the capability the state and affected local governments, and that the state requires supplementary federal emergency assistance to save and to protect property....***
- Nature of assistance for Emergency Declaration is for ***"Debris removal, emergency protective measures, direct federal assistance...."***
    - Debris Removal = ***self-explanatory and we do not have this***
    - Emergency Protective measures = ***water, commodities, transportation (remember ... to supplement what the locals and state are already doing if we need more)***
    - Direct federal assistance= ***what specific type of work is requested, and what are the reasons why the state/local government cannot perform or contract for performance. Essentially what is the need that state/local govt cannot provide. I can see this being something we need but we may be able to get this outside a federal declaration under the federal agencies own authority to help address this issue.***

Back to the update...

Key items for tomorrow to note are:

- Training is occurring for the door to door teams scheduled for Tuesday morning.
- Deploying an additional MSP District Coordinator to the local EOC for command and control support.
- Deploying two DTMB trucks and two drivers for sustained logistical support for the week.
- Media event with the Governor in Flint.
- New Incident Action Plan starts (1/11 0800 -1/13 0800 operational period). Our objectives are as follows:
    1. Ensure all households within impacted community have required resources.
    2. Ensure accurate tracking and accounting of all commodities.
    3. Improve and maintain public information strategy.
    4. Develop a long term public health and services plan.
    5. Ensure adequate staffing to support operational requirements.
    6. Identify possible assistance programs.
    7. Develop an approved GIS strategy.
    8. Maintain coordination between partner agencies and organizations.

9. Enhance situational awareness and common operating picture of all activities.
10. Develop a comprehensive Recovery Plan.

Items to Note

- All 9 churches had filter systems/replacement filters, information sheets, and water test kits delivered as requested by each pastor/reverend on Sunday. We did not think we could get them water due to the limited time but we did end up getting water to all 9 churches with the other items.
- Fire station resource locations stayed open from 9a to 9p and will continue with those hours until further notice (Staffing is in place until Saturday). ARC is staffing these locations.
- The media event was held at Fire Station No. 1 and report back is that it went well and the spirit of collaboration between local, state, non-governmental partners is strong was relayed.
- The four door to door teams will have the hours of 8:30 a.m. to 5 p.m.
    - Each will have logistics support from DTMB, security from MSP, and contact personnel from DHHS.
    - The door card is attached that will be left if no one is home.
- *Worked to identify a storage location within the City of Flint for water and supplies.* G-CARD is identified as temporary location but we are moving toward a state run warehouse operation (looking at private sector partners to assist, especially with the warehouse management side).
    - *GCCard is large enough, centrally located and comes staffed GCCard has 75,000 sq ft with* warehouse managers to assist with tracking resources coming in and out.
- GIS will provide us daily updates of how much was distributed each day but note we have a delay in data entry from delivery to entry in the GIS system. Over the weekend there was a problem locally with staffing to get this completed. A solution is in place and will be implemented so we get timely data. Distributed to date (as of 1/8/16).
    - 12,386 filters
    - 1,985 replacement filters
    - 354 Pitchers
    - 2500 Lead Testing Kits
- Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to ensure distribution sites maintain an appropriate level of inventory. I have requested trigger points get put in place so we do not get below certain levels in the main warehouse location.
    - Contacts with some large water distributors have been made and their and our logistics chiefs will connect first thing this week.
    - We have ordered an additional (expedited delivery with ETAs tomorrow)
        - 40,000 Brita Filters
        - 40,000 Brita Replacement Filters
        - 1000 Zero 8-Cup Pitchers
        - 1000 Zero 8-Cup Pitchers
        - 2000 PUR Replacement Filters
        - 93 Pallets of water (about 6700 cases)
- GIS continues to produce multiple maps for use.
- JIC Items
    - Requested PSA on the radio. Media has been approved and working with MAB.
    - Requested JIC to contact Comcast and Dish Network for availability for continuous running of filter install/replacement and test kit video.
    - A news release will likely going out tomorrow regarding canvassing in neighborhoods. Continued social media messaging.
        - Tuesday – embed state PIO with one of the canvassing teams to liaison with media.
        - JIC moving tomorrow to Flint.

Local Emergency Operations Center

I am providing you some information on some issues we ran into at the PODs. This has been addressed with additional state resources and processes put in place so we do not run out of resources. Public concerns/complaints have not been brought to my attention at this time. Staff is working very hard to ensure we do not run out of supplies at the PODs and they understand the consequences. No one in the Local EOC or State EOC is happy the follwoing occurred and I felt you should know in case it is brought up. Again, I believe we have fixed this and I take full responsibility for any supplies not being on site.

Fire Station Inventory Levels:

Station 1:

- Only time without supplies - 15 minutes without water while the truck was unloaded.

Station 3:

- Ran out of replacement filters around 7:00, replacement filters delivered around 7:30. Had to pick up replacement filters from Home Depot and deliver.

Station 5:

- Ran out of water around 5:00, water was delivered around 6:30. We needed to find additional trucks because DTMB drivers were over hours. The ARC stepped up and found a truck to go and pick up a pallet of water and deliver.
- Somewhere between 4:00-6.00 they ran out of lead test kits. No way to restock these because City facilities were closed and could not reach anyone.

Station 6:

- Around 5:00 ran out of water, filters, and replacement kits. Replacement kits were delivered around 7:30. Additional water and filters were delivered after 9:00 due to the DTMB drivers heading back to Lansing. Food Bank was called and had to get drivers in to operate trucks, pick up water from the School District, load and deliver to all sites. Delays occurred with weather conditions and needing to use last minute sheriff EOC staff to load due to issues with City workers. City workers were scheduled to help and left around 7:00 without helping.
- 2 pallets of water were dropped off in the afternoon and within 1 hour were gone. This was much faster than we expected. On 1/9 they didn't go through 2 pallets of water at any station for the hours 9:00-4:00.
- We received news that a reverse 9-1-1 call notified residents of water which caused an unanticipated amount of people obtaining water. There was also a report of 1 person walking out with 2 cases of water and trying to sell in the parking lot.

Station 8:

- Around 7:00 ran out of filters and lead tests. Filters were delivered around 8:00 from the food bank trucks.
- Hourly reports were requested in the morning from volunteers but this information was not received as to the status throughout the day. Early inventory of supplies took between 1 hour-1.5 hours to receive in the EOC. We were not advised of low counts, just zero numbers.
- Reports received that the last couple of hours were slow.
- Residents were advised of the other sites and the opportunity to obtain supplies.

Restocking Plan

- United Way set up meeting with Food Bank to discuss.
- Had EOC meeting on this topic to discuss options.

Churches:

- All 9 churches received waters, filters, and informational bulletins.
- Lt Roach received positive feedback from 3 of the pastors.
- No complaints were received.

Signage:

- Provided information to SEOC on signage requirements at the fire stations.

Storage:

- Researched storage spaces; established temporary site at GCCARD.

Personnel:

- Lack of local EOC leadership (seems somewhat checked out) with IC and Deputy IC (doing an okay job).
- Captain TaFoya (Genesee County) helped tremendously today with all the plans outlined above and attended the press conference.
- Tina Martinez at the Food Bank and Matt Purcell at GCCARD were extremely helpful in getting last minute operations set up.

Chris

Update 1/9/16

SitRep 4 attached for more in depth information The below only contains some items worked on today and while the format in the attached SitRep is not perfect (it is created automatically by MICIMS) it does contain a lot more information you may want to read. I also attached one of our maps. It is our filter distribution map. All filters handed out by anyone working with us feeds into this now. We are continuing to refine these and at this time there is a delay in the upload of address data but we are working on it. We have a ways to go to get filters in every home but this will help direct us to those who need still them. We also are working on identifying abandoned homes.

Key items for tomorrow to note are:

- 9 churches will have ARC volunteers and filters for distribution. Some may also get water.
- 5 fire stations are a distribution point for water, filter systems/replacement filters, and water test kits. While only open today until 4 p.m., tomorrow and until further notice they are open from 9a to 9p.
- Media event will take place on the above tomorrow.

Items to Note

- 211 has some issues with call load but it is being worked on. 2-1-1 Director contacted MDHHS PIO to discuss/resolve caller wait times and messaging. We anticipate an increase in activity tomorrow in 211 calls so we requested and received an increase to staff 211.
- We are shifting tasks the SEOC took on that are handled more effectively and efficiently at the local EOC. We have established command and control in their EOC. We are running things there but that is not being made public. We are doing this in partnership but we are clearly handling the operation with state personnel oversight.
- A 3rd FEMA LNO arrived today upon my request. This has nothing to do with a Presidential request for a declaration but support for some other items I want worked on for long term recovery.
- We continue morning calls with the local EOC leadership and local emergency manager on what our goals for the day are as well as any issues/concerns.
- Five 5 fire stations have received water, water filters, replacement cartridges, and water testing kits with American Red Cross personnel at each location to assist with delivery of resources and collection of addresses receiving them. These locations will be open from 9a – 9p daily until determined they are no longer needed. Those picking up water testing kits will be advised that they can return the test kits to the fire departments (where they will be picked up and taken to the Flint City Hall), the Flint Water Treatment Plant, or they can take them directly to the Flint City Hall. For those unable to return the kits, 211 can make arrangements for pick up the kits. We understand response to these sites has been positive thus far. The Genesee County EOC will be monitoring these supplies and request replacement of products as needed.

    - A call is going out tomorrow morning to advise this information ... I do not believe it was every resident but Tori Sachs has that info if needed.
- I approved a press release today to advise the public that all levels are working together to ensure delivery of filters, test kits and water; noting that all of these items were delivered to the 5 Flint fire department stations. It was stressed that the public should be aware that the local and state agencies have been working cooperatively to assist the residents - and will continue to do so. This was done to hopefully end or at least minimize the "who can get water and filters out first" when all of this has been connected with the state and coordinated since the state declaration was put in place.
- The arrangement of 2,000 filters, to be taken to 9 local churches on Sunday, January 10, is ongoing. The filters have been secured; they are now in the possession of the DTMB. DTMB will return to Flint on Sunday morning to deliver these to necessary locations. The American Red Cross will be on site at each church to assist with distribution and recording addresses (for GIS). The local EOC is working to ensure these arrangements are complete and run smoothly. Future engagement with the faith based community will occur to assist with additional distribution.
- A Flint City liaison has not been in the EOC but starting Monday this will be in place to keep the Flint Mayor appraised of activities being conducted in the city. She also has been advised she can call me at any time if she needs anything.
- Training has been confirmed for the door-to-door operation scheduled to start Tuesday. Four teams are initially scheduled with more to potentially be put in place. These are the teams that will be handing out water, filter systems/replacement filters, test kits and information. If nobody is home, a door hanger with information is being left. DHHS personnel and one MSP trooper will be on these teams.
    - Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.
        - Training is so those going door to door can explain what the filters do, how to install them, if they need install help to call 211 who has a list of people who can install the filters, and answer any other questions versus just handing them the filter.
    - Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m. AT THIS TIME. I am reevaluating these times to increase contact with someone versus just leaving information.
    - Logistics are being finalized for the teams and trucks to handle stocking and re-stocking of materials during daily operations.
    - GIS maps will provide guidance on deployment locations for these teams and other teams in the field.
- A pilot project at Freeman Elementary with LARA and DEQ has been initiated to see if replacing certain plumbing components in faucets at the school will drop the lead level.

MSP/EMHSD GIS Section Updates

Accomplished Today (January 9):

- Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.
- Produced Filter Distribution Map.
- Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
- Worked on map of franchise customers outside of Flint City.
- Produced maps for MDARD on food establishments and Local Health Departments.
- Produced map of Church Filter Distribution map for DTMB.

Local Emergency Operations Center

- The state has deployed personnel to the Genesee County EOC to ensure we have command and control at the local level. On 1/8/15 The state personnel took over the incident management functions of the Genesee County EOC (not public). The arrival of additional staff allowed the local Emergency Management Coordinator to delegate tasks which relieved a tremendous amount of stress.
- Additional Sherriff staff ( ) will be shadowing the state incident management team to allow for transition to the county personnel later in the incident when we are comfortable with them handling things. Not sure when that will be but we have secured a direct bill hotel for staff to stay in Flint as long as needed.
- With the additional staff, the Local EOC will be able to take over functions previously handled by the SEOC including:
    - Logistical activities to support church operations.
    - Logistical activities to support fire stations operations.
    - Coordinate Donations Management activities and draft donations management plan
    - Coordinate Volunteer Management activities
    - Identify local storage/staging facilities
    - Overall inventory tracking
    - Tracking of Points of Distribution (PODs)

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/8/16

SitRep 3 attached.

There is a significant difference in what is being presented by the media and what the local EOC is relaying to us at the SEOC. It is also being driven by the media that this is a state versus local response (who is providing more and quicker versus a coordinated effort between all). That said, I advised SEOC personnel that perception is reality in some eyes and we are to move forward to address items that typically are addressed at the local level. I have ordered the SEOC open all weekend due to make the quick wins that we need and continue to get the coordination and collaboration in place that is needed (but make gains on our own as needed).

Items to Note

- Two FEMA LNO's arrived today and are in the SEOC. A third LNO was requested from FEMA due to some unique issues with this event to include having to deploy more or my staff to the local EOC to get more structure and/or find out why there is an issue with the message the media is showing versus what we are hearing from the local EOC.

- We finally received from the local EOC 8 locations (we were told originally early in the week they had 80-90) that are their Points of Distribution (PODs) for water in conjunction with the local food bank. The PODs are not getting water from the food bank even though the food bank has water. We are going to resolve this issue as we can help deliver the water to the PODs but we were not aware of this. 8 PODs is not enough locations if water needs to be distributed to citizens. Speaking with the ARC Regional Administrator later today, I believe ARC got water to those locations but I need to confirm that in the morning. The food bank reported they had 376 cases of water.

- We have learned that a low number of residents are testing their water when DEQ can test 400 kits per day. This is an added focus that we believe can be increased through dissemination of test kits with the filters and any water.

- I found out the Mayor was okay with using fire stations as distribution points for water, filters, and water test kits. While this did not come to me through the local EOC, I advised we needed to get water, filters, and test kits to these locations for tomorrow. The distribution at 5 Flint Fire Department stations has been coordinated to be in place by 10:00 am tomorrow morning.

    - DTMB has provided a truck and driver to pick up water test kits from DEQ lab in Lansing, water from the Food Bank and water filters and replacement cartridges from GCARD in Genesee County.
    - 10 American Red Cross (ARC) volunteers will meet the DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.
    - Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.

- STILL FINALIZING - We have made available 2,000 Filters for distribution on Sunday as parishioners leave mass/services. This will be 200 filters for 10 churches in Flint. While this is a small number of churches, we do not want to waste an opportunity to hand out filters and this seems like a quick way to so. The filters will be put on the DTMB truck on Saturday for delivery to TBD locations for distribution. Logistics remain undetermined as I am still waiting on a list of the churches, pastors/reverends/hours or services/etc. The DTMB truck will be returning to Lansing approximately 11:00 a.m. so we need to finalize this quickly on Saturday. We may utilize ARC to assist with this.

- The Recovery branch is working with the JIC to develop a door hanger card. DTMB is working on the printing portion of the hanger card. Recovery will also be finalizing logistics over the weekend for neighborhood canvasing to occur early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.

- It appears that 211 has become overloaded. DHHS is researching ways to increase capacity for calls.

- A Volunteer Management Coordinator is in the Genesee County EOC as of today.

- A Donations Management Coordinator has been requested and she will be in the Genesee County EOC Saturday.

- DHHS had a conference call with GM today; they indicated they can provide cash, and supplies, but primarily manpower. No commitments were made at this point. We inquired as to availability of warehouse space and trucks. It was left as GM being a major resource pool that we can tap into as we determine missions. Further conversations will occur, but primarily GM just wanted us to know they are there if needed.

- An additional EMHSD staff member was sent to the Genesee County EOC to act as Operations Section Chief and obtain awareness of the situation there.

- GIS staff met with various parts of Genesee County/Flint personnel to try to get a handle on data available.

- GIS continues to work with local GIS personnel with three GIS staff going to Flint today to work with them. GIS staff is working with U of M on how best to proceed with digitizing water lines for long term recovery.

Chris

UPDATE 1/7/16

A summary of some of today's SEOC activities is provided below. Attached is the following:

- Today's SitRep which contains more information than below.
- The resource request/task assignment sheet for your situational awareness. This is how locals request resources as well as how we track resources and any assignments and/or tasks that are to be completed.
- JIC Task Tracking – for your situational awareness on how we are tracking requests and assignments. Once someone is assigned a task or resource request it allows them to document what work has been or will be done as shown at the bottom of the document.

Items to note:

- I received a document this evening from Genesee County which appears to be damage assessment information. Analysis of this will occur tomorrow. It appears to be infrastructure and costs to fix it and no other impacts.
- I spoke with Jamie Curtis, Genesee County Commissioner, this evening. A very good relationship is in place with him, especially with our District Coordinator (DC). I also have our DC working on developing stronger relationships with the Mayor/Mayor's office.
- GIS staff continue to obtain data and work with County and City personnel to get a picture of where resources have been provided, need to be provided, as well as infrastructure locations (pipes) that could be affected.
- Personnel and agencies have been tasked with developing a plan to get people in the community to deliver information, hand out filters, etc. This would target those areas we are showing minimal or no filter distribution based on the data we are collecting. The plan is to get them in the field by Tuesday and the plan will be provided to me tomorrow.
- Filters can be obtained at the following locations:
  - Michigan Department of Health and Human Services office, 125 E. Union St., Flint, MI 48502
  - Michigan Department of Health and Human Services office, 4809 Clio Road, Flint, MI 48504
  - Genesee County Community Action Resource Department office, 2727 Lippincott, Flint, MI 48507
  - Genesee County Community Action Resource Department office, 601 N. Saginaw, Flint, MI 48502
- Conducted briefing with local EOC and county executive.
- Conducted briefing with state agencies (daily updates).
- Began work to schedule legislative/congressional conference calls. Tentatively scheduled for 2 p.m. Friday.
- JIC continued to develop messaging.

- Provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
- Deployed two EMHSD/SEOC liaisons to assist the local EOC.
- Published the Incident Action Plan and continued assignment of objectives/tasks.
- FEMA Liaison Officers just arrived in Lansing to assist command and general staff.
- I spoke with Harvey a few times and he should have talking points later tonight or tomorrow a.m. for his use and also for others who may speak to media outside of state government who may benefit from our messaging.
- We held a media round table at 1 P.M. at the SEOC. Dr. Wells and I spoke and answered questions to numerous media outlets.
- Local agencies and NGOs continue to provide water and filters to citizens.
- The website, www.michigan.gov/flintwater, was update with information and links to assistance to include 211. Additional recommendations were provided to include information on the testing water in homes.

EMHSD GIS:
Accomplished Today:

- Reproduced Socio-Economic Status Map
- Reproduced Predicted Affected Populations Map
- Cleansed old data and reports for water filter distributions
- Created draft map of water filter distributions (Refinement needed before releasing final product)
- Scheduled on-site visit with Flint GIS Department and Genesee County GIS Department
- Formatted databases to host content
- Researched service line database creation and scheduled meeting with U of M Flint to discuss timelines and resource needs
- Generated water infrastructure map (does not include building service lines)

Tasks for Tomorrow:

- Meet with Flint City GIS
- Meet with Genesee County GIS
- Meet with U of M Flint GIS
- Finalize water filter distributions map
- Finalize plan for data distribution methods

Chris

UPDATE 1/6/16

A summary of today's SEOC activities is provided below. I tried to distill this as best I could but there has been a lot of activity and discussion to get an accurate assessment of the situation. Attached is the final draft of objectives and tactics for the operational period and agency situation report (SitRep) which has more SEOC agency information. I have implemented weekly operational periods.

Advise if you want anyone else copied or off this distribution.

Daily Update

- Set goals for SEOC and identified response/recovery emphasis

- Requested FEMA liaison officers (LNO) from FEMA Region V. Two LNOs will be on site by ~3 p.m. 1/7/16. Both are known contacts to me and some staff and one has worked extensively with me during the SE MI flooding in a command and control position. These personnel have been specifically tasked with this mission. **THEY ARE NOT HERE TO ASSIST WITH A PRESIDENTIAL DECLARATION REQUEST BUT TO ASSIST ME.**
- PIOs from multiple agencies were here and established the Joint Information Center (JIC). News released pushed out on this. I am very happy with the PIO work and movement toward coordinated messaging.
- Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts to ensure situational awareness and to develop a common operating picture.
    - I opened the briefing by identifying our initial goals, items to think about while subject matter experts were briefing us, and how we are to move forward, find quick wins, and regain trust.
    - **MDHHS – Elevated Blood Lead Levels**
        - Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what has occurred in terms of health monitoring throughout the Flint crisis.
    - **MDEQ – Water Testing Protocols**
        - Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.
- Developed Incident objectives, strategy and tactics (see attached)
- Identified SEOC and state agency staff positions
- Assigned work tasks for SEOC operation period from 0800 January 6, 2016 to 1700 January 8, 2016
- Reviewed planned actions, prepared final draft Incident Action Plan
- ***Made contact with the Genesee County Emergency Manager first thing in the morning and held a conference call mid-day to discuss roles. Daily 0830 command conference calls with local EOC command staff starts tomorrow. Tomorrows call will include the County Commissioner and the City Administrator (both invited). Topics include the incident action plan objectives and establishing better local coordination, command and control to facilitate integration with the SEOC. The local EOC is not functioning as it needs to with personnel and local coordination and we are working on that issue.***
- I will be in Flint tomorrow for a 2 p m. media round table with local officials that was set up by the JIC.
- The attached initial objectives will be updated at least every operational period and as needed. I listed the objectives below but the tactics to accomplish them is in the attached if you want further information.
    1. Activate the State Recovery Task Force (SRTF).
    2. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.
    3. Obtain and maintain situational awareness and common operating picture of all activities.
    4. Establish SEOC operational period and hours of operations.
    5. Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.
    6. Develop a comprehensive GIS strategy.
    7. Coordinate response and recovery activities with MIVOAD and identify potential mission areas.
    8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.
    9. Provide technical assistance to the local Damage Assessment process.
    10. Establish a Joint Information Center (JIC) and develop a public information strategy.

11. Monitor MI CIMS for resource requests and address as appropriate.
12. Establish and disseminate cost center information for the incident.

- Additional tasks include:
  - Determine what federal agencies are already involved and their status
  - Identify potential water supplies
  - Determine where affected homes are located, where filters/pitchers (and replacements) were installed/provided, and determine who needs filters, etc.
  - Determine how filter distribution is handled, and if it can be handled more efficiently and effectively
  - *Determine what mechanisms are in place for nutrition supplementation*

EMHSD GIS Accomplishments:

- Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC
- Established a daily call with county and city GIS personnel to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
- Began consolidating local data from local GIS practitioners into a consolidated database, to include:
  - Water Pipeline Locations
  - Filter Distribution Locations
  - November 25, 2015 Water Monitoring Results (Partial, some data remains to be digitized)
  - Affected School Locations
  - Predictive analysis of blood lead levels for affected area
  - Updated Parcels
  - Demographics
  - Block Groups
- Produced a map for the filter distribution locations
- Began contacting specialists who developed historic maps depicting the Flint Water Crisis to obtain the data

Subject: Update - Genesee County Declaration

Below are some key points for your situational awareness (FYSA) that have taken place or will take place within the next 15 hours.

- I was on the phone with Sean Kammer, Assistant to the Flint City Administrator, when the declaration hit the news so I advised him immediately. He was going to let the City Administrator know.
- I contacted MSP Lt. Roach, 3rd District Coordinator, who was at the Genesee County EOC and advised her to let the County EM know the declaration status.
- State Emergency Management Coordinators (SEMCs) were notified via our notification system with additional information in an email.
    - This included information on the SEOC activation and a 0900 briefing for SEMCs.
    - Some subject matter experts will provide us an update to establish a common operating picture.
- We have been in contact with FEMA Region V watch desk ... they will be on the call tomorrow and continue to monitor the situation.
- I have been in contact with the FEMA Region V Administrator to keep him updated.
- Operational period for the SEOC will be M-F, 0800 to 1700 at this time.
- Situation Reports (SitReps) will be provided in the evenings.
- An Incident Action Plan will be developed tomorrow.

Call me with any concerns or questions.

Subject: Re: SEOC Update 1/22/16 - Flint Water - Limited Distribution

Regarding donation inquiries, how are those being handled now?

On Jan 22, 2016, at 9:06 PM, Kelenske, Chris (MSP) <KelenskeC@michigan.gov> wrote:

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/22/16 – 18h Day (17th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue door to door/Flint Water Response Teams (FWRTs)
- Plan for next phase with MSP and NG personnel
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration
- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

- SitRep # 17
- Briefing provided to the HHS Undersecretary by FEMA (due to time only finished 75%)

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- ; National Guard/State/Local ( ) type 3 teams
- 40 ARC (2-4 folks) type 5 teams
- Deliveries going out to all churches on our list we have been working with (21) for Sunday services.
- I will not be in the SEOC Saturday. Tony Katarsky will be the acting SEOC state director. I will be available by phone (wrestling meet).
- Sunday, Lt. Mike Johnson will be acting SEOC state director but I may be in for some of the day.
- Monday I am out on a college visit with my son...I will be available by phone and Tony will again be acting.

Items to Note

- Deployed state/local teams and 15 ARC Flint Water Response Teams to the field today.
- SEOC Operations worked on getting local contact into the JIC along with developing messaging for *resources and donations.*
- SEOC Planning worked on the further development of long term strategy.

- Recovery branch continued coordination with Red Cross on volunteers and the Michigan National Guard for Friday and Saturday.
- SEOC logistics worked with FEMA/DHHS on warehouse tracking status/strategy, coordinated resources, and donations management.
- Have had a number of media request concerning resources for immigrants and population less proficient in English. Clarified with a news release that we are not requiring ID but we are asking for addresses to assist with long term recovery. Nobody will be denied resources if they fail to provide us an address.
- Have received numerous inquiries from celebrities on how they can assist and donate.
- We are validating a lot of data but what we have currently is 38,144 parcels in Flint that are not considered "vacant". This does not mean all parcels have a tenant, there are a lot of houses that are empty.
    - 26,673 water subscribers in Flint (not including franchise).
        - Water Subscribers with a Filter = 15,399 (57.7%)
        - Water Subscribers without a Filter = 11,274 (42.2%)
            - With our second pass we are getting more information as to why people do not have a filter. Looking into whether these include homes connected but nobody currently living there. We are refining the data.
    - 11,471 Non-Water Subscribers in Flint.
        - Non Water Subscribers with a Filter = 2,196 (19%)
        - Non Water Subscribers without a Filter = 9,275 (81%)
    - The SEOC Ops Chief has been directed to firm up all numbers with GIS. We have a GIS specialist from FEMA Region V also deployed to the SEOC to assist. ArcGIS has advised us that the amount of data we have collected is more than some major disasters in other states. We are looking into getting their personnel more engaged to ensure we are using all the tools available for analysis.
- SEOC Finance Chief is working on costs to date and all SEMCs were advised to tighten up their records and ensure we have accountability of all costs.
- Information reported to the JIC:

    - <u>As of 1/22/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)</u>

1. Homes visited by the FWRTs to date.

To Date	1/22/2016
37,697	5,920

2. Distributed: Includes outstanding data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots.)

Commodity	Total to Date
a. Number of cases of water	121,404
b. Filters	82,687
c. Filter cartridges	191,704
d. Test kits	23,415

3. Resources purchased:
    a. Cases of water 130,782 (additional 21,682 donated)
    b. Filters 115,700
    c. Filter Cartridges 266,200
    d. Test kits 61,161

4. Teams going out tomorrow:
    a. National Guard State ' ₃) type 3 teams -- Goal tomorrow 300 homes per team
    b. 40 ARC (2-4 folks) type 5 teams -- Goal tomorrow 100 homes per team

Local EOC

Operations:

- Worked to identify all vulnerable populations to help streamline Hot Shot process.
- Working on plan for church water distribution and POD locations.
- Looking at possible alternative locations for PODs in difficult traffic areas.
    - Working on finding a new POD for 3 and 6. We are aware that the mayor would need to approve this.
- Coordinated water donations and delivery areas.
- Last minute large donations of water and volunteers expected during the weekend.
- Working on finalizing a recycling plan for the incident.
- The Jail water has been tested and is fine. The prisoners are not being poisoned and the local health department is working on clearing this issue up.
- Working on a plan with the churches to have 4 mega sites for churches (N,E,S,W) and have smaller churches work through these sites to get supplies. Churches are interested in the recycling program, putting information in their bulletins and also used a collection sites.
- Team Rubicon is coming tomorrow to assist with home deliveries.
- Continuing with recycling plan. Need to identify sites with city. Local EOC has visited areas with the local contractor.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/21/16 – 17th Day (16th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) - "Phase II"
- Plan for next phase with MSP and NG personnel for Governor approval – "Phase III"
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration
- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

- SitRep 16
- Draft Water Operations Plan for moving to next phases (Discussion document)
- Resident Water Sample Results Map (Not for public distribution)
- January 13-19 comparison map

Status on Governor's request letter to the President

- Emergency declaration received. Pending decision of Major Disaster appeal and any denials under the Emergency Declaration (e.g. Category B). We have not been denied category B yet ... POTUS/FEMA has not given it to us though. I believe we may get a denial of category B in conjunction with the Major Disaster appeal decision. We will have 30 days to appeal.

- Category B is critical in that it is for Emergency Protective Measures which includes (but is not limited to) EOC related costs, supplies and commodities, safety inspections, and in *limited circumstances "water testing and treatment supplies in the immediate aftermath of the incident to counter a specific threat."* We purposely put our start date of this incident to be April 25, 2014 in hopes we get category B and could get 75% federal funds for many other costs all the way back to 2014 – long shot but would be huge if we land this.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have 18 National Guard/state/local agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
  - We will have 15 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- *We are using the terms Phase II, Phase III, etc. These are for internal discussion for planning and not* meant for public dissemination at this time unless it is determined to be beneficial.
- The draft operations plan (attached) was completed in conjunction with MSP and NG personnel to *initiate discussion on our next steps as to WRTs and PODs.*
- The WH issued a statement that $80 million dollars in aid to MI mostly to repair Flint water infrastructure. We do not have additional information on this. This may be existing federal funds provided to MI that is just being opened up for other use. FEMA does not have any information on this.
- We have been advised we exceeded the $5 million under the emergency declaration. We are at $7.6 million.
- FEMA has advised that any donated items can be used to offset the state cost share. We are working on the mechanism with FEMA to do this.
- Deployed 18 state/local teams and 10 ARC Flint Water Response Teams to the field today.
- SEOC logistics worked to project future orders of water resources and commodities.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- DEQ test kits are only being provided to those who ask for them.
- I made contact with Senator Ananich aid, Julie Townsend, who was a POC for his volunteers. They are set to work next week on the 30th.
- *MDOT met with city personnel to look at Station 6 POD and other PODs to see how traffic flow can* be facilitated and safety increased. Additional report out due 1/22.
- A request from MSP MC3 for NG Cyber personnel at $32,000 for 30 days or less) was *initiated. This is to assist with the cyber attacks that have occurred/future attacks related to Flint* Water. PENDING APPROVAL. NG advised this would have to be funded with existing funds at this time and to make adjustments.
- MDARD Food Program staff have completed assessments of all 21 food businesses (including restaurants) that were located in the highest risk area. In addition, they have completed assessments at 34 food businesses in the medium risk area, and have scheduled 28 appointments to collect water samples.
- Dr. Nicole Lurie, the Assistant Secretary for Preparedness and Response from the US Department of Health and Human Services (HHS), in addition to the HHS Regional Coordinator and other CDC staff, visited the CHECC and SEOC this morning and provided commentary to CHECC and SEOC staff/EMCs. She also attended a briefing from FEMA before departing to visit Flint.
- Parents of boarding students at the Michigan School for the Deaf were notified of the elevated lead results in Stevens Hall. All fixtures in the dormitory are scheduled to be replaced by January 24, 2016. Lt Gov. has scheduled visit on January 25.

- Valley Area Agency on Aging (VAAA) continues to take calls from seniors and caregivers needing access to water and filters. VAAA is providing this information to the local EOC each afternoon for follow-up.
- Information reported to the JIC:

    - As of 1/21/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase 1	Phase 2
30,770	5,409

2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.

Commodity	Phase 1	Phase 2	Total to Date
a. Number of cases of water	94,688	10,403	105,091
b. Filters	77,215	2,356	79,571
c. Filter cartridges	188,389	1,039	189,428
d. Test kits	20,037	1,588	21,625

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes/multi family (The is the low end target #)

4. Resources purchased:
    a. Cases of water 124,398 (additional 20,098 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. , National Guard/State/Local) type 3 teams -- Goal tomorrow 300 homes per team
    b. 15 ARC (2-4 folks) type 5 teams -- Goal tomorrow 100 homes per team

Local EOC

• Attended ARC meeting with VOADs to discuss volunteer management and strategies.
• Attended meeting with Plumbers and Pipefitters Union to assess the need for long term cooperation for filter installation and fixture
replacement.
• Requested and received confirmation of deployment of Team Rubicon (starting on 01/23/2016).
• Facilitated Flint & Genesee Chamber of Commerce representation at the EOC.
• Addressed security issues at Fire Station 3, 6 and 8 PODs (residents concerned about criminal activity).
• Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
• Met with Genesee County Planning Commission, United Way of Genesee County and Michigan Community Service Commission to clarify
recycling plans and potential volunteer utilization.

• Coordinated and verified deliveries of supplies to apartment complexes.
• Identified potential locations for recycling stations.

Chris

Update 1/20/16 – 16th Day (15th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for second phase of door to door operations
- Submitted appeal to FEMA Region V
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration

Attached Documents:

- SitRep 16

Status on Governor's request letter to the President:

- Emergency declaration received.

Key items for tomorrow to note are:

- Five copies of the State/FEMA agreement will need to be signed by the Governor. Capt. Kelenske has them and will coordinate delivery.
- The logistics plan will be fully executed tomorrow with all teams.
    - We will have National Guard (MSP supported), type 3 teams l), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- Dr. Luri from HHS will be at the SEOC ~10:00 p.m.
- A second phase is starting tomorrow which will include more refined questions as to type of filter systems each person has. This will assist with sustainment operations.
- DOC prison work crew personnel (6-7) will be at the warehouse to keep the area clean. A lot of trash is generated in the warehouse and was becoming an issue.

Items to Note

- Deployed state/local (NG, MSP, Local) teams and 10 ARC Flint Water Response Teams to the field today.
- MSP and local Sheriff's Department continue to provide over watch for WRTs.
- Aqua Hydrate contacted me to donate 5000 cases a month (4 semis) for a year. I was advised by Lindon Nelson this was a Governor/Mayor/Senator Ananich and Meekhof initiative and a press release was going to go out soon (TBD). Logistics is following up with them.
- News release sent from Governor's office about the appeal to the President of the disaster declaration.
- SEOC Logistics worked with JIC and Governor's office to establish a business resource submission tab on www.helpforflint.com
- SEOC Operations continued to develop and finalize Phase 2 canvassing roll out.
- Meeting held with Dr. Luri from HHS.
- Capt. Kelenske and other state agency financial personnel attended the appropriations hearing.

- End of day – concerns with the mass amounts of volunteers showing up and wanting to help. This can cause logistical issues but staff was working to get additional tasks for volunteers outside of the WRTs. We will continue to work on ways to involve more volunteers.
- Additional 5 person NG team for warehouse support approved.
- Information reported to the JIC:

    - <u>As of 1/20/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)</u>

1. 29,317 homes visited by the FWRTs to date.

    2. Distributed: Includes outstanding hard copy data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots).
        a. Number of cases of water 90,337
        b. Filters 73,229
        c. Filter cartridges 185,852
        d. Test kits 19,866

    3. Total number of customers on the Flint water system
        a. 29,944 paying customers
        b. 45,000 hookups (This is our high end target #)
        c. 39,000 includes apartment complexes (The is the low end target #)

    4. Resources purchased:
        a. Cases of water 111,630 (additional 18,502 donated)
        b. Filters 115,700
        c. Filter cartridges 243,200
        d. Test kits 61,161

    5. Teams going out tomorrow:
        a. National Guard (type 3 teams---Goal tomorrow 300 homes per team
        b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

<u>Local EOC</u>
Operations:

- Addressed reports of water contamination in distributed bottled and canned water. Confirmed that water is safe to drink through testing by MDEQ. Coordinating with JIC and MDEQ for improved public information on the issue.
- Identifying options to reroute unsolicited offers for supplies and services outside of the EOC. Coordinating to set up 800 number.
- Attended meeting with Flint & Genesee Chamber of Commerce to discuss coordination of efforts, representation at EOC, and improved messaging.
- Attended meeting with Community Foundation of Greater Flint to discuss coordination of neighborhood groups and improved messaging.
- Coordinated with MDARD to provide additional lead testing at restaurants, and signage for safe locations.
- Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
- Coordinated and verified deliveries of supplies to apartment complexes.
- Discussed logistics requirements of delivery requests for homebound residents with SEOC Logistics.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/19/16 – 15th Day (14th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Prepare plans for next phase of operation – Second sweep of city

Attached Documents:

- SitRep 14

Status on Governor's request letter to the President:

- Emergency declaration received.
- Appeal letter pending.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have National Guard, type 3 teams , with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed state/local teams and 11 ARC Flint Water Response Teams to the field today.
- Messaging being developed for concerns regarding the Total Dissolved Solids (TDS) meters and citizens' concerns with those meters indicating "lead" in bottled water. Testing of water to be done by DEQ to ensure we have solid messaging.
- DTMB is working to secure space in Flint for FEMA staff.
- Press release went out this afternoon to announce that the US Department of Health and Human Services will lead the federal response in Flint. Capt. Kelenske to meet with Dr. Nicole Lurie, HHS Assistant Secretary for Preparedness and Response (ASPR), on Thursday. The goal of the federal response will be to help state and local leaders identify the size and scope of the problem, and work with them to make and execute a plan for mitigation of the short- and long-term health effects of lead exposure.
- Additional NG personnel being requested to assist with Warehouse inventories.
- NG personnel on the ground with the WRTs tomorrow with more transitioning in.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- LG is going to be in Flint working at one of the PODs on Wednesday.
- Information reported to the JIC:
  - As of 1/19/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 22,129 homes visited by the FWRTs to date.

2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.
    a. Number of cases of water 77,794
    b. Filters 69,730
    c. Filter cartridges 184,457
    d. Test kits 16,671

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 95,760 (additional 16,056 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. National Guard) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Attended public health group meeting with GCHD, City of Flint Water Department and MDEQ to discuss water test information being returned to residents, to allow residents a greater understanding of results.
- Attended recycling/trash management group meeting with DEQ, Republic Services, Keep Genesee County Beautiful and Genesee County Planning Commission. Provided projections on current and anticipated bottle distributions.
- Coordinated deliveries of supplies to faith-based organizations, apartment complexes and homebound residents.
- Coordinated with Comcast to set up locations for distribution of filters (distributed 60 filters on 01/19/2016).

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/18/16 – 14th Day (13th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) and PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.

- Complete appeal for Presidential Major Disaster Declaration denial.

Attached Documents:

- SitRep 13
- Side by side comparison of homes with filters January 13th compared to January 18th. This should be hitting the media tonight. This took longer to create than I wanted but is the image I have wanted to show progress of getting filters in to the field.

Status on Governor's request letter to the President:

- Appeal in process.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have state/local agency, type 3 teams ( ), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
  - NG will be bringing in personnel to prep for surge.

Items to Note

- Beginning tomorrow the operational periods will be 7 days long.
- The CDC/ATSDR (Agency for Toxic Substances Disease Registry) has deployed a team to Michigan.
- An Arabic version of the palm card was reviewed and approved. This was developed via Arab American and Chaldean Council.
- Deployed 12 state/local teams and 10 ARC Flint Water Response Teams to the field today.
- DTMB is working to secure space in Flint for FEMA staff.
- Cost analysis to investigate if it would be more cost effective for FEMA to purchase water vs the SOM.
- ARC news release concerning the Volunteer Reception Center (VRC) sent out today.
- Media availability conducted today at 3pm at the VRC.
- Since 1/14/16 Michigan 2-1-1 has received three direct reports of bottled water testing positive for lead. DHHS SEOC Desk and DEQ SEOC Desk was able to contact two of the callers. The Zero Water filter (pitcher) has a handheld test device so people know when to change the filter. This TDS Meter measures dissolved solids (it is not a lead test). This was explained and we are going to work on messaging to ensure this does not cause issues. Dissolved solids are in all water. The water from the callers is going to be tested and a case of water from one of the companies will also be sent to DEQ for testing. Brands are Spartan Spring Water and Canned Water for Kids. The filter company is also going to work on messaging and work with us on this matter.
- Information reported to the JIC:
  - As of 1/17/16 as of 5 pm (start date was Tuesday, 1/12/16)

1. 21,393 homes visited by the FWRTs to date.

2. Distributed:
   a. Number of cases of water 37,313
   b. Filters 53,713
   c. Filter cartridges 169,520
   d. Test kits 7,379

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)

c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 82,992 (additional 16,056 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. State type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Continuing to work with faith based organization to distribute resources.
- Working with colleges to obtain volunteers for canvassing.

Chris

Update 1/17/16 – 13th Day (12th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs), PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.

Attached Documents:

- SitRep 12

Status on Governor's request letter to the President:

- Emergency declaration received.
    - Limited to direct assistance so we will need to ask for the Individual Housing Program but that is something I will work on with FEMA.
- Major disaster declaration denied. The appeal is being developed with a draft to Paul Smith by later afternoon 1/18/16.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 2 state agency, type 3 teams el), with a goal of 300 homes per team.
    - We will have 12 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed 1 state/local teams and 10 ARC Flint Water Response Teams to the field today.
    - 4,963 homes visited today.

01/16/16

01/17/16

- Information reported to the JIC:
    - <u>As of 1/17/16 as of 7pm (start date was Tuesday, 1/12/16)</u>

1. 16,353 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received from prior to the SEOC activation (trying to validate the data) plus the PODs and door to door operations since activation.

2. Distributed:
    a. Number of cases of water 27,195
    b. Filters 50,432
    c. Filter cartridges 168,605
    d. Test kits 4,861

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 57,456 (additional 12,884 donated)
    b. Filters 108,520
    c. Filter cartridges 239,081
    d. Test kits 28,901

5. Teams going out tomorrow:
    a. State (type 3 teams---Goal tomorrow 300 homes per team
    b. 12 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Facilitated activation of the Genesee County/Genesee Health System MOU for mental health services.
- Coordinated supplies for distribution to students at the U of M Flint campus.
- Still concerned about people going to every fire station and collecting water/filters.
- Coordinated trash pickup at Fire Station PODs with the City Liaison officer.
- Coordinated hotshot deliveries of supplies to home bound population.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/16/16 – 12th Day (11th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to prepare for engagement following the Presidential Emergency declaration

Attached Documents:

- SitRep 11

Status on Governor's request letter to the President:

- Emergency declaration received. Federal Coordinating Officer (FCO) is David Samaneigo (Sam) who has been my LNO from FEMA. We began discussions on a transition to FEMA support last night. His team is headed to MI at this time and we will have our first coordination meeting on Sunday.
- The request for a Declaration of a Major Disaster was denied. FEMA advised this event does not fit the legal definition of a major disaster (natural incident or fire, flood, or explosion). This information has been provided since prior to the event to elected officials in Flint and the legislature. We are reviewing the chances for an appeal and I have already discussed this with the FCO.

Key items for tomorrow to note:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have state agency, type 3 teams l), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- I will be back on duty Sunday.

- We have been working with some of the churches. Contact was made with 14 churches for Sunday distributions. Interaction with the pastors has been very positive.
- A logistics briefing will be provided to see how many more teams we can put in the field.

Items to Note

- LT Gov visited the local EOC today; discussed local EOC operations.
- Deployed 11 state teams and 10 ARC Flint Water Response Teams to the field today.
- DEQ sampling kits are now being received at the PODs.
- DEQ sampled two Head Start facilities and worked with GIS to obtain future sample sites.
- The Freeman School pilot was delayed due to some parts not arriving as scheduled. Testing was to be done Sunday but may not occur until Monday.
- NG will have a total of personnel in the PODs for distribution. Mission has not changed.
    - NG soldiers have been in the PODS. more processing in tomorrow with start date of 1/18 in the PODS. The TAG and I will be discussing future use of NG personnel door to door next week
- Information reported to the JIC:

    - As of 1/16/16 7pm (start date was Tuesday, 1/12/16)

1. 11,324 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received prior to the SEOC activation plus the PODs and door to door operations since activation. 3,850 homes were visited today (4,000 was the goal).

2. Distributed:
    a. Number of cases of water 20,876
    b. Filters 47,935
    c. Filter cartridges 167,401
    d. Test kits 3,322

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 57,456 (additional 12,884 donated)
    b. Filters 108,520
    c. Filter cartridges 239,081
    d. Test kits 28,901

5. Teams going out tomorrow:
    a. State) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Provided direction to Operations and Logistics Section to initiate water sample collection at PODs.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional churches were supplied with water, filters and test kits.

- Still concerned about people going to every fire station and collecting water/filters.
- Station #6 (POD) has associated safety concerns due to proximity of street and lack of suitable parking. We are working to resolve.

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/15/16 – 11th Day (10th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Pilot the logistics plan and adjust as needed
- Continue with door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to ensure we get a Presidential Declaration of a Major Disaster and Emergency

Attached Documents:

- SitRep 10

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. Numerous calls and meetings took place between me and FEMA today.
- When we get the declaration(s) ... I will set up a legislative/congressional call to explain and provide bullet points as to what programs we will received. The Federal Coordinating Officer assigned will also be with me to answer questions. This has helped in the past.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
  - A pilot team was used to test our logistics plan today and with 60% strength they had 160% output (830 homes).
- I will be off tomorrow but available by cell. Tony Katarsky will be SEOC State Director. I will be back in on Sunday.

Items to Note

- LT Gov visited the local EOC and SEOC today. He was able to hear our final briefing for the day.
- Held a short session managing stress with SEOC staff. Two handouts were put in MICIMS for all state and local personnel to view.
- Deployed 10 state teams and 5 ARC Flint Water Response Teams to the field today.

- Standing requirements were created for the JIC so we can get information to the media every day. Below are the current ones we have in place and we should have something out tonight according to the JIC.

    - o <u>As of 1/15/16 as of 7pm (start date was Tuesday, 1/12/16)</u>

1. 7474 homes visited by the FWRTs. We believe we have ~24,000 homes with filters but are trying to validate that information. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.

    2. Distributed:
        a. Number of cases of water 18,576
        b. Filters 45,916
        c. Filter cartridges 165,382
        d. Test kits 3,217

    3. Total number of customers on the Flint water system
        a. 29,944 paying customers
        b. 45,000 hookups (This is our high end target #)
        c. 39,000 includes apartment complexes (The is the low end target #)

    4. Resources purchased:
        a. Cases of water 44,688 (additional 12,884 donated)
        b. Filters 78,520
        c. Filter cartridges 163,081
        d. Test kits 18,761

    5. Teams going out tomorrow:
        a. State type 3 teams---Goal tomorrow 300 homes per team
        b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

<u>Local EOC</u>

Home Deliveries:

- Still receiving lists from the Valley Area Agency on Aging (VAAA) on home deliveries and forwarding these to the Sheriff's office. They are going through a lot of homes. 120 out of 125 homes were completed yesterday.

Operations:

- We sent staff to visit Fire Station 6 and the warehouse today. Fire station 6 traffic was congested and that was during a "slow" time. The National Guard is identifying what is needed to alleviate this. MSP is working on providing uniform presence as needed. An additional iPad at each location will hopefully help relieve the amount of time that people are spending at the distribution sites.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional requests from churches were made and I approved the locations so they could be ready for Sunday. Lt. Roach was told by one of the pastors that he met with the Gov today and expressed how much he appreciated the efforts put forth. We should have 14 for this Sunday. We are working on how we can increase this output.
- Still concerned about people going to every fire station and collecting water/filters. NG personnel observed vehicles with several cases of water an overheard saying they were heading to the next station. Some people were helping themselves and taking more than one case at a

time. Per the NG they cannot physically stop people from doing so. The NG is going to try to change staging in the fire stations to try to prevent this.

- Flint PD is going to check in every day with the EOC and provide a specific contact person. They are also going to help with traffic issues at the PODS. Will ask Flint PD to provide a presence when water is off loaded at a POD to help prevent people from "helping themselves."

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/14/16 – 10th Day (9th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and finalize lease on warehouse space/begin to move supplies from GCCARD to new warehouse
- Continue with door to door teams and finalize planning for future team use
- Submit request for a Presidential Declaration of a Major Disaster and Emergency
- Continue to work on long term recovery items (DHHS, DEQ, MDARD)

Attached Documents:

- SitRep 9

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. I had a lengthy conversation with the FEMA Region V Administrator reference the request prior to sending.

Key items for tomorrow to note are:

- The door to door teams will continue in the morning.
- We will continue to ramp up door to door operations with additional teams. Teams continue to focus on the high lead level areas and additional data is being analyzed to focus mission areas.
- ARC will increase the number of their Water Response Teams.
- Supply burn rates as well as projections on how many teams will be needed to put filters in all homes within 3 and 5 days will be completed. Analysis will be done to see in NG personnel may be needed to finish in quicker manner.

Items to Note

- DEQ was notified of the number of homes who are willing to have them take additional samples in the future (current number (114). This question was added to the App being used by the Water Response Teams. Data will be provided when needed.
- LT Gov is scheduled to be at the local EOC and SEOC (~4:30) tomorrow to see the operations.
- Secured 80,000 sq. ft. of a warehouse today. Working to consolidate all resources in one location. Tomorrow will be the first day of full implementation of our logistics plan.
- Email sent to state employees to request volunteers for weekend.
- Media monitoring showed no incorrect information today.
- Michigan Association of Broadcasters is sending PSA to radio stations.
- Coordinating with Red Cross on volunteers for weekend.
- Deployed 8 Water Response Teams to the field today (approx. 120 volunteers). 78 Red Cross volunteers active across the operation today.

- National Guard is ramping up to have soldiers per shift at each POD tomorrow. Will also have a Public Affairs Officer at the JIC and liaison at the local EOC.
- Senator Ananich visited the SEOC today to see how things operate. The visit went well and he seemed happy with the number of staff working the Flint event. He tweeted out a message indicating there is still a lot of work to be done but all are working hard.
- DHHS
    - The Community Health Emergency Coordination Center (CHECC) is working on the following:
        - A nutrition plan
        - Education materials, messaging, and working with local agencies
        - Developing a community assessment for disaster behavioral health services.
- Lined up the delivery of filters to two large apartment complexes and a student housing complex.
- We have the list of individuals needing home service (additional contacts will be sent to the Ops Chief at the Local EOC each day at 4:00). Info will be provided to the sheriff's office for action.
- Water Response Team Numbers (this is not the total of homes with filters – I will provide that number tomorrow but it appears we have filters in over half the residences):

	TOTAL	1/12/2016	1/13/2016	1/14/2016
Occupied Homes	1450	242	492	716
Vacant Homes	1967	152	161	1654
Total Homes	**3417**	**394**	653	2370
Resources				
Door Hangars	1487	217	453	817
Water	588	117	254	217
Filters	945	112	220	613
Pitchers	22	3	13	6
Water test kits	217	48	109	60
Replacement Filter	482		137	345
Total Resources Dispersed	**3741**			
Future sample test site	114	28	34	52

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/13/16 – 9th Day (8th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and close lease on warehouse space
- Continue with door to door teams and finalize planning for second wave increase (+15 teams – total for 1/14/16 will be 20)
- Continue to work on Governor's Declaration of an Emergency

Attached Documents:

- SitRep 8

Status on Governor's request letter to the President:

- All support data from state Agencies and local jurisdictions collected as of 6:00 pm on 01-13-16

- Current timeline:
    - First draft completed and ready for review by State Department Directors (including the Attorney General) by 11:00 am on 01-14-16
    - State agency reviews due back by 1:00 pm on 01-14-16 for revision of the draft
    - Revised draft to Captain Kelenske by 2:00 pm on 01-14-16 for review and forwarding to the Governor for final review
    - Final draft (based on Governor's review) submitted to FEMA Region V Administrator by no later than cob 01-14-16 but hopefully sooner. FEMA is aware and ready to receive.

Requests and potential response from FEMA/President

- The letter will request all programs eligible under the Stafford Act including Public Assistance, Individual Assistance, Hazard Mitigation, FEMA's coordination of assistance from other Federal agencies and direct assistance from FEMA
- The letter will also request potential direct reimbursement from other Federal agencies such as EPA, CDC, HUD, DHHS and SBA
- This request is in coordination with the request for Non-Stafford Act federal assistance already requested and received by the State (technical assistance and administration, but no direct reimbursement of disaster costs)
- Direct Federal assistance from FEMA in the form of Individual Assistance to homeowners for household repairs (repair and/or replacement of water service lines and Other Needs Assistance to reimburse for water filters, bottled water, etc.) is a possibility
- Direct Federal assistance from FEMA in the form of Public Assistance is not as likely as it is mostly replacement of publicly owned water distribution lines (and not the direct result of damage from a natural cause)
- If Stafford Act assistance is denied (Public Assistance, Individual Assistance and Hazard Mitigation) FEMA could still provide coordination of assistance from other Federal agencies if the President declares a disaster (or emergency) for the State of Michigan

Key items for tomorrow to note are:

- The door to door teams will continue at 9 a.m. – 5 p.m. Thursday morning and continue through the weekend.
- We will continue to ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas and additional data is being analyzed to focus mission areas.
- MNG will have a press event at the armory with incoming soldiers and MG Vadnais.

Items to Note

- Received information that Rev. Jesse Jackson will be in town 1/17/16 at 1:30 at the Heavenly Host Church of the Harvest of Dartmouth St, Flint.
- Managed and corrected misinformation on NG role.
- Senator Ananich is stopping by the SEOC tomorrow morning 0845. I am meeting with him and his Chief of Staff. Short visit as he has a 0930 at the Capitol.
- Working with Comcast so they can put teams in the field for distribution.
- Penske is going to give us 15-20 trucks over the weekend.
- Contact made with Two Men and a Truck for resources.
- Meeting set with Google where they will brief me and key staff potential tasks.
- Coordinated with Flint Mass Transportation Authority (MTA) to include Fire Station PODs on bus routes.
- Tomorrow I will have a projection as to the number of teams needed to get all citizens filters in their homes in 5 days / 3 days.

- We are standardizing team structure and supply deployment to increase efficiencies. Mission Ready Package (MRP) specifications will be sent out for other entities to assist with door to door. They will then be able to arrive as a MRP, get supplies, receive a mission location and deploy.
- 5 Water Response Teams were in the field again today. Below are the numbers from the 2 days of just the Water Response Teams (there are paper copies with data still to be entered from the PODs). I was just briefed by the ARC logistics planner and there are efficiencies we can put in place to increase homes touched per day. The next version of the app will provide more granular details. Additional 30 tablets were configured by DTMB today for field implementation to include use in the PODs.

	Total	1/12/2016	1/13/2016
Occupied Homes	533	242	291
Vacant Homes	238	152	86
Total Homes	**771**	**394**	377
Resources			
Door Hangars	473	217	256
Water	265	117	148
Filters	235	112	123
Pitchers	9	3	6
Water test kits	92	48	44
Replacement Filter	93		93
Total Resources Dispersed	**1167**		
Future sample test site	62	28	34

- We show 17,276 residences with filters (this does not include data entry to be completed from POD or other locations).
    - We have 35,378 service hookups but with apartments, multi residence dwellings, etc we would be around 45,000.
- Logistics Support
    - The American Red Cross Logistics Planner provided me a brief and I approved the plan forward. The current plan includes:
        - Mission – A filter in every home ASAP.
        - 4 Distribution Methods
            - PODs (5)
            - Water Response Teams (20 effective tomorrow and this will increase)
            - Local EOC "Hot Shots" (these are calls for functional needs, unable to get to a POD location due to ??, etc). Personnel dispatched with supplies.
            - Local EOC support for other local requests (Faith based for distribution, etc.)
        - Three warehouse locations at this time
        - How to better leverage ARC resources

- Supplies – Daily Numbers
    - Replacement Cartridges - 30,700 delivered.
    - Water (cases) - 19,152 cases delivered

- Budget projection completed and will be submitted to SBO for review.

- Notes from Water Response Team Command (MSP)
    - Very good synergy between Flint Post troopers and Genesee County Sheriff command and deputies in effective and efficient deployments for distribution efforts.

- Great attitude and efforts by uniforms and volunteers to make important contributions to the City of Flint on water response team deployments.
- Clear direction and coordination in the field of supply teams by lieutenants and troopers. No confusion. Clearly defined roles.

All personnel continue to be fully committed to fixing this as quickly as possible.

Chris

Update 1/12/16 – 8th Day (7th Full Day) After Governor's Declaration of an Emergency

I apologize in advance for the length of this report. With the supply issues we had the last couple of days I wanted to share our inventory plus what we anticipate to ensure we do not have supply issues.

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Fine-tune logistics
- Increase and deploy door to door teams (4 state teams added to teams from the Sheriff's Department)
- Increase collaboration and messaging of collaboration with local agencies (specifically the Sheriff's Department)

Attached Documents:

- SitRep 7
- Executive Order Activating the National Guard

Key items for tomorrow to note are:

- The Governor signed an Executive Order activating the National Guard. Mission will be to relieve ARC volunteers at the PODs (Fire Stations) which will free up the ARC volunteers for door to door activities.
  - I have briefed the ARC Disaster Officer on this plan.
- The Governor requested, through FEMA Region V, support from the Federal Emergency Management Agency (FEMA) to bring together and identify other federal agencies that may have programs and funding that could be dedicated to assisting Flint as part of an interagency recovery plan. One of the existing LNOs has been identified as the POC for this. He will be a great liaison for the FWIACC.
- The door to door teams will continue at 0830 Wednesday morning and continue through the weekend and ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas.
- We will look at all commodities and see where we are and where we need to be while working with the ARC logistics specialist.

Items to Note

- PSA video sent out to Flint citizens on resources available.

- Water
  - Today's numbers - 7,824 cases of water arrived today, 1/12/16 (109 pallets)
  - Ordered:
    - 19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)
      - 1/3 is going to GCCARD and the rest is going to the new warehouse

        - 12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)

- Filters
    - Today's numbers
        - Ordered on 1/11/16 and delivered 1/12/16 direct to GCCARD
            - 2,000 – Brita filter faucet mounts
        - Filter Replacements
            - 2,400 – Brita filter replacements (single pack)
            - 8,000 – Brita filter replacements (two pack)
    - Ordered on 1/12/16 to arrive Wednesday
        - Faucet Mounts – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
            - 10,000 – PUR Vertical faucet mount
            - 2,500 – PUR Horizontal mount
        - Replacement Filters – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
            - 10,000 – PUR replacement filters (3 pack)
            - 10,000 – PUR replacement filters (single pack)
        - PUR Combination Pack – to be delivered to GCCARD on 1/13/16 (Wednesday)
            - 10,700 – PUR combo packs

- To arrive Thursday
    - Zero Water Pitcher (8 Cup) – Delivering direct to GCCARD on 1/14/16 (Thursday)
        - 1,300 – Zero Water pitchers
    - Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Thursday)
        - 11,000 – PUR vertical faucet mount
        - 1,500 – PUR Horizontal faucet mount
        - 5,000 – Brita faucet mount
        - 10,000 – Brita adv faucet mount white
        - 12,000 – Brita adv faucet mount chrome
    - Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Thursday)
        - 117,600 – PUR replacement filter

- Test Kits
    - 6601 unassembled kits arrived at GCCARD today, 1/12/16.
    - 500 have been assembled and are ready for distribution
    - 1000 additional unassembled kits have been ordered to be delivered at GCCARD (no ETA yet)
    - 10,142 unassembled kits to arrive at GCCARD early next week

- Second warehouse – Located in Flint
    - 100, 000 square feet of secure warehouse obtained.
    - Accepting commodities beginning Wednesday, January 13

- Logistics Support
    - The American Red Cross Logistics Planner arrived from DC today as requested. I outlined what her mission was and how I saw the progression forward. This logistics planner will assist in streamlining the inventory and distribution process now and into the future.

- Door to Door Numbers
    - Today the app implementation for the field went extremely well. There were a few issues that were quickly addressed. One related to how form fields should be filled out. Another was getting styluses for teams so that they don't have to remove their gloves in the cold. All very simple to fixes.

- We are working on version 2.0 so this can be used at the PODs
- We should be able to greatly optimize distribution in the near future as we mapped the active water subscribers from Flint's DPW and are adding them to the field team members apps. Of the ~56,000 possible addresses, this reduces the number of possible homes to visit down to ~29,000.
- Notes from the field commander:
  - "Today we started out the day using two groups that consisted of approximately 10 people in each group. We eventually combine groups with Genesee County Sheriff's group and they brought two more groups with approx. 10 people (Local UAW) in each group. This made us a lot more efficient and we were able to set up a game plan. Tomorrow I feel we will be more efficient and we will have a better plan in place to get the maximum output out of our resources."
- In the end, there were 394 total home visits with the following breakdowns:
  - 217 Door Hangers
  - 152 Vacant Homes
  - 117 Water Distributions
  - 112 Filters
  - 3 Pitchers
  - 48 Water Test Kits

- 211
  - CALL VOLUME:
    - 185 calls for water-related issues had been received as of 4:45 pm.

- Logistics made contact with Comcast and will be supplying them with filters and replacement cartridges for their deliveries in their work trucks as they make services calls. They will follow our procedures for reporting (our checklist).

Chris

Update 1/11/16

The focus today was the media event and getting the supplies and logistics on track. Most of the activity today was working on logistics for the water and other supplies.

Attached Documents:

- SitRep 6

Key items for tomorrow to note are:

- The door to door teams will start at 0830 Tuesday morning. It is reported that troopers are going to the door but DHHS employees are the lead with a troop car nearby.
  - State and local GIS created an App today for the teams to use tomorrow but I see potential use at distribution sites.
  - The App data will be used for our maps as we survey the public/distribute supplies and we will be getting real time metrics through the site from the field send back to the SEOC. We are using Android tablets tomorrow but in the future can use any mobile device for this.

Items to Note

- It was reported that only one POD (Station 5) was out of water longer than 30-45 minutes. This site was ~2 hours without water and part of that was the truck went to the wrong station. Trucks were sent as soon as the local EOC was notified.

- We also did not receive a DHHS shipment that was to come in which caused some filter delivery issues.
- Supplies are limited at this time; however, we are getting our shipments starting at 0630 tomorrow.
- We have Home Depot giving us 12,768 cases (this was a late development so the SitRep indicates half the amount) of water every day starting tomorrow. We are still working with other distributors too.
- ARC is flying in a logistics planner tomorrow. Three additional staff with be with her to shadow and help. We are turning warehouse logistics over to ARC logistics. We are moving tomorrow to a process that has a distribution center (GCCARD) and a warehouse that is 100,000 square that will maintain mass quantities. Staff has continually been placing orders for supplies to ensure we get a head of this. The intent is to keep the warehouse full so we do not have these continual issues of supplies.
- Began mapping lead service lines (anticipate having draft of lead service lines Friday).
- Coordinated with local IT managers overseeing filter tracking system to streamline data collection.

Local Emergency Operations Center

• Working to coordinate resources at the local level to maintain adequate supplies at all PODs.
• Demand has exceeded supplies and supplies are moving rapidly from PODs today. Working to make sure POD managers notify us when they start running low.
• Working to establish a warehouse for local resource storage.
• Established trigger points for resources at PODs and hourly inventory reporting from the PODs.
• Discussed potential long term water sources between local EOC and SEOC
• Established planning cycle/meeting scheduled for 1/12/16.
• Local EOC EMHSD staff with Natasha Henderson to request deployment of City representative at local EOC.

Chris

Update 1/10/16

Attached Documents:

- SitRep 5
- Door card (English version but Spanish version will be ready for Tuesday)

I have a local EOC section listed below but state personnel are heavily engage in management of both locations. We occasionally hit some road bumps with this event but all personnel are working well together to accomplish our goals (especially state agency personnel).

I have had good discussion with FEMA LNOs. Two statements have been developed from our discussions that hopefully helps put this in more context but if it is more confusing I apologize:

1. In the immediate response, the State, in collaboration and coordination with city of Flint and county of Genesee are working to get water, water filters, and testing kits to the affected population. In conjunction, the state will coordinate with federal agencies to ascertain what resources can come to bear to help mitigate the issue.

2. If asked about a federal declaration from FEMA, we need to articulate the definition of major and emergency declaration and state or note to ourselves that it appears to not qualify;

however, there may exist opportunities to leverage federal assistance from some agencies (i.e....EPA) under their own authority to help address this issue.

- We need to really manage expectations on the potential for a federal declaration...not that we will not go after one but it will be difficult to get.
- A major disaster is defined in the Stafford Act as any ***"nature catastrophe (including hurricane, tornado, storm, high water, windriven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause any fire, flood, or explosion.....causes damage of sufficient severity and magnitude, to warrant major disaster assistance.....to supplement the efforts and available resources of States, and local government....."***
- An emergency declaration is ***"is any occasion or instance for which, in determination .....assistance is needed to supplement State and local efforts and capabilities to save lives and protect property and public health and safety or to lessen or avert the threat of a catastrophe....."***
    - This is limited to immediate and short-term assistance (I hate to put times on this but short-term is like 3 weeks), essential to save lives, protect public health and safety and property.
- Severity of the situation is ***"A finding that the situation is of such severity and magnitude that effective response is beyond the capability the state and affected local governments, and that the state requires supplementary federal emergency assistance to save and to protect property....***
- Nature of assistance for Emergency Declaration is for ***"Debris removal, emergency protective measures, direct federal assistance...."***
    - Debris Removal = ***self-explanatory and we do not have this***
    - Emergency Protective measures = ***water, commodities, transportation (remember ... to supplement what the locals and state are already doing if we need more)***
    - Direct federal assistance= ***what specific type of work is requested, and what are the reasons why the state/local government cannot perform or contract for performance. Essentially what is the need that state/local govt cannot provide. I can see this being something we need but we may be able to get this outside a federal declaration under the federal agencies own authority to help address this issue.***

Back to the update...

Key items for tomorrow to note are:

- Training is occurring for the door to door teams scheduled for Tuesday morning.
- Deploying an additional MSP District Coordinator to the local EOC for command and control support.
- Deploying two DTMB trucks and two drivers for sustained logistical support for the week.
- Media event with the Governor in Flint.
- New Incident Action Plan starts (1/11 0800 -1/13 0800 operational period). Our objectives are as follows:
    1. Ensure all households within impacted community have required resources.
    2. Ensure accurate tracking and accounting of all commodities.
    3. Improve and maintain public information strategy.
    4. Develop a long term public health and services plan.
    5. Ensure adequate staffing to support operational requirements.
    6. Identify possible assistance programs.
    7. Develop an approved GIS strategy.
    8. Maintain coordination between partner agencies and organizations.

9. Enhance situational awareness and common operating picture of all activities.
10. Develop a comprehensive Recovery Plan.

Items to Note

- All 9 churches had filter systems/replacement filters, information sheets, and water test kits delivered as requested by each pastor/reverend on Sunday. We did not think we could get them water due to the limited time but we did end up getting water to all 9 churches with the other items.
- Fire station resource locations stayed open from 9a to 9p and will continue with those hours until further notice (Staffing is in place until Saturday). ARC is staffing these locations.
- The media event was held at Fire Station No. 1 and report back is that it went well and the spirit of collaboration between local, state, non-governmental partners is strong was relayed.
- The four door to door teams will have the hours of 8:30 a.m. to 5 p.m.
    - Each will have logistics support from DTMB, security from MSP, and contact personnel from DHHS.
    - The door card is attached that will be left if no one is home.
- Worked to identify a storage location within the City of Flint for water and supplies. G-CARD is identified as temporary location but we are moving toward a state run warehouse operation (looking at private sector partners to assist, especially with the warehouse management side).
    - GCCard is large enough, centrally located and comes staffed. GCCard has 75,000 sq ft with warehouse managers to assist with tracking resources coming in and out.
- GIS will provide us daily updates of how much was distributed each day but note we have a delay in data entry from delivery to entry in the GIS system. Over the weekend there was a problem locally with staffing to get this completed. A solution is in place and will be implemented so we get timely data. Distributed to date (as of 1/8/16).
    - 12,386 filters
    - 1,985 replacement filters
    - 354 Pitchers
    - 2500 Lead Testing Kits
- Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to ensure distribution sites maintain an appropriate level of inventory. I have requested trigger points get put in place so we do not get below certain levels in the main warehouse location.
    - Contacts with some large water distributors have been made and their and our logistics chiefs will connect first thing this week.
    - We have ordered an additional (expedited delivery with ETAs tomorrow)
        - 40,000 Brita Filters
        - 40,000 Brita Replacement Filters
        - 1000 Zero 8-Cup Pitchers
        - 1000 Zero 8-Cup Pitchers
        - 2000 PUR Replacement Filters
        - 93 Pallets of water (about 6700 cases)
- GIS continues to produce multiple maps for use.
- JIC Items
    - Requested PSA on the radio. Media has been approved and working with MAB.
    - Requested JIC to contact Comcast and Dish Network for availability for continuous running of filter install/replacement and test kit video.
    - A news release will likely going out tomorrow regarding canvassing in neighborhoods. Continued social media messaging.
        - Tuesday – embed state PIO with one of the canvassing teams to liaison with media.
        - JIC moving tomorrow to Flint.

Local Emergency Operations Center

I am providing you some information on some issues we ran into at the PODs. This has been addressed with additional state resources and processes put in place so we do not run out of resources. Public concerns/complaints have not been brought to my attention at this time. Staff is working very hard to ensure we do not run out of supplies at the PODs and they understand the consequences. No one in the Local EOC or State EOC is happy the follwoing occurred and I felt you should know in case it is brought up. Again, I believe we have fixed this and I take full responsibility for any supplies not being on site.

Fire Station Inventory Levels:

Station 1:

- Only time without supplies - 15 minutes without water while the truck was unloaded.

Station 3:

- Ran out of replacement filters around 7:00, replacement filters delivered around 7:30. Had to pick up replacement filters from Home Depot and deliver.

Station 5:

- Ran out of water around 5:00, water was delivered around 6:30. We needed to find additional trucks because DTMB drivers were over hours. The ARC stepped up and found a truck to go and pick up a pallet of water and deliver.
- Somewhere between 4:00-6:00 they ran out of lead test kits. No way to restock these because City facilities were closed and could not reach anyone.

Station 6:

- Around 5:00 ran out of water, filters, and replacement kits. Replacement kits were delivered around 7:30. Additional water and filters were delivered after 9:00 due to the DTMB drivers heading back to Lansing. Food Bank was called and had to get drivers in to operate trucks, pick up water from the School District, load and deliver to all sites. Delays occurred with weather conditions and needing to use last minute sheriff EOC staff to load due to issues with City workers. City workers were scheduled to help and left around 7:00 without helping.
- 2 pallets of water were dropped off in the afternoon and within 1 hour were gone. This was much faster than we expected. On 1/9 they didn't go through 2 pallets of water at any station for the hours 9:00-4:00.
- We received news that a reverse 9-1-1 call notified residents of water which caused an unanticipated amount of people obtaining water. There was also a report of 1 person walking out with 2 cases of water and trying to sell in the parking lot.

Station 8:

- Around 7:00 ran out of filters and lead tests. Filters were delivered around 8:00 from the food bank trucks.
- Hourly reports were requested in the morning from volunteers but this information was not received as to the status throughout the day. Early inventory of supplies took between 1 hour-1.5 hours to receive in the EOC. We were not advised of low counts, just zero numbers.
- Reports received that the last couple of hours were slow.
- Residents were advised of the other sites and the opportunity to obtain supplies.

Restocking Plan

- United Way set up meeting with Food Bank to discuss.
- Had EOC meeting on this topic to discuss options.

Churches:

- All 9 churches received waters, filters, and informational bulletins.
- Lt Roach received positive feedback from 3 of the pastors.
- No complaints were received.

Signage:

- Provided information to SEOC on signage requirements at the fire stations.

Storage:

- Researched storage spaces; established temporary site at GCCARD.

Personnel:

- Lack of local EOC leadership (seems somewhat checked out) with IC and Deputy IC (doing an okay job).
- Captain TaFoya (Genesee County) helped tremendously today with all the plans outlined above and attended the press conference.
- Tina Martinez at the Food Bank and Matt Purcell at GCCARD were extremely helpful in getting last minute operations set up.

Chris

Update 1/9/16

SitRep 4 attached for more in depth information. The below only contains some items worked on today and while the format in the attached SitRep is not perfect (it is created automatically by MICIMS) it does contain a lot more information you may want to read. I also attached one of our maps. It is our filter distribution map. All filters handed out by anyone working with us feeds into this now. We are continuing to refine these and at this time there is a delay in the upload of address data but we are working on it. We have a ways to go to get filters in every home but this will help direct us to those who need still them. We also are working on identifying abandoned homes.

Key items for tomorrow to note are:

- 9 churches will have ARC volunteers and filters for distribution. Some may also get water.
- 5 fire stations are a distribution point for water, filter systems/replacement filters, and water test kits. While only open today until 4 p.m., tomorrow and until further notice they are open from 9a to 9p.
- Media event will take place on the above tomorrow.

Items to Note

- 211 has some issues with call load but it is being worked on. 2-1-1 Director contacted MDHHS PIO to discuss/resolve caller wait times and messaging. We anticipate an increase in activity tomorrow in 211 calls so we requested and received an increase to staff 211.
- We are shifting tasks the SEOC took on that are handled more effectively and efficiently at the local EOC. We have established command and control in their EOC. We are running things there but that is not being made public. We are doing this in partnership but we are clearly handling the operation with state personnel oversight.
- A 3rd FEMA LNO arrived today upon my request. This has nothing to do with a Presidential request for a declaration but support for some other items I want worked on for long term recovery.
- We continue morning calls with the local EOC leadership and local emergency manager on what our goals for the day are as well as any issues/concerns.
- Five 5 fire stations have received water, water filters, replacement cartridges, and water testing kits with American Red Cross personnel at each location to assist with delivery of resources and collection of addresses receiving them. These locations will be open from 9a – 9p daily until determined they are no longer needed. Those picking up water testing kits will be advised that they can return the test kits to the fire departments (where they will be picked up and taken to the Flint City Hall), the Flint Water Treatment Plant, or they can take them directly to the Flint City Hall. For those unable to return the kits, 211 can make arrangements for pick up the kits. We understand response to these sites has been positive thus far. The Genesee County EOC will be monitoring these supplies and request replacement of products as needed.

    - A call is going out tomorrow morning to advise this information ... I do not believe it was every resident but Tori Sachs has that info if needed.
- I approved a press release today to advise the public that all levels are working together to ensure delivery of filters, test kits and water; noting that all of these items were delivered to the 5 Flint fire department stations. It was stressed that the public should be aware that the local and state agencies have been working cooperatively to assist the residents - and will continue to do so. This was done to hopefully end or at least minimize the "who can get water and filters out first" when all of this has been connected with the state and coordinated since the state declaration was put in place.
- The arrangement of 2,000 filters, to be taken to 9 local churches on Sunday, January 10, is ongoing. The filters have been secured; they are now in the possession of the DTMB. DTMB will return to Flint on Sunday morning to deliver these to necessary locations. The American Red Cross will be on site at each church to assist with distribution and recording addresses (for GIS). The local EOC is working to ensure these arrangements are complete and run smoothly. Future engagement with the faith based community will occur to assist with additional distribution.
- A Flint City liaison has not been in the EOC but starting Monday this will be in place to keep the Flint Mayor appraised of activities being conducted in the city. She also has been advised she can call me at any time if she needs anything.
- Training has been confirmed for the door-to-door operation scheduled to start Tuesday. Four teams are initially scheduled with more to potentially be put in place. These are the teams that will be handing out water, filter systems/replacement filters, test kits and information. If nobody is home, a door hanger with information is being left. DHHS personnel and one MSP trooper will be on these teams.
    - Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.
        - Training is so those going door to door can explain what the filters do, how to install them, if they need install help to call 211 who has a list of people who can install the filters, and answer any other questions versus just handing them the filter.
    - Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m. AT THIS TIME. I am reevaluating these times to increase contact with someone versus just leaving information.
    - Logistics are being finalized for the teams and trucks to handle stocking and re-stocking of materials during daily operations.
    - GIS maps will provide guidance on deployment locations for these teams and other teams in the field.
- A pilot project at Freeman Elementary with LARA and DEQ has been initiated to see if replacing certain plumbing components in faucets at the school will drop the lead level.

MSP/EMHSD GIS Section Updates

Accomplished Today (January 9):

- Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.
- Produced Filter Distribution Map.
- Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
- Worked on map of franchise customers outside of Flint City.
- Produced maps for MDARD on food establishments and Local Health Departments.
- Produced map of Church Filter Distribution map for DTMB.

Local Emergency Operations Center

- The state has deployed 10 personnel to the Genesee County EOC to ensure we have command and control at the local level. On 1/8/15 The state personnel took over the incident management functions of the Genesee County EOC (not public). The arrival of additional staff allowed the local Emergency Management Coordinator to delegate tasks which relieved a tremendous amount of stress.
- Additional Sherriff staff I will be shadowing the state incident management team to allow for transition to the county personnel later in the incident when we are comfortable with them handling things. Not sure when that will be but we have secured a direct bill hotel for staff to stay in Flint as long as needed.
- With the additional staff, the Local EOC will be able to take over functions previously handled by the SEOC including:
    - Logistical activities to support church operations.
    - Logistical activities to support fire stations operations.
    - Coordinate Donations Management activities and draft donations management plan
    - Coordinate Volunteer Management activities
    - Identify local storage/staging facilities
    - Overall inventory tracking
    - Tracking of Points of Distribution (PODs)

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/8/16

SitRep 3 attached.

There is a significant difference in what is being presented by the media and what the local EOC is relaying to us at the SEOC. It is also being driven by the media that this is a state versus local response (who is providing more and quicker versus a coordinated effort between all). That said, I advised SEOC personnel that perception is reality in some eyes and we are to move forward to address items that typically are addressed at the local level. I have ordered the SEOC open all weekend due to make the quick wins that we need and continue to get the coordination and collaboration in place that is needed (but make gains on our own as needed).

Items to Note

- Two FEMA LNO's arrived today and are in the SEOC. A third LNO was requested from FEMA due to some unique issues with this event to include having to deploy more or my staff to the local EOC to get more structure and/or find out why there is an issue with the message the media is showing versus what we are hearing from the local EOC.

- We finally received from the local EOC 8 locations (we were told originally early in the week they had 80-90) that are their Points of Distribution (PODs) for water in conjunction with the local food bank. The PODs are not getting water from the food bank even though the food bank has water. We are going to resolve this issue as we can help deliver the water to the PODs but we were not aware of this. 8 PODs is not enough locations if water needs to be distributed to citizens. Speaking with the ARC Regional Administrator later today, I believe ARC got water to those locations but I need to confirm that in the morning. The food bank reported they had 376 cases of water.

- We have learned that a low number of residents are testing their water when DEQ can test 400 kits per day. This is an added focus that we believe can be increased through dissemination of test kits with the filters and any water.

- I found out the Mayor was okay with using fire stations as distribution points for water, filters, and water test kits. While this did not come to me through the local EOC, I advised we needed to get water, filters, and test kits to these locations for tomorrow. The distribution at 5 Flint Fire Department stations has been coordinated to be in place by 10:00 am tomorrow morning.

    - DTMB has provided a truck and driver to pick up water test kits from DEQ lab in Lansing, water from the Food Bank and water filters and replacement cartridges from GCARD in Genesee County.
    - 10 American Red Cross (ARC) volunteers will meet the DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.
    - Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.

- STILL FINALIZING - We have made available 2,000 Filters for distribution on Sunday as parishioners leave mass/services. This will be 200 filters for 10 churches in Flint. While this is a small number of churches, we do not want to waste an opportunity to hand out filters and this seems like a quick way to so. The filters will be put on the DTMB truck on Saturday for delivery to TBD locations for distribution. Logistics remain undetermined as I am still waiting on a list of the churches, pastors/reverends/hours or services/etc. The DTMB truck will be returning to Lansing approximately 11:00 a.m. so we need to finalize this quickly on Saturday. We may utilize ARC to assist with this.

- The Recovery branch is working with the JIC to develop a door hanger card. DTMB is working on the printing portion of the hanger card. Recovery will also be finalizing logistics over the weekend for neighborhood canvasing to occur early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.

- It appears that 211 has become overloaded. DHHS is researching ways to increase capacity for calls.

- A Volunteer Management Coordinator is in the Genesee County EOC as of today.

- A Donations Management Coordinator has been requested and she will be in the Genesee County EOC Saturday.

- DHHS had a conference call with GM today; they indicated they can provide cash, and supplies, but primarily manpower. No commitments were made at this point. We inquired as to availability of warehouse space and trucks. It was left as GM being a major resource pool that we can tap into as we determine missions. Further conversations will occur, but primarily GM just wanted us to know they are there if needed.

- An additional EMHSD staff member was sent to the Genesee County EOC to act as Operations Section Chief and obtain awareness of the situation there.

- GIS staff met with various parts of Genesee County/Flint personnel to try to get a handle on data available.

- GIS continues to work with local GIS personnel with three GIS staff going to Flint today to work with them. GIS staff is working with U of M on how best to proceed with digitizing water lines for long term recovery.

Chris

UPDATE 1/7/16

A summary of some of today's SEOC activities is provided below. Attached is the following:

- Today's SitRep which contains more information than below.
- The resource request/task assignment sheet for your situational awareness. This is how locals request resources as well as how we track resources and any assignments and/or tasks that are to be completed.
- JIC Task Tracking – for your situational awareness on how we are tracking requests and assignments. Once someone is assigned a task or resource request it allows them to document what work has been or will be done as shown at the bottom of the document.

Items to note:

- I received a document this evening from Genesee County which appears to be damage assessment information. Analysis of this will occur tomorrow. It appears to be infrastructure and costs to fix it and no other impacts.
- I spoke with Jamie Curtis, Genesee County Commissioner, this evening. A very good relationship is in place with him, especially with our District Coordinator (DC). I also have our DC working on developing stronger relationships with the Mayor/Mayor's office.
- GIS staff continue to obtain data and work with County and City personnel to get a picture of where resources have been provided, need to be provided, as well as infrastructure locations (pipes) that could be affected.
- Personnel and agencies have been tasked with developing a plan to get people in the community to deliver information, hand out filters, etc. This would target those areas we are showing minimal or no filter distribution based on the data we are collecting. The plan is to get them in the field by Tuesday and the plan will be provided to me tomorrow.
- Filters can be obtained at the following locations:
  - Michigan Department of Health and Human Services office, 125 E. Union St., Flint, MI 48502
  - Michigan Department of Health and Human Services office, 4809 Clio Road, Flint, MI 48504
  - Genesee County Community Action Resource Department office, 2727 Lippincott, Flint, MI 48507
  - Genesee County Community Action Resource Department office, 601 N. Saginaw, Flint, MI 48502
- Conducted briefing with local EOC and county executive.
- Conducted briefing with state agencies (daily updates).
- Began work to schedule legislative/congressional conference calls. Tentatively scheduled for 2 p.m. Friday.
- JIC continued to develop messaging.

- Provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
- Deployed two EMHSD/SEOC liaisons to assist the local EOC.
- Published the Incident Action Plan and continued assignment of objectives/tasks.
- FEMA Liaison Officers just arrived in Lansing to assist command and general staff.
- I spoke with Harvey a few times and he should have talking points later tonight or tomorrow a.m. for his use and also for others who may speak to media outside of state government who may benefit from our messaging.
- We held a media round table at 1 P.M. at the SEOC. Dr. Wells and I spoke and answered questions to numerous media outlets.
- Local agencies and NGOs continue to provide water and filters to citizens.
- The website, www.michigan.gov/flintwater, was update with information and links to assistance to include 211. Additional recommendations were provided to include information on the testing water in homes.

EMHSD GIS:

Accomplished Today:

- Reproduced Socio-Economic Status Map
- Reproduced Predicted Affected Populations Map
- Cleansed old data and reports for water filter distributions
- Created draft map of water filter distributions (Refinement needed before releasing final product)
- Scheduled on-site visit with Flint GIS Department and Genesee County GIS Department
- Formatted databases to host content
- Researched service line database creation and scheduled meeting with U of M Flint to discuss timelines and resource needs
- Generated water infrastructure map (does not include building service lines)

Tasks for Tomorrow:

- Meet with Flint City GIS
- Meet with Genesee County GIS
- Meet with U of M Flint GIS
- Finalize water filter distributions map
- Finalize plan for data distribution methods

Chris

UPDATE 1/6/16

A summary of today's SEOC activities is provided below. I tried to distill this as best I could but there has been a lot of activity and discussion to get an accurate assessment of the situation. Attached is the final draft of objectives and tactics for the operational period and agency situation report (SitRep) which has more SEOC agency information. I have implemented weekly operational periods.

Advise if you want anyone else copied or off this distribution.

Daily Update

- Set goals for SEOC and identified response/recovery emphasis

- Requested FEMA liaison officers (LNO) from FEMA Region V. Two LNOs will be on site by ~3 p.m. 1/7/16. Both are known contacts to me and some staff and one has worked extensively with me during the SE MI flooding in a command and control position. These personnel have been specifically tasked with this mission. **THEY ARE NOT HERE TO ASSIST WITH A PRESIDENTIAL DECLARATION REQUEST BUT TO ASSIST ME.**
- PIOs from multiple agencies were here and established the Joint Information Center (JIC). News released pushed out on this I am very happy with the PIO work and movement toward coordinated messaging.
- Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts to ensure situational awareness and to develop a common operating picture.
    - I opened the briefing by identifying our initial goals, items to think about while subject matter experts were briefing us, and how we are to move forward, find quick wins, and regain trust.
    - **MDHHS – Elevated Blood Lead Levels**
        - Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what has occurred in terms of health monitoring throughout the Flint crisis.
    - **MDEQ – Water Testing Protocols**
        - Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.
- Developed Incident objectives, strategy and tactics (see attached)
- Identified SEOC and state agency staff positions
- Assigned work tasks for SEOC operation period from 0800 January 6, 2016 to 1700 January 8, 2016
- Reviewed planned actions, prepared final draft Incident Action Plan
- **Made contact with the Genesee County Emergency Manager first thing in the morning and held a conference call mid-day to discuss roles. Daily 0830 command conference calls with local EOC command staff starts tomorrow. Tomorrows call will include the County Commissioner and the City Administrator (both invited). Topics include the incident action plan objectives and establishing better local coordination, command and control to facilitate integration with the SEOC. The local EOC is not functioning as it needs to with personnel and local coordination and we are working on that issue.**
- I will be in Flint tomorrow for a 2 p.m. media round table with local officials that was set up by the JIC.
- The attached initial objectives will be updated at least every operational period and as needed. I listed the objectives below but the tactics to accomplish them is in the attached if you want further information.
    1. Activate the State Recovery Task Force (SRTF).
    2. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.
    3. Obtain and maintain situational awareness and common operating picture of all activities.
    4. Establish SEOC operational period and hours of operations.
    5. Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.
    6. Develop a comprehensive GIS strategy.
    7. Coordinate response and recovery activities with MIVOAD and identify potential mission areas.
    8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.
    9. Provide technical assistance to the local Damage Assessment process.
    10. Establish a Joint Information Center (JIC) and develop a public information strategy.

11. Monitor MI CIMS for resource requests and address as appropriate.
12. Establish and disseminate cost center information for the incident.

- Additional tasks include:
  - Determine what federal agencies are already involved and their status
  - Identify potential water supplies
  - Determine where affected homes are located, where filters/pitchers (and replacements) were installed/provided, and determine who needs filters, etc.
  - Determine how filter distribution is handled, and if it can be handled more efficiently and effectively
  - Determine what mechanisms are in place for nutrition supplementation

EMHSD GIS Accomplishments:

- Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC
- Established a daily call with county and city GIS personnel to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
- Began consolidating local data from local GIS practitioners into a consolidated database, to include:
  - Water Pipeline Locations
  - Filter Distribution Locations
  - November 25, 2015 Water Monitoring Results (Partial, some data remains to be digitized)
  - Affected School Locations
  - Predictive analysis of blood lead levels for affected area
  - Updated Parcels
  - Demographics
  - Block Groups
- Produced a map for the filter distribution locations
- Began contacting specialists who developed historic maps depicting the Flint Water Crisis to obtain the data

To: Etue, Kriste (MSP); Gorski, Gary (MSP); Smith, Paul (GOV)
Cc: Baird, Richard (GOV); Hollins, Harvey (GOV)
Subject: Update - Genesee County Declaration

Below are some key points for your situational awareness (FYSA) that have taken place or will take place within the next 15 hours.

- I was on the phone with Sean Kammer, Assistant to the Flint City Administrator, when the declaration hit the news so I advised him immediately. He was going to let the City Administrator know.
- I contacted MSP Lt. Roach, 3rd District Coordinator, who was at the Genesee County EOC and advised her to let the County EM know the declaration status.
- State Emergency Management Coordinators (SEMCs) were notified via our notification system with additional information in an email.
    - This included information on the SEOC activation and a 0900 briefing for SEMCs.
    - Some subject matter experts will provide us an update to establish a common operating picture.
- We have been in contact with FEMA Region V watch desk ... they will be on the call tomorrow and continue to monitor the situation.
- I have been in contact with the FEMA Region V Administrator to keep him updated.
- Operational period for the SEOC will be M-F, 0800 to 1700 at this time.
- Situation Reports (SitReps) will be provided in the evenings.
- An Incident Action Plan will be developed tomorrow.

Call me with any concerns or questions.

Chris

Subject: RE: Letter from FEMA to Governor Snyder (MI)

There are two separate parts of the Stafford act we applied – Emergency Declaration and Major Disaster Declaration.

The Major Disaster Declaration was denied, we appealed, we lost, and that is done. Nothing else we can do.

Under the Emergency Declaration we only received the commodities portions (direct federal assistance). We were not given the Category B or IHP programs (like we asked) but we were not denied them either. We just officially were denied those two areas so we have 30 days to appeal for the Category B and IHP under the Emergency Declaration.

Make sense?

Chris

Subject: FW: Letter from FEMA to Governor Snyder (MI)

Capt. Kelenske and Meegan and Paul,

Bill McBride is worried that we've already been turned down for this appeal, and included the above letter. I've attached the letter he's referencing and our planned statement below. Please advise:

Gov. Rick Snyder: Michigan to seek additional federal aid to help Flint residents despite rejected appeal

State will seek resources through two programs under emergency declaration

LANSING, Mich. – Gov. Rick Snyder today issued the following statement after President Obama denied his appeal for a federal disaster declaration to aid Flint. Snyder said that he will request that Obama reconsider awarding funds under two programs allowed under the emergency declaration: The Individuals and Households Program, which provides such things as housing assistance and replacement of personal property; and money for emergency protective measures.

"I want to continue working to obtain additional federal resources for the people of Flint. These programs could help immensely as we work together on continued solutions to programs created by a failure of government at the state, local and federal levels. Just as our state Legislature is working to quickly approve funding for increased clean water resources and improved public health care in Flint, we are hoping for continued support from the federal government and Michigan's Congressional delegation."

The state of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County, and local community organizations. For information about clean water resources available in Flint—such as bottled water, water filters, home testing kits, and replacement cartridges, please visit www.mi.gov/FlintWater. For information about donating or volunteering in Flint, please visit www.HelpForFlint.com.

Subject: RE: Letter from FEMA to Governor Snyder (MI)

There are two separate parts of the Stafford act we applied – Emergency Declaration and Major Disaster Declaration.

The Major Disaster Declaration was denied, we appealed, we lost, and that is done. Nothing else we can do.

Under the Emergency Declaration we only received the commodities portions (direct federal assistance). We were not given the Category B or IHP programs (like we asked) but we were not denied them either. We just officially were denied those two areas so we have 30 days to appeal for the Category B and IHP under the Emergency Declaration.

Make sense?

Chris

Subject: FW: Letter from FEMA to Governor Snyder (MI)

Capt. Kelenske and Meegan and Paul,

Bill McBride is worried that we've already been turned down for this appeal, and included the above letter. I've attached the letter he's referencing and our planned statement below. Please advise:

Gov. Rick Snyder: Michigan to seek additional federal aid to help Flint residents despite rejected appeal

State will seek resources through two programs under emergency declaration

LANSING, Mich. – Gov. Rick Snyder today issued the following statement after President Obama denied his appeal for a federal disaster declaration to aid Flint. Snyder said that he will request that Obama reconsider awarding funds under two programs allowed under the emergency declaration: The Individuals and Households Program, which provides such things as housing assistance and replacement of personal property; and money for emergency protective measures.

"I want to continue working to obtain additional federal resources for the people of Flint. These programs could help immensely as we work together on continued solutions to programs created by a failure of government at the state, local and federal levels. Just as our state Legislature is working to quickly approve funding for increased clean water resources and improved public health care in Flint, we are hoping for continued support from the federal government and Michigan's Congressional delegation."

The state of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County, and local community organizations. For information about clean water resources available in Flint—such as bottled water, water filters, home testing kits, and replacement cartridges, please visit www.mi.gov/FlintWater. For information about donating or volunteering in Flint, please visit www.HelpForFlint.com.

Subject: Water costs

Rep. Pscholka, chairman of the House Appropriations committee, advised that he was getting questions from members of the committee about what the state is paying for the water that is being purchased. The Representative thinks it might be helpful to have some documentation showing actual costs, and what is being done to insure the state isn't being over charged.

Anything you can provide would be appreciated,

Subject: Re: SEOC Update 1/20/16 - Flint Water - Limited Distribution

Captain Kelenske,

I spent the afternoon at Fire Station #6 today, running water cases to cars of disabled and elderly citizens. The logistical operations of filters and water looked smooth and even though traffic was heavy, the supplies were well maintained.

I was a bit concerned with the vehicle traffic congestion in front of the station and wondered if there would be value to connecting with MDOT to establish a better traffic plan. It is a fairly busy street and people were dodging traffic carrying water across the street where they found alternative parking. It's pretty slippery and the pavement conditions are not ideal. Additionally, cars were often stopped in lanes designated for through traffic and blocked the fire truck path at times. It is a challenging location, but clearly it is well used by the citizens. Not sure if improvements are possible but MDOT has good traffic pattern experts.

Several citizens asked for test kits, which that station did not have. I'm not sure if they were out or if that function is not typically handled at the location, but personnel didn't have clear directions on where to send people asking for test bottles except to call 211.

I offer this feedback in the interest of continuous improvement. Overall, I was quite impressed with the ability of this location to handle an extraordinary amount of people. Very good work.

Brian

- Emergency declaration received.

Key items for tomorrow to note are:

- Five copies of the State/FEMA agreement will need to be signed by the Governor. Capt. Kelenske has them and will coordinate delivery.
- The logistics plan will be fully executed tomorrow with all teams.
  - We will have National Guard (MSP supported), type 3 teams (, with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- Dr. Luri from HHS will be at the SEOC ~10:00 p.m.
- A second phase is starting tomorrow which will include more refined questions as to type of filter systems each person has. This will assist with sustainment operations.
- DOC prison work crew personnel (6-7) will be at the warehouse to keep the area clean. A lot of trash is generated in the warehouse and was becoming an issue.

Items to Note

- Deployed state/local (NG, MSP, Local) teams and 10 ARC Flint Water Response Teams to the field today.
- MSP and local Sheriff's Department continue to provide over watch for WRTs.
- Aqua Hydrate contacted me to donate 5000 cases a month (4 semis) for a year. I was advised by Lindon Nelson this was a Governor/Mayor/Senator Ananich and Meekhof initiative and a press release was going to go out soon (TBD). Logistics is following up with them.
- News release sent from Governor's office about the appeal to the President of the disaster declaration.
- SEOC Logistics worked with JIC and Governor's office to establish a business resource submission tab on www.helpforflint.com
- SEOC Operations continued to develop and finalize Phase 2 canvassing roll out.
- Meeting held with Dr. Luri from HHS.
- Capt. Kelenske and other state agency financial personnel attended the appropriations hearing.
- End of day – concerns with the mass amounts of volunteers showing up and wanting to help. This can cause logistical issues but staff was working to get additional tasks for volunteers outside of the WRTs. We will continue to work on ways to involve more volunteers.
- Additional person NG team for warehouse support approved.
- Information reported to the JIC:

  - As of 1/20/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

    1. 29,317 homes visited by the FWRTs to date.

    2. Distributed: Includes outstanding hard copy data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots).
       a. Number of cases of water 90,337
       b. Filters 73,229
       c. Filter cartridges 185,852
       d. Test kits 19,866

    3. Total number of customers on the Flint water system
       a. 29,944 paying customers
       b. 45,000 hookups (This is our high end target #)
       c. 39,000 includes apartment complexes (The is the low end target #)

    4. Resources purchased:

a. Cases of water 111,630 (additional 18,502 donated)
b. Filters 115,700
c. Filter cartridges 243,200
d. Test kits 61,161

5. Teams going out tomorrow:
   a. National Guard type 3 teams---Goal tomorrow 300 homes per team
   b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Addressed reports of water contamination in distributed bottled and canned water. Confirmed that water is safe to drink through testing by MDEQ. Coordinating with JIC and MDEQ for improved public information on the issue.
- Identifying options to reroute unsolicited offers for supplies and services outside of the EOC. Coordinating to set up 800 number.
- Attended meeting with Flint & Genesee Chamber of Commerce to discuss coordination of efforts, representation at EOC, and improved messaging.
- Attended meeting with Community Foundation of Greater Flint to discuss coordination of neighborhood groups and improved messaging.
- Coordinated with MDARD to provide additional lead testing at restaurants, and signage for safe locations.
- Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
- Coordinated and verified deliveries of supplies to apartment complexes.
- Discussed logistics requirements of delivery requests for homebound residents with SEOC Logistics.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/19/16 – 15th Day (14th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Prepare plans for next phase of operation – Second sweep of city

Attached Documents:

- SitRep 14

Status on Governor's request letter to the President:

- Emergency declaration received.
- Appeal letter pending.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have National Guard, type 3 teams l), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed state/local teams and 11 ARC Flint Water Response Teams to the field today.
- Messaging being developed for concerns regarding the Total Dissolved Solids (TDS) meters and citizens' concerns with those meters indicating "lead" in bottled water. Testing of water to be done by DEQ to ensure we have solid messaging.
- DTMB is working to secure space in Flint for FEMA staff.
- Press release went out this afternoon to announce that the US Department of Health and Human Services will lead the federal response in Flint. Capt. Kelenske to meet with Dr. Nicole Lurie, HHS Assistant Secretary for Preparedness and Response (ASPR), on Thursday. The goal of the federal response will be to help state and local leaders identify the size and scope of the problem, and work with them to make and execute a plan for mitigation of the short- and long-term health effects of lead exposure.
- Additional NG personnel being requested to assist with Warehouse inventories.
- NG personnel on the ground with the WRTs tomorrow with) more transitioning in.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- LG is going to be in Flint working at one of the PODs on Wednesday.
- Information reported to the JIC:

    - As of 1/19/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 22,129 homes visited by the FWRTs to date.

2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.
    a. Number of cases of water 77,794
    b. Filters 69,730
    c. Filter cartridges 184,457
    d. Test kits 16,671

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 95,760 (additional 16,056 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. National Guard t ype 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Attended public health group meeting with GCHD, City of Flint Water Department and MDEQ to discuss water test information being returned to residents, to allow residents a greater understanding of results.
- Attended recycling/trash management group meeting with DEQ, Republic Services, Keep Genesee County Beautiful and Genesee County Planning Commission. Provided projections on current and anticipated bottle distributions.
- Coordinated deliveries of supplies to faith-based organizations, apartment complexes and homebound residents.
- Coordinated with Comcast to set up locations for distribution of filters (distributed 60 filters on 01/19/2016).

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/18/16 – 14th Day (13th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) and PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.
- Complete appeal for Presidential Major Disaster Declaration denial.

Attached Documents:

- SitRep 13
- Side by side comparison of homes with filters January 13th compared to January 18th. This should be hitting the media tonight. This took longer to create than I wanted but is the image I have wanted to show progress of getting filters in to the field.

Status on Governor's request letter to the President:

- Appeal in process.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have , state/local agency, type 3 teams with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
  - NG will be bringing in personnel to prep for surge.

Items to Note

- Beginning tomorrow the operational periods will be 7 days long.
- The CDC/ATSDR (Agency for Toxic Substances Disease Registry) has deployed a team to Michigan.
- An Arabic version of the palm card was reviewed and approved. This was developed via Arab American and Chaldean Council.

- Deployed 12 state/local teams and 10 ARC Flint Water Response Teams to the field today.
- DTMB is working to secure space in Flint for FEMA staff.
- Cost analysis to investigate if it would be more cost effective for FEMA to purchase water vs the SOM.
- ARC news release concerning the Volunteer Reception Center (VRC) sent out today.
- Media availability conducted today at 3pm at the VRC.
- Since 1/14/16 Michigan 2-1-1 has received three direct reports of bottled water testing positive for lead. DHHS SEOC Desk and DEQ SEOC Desk was able to contact two of the callers. The Zero Water filter (pitcher) has a handheld test device so people know when to change the filter. This TDS Meter measures dissolved solids (it is not a lead test). This was explained and we are going to work on messaging to ensure this does not cause issues. Dissolved solids are in all water. The water from the callers is going to be tested and a case of water from one of the companies will also be sent to DEQ for testing. Brands are Spartan Spring Water and Canned Water for Kids. The filter company is also going to work on messaging and work with us on this matter.
- Information reported to the JIC:

    - As of 1/17/16 as of 5 pm (start date was Tuesday, 1/12/16)

1. 21,393 homes visited by the FWRTs to date.

    2. Distributed:
        a. Number of cases of water 37,313
        b. Filters 53,713
        c. Filter cartridges 169,520
        d. Test kits 7,379

    3. Total number of customers on the Flint water system
        a. 29,944 paying customers
        b. 45,000 hookups (This is our high end target #)
        c. 39,000 includes apartment complexes (The is the low end target #)

    4. Resources purchased:
        a. Cases of water 82,992 (additional 16,056 donated)
        b. Filters 115,700
        c. Filter cartridges 243,200
        d. Test kits 61,161

    5. Teams going out tomorrow:
        a. State) type 3 teams---Goal tomorrow 300 homes per team
        b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC
Operations:

- Continuing to work with faith based organization to distribute resources.
- Working with colleges to obtain volunteers for canvassing.

Chris

Update 1/17/16 – 13th Day (12th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- *Continue to implement the logistics plan and adjust as needed*
- Continue door to door/Flint Water Response Teams (FWRTs), PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.

Attached Documents:

- SitRep 12

Status on Governor's request letter to the President:

- Emergency declaration received.
    - Limited to direct assistance so we will need to ask for the Individual Housing Program but that is something I will work on with FEMA.
- *Major disaster declaration denied. The appeal is being developed with a draft to Paul Smith by* later afternoon 1/18/16.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have state agency, type 3 teams), with a goal of 300 homes per team.
    - We will have 12 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed state/local teams and 10 ARC Flint Water Response Teams to the field today.
    - 4,963 homes visited today.

yesterday.

01/16/16

01/17/16

- Information reported to the JIC:

    - o As of 1/17/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 16,353 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received from prior to the SEOC activation (trying to validate the data) plus the PODs and door to door operations since activation.

    2. Distributed:
        a. Number of cases of water 27,195
        b. Filters 50,432
        c. Filter cartridges 168,605
        d. Test kits 4,861

    3. Total number of customers on the Flint water system
        a. 29,944 paying customers
        b. 45,000 hookups (This is our high end target #)
        c. 39,000 includes apartment complexes (The is the low end target #)

    4. Resources purchased:
        a. Cases of water 57,456 (additional 12,884 donated)
        b. Filters 108,520
        c. Filter cartridges 239,081
        d. Test kits 28,901

    5. Teams going out tomorrow:
        a. : State ype 3 teams---Goal tomorrow 300 homes per team
        b. 12 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Facilitated activation of the Genesee County/Genesee Health System MOU for mental health services.
- Coordinated supplies for distribution to students at the U of M Flint campus.
- Still concerned about people going to every fire station and collecting water/filters.
- Coordinated trash pickup at Fire Station PODs with the City Liaison officer.
- Coordinated hotshot deliveries of supplies to home bound population.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/16/16 – 12th Day (11th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to prepare for engagement following the Presidential Emergency declaration

Attached Documents:

- SitRep 11

Status on Governor's request letter to the President:

- Emergency declaration received. Federal Coordinating Officer (FCO) is David Samaneigo (Sam) who has been my LNO from FEMA. We began discussions on a transition to FEMA support last night. His team is headed to MI at this time and we will have our first coordination meeting on Sunday.
- The request for a Declaration of a Major Disaster was denied. FEMA advised this event does not fit the legal definition of a major disaster (natural incident or fire, flood, or explosion). This information has been provided since prior to the event to elected officials in Flint and the legislature. We are reviewing the chances for an appeal and I have already discussed this with the FCO.

Key items for tomorrow to note:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have state agency, type 3 teams), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- I will be back on duty Sunday.
- We have been working with some of the churches. Contact was made with 14 churches for Sunday distributions. Interaction with the pastors has been very positive.
- A logistics briefing will be provided to see how many more teams we can put in the field.

Items to Note

- LT Gov visited the local EOC today; discussed local EOC operations.
- Deployed state teams and 10 ARC Flint Water Response Teams to the field today.
- DEQ sampling kits are now being received at the PODs.
- DEQ sampled two Head Start facilities and worked with GIS to obtain future sample sites.
- The Freeman School pilot was delayed due to some parts not arriving as scheduled. Testing was to be done Sunday but may not occur until Monday.
- NG will have a total of personnel in the PODs for distribution. Mission has not changed.
  - NG soldiers have been in the PODS. more processing in tomorrow with start date of 1/18 in the PODS. The TAG and I will be discussing future use of NG personnel door to door next week.
- Information reported to the JIC:

  - As of 1/16/16 7pm (start date was Tuesday, 1/12/16)

1. 11,324 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received prior to the SEOC activation plus the PODs and door to door operations since activation. 3,850 homes were visited today (4,000 was the goal).

2. Distributed:
    a. Number of cases of water 20,876
    b. Filters 47,935
    c. Filter cartridges 167,401
    d. Test kits 3,322

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. *45,000 hookups (This is our high end target #)*
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. *Cases of water 57,456 (additional 12,884 donated)*
    b. Filters 108,520
    c. Filter cartridges 239,081
    d. Test kits 28,901

5. Teams going out tomorrow:
    a. State (;) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Provided direction to Operations and Logistics Section to initiate water sample collection at PODs.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional churches were supplied with water, filters and test kits.
- Still concerned about people going to every fire station and collecting water/filters.
- Station #6 (POD) has associated safety concerns due to proximity of street and lack of suitable parking. We are working to resolve.

Subject: SEOC Update 1/15/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/15/16 – 11th Day (10th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Pilot the logistics plan and adjust as needed
- Continue with door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel

- Work with FEMA personnel to ensure we get a Presidential Declaration of a Major Disaster and Emergency

Attached Documents:

- SitRep 10

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. Numerous calls and meetings took place between me and FEMA today.
- When we get the declaration(s) ... I will set up a legislative/congressional call to explain and provide bullet points as to what programs we will received. The Federal Coordinating Officer assigned will also be with me to answer questions. This has helped in the past.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have ' state agency, type 3 teams with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
  - A pilot team was used to test our logistics plan today and with 60% strength they had 160% output (830 homes).
- I will be off tomorrow but available by cell. Tony Katarsky will be SEOC State Director. I will be back in on Sunday.

Items to Note

- LT Gov visited the local EOC and SEOC today. He was able to hear our final briefing for the day.
- Held a short session managing stress with SEOC staff. Two handouts were put in MICIMS for all state and local personnel to view.
- Deployed 10 state teams and 5 ARC Flint Water Response Teams to the field today.
- Standing requirements were created for the JIC so we can get information to the media every day. Below are the current ones we have in place and we should have something out tonight according to the JIC.

  - As of 1/15/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 7474 homes visited by the FWRTs. We believe we have ~24,000 homes with filters but are trying to validate that information. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.

2. *Distributed:*
   a. Number of cases of water 18,576
   b. Filters 45,916
   c. Filter cartridges 165,382
   d. Test kits 3,217

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)
   c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 44,688 (additional 12,884 donated)
   b. Filters 78,520

c. Filter cartridges 163,081
d. Test kits 18,761

5. Teams going out tomorrow:
   a. State ( ) type 3 teams---Goal tomorrow 300 homes per team
   b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Home Deliveries.

- Still receiving lists from the Valley Area Agency on Aging (VAAA) on home deliveries and forwarding these to the Sheriff's office. They are going through a lot of homes. 120 out of 125 homes were completed yesterday.

Operations:

- We sent staff to visit Fire Station 6 and the warehouse today. Fire station 6 traffic was congested and that was during a "slow" time. The National Guard is identifying what is needed to alleviate this. MSP is working on providing uniform presence as needed. An additional iPad at each location will hopefully help relieve the amount of time that people are spending at the distribution sites.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional requests from churches were made and I approved the locations so they could be ready for Sunday. Lt. Roach was told by one of the pastors that he met with the Gov today and expressed how much he appreciated the efforts put forth. We should have 14 for this Sunday. We are working on how we can increase this output.
- Still concerned about people going to every fire station and collecting water/filters. NG personnel observed vehicles with several cases of water an overheard saying they were heading to the next station. Some people were helping themselves and taking more than one case at a time. Per the NG they cannot physically stop people from doing so. The NG is going to try to change staging in the fire stations to try to prevent this.
- Flint PD is going to check in every day with the EOC and provide a specific contact person. They are also going to help with traffic issues at the PODS. Will ask Flint PD to provide a presence when water is off loaded at a POD to help prevent people from "helping themselves."

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/14/16 – 10th Day (9th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and finalize lease on warehouse space/begin to move supplies from GCCARD to new warehouse
- Continue with door to door teams and finalize planning for future team use
- Submit request for a Presidential Declaration of a Major Disaster and Emergency
- Continue to work on long term recovery items (DHHS, DEQ, MDARD)

Attached Documents:

- SitRep 9

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. I had a lengthy conversation with the FEMA Region V Administrator reference the request prior to sending.

Key items for tomorrow to note are:

- The door to door teams will continue in the morning.
- We will continue to ramp up door to door operations with additional teams. Teams continue to focus on the high lead level areas and additional data is being analyzed to focus mission areas.
- ARC will increase the number of their Water Response Teams.
- Supply burn rates as well as projections on how many teams will be needed to put filters in all homes within 3 and 5 days will be completed. Analysis will be done to see in NG personnel may be needed to finish in quicker manner.

Items to Note

- DEQ was notified of the number of homes who are willing to have them take additional samples in the future (current number (114). This question was added to the App being used by the Water Response Teams. Data will be provided when needed.
- LT Gov is scheduled to be at the local EOC and SEOC (~4:30) tomorrow to see the operations.
- Secured 80,000 sq. ft. of a warehouse today. Working to consolidate all resources in one location. Tomorrow will be the first day of full implementation of our logistics plan.
- Email sent to state employees to request volunteers for weekend.
- Media monitoring showed no incorrect information today.
- Michigan Association of Broadcasters is sending PSA to radio stations.
- Coordinating with Red Cross on volunteers for weekend.
- Deployed 8 Water Response Teams to the field today (approx. 120 volunteers). 78 Red Cross volunteers active across the operation today.
- National Guard is ramping up to have 3 soldiers per shift at each POD tomorrow. Will also have a Public Affairs Officer at the JIC and liaison at the local EOC.
- Senator Ananich visited the SEOC today to see how things operate. The visit went well and he seemed happy with the number of staff working the Flint event. He tweeted out a message indicating there is still a lot of work to be done but all are working hard.
- DHHS
    - The Community Health Emergency Coordination Center (CHECC) is working on the following:
        - A nutrition plan
        - Education materials, messaging, and working with local agencies
        - Developing a community assessment for disaster behavioral health services.
- Lined up the delivery of filters to two large apartment complexes and a student housing complex.
- We have the list of individuals needing home service (additional contacts will be sent to the Ops Chief at the Local EOC each day at 4:00). Info will be provided to the sheriff's office for action.
- Water Response Team Numbers (this is not the total of homes with filters – I will provide that number tomorrow but it appears we have filters in over half the residences):

	TOTAL	1/12/2016	1/13/2016	1/14/2016
Occupied Homes	1450	242	492	716
Vacant Homes	1967	152	161	1654
Total Homes	**3417**	**394**	653	2370
Resources				
Door Hangars	1487	217	453	817
Water	588	117	254	217

Filters	945	112	220	613
Pitchers	22	3	13	6
Water test kits	217	48	109	60
Replacement Filter	482		137	345
Total Resources Dispersed	**3741**			
Future sample test site	114	28	34	52

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/13/16 – 9th Day (8th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and close lease on warehouse space
- Continue with door to door teams and finalize planning for second wave increase (+15 teams – total for 1/14/16 will be 20)
- Continue to work on Governor's Declaration of an Emergency

Attached Documents:

- SitRep 8

Status on Governor's request letter to the President:

- All support data from state Agencies and local jurisdictions collected as of 6:00 pm on 01-13-16
- *Current timeline:*
    - First draft completed and ready for review by State Department Directors (including the Attorney General) by 11:00 am on 01-14-16
    - State agency reviews due back by 1:00 pm on 01-14-16 for revision of the draft
    - Revised draft to Captain Kelenske by 2:00 pm on 01-14-16 for review and forwarding to the Governor for final review
    - Final draft (based on Governor's review) submitted to FEMA Region V Administrator by no later than cob 01-14-16 but hopefully sooner. FEMA is aware and ready to receive.

Requests and potential response from FEMA/President

- The letter will request all programs eligible under the Stafford Act including Public Assistance, Individual Assistance, Hazard Mitigation, FEMA's coordination of assistance from other Federal agencies and direct assistance from FEMA
- The letter will also request potential direct reimbursement from other Federal agencies such as EPA, CDC, HUD, DHHS and SBA
- This request is in coordination with the request for Non-Stafford Act federal assistance already requested and received by the State (technical assistance and administration, but no direct reimbursement of disaster costs)
- Direct Federal assistance from FEMA in the form of Individual Assistance to homeowners for household repairs (repair and/or replacement of water service lines and Other Needs Assistance to reimburse for water filters, bottled water, etc.) is a possibility
- Direct Federal assistance from FEMA in the form of Public Assistance is not as likely as it is mostly replacement of publicly owned water distribution lines (and not the direct result of damage from a natural cause)

- If Stafford Act assistance is denied (Public Assistance, Individual Assistance and Hazard Mitigation) FEMA could still provide coordination of assistance from other Federal agencies if the President declares a disaster (or emergency) for the State of Michigan

Key items for tomorrow to note are:

- *The door to door teams will continue at 9 a.m. – 5 p.m. Thursday morning and continue through the weekend.*
- We will continue to ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas and additional data is being analyzed to focus mission areas.
- MNG will have a press event at the armory with incoming soldiers and MG Vadnais.

Items to Note

- Received information that Rev. Jesse Jackson will be in town 1/17/16 at 1:30 at the Heavenly Host Church of the Harvest of Dartmouth St, Flint.
- Managed and corrected misinformation on NG role.
- *Senator Ananich is stopping by the SEOC tomorrow morning 0845. I am meeting with him and his Chief of Staff. Short visit as he has a 0930 at the Capitol.*
- Working with Comcast so they can put teams in the field for distribution.
- Penske is going to give us 15-20 trucks over the weekend.
- Contact made with Two Men and a Truck for resources.
- *Meeting set with Google where they will brief me and key staff potential tasks.*
- Coordinated with Flint Mass Transportation Authority (MTA) to include Fire Station PODs on bus routes.
- Tomorrow I will have a projection as to the number of teams needed to get all citizens filters in their homes in 5 days / 3 days.
- *We are standardizing team structure and supply deployment to increase efficiencies.* Mission Ready Package (MRP) specifications will be sent out for other entities to assist with door to door. They will then be able to arrive as a MRP, get supplies, receive a mission location and deploy.
- 5 Water Response Teams were in the field again today. Below are the numbers from the 2 days of just the Water Response Teams (there are paper copies with data still to be entered from the PODs). *I was just briefed by the ARC logistics planner and there are efficiencies we can put in place* to increase homes touched per day. The next version of the app will provide more granular details. Additional 30 tablets were configured by DTMB today for field implementation to include use in the PODs.

	Total	1/12/2016	1/13/2016
Occupied Homes	533	242	291
Vacant Homes	238	152	86
Total Homes	**771**	**394**	377
Resources			
Door Hangars	473	217	256
Water	265	117	148
Filters	235	112	123
Pitchers	9	3	6
Water test kits	92	48	44
Replacement Filter	93		93
Total Resources Dispersed	**1167**		
Future sample test site	62	28	34

- We show 17,276 residences with filters (this does not include data entry to be completed from POD or other locations).
    - We have 35,378 service hookups but with apartments, multi residence dwellings, etc we would be around 45,000.
- Logistics Support
    - The American Red Cross Logistics Planner provided me a brief and I approved the plan forward. The current plan includes:
        - Mission – A filter in every home ASAP.
        - *4 Distribution Methods*
            - PODs (5)
            - Water Response Teams (20 effective tomorrow and this will increase)
            - Local EOC "Hot Shots" (these are calls for functional needs, unable to get to a POD location due to ??, etc). Personnel dispatched with supplies.
            - Local EOC support for other local requests (Faith based for distribution, etc.)
        - Three warehouse locations at this time
        - How to better leverage ARC resources

- Supplies – Daily Numbers
    - Replacement Cartridges - 30,700 delivered.
    - Water (cases) - 19,152 cases delivered

- Budget projection completed and will be submitted to SBO for review.

- Notes from Water Response Team Command (MSP)
    - Very good synergy between Flint Post troopers and Genesee County Sheriff command and deputies in effective and efficient deployments for distribution efforts.
    - Great attitude and efforts by uniforms and volunteers to make important contributions to the City of Flint on water response team deployments.
    - Clear direction and coordination in the field of supply teams by lieutenants and troopers. No confusion. Clearly defined roles.

All personnel continue to be fully committed to fixing this as quickly as possible.

Chris

<u>Update 1/12/16 – 8th Day (7th Full Day) After Governor's Declaration of an Emergency</u>

I apologize in advance for the length of this report. With the supply issues we had the last couple of days I wanted to share our inventory plus what we anticipate to ensure we do not have supply issues.

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Fine-tune logistics
- Increase and deploy door to door teams (4 state teams added to teams from the Sheriff's Department)
- Increase collaboration and messaging of collaboration with local agencies (specifically the Sheriff's Department)

<u>Attached Documents:</u>

- SitRep 7

- Executive Order Activating the National Guard

Key items for tomorrow to note are:

- The Governor signed an Executive Order activating the National Guard. Mission will be to relieve ARC volunteers at the PODs (Fire Stations) which will free up the ARC volunteers for door to door activities.
    - I have briefed the ARC Disaster Officer on this plan.
- The Governor requested, through FEMA Region V, support from the Federal Emergency Management Agency (FEMA) to bring together and identify other federal agencies that may have programs and funding that could be dedicated to assisting Flint as part of an interagency recovery plan. One of the existing LNOs has been identified as the POC for this. He will be a great liaison for the FWIACC.
- The door to door teams will continue at 0830 Wednesday morning and continue through the weekend and ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas.
- We will look at all commodities and see where we are and where we need to be while working with the ARC logistics specialist.

Items to Note

- PSA video sent out to Flint citizens on resources available.

- Water
    - Today's numbers - 7,824 cases of water arrived today, 1/12/16 (109 pallets)
    - Ordered:
        - 19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)
            - 1/3 is going to GCCARD and the rest is going to the new warehouse
        - 12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)

- Filters
    - Today's numbers
        - Ordered on 1/11/16 and delivered 1/12/16 direct to GCCARD
            - 2,000 – Brita filter faucet mounts
        - Filter Replacements
            - 2,400 – Brita filter replacements (single pack)
            - 8,000 – Brita filter replacements (two pack)
    - Ordered on 1/12/16 to arrive Wednesday
        - *Faucet Mounts – To be delivered direct to GCCARD on 1/13/16 (Wednesday)*
            - 10,000 – PUR Vertical faucet mount
            - 2,500 – PUR Horizontal mount
        - Replacement Filters – *To be delivered direct to GCCARD on 1/13/16 (Wednesday)*
            - 10,000 – PUR replacement filters (3 pack)
            - 10,000 – PUR replacement filters (single pack)
        - PUR Combination Pack – to be delivered to GCCARD on 1/13/16 (Wednesday)
            - 10,700 – PUR combo packs

- To arrive Thursday
    - Zero Water Pitcher (8 Cup) – Delivering direct to GCCARD on 1/14/16 (Thursday)
        - 1,300 – Zero Water pitchers
    - Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Thursday)
        - 11,000 – PUR vertical faucet mount
        - 1,500 – PUR Horizontal faucet mount
        - 5,000 – Brita faucet mount

        - 10,000 – Brita adv faucet mount white
        - 12,000 – Brita adv faucet mount chrome
    - Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Thursday)
        - 117,600 – PUR replacement filter

- Test Kits
    - 6601 unassembled kits arrived at GCCARD today, 1/12/16.
    - 500 have been assembled and are ready for distribution
    - 1000 additional unassembled kits have been ordered to be delivered at GCCARD (no ETA yet)
    - 10,142 unassembled kits to arrive at GCCARD early next week

- Second warehouse – Located in Flint
    - 100, 000 square feet of secure warehouse obtained.
    - Accepting commodities beginning Wednesday, January 13

- Logistics Support
    - The American Red Cross Logistics Planner arrived from DC today as requested. I outlined what her mission was and how I saw the progression forward. This logistics planner will assist in streamlining the inventory and distribution process now and into the future.

- Door to Door Numbers
    - Today the app implementation for the field went extremely well. There were a few issues that were quickly addressed. One related to how form fields should be filled out. Another was getting styluses for teams so that they don't have to remove their gloves in the cold. All very simple to fixes.
    - We are working on version 2.0 so this can be used at the PODs
    - We should be able to greatly optimize distribution in the near future as we mapped the active water subscribers from Flint's DPW and are adding them to the field team members apps. Of the ~56,000 possible addresses, this reduces the number of possible homes to visit down to ~29,000.
    - Notes from the field commander:
        - "Today we started out the day using two groups that consisted of approximately 10 people in each group. We eventually combine groups with Genesee County Sheriff's group and they brought two more groups with approx. 10 people (Local UAW) in each group. This made us a lot more efficient and we were able to set up a game plan. Tomorrow I feel we will be more efficient and we will have a better plan in place to get the maximum output out of our resources."
    - In the end, there were 394 total home visits with the following breakdowns:
        - 217 Door Hangers
        - 152 Vacant Homes
        - 117 Water Distributions
        - 112 Filters
        - 3 Pitchers
        - 48 Water Test Kits
- 211
    - CALL VOLUME:
        - 185 calls for water-related issues had been received as of 4:45 pm.

- Logistics made contact with Comcast and will be supplying them with filters and replacement cartridges for their deliveries in their work trucks as they make services calls. They will follow our procedures for reporting (our checklist).

Chris

Update 1/11/16

The focus today was the media event and getting the supplies and logistics on track. Most of the activity today was working on logistics for the water and other supplies.

Attached Documents:

- SitRep 6

Key items for tomorrow to note are:

- The door to door teams will start at 0830 Tuesday morning. It is reported that troopers are going to the door but DHHS employees are the lead with a troop car nearby.
    - State and local GIS created an App today for the teams to use tomorrow but I see potential use at distribution sites.
    - The App data will be used for our maps as we survey the public/distribute supplies and we will be getting real time metrics through the site from the field send back to the SEOC. We are using Android tablets tomorrow but in the future can use any mobile device for this.

Items to Note

- It was reported that only one POD (Station 5) was out of water longer than 30-45 minutes. This site was ~2 hours without water and part of that was the truck went to the wrong station. Trucks were sent as soon as the local EOC was notified.
- We also did not receive a DHHS shipment that was to come in which caused some filter delivery issues.
- Supplies are limited at this time; however, we are getting our shipments starting at 0630 tomorrow.
- We have Home Depot giving us 12,768 cases (this was a late development so the SitRep indicates half the amount) of water every day starting tomorrow. We are still working with other distributors too.
- ARC is flying in a logistics planner tomorrow. Three additional staff with be with her to shadow and help. We are turning warehouse logistics over to ARC logistics. We are moving tomorrow to a process that has a distribution center (GCCARD) and a warehouse that is 100,000 square that will maintain mass quantities. Staff has continually been placing orders for supplies to ensure we get a head of this. The intent is to keep the warehouse full so we do not have these continual issues of supplies.
- Began mapping lead service lines (anticipate having draft of lead service lines Friday).
- Coordinated with local IT managers overseeing filter tracking system to streamline data collection.

Local Emergency Operations Center

- Working to coordinate resources at the local level to maintain adequate supplies at all PODs.
- Demand has exceeded supplies and supplies are moving rapidly from PODs today. Working to make sure POD managers notify us when they start running low.
- Working to establish a warehouse for local resource storage.
- Established trigger points for resources at PODs and hourly inventory reporting from the PODs.
- Discussed potential long term water sources between local EOC and SEOC.
- Established planning cycle/meeting scheduled for 1/12/16.
- Local EOC EMHSD staff with Natasha Henderson to request deployment of City representative at local EOC.

Chris

Update 1/10/16

Attached Documents:

- SitRep 5
- Door card (English version but Spanish version will be ready for Tuesday)

I have a local EOC section listed below but state personnel are heavily engage in management of both locations. We occasionally hit some road bumps with this event but all personnel are working well together to accomplish our goals (especially state agency personnel).

I have had good discussion with FEMA LNOs. Two statements have been developed from our discussions that hopefully helps put this in more context but if it is more confusing I apologize:

1. In the immediate response, the State, in collaboration and coordination with city of Flint and county of Genesee are working to get water, water filters, and testing kits to the affected population. In conjunction, the state will coordinate with federal agencies to ascertain what resources can come to bear to help mitigate the issue.

2. If asked about a federal declaration from FEMA, we need to articulate the definition of major and emergency declaration and state or note to ourselves that it appears to not qualify; **however**, there may exist opportunities to leverage federal assistance from some agencies (i.e....EPA) under their own authority to help address this issue.

    - We need to really manage expectations on the potential for a federal declaration...not that we will not go after one but it will be difficult to get.
    - A major disaster is defined in the Stafford Act as any ***"nature catastrophe (including hurricane, tornado, storm, high water, windriven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause any fire, flood, or explosion.....causes damage of sufficient severity and magnitude, to warrant major disaster assistance.....to supplement the efforts and available resources of States, and local government....."***
    - An emergency declaration is ***"is any occasion or instance for which, in determination .....assistance is needed to supplement State and local efforts and capabilities to save lives and protect property and public health and safety or to lessen or avert the threat of a catastrophe....."***
        - This is limited to immediate and short-term assistance (I hate to put times on this but short-term is like 3 weeks), essential to save lives, protect public health and safety and property.
    - Severity of the situation is ***"A finding that the situation is of such severity and magnitude that effective response is beyond the capability the state and affected local governments, and that the state requires supplementary federal emergency assistance to save and to protect property....***
    - Nature of assistance for Emergency Declaration is for ***"Debris removal, emergency protective measures, direct federal assistance...."***
        - Debris Removal = ***self-explanatory and we do not have this***
        - Emergency Protective measures = ***water, commodities, transportation (remember ... to supplement what the locals and state are already doing if we need more)***

- Direct federal assistance= ***what specific type of work is requested, and what are the reasons why the state/local government cannot perform or contract for performance. Essentially what is the need that state/local govt cannot provide. I can see this being something we need but we may be able to get this outside a federal declaration under the federal agencies own authority to help address this issue.***

Back to the update...

Key items for tomorrow to note are:

- Training is occurring for the door to door teams scheduled for Tuesday morning
- Deploying an additional MSP District Coordinator to the local EOC for command and control support.
- Deploying two DTMB trucks and two drivers for sustained logistical support for the week.
- Media event with the Governor in Flint.
- New Incident Action Plan starts (1/11 0800 -1/13 0800 operational period). Our objectives are as follows:
    1. Ensure all households within impacted community have required resources.
    2. Ensure accurate tracking and accounting of all commodities.
    3. Improve and maintain public information strategy.
    4. Develop a long term public health and services plan.
    5. Ensure adequate staffing to support operational requirements.
    6. Identify possible assistance programs.
    7. Develop an approved GIS strategy.
    8. Maintain coordination between partner agencies and organizations.
    9. Enhance situational awareness and common operating picture of all activities.
    10. Develop a comprehensive Recovery Plan.

Items to Note

- All 9 churches had filter systems/replacement filters, information sheets, and water test kits delivered as requested by each pastor/reverend on Sunday. We did not think we could get them water due to the limited time but we did end up getting water to all 9 churches with the other items.
- Fire station resource locations stayed open from 9a to 9p and will continue with those hours until further notice (Staffing is in place until Saturday). ARC is staffing these locations.
- The media event was held at Fire Station No. 1 and report back is that it went well and the spirit of collaboration between local, state, non-governmental partners is strong was relayed.
- The four door to door teams will have the hours of 8:30 a.m. to 5 p.m.
    - Each will have logistics support from DTMB, security from MSP, and contact personnel from DHHS.
    - The door card is attached that will be left if no one is home.
- Worked to identify a storage location within the City of Flint for water and supplies. G-CARD is identified as temporary location but we are moving toward a state run warehouse operation (looking at private sector partners to assist, especially with the warehouse management side).
    - GCCard is large enough, centrally located and comes staffed. GCCard has 75,000 sq ft with warehouse managers to assist with tracking resources coming in and out.
- GIS will provide us daily updates of how much was distributed each day but note we have a delay in data entry from delivery to entry in the GIS system. Over the weekend there was a problem locally with staffing to get this completed. A solution is in place and will be implemented so we get timely data. Distributed to date (as of 1/8/16).
    - 12,386 filters
    - 1,985 replacement filters
    - 354 Pitchers

    - 2500 Lead Testing Kits
- Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to ensure distribution sites maintain an appropriate level of inventory. I have requested trigger points get put in place so we do not get below certain levels in the main warehouse location.
    - Contacts with some large water distributors have been made and their and our logistics chiefs will connect first thing this week.
    - We have ordered an additional (expedited delivery with ETAs tomorrow)
        - 40,000 Brita Filters
        - 40,000 Brita Replacement Filters
        - 1000 Zero 8-Cup Pitchers
        - 1000 Zero 8-Cup Pitchers
        - 2000 PUR Replacement Filters
        - 93 Pallets of water (about 6700 cases)
- GIS continues to produce multiple maps for use.
- JIC Items
    - Requested PSA on the radio. Media has been approved and working with MAB.
    - Requested JIC to contact Comcast and Dish Network for availability for continuous running of filter install/replacement and test kit video.
    - A news release will likely going out tomorrow regarding canvassing in neighborhoods. Continued social media messaging.
        - Tuesday – embed state PIO with one of the canvassing teams to liaison with media.
        - JIC moving tomorrow to Flint.

<u>Local Emergency Operations Center</u>

I am providing you some information on some issues we ran into at the PODs. This has been addressed with additional state resources and processes put in place so we do not run out of resources. Public concerns/complaints have not been brought to my attention at this time. Staff is working very hard to ensure we do not run out of supplies at the PODs and they understand the consequences. No one in the Local EOC or State EOC is happy the follwoing occurred and I felt you should know in case it is brought up. Again, I believe we have fixed this and I take full responsibility for any supplies not being on site.

<u>Fire Station Inventory Levels:</u>

Station 1:

- Only time without supplies - 15 minutes without water while the truck was unloaded.

Station 3:

- Ran out of replacement filters around 7:00, replacement filters delivered around 7:30. Had to pick up replacement filters from Home Depot and deliver.

Station 5:

- Ran out of water around 5:00, water was delivered around 6:30. We needed to find additional trucks because DTMB drivers were over hours. The ARC stepped up and found a truck to go and pick up a pallet of water and deliver.
- Somewhere between 4:00-6:00 they ran out of lead test kits. No way to restock these because City facilities were closed and could not reach anyone.

Station 6:

- Around 5:00 ran out of water, filters, and replacement kits. Replacement kits were delivered around 7:30. Additional water and filters were delivered after 9:00 due to the DTMB drivers heading back to Lansing. Food Bank was called and had to get drivers in to operate trucks, pick up water from the School District, load and deliver to all sites. Delays occurred with weather conditions and needing to use last minute sheriff EOC staff to load due to issues with City workers. City workers were scheduled to help and left around 7:00 without helping.

- 2 pallets of water were dropped off in the afternoon and within 1 hour were gone. This was much faster than we expected. On 1/9 they didn't go through 2 pallets of water at any station for the hours 9:00-4:00.
- We received news that a reverse 9-1-1 call notified residents of water which caused an unanticipated amount of people obtaining water. There was also a report of 1 person walking out with 2 cases of water and trying to sell in the parking lot.

Station 8:

- Around 7:00 ran out of filters and lead tests. Filters were delivered around 8:00 from the food bank trucks.
- Hourly reports were requested in the morning from volunteers but this information was not received as to the status throughout the day. Early inventory of supplies took between 1 hour-1.5 hours to receive in the EOC. We were not advised of low counts, just zero numbers.
- Reports received that the last couple of hours were slow.
- Residents were advised of the other sites and the opportunity to obtain supplies.

Restocking Plan

- United Way set up meeting with Food Bank to discuss.
- Had EOC meeting on this topic to discuss options.

Churches:

- All 9 churches received waters, filters, and informational bulletins.
- Lt Roach received positive feedback from 3 of the pastors.
- No complaints were received.

Signage:

- Provided information to SEOC on signage requirements at the fire stations.

Storage:

- Researched storage spaces; established temporary site at GCCARD.

Personnel:

- Lack of local EOC leadership (seems somewhat checked out) with IC and Deputy IC (doing an okay job).
- Captain TaFoya (Genesee County) helped tremendously today with all the plans outlined above and attended the press conference.
- Tina Martinez at the Food Bank and Matt Purcell at GCCARD were extremely helpful in getting last minute operations set up.

Chris

Update 1/9/16

SitRep 4 attached for more in depth information. The below only contains some items worked on today and while the format in the attached SitRep is not perfect (it is created automatically by MICIMS) it does contain a lot more information you may want to read. I also attached one of our maps. It is our filter distribution map. All filters handed out by anyone working with us feeds into this now. We are continuing to refine these and at this time there is a delay in the upload of address data but we are working on it. We have a ways to go to get filters in every home but this will help direct us to those who need still them. We also are working on identifying abandoned homes.

Key items for tomorrow to note are:

- 9 churches will have ARC volunteers and filters for distribution. Some may also get water.

- 5 fire stations are a distribution point for water, filter systems/replacement filters, and water test kits. While only open today until 4 p.m., tomorrow and until further notice they are open from 9a to 9p.
- Media event will take place on the above tomorrow.

Items to Note

- 211 has some issues with call load but it is being worked on. 2-1-1 Director contacted MDHHS PIO to discuss/resolve caller wait times and messaging. We anticipate an increase in activity tomorrow in 211 calls so we requested and received an increase to staff 211.
- We are shifting tasks the SEOC took on that are handled more effectively and efficiently at the local EOC. We have established command and control in their EOC. We are running things there but that is not being made public. We are doing this in partnership but we are clearly handling the operation with state personnel oversight.
- A 3rd FEMA LNO arrived today upon my request. This has nothing to do with a Presidential request for a declaration but support for some other items I want worked on for long term recovery.
- We continue morning calls with the local EOC leadership and local emergency manager on what our goals for the day are as well as any issues/concerns.
- Five 5 fire stations have received water, water filters, replacement cartridges, and water testing kits with American Red Cross personnel at each location to assist with delivery of resources and collection of addresses receiving them. These locations will be open from 9a – 9p daily until determined they are no longer needed. Those picking up water testing kits will be advised that they can return the test kits to the fire departments (where they will be picked up and taken to the Flint City Hall), the Flint Water Treatment Plant, or they can take them directly to the Flint City Hall. For those unable to return the kits, 211 can make arrangements for pick up the kits. We understand response to these sites has been positive thus far. The Genesee County EOC will be monitoring these supplies and request replacement of products as needed.
    - A call is going out tomorrow morning to advise this information ... I do not believe it was every resident but Tori Sachs has that info if needed.
- I approved a press release today to advise the public that all levels are working together to ensure delivery of filters, test kits and water; noting that all of these items were delivered to the 5 Flint fire department stations. It was stressed that the public should be aware that the local and state agencies have been working cooperatively to assist the residents - and will continue to do so. This was done to hopefully end or at least minimize the "who can get water and filters out first" when all of this has been connected with the state and coordinated since the state declaration was put in place.
- The arrangement of 2,000 filters, to be taken to 9 local churches on Sunday, January 10, is ongoing. The filters have been secured; they are now in the possession of the DTMB. DTMB will return to Flint on Sunday morning to deliver these to necessary locations. The American Red Cross will be on site at each church to assist with distribution and recording addresses (for GIS). The local EOC is working to ensure these arrangements are complete and run smoothly. Future engagement with the faith based community will occur to assist with additional distribution.
- A Flint City liaison has not been in the EOC but starting Monday this will be in place to keep the Flint Mayor appraised of activities being conducted in the city. She also has been advised she can call me at any time if she needs anything.
- Training has been confirmed for the door-to-door operation scheduled to start Tuesday. Four teams are initially scheduled with more to potentially be put in place. These are the teams that will be handing out water, filter systems/replacement filters, test kits and information. If nobody is home, a door hanger with information is being left. DHHS personnel and one MSP trooper will be on these teams.
    - Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.

        - Training is so those going door to door can explain what the filters do, how to install them, if they need install help to call 211 who has a list of people who can install the filters, and answer any other questions versus just handing them the filter.
    - Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m. AT THIS TIME. I am reevaluating these times to increase contact with someone versus just leaving information.
    - Logistics are being finalized for the teams and trucks to handle stocking and re-stocking of materials during daily operations.
    - GIS maps will provide guidance on deployment locations for these teams and other teams in the field.
- A pilot project at Freeman Elementary with LARA and DEQ has been initiated to see if replacing certain plumbing components in faucets at the school will drop the lead level.

MSP/EMHSD GIS Section Updates

Accomplished Today (January 9):

- Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.
- Produced Filter Distribution Map.
- Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
- Worked on map of franchise customers outside of Flint City.
- Produced maps for MDARD on food establishments and Local Health Departments.
- Produced map of Church Filter Distribution map for DTMB.

Local Emergency Operations Center

- The state has deployed 10 personnel to the Genesee County EOC to ensure we have command and control at the local level. On 1/8/15 The state personnel took over the incident management functions of the Genesee County EOC (not public). The arrival of additional staff allowed the local Emergency Management Coordinator to delegate tasks which relieved a tremendous amount of stress.
- Additional Sherriff staff (2-positions) will be shadowing the state incident management team to allow for transition to the county personnel later in the incident when we are comfortable with them handling things. Not sure when that will be but we have secured a direct bill hotel for staff to stay in Flint as long as needed.
- With the additional staff, the Local EOC will be able to take over functions previously handled by the SEOC including:
    - Logistical activities to support church operations.
    - Logistical activities to support fire stations operations.
    - Coordinate Donations Management activities and draft donations management plan
    - Coordinate Volunteer Management activities
    - Identify local storage/staging facilities
    - Overall inventory tracking
    - Tracking of Points of Distribution (PODs)

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/8/16

SitRep 3 attached.

There is a significant difference in what is being presented by the media and what the local EOC is relaying to us at the SEOC. It is also being driven by the media that this is a state versus local response (who is providing more and quicker versus a coordinated effort between all). That said, I advised SEOC personnel that perception is reality in some eyes and we are to move forward to address items that typically are addressed at the local level. I have ordered the SEOC open all weekend due to make the quick wins that we need and continue to get the coordination and collaboration in place that is needed (but make gains on our own as needed).

Items to Note

- Two FEMA LNO's arrived today and are in the SEOC. A third LNO was requested from FEMA due to some unique issues with this event to include having to deploy more or my staff to the local EOC to get more structure and/or find out why there is an issue with the message the media is showing versus what we are hearing from the local EOC.

- We finally received from the local EOC 8 locations (we were told originally early in the week they had 80-90) that are their Points of Distribution (PODs) for water in conjunction with the local food bank. The PODs are not getting water from the food bank even though the food bank has water. We are going to resolve this issue as we can help deliver the water to the PODs but we were not aware of this. 8 PODs is not enough locations if water needs to be distributed to citizens. Speaking with the ARC Regional Administrator later today, I believe ARC got water to those locations but I need to confirm that in the morning. The food bank reported they had 376 cases of water.

- We have learned that a low number of residents are testing their water when DEQ can test 400 kits per day. This is an added focus that we believe can be increased through dissemination of test kits with the filters and any water.

- I found out the Mayor was okay with using fire stations as distribution points for water, filters, and water test kits. While this did not come to me through the local EOC, I advised we needed to get water, filters, and test kits to these locations for tomorrow. The distribution at 5 Flint Fire Department stations has been coordinated to be in place by 10:00 am tomorrow morning.

    - DTMB has provided a truck and driver to pick up water test kits from DEQ lab in Lansing, water from the Food Bank and water filters and replacement cartridges from GCARD in Genesee County.
    - 10 American Red Cross (ARC) volunteers will meet the DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.
    - Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.

- STILL FINALIZING - We have made available 2,000 Filters for distribution on Sunday as parishioners leave mass/services. This will be 200 filters for 10 churches in Flint. While this is a small number of churches, we do not want to waste an opportunity to hand out filters and this seems like a quick way to so. The filters will be put on the DTMB truck on Saturday for delivery to TBD locations for distribution. Logistics remain undetermined as I am still waiting on a list of the churches, pastors/reverends/hours or services/etc. The DTMB truck will be returning to Lansing

approximately 11:00 a.m. so we need to finalize this quickly on Saturday. We may utilize ARC to assist with this.

- The Recovery branch is working with the JIC to develop a door hanger card. DTMB is working on the printing portion of the hanger card. Recovery will also be finalizing logistics over the weekend for neighborhood canvasing to occur early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.

- It appears that 211 has become overloaded. DHHS is researching ways to increase capacity for calls.

- A Volunteer Management Coordinator is in the Genesee County EOC as of today.

- A Donations Management Coordinator has been requested and she will be in the Genesee County EOC Saturday.

- DHHS had a conference call with GM today; they indicated they can provide cash, and supplies, but primarily manpower. No commitments were made at this point. We inquired as to availability of warehouse space and trucks. It was left as GM being a major resource pool that we can tap into as we determine missions. Further conversations will occur, but primarily GM just wanted us to know they are there if needed.

- An additional EMHSD staff member was sent to the Genesee County EOC to act as Operations Section Chief and obtain awareness of the situation there.

- GIS staff met with various parts of Genesee County/Flint personnel to try to get a handle on data available.

- GIS continues to work with local GIS personnel with three GIS staff going to Flint today to work with them. GIS staff is working with U of M on how best to proceed with digitizing water lines for long term recovery.

Chris

UPDATE 1/7/16

A summary of some of today's SEOC activities is provided below. Attached is the following:

- Today's SitRep which contains more information than below.
- The resource request/task assignment sheet for your situational awareness. This is how locals request resources as well as how we track resources and any assignments and/or tasks that are to be completed.
- JIC Task Tracking – for your situational awareness on how we are tracking requests and assignments. Once someone is assigned a task or resource request it allows them to document what work has been or will be done as shown at the bottom of the document.

Items to note:

- I received a document this evening from Genesee County which appears to be damage assessment information. Analysis of this will occur tomorrow. It appears to be infrastructure and costs to fix it and no other impacts.
- I spoke with Jamie Curtis, Genesee County Commissioner, this evening. A very good relationship is in place with him, especially with our District Coordinator (DC). I also have our DC working on developing stronger relationships with the Mayor/Mayor's office.
- GIS staff continue to obtain data and work with County and City personnel to get a picture of where resources have been provided, need to be provided, as well as infrastructure locations (pipes) that could be affected.
- Personnel and agencies have been tasked with developing a plan to get people in the community to deliver information, hand out filters, etc. This would target those areas we are showing minimal or no filter distribution based on the data we are collecting. The plan is to get them in the field by Tuesday and the plan will be provided to me tomorrow.
- Filters can be obtained at the following locations:
  - Michigan Department of Health and Human Services office, 125 E. Union St., Flint, MI 48502
  - Michigan Department of Health and Human Services office, 4809 Clio Road, Flint, MI 48504
  - Genesee County Community Action Resource Department office, 2727 Lippincott, Flint, MI 48507
  - Genesee County Community Action Resource Department office, 601 N. Saginaw, Flint, MI 48502
- Conducted briefing with local EOC and county executive.
- Conducted briefing with state agencies (daily updates).
- Began work to schedule legislative/congressional conference calls. Tentatively scheduled for 2 p.m. Friday.
- JIC continued to develop messaging.
- Provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
- Deployed two EMHSD/SEOC liaisons to assist the local EOC.
- Published the Incident Action Plan and continued assignment of objectives/tasks.
- FEMA Liaison Officers just arrived in Lansing to assist command and general staff.
- I spoke with Harvey a few times and he should have talking points later tonight or tomorrow a.m. for his use and also for others who may speak to media outside of state government who may benefit from our messaging.
- We held a media round table at 1 P.M. at the SEOC. Dr. Wells and I spoke and answered questions to numerous media outlets.
- Local agencies and NGOs continue to provide water and filters to citizens.
- The website, www.michigan.gov/flintwater, was update with information and links to assistance to include 211. Additional recommendations were provided to include information on the testing water in homes.

EMHSD GIS:

Accomplished Today:

- Reproduced Socio-Economic Status Map
- Reproduced Predicted Affected Populations Map
- Cleansed old data and reports for water filter distributions
- Created draft map of water filter distributions (Refinement needed before releasing final product)
- Scheduled on-site visit with Flint GIS Department and Genesee County GIS Department
- Formatted databases to host content
- Researched service line database creation and scheduled meeting with U of M Flint to discuss timelines and resource needs

- Generated water infrastructure map (does not include building service lines)

Tasks for Tomorrow:

- Meet with Flint City GIS
- Meet with Genesee County GIS
- Meet with U of M Flint GIS
- Finalize water filter distributions map
- Finalize plan for data distribution methods

Chris

UPDATE 1/6/16

A summary of today's SEOC activities is provided below. I tried to distill this as best I could but there has been a lot of activity and discussion to get an accurate assessment of the situation. Attached is the final draft of objectives and tactics for the operational period and agency situation report (SitRep) which has more SEOC agency information. I have implemented weekly operational periods.

Advise if you want anyone else copied or off this distribution.

Daily Update

- Set goals for SEOC and identified response/recovery emphasis
- Requested FEMA liaison officers (LNO) from FEMA Region V. Two LNOs will be on site by ~3 p.m. 1/7/16. Both are known contacts to me and some staff and one has worked extensively with me during the SE MI flooding in a command and control position. These personnel have been specifically tasked with this mission. **THEY ARE NOT HERE TO ASSIST WITH A PRESIDENTIAL DECLARATION REQUEST BUT TO ASSIST ME.**
- PIOs from multiple agencies were here and established the Joint Information Center (JIC). News *released pushed out on this. I am very happy with the PIO work and movement toward* coordinated messaging.
- Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts to ensure situational awareness and to develop a common operating picture.
    - I opened the briefing by identifying our initial goals, items to think about while subject matter experts were briefing us, and how we are to move forward, find quick wins, and regain trust.
    - **MDHHS – Elevated Blood Lead Levels**
        - Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what has occurred in terms of health monitoring throughout the Flint crisis.
    - **MDEQ – Water Testing Protocols**
        - Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.
- Developed Incident objectives, strategy and tactics (see attached)
- Identified SEOC and state agency staff positions
- Assigned work tasks for SEOC operation period from 0800 January 6, 2016 to 1700 January 8, 2016
- Reviewed planned actions, prepared final draft Incident Action Plan
- **Made contact with the Genesee County Emergency Manager first thing in the morning and held a conference call mid-day to discuss roles. Daily 0830 command conference calls with**

local EOC command staff starts tomorrow. Tomorrows call will include the County Commissioner and the City Administrator (both invited). Topics include the incident action plan objectives and establishing better local coordination, command and control to facilitate integration with the SEOC. The local EOC is not functioning as it needs to with personnel and local coordination and we are working on that issue.

- I will be in Flint tomorrow for a 2 p.m. media round table with local officials that was set up by the JIC.
- The attached initial objectives will be updated at least every operational period and as needed. I listed the objectives below but the tactics to accomplish them is in the attached if you want further information.
  1. Activate the State Recovery Task Force (SRTF).
  2. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.
  3. Obtain and maintain situational awareness and common operating picture of all activities.
  4. Establish SEOC operational period and hours of operations.
  5. Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.
  6. Develop a comprehensive GIS strategy.
  7. Coordinate response and recovery activities with MIVOAD and identify potential mission areas.
  8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.
  9. Provide technical assistance to the local Damage Assessment process.
  10. Establish a Joint Information Center (JIC) and develop a public information strategy.
  11. Monitor MI CIMS for resource requests and address as appropriate.
  12. Establish and disseminate cost center information for the incident.
- Additional tasks include:
  - Determine what federal agencies are already involved and their status
  - Identify potential water supplies
  - Determine where affected homes are located, where filters/pitchers (and replacements) were installed/provided, and determine who needs filters, etc.
  - Determine how filter distribution is handled, and if it can be handled more efficiently and effectively
  - Determine what mechanisms are in place for nutrition supplementation

EMHSD GIS Accomplishments:

- Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC
- Established a daily call with county and city GIS personnel to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
- Began consolidating local data from local GIS practitioners into a consolidated database, to include:
  - Water Pipeline Locations
  - Filter Distribution Locations
  - November 25, 2015 Water Monitoring Results (Partial, some data remains to be digitized)
  - Affected School Locations
  - Predictive analysis of blood lead levels for affected area
  - Updated Parcels
  - Demographics
  - Block Groups
- Produced a map for the filter distribution locations

- Began contacting specialists who developed historic maps depicting the Flint Water Crisis to obtain the data

Subject: RE: Update - Genesee County Declaration

I forgot to advise that we have asked key state agency PIOs to be in the SEOC for the briefing.

From: Kelenske, Chris (MSP)
Sent: Tuesday, January 05, 2016 6:06 PM
To: Etue, Kriste (MSP); Gorski, Gary (MSP); Smith, Paul (GOV)
Cc: Baird, Richard (GOV); Hollins, Harvey (GOV)
Subject: Update - Genesee County Declaration

Below are some key points for your situational awareness (FYSA) that have taken place or will take place within the next 15 hours.

- I was on the phone with Sean Kammer, Assistant to the Flint City Administrator, when the declaration hit the news so I advised him immediately. He was going to let the City Administrator know.
- I contacted MSP Lt. Roach, 3rd District Coordinator, who was at the Genesee County EOC and advised her to let the County EM know the declaration status.
- State Emergency Management Coordinators (SEMCs) were notified via our notification system with additional information in an email.
    - This included information on the SEOC activation and a 0900 briefing for SEMCs.
    - Some subject matter experts will provide us an update to establish a common operating picture.
- We have been in contact with FEMA Region V watch desk ... they will be on the call tomorrow and continue to monitor the situation.
- I have been in contact with the FEMA Region V Administrator to keep him updated.
- Operational period for the SEOC will be M-F, 0800 to 1700 at this time.
- Situation Reports (SitReps) will be provided in the evenings.
- An Incident Action Plan will be developed tomorrow.

Call me with any concerns or questions.

Chris

Subject: Re: SEOC Update 1/20/16 - Flint Water - Limited Distribution

Did the 4:15 meeting happen? Why were the contracts not signed?

On Jan 20, 2016, at 9:18 PM, Kelenske, Chris (MSP) <KelenskeC@michigan.gov> wrote:

Update 1/20/16 – 16th Day (15th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for second phase of door to door operations
- Submitted appeal to FEMA Region V
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration

Attached Documents:

- SitRep 16

Status on Governor's request letter to the President:

- Emergency declaration received.

Key items for tomorrow to note are:

- Five copies of the State/FEMA agreement will need to be signed by the Governor. Capt. Kelenske has them and will coordinate delivery.
- The logistics plan will be fully executed tomorrow with all teams.
  - We will have National Guard (MSP supported), type 3 teams with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- Dr. Luri from HHS will be at the SEOC ~10:00 p.m.
- A second phase is starting tomorrow which will include more refined questions as to type of filter systems each person has. This will assist with sustainment operations.
- DOC prison work crew personnel (6-7) will be at the warehouse to keep the area clean. A lot of trash is generated in the warehouse and was becoming an issue.

Items to Note

- Deployed state/local (NG, MSP, Local) teams and 10 ARC Flint Water Response Teams to the field today.
- MSP and local Sheriff's Department continue to provide over watch for WRTs.
- Aqua Hydrate contacted me to donate 5000 cases a month (4 semis) for a year. I was advised by Lindon Nelson this was a Governor/Mayor/Senator Ananich and Meekhof initiative and a press release was going to go out soon (TBD). Logistics is following up with them.
- News release sent from Governor's office about the appeal to the President of the disaster declaration.

- SEOC Logistics worked with JIC and Governor's office to establish a business resource submission tab on www.helpforflint.com
- SEOC Operations continued to develop and finalize Phase 2 canvassing roll out.
- Meeting held with Dr. Luri from HHS.
- Capt. Kelenske and other state agency financial personnel attended the appropriations hearing.
- End of day – concerns with the mass amounts of volunteers showing up and wanting to help. This can cause logistical issues but staff was working to get additional tasks for volunteers outside of the WRTs. We will continue to work on ways to involve more volunteers.
- Additional 5 person NG team for warehouse support approved.
- Information reported to the JIC:

    - As of 1/20/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

        1. 29,317 homes visited by the FWRTs to date.

        2. Distributed: Includes outstanding hard copy data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots).
            a. Number of cases of water 90,337
            b. Filters 73,229
            c. Filter cartridges 185,852
            d. Test kits 19,866

        3. Total number of customers on the Flint water system
            a. 29,944 paying customers
            b. 45,000 hookups (This is our high end target #)
            c. 39,000 includes apartment complexes (The is the low end target #)

        4. Resources purchased:
            a. Cases of water 111,630 (additional 18,502 donated)
            b. Filters 115,700
            c. Filter cartridges 243,200
            d. Test kits 61,161

        5. Teams going out tomorrow:
            a. National Guard .s) type 3 teams---Goal tomorrow 300 homes per team
            b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Addressed reports of water contamination in distributed bottled and canned water. Confirmed that water is safe to drink through testing by MDEQ. Coordinating with JIC and MDEQ for improved public information on the issue.
- Identifying options to reroute unsolicited offers for supplies and services outside of the EOC. Coordinating to set up 800 number.
- Attended meeting with Flint & Genesee Chamber of Commerce to discuss coordination of efforts, representation at EOC, and improved messaging.
- Attended meeting with Community Foundation of Greater Flint to discuss coordination of neighborhood groups and improved messaging.
- *Coordinated with MDARD to provide additional lead testing at restaurants, and signage for safe* locations.

- Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
- Coordinated and verified deliveries of supplies to apartment complexes.
- Discussed logistics requirements of delivery requests for homebound residents with SEOC Logistics.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/19/16 – 15th Day (14th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- *Prepare plans for next phase of operation – Second sweep of city*

Attached Documents:

- SitRep 14

Status on Governor's request letter to the President:

- Emergency declaration received.
- Appeal letter pending.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have ' National Guard, type 3 teams ' with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed state/local teams and 11 ARC Flint Water Response Teams to the field today.
- Messaging being developed for concerns regarding the Total Dissolved Solids (TDS) meters and citizens' concerns with those meters indicating "lead" in bottled water. Testing of water to be done by DEQ to ensure we have solid messaging.
- DTMB is working to secure space in Flint for FEMA staff.
- Press release went out this afternoon to announce that the US Department of Health and Human Services will lead the federal response in Flint. Capt. Kelenske to meet with Dr. Nicole Lurie, HHS Assistant Secretary for Preparedness and Response (ASPR), on Thursday. The goal of the federal response will be to help state and local leaders identify the size and scope of the problem, and work with them to make and execute a plan for mitigation of the short- and long-term health effects of lead exposure.
- Additional NG personnel being requested to assist with Warehouse inventories.
- ' NG personnel on the ground with the WRTs tomorrow with more transitioning in.

- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- LG is going to be in Flint working at one of the PODs on Wednesday.
- *Information reported to the JIC:*

    - As of 1/19/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 22,129 homes visited by the FWRTs to date.

    2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.
        a. Number of cases of water 77,794
        b. Filters 69,730
        c. Filter cartridges 184,457
        d. Test kits 16,671

    3. Total number of customers on the Flint water system
        a. 29,944 paying customers
        b. 45,000 hookups (This is our high end target #)
        c. 39,000 includes apartment complexes (The is the low end target #)

    4. Resources purchased:
        a. Cases of water 95,760 (additional 16,056 donated)
        b. Filters 115,700
        c. Filter cartridges 243,200
        d. Test kits 61,161

    5. Teams going out tomorrow:
        a. National Guard (;) type 3 teams---Goal tomorrow 300 homes per team
        b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Attended public health group meeting with GCHD, City of Flint Water Department and MDEQ to discuss water test information being returned to residents, to allow residents a greater understanding of results.
- Attended recycling/trash management group meeting with DEQ, Republic Services, Keep Genesee County Beautiful and Genesee County Planning Commission. Provided projections on current and anticipated bottle distributions.
- Coordinated deliveries of supplies to faith-based organizations, apartment complexes and homebound residents.
- Coordinated with Comcast to set up locations for distribution of filters (distributed 60 filters on 01/19/2016).

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/18/16 – 14th Day (13th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) and PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.
- Complete appeal for Presidential Major Disaster Declaration denial.

Attached Documents:

- SitRep 13
- Side by side comparison of homes with filters January 13th compared to January 18th. This should be hitting the media tonight. This took longer to create than I wanted but is the image I have wanted to show progress of getting filters in to the field.

Status on Governor's request letter to the President:

- Appeal in process.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have , state/local agency, type 3 teams ( ), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
  - NG will be bringing in personnel to prep for surge

Items to Note

- Beginning tomorrow the operational periods will be 7 days long.
- The CDC/ATSDR (Agency for Toxic Substances Disease Registry) has deployed a team to Michigan.
- An Arabic version of the palm card was reviewed and approved. This was developed via Arab American and Chaldean Council.
- Deployed 12 state/local teams and 10 ARC Flint Water Response Teams to the field today.
- DTMB is working to secure space in Flint for FEMA staff.
- Cost analysis to investigate if it would be more cost effective for FEMA to purchase water vs the SOM.
- ARC news release concerning the Volunteer Reception Center (VRC) sent out today.
- Media availability conducted today at 3pm at the VRC.
- Since 1/14/16 Michigan 2-1-1 has received three direct reports of bottled water testing positive for lead. DHHS SEOC Desk and DEQ SEOC Desk was able to contact two of the callers. The Zero Water filter (pitcher) has a handheld test device so people know when to change the filter. This TDS Meter measures dissolved solids (it is not a lead test). This was explained and we are going to work on messaging to ensure this does not cause issues. Dissolved solids are in all water. The water from the callers is going to be tested and a case of water from one of the companies will also be sent to DEQ for testing. Brands are Spartan Spring Water and Canned Water for Kids. The filter company is also going to work on messaging and work with us on this matter
- Information reported to the JIC:

  - As of 1/17/16 as of 5 pm (start date was Tuesday, 1/12/16)

1. 21,393 homes visited by the FWRTs to date.

2. Distributed:

a. Number of cases of water 37,313
b. Filters 53,713
c. Filter cartridges 169,520
d. Test kits 7,379

3. *Total number of customers on the Flint water system*
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)
   c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 82,992 (additional 16,056 donated)
   b. Filters 115,700
   c. Filter cartridges 243,200
   d. Test kits 61,161

5. Teams going out tomorrow:
   a. › State ') type 3 teams---Goal tomorrow 300 homes per team
   b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC
Operations:

- Continuing to work with faith based organization to distribute resources.
- Working with colleges to obtain volunteers for canvassing.

Chris

Update 1/17/16 – 13th Day (12th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs), PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.

Attached Documents:

- SitRep 12

Status on Governor's request letter to the President:

- Emergency declaration received.
  - Limited to direct assistance so we will need to ask for the Individual Housing Program but that is something I will work on with FEMA.
- Major disaster declaration denied. The appeal is being developed with a draft to Paul Smith by later afternoon 1/18/16.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have 12 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.

- We will have 12 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed 11 state/local teams and 10 ARC Flint Water Response Teams to the field today.
  - 4,963 homes visited today.

yesterday.

01/16/16

01/17/16

- Information reported to the JIC:

  - As of 1/17/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 16,353 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received from prior to the SEOC activation (trying to validate the data) plus the PODs and door to door operations since activation.

2. Distributed:
   a. Number of cases of water 27,195
   b. Filters 50,432
   c. Filter cartridges 168,605
   d. Test kits 4,861

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)

c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 57,456 (additional 12,884 donated)
   b. Filters 108,520
   c. Filter cartridges 239,081
   d. Test kits 28,901

5. Teams going out tomorrow:
   a. ' State (,) type 3 teams---Goal tomorrow 300 homes per team
   b. 12 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Facilitated activation of the Genesee County/Genesee Health System MOU for mental health services.
- *Coordinated supplies for distribution to students at the U of M Flint campus.*
- Still concerned about people going to every fire station and collecting water/filters.
- Coordinated trash pickup at Fire Station PODs with the City Liaison officer.
- Coordinated hotshot deliveries of supplies to home bound population.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/16/16 – 12th Day (11th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to prepare for engagement following the Presidential Emergency declaration

Attached Documents:

- SitRep 11

Status on Governor's request letter to the President:

- Emergency declaration received. Federal Coordinating Officer (FCO) is David Samaneigo (Sam) who has been my LNO from FEMA. We began discussions on a transition to FEMA support last night. His team is headed to MI at this time and we will have our first coordination meeting on Sunday.
- The request for a Declaration of a Major Disaster was denied. FEMA advised this event does not fit the legal definition of a major disaster (natural incident or fire, flood, or explosion). This information has been provided since prior to the event to elected officials in Flint and the legislature. We are reviewing the chances for an appeal and I have already discussed this with the FCO.

Key items for tomorrow to note:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have ' state agency, type 3 teams · ·, with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- I will be back on duty Sunday.
- We have been working with some of the churches. Contact was made with 14 churches for Sunday distributions. Interaction with the pastors has been very positive.
- A logistics briefing will be provided to see how many more teams we can put in the field.

Items to Note

- LT Gov visited the local EOC today; discussed local EOC operations.
- Deployed 11 state teams and 10 ARC Flint Water Response Teams to the field today.
- DEQ sampling kits are now being received at the PODs.
- DEQ sampled two Head Start facilities and worked with GIS to obtain future sample sites.
- The Freeman School pilot was delayed due to some parts not arriving as scheduled. Testing was to be done Sunday but may not occur until Monday
- NG will have a total of ' personnel in the PODs for distribution. Mission has not changed.
  - IG soldiers have been in the PODS. more processing in tomorrow with start date of 1/18 in the PODS. The TAG and I will be discussing future use of NG personnel door to door next week.
- Information reported to the JIC:

  - As of 1/16/16 7pm (start date was Tuesday, 1/12/16)

1. 11,324 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received prior to the SEOC activation plus the PODs and door to door operations since activation. 3,850 homes were visited today (4,000 was the goal).

2. Distributed:
   a. Number of cases of water 20,876
   b. Filters 47,935
   c. Filter cartridges 167,401
   d. Test kits 3,322

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)
   c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 57,456 (additional 12,884 donated)
   b. Filters 108,520
   c. Filter cartridges 239,081
   d. Test kits 28,901

5. Teams going out tomorrow:
   a. State type 3 teams---Goal tomorrow 300 homes per team
   b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Provided direction to Operations and Logistics Section to initiate water sample collection at PODs.
- Lt Roach worked with faith based organizations today reference water and filter distribution. Additional churches were supplied with water, filters and test kits.
- Still concerned about people going to every fire station and collecting water/filters.
- Station #6 (POD) has associated safety concerns due to proximity of street and lack of suitable parking. We are working to resolve.

Subject: SEOC Update 1/15/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/15/16 – 11th Day (10th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Pilot the logistics plan and adjust as needed
- Continue with door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to ensure we get a Presidential Declaration of a Major Disaster and Emergency

Attached Documents:

- SitRep 10

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. Numerous calls and meetings took place between me and FEMA today.
- When we get the declaration(s) ... I will set up a legislative/congressional call to explain and provide bullet points as to what programs we will received. The Federal Coordinating Officer assigned will also be with me to answer questions. This has helped in the past.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have state agency, type 3 teams), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
  - A pilot team was used to test our logistics plan today and with 60% strength they had 160% output (830 homes).
- I will be off tomorrow but available by cell. Tony Katarsky will be SEOC State Director. I will be back in on Sunday.

Items to Note

- LT Gov visited the local EOC and SEOC today. He was able to hear our final briefing for the day.
- Held a short session managing stress with SEOC staff. Two handouts were put in MICIMS for all state and local personnel to view.
- Deployed 10 state teams and 5 ARC Flint Water Response Teams to the field today.
- Standing requirements were created for the JIC so we can get information to the media every day. Below are the current ones we have in place and we should have something out tonight according to the JIC.

    - As of 1/15/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 7474 homes visited by the FWRTs. We believe we have ~24,000 homes with filters but are trying to validate that information. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.

2. Distributed:
    a. Number of cases of water 18,576
    b. Filters 45,916
    c. Filter cartridges 165,382
    d. Test kits 3,217

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 44,688 (additional 12,884 donated)
    b. Filters 78,520
    c. Filter cartridges 163,081
    d. Test kits 18,761

5. Teams going out tomorrow:
    a. State /) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Home Deliveries:

- Still receiving lists from the Valley Area Agency on Aging (VAAA) on home deliveries and forwarding these to the Sheriff's office. They are going through a lot of homes. 120 out of 125 homes were completed yesterday.

Operations:

- We sent staff to visit Fire Station 6 and the warehouse today. Fire station 6 traffic was congested and that was during a "slow" time. The National Guard is identifying what is needed to alleviate this. MSP is working on providing uniform presence as needed. An additional iPad at each location will hopefully help relieve the amount of time that people are spending at the distribution sites.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional requests from churches were made and I approved the locations so they could be ready for Sunday. Lt. Roach was told by one of the pastors that he met with the Gov

today and expressed how much he appreciated the efforts put forth. We should have 14 for this Sunday. We are working on how we can increase this output.

- Still concerned about people going to every fire station and collecting water/filters. NG personnel observed vehicles with several cases of water an overheard saying they were heading to the next station. Some people were helping themselves and taking more than one case at a time. Per the NG they cannot physically stop people from doing so. The NG is going to try to change staging in the fire stations to try to prevent this.
- Flint PD is going to check in every day with the EOC and provide a specific contact person. They are also going to help with traffic issues at the PODS. Will ask Flint PD to provide a presence when water is off loaded at a POD to help prevent people from "helping themselves."

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/14/16 – 10th Day (9th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and finalize lease on warehouse space/begin to move supplies from GCCARD to new warehouse
- Continue with door to door teams and finalize planning for future team use
- Submit request for a Presidential Declaration of a Major Disaster and Emergency
- Continue to work on long term recovery items (DHHS, DEQ, MDARD)

Attached Documents:

- SitRep 9

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. I had a lengthy conversation with the FEMA Region V Administrator reference the request prior to sending.

Key items for tomorrow to note are:

- The door to door teams will continue in the morning.
- We will continue to ramp up door to door operations with additional teams. Teams continue to focus on the high lead level areas and additional data is being analyzed to focus mission areas.
- ARC will increase the number of their Water Response Teams.
- Supply burn rates as well as projections on how many teams will be needed to put filters in all homes within 3 and 5 days will be completed. Analysis will be done to see in NG personnel may be needed to finish in quicker manner.

Items to Note

- DEQ was notified of the number of homes who are willing to have them take additional samples in the future (current number (114). This question was added to the App being used by the Water Response Teams. Data will be provided when needed.
- LT Gov is scheduled to be at the local EOC and SEOC (~4:30) tomorrow to see the operations.
- Secured 80,000 sq. ft. of a warehouse today. Working to consolidate all resources in one location. Tomorrow will be the first day of full implementation of our logistics plan.
- Email sent to state employees to request volunteers for weekend.

- Media monitoring showed no incorrect information today.
- Michigan Association of Broadcasters is sending PSA to radio stations.
- Coordinating with Red Cross on volunteers for weekend.
- Deployed 8 Water Response Teams to the field today (approx. 120 volunteers). 78 Red Cross volunteers active across the operation today.
- National Guard is ramping up to have 3 soldiers per shift at each POD tomorrow. Will also have a Public Affairs Officer at the JIC and liaison at the local EOC.
- Senator Ananich visited the SEOC today to see how things operate. The visit went well and he seemed happy with the number of staff working the Flint event. He tweeted out a message indicating there is still a lot of work to be done but all are working hard.
- DHHS
    - The Community Health Emergency Coordination Center (CHECC) is working on the following:
        - A nutrition plan
        - Education materials, messaging, and working with local agencies
        - Developing a community assessment for disaster behavioral health services.
- Lined up the delivery of filters to two large apartment complexes and a student housing complex.
- We have the list of individuals needing home service (additional contacts will be sent to the Ops Chief at the Local EOC each day at 4:00) Info will be provided to the sheriff's office for action.
- Water Response Team Numbers (this is not the total of homes with filters – I will provide that number tomorrow but it appears we have filters in over half the residences):

	TOTAL	1/12/2016	1/13/2016	1/14/2016
Occupied Homes	1450	242	492	716
Vacant Homes	1967	152	161	1654
Total Homes	**3417**	**394**	653	2370
Resources				
Door Hangars	1487	217	453	817
Water	588	117	254	217
Filters	945	112	220	613
Pitchers	22	3	13	6
Water test kits	217	48	109	60
Replacement Filter	482		137	345
Total Resources Dispersed	**3741**			
Future sample test site	114	28	34	52

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/13/16 – 9th Day (8th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and close lease on warehouse space
- Continue with door to door teams and finalize planning for second wave increase (+15 teams – total for 1/14/16 will be 20)
- Continue to work on Governor's Declaration of an Emergency

Attached Documents:

- SitRep 8

Status on Governor's request letter to the President:

- All support data from state Agencies and local jurisdictions collected as of 6:00 pm on 01-13-16
- Current timeline:
  - First draft completed and ready for review by State Department Directors (including the Attorney General) by 11:00 am on 01-14-16
  - State agency reviews due back by 1:00 pm on 01-14-16 for revision of the draft
  - Revised draft to Captain Kelenske by 2:00 pm on 01-14-16 for review and forwarding to the Governor for final review
  - Final draft (based on Governor's review) submitted to FEMA Region V Administrator by no later than cob 01-14-16 but hopefully sooner. FEMA is aware and ready to receive.

Requests and potential response from FEMA/President

- The letter will request all programs eligible under the Stafford Act including Public Assistance, Individual Assistance, Hazard Mitigation, FEMA's coordination of assistance from other Federal agencies and direct assistance from FEMA
- The letter will also request potential direct reimbursement from other Federal agencies such as EPA, CDC, HUD, DHHS and SBA
- This request is in coordination with the request for Non-Stafford Act federal assistance already requested and received by the State (technical assistance and administration, but no direct reimbursement of disaster costs)
- Direct Federal assistance from FEMA in the form of Individual Assistance to homeowners for household repairs (repair and/or replacement of water service lines and Other Needs Assistance to reimburse for water filters, bottled water, etc.) is a possibility
- Direct Federal assistance from FEMA in the form of Public Assistance is not as likely as it is mostly replacement of publicly owned water distribution lines (and not the direct result of damage from a natural cause)
- If Stafford Act assistance is denied (Public Assistance, Individual Assistance and Hazard Mitigation) FEMA could still provide coordination of assistance from other Federal agencies if the President declares a disaster (or emergency) for the State of Michigan

Key items for tomorrow to note are:

- The door to door teams will continue at 9 a.m. – 5 p.m. Thursday morning and continue through the weekend.
- We will continue to ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas and additional data is being analyzed to focus mission areas.
- MNG will have a press event at the armory with incoming soldiers and MG Vadnais.

Items to Note

- Received information that Rev. Jesse Jackson will be in town 1/17/16 at 1:30 at the Heavenly Host Church of the Harvest of Dartmouth St, Flint.
- Managed and corrected misinformation on NG role.
- Senator Ananich is stopping by the SEOC tomorrow morning 0845. I am meeting with him and his Chief of Staff. Short visit as he has a 0930 at the Capitol.
- Working with Comcast so they can put teams in the field for distribution.
- Penske is going to give us 15-20 trucks over the weekend.
- Contact made with Two Men and a Truck for resources.
- Meeting set with Google where they will brief me and key staff potential tasks.

- Coordinated with Flint Mass Transportation Authority (MTA) to include Fire Station PODs on bus routes.
- Tomorrow I will have a projection as to the number of teams needed to get all citizens filters in their homes in 5 days / 3 days.
- We are standardizing team structure and supply deployment to increase efficiencies. Mission Ready Package (MRP) specifications will be sent out for other entities to assist with door to door. They will then be able to arrive as a MRP, get supplies, receive a mission location and deploy.
- 5 Water Response Teams were in the field again today. Below are the numbers from the 2 days of just the Water Response Teams (there are paper copies with data still to be entered from the PODs). I was just briefed by the ARC logistics planner and there are efficiencies we can put in place to increase homes touched per day. The next version of the app will provide more granular details. Additional 30 tablets were configured by DTMB today for field implementation to include use in the PODs.

	Total	1/12/2016	1/13/2016
Occupied Homes	533	242	291
Vacant Homes	238	152	86
Total Homes	**771**	**394**	377
Resources			
Door Hangars	473	217	256
Water	265	117	148
Filters	235	112	123
Pitchers	9	3	6
Water test kits	92	48	44
Replacement Filter	93		93
Total Resources Dispersed	**1167**		
Future sample test site	62	28	34

- We show 17,276 residences with filters (this does not include data entry to be completed from POD or other locations).
    - We have 35,378 service hookups but with apartments, multi residence dwellings, etc we would be around 45,000.
- Logistics Support
    - The American Red Cross Logistics Planner provided me a brief and I approved the plan forward. The current plan includes:
        - Mission – A filter in every home ASAP.
        - 4 Distribution Methods
            - PODs (5)
            - Water Response Teams (20 effective tomorrow and this will increase)
            - Local EOC "Hot Shots" (these are calls for functional needs, unable to get to a POD location due to ??, etc). Personnel dispatched with supplies.
            - Local EOC support for other local requests (Faith based for distribution, etc.)
        - Three warehouse locations at this time
        - How to better leverage ARC resources

- Supplies – Daily Numbers
    - Replacement Cartridges - 30,700 delivered.
    - Water (cases) - 19,152 cases delivered

- Budget projection completed and will be submitted to SBO for review.

- Notes from Water Response Team Command (MSP)
    - Very good synergy between Flint Post troopers and Genesee County Sheriff command and deputies in effective and efficient deployments for distribution efforts.
    - Great attitude and efforts by uniforms and volunteers to make important contributions to the City of Flint on water response team deployments.
    - Clear direction and coordination in the field of supply teams by lieutenants and troopers. No confusion. Clearly defined roles.

All personnel continue to be fully committed to fixing this as quickly as possible.

Chris

Update 1/12/16 – 8th Day (7th Full Day) After Governor's Declaration of an Emergency

I apologize in advance for the length of this report. With the supply issues we had the last couple of days I wanted to share our inventory plus what we anticipate to ensure we do not have supply issues.

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Fine-tune logistics
- Increase and deploy door to door teams (4 state teams added to teams from the Sheriff's Department)
- Increase collaboration and messaging of collaboration with local agencies (specifically the Sheriff's Department)

Attached Documents:

- SitRep 7
- Executive Order Activating the National Guard

Key items for tomorrow to note are:

- The Governor signed an Executive Order activating the National Guard. Mission will be to relieve ARC volunteers at the PODs (Fire Stations) which will free up the ARC volunteers for door to door activities.
    - I have briefed the ARC Disaster Officer on this plan.
- The Governor requested, through FEMA Region V, support from the Federal Emergency Management Agency (FEMA) to bring together and identify other federal agencies that may have programs and funding that could be dedicated to assisting Flint as part of an interagency recovery plan. One of the existing LNOs has been identified as the POC for this. He will be a great liaison for the FWIACC.
- The door to door teams will continue at 0830 Wednesday morning and continue through the weekend and ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas.
- We will look at all commodities and see where we are and where we need to be while working with the ARC logistics specialist.

Items to Note

- *PSA video sent out to Flint citizens on resources available.*

- Water

- Today's numbers - 7,824 cases of water arrived today, 1/12/16 (109 pallets)
- Ordered:
  - 19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)
    - 1/3 is going to GCCARD and the rest is going to the new warehouse
  - 12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)

- Filters
  - Today's numbers
    - Ordered on 1/11/16 and delivered 1/12/16 direct to GCCARD
      - 2,000 – Brita filter faucet mounts
    - Filter Replacements
      - 2,400 – Brita filter replacements (single pack)
      - 8,000 – Brita filter replacements (two pack)
  - Ordered on 1/12/16 to arrive Wednesday
    - Faucet Mounts – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
      - 10,000 – PUR Vertical faucet mount
      - 2,500 – PUR Horizontal mount
    - Replacement Filters – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
      - 10,000 – PUR replacement filters (3 pack)
      - 10,000 – PUR replacement filters (single pack)
    - PUR Combination Pack – to be delivered to GCCARD on 1/13/16 (Wednesday)
      - 10,700 – PUR combo packs

- To arrive Thursday
  - Zero Water Pitcher (8 Cup) – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 1,300 – Zero Water pitchers
  - Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 11,000 – PUR vertical faucet mount
    - 1,500 – PUR Horizontal faucet mount
    - 5,000 – Brita faucet mount
    - 10,000 – Brita adv faucet mount white
    - 12,000 – Brita adv faucet mount chrome
  - Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 117,600 – PUR replacement filter

- Test Kits
  - 6601 unassembled kits arrived at GCCARD today, 1/12/16.
  - 500 have been assembled and are ready for distribution
  - 1000 additional unassembled kits have been ordered to be delivered at GCCARD (no ETA yet)
  - 10,142 unassembled kits to arrive at GCCARD early next week

- Second warehouse – Located in Flint
  - 100, 000 square feet of secure warehouse obtained.
  - Accepting commodities beginning Wednesday, January 13

- Logistics Support
  - The American Red Cross Logistics Planner arrived from DC today as requested. I outlined what her mission was and how I saw the progression forward. This logistics planner will assist in streamlining the inventory and distribution process now and into the future.

- Door to Door Numbers

- Today the app implementation for the field went extremely well. There were a few issues that were quickly addressed. One related to how form fields should be filled out. Another was getting styluses for teams so that they don't have to remove their gloves in the cold. All very simple to fixes.
- We are working on version 2.0 so this can be used at the PODs
- We should be able to greatly optimize distribution in the near future as we mapped the active water subscribers from Flint's DPW and are adding them to the field team members apps. Of the ~56,000 possible addresses, this reduces the number of possible homes to visit down to ~29,000.
- Notes from the field commander:
  - "Today we started out the day using two groups that consisted of approximately 10 people in each group. We eventually combine groups with Genesee County Sheriff's group and they brought two more groups with approx. 10 people (Local UAW) in each group. This made us a lot more efficient and we were able to set up a game plan. Tomorrow I feel we will be more efficient and we will have a better plan in place to get the maximum output out of our resources."
- In the end, there were 394 total home visits with the following breakdowns:
  - 217 Door Hangers
  - 152 Vacant Homes
  - 117 Water Distributions
  - 112 Filters
  - 3 Pitchers
  - 48 Water Test Kits

- 211
  - CALL VOLUME:
    - 185 calls for water-related issues had been received as of 4:45 pm.

- Logistics made contact with Comcast and will be supplying them with filters and replacement cartridges for their deliveries in their work trucks as they make services calls. They will follow our procedures for reporting (our checklist).

Chris

Update 1/11/16

The focus today was the media event and getting the supplies and logistics on track. Most of the activity today was working on logistics for the water and other supplies.

Attached Documents:

- SitRep 6

Key items for tomorrow to note are:

- The door to door teams will start at 0830 Tuesday morning. It is reported that troopers are going to the door but DHHS employees are the lead with a troop car nearby.
  - State and local GIS created an App today for the teams to use tomorrow but I see potential use at distribution sites.
  - The App data will be used for our maps as we survey the public/distribute supplies and we will be getting real time metrics through the site from the field send back to the SEOC. We are using Android tablets tomorrow but in the future can use any mobile device for this.

Items to Note

- It was reported that only one POD (Station 5) was out of water longer than 30-45 minutes. This site was ~2 hours without water and part of that was the truck went to the wrong station. Trucks were sent as soon as the local EOC was notified.
- We also did not receive a DHHS shipment that was to come in which caused some filter delivery issues.
- Supplies are limited at this time; however, we are getting our shipments starting at 0630 tomorrow.
- We have Home Depot giving us 12,768 cases (this was a late development so the SitRep indicates half the amount) of water every day starting tomorrow. We are still working with other distributors too.
- ARC is flying in a logistics planner tomorrow. Three additional staff with be with her to shadow and help. We are turning warehouse logistics over to ARC logistics. We are moving tomorrow to a process that has a distribution center (GCCARD) and a warehouse that is 100,000 square that will maintain mass quantities. Staff has continually been placing orders for supplies to ensure we get a head of this. The intent is to keep the warehouse full so we do not have these continual issues of supplies.
- Began mapping lead service lines (anticipate having draft of lead service lines Friday).
- Coordinated with local IT managers overseeing filter tracking system to streamline data collection.

Local Emergency Operations Center

• Working to coordinate resources at the local level to maintain adequate supplies at all PODs.
• Demand has exceeded supplies and supplies are moving rapidly from PODs today. Working to make sure POD managers notify us when they start running low.
• Working to establish a warehouse for local resource storage.
• Established trigger points for resources at PODs and hourly inventory reporting from the PODs.
• Discussed potential long term water sources between local EOC and SEOC.
• Established planning cycle/meeting scheduled for 1/12/16.
• Local EOC EMHSD staff with Natasha Henderson to request deployment of City representative at local EOC.

Chris

Update 1/10/16

Attached Documents:

- SitRep 5
- Door card (English version but Spanish version will be ready for Tuesday)

I have a local EOC section listed below but state personnel are heavily engage in management of both locations. We occasionally hit some road bumps with this event but all personnel are working well together to accomplish our goals (especially state agency personnel).

I have had good discussion with FEMA LNOs. Two statements have been developed from our discussions that hopefully helps put this in more context but if it is more confusing I apologize:

1. In the immediate response, the State, in collaboration and coordination with city of Flint and county of Genesee are working to get water, water filters, and testing kits to the affected population. In conjunction, the state will coordinate with federal agencies to ascertain what resources can come to bear to help mitigate the issue.

2. If asked about a federal declaration from FEMA, we need to articulate the definition of major and emergency declaration and state or note to ourselves that it appears to not qualify; **however,** there may exist opportunities to leverage federal assistance from some agencies (i.e....EPA) under their own authority to help address this issue.

    - We need to really manage expectations on the potential for a federal declaration...not that we will not go after one but it will be difficult to get.
    - A major disaster is defined in the Stafford Act as any ***"nature catastrophe (including hurricane, tornado, storm, high water, windriven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause any fire, flood, or explosion.....causes damage of sufficient severity and magnitude, to warrant major disaster assistance.....to supplement the efforts and available resources of States, and local government....."***
    - An emergency declaration is ***"is any occasion or instance for which, in determination .....assistance is needed to supplement State and local efforts and capabilities to save lives and protect property and public health and safety or to lessen or avert the threat of a catastrophe....."***
        - This is limited to immediate and short-term assistance (I hate to put times on this but short-term is like 3 weeks), essential to save lives, protect public health and safety and property.
    - Severity of the situation is ***"A finding that the situation is of such severity and magnitude that effective response is beyond the capability the state and affected local governments, and that the state requires supplementary federal emergency assistance to save and to protect property....***
    - Nature of assistance for Emergency Declaration is for ***"Debris removal, emergency protective measures, direct federal assistance...."***
        - Debris Removal = ***self-explanatory and we do not have this***
        - Emergency Protective measures = ***water, commodities, transportation (remember ... to supplement what the locals and state are already doing if we need more)***
        - Direct federal assistance= ***what specific type of work is requested, and what are the reasons why the state/local government cannot perform or contract for performance. Essentially what is the need that state/local govt cannot provide. I can see this being something we need but we may be able to get this outside a federal declaration under the federal agencies own authority to help address this issue.***

Back to the update...

Key items for tomorrow to note are:

- Training is occurring for the door to door teams scheduled for Tuesday morning.
- Deploying an additional MSP District Coordinator to the local EOC for command and control support.
- Deploying two DTMB trucks and two drivers for sustained logistical support for the week.
- Media event with the Governor in Flint.
- New Incident Action Plan starts (1/11 0800 -1/13 0800 operational period). Our objectives are as follows:
    1. Ensure all households within impacted community have required resources.
    2. Ensure accurate tracking and accounting of all commodities.
    3. Improve and maintain public information strategy.
    4. Develop a long term public health and services plan.
    5. Ensure adequate staffing to support operational requirements.
    6. Identify possible assistance programs.

7. Develop an approved GIS strategy.
8. Maintain coordination between partner agencies and organizations.
9. Enhance situational awareness and common operating picture of all activities.
10. Develop a comprehensive Recovery Plan.

Items to Note

- All 9 churches had filter systems/replacement filters, information sheets, and water test kits delivered as requested by each pastor/reverend on Sunday. We did not think we could get them water due to the limited time but we did end up getting water to all 9 churches with the other items.
- Fire station resource locations stayed open from 9a to 9p and will continue with those hours until further notice (Staffing is in place until Saturday). ARC is staffing these locations.
- The media event was held at Fire Station No. 1 and report back is that it went well and the spirit of collaboration between local, state, non-governmental partners is strong was relayed.
- The four door to door teams will have the hours of 8:30 a.m. to 5 p.m.
    - Each will have logistics support from DTMB, security from MSP, and contact personnel from DHHS.
    - The door card is attached that will be left if no one is home.
- Worked to identify a storage location within the City of Flint for water and supplies. G-CARD is identified as temporary location but we are moving toward a state run warehouse operation (looking at private sector partners to assist, especially with the warehouse management side).
    - GCCard is large enough, centrally located and comes staffed. GCCard has 75,000 sq ft with warehouse managers to assist with tracking resources coming in and out.
- GIS will provide us daily updates of how much was distributed each day but note we have a delay in data entry from delivery to entry in the GIS system. Over the weekend there was a problem locally with staffing to get this completed. A solution is in place and will be implemented so we get timely data. Distributed to date (as of 1/8/16).
    - 12,386 filters
    - 1,985 replacement filters
    - 354 Pitchers
    - 2500 Lead Testing Kits
- Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to ensure distribution sites maintain an appropriate level of inventory. I have requested trigger points get put in place so we do not get below certain levels in the main warehouse location.
    - Contacts with some large water distributors have been made and their and our logistics chiefs will connect first thing this week.
    - We have ordered an additional (expedited delivery with ETAs tomorrow)
        - 40,000 Brita Filters
        - 40,000 Brita Replacement Filters
        - 1000 Zero 8-Cup Pitchers
        - 1000 Zero 8-Cup Pitchers
        - 2000 PUR Replacement Filters
        - 93 Pallets of water (about 6700 cases)
- GIS continues to produce multiple maps for use.
- JIC Items
    - Requested PSA on the radio. Media has been approved and working with MAB.
    - Requested JIC to contact Comcast and Dish Network for availability for continuous running of filter install/replacement and test kit video.
    - A news release will likely going out tomorrow regarding canvassing in neighborhoods. Continued social media messaging.
        - Tuesday – embed state PIO with one of the canvassing teams to liaison with media.
        - JIC moving tomorrow to Flint.

Local Emergency Operations Center

I am providing you some information on some issues we ran into at the PODs. This has been addressed with additional state resources and processes put in place so we do not run out of resources. Public concerns/complaints have not been brought to my attention at this time. Staff is working very hard to ensure we do not run out of supplies at the PODs and they understand the consequences. No one in the Local EOC or State EOC is happy the follwoing occurred and I felt you should know in case it is brought up. Again, I believe we have fixed this and I take full responsibility for any supplies not being on site.

Fire Station Inventory Levels:

Station 1:

- Only time without supplies - 15 minutes without water while the truck was unloaded.

Station 3:

- Ran out of replacement filters around 7:00, replacement filters delivered around 7:30. Had to pick up replacement filters from Home Depot and deliver.

Station 5:

- Ran out of water around 5:00, water was delivered around 6:30. We needed to find additional trucks because DTMB drivers were over hours. The ARC stepped up and found a truck to go and pick up a pallet of water and deliver.
- Somewhere between 4:00-6:00 they ran out of lead test kits. No way to restock these because City facilities were closed and could not reach anyone.

Station 6:

- Around 5:00 ran out of water, filters, and replacement kits. Replacement kits were delivered around 7:30. Additional water and filters were delivered after 9:00 due to the DTMB drivers heading back to Lansing. Food Bank was called and had to get drivers in to operate trucks, pick up water from the School District, load and deliver to all sites. Delays occurred with weather conditions and needing to use last minute sheriff EOC staff to load due to issues with City workers. City workers were scheduled to help and left around 7:00 without helping.
- 2 pallets of water were dropped off in the afternoon and within 1 hour were gone. This was much faster than we expected. On 1/9 they didn't go through 2 pallets of water at any station for the hours 9:00-4:00.
- We received news that a reverse 9-1-1 call notified residents of water which caused an unanticipated amount of people obtaining water. There was also a report of 1 person walking out with 2 cases of water and trying to sell in the parking lot.

Station 8:

- Around 7:00 ran out of filters and lead tests. Filters were delivered around 8:00 from the food bank trucks.
- Hourly reports were requested in the morning from volunteers but this information was not received as to the status throughout the day. Early inventory of supplies took between 1 hour-1.5 hours to receive in the EOC. We were not advised of low counts, just zero numbers.
- Reports received that the last couple of hours were slow.
- Residents were advised of the other sites and the opportunity to obtain supplies.

Restocking Plan

- United Way set up meeting with Food Bank to discuss.
- Had EOC meeting on this topic to discuss options.

Churches:

- All 9 churches received waters, filters, and informational bulletins.
- Lt Roach received positive feedback from 3 of the pastors.
- No complaints were received.

Signage:

- Provided information to SEOC on signage requirements at the fire stations

Storage:

- Researched storage spaces; established temporary site at GCCARD.

Personnel:

- Lack of local EOC leadership (seems somewhat checked out) with IC and Deputy IC (doing an okay job).
- Captain TaFoya (Genesee County) helped tremendously today with all the plans outlined above and attended the press conference.
- Tina Martinez at the Food Bank and Matt Purcell at GCCARD were extremely helpful in getting last minute operations set up.

Chris

Update 1/9/16

SitRep 4 attached for more in depth information. The below only contains some items worked on today and while the format in the attached SitRep is not perfect (it is created automatically by MICIMS) it does contain a lot more information you may want to read. I also attached one of our maps. It is our filter distribution map. All filters handed out by anyone working with us feeds into this now. We are continuing to refine these and at this time there is a delay in the upload of address data but we are working on it. We have a ways to go to get filters in every home but this will help direct us to those who need still them. We also are working on identifying abandoned homes.

Key items for tomorrow to note are:

- 9 churches will have ARC volunteers and filters for distribution. Some may also get water.
- 5 fire stations are a distribution point for water, filter systems/replacement filters, and water test kits. While only open today until 4 p.m., tomorrow and until further notice they are open from 9a to 9p.
- Media event will take place on the above tomorrow.

Items to Note

- 211 has some issues with call load but it is being worked on. 2-1-1 Director contacted MDHHS PIO to discuss/resolve caller wait times and messaging. We anticipate an increase in activity tomorrow in 211 calls so we requested and received an increase to staff 211.
- We are shifting tasks the SEOC took on that are handled more effectively and efficiently at the local EOC. We have established command and control in their EOC. We are running things there but that is not being made public. We are doing this in partnership but we are clearly handling the operation with state personnel oversight.
- A 3rd FEMA LNO arrived today upon my request. This has nothing to do with a Presidential request for a declaration but support for some other items I want worked on for long term recovery.
- We continue morning calls with the local EOC leadership and local emergency manager on what our goals for the day are as well as any issues/concerns.
- Five 5 fire stations have received water, water filters, replacement cartridges, and water testing kits with American Red Cross personnel at each location to assist with delivery of resources and collection of addresses receiving them. These locations will be open from 9a – 9p daily until determined they are no longer needed. Those picking up water testing kits will be advised that they can return the test kits to the fire departments (where they will be picked up and taken to the Flint City Hall), the Flint Water Treatment Plant, or they can take them directly to the Flint City Hall. For those unable to return the kits, 211 can make arrangements for pick up the kits. We understand

response to these sites has been positive thus far. The Genesee County EOC will be monitoring these supplies and request replacement of products as needed
    - A call is going out tomorrow morning to advise this information ... I do not believe it was every resident but Tori Sachs has that info if needed.
- I approved a press release today to advise the public that all levels are working together to ensure delivery of filters, test kits and water; noting that all of these items were delivered to the 5 Flint fire department stations. It was stressed that the public should be aware that the local and state agencies have been working cooperatively to assist the residents - and will continue to do so. This was done to hopefully end or at least minimize the "who can get water and filters out first" when all of this has been connected with the state and coordinated since the state declaration was put in place.
- The arrangement of 2,000 filters, to be taken to 9 local churches on Sunday, January 10, is ongoing. The filters have been secured; they are now in the possession of the DTMB. DTMB will return to Flint on Sunday morning to deliver these to necessary locations. The American Red Cross will be on site at each church to assist with distribution and recording addresses (for GIS). The local EOC is working to ensure these arrangements are complete and run smoothly. Future engagement with the faith based community will occur to assist with additional distribution.
- A Flint City liaison has not been in the EOC but starting Monday this will be in place to keep the Flint Mayor appraised of activities being conducted in the city. She also has been advised she can call me at any time if she needs anything.
- Training has been confirmed for the door-to-door operation scheduled to start Tuesday. Four teams are initially scheduled with more to potentially be put in place. These are the teams that will be handing out water, filter systems/replacement filters, test kits and information. If nobody is home, a door hanger with information is being left. DHHS personnel and one MSP trooper will be on these teams.
    - Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.
        - Training is so those going door to door can explain what the filters do, how to install them, if they need install help to call 211 who has a list of people who can install the filters, and answer any other questions versus just handing them the filter.
    - Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m. AT THIS TIME. I am reevaluating these times to increase contact with someone versus just leaving information.
    - Logistics are being finalized for the teams and trucks to handle stocking and re-stocking of materials during daily operations.
    - GIS maps will provide guidance on deployment locations for these teams and other teams in the field.
- A pilot project at Freeman Elementary with LARA and DEQ has been initiated to see if replacing certain plumbing components in faucets at the school will drop the lead level.

MSP/EMHSD GIS Section Updates

Accomplished Today (January 9):

- Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.
- Produced Filter Distribution Map.
- Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
- Worked on map of franchise customers outside of Flint City.
- Produced maps for MDARD on food establishments and Local Health Departments.
- Produced map of Church Filter Distribution map for DTMB.

Local Emergency Operations Center

- The state has deployed 10 personnel to the Genesee County EOC to ensure we have command and control at the local level. On 1/8/15 The state personnel took over the incident management functions of the Genesee County EOC (not public). The arrival of additional staff allowed the local Emergency Management Coordinator to delegate tasks which relieved a tremendous amount of stress.
- Additional Sherriff staff ( ) will be shadowing the state incident management team to allow for transition to the county personnel later in the incident when we are comfortable with them handling things. Not sure when that will be but we have secured a direct bill hotel for staff to stay in Flint as long as needed.
- With the additional staff, the Local EOC will be able to take over functions previously handled by the SEOC including:
    - Logistical activities to support church operations.
    - Logistical activities to support fire stations operations.
    - Coordinate Donations Management activities and draft donations management plan
    - Coordinate Volunteer Management activities
    - Identify local storage/staging facilities
    - Overall inventory tracking
    - Tracking of Points of Distribution (PODs)

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/8/16

SitRep 3 attached.

There is a significant difference in what is being presented by the media and what the local EOC is relaying to us at the SEOC. It is also being driven by the media that this is a state versus local response (who is providing more and quicker versus a coordinated effort between all). That said, I advised SEOC personnel that perception is reality in some eyes and we are to move forward to address items that typically are addressed at the local level. I have ordered the SEOC open all weekend due to make the quick wins that we need and continue to get the coordination and collaboration in place that is needed (but make gains on our own as needed).

Items to Note

- Two FEMA LNO's arrived today and are in the SEOC. A third LNO was requested from FEMA due to some unique issues with this event to include having to deploy more or my staff to the local EOC to get more structure and/or find out why there is an issue with the message the media is showing versus what we are hearing from the local EOC.

- We finally received from the local EOC 8 locations (we were told originally early in the week they had 80-90) that are their Points of Distribution (PODs) for water in conjunction with the local food bank. The PODs are not getting water from the food bank even though the food bank has water. We are going to resolve this issue as we can help deliver the water to the PODs but we were not aware of this. 8 PODs is not enough locations if water needs to be distributed to citizens. Speaking with the ARC Regional Administrator later today, I believe ARC got water to those locations but I need to confirm that in the morning. The food bank reported they had 376 cases of water.

- We have learned that a low number of residents are testing their water when DEQ can test 400 kits per day. This is an added focus that we believe can be increased through dissemination of test kits with the filters and any water.

- I found out the Mayor was okay with using fire stations as distribution points for water, filters, and water test kits. While this did not come to me through the local EOC, I advised we needed to get water, filters, and test kits to these locations for tomorrow. The distribution at 5 Flint Fire Department stations has been coordinated to be in place by 10:00 am tomorrow morning.

    - DTMB has provided a truck and driver to pick up water test kits from DEQ lab in Lansing, water from the Food Bank and water filters and replacement cartridges from GCARD in Genesee County.
    - 10 American Red Cross (ARC) volunteers will meet the DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.
    - Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.

- STILL FINALIZING - We have made available 2,000 Filters for distribution on Sunday as parishioners leave mass/services. This will be 200 filters for 10 churches in Flint. While this is a small number of churches, we do not want to waste an opportunity to hand out filters and this seems like a quick way to so. The filters will be put on the DTMB truck on Saturday for delivery to TBD locations for distribution. Logistics remain undetermined as I am still waiting on a list of the churches, pastors/reverends/hours or services/etc. The DTMB truck will be returning to Lansing approximately 11:00 a.m. so we need to finalize this quickly on Saturday. We may utilize ARC to assist with this.

- The Recovery branch is working with the JIC to develop a door hanger card. DTMB is working on the printing portion of the hanger card. Recovery will also be finalizing logistics over the weekend for neighborhood canvasing to occur early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.

- It appears that 211 has become overloaded. DHHS is researching ways to increase capacity for calls.

- A Volunteer Management Coordinator is in the Genesee County EOC as of today.

- A Donations Management Coordinator has been requested and she will be in the Genesee County EOC Saturday.

- DHHS had a conference call with GM today; they indicated they can provide cash, and supplies, but primarily manpower. No commitments were made at this point. We inquired as to availability of warehouse space and trucks. It was left as GM being a major resource pool that we can tap into as we determine missions. Further conversations will occur, but primarily GM just wanted us to know they are there if needed

- An additional EMHSD staff member was sent to the Genesee County EOC to act as Operations Section Chief and obtain awareness of the situation there.

- GIS staff met with various parts of Genesee County/Flint personnel to try to get a handle on data available.

- GIS continues to work with local GIS personnel with three GIS staff going to Flint today to work with them. GIS staff is working with U of M on how best to proceed with digitizing water lines for long term recovery.

Chris

UPDATE 1/7/16

A summary of some of today's SEOC activities is provided below. Attached is the following:

- Today's SitRep which contains more information than below.
- The resource request/task assignment sheet for your situational awareness. This is how locals request resources as well as how we track resources and any assignments and/or tasks that are to be completed.
- JIC Task Tracking – for your situational awareness on how we are tracking requests and assignments. Once someone is assigned a task or resource request it allows them to document what work has been or will be done as shown at the bottom of the document.

Items to note:

- I received a document this evening from Genesee County which appears to be damage assessment information. Analysis of this will occur tomorrow. It appears to be infrastructure and costs to fix it and no other impacts.
- I spoke with Jamie Curtis, Genesee County Commissioner, this evening. A very good relationship is in place with him, especially with our District Coordinator (DC). I also have our DC working on developing stronger relationships with the Mayor/Mayor's office.
- GIS staff continue to obtain data and work with County and City personnel to get a picture of where resources have been provided, need to be provided, as well as infrastructure locations (pipes) that could be affected.
- Personnel and agencies have been tasked with developing a plan to get people in the community to deliver information, hand out filters, etc. This would target those areas we are showing minimal or no filter distribution based on the data we are collecting. The plan is to get them in the field by Tuesday and the plan will be provided to me tomorrow.
- Filters can be obtained at the following locations:
  - Michigan Department of Health and Human Services office, 125 E. Union St., Flint, MI 48502
  - Michigan Department of Health and Human Services office, 4809 Clio Road, Flint, MI 48504
  - Genesee County Community Action Resource Department office, 2727 Lippincott, Flint, MI 48507
  - Genesee County Community Action Resource Department office, 601 N. Saginaw, Flint, MI 48502
- Conducted briefing with local EOC and county executive.
- Conducted briefing with state agencies (daily updates).
- Began work to schedule legislative/congressional conference calls. Tentatively scheduled for 2 p.m. Friday.
- JIC continued to develop messaging.

- Provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
- Deployed two EMHSD/SEOC liaisons to assist the local EOC.
- Published the Incident Action Plan and continued assignment of objectives/tasks.
- FEMA Liaison Officers just arrived in Lansing to assist command and general staff.
- I spoke with Harvey a few times and he should have talking points later tonight or tomorrow a.m. for his use and also for others who may speak to media outside of state government who may benefit from our messaging.
- We held a media round table at 1 P.M. at the SEOC. Dr. Wells and I spoke and answered questions to numerous media outlets.
- Local agencies and NGOs continue to provide water and filters to citizens.
- The website, www.michigan.gov/flintwater, was update with information and links to assistance to include 211. Additional recommendations were provided to include information on the testing water in homes.

EMHSD GIS:
Accomplished Today:

- Reproduced Socio-Economic Status Map
- Reproduced Predicted Affected Populations Map
- Cleansed old data and reports for water filter distributions
- Created draft map of water filter distributions (Refinement needed before releasing final product)
- Scheduled on-site visit with Flint GIS Department and Genesee County GIS Department
- Formatted databases to host content
- Researched service line database creation and scheduled meeting with U of M Flint to discuss timelines and resource needs
- Generated water infrastructure map (does not include building service lines)

Tasks for Tomorrow:

- Meet with Flint City GIS
- Meet with Genesee County GIS
- Meet with U of M Flint GIS
- Finalize water filter distributions map
- Finalize plan for data distribution methods

Chris

UPDATE 1/6/16

A summary of today's SEOC activities is provided below. I tried to distill this as best I could but there has been a lot of activity and discussion to get an accurate assessment of the situation. Attached is the final draft of objectives and tactics for the operational period and agency situation report (SitRep) which has more SEOC agency information. I have implemented weekly operational periods.

Advise if you want anyone else copied or off this distribution.

Daily Update

- Set goals for SEOC and identified response/recovery emphasis

- Requested FEMA liaison officers (LNO) from FEMA Region V. Two LNOs will be on site by ~3 p.m. 1/7/16. Both are known contacts to me and some staff and one has worked extensively with me during the SE MI flooding in a command and control position. These personnel have been specifically tasked with this mission. **THEY ARE NOT HERE TO ASSIST WITH A PRESIDENTIAL DECLARATION REQUEST BUT TO ASSIST ME.**
- PIOs from multiple agencies were here and established the Joint Information Center (JIC). News released pushed out on this. I am very happy with the PIO work and movement toward coordinated messaging.
- Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts to ensure situational awareness and to develop a common operating picture.
    - I opened the briefing by identifying our initial goals, items to think about while subject matter experts were briefing us, and how we are to move forward, find quick wins, and regain trust.
    - **MDHHS – Elevated Blood Lead Levels**
        - Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what has occurred in terms of health monitoring throughout the Flint crisis.
    - **MDEQ – Water Testing Protocols**
        - Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.
- Developed Incident objectives, strategy and tactics (see attached)
- Identified SEOC and state agency staff positions
- Assigned work tasks for SEOC operation period from 0800 January 6, 2016 to 1700 January 8, 2016
- Reviewed planned actions, prepared final draft Incident Action Plan
- **Made contact with the Genesee County Emergency Manager first thing in the morning and held a conference call mid-day to discuss roles. Daily 0830 command conference calls with local EOC command staff starts tomorrow. Tomorrows call will include the County Commissioner and the City Administrator (both invited). Topics include the incident action plan objectives and establishing better local coordination, command and control to facilitate integration with the SEOC. The local EOC is not functioning as it needs to with personnel and local coordination and we are working on that issue.**
- I will be in Flint tomorrow for a 2 p.m. media round table with local officials that was set up by the JIC.
- The attached initial objectives will be updated at least every operational period and as needed. I listed the objectives below but the tactics to accomplish them is in the attached if you want further information.
    1. Activate the State Recovery Task Force (SRTF).
    2. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.
    3. Obtain and maintain situational awareness and common operating picture of all activities.
    4. Establish SEOC operational period and hours of operations.
    5. Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.
    6. Develop a comprehensive GIS strategy.
    7. Coordinate response and recovery activities with MIVOAD and identify potential mission areas.
    8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.
    9. Provide technical assistance to the local Damage Assessment process.
    10. Establish a Joint Information Center (JIC) and develop a public information strategy.

11. Monitor MI CIMS for resource requests and address as appropriate.
12. Establish and disseminate cost center information for the incident.

- Additional tasks include:
    - Determine what federal agencies are already involved and their status
    - Identify potential water supplies
    - Determine where affected homes are located, where filters/pitchers (and replacements) were installed/provided, and determine who needs filters, etc.
    - Determine how filter distribution is handled, and if it can be handled more efficiently and effectively
    - Determine what mechanisms are in place for nutrition supplementation

EMHSD GIS Accomplishments:

- Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC
- Established a daily call with county and city GIS personnel to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
- Began consolidating local data from local GIS practitioners into a consolidated database, to include:
    - Water Pipeline Locations
    - Filter Distribution Locations
    - November 25, 2015 Water Monitoring Results (Partial, some data remains to be digitized)
    - Affected School Locations
    - Predictive analysis of blood lead levels for affected area
    - Updated Parcels
    - Demographics
    - Block Groups
- Produced a map for the filter distribution locations
- Began contacting specialists who developed historic maps depicting the Flint Water Crisis to obtain the data

Subject: Update - Genesee County Declaration

Below are some key points for your situational awareness (FYSA) that have taken place or will take place within the next 15 hours.

- I was on the phone with Sean Kammer, Assistant to the Flint City Administrator, when the declaration hit the news so I advised him immediately. He was going to let the City Administrator know.
- I contacted MSP Lt. Roach, 3rd District Coordinator, who was at the Genesee County EOC and advised her to let the County EM know the declaration status.
- State Emergency Management Coordinators (SEMCs) were notified via our notification system with additional information in an email.
    - This included information on the SEOC activation and a 0900 briefing for SEMCs.
    - Some subject matter experts will provide us an update to establish a common operating picture.
- We have been in contact with FEMA Region V watch desk ... they will be on the call tomorrow and continue to monitor the situation.
- I have been in contact with the FEMA Region V Administrator to keep him updated.
- Operational period for the SEOC will be M-F, 0800 to 1700 at this time.
- Situation Reports (SitReps) will be provided in the evenings.
- An Incident Action Plan will be developed tomorrow.

Call me with any concerns or questions.

Chris

Subject: www.helpforflint.com

Hi Tori,

Captain Kelenske asked me to review the website you sent to him. I understand he already suggested a box be added to the Volunteer form for Skill Set In addition to that, below are a few notations from the JIC

- If you are a resident of Flint seeking resources, please call 211 or visit www.michigan.gov/flintwater. We're committed to a coordinated approach with resources from state agencies to address all aspects of this situation. – Just a notation that there is sensitivity to the fact this is a collaborative effort with state, city, county, and now federal resources. Our news releases say: The state of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County and local community organizations.
- In the Flint Water Response Team section, please add: Replacement Cartridges, as these are also available at the sites

The rest looks great! Thanks.

Shanon

I added some items and probably will add some more after I speak with Sheri Irwin. Yellow highlights are changes. Blue highlights are number that will change tonight.
If you get time take a look.

Captain – Quick question for you. In your update you say there has been x amount of resources distributed. Is that since Oct. 1 or since Jan. 5?

Thanks!
Tori

Subject: SEOC Update 1/17/16 - Flint Water - Limited Distribution

Update 1/17/16 – 13th Day (12th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs), PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.

Attached Documents:

- SitRep 12

Status on Governor's request letter to the President:

- Emergency declaration received.
  - Limited to direct assistance so we will need to ask for the Individual Housing Program but that is something I will work on with FEMA.
- Major disaster declaration denied. The appeal is being developed with a draft to Paul Smith by later afternoon 1/18/16.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have ! state agency, type 3 teams), with a goal of 300 homes per team.
  - We will have 12 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed ι state/local teams and 10 ARC Flint Water Response Teams to the field today.
  - 4,963 homes visited today.

01/16/16

01/17/16

- Information reported to the JIC:
  - As of 1/17/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 16,353 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received from prior to the SEOC activation (trying to validate the data) plus the PODs and door to door operations since activation.

2. Distributed:
   a. Number of cases of water 27,195
   b. Filters 50,432
   c. Filter cartridges 168,605
   d. Test kits 4,861

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)
   c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 57,456 (additional 12,884 donated)
   b. Filters 108,520
   c. Filter cartridges 239,081
   d. Test kits 28,901

5. Teams going out tomorrow:
    a. State type 3 teams---Goal tomorrow 300 homes per team
    b. 12 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Facilitated activation of the Genesee County/Genesee Health System MOU for mental health services.
- Coordinated supplies for distribution to students at the U of M Flint campus.
- Still concerned about people going to every fire station and collecting water/filters.
- Coordinated trash pickup at Fire Station PODs with the City Liaison officer.
- Coordinated hotshot deliveries of supplies to home bound population.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/16/16 – 12th Day (11th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to prepare for engagement following the Presidential Emergency declaration

Attached Documents:

- SitRep 11

Status on Governor's request letter to the President:

- Emergency declaration received. Federal Coordinating Officer (FCO) is David Samaneigo (Sam) who has been my LNO from FEMA. We began discussions on a transition to FEMA support last night. His team is headed to MI at this time and we will have our first coordination meeting on Sunday.
- The request for a Declaration of a Major Disaster was denied. FEMA advised this event does not fit the legal definition of a major disaster (natural incident or fire, flood, or explosion). This information has been provided since prior to the event to elected officials in Flint and the legislature. We are reviewing the chances for an appeal and I have already discussed this with the FCO.

Key items for tomorrow to note:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have state agency, type 3 teams), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- I will be back on duty Sunday.
- We have been working with some of the churches. Contact was made with 14 churches for Sunday distributions. Interaction with the pastors has been very positive.
- A logistics briefing will be provided to see how many more teams we can put in the field.

Items to Note

- LT Gov visited the local EOC today; discussed local EOC operations.
- Deployed 11 state teams and 10 ARC Flint Water Response Teams to the field today.

- DEQ sampling kits are now being received at the PODs.
- DEQ sampled two Head Start facilities and worked with GIS to obtain future sample sites.
- The Freeman School pilot was delayed due to some parts not arriving as scheduled. Testing was to be done Sunday but may not occur until Monday.
- NG will have a total of : personnel in the PODs for distribution. Mission has not changed.
    - NG soldiers have been in the PODS. more processing in tomorrow with start date of 1/18 in the PODS. The TAG and I will be discussing future use of NG personnel door to door next week.
- Information reported to the JIC:

    - <u>As of 1/16/16 7pm (start date was Tuesday, 1/12/16)</u>

1. 11,324 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received prior to the SEOC activation plus the PODs and door to door operations since activation. 3,850 homes were visited today (4,000 was the goal).

    2. Distributed:
        a. Number of cases of water 20,876
        b. Filters 47,935
        c. Filter cartridges 167,401
        d. Test kits 3,322

    3. Total number of customers on the Flint water system
        a. *29,944 paying customers*
        b. 45,000 hookups (This is our high end target #)
        c. 39,000 includes apartment complexes (The is the low end target #)

    4. Resources purchased:
        a. Cases of water 57,456 (additional 12,884 donated)
        b. Filters 108,520
        c. Filter cartridges 239,081
        d. Test kits 28,901

    5. Teams going out tomorrow:
        a State type 3 teams---Goal tomorrow 300 homes per team
        b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

<u>Local EOC</u>

Operations:

- Provided direction to Operations and Logistics Section to initiate water sample collection at PODs.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional churches were supplied with water, filters and test kits.
- Still concerned about people going to every fire station and collecting water/filters.
- Station #6 (POD) has associated safety concerns due to proximity of street and lack of suitable parking. We are working to resolve.

Subject: SEOC Update 1/15/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/15/16 – 11th Day (10th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Pilot the logistics plan and adjust as needed
- Continue with door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to ensure we get a Presidential Declaration of a Major Disaster and Emergency

Attached Documents:

- SitRep 10

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. Numerous calls and meetings took place between me and FEMA today.
- When we get the declaration(s) .. I will set up a legislative/congressional call to explain and provide bullet points as to what programs we will received. The Federal Coordinating Officer assigned will also be with me to answer questions. This has helped in the past.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have state agency, type 3 teams ;l), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
  - A pilot team was used to test our logistics plan today and with 60% strength they had 160% output (830 homes).
- I will be off tomorrow but available by cell. Tony Katarsky will be SEOC State Director. I will be back in on Sunday.

Items to Note

- LT Gov visited the local EOC and SEOC today. He was able to hear our final briefing for the day.
- Held a short session managing stress with SEOC staff. Two handouts were put in MICIMS for all state and local personnel to view.
- Deployed ' state teams and 5 ARC Flint Water Response Teams to the field today.
- Standing requirements were created for the JIC so we can get information to the media every day. Below are the current ones we have in place and we should have something out tonight according to the JIC.

  - As of 1/15/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 7474 homes visited by the FWRTs. We believe we have ~24,000 homes with filters but are trying to validate that information. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.

2. Distributed:
   a. Number of cases of water 18,576
   b. Filters 45,916
   c. Filter cartridges 165,382
   d. Test kits 3,217

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 44,688 (additional 12,884 donated)
    b. Filters 78,520
    c. Filter cartridges 163,081
    d. Test kits 18,761

5. Teams going out tomorrow:
    a. State [illegible]s) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Home Deliveries:

- Still receiving lists from the Valley Area Agency on Aging (VAAA) on home deliveries and forwarding these to the Sheriff's office. They are going through a lot of homes. 120 out of 125 homes were completed yesterday.

Operations:

- We sent staff to visit Fire Station 6 and the warehouse today. Fire station 6 traffic was congested and that was during a "slow" time. The National Guard is identifying what is needed to alleviate this. MSP is working on providing uniform presence as needed. An additional iPad at each location will hopefully help relieve the amount of time that people are spending at the distribution sites.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional requests from churches were made and I approved the locations so they could be ready for Sunday. Lt. Roach was told by one of the pastors that he met with the Gov today and expressed how much he appreciated the efforts put forth. We should have 14 for this Sunday. We are working on how we can increase this output.
- Still concerned about people going to every fire station and collecting water/filters. NG personnel observed vehicles with several cases of water an overheard saying they were heading to the next station. Some people were helping themselves and taking more than one case at a time. Per the NG they cannot physically stop people from doing so. The NG is going to try to change staging in the fire stations to try to prevent this.
- Flint PD is going to check in every day with the EOC and provide a specific contact person. They are also going to help with traffic issues at the PODS. Will ask Flint PD to provide a presence when water is off loaded at a POD to help prevent people from "helping themselves."

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/14/16 – 10th Day (9th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and finalize lease on warehouse space/begin to move supplies from GCCARD to new warehouse
- Continue with door to door teams and finalize planning for future team use

- Submit request for a Presidential Declaration of a Major Disaster and Emergency
- Continue to work on long term recovery items (DHHS, DEQ, MDARD)

Attached Documents:

- SitRep 9

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. I had a lengthy conversation with the FEMA Region V Administrator reference the request prior to sending.

Key items for tomorrow to note are:

- The door to door teams will continue in the morning.
- We will continue to ramp up door to door operations with additional teams. Teams continue to focus on the high lead level areas and additional data is being analyzed to focus mission areas.
- ARC will increase the number of their Water Response Teams.
- Supply burn rates as well as projections on how many teams will be needed to put filters in all homes within 3 and 5 days will be completed. Analysis will be done to see in NG personnel may be needed to finish in quicker manner.

Items to Note

- DEQ was notified of the number of homes who are willing to have them take additional samples in the future (current number (114). This question was added to the App being used by the Water Response Teams. Data will be provided when needed.
- LT Gov is scheduled to be at the local EOC and SEOC (~4:30) tomorrow to see the operations.
- Secured 80,000 sq. ft. of a warehouse today. Working to consolidate all resources in one location. Tomorrow will be the first day of full implementation of our logistics plan.
- Email sent to state employees to request volunteers for weekend.
- Media monitoring showed no incorrect information today.
- Michigan Association of Broadcasters is sending PSA to radio stations.
- Coordinating with Red Cross on volunteers for weekend.
- Deployed 8 Water Response Teams to the field today (approx. 120 volunteers). 78 Red Cross volunteers active across the operation today.
- National Guard is ramping up to have 3 soldiers per shift at each POD tomorrow. Will also have a Public Affairs Officer at the JIC and liaison at the local EOC.
- Senator Ananich visited the SEOC today to see how things operate. The visit went well and he seemed happy with the number of staff working the Flint event. He tweeted out a message indicating there is still a lot of work to be done but all are working hard.
- *DHHS*
    - The Community Health Emergency Coordination Center (CHECC) is working on the following:
        - A nutrition plan
        - Education materials, messaging, and working with local agencies
        - Developing a community assessment for disaster behavioral health services.
- Lined up the delivery of filters to two large apartment complexes and a student housing complex.
- We have the list of individuals needing home service (additional contacts will be sent to the Ops Chief at the Local EOC each day at 4:00). Info will be provided to the sheriff's office for action.
- Water Response Team Numbers (this is not the total of homes with filters – I will provide that number tomorrow but it appears we have filters in over half the residences):

	TOTAL	1/12/2016	1/13/2016	1/14/2016
Occupied Homes	1450	242	492	716
Vacant Homes	1967	152	161	1654
Total Homes	**3417**	**394**	653	2370

Resources				
Door Hangars	1487	217	453	817
Water	588	117	254	217
Filters	945	112	220	613
Pitchers	22	3	13	6
Water test kits	217	48	109	60
Replacement Filter	482		137	345
Total Resources Dispersed	**3741**			
Future sample test site	114	28	34	52

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/13/16 – 9th Day (8th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and close lease on warehouse space
- Continue with door to door teams and finalize planning for second wave increase (+15 teams – total for 1/14/16 will be 20)
- Continue to work on Governor's Declaration of an Emergency

Attached Documents:

- SitRep 8

Status on Governor's request letter to the President:

- All support data from state Agencies and local jurisdictions collected as of 6:00 pm on 01-13-16
- Current timeline:
  - First draft completed and ready for review by State Department Directors (including the Attorney General) by 11:00 am on 01-14-16
  - State agency reviews due back by 1:00 pm on 01-14-16 for revision of the draft
  - Revised draft to Captain Kelenske by 2:00 pm on 01-14-16 for review and forwarding to the Governor for final review
  - Final draft (based on Governor's review) submitted to FEMA Region V Administrator by no later than cob 01-14-16 but hopefully sooner. FEMA is aware and ready to receive.

Requests and potential response from FEMA/President

- The letter will request all programs eligible under the Stafford Act including Public Assistance, Individual Assistance, Hazard Mitigation, FEMA's coordination of assistance from other Federal agencies and direct assistance from FEMA
- The letter will also request potential direct reimbursement from other Federal agencies such as EPA, CDC, HUD, DHHS and SBA
- This request is in coordination with the request for Non-Stafford Act federal assistance already requested and received by the State (technical assistance and administration, but no direct reimbursement of disaster costs)
- Direct Federal assistance from FEMA in the form of Individual Assistance to homeowners for household repairs (repair and/or replacement of water service lines and Other Needs Assistance to reimburse for water filters, bottled water, etc.) is a possibility

- Direct Federal assistance from FEMA in the form of Public Assistance is not as likely as it is mostly replacement of publicly owned water distribution lines (and not the direct result of damage from a natural cause)
- If Stafford Act assistance is denied (Public Assistance, Individual Assistance and Hazard Mitigation) FEMA could still provide coordination of assistance from other Federal agencies if the President declares a disaster (or emergency) for the State of Michigan

Key items for tomorrow to note are:

- The door to door teams will continue at 9 a.m. – 5 p.m. Thursday morning and continue through the weekend.
- We will continue to ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas and additional data is being analyzed to focus mission areas.
- MNG will have a press event at the armory with incoming soldiers and MG Vadnais.

Items to Note

- Received information that Rev. Jesse Jackson will be in town 1/17/16 at 1:30 at the Heavenly Host Church of the Harvest of Dartmouth St, Flint.
- Managed and corrected misinformation on NG role.
- Senator Ananich is stopping by the SEOC tomorrow morning 0845. I am meeting with him and his Chief of Staff. Short visit as he has a 0930 at the Capitol.
- Working with Comcast so they can put teams in the field for distribution.
- Penske is going to give us 15-20 trucks over the weekend.
- Contact made with Two Men and a Truck for resources.
- Meeting set with Google where they will brief me and key staff potential tasks.
- Coordinated with Flint Mass Transportation Authority (MTA) to include Fire Station PODs on bus routes.
- Tomorrow I will have a projection as to the number of teams needed to get all citizens filters in their homes in 5 days / 3 days.
- We are standardizing team structure and supply deployment to increase efficiencies. Mission Ready Package (MRP) specifications will be sent out for other entities to assist with door to door. They will then be able to arrive as a MRP, get supplies, receive a mission location and deploy.
- 5 Water Response Teams were in the field again today. Below are the numbers from the 2 days of just the Water Response Teams (there are paper copies with data still to be entered from the PODs). I was just briefed by the ARC logistics planner and there are efficiencies we can put in place to increase homes touched per day. The next version of the app will provide more granular details. Additional 30 tablets were configured by DTMB today for field implementation to include use in the PODs.

	Total	1/12/2016	1/13/2016
Occupied Homes	533	242	291
Vacant Homes	238	152	86
Total Homes	**771**	**394**	377
Resources			
Door Hangars	473	217	256
Water	265	117	148
Filters	235	112	123
Pitchers	9	3	6
Water test kits	92	48	44
Replacement Filter	93		93
Total Resources Dispersed	**1167**		
Future sample test site	62	28	34

- We show 17,276 residences with filters (this does not include data entry to be completed from POD or other locations).

- We have 35,378 service hookups but with apartments, multi residence dwellings, etc we would be around 45,000.

- Logistics Support
  - The American Red Cross Logistics Planner provided me a brief and I approved the plan forward. The current plan includes:
    - Mission – A filter in every home ASAP.
    - 4 Distribution Methods
      - PODs (5)
      - Water Response Teams (20 effective tomorrow and this will increase)
      - Local EOC "Hot Shots" (these are calls for functional needs, unable to get to a POD location due to ??, etc). Personnel dispatched with supplies.
      - Local EOC support for other local requests (Faith based for distribution, etc.)
    - Three warehouse locations at this time
    - How to better leverage ARC resources

- Supplies – Daily Numbers
  - Replacement Cartridges - 30,700 delivered.
  - Water (cases) - 19,152 cases delivered

- Budget projection completed and will be submitted to SBO for review.

- Notes from Water Response Team Command (MSP)
  - Very good synergy between Flint Post troopers and Genesee County Sheriff command and deputies in effective and efficient deployments for distribution efforts.
  - Great attitude and efforts by uniforms and volunteers to make important contributions to the City of Flint on water response team deployments.
  - Clear direction and coordination in the field of supply teams by lieutenants and troopers. No confusion. Clearly defined roles.

All personnel continue to be fully committed to fixing this as quickly as possible.

Chris

<u>Update 1/12/16 – 8th Day (7th Full Day) After Governor's Declaration of an Emergency</u>

I apologize in advance for the length of this report. With the supply issues we had the last couple of days I wanted to share our inventory plus what we anticipate to ensure we do not have supply issues.

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Fine-tune logistics
- Increase and deploy door to door teams (4 state teams added to teams from the Sheriff's Department)
- Increase collaboration and messaging of collaboration with local agencies (specifically the Sheriff's Department)

<u>Attached Documents:</u>

- SitRep 7
- Executive Order Activating the National Guard

<u>Key items for tomorrow to note are:</u>

- The Governor signed an Executive Order activating the National Guard. Mission will be to relieve ARC volunteers at the PODs (Fire Stations) which will free up the ARC volunteers for door to door activities.
    - I have briefed the ARC Disaster Officer on this plan.
- The Governor requested, through FEMA Region V, support from the Federal Emergency Management Agency (FEMA) to bring together and identify other federal agencies that may have programs and funding that could be dedicated to assisting Flint as part of an interagency recovery plan. One of the existing LNOs has been identified as the POC for this. He will be a great liaison for the FWIACC.
- The door to door teams will continue at 0830 Wednesday morning and continue through the weekend and ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas.
- We will look at all commodities and see where we are and where we need to be while working with the ARC logistics specialist.

<u>Items to Note</u>

- PSA video sent out to Flint citizens on resources available.

- Water
    - Today's numbers - 7,824 cases of water arrived today, 1/12/16 (109 pallets)
    - Ordered:
        - 19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)
            - 1/3 is going to GCCARD and the rest is going to the new warehouse
        - 12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)

- Filters
    - Today's numbers
        - Ordered on 1/11/16 and delivered 1/12/16 direct to GCCARD
            - 2,000 – Brita filter faucet mounts
        - Filter Replacements
            - 2,400 – Brita filter replacements (single pack)
            - 8,000 – Brita filter replacements (two pack)
    - Ordered on 1/12/16 to arrive Wednesday
        - Faucet Mounts – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
            - 10,000 – PUR Vertical faucet mount
            - 2,500 – PUR Horizontal mount
        - Replacement Filters – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
            - 10,000 – PUR replacement filters (3 pack)
            - 10,000 – PUR replacement filters (single pack)
        - PUR Combination Pack – to be delivered to GCCARD on 1/13/16 (Wednesday)
            - 10,700 – PUR combo packs

- To arrive Thursday
    - Zero Water Pitcher (8 Cup) – Delivering direct to GCCARD on 1/14/16 (Thursday)
        - 1,300 – Zero Water pitchers
    - Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Thursday)
        - 11,000 – PUR vertical faucet mount
        - 1,500 – PUR Horizontal faucet mount
        - 5,000 – Brita faucet mount
        - 10,000 – Brita adv faucet mount white
        - 12,000 – Brita adv faucet mount chrome
    - Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Thursday)
        - 117,600 – PUR replacement filter

- Test Kits
  - 6601 unassembled kits arrived at GCCARD today, 1/12/16.
  - 500 have been assembled and are ready for distribution
  - *1000 additional unassembled kits have been ordered to be delivered at GCCARD (no ETA yet)*
  - 10,142 unassembled kits to arrive at GCCARD early next week

- Second warehouse – Located in Flint
  - 100, 000 square feet of secure warehouse obtained.
  - Accepting commodities beginning Wednesday, January 13

- Logistics Support
  - The American Red Cross Logistics Planner arrived from DC today as requested. I outlined what her mission was and how I saw the progression forward. This logistics planner will assist in streamlining the inventory and distribution process now and into the future.

- Door to Door Numbers
  - Today the app implementation for the field went extremely well. There were a few issues that were quickly addressed. One related to how form fields should be filled out. Another was getting styluses for teams so that they don't have to remove their gloves in the cold. All very simple to fixes.
  - We are working on version 2.0 so this can be used at the PODs
  - We should be able to greatly optimize distribution in the near future as we mapped the active water subscribers from Flint's DPW and are adding them to the field team members apps. Of the ~56,000 possible addresses, this reduces the number of possible homes to visit down to ~29,000.
  - Notes from the field commander:
    - "Today we started out the day using two groups that consisted of approximately 10 people in each group. We eventually combine groups with Genesee County Sheriff's group and they brought two more groups with approx. 10 people (Local UAW) in each group. This made us a lot more efficient and we were able to set up a game plan. Tomorrow I feel we will be more efficient and we will have a better plan in place to get the maximum output out of our resources."
  - In the end, there were 394 total home visits with the following breakdowns:
    - 217 Door Hangers
    - 152 Vacant Homes
    - 117 Water Distributions
    - 112 Filters
    - 3 Pitchers
    - 48 Water Test Kits
- 211
  - CALL VOLUME:
    - 185 calls for water-related issues had been received as of 4:45 pm.

- Logistics made contact with Comcast and will be supplying them with filters and replacement cartridges for their deliveries in their work trucks as they make services calls. They will follow our procedures for reporting (our checklist).

Chris

Update 1/11/16

The focus today was the media event and getting the supplies and logistics on track. Most of the activity today was working on logistics for the water and other supplies.

Attached Documents:

- SitRep 6

Key items for tomorrow to note are:

- The door to door teams will start at 0830 Tuesday morning. It is reported that troopers are going to the door but DHHS employees are the lead with a troop car nearby.
    - State and local GIS created an App today for the teams to use tomorrow but I see potential use at distribution sites.
    - The App data will be used for our maps as we survey the public/distribute supplies and we will be getting real time metrics through the site from the field send back to the SEOC. We are using Android tablets tomorrow but in the future can use any mobile device for this.

Items to Note

- It was reported that only one POD (Station 5) was out of water longer than 30-45 minutes. This site was ~2 hours without water and part of that was the truck went to the wrong station. Trucks were sent as soon as the local EOC was notified.
- We also did not receive a DHHS shipment that was to come in which caused some filter delivery issues.
- Supplies are limited at this time; however, we are getting our shipments starting at 0630 tomorrow.
- We have Home Depot giving us 12,768 cases (this was a late development so the SitRep indicates half the amount) of water every day starting tomorrow. We are still working with other distributors too.
- ARC is flying in a logistics planner tomorrow Three additional staff with be with her to shadow and help. We are turning warehouse logistics over to ARC logistics. We are moving tomorrow to a process that has a distribution center (GCCARD) and a warehouse that is 100,000 square that will maintain mass quantities. Staff has continually *been placing orders for supplies to ensure we get a head of this. The intent is to keep the warehouse full so we do* not have these continual issues of supplies.
- Began mapping lead service lines (anticipate having draft of lead service lines Friday).
- Coordinated with local IT managers overseeing filter tracking system to streamline data collection.

Local Emergency Operations Center

- Working to coordinate resources at the local level to maintain adequate supplies at all PODs.
- Demand has exceeded supplies and supplies are moving rapidly from PODs today. Working to make sure POD *managers notify us when they start running low.*
- Working to establish a warehouse for local resource storage.
- Established trigger points for resources at PODs and hourly inventory reporting from the PODs.
- Discussed potential long term water sources between local EOC and SEOC.
- Established planning cycle/meeting scheduled for 1/12/16.
- Local EOC EMHSD staff with Natasha Henderson to request deployment of City representative at local EOC.

Chris

Update 1/10/16

Attached Documents:

- SitRep 5
- Door card (English version but Spanish version will be ready for Tuesday)

I have a local EOC section listed below but state personnel are heavily engage in management of both locations. We occasionally hit some road bumps with this event but all personnel are working well together to accomplish our goals (especially state agency personnel).

I have had good discussion with FEMA LNOs. Two statements have been developed from our discussions that hopefully helps put this in more context but if it is more confusing I apologize:

1. In the immediate response, the State, in collaboration and coordination with city of Flint and county of Genesee are working to get water, water filters, and testing kits to the affected population. In conjunction, the state will coordinate with federal agencies to ascertain what resources can come to bear to help mitigate the issue.

2. If asked about a federal declaration from FEMA, we need to articulate the definition of major and emergency declaration and state or note to ourselves that it appears to not qualify; **however**, there may exist opportunities to leverage federal assistance from some agencies (i.e....EPA) under their own authority to help address this issue.

    - We need to really manage expectations on the potential for a federal declaration...not that we will not go after one but it will be difficult to get.
    - A major disaster is defined in the Stafford Act as any ***"nature catastrophe (including hurricane, tornado, storm, high water, windriven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause any fire, flood, or explosion.....causes damage of sufficient severity and magnitude, to warrant major disaster assistance.....to supplement the efforts and available resources of States, and local government....."***
    - An emergency declaration is ***"is any occasion or instance for which, in determination .....assistance is needed to supplement State and local efforts and capabilities to save lives and protect property and public health and safety or to lessen or avert the threat of a catastrophe....."***
        - This is limited to immediate and short-term assistance (I hate to put times on this but short-term is like 3 weeks), essential to save lives, protect public health and safety and property.
    - Severity of the situation is ***"A finding that the situation is of such severity and magnitude that effective response is beyond the capability the state and affected local governments, and that the state requires supplementary federal emergency assistance to save and to protect property....***
    - Nature of assistance for Emergency Declaration is for ***"Debris removal, emergency protective measures, direct federal assistance...."***
        - Debris Removal = ***self-explanatory and we do not have this***
        - Emergency Protective measures = ***water, commodities, transportation (remember ... to supplement what the locals and state are already doing if we need more)***
        - Direct federal assistance= ***what specific type of work is requested, and what are the reasons why the state/local government cannot perform or contract for performance. Essentially what is the need that state/local govt cannot provide. I can see this being something we need but we may be able to get this outside a federal declaration under the federal agencies own authority to help address this issue.***

Back to the update...

Key items for tomorrow to note are:

- Training is occurring for the door to door teams scheduled for Tuesday morning.
- Deploying an additional MSP District Coordinator to the local EOC for command and control support.
- Deploying two DTMB trucks and two drivers for sustained logistical support for the week.
- Media event with the Governor in Flint.
- New Incident Action Plan starts (1/11 0800 -1/13 0800 operational period). Our objectives are as follows:
    1. Ensure all households within impacted community have required resources.
    2. Ensure accurate tracking and accounting of all commodities.

3. Improve and maintain public information strategy.
4. Develop a long term public health and services plan.
5. Ensure adequate staffing to support operational requirements.
6. Identify possible assistance programs.
7. Develop an approved GIS strategy.
8. Maintain coordination between partner agencies and organizations.
9. Enhance situational awareness and common operating picture of all activities.
10. *Develop a comprehensive Recovery Plan.*

Items to Note

- All 9 churches had filter systems/replacement filters, information sheets, and water test kits delivered as requested by each pastor/reverend on Sunday. We did not think we could get them water due to the limited time but we did end up getting water to all 9 churches with the other items.
- Fire station resource locations stayed open from 9a to 9p and will continue with those hours until further notice (Staffing is in place until Saturday). ARC is staffing these locations.
- The media event was held at Fire Station No. 1 and report back is that it went well and the spirit of collaboration between local, state, non-governmental partners is strong was relayed.
- The four door to door teams will have the hours of 8:30 a.m. to 5 p.m.
    - Each will have logistics support from DTMB, security from MSP, and contact personnel from DHHS.
    - The door card is attached that will be left if no one is home.
- Worked to identify a storage location within the City of Flint for water and supplies. G-CARD is identified as temporary location but we are moving toward a state run warehouse operation (looking at private sector partners to assist, especially with the warehouse management side).
    - GCCard is large enough, centrally located and comes staffed. GCCard has 75,000 sq ft with warehouse managers to assist with tracking resources coming in and out.
- GIS will provide us daily updates of how much was distributed each day but note we have a delay in data entry from delivery to entry in the GIS system. Over the weekend there was a problem locally with staffing to get this completed A solution is in place and will be implemented so we get timely data. Distributed to date (as of 1/8/16).
    - 12,386 filters
    - 1,985 replacement filters
    - 354 Pitchers
    - 2500 Lead Testing Kits
- *Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to* ensure distribution sites maintain an appropriate level of inventory. I have requested trigger points get put in place so we do not get below certain levels in the main warehouse location.
    - Contacts with some large water distributors have been made and their and our logistics chiefs will connect first thing this week.
    - We have ordered an additional (expedited delivery with ETAs tomorrow)
        - 40,000 Brita Filters
        - 40,000 Brita Replacement Filters
        - 1000 Zero 8-Cup Pitchers
        - 1000 Zero 8-Cup Pitchers
        - 2000 PUR Replacement Filters
        - 93 Pallets of water (about 6700 cases)
- GIS continues to produce multiple maps for use.
- JIC Items
    - Requested PSA on the radio. Media has been approved and working with MAB.
    - Requested JIC to contact Comcast and Dish Network for availability for continuous running of filter install/replacement and test kit video.
    - A news release will likely going out tomorrow regarding canvassing in neighborhoods. Continued social media messaging.
        - Tuesday – embed state PIO with one of the canvassing teams to liaison with media.

- JIC moving tomorrow to Flint.

Local Emergency Operations Center

I am providing you some information on some issues we ran into at the PODs. This has been addressed with additional state resources and processes put in place so we do not run out of resources. Public concerns/complaints have not been brought to my attention at this time. Staff is working very hard to ensure we do not run out of supplies at the PODs and they understand the consequences. No one in the Local EOC or State EOC is happy the follwoing occurred and I felt you should know in case it is brought up. Again, I believe we have fixed this and I take full responsibility for any supplies not being on site.

Fire Station Inventory Levels:

Station 1:

- Only time without supplies - 15 minutes without water while the truck was unloaded.

Station 3:

- Ran out of replacement filters around 7:00, replacement filters delivered around 7:30. Had to pick up replacement filters from Home Depot and deliver.

Station 5:

- Ran out of water around 5:00, water was delivered around 6:30. We needed to find additional trucks because DTMB drivers were over hours. The ARC stepped up and found a truck to go and pick up a pallet of water and deliver.
- Somewhere between 4:00-6:00 they ran out of lead test kits. No way to restock these because City facilities were closed and could not reach anyone.

Station 6:

- Around 5:00 ran out of water, filters, and replacement kits. Replacement kits were delivered around 7:30. Additional water and filters were delivered after 9:00 due to the DTMB drivers heading back to Lansing. Food Bank was called and had to get drivers in to operate trucks, pick up water from the School District, load and deliver to all sites. Delays occurred with weather conditions and needing to use last minute sheriff EOC staff to load due to issues with City workers. City workers were scheduled to help and left around 7:00 without helping.
- 2 pallets of water were dropped off in the afternoon and within 1 hour were gone. This was much faster than we expected. On 1/9 they didn't go through 2 pallets of water at any station for the hours 9:00-4:00.
- We received news that a reverse 9-1-1 call notified residents of water which caused an unanticipated amount of people obtaining water. There was also a report of 1 person walking out with 2 cases of water and trying to sell in the parking lot.

Station 8:

- Around 7:00 ran out of filters and lead tests. Filters were delivered around 8:00 from the food bank trucks.
- Hourly reports were requested in the morning from volunteers but this information was not received as to the status throughout the day. Early inventory of supplies took between 1 hour-1.5 hours to receive in the EOC. We were not advised of low counts, just zero numbers.
- Reports received that the last couple of hours were slow.
- Residents were advised of the other sites and the opportunity to obtain supplies.

Restocking Plan

- United Way set up meeting with Food Bank to discuss.
- Had EOC meeting on this topic to discuss options.

Churches:

- All 9 churches received waters, filters, and informational bulletins.
- Lt Roach received positive feedback from 3 of the pastors.
- No complaints were received.

Signage:

- Provided information to SEOC on signage requirements at the fire stations.

Storage:

- Researched storage spaces; established temporary site at GCCARD.

Personnel:

- Lack of local EOC leadership (seems somewhat checked out) with IC and Deputy IC (doing an okay job).
- Captain TaFoya (Genesee County) helped tremendously today with all the plans outlined above and attended the press conference.
- Tina Martinez at the Food Bank and Matt Purcell at GCCARD were extremely helpful in getting last minute operations set up.

Chris

Update 1/9/16

SitRep 4 attached for more in depth information. The below only contains some items worked on today and while the format in the attached SitRep is not perfect (it is created automatically by MICIMS) it does contain a lot more information you may want to read. I also attached one of our maps. It is our filter distribution map. All filters handed out by anyone working with us feeds into this now. We are continuing to refine these and at this time there is a delay in the upload of address data but we are working on it. We have a ways to go to get filters in every home but this will help direct us to those who need still them. We also are working on identifying abandoned homes.

Key items for tomorrow to note are:

- 9 churches will have ARC volunteers and filters for distribution. Some may also get water.
- 5 fire stations are a distribution point for water, filter systems/replacement filters, and water test kits. While only open today until 4 p.m., tomorrow and until further notice they are open from 9a to 9p.
- Media event will take place on the above tomorrow.

Items to Note

- 211 has some issues with call load but it is being worked on. 2-1-1 Director contacted MDHHS PIO to discuss/resolve caller wait times and messaging. We anticipate an increase in activity tomorrow in 211 calls so we requested and received an increase to staff 211.
- We are shifting tasks the SEOC took on that are handled more effectively and efficiently at the local EOC. We have established command and control in their EOC. We are running things there but that is not being made public. We are doing this in partnership but we are clearly handling the operation with state personnel oversight.
- A 3rd FEMA LNO arrived today upon my request. This has nothing to do with a Presidential request for a declaration but support for some other items I want worked on for long term recovery.
- We continue morning calls with the local EOC leadership and local emergency manager on what our goals for the day are as well as any issues/concerns.
- Five 5 fire stations have received water, water filters, replacement cartridges, and water testing kits with American Red Cross personnel at each location to assist with delivery of resources and collection of addresses receiving them. These locations will be open from 9a – 9p daily until determined they are no longer needed. Those picking up water testing kits will be advised that they can return the test kits to the fire departments (where they will be picked up and taken to the Flint City Hall), the Flint Water Treatment Plant, or they can take them directly to the Flint City Hall. For those unable to return the kits, 211 can make arrangements for pick up the kits. We understand response to these sites has been positive thus far. The Genesee County EOC will be monitoring these supplies and request replacement of products as needed.
    - A call is going out tomorrow morning to advise this information ... I do not believe it was every resident but Tori Sachs has that info if needed.
- I approved a press release today to advise the public that all levels are working together to ensure delivery of filters, test kits and water; noting that all of these items were delivered to the 5 Flint fire department stations. It was

stressed that the public should be aware that the local and state agencies have been working cooperatively to assist the residents - and will continue to do so. This was done to hopefully end or at least minimize the "who can get water and filters out first" when all of this has been connected with the state and coordinated since the state declaration was put in place.

- The arrangement of 2,000 filters, to be taken to 9 local churches on Sunday, January 10, is ongoing. The filters have been secured; they are now in the possession of the DTMB. DTMB will return to Flint on Sunday morning to deliver these to necessary locations. The American Red Cross will be on site at each church to assist with distribution and recording addresses (for GIS). The local EOC is working to ensure these arrangements are complete and run smoothly. Future engagement with the faith based community will occur to assist with additional distribution.
- A Flint City liaison has not been in the EOC but starting Monday this will be in place to keep the Flint Mayor appraised of activities being conducted in the city. She also has been advised she can call me at any time if she needs anything.
- Training has been confirmed for the door-to-door operation scheduled to start Tuesday. Four teams are initially scheduled with more to potentially be put in place. These are the teams that will be handing out water, filter systems/replacement filters, test kits and information. If nobody is home, a door hanger with information is being left. DHHS personnel and one MSP trooper will be on these teams.
    - Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.
        - Training is so those going door to door can explain what the filters do, how to install them, if they need install help to call 211 who has a list of people who can install the filters, and answer any other questions versus just handing them the filter.
    - Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m. AT THIS TIME. I am reevaluating these times to increase contact with someone versus just leaving information.
    - Logistics are being finalized for the teams and trucks to handle stocking and re-stocking of materials during daily operations.
    - GIS maps will provide guidance on deployment locations for these teams and other teams in the field.
- A pilot project at Freeman Elementary with LARA and DEQ has been initiated to see if replacing certain plumbing components in faucets at the school will drop the lead level.

MSP/EMHSD GIS Section Updates

Accomplished Today (January 9):

- Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.
- Produced Filter Distribution Map.
- Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
- Worked on map of franchise customers outside of Flint City.
- Produced maps for MDARD on food establishments and Local Health Departments.
- Produced map of Church Filter Distribution map for DTMB.

Local Emergency Operations Center

- The state has deployed 10 personnel to the Genesee County EOC to ensure we have command and control at the local level. On 1/8/15 The state personnel took over the incident management functions of the Genesee County EOC (not public). The arrival of additional staff allowed the local Emergency Management Coordinator to delegate tasks which relieved a tremendous amount of stress.
- Additional Sherriff staff ') will be shadowing the state incident management team to allow for transition to the county personnel later in the incident when we are comfortable with them handling things. Not sure when that will be but we have secured a direct bill hotel for staff to stay in Flint as long as needed.
- With the additional staff, the Local EOC will be able to take over functions previously handled by the SEOC including:

- Logistical activities to support church operations.
- Logistical activities to support fire stations operations.
- Coordinate Donations Management activities and draft donations management plan
- Coordinate Volunteer Management activities
- Identify local storage/staging facilities
- Overall inventory tracking
- Tracking of Points of Distribution (PODs)

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/8/16

SitRep 3 attached.

There is a significant difference in what is being presented by the media and what the local EOC is relaying to us at the SEOC. It is also being driven by the media that this is a state versus local response (who is providing more and quicker versus a coordinated effort between all). That said, I advised SEOC personnel that perception is reality in some eyes and we are to move forward to address items that typically are addressed at the local level. I have ordered the SEOC open all weekend due to make the quick wins that we need and continue to get the coordination and collaboration in place that is needed (but make gains on our own as needed).

Items to Note

- Two FEMA LNO's arrived today and are in the SEOC. A third LNO was requested from FEMA due to some unique issues with this event to include having to deploy more or my staff to the local EOC to get more structure and/or find out why there is an issue with the message the media is showing versus what we are hearing from the local EOC.

- We finally received from the local EOC 8 locations (we were told originally early in the week they had 80-90) that are their Points of Distribution (PODs) for water in conjunction with the local food bank. The PODs are not getting water from the food bank even though the food bank has water We are going to resolve this issue as we can help deliver the water to the PODs but we were not aware of this. 8 PODs is not enough locations if water needs to be distributed to citizens. Speaking with the ARC Regional Administrator later today, I believe ARC got water to those locations but I need to confirm that in the morning. The food bank reported they had 376 cases of water.

- We have learned that a low number of residents are testing their water when DEQ can test 400 kits per day. This is an added focus that we believe can be increased through dissemination of test kits with the filters and any water.

- I found out the Mayor was okay with using fire stations as distribution points for water, filters, and water test kits. While this did not come to me through the local EOC, I advised we needed to get water, filters, and test kits to these locations for tomorrow. The distribution at 5 Flint Fire Department stations has been coordinated to be in place by 10:00 am tomorrow morning.

    - DTMB has provided a truck and driver to pick up water test kits from DEQ lab in Lansing, water from the Food Bank and water filters and replacement cartridges from GCARD in Genesee County.
    - 10 American Red Cross (ARC) volunteers will meet the DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.

- Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.

- STILL FINALIZING - We have made available 2,000 Filters for distribution on Sunday as parishioners leave mass/services. This will be 200 filters for 10 churches in Flint. While this is a small number of churches, we do not want to waste an opportunity to hand out filters and this seems like a quick way to so. The filters will be put on the DTMB truck on Saturday for delivery to TBD locations for distribution. Logistics remain undetermined as I am still waiting on a list of the churches, pastors/reverends/hours or services/etc. The DTMB truck will be returning to Lansing approximately 11:00 a.m. so we need to finalize this quickly on Saturday. We may utilize ARC to assist with this.

- The Recovery branch is working with the JIC to develop a door hanger card. DTMB is working on the printing portion of the hanger card. Recovery will also be finalizing logistics over the weekend for neighborhood canvasing to occur early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.

- It appears that 211 has become overloaded. DHHS is researching ways to increase capacity for calls.

- A Volunteer Management Coordinator is in the Genesee County EOC as of today.

- A Donations Management Coordinator has been requested and she will be in the Genesee County EOC Saturday.

- DHHS had a conference call with GM today; they indicated they can provide cash, and supplies, but primarily manpower. No commitments were made at this point. We inquired as to availability of warehouse space and trucks. It was left as GM being a major resource pool that we can tap into as we determine missions. Further conversations will occur, but primarily GM just wanted us to know they are there if needed.

- An additional EMHSD staff member was sent to the Genesee County EOC to act as Operations Section Chief and obtain awareness of the situation there.

- GIS staff met with various parts of Genesee County/Flint personnel to try to get a handle on data available.

- GIS continues to work with local GIS personnel with three GIS staff going to Flint today to work with them. GIS staff is working with U of M on how best to proceed with digitizing water lines for long term recovery.

Chris

UPDATE 1/7/16

A summary of some of today's SEOC activities is provided below. Attached is the following:

- Today's SitRep which contains more information than below.
- The resource request/task assignment sheet for your situational awareness. This is how locals request resources as well as how we track resources and any assignments and/or tasks that are to be completed.
- JIC Task Tracking – for your situational awareness on how we are tracking requests and assignments. Once someone is assigned a task or resource request it allows them to document what work has been or will be done as shown at the bottom of the document.

Items to note:

- I received a document this evening from Genesee County which appears to be damage assessment information. Analysis of this will occur tomorrow. It appears to be infrastructure and costs to fix it and no other impacts.
- I spoke with Jamie Curtis, Genesee County Commissioner, this evening. A very good relationship is in place with him, especially with our District Coordinator (DC). I also have our DC working on developing stronger relationships with the Mayor/Mayor's office.
- GIS staff continue to obtain data and work with County and City personnel to get a picture of where resources have been provided, need to be provided, as well as infrastructure locations (pipes) that could be affected.
- Personnel and agencies have been tasked with developing a plan to get people in the community to deliver information, hand out filters, etc. This would target those areas we are showing minimal or no filter distribution based on the data we are collecting. The plan is to get them in the field by Tuesday and the plan will be provided to me tomorrow.
- Filters can be obtained at the following locations:
  - Michigan Department of Health and Human Services office, 125 E. Union St., Flint, MI 48502
  - Michigan Department of Health and Human Services office, 4809 Clio Road, Flint, MI 48504
  - Genesee County Community Action Resource Department office, 2727 Lippincott, Flint, MI 48507
  - Genesee County Community Action Resource Department office, 601 N. Saginaw, Flint, MI 48502
- Conducted briefing with local EOC and county executive.
- Conducted briefing with state agencies (daily updates).
- Began work to schedule legislative/congressional conference calls. Tentatively scheduled for 2 p.m. Friday.
- JIC continued to develop messaging.
- Provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
- Deployed two EMHSD/SEOC liaisons to assist the local EOC.
- Published the Incident Action Plan and continued assignment of objectives/tasks.
- FEMA Liaison Officers just arrived in Lansing to assist command and general staff.
- I spoke with Harvey a few times and he should have talking points later tonight or tomorrow a.m. for his use and also for others who may speak to media outside of state government who may benefit from our messaging.
- We held a media round table at 1 P.M. at the SEOC. Dr. Wells and I spoke and answered questions to numerous media outlets.
- Local agencies and NGOs continue to provide water and filters to citizens.
- The website, www.michigan.gov/flintwater, was update with information and links to assistance to include 211. Additional recommendations were provided to include information on the testing water in homes.

EMHSD GIS:

Accomplished Today:

- Reproduced Socio-Economic Status Map
- Reproduced Predicted Affected Populations Map
- Cleansed old data and reports for water filter distributions
- Created draft map of water filter distributions (Refinement needed before releasing final product)
- Scheduled on-site visit with Flint GIS Department and Genesee County GIS Department
- Formatted databases to host content
- Researched service line database creation and scheduled meeting with U of M Flint to discuss timelines and resource needs
- Generated water infrastructure map (does not include building service lines)

Tasks for Tomorrow:

- Meet with Flint City GIS
- Meet with Genesee County GIS

- Meet with U of M Flint GIS
- Finalize water filter distributions map
- Finalize plan for data distribution methods

Chris

UPDATE 1/6/16

A summary of today's SEOC activities is provided below. I tried to distill this as best I could but there has been a lot of activity and discussion to get an accurate assessment of the situation. Attached is the final draft of objectives and tactics for the operational period and agency situation report (SitRep) which has more SEOC agency information. I have implemented weekly operational periods.

Advise if you want anyone else copied or off this distribution.

Daily Update

- Set goals for SEOC and identified response/recovery emphasis
- Requested FEMA liaison officers (LNO) from FEMA Region V. Two LNOs will be on site by ~3 p.m. 1/7/16. Both are known contacts to me and some staff and one has worked extensively with me during the SE MI flooding in a command and control position. These personnel have been specifically tasked with this mission. **THEY ARE NOT HERE TO ASSIST WITH A PRESIDENTIAL DECLARATION REQUEST BUT TO ASSIST ME.**
- PIOs from multiple agencies were here and established the Joint Information Center (JIC). News released pushed out on this. I am very happy with the PIO work and movement toward coordinated messaging.
- Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts to ensure situational awareness and to develop a common operating picture.
    - I opened the briefing by identifying our initial goals, items to think about while subject matter experts were briefing us, and how we are to move forward, find quick wins, and regain trust.
    - **MDHHS – Elevated Blood Lead Levels**
        - *Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what has occurred in terms* of health monitoring throughout the Flint crisis.
    - **MDEQ – Water Testing Protocols**
        - Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.
- Developed Incident objectives, strategy and tactics (see attached)
- Identified SEOC and state agency staff positions
- Assigned work tasks for SEOC operation period from 0800 January 6, 2016 to 1700 January 8, 2016
- Reviewed planned actions, prepared final draft Incident Action Plan
- **Made contact with the Genesee County Emergency Manager first thing in the morning and held a conference call mid-day to discuss roles. Daily 0830 command conference calls with local EOC command staff starts tomorrow. Tomorrows call will include the County Commissioner and the City Administrator (both invited). Topics include the incident action plan objectives and establishing better local coordination, command and control to facilitate integration with the SEOC. The local EOC is not functioning as it needs to with personnel and local coordination and we are working on that issue.**
- *I will be in Flint tomorrow for a 2 p.m. media round table with local officials that was set up by the JIC.*
- The attached initial objectives will be updated at least every operational period and as needed. I listed the objectives below but the tactics to accomplish them is in the attached if you want further information.
    1. Activate the State Recovery Task Force (SRTF).
    2. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.
    3. Obtain and maintain situational awareness and common operating picture of all activities.

4. Establish SEOC operational period and hours of operations.
5. Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.
6 Develop a comprehensive GIS strategy.
7. Coordinate response and recovery activities with MIVOAD and identify potential mission areas.
8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.
9. Provide technical assistance to the local Damage Assessment process.
10. Establish a Joint Information Center (JIC) and develop a public information strategy.
11. Monitor MI CIMS for resource requests and address as appropriate.
12. Establish and disseminate cost center information for the incident.

- Additional tasks include:
  - Determine what federal agencies are already involved and their status
  - Identify potential water supplies
  - Determine where affected homes are located, where filters/pitchers (and replacements) were installed/provided, and determine who needs filters, etc
  - Determine how filter distribution is handled, and if it can be handled more efficiently and effectively
  - *Determine what mechanisms are in place for nutrition supplementation*

EMHSD GIS Accomplishments:

- Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC
- Established a daily call with county and city GIS personnel to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
- Began consolidating local data from local GIS practitioners into a consolidated database, to include:
  - Water Pipeline Locations
  - Filter Distribution Locations
  - November 25, 2015 Water Monitoring Results (Partial, some data remains to be digitized)
  - Affected School Locations
  - Predictive analysis of blood lead levels for affected area
  - Updated Parcels
  - Demographics
  - Block Groups
- Produced a map for the filter distribution locations
- Began contacting specialists who developed historic maps depicting the Flint Water Crisis to obtain the data

Subject: Update - Genesee County Declaration

Below are some key points for your situational awareness (FYSA) that have taken place or will take place within the next 15 hours.

- I was on the phone with Sean Kammer, Assistant to the Flint City Administrator, when the declaration hit the news so I advised him immediately. He was going to let the City Administrator know.
- I contacted MSP Lt. Roach, 3rd District Coordinator, who was at the Genesee County EOC and advised her to let the County EM know the declaration status.
- State Emergency Management Coordinators (SEMCs) were notified via our notification system with additional information in an email.
    - This included information on the SEOC activation and a 0900 briefing for SEMCs.
    - Some subject matter experts will provide us an update to establish a common operating picture.
- We have been in contact with FEMA Region V watch desk ... they will be on the call tomorrow and continue to monitor the situation.
- I have been in contact with the FEMA Region V Administrator to keep him updated.
- Operational period for the SEOC will be M-F, 0800 to 1700 at this time.
- Situation Reports (SitReps) will be provided in the evenings.
- An Incident Action Plan will be developed tomorrow.

Call me with any concerns or questions.

I have been given two meeting dates:

- Tuesday I am to be at a republican caucus meeting at 10 a.m. This is not open to the public. I am to provide an update on the operations. John Roberts will be there on any other issues.
- On Wednesday, there is a committee meeting and I would provide a similar update/EM coordination.
    - John Roberts is asking what MSP wants to do reference any financial questions. The question will come up on the 8 million dollar operations. I am getting information on how we came up with that number but I think someone from DSD should be there. That meeting is at 0900. This is a public meeting.

I am working on my talking points now.

Subject: NG Costs

Per our discussion tonight, I spoke with MG Vadnaise and he is going to start planning for a personnel mission to assist with the Water Response Teams PENDING FINAL APPROVAL by the Governor.

Cost estimate is $425,376 for 6-7 days. I can have a better number tomorrow but this is based on our current costs.

We would start with some NG personnel on the ground Wed with more phasing in. Looking at final day of Sunday. This is also dependent on the NG planning team but I wanted to provide an idea of time in the field.

If this direction is good then we will continue. If this is not a good direction we can shift.

Subject: Team from CDC ATSDR

The department was contacted by CDC today and they were notified that a team of about 3-5 staff from Agency for Toxic Substances and Disease Registry (ATSDR) will be coming to MI. This is the information I received from CDC: "We will be sending a team of 3-5 people to Lansing on Wednesday to meet with state health officials. Our aim is information gathering, with the goal of providing the state and county with support in the following lanes: response, science, lead poisoning program execution, communication, general management support and liaison with EPA."

We will be getting more information soon, I hope.

NOTES:

Appendix 2 (Commanders Situation Report) (SITREP) Annex R to OPLAN 14-001 (ALL HAZARDS)

Commanders Situation Report (SITREP)

1. DTG: 1912452016

2. UNIT: Points of Distribution (PODs), NG TF FLINT

3. POC: Capt Bechtel, Jennifer E. (517) 582-4816 Email: ng.mi.flint.eoc@gmail.com

4. PRESENT LOCATION: Genesee County Local EOC, 1101 Beach St., Flint, MI, 48502

5. SITUATION OVERVIEW: NG Task Force Flint has 67 Soldiers deployed to the Flint Water Crisis in support of Distribution Operations at the Points of Distributions (PODs). Daily operations consist of receiving, tracking, and issuing out water, filters, replacement filters, and water test kits.

6. OWN SITUATION DISPOSITION /STATUS: Currently NG Task Force Flint has 67 Soldiers on ground supporting the mission.

7. OPERATIONS: Operations for the next 24 hours are to sustain water/filter distributions throughout the 5 designated fire stations and track all distribution incoming and outgoing through the PODs.

a. Signs have been printed off for the POD Buildings. Received approval from Purchasing Office to laminate signs.

1.) TF Flint member 2Lt Benke is picking up signs from Calix Martinez (City of Flint Plans and Marketing office) and will have the signs laminated today. To be distributed 20Feb16.

b. VIP anticipated at POD 5 on Monday, February 22nd. Additional details unavailable.

c. Local news stations reported this morning that MSU Alumni would be at the PODs to help distribute water on Saturday. This is an error as the MSU Alumni are planned to only be working from the old Kroger location on Pierson Rd.

8. PERSONNEL: 67 Soldiers are currently assigned to the POD operations. 59 Soldiers are assigned in five teams at Fire Stations 1, 3, 5, 6 and 8.

9. INTELLIGENCE / FORCE PROTECTION: Mile-long national march up to the water plant organized in part by Rev. Jesse Jackson takes place in Flint on Friday, 2/19/16 starting at 11 a.m.

10. LOGISTICS: In support of TF Flint

a. The VRC is now assembling the recycling kits and a plan is being coordinated to facilitate delivery to warehouse. Warehouse drivers will distribute evenly to the PODS on Monday.

b. Recycling trailers are being assessed by Schupan on frequency of pickup.

c. Mile Long March today will have road closures that may require alternate routes for water delivery to PODs.

11. COMMUNICATIONS:

a. POD 8 computer unusable by ANG members. EOC working on acquiring replacement computer.

b. Replacement laptops delivered to PODs yesterday won't allow changes to wireless settings, due to lack of admin rights. 125 IN laptops have been left behind for immediate use in daily reporting. Resolution in process.

P: RRF cell phones alternate for WRTs
A: Personal cell phone
C: 800 MHz radios issued to PODs and WRTs.
E: Runner

12. NARRATIVE: N/A

13. COMMANDER'S EVALUATION:

- RIP/TOA activities complete and all PODs are running entirely under new NCOICs
- OUT (last 24 hours)

Flint Water Crisis RRF Notes

Problem #1: Computers- Stations 6 and 8 are experiencing admin difficulties with their assigned state laptops.

Solution- 1-125 IN laptops have been left behind for immediate use in daily reporting. SSG Tilley will be contacting with Ms. Epps to get the issue resolved for the state computers IOT sustain future operations.

Response- Reporting is continuing as planned.

Additional Notes:

- RIP/TOA activities complete and all PODs are running entirely under new NCOICs.

- Each POD will be utilizing a new Gmail account so that as unit's cycle in/out, rather than the email chain changing, it will remain constant. The new email accounts are as follows:
    - Station 1: flintstation1@gmail.com
    - Station 3: flintstation3@gmail.com
    - Station 5: station5POD@gamil.com
    - Station 6: station6POD@gmail.com
    - Station 8: station8POD@gmail.com

Damage Assessment and Emergency Status Report

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Operational Period

Operational Period Begin:	02/16/2016 08:00:00
Operational Period End:	02/23/2016 08:00:00
Situation Report No.	44
SEOC Status:	Full
SEOC Hours of Operation Begin:	02/18/2016 08:00:00
SEOC Hours of Operation End:	02/18/2016 20:00:00

Executive Summary

SEOC Update:
Accomplished today (February 18, 2016):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Resources.
- Public information control.

Logistics:
- Fielded resource requests.
- Fielded Rapid Response requests.
- Fielded Governor's office request.
- Facilitated distribution team calls.
- Worked on potential donated warehouse opportunities.
- Long term recovery plan.

JIC:
- Continued routing public information materials for approval, including updated information on recycling, testing your water, and keeping kids safe. Received and posted additional translated materials to www.michigan.gov/flintwater.
- Capt. Kelenske gave an in-person interview with Steve Carmody of Michigan Public Radio.
- JIC staff assisted with a Governor Snyder press avail at the Flint State Office Building.
- Received and uploaded videos in American Sign Language and additional translated materials on www.michigan.gov/flintwater. Issued a news release about the availability of these materials.

Recovery Branch:
- Attended UCG Brief, SEOC State Agency Briefing Meetings, Distribution Process Meetings.
- Team Priority Visited Today: 5 teams in the field – Mobile Home Parks and list of addresses showing as having no contact.
- Team Priority Scheduled Tomorrow: Begin visiting the 1,300 Access & Functional Needs addresses to distribute 3-5 cases of water and replacement cartridges.
- 5 American Red Cross Teams scheduled for Friday, February 19, 2016.

o Total homes visited:
- 26,724 (round 3 total)*
- 854 (today).

o Water cases (liters calculated by multiplying # of cases x 12):
- 192,576 liters or 16,048 cases (round 3 total)*
- 7,608 liters or 634 cases (today).

o Faucet filters:
- 7,917 (round 3 total)*
- 80 (today).

o Replacement cartridges:
- 7,123 (round 3 total)*
- 378 (today).

o Water Test Kits:
- 3,051 (round 3 total)*
- 150 (today)

*Totals updated to reflect newest information.

Planning Section:
- Developed and approved Sit Rep #44.
- Updated burn rates and projection costs, per request.
- Updated Flint Water Timeline.
- Participated in daily UCG, state agency, and distribution process meetings.
- Developed daily Governor's Report.

Operations Section:
- Participated in Unified Coordination Group briefing.
- Facilitated SEOC Agency briefings.
- Participated in Distribution Process meeting.

• Worked on situation report and press release review.
• Warehouse Numbers as of 1800:
❑ Water (liters):
• 754,553 liters or 62,879 cases.
❑ Filters (faucet):
• 68,006.
❑ Replacement cartridges:
• 427,808.
❑ Test Kits (prepped):
• 34,932.
• PODs (Number as of 1700 2/17):
❑ Water (cases):
• 55,860 liters or 4,655 cases.
❑ Filters (faucet):
• 98.
❑ Replacement Cartridges:
• 368.
❑ Test kits:
• 194.

Finance Section:
• Review state agency costs reports submitted for the weekly status update.
• Identify additional lodging in Flint that can be direct billed to MSP for JIC and EOC staff working in Flint.
• Review agenda and reporting template for SBO meeting at MSP HQ on Friday.

GIS Branch Updates:
• Meeting with MDHHS, MDEQ, and Governor's Representative to discuss coordination of data.
• Updated Water Test Results dataset and created new maps.
• Working to fulfill FOIA request.
• Parcel Pairing.
•Added Sentinel Site Data to Governor's Web Map in ArcGIS Online
• Updated map of Access and Functional Needs Individuals for Recovery Unit
• GIS coordination call with Unified Coordination Group

DTMB:
• Continue to provide DTMB management SEOC updates.

DHHS-CH:
• Forwarded a request for a licensed medical professional, who has knowledge of lead, legionella, rashes, and other water health related concerns to be stationed at GCHD-EH division to assist with communicating MDEQ water results and health risks.
• Received information regarding a request for a webinar series, similar to the webinars currently being provided on Wednesdays to healthcare providers, be offered for Genesee County Intermediate School District (GCISD) personnel that is tailored to educators in Flint.
• Requested that the CHECC provide the SEOC with a CDC point of contact for the Commissioner of the Hispanic Latino Commission to reach out to for information on lead and lead poisoning, at the request of the Department of Civil Rights SEOC representative.
• Received information from the CHECC and UCG regarding the funding announcement given this afternoon by DHHS. This information was provided to the State Director and SEOC Operations Chief. Secretary Sylvia M. Burwell announced that $500,000 in funding will be provided to Hamilton Community Health Network, Inc. (HCHN) and Genesee Health System (GHS).

DEQ:
• Continued documenting compliance with EPA Emergency Administrative Order and second EPA request.
• Secured vehicles and equipment for the Sentinel Sampling 2 crews.
• A collector App was developed by DNR GIS today to be utilized by the High Lead/Copper Teams for real time data collection in the SEOC.
• Provided information on a high lead-content test result from a Flint residence to the Governor's Office and Director by the 1pm press conference.
• Began planning for next phase of testing and data collections.

Unified Coordination Group (UCG):
• EPA canvassing team distributed EPA factsheets at 50 different locations throughout Flint and made contacts with parties interested in having EPA provide updates at their organizational meetings.
• CDC Epi Team continued to utilize a geocode database to assist the state with analysis of BLLs in children.
• UCG Daily Sit Rep available in MI CIMS.

Local EOC:
• National Guard completing transition to new unit on 02/18/2016.
• US Secretary of Health and Human Services Burwell visited Fire Station 5 POD and met with local stakeholders. LOFR attended site visit to brief on emergency response activities and answer questions.
• IC briefed University of Michigan All Hazards Team on emergency response activities, covering items such as volunteer management, communications strategies, etc.
• IC responded to FOIA request by MSU Law Clinic regarding distribution and usage of water by inmates in jail.
• Coordinating local volunteer needs for CDC outreach teams.
• 16 teams with MDEQ personnel out in the field support sentinel monitoring program and identification of lead service lines.
• Elevated Lead and Copper Initial Assessment Task Force out in the field, making contact at households reporting elevated lead and copper levels.
• Southern Baptist Disaster Relief out in the field with five teams for distribution of supplies to affected populations with access and functional needs.

Injuries:
• None reported today.

Incident Response/Recovery Priorities/Objectives

(Objectives are in order of priority with original objective number attached)

1. Ensure all households within impacted community have required resources and are included in DEQ water sampling plan.
12. Approve and begin implementation of a comprehensive long term recovery and transition plan.
11. Ensure accurate tracking and accounting of all donations and expenditures.
2. Ensure accurate tracking and accounting of all commodities.
3. Continue to improve and maintain public information processes and strategies with all partner agencies.
8. Maintain coordination between partner agencies and organizations to include FEMA IMAT, FWICC, and the US Department of Health and Human Services Unified Coordination Group (UGC).
9. Continue to enhance situational awareness and common operating picture of all activities.
7. Gather, analyze, and disseminate GIS data to develop products for future planning.

Joint Information Center / Public Information Officer

Flint Joint Information Center Daily Update

February 18, 2016

Situation Report

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Feb. 18.

State agencies at the JIC included the Michigan State Police, Michigan National Guard, Michigan Departments of Environmental Quality, Agriculture and Rural Development, Health and Human Services and Transportation. The Genesee County Sheriff and American Red Cross were also present.

Tasks accomplished:
- Called local Flint schools to inquire about meetings and community events.
- Media hotline staff answered fewer than 10 emails and phone calls that ranged from media inquiries about Flint water to groups looking to send machines to help with pipe issues.
- Created a media monitoring report and looked for misinformation; found none.
- Issued a news release about a recycling event on Saturday with MSU student athletes.
- Issued a news release about Michigan.gov/flintwater hosting key information in American Sign Language and four other languages.
- Continued routing public information materials for approval, including updated information on recycling, testing your water, and keeping kids safe. Received and posted additional translated materials to www.michigan.gov/flintwater.
- Received and uploaded videos in American Sign Language and additional translated materials on www.michigan.gov/flintwater. Issued a news release about the availability of these materials.
- Drafted social media posts for approval and distribution.
- Continued printing emails from JICNews and JICManager email accounts for submitting to FOI staff.
- Updated the Daily JIC Activities log to catalog actions completed for the day and planned products and events for the week.
- Capt. Kelenske gave an in-person interview with Steve Carmody of Michigan Public Radio.
- JIC staff assisted with a Governor Snyder press avail at the Flint State Office Building.

Agriculture and Rural Development (MDARD)

As of 10:00 on 2-18-16:
- 26 water assessments were completed
- 26 In-Use samples were collected.
- 2 sampling appointments have been scheduled.
- No new results

As of 1600, 2-18-16:

We are preparing to rotate out staff with six replacement food inspectors and 2 sanitarians from Genesee County Health Department. Training will start on Monday, February, 22, 2016

Staff spoke with the Genesee County Land Bank about garden projects on their properties and provided them with links to MSUE bulletins

An updated pet health document was provided to the JIC for approval. This clarifies that pets in homes with greater than 150 ppb lead in water should be provided with bottled water. Once approval is received these documents can be distributed.

American Red Cross (ARC)

The American Red Cross deployed 5 Water Response Teams on Thursday, 2/18/16. We plan to deploy 5 teams tomorrow as well.

The Volunteer Reception Center (VRC) was operating today from 9am to 5pm, and the plan is for those hours to continue daily, through Sunday. 76 event-based volunteers (EVB) were processed through the VRC by 4 pm today. 73 EVBs were placed on projects today.

46 boxes of bottle recycling kits were assembled today (4,600 kits).

Civil Rights (MDCR)

Continue to monitor media and state agency activities for issues impacting underrepresented, at-risk, and populations with barriers to services and information. Facilitated contact between Commissioner with Hispanic Latino Commission with questions on lead and lead poisoning and MDCH/CDC point of contact. Notified staff as to community groups active in recovery.

Community Health (MDCH)

The CHECC remains activated at a Level 2, and continues to staff the hotline Monday through Friday to answer any lead health-related questions referred by 2-1-1 in support of the GCHD. The CHECC continues to provide representation to the UCG to facilitate communication with federal partners.

Forwarded a request for a licensed medical professional, who has knowledge of lead, legionella, rashes, and other water health related concerns to be stationed at GCHD-EH division to assist with communicating MDEQ water results and health risks. The request is currently being routed by SEOC Logistics through donations management personnel in order to determine if any offers for the donation of personnel/volunteers can be identified to fulfill this request. The request was also forwarded by the CHECC to the UCG for assistance.

Received information regarding a request for a webinar series, similar to the webinars currently being provided on Wednesdays to healthcare providers, be offered for Genesee County Intermediate School District (GCISD) personnel that is tailored to educators in Flint. This request was forwarded to the SEOC MDE EMC to coordinate with the CHECC as appropriate.

Requested that the CHECC provide the SEOC with a CDC point of contact for the Commissioner of the Hispanic Latino Commission to reach out to for information on lead and lead poisoning, at the request of the Department of Civil Rights SEOC representative. This connect was made between the Commissioner and the DHHS Liaison Officer in the CHECC. The DHHS LNO will work with the CDC representatives in the UCG to communicate with the Commissioner as requested.

Received information from the CHECC and UCG regarding the funding announcement given this afternoon by DHHS. This information was provided to the State Director and SEOC Operations Chief. Secretary Sylvia M. Burwell announced that $500,000 in funding will be provided to Hamilton Community Health Network, Inc. (HCHN) and Genesee Health System (GHS). Each entity will each receive $250,000 in emergency supplemental funding to hire additional personnel and provide more lead testing, treatment, outreach, and education to meet the increased need for health services in the Flint community. The funds will come in as a "One Time Supplemental Grant," with no match/no repayment options.

The DHHS ASPR released Site Specific Guidance for blood lead level testing and follow-up care for children exposed to lead. This document has been posted to MICIMS in the MDCH Activity Log.

Continue to work with the JIC, LARA, CHECC, and the SEOC PIO to ensure that the translated flyer for pregnant women are processed for approval and that the English and Spanish versions are ready to be printed and sent to the GCHD.

Corrections (MDOC)

Warehouse 2 was fully operational today. The 7th Day Adventists were on site to job shadow.MDOT is dedicating 2 employees to the effort. DTMB continues to dedicate 2 trucks with drivers.

A box truck operated by MDOC staff was involved in a minor vehicle accident in the parking lot of POD #3. A van struck the side of the box truck. There was minor damage to the box truck and the van's front end was damaged. No injuries or violations were issued. A Police report was completed by Flint PD. We also had a box truck operated by MDOC staff back into the overhang of POD #3. No damage to the vehicle, police report completed by Flint PD.

The permanent replacement battery was delivered today for the forklift at Warehouse 2.
To following safety concerns at are still in process at Warehouse 1:
-Security staff to restrict access (In process)
-Floor tape designating machine and pedestrian areas (Tape arrived today and will be placed on the floor by the weekend)

MDOC continues to keep trucks dedicated to delivering to individual POD's and covering Rapid Responses for PODs that get to a critical level. PODs remained well supplied throughout day and will continue to be well supplied moving forward.

We have been assigned assess and prepare a permanent staffing structure and equipment analyses for all warehouse operations.

MDOC continue to staff the SEOC from 0800-2000, 7 days/week. Mike Farmer and Bridget Spencer are managing the Recovery Branch of the SEOC

306 DEQ and 12 were MDARD test kits were delivered from Flint to Lansing today.

Education (MDE)

MDE staff and Genesee ISD business and program staff met on Flint Emergency Fund reporting requirements.

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities today:

- Continued documenting compliance with EPA Emergency Administrative Order and second EPA request.
- A collector App was developed by DNR GIS to be utilized by the High Lead/Copper Teams for real time data collection in the SEOC. Display currently operational.
- Began planning for next phase of testing and data collections.

Licensing and Regulatory Affairs (LARA)

Participated in briefings and updated the LARA Executive Team.

LARA continues to monitor DEQ's test results for Health Care, Child Care, Adult Foster Care, HHS and MDE facilities and Schools.

Faucet Project information is being prepared for the affected facilities. LARA continuing efforts to plan and schedule faucet replacements for Flint facilities. LARA is working with MDOC to track and store incoming material at the warehouse.

Translation services for various documents continue to be provided as needed - these include Spanish, Arabic, Mandarin, Hmong and American Sign Language. Ongoing discussion regarding coverage of state regulated facilities and elimination of duplication of effort with state agencies. Arrangements in progress for assistance to various ethnic communities to provide services.

Military and Veterans Affairs (DMVA)

MSgt Whalen,

Do you have any SA on the VIP that might be coming to POD5 on Monday next week (who/when)? There were inquiries this morning as to who the NCOIC would be that day at the POD, but nothing since.

Thanks,
Capt Bechtel

MSgt,
I will make sure all PODs are aware of the one format and utilize it for reporting. Have they been using the incorrect format the entire day?

Subject: REMINDER: Items to Note

Importance: High

Good morning-

REMINDEReven if you have nothing to report (NTR), please respond to this inquiry with NTR or high level item information as soon as possible. Thank you!

Please submit any high level items which should be included in Governor's report today by 10:00am. Daily tasks do not need to be submitted since they will be reported in today's Sit Rep.

Thanks,

Carol Wolfinger
Planning Group Chief, State Emergency Operations Center
Michigan State Police/Emergency Management and Homeland Security

NOTES:

Appendix 2 (Commanders Situation Report) (SITREP) Annex R to OPLAN 14-001 (ALL HAZARDS)

Commanders Situation Report (SITREP)

1. DTG: 1811152016

2. UNIT: Points of Distribution (PODs), TF FLINT (1-125 IN)

3. POC: Capt Bechtel, Jennifer E. (517) 582-4816 Email: ng.mi.flint.eoc@gmail.com

4. PRESENT LOCATION: Genesee County Local EOC, 1101 Beach St., Flint, MI, 48502

5. SITUATION OVERVIEW: NG Task Force Flint has 88 Soldiers deployed to the Flint Water Crisis in support of Distribution Operations at the Points of Distributions (PODs). Daily operations consist of receiving, tracking, and issuing out water, filters, replacement filters, and water test kits.

6. OWN SITUATION DISPOSITION /STATUS: Currently NG Task Force Flint has Soldiers on ground supporting the mission.

7. OPERATIONS: Operations for the next 24 hours are to sustain water/filter distributions throughout the 5 designated fire stations and track all distribution incoming and outgoing through the PODs.

a. Signs have been printed off for the POD Buildings. Requesting approval to get the signs laminated from the purchasing office.

1.) TF Flint OIC, 2Lt Carter will be meeting NLT 19FEB2016 with Calix Martinez in the city of Flint Plans and Marketing office to have signs designed and printed.

b. RIP/TOA activities with the new team will conclude today. 2Lt Carter will be the new OIC.

c. VIP anticipated at POD 5 today and another VIP anticipated at POD 5 on Monday, February 22nd.

8. PERSONNEL: 88 Soldiers are currently assigned to the POD operations. Soldiers are assigned in five teams at Fire Stations 1, 3, 5, 6 and 8.

9. INTELLIGENCE / FORCE PROTECTION:

10. LOGISTICS: In support of TF Flint

a. The VRC is now assembling the recycling kits and a plan is being coordinated to facilitate delivery to warehouse. Warehouse drivers will distribute evenly to the PODS on Monday.

b. Recycling trailers are being assessed by Schupan on frequency of pickup.

11. COMMUNICATIONS: No communications issues at this time.

P: RRF cell phones alternate for WRTs
A: Personal cell phone
C: 800 MHz radios issued to PODs and WRTs.
E: Runner

12. NARRATIVE: N/A

13. COMMANDER'S EVALUATION:

- AAR and operational notes are being consolidated into SOP's to send to JOC to assist in updating the All Hazards Plan.
- An operational handoff packet including SOP's, POC's, POD sector sketches, hand-receipts, and other operational notes has been handed of per RIP/TOA
- OUT (last 24 hours)

Attachments: 2LT_BENKE_NOTES_18FEB16.docx

ALCON,

Attached are my notes from Wednesday, 17FEB16 for the Thursday, 18FEB16 SITREP. RIP/TOA activities with the new team will conclude today. 2Lt Carter will be the new OIC. He, as well as everyone within the command team and the POD NCOIC's, have been given detailed RIP/TOA packets with POC's, SOP's, hand receipts, sector sketches, and a myriad of other TF FLINT relevant documentation. 2Lt Carter also has been given all of these items on digits to ensure he, and the command team, can update these documents as needed.

This will be the last set of notes that comes up from me. Tomorrow 2Lt Carter will begin generating the daily notes. 2Lt Carter will be sending up a new POC roster for his team to the LEOC, SEOC, and JOC NLT 1030 today. Also, by COB today, all of our RRF phones will be signed over to our incoming counterparts. I will still be submitting an AAR and a list of those who myself and the command team are recommending for letters of appreciation but everything else should start coming up through 2Lt Carter and his new team.

Let me know if there are any last questions or concerns for me to address. I would like to personally thank everyone for all of the assistance and guidance they have provided both myself and TF FLINT throughout this last month. I should be moving to the G3 within the week to continue to assist TF FLINT and I look forward to continue working with all of you.

ALCON,

Attached are my notes from Tuesday, 16FEB16 for the Wednesday, 17FEB16 SITREP. RIP/TOA activities with the new team are underway. An email was sent to CPT Kimball in regards to the RRF comms equipment to ensure the incoming team has all the equipment they need. Let me know if you have any questions or concerns.

ALCON,

Attached are my notes from Sunday, 14FEB16 for the Monday, 15FEB16 SITREP. I will continue to keep the LEOC & SEOC LNO's informed as requested assets or services are delivered/complete. 2 points of interest are 1. do we have a POC for the incoming unit? and 2. each POD will now have a dedicated email (station#POD@gmail.com). Let me know if you have any questions or concerns.

ALCON,

Attached are my notes from Thursday, 28JAN16 for the Friday 29JAN16 SITREP. I will continue to keep the LEOC & SEOC LNO's informed as requested assets or services are delivered/complete. Let me know if you have any questions or concerns.

LTC Randall,

The LEOC has exhausted all of the local options for fulfilling my request for traffic control assets. Thus, if you could request assistance from MDOT for traffic cones & signs, that would help us greatly as stations 1, 5, & 8. Let me know if you need anything in specific from me to complete the request.

LTC Stemitz,

I visited and observed the stations yesterday and touched base with both the POD NCOIC's and soldiers working there to gather information on the public opinion towards the National Guard. Overall, it seems that the the community still has trust in us and is thankful for what we are doing for them. A few soldiers explained that they did have some people (less than 10%) complaining that they were not getting what they wanted and the blame had shifted to the POD workers, but, overall the public opinion is still good. Each station still has multiple citizens and businesses catering multiple meals a day for them to thank them for their hard work. I will continue to gather information in regards to public opinion and keep you informed of any downward changes.

Ray -
SA on the CCC for Flint.

We may not need NCO lead on the teams but will wait to see what Capt Kelenske asks for with the RFA.

I have all of the COA's that were discussed by team Flint if you need them.. This will transition our soldiers out of the PODs.

COL Durkac

You're working COA 4 for water distro transition as we read it. I'll call you tomorrow to talk it out. He wants to do the Seeds program for the CCC (beautification, trees, and such) and bifurcate that from the water distro transition. Completely separate at this point from the hiring program and water distro.

Kevin Weise

Subject: Re: Conservation Corps and Long Term Commodity Distribution

We were moving on COA4. So is COA 4 out? We would still use the "CCC" type program to hire but would use a direct distribute of replacement filters versus having replacements at the PODs.

We are getting granular on details/dates but hiring could start with personnel getting into the current PODs now.

Subject: Conservation Corps and Long Term Commodity Distribution

Attached are a few documents that eventually will come together to form a more solid plan.

One of the attached is how a conservation corps would potentially work in MI. There is some missing information in the document but it lays out courses of action with utilizing Seeds of Traverse City as a group to assist us. Seeds is an

ecology based youth conservation organization that was created in 1999 in Traverse City. They currently have operations in the Upper Peninsula, Traverse City Area, and Sleeping Bear Dunes. They are a 501 (c)3 organization that has the capacity to expand their operations into Flint.

I am also sending the notes from my staff on the local hire program and I believe TIA sent you the potential list of jobs which was also a part of this meeting.

Lastly, are bullet points from the course of action I believe is appropriate to push the distribution of commodities from the current PODs to 9 PODs (one in each ward) with local citizens hired to staff the PODs. I also attached all the COAs we looked at (the ppt) and COA1 and COA4 scored the best. The recommendation was COA4 with some modifications I made.

COA4 – Long-term Distribution

- These would be mostly portable PODs (parking lots, near bus stops, etc).

- Churches and other organizations could be credentialed to get some commodities (I believe water only is appropriate due to the current status of homes with filters). Many faith based organizations are currently only providing water.

- If possible, we should go to water only at the PODs under this COA (or if we need to, go with a week of all commodities and then move to water only). We have almost 90% of the homes on the water system with filters which is why the water only at the PODs seems appropriate. We always reserve the right to add commodities as needed for groups such as populations that for whatever reasons need additional support.

- We will continue with rapid response teams for homebound or other functional need issues.

- The COA selected is for filter replacements to be shipped by a third party. This would likely be two filters every other month per home on the water system or what we end up with deciding but I do not believe we need to do this every month based on current filter life. Cost is TBD at this time.

- This would eventually phase out the NG from PODs.

- Requires 81 personnel to be hired under the jobs program.

This all needs to be distilled and finalized with more details but the city, county, state, and FEMA were involved in this. Sean believes the Mayor will be on board and I advised him she would likely be the one delivering the message to show the city wants this. Let me know if this direction seem appropriate and we will finalize with more details.

Chris

So you're tracking, here are the answers to "The Questions".

This information needs to completed as soon as possible, the secretary needs the information by 7:15 tomorrow.

--Name and title of the lead person at the distribution site. We're looking to identify a point person to explain the distribution operation to the Secretary and answer any questions she has.

--How many National Guard troops are working at water distribution sites across town.

--Number of water distribution sites

--Why fire stations are the preferred distribution site

--Data, including the number of palates of water (or water bottles) available at that site for distribution, number of filters available for distribution

--Any limitation on distribution? We're aware of the 1 case of water/person/day rule, but want to know of any others

--Data, including the number of palates of water (or water bottles) available at that site for distribution, number of filters available for distribution
--Any limitation on distribution? We're aware of the 1 case of water/person/day rule, but want to know of any others

The lead person should also be able to answer questions about resident feedback and reactions to the water distribution program.

Thanks,
Lauren Underwood

Notes from Wednesday February 17, 2016

Flint Water Crisis RRF Notes

Problem #1: Signs – Each station is using handmade signs that are neither durable nor professional in appearance.

Solution – Once MDOT sets up the remaining sites, we need to have signage made to further increase station organization, flow of traffic, professional appearance, and efficiency.

Response – TF Flint OIC confirmed that City of Flint Plans & Operations office can print large signage for the PODs. TF Flint has been given approval to have the signs laminated once printed. TF Flint was unable to meet with Calix Martinez in the City of Flint plans and marketing office due to PIR/TOA activities – meeting with him will be rescheduled within NLT 19FEB16.

ADDITIONAL NOTES:

- AAR and operational notes are being consolidated into SOP's to send to JOC to assist in updating the All Hazards Plan.
- An operational handoff packet including SOP's, POC's, POD sector sketches, hand-receipts, and other operational has been passed on to the OIC, NCOIC, POC NCOIC's and other elements of the new command team.
- Each POD will be utilizing a new Gmail account so that as unit's cycle in/out, rather than the email chain changing, it will remain constant. The new email accounts are as follows:
    - Station 1: flintstation1@gmail.com
    - Station 3: flintstation3@gmail.com
    - Station 5: station5POD@gamil.com
    - Station 6: station6POD@gmail.com
    - Station 8: station8POD@gmail.com
- Today is the last day of RIP/TOA activities. By COB today, 2Lt Carter, the new TF FLINT POD OIC, and his command team will have taken over full control of POD activities for TF FLINT.

NOTES:

Commanders Situation Report (SITREP)

1. DTG: 1712002016

2. UNIT: Points of Distribution (PODs), TF FLINT (1-125 IN)

3. POC: Ssg Gazzeny, Darryl L. Cell: Email: armyinfantry31@yahoo.com

4. PRESENT LOCATION: Genesee County Local EOC, 1101 Beach St., Flint, MI, 48502

5. SITUATION OVERVIEW: 1-125 IN including additional mixed state units has Soldiers deployed to the Flint Water Crisis in support of Distribution Operations at the Points of Distributions (PODs). Daily operations consist of receiving, tracking, and issuing out water, filters, replacement filters, and water test kits.

6. OWN SITUATION DISPOSITION /STATUS: Currently 1-125 IN has Soldiers on ground supporting the mission.

7. OPERATIONS: Operations for the next 24 hours are to sustain water/filter distributions throughout the 5 designated fire stations and track all distribution incoming and outgoing through the PODs.

a. Signs have been printed off for the POD Buildings. Requesting approval to get the signs laminated from the purchasing office.

1.) TF Flint OIC, 2LT Benke will be meeting NLT 19FEB2016 with Calix Martinez in the city of Flint Plans and Marketing office to have signs designed and printed.

b. Soldiers are conducting RIP/TOA with key leadership roles and designated POD NCOIC's.

c. 44 Soldiers from 1-125 IN are conducting reverse RSOI in Saginaw.

8. PERSONNEL: 88 Soldiers are currently assigned to the POD operations. Soldiers are assigned in five teams at Fire Stations 1, 3, 5, 6 and 8.

9. INTELLIGENCE / FORCE PROTECTION:

10. LOGISTICS: In support of TF Flint

a. The VRC is now assembling the recycling kits and a plan is being coordinated to facilitate delivery to warehouse.

b. Recycling trailers are being assessed by schupon on frequency of pickup.

11. COMMUNICATIONS: No communications issues at this time.

P: RRF cell phones alternate for WRTs.
A: Personal cell phone
C: 800 MHz radios issued to PODs and WRTs.
E: Runner

12. NARRATIVE: N/A

Appendix 2 (Commanders Situation Report) (SITREP) Annex R to OPLAN 14-001 (ALL HAZARDS)

13. COMMANDER'S EVALUATION:

- AAR and operational notes are being consolidated into SOP's to send to JOC to assist in updating the All Hazards Plan.
- An operational handoff packet including SOP's, POC's, POD sector sketches, hand-receipts, and other operational notes has been handed of per RIP/TOA
- OUT (last 24 hours)
